A Lot of Linen Seconds to Go, Too.

We have just opened up a lot of splendid seconds. People don't know about it yet, but when they do—well "Sold Out" is what the clerks will have to say many a time to those who come too late. The prices are very low, the qualities are good, and the quantity is limited. But together with our New Linens imported for the Christmas trade, we expect a lively time at our Linen Counter. Slightly over 100 Tablecloths (seconds), any size from two yards square to four yards in length, can be had by those who come early at the following prices:

$1 00, $1 15, $1 25, $1 35, $1 50, $1 75, $2 00, $2 25, $2 35, $2 50, $2 75, $3 00, $3 25.

Feather Pillows at Only $1 25 the Pair.

How do we do it? Well, we buy a lot of them and get a special rate. It's the great quantities we buy of everything that gets our prices so low.

"Our Leader" is of selected chicken feathers, weigh 6 lbs to pair, is 18x26 size, has blue and white striped ticking for cover, and our price is only per pair (not each, as you might think).....$1 25

We have other lines, covered with good and attractive tickings; feathers free from dust, odor or quills.

ESCAPED CONVICTS HOLD UP A TRAIN.

Florence, Kan., Nov. 15.—Two convicts from Fort Leavenworth boarded a train at Clements during the night, and forced the porter to remain on the platform with them. The pair finally jumped off the train at Florence at 4:30, and took refuge in the heavy timber. A pose of Leavenworth guards came two hours later and started in pursuit. Nine convicts are still at large.

Guthrie, Ok., Nov. 14.—The stage and mail coach, running between Marlow and Bailey, I. T., was held up yesterday by highwaymen. The mail pouches were rifled and the passengers and driver robbed of all cash and valuables.

DEAD IN A FIELD.

Tottenham, Ont., Nov. 15.—Patrick McGovern, a highly respected farmer of Adjala, left his home on Thursday morning, and not returning by evening his friends, after searching for him, found him dead in a field on a neighboring farm. It is thought he must have lost his way, and accidentally fallen, stunned himself, and did not regain consciousness. Deceased was 55 years of age and leaves a wife and nine children.

Anyone troubled with boils, pimples, rashes, festering sores, or any chronic or malignant skin disease, should use Burdock Blood Bitters externally and take internally. It will cure where others fail.

WITH A CAPITAL OF $400,000,000

Organization of the Northern Securities Company—Interests Involved—The Directorate.

New York, Nov. 14.—The directory of the Northern Securities Company, incorporated yesterday at Trenton, in connection with the settlement in the Northwestern Railway situation, was announced today. It is composed as follows: John S. Kennedy, D. Willis James, Samuel Thorne, J. J. Hill, E. T. Nichols, George F. Baker, Robert Bacon, George W. Perkins, Daniel S. Lamont, E. H. Harriman, Jacob H. Schiff, James Stillman, W. P. Clough, G. C. Clark and N. Terhune.

London, Nov. 14.—Lord Strathcona, the Canadian high commissioner who sailed from New York yesterday, will represent and attend to the British interests of the Northern Securities Company, incorporated yesterday at Trenton, N. J., with a capital of $80,000,000.

New York, Nov. 14.—Trading in the stock of the Northern Securities Company began in the outside market today. All transactions were made "subject to the provision when issued." The stock opened at 110 bid. Operations were very light in volume, and later in the day the stock declined to 103 bid, with offers at 112. Northern Pacific convertible 4 per cent bonds were 104 bid, with no transactions.

New York, Nov. 15.—The Times this morning says: James J. Hill, president of the Great Northern Railway, was yesterday (Thursday) elected president of the Northern Securities Company, the new $400,000,000 securities corporation, through the medium of which the Northwest tangle was disposed of. The board of directors of the new company was also elected. They are as follows: John S. Kennedy, D. W. Willis James, Samuel Thorne, James J. Hill, E. T. Nichols, George F. Baker, Robert Bacon, George W. Perkins, Daniel S. Lamont, E. H. Harriman, Jacob H. Schiff, James Stillman, W. P. Clough, George C. Clark and N. Terhune. Of these six may be considered as representatives of the Great Northern interests, three represent the interests of J. P. Morgan & Co., and three more stand for the Harriman interests. Two are distinctly representative of the Northern Pacific Railway, and the remaining director, Samuel Thorne, who was president of the Pennsylvania Coal Company, which now belongs to the Pennsylvania Railway, is regarded as representing eastern interests. It is estimated, however, a difficult matter to draw lines which divide this board, according to the various interests which make up the Northern Securities Company. It may be stated on the authority of representatives of these interests that it would be a misconception of the purposes and objects of the new company and the agreement under which it was originated, to make an attempt to draw a circle around each particular interest having a delegation in the company. On the contrary, the scope of the settlement, according to the words of a member of the Harriman side, "is a much broader one." "It was the intention," he said, "to formulate an agreement under which all the interests, instead of remaining separate and distinct, could be molded into one, in order to secure an absolutely harmonious co-operation and unity of purpose. With this object in view every possible consideration was given not only to questions of finance, but also to those of territory and traffic. As a result an agreement has been reached which carries the idea of interest to the most advanced point which has yet been reached, and which assures the ultimate supremacy of this idea of railroad management over any other that has been advocated. Some people have made the point that the government of the United States should take over all the railroads after they have been brought as closely together as possible. For our part we would be willing to turn over to the government the securities of all the railroads we control on the same terms by which the government now buys its own bonds."

MAY BE A STRIKE

In the M. C. R. Shops at St. Thomas—Men Object to "Piecework."

St. Thomas, Nov. 14.—There have been rumors prevalent for some days that a change of system of payment for work in the M. C. R. shops is about to take place, piecework being substituted for daywork. The facts of the case appear to be these: The piecework system was inaugurated in the Detroit shops on Oct. 1, and it is said that the company has effected a considerable monthly saving thereby in the wage bill. A specialist was sent to examine and report upon the adaptability of the plant in the shops here for the piecework system. The men claim that a number of men would be prejudicially affected in the matter of wages, and in anticipation of a possible change a meeting of the employes of the shops was held last night. At this meeting, which was largely attended, the opinion was unanimous against the piecework system, but it was decided to let the matter stand until two men from each of the shops go to Detroit and inquire into the working of the system there and report to a meeting to be held next Wednesday night.

It has been stated that if the piecework system is introduced a strike will probably take place.

THE KNIGHTS OF LABOR.

Indianapolis, Ind., Nov. 15.—At the national convention of the Knights of Labor, General Master Workman Burns submitted his annual report, which consisted largely of attack on the American Federation of Labor. The general executive committee and Secretary-Treasurer Hayes also reported. Hayes recommended that the order secure the introduction in congress of laws to control the combinations. He said: "Organized labor must prepare for the gigantic struggle that is fast approaching, when the very existence of their organizations will be at stake." General Master Workman Burns, in his annual message, said: "The first great struggle between organized labor and a great trust was between the Amalgamated Association of Iron and Steel Workers and the United States Steel Corporation. It matters not what the errors and mistakes are charged to the officers and members of the Amalgamated Association, the facts are that the steel companies were victorious, because of the treachery and failure of organized labor to do its duty. The Amalgamated Association expected at least the friendship of the officers and members of the American Federation of Labor. They received nothing but deception and opposition. The leaders of the American Federation of Labor did not want President Shafer or his organization to win, because it might have given that organization and President Shafer some prestige and prominence. The largest political organization today is the Federation of Labor, using the name of labor for the purpose of advancing a few men politically to the great injury of the many."

Have You the Grip?

Everybody has Grip sometime and everybody knows that Quinine is the best remedy for it. But it produces unpleasant effects. They cure La Grippe, Colds, Coughs, Sore-throat, Neuralgia, Aches and Pains. "A dose at night makes you all right." Sold by druggists at 25c or by mail from the Canada Grip-Quinine Co., Brockville, Ont.

FOUND HIS BABY BOY SAFE IN A WELL!

Father Jumped In and Carried the Little One Out on His Back.

Wabash, Ont., Nov. 14.—While Archibald McKeegan was working around an uncovered well, his little 2-year-old boy became frightened and fell back boy became frightened at an approaching steed and fell backwards into the well, which was 21 feet deep and contained 6 feet of water. Mr. McKeegan grasped for him, but missed, and instantly jumped after him. Neither were seriously hurt, and after trying in vain to attract some person's attention for assistance, he strapped the little one to his back with his suspenders and scaled the well in safety with his precious burden.

Aches and Pains.

You know by experience that the aches and pains of rheumatism are not permanently, but only temporarily, relieved by external remedies.

Then why not use an internal remedy—Hood's Sarsaparilla, which corrects the acidity of the blood on which rheumatism depends, and cures the disease.

This medicine has done more for the rheumatic than any other medicine in the world.

ART OF NAVIGATION.

"I believe that man will at last succeed in navigating the air," observed Mr. Buzehard thoughtfully.

"Not until he masters the art of navigating a sidewalk," replied his wife, scornfully, and Mr. Buzehard at once became absorbed in his newspaper.

A TONIC FOR THE DEBILITATED.—Parmelee's Vegetable Pills by acting mildly but thoroughly on the secretions of the body are a valuable tonic, stimulating the lagging organs to healthful action and restoring them to full vigor. They can be taken in graduated doses and so used that they can be discontinued at any time without return of the ailments they were used to allay.

THERE IS DANGER in neglecting a cold. Many who have died of consumption dated their troubles from exposure, followed by a cold which settled on their lungs, and in a short time they were beyond the skill of the best physician. Had they used Bickle's Anti-Consumption syrup, before it was too late, their lives would have been spared. This medicine has no equal for curing coughs, colds and all affections of the throat and lungs.
