ROBERT LAY.

Montreal, December 1, 1850.

Dr. A. B. Christie—Dear Sir: You wish to know if I am satisfied with the results of my suffering from the application of THE GALVANIC BELT AND NECKLACE. My reply is as follows:

For about Every year the symptoms became worse and worse; I underwent a course of frequent exposure to the discharge of my natural duties, which I was unable to perform, and I was compelled to resign my situation. I was attacked with Nervous Complaints, Dyspepsia, Rheumatism, Sciatica, Nervous Headache, Sleeplessness, Nervous Trembling, Pain in the Side and Chest, Liver Complaint, and Chronic Sciatica, Stiffness in the Joints, Hip Complaint, Bile, Kidneys, Deficiency of Nervous Energy, and all Nervous Complaints, which had so long rendered life a burden to me, and which I had tried in vain to remove by medicine. At last I was induced to try the Galvanic Belt, Bracelets, and Magnetic Fluid, which I purchased of Dr. Christie, who was then in Montreal. I commenced using the Galvanic Belt, Bracelets, and Magnetic Fluid, and in a very short time I was enabled to resume my situation, which I have since continued to fill with the greatest ease and pleasure. I am now in the enjoyment of good health, and I attribute my recovery to the use of the Galvanic Belt and Necklace, which I shall always recommend to persons in my condition.

Montreal, May 24, 1850.

Dr. Christie's Galvanic Curatives, genuine in the fact that they arrest and cure diseases by natural application, in place of the usual mode of dragging the system into a state of disease, till exhausted Nature sinks helpless under the infliction.

They strengthen the whole system, equalize the circulation of the blood, promote the secretions, and cause the blood to circulate in a healthy manner, consequently their introduction in the United States, only three years since, more than

75,000 Persons

including all ages, classes and conditions, among which were a large number of Ladies, who are peculiarly subject to Nervous Complaints, have been

ENTIRELY AND PERMANENTLY CURED,

when all hope of relief had been given up, and everything else been tried in vain.
