THIN-BLOODED MEN AND WOMEN

Need the Rich, Red Blood Dr. Williams' Pink Pills Actually Make.

Thin-blooded people do not remain so from choice, but from indifference; in some cases from despair. People who are pale, languish, with palpitation of the heart, some difficulty in breathing and a tendency to be easily tired are suffering from thin blood. They need only the resolution to take the right treatment and stick to it until cured. The remedy that can be relied upon is Dr. Williams' Pink Pills for Pale People. With every dose they make new blood, and new blood means health and strength. The red cheeks good appetite, increasing weight and strength that follow the use of these Pills prove their great value to thin-blooded people. Here is an example. Mrs. R. Steele, Afton Road, P. E. I., says: "Following child-birth I took a pain in my head which grew so bad I had to call in a doctor. He told me that my blood had turned to water and that I was in a serious condition. He treated me four months, but still the pain remained, and my condition was growing pitiable. I lost my appetite, and was so weak and run-down that I could no more than walk across a room. I was as pale as a corpse, and the doctor told my friends he had but little hopes of my getting better. A cousin who came to see me urged me to try Dr. Williams' Pink Pills, and I sent and got a supply. In about a month after beginning their use I had much relief, and by the time I had taken six more boxes I was fully cured and felt as well as ever I did in my life. I have never had a twinge of the pain since, and feel that I owe my life to Dr. Williams' Pink Pills, as they cured me after the doctor had failed."

Sold by all medicine dealers or sent by mail at 50 cents a box or six boxes for $1.50 by The Dr. Williams' Medicine Co., Brockville, Ont.
