TERRIBLE EXPLOSION.—Beatty's Powder Mills, near Baltimore, U. S. exploded on the morning of the 23rd ult., with most calamitous effect. Five men were blown to atoms. It is said that there were not less than 2 tons of powder in the mills. The surrounding country for a considerable distance, including even the city of Baltimore, was violently shaken, as if by an earthquake. A Philadelphia paper gives the following description:—

"On repairing to the scene of disaster, the three large buildings (70 yards apart), belonging to the mill, were scattered over the surrounding country to the distance of ten acres. There were five men in the building at the time of the explosion, and they were blown into hundreds of fragments—legs, arms, heads, masses of flesh and bones were scattered in every direction, and the entrails of a man were found hanging to the limb of a tree more than a hundred yards from the mill. The houses for a mile and a half in the country were more or less damaged; doors were forced open, windows broken and prostrated by its effects. No idea can be formed as to the cause of the explosion, as all the witnesses were instantly killed. One of the workmen left the mill a few minutes before the accident, and the hands were at that time at work at their regular business. The names of the five persons who lost their lives by this disaster are Jas. Bush, Francis Woodward, William Brandon, a German named Knoop, and a coloured man named Nelson Wigner."

MEXICO.

TAMPICO, on the coast of Mexico, has been captured by the naval forces under Commodores Conner and Perry. It was taken without resistance, the Mexican garrison having been previously withdrawn and directed to repair to the interior.—This is in accordance with Santa Anna's policy, of abandoning all the distant and weak points and concentrating his forces in the heart of the country.

The accounts from Washington assure us that a new plan of operations will be adopted as soon as General Scott reaches the scene of action. What the new plan is, does not yet clearly appear. One letter says that the march in the direction of Monterey will be abandoned, and the route by Tampico substituted; while another letter avers, that the whole army will fall back on the line of the Rio Grande, and the United States be content with their two conquests of California and New Mexico. Other rumours are afloat, such as a meditated attack on the Castle of St. Juan d'Ulloa, but they are not traceable to any authentic source.

The intelligence of another political overturn at the city of Mexico seems to rest on no sufficient foundation, as well as the report that General Almonte is to be sent to England. Internal disputes at such a moment seem inconceivable; but the Spanish character is a riddle. The story of Santa Anna having seized a conducta of two millions of dollars, bound to England, and of being obliged to surrender it, has not yet assumed a sufficiently definite shape to enable us to make the necessary comments on such a transaction.—*Albion.*

WASHINGTON.—THE CASTLE OF VERA CRUZ TO BE ATTACKED.

(*From the Philadelphia Enquirer.*)

The Washington Fountain learns from the "best authority, that all idea of a peace with the Mexicans upon the present plan of operations has been utterly abandoned by the government—that it has been determined to take at all hazards the Castle of San Juan d'Ulloa, and to occupy it and the port of Vera Cruz until our subborn enemy shall be reduced to submission—that Tampico, Mazatlan, Alvarado, Tabasco, Campeachy, and every other Mexican port at which trade can be carried on, is to be seized and held by our forces—that Gen. Taylor has been entrusted with full power and positive orders to harass and destroy the enemy in every possible way, and so soon as the new reinforcements, which are to be increased immediately to the utmost point allowed by law, shall reach the scene of operations, to march to the city of Mexico—that no quarter, consistent with the rules of civilized warfare, is be given hereafter to the enemy until he sues for peace, and shall make restitution for the entire expenses of the war; and finally, Gen. Scott is to be sent to the seat of war, (invested with the largest discretion) to direct the operations of the Army of Invasion."

IMPORTANT RUMOUR FROM VERA CRUZ.—A postscript to a letter dated Point Isabel, Nov. 11th, 6 P.M., received in this city last evening, from an officer in the army, states that a report had just reached the Point, via Monterey, that Vera Cruz had been taken by the American squadron, after a hard-fought action. The loss on both sides was stated to have been very great.—*Boston Transcript, 27th.*

"I have to recommend to your notice some excellent tracts on the errors of Popery, drawn up by the Rev. J. Endell Tyler, and published by the Society for the Promotion of Christian Knowledge, as a means of countervailing the attempts which are made by the emissaries of Rome to unsettle the minds of our people by the dissemination of cheap publications. These Tracts are admirably adapted to that end by the soundness of the arguments which they contain, and by the charitable spirit in which those arguments are brought forward.—*Bishop of London's late Charge.*

"With respect to the Papal supremacy and infalibility, I need hardly tell you that every argument which can be urged in their favour has been thoroughly sifted and solidly refuted in that treasury of learning, Dr. Barrow's "Treatise on the Pope's Supremacy," of which Archbishop Tillotson truly says, that it has "exhausted a subject handled before by many others insomuch that no argument of moment, nay, hardly any consideration properly belonging to it, hath escaped his large and comprehensive mind. He hath said enough to settle the controversy for ever, and to deter all wise men from meddling any further with it."—*Bishop of London's late Charge.*
