Guard Your Health

You Can Do This by Keeping the Blood Rich and Red.

It is useless to tell a hard working woman to take life easily and not to worry. Every woman at the head of a home; every girl in offices, shops and factories is subject to more or less worry. These worries cannot be avoided. But it is the duty of every woman and every girl to save her strength as much as possible, and to build up her system to meet unusual demands. Her future health depends upon it. To guard against a breakdown the blood must be kept rich, red and pure. To keep the blood in this condition Dr. Williams' Pink Pills will be found most useful. They strengthen the nerves, restore the appetite and bring the glow of health to pallid cheeks, and renewed energy to listless people. Women cannot always rest when they should, but they can keep up their strength through the occasional use of Dr. Williams' Pink Pills. This is shown by the case of Mrs. Minnie Swick, residing near Simcoe, Ont., who says: "A few years ago I was in a deplorable state of health. My blood was weak and watery and the circulation poor. My appetite was poor and what food I did take distressed me. I was not able to do my housework, and often my nights were sleepless, and headache and backache added to my misery. I was finally persuaded to drop other medicines and take Dr. Williams' Pink Pills. This I did, and after taking the pills for a couple of months I could do my housework with ease, eat well, sleep well and had gained in weight. From my own experience I cannot praise these pills too highly."

You can get Dr. Williams' Pink Pills from any dealer in medicine, or by mail at 50 cents a box, or six boxes for $2.50, from The Dr. Williams' Medicine Co., Brockville, Ont.

George Presbyterian congregation was held on Wednesday evening, Jan. 15. Reports were read from the Session, Board of Managers and Sabbath School. The Ladies' Auxiliary also made a verbal report. Finances of the church were found to be in a healthy condition, more than $3,100 having been raised for church purposes during the past year. The audience present had the pleasure of witnessing the burning of the Manse mortgage, which was performed as follows: The document was held by Hector McKenzie; Dr. H. I. Taylor applied the torch, and Miss Phoebe Moran caught the ashes in a receptacle. Some discussion then took place about church repairs and a committee consisting of Dr. H. I. Taylor, John C. O'Brien and Thomas R. McIntyre was appointed to look into the matter and decide what action might be taken to make the church look more modern. A committee consisting of Rev. E. J. Kerr, Mrs. John C. An intensely interesting programme was carried out which opened with the enrollment of a new member—Miss Gladys Murray. Roll call and inspection, which included physical drill and their regular exercises, followed the enrollment ceremony. Then came the business meeting, and one very interesting feature of that was the report from each patrol of the good turns done by them, individually, during the last five weeks. After the business was finished the badges, for which the girls had worked so hard, were awarded. The ambulance badge was awarded to every member of each patrol. Guides Harriet Vanstone and Myrtle Vail, of the Violet Patrol, and Guide Bertha Christie, of the Bluebird Patrol, were awarded the needle woman badge. Guide Harriet Vanstone also won the laundress badge and the swimmer's badge. Guide Nellie Wilson, of the Bluebird Patrol, was awarded the naturalist badge. After the games and songs a very instructive and entertaining exhibition of the stretcher drill, the signal flag drill and the stave drill was given. At this point in the programme all who had assisted the Guides in their work were called to the front of the room and received sincere and hearty thanks in true Guide fashion for what they had done. Mr. N. Marks Mills took the opportunity thus provided to express the appreciation of the parents for the wonderful work done in this splendid organization by Capt. Elsie Lawson and Lieut. Alba Granville, and as tangible evidence of it, presented Miss Lawson with a very pretty leather handbag containing a $20 gold piece, and Miss Granville with a handsome silk umbrella. WAS TROUBLED WITH HER LIVER FOR OVER 4 MONTHS

When the liver becomes slow, sluggish and torpid it is not working properly and does not supply sufficient bile to thoroughly act on the bowels and carry off the waste products of the system, hence the bowels become clogged up, the bile gets into the blood, constipation sets in and liver troubles follow among which are, sick or bilious headaches, heartburn, water brash, jaundice, floating specks before the eyes, pain under the right shoulder, coated tongue, bad breath, yellow eyes, etc.

MILBURN'S LAXA-LIVER PILLS

GAGETOWN

Gagetown, Jan. 25.—Preceded on Saturday and on Sunday morning by a snow storm of quite sufficient proportions, a blizzard of unusual ferocity struck the village on Sunday afternoon, a little after five o'clock, and raged all night. Clouds of snow swept through the air, obscuring the view of buildings only a few feet away, and making travelling on the roads very difficult. H. B. Bridges, crossing the river in a sleigh from Jemseg, experienced all the sensations of a prairie blizzard, and Dr. William Jenkins and Harry Brooks were nearly struck by a large pine tree, which snapped off and fell just in front of them as they were driving along the back street, in front of N. H. Otty's. During the night, houses were violently shaken by the terrific gusts of wind, and in the morning, branches of trees and other debris strewed the snow. A large tree was blown across the road at Lower Gagetown, snapping the telephone wires and cutting off connection with down river points. Two large old spruce trees were blown down on the grounds of Gabriel DeVeber, one of which happened to fall on a new sled, damaging it badly. Nearly everyone had some incident to relate yesterday morning of the effects of Sunday night's blizzard.

The drifting snow completely filled the cuts along the Valley Railway here; but the snow plough soon scattered it, when it made its appearance early in the forenoon.

Although there was very little snow left to drift yesterday, the wind continued heavily all day, and combined with a temperature of 15 below, made the day an unpleasant one to be out in. This morning, after a clear calm night, the thermometer stands at 26 below zero.

Winter Hard On Baby

The winter season is a hard one on the baby. He is more or less confined to stuffy, badly ventilated rooms. It is so often stormy that the mother does not get him out in the fresh air as often as she should. He catches colds which rack his little system; his stomach and bowels get out of order and he becomes peevish and cross. To guard against this the mother should keep a box of Baby's Own Tablets in the house. They regulate the stomach and bowels, and break up colds. They are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.
