## THE SPORTING WORLD

The stud fee of the celebrated trotting stallion, Daniel Lambert, during the coming season will be $500.

Chas. Mitchell, Madden's pet, and Jim Wilson had another boxing bout at Sheffield on Feb. 5. Mitchell came out ahead.

Foxhall will probably take Craig Millar's place in the Marden Deer Park stud when his career on the English turf is finished.

Count Lagrange has reduced his stable at Newmarket and relinquished the first claim on the services of the jockey Goater.

Dan J. Ross, the ex-Canadian runner, is now part proprietor of Shackleford, Ross & McGee's minstrels, a Western organization.

An attempt will shortly be made, by means of a very ingenious contrivance, to walk from Woolwich to London Bridge on the Thames.

A bet of 600 to 100 was on Feb. 3 taken in London, Eng., about Shotover, Fachem and Battlefield "mixed," for the City and Suburban.

The Manitoba Turf club will give a meeting in June, when purses will be hung up large enough to tempt Minneapolis horses to cross the border.

Foxhall, on Feb. 14 made a notable advance in the quotations for the City and Suburban in London, being backed from 25 to 1 down to 100 to 6.

It will be gratifying to lovers of racing in Toronto to learn that the Queen's Plate has been secured by the Ontario Jockey club for their summer meeting.

W. Behan, while riding Vigilanter in the Maiden Hunters' steeplechase in England Feb. 12, was thrown and seriously injured, remaining unconscious many hours.

The Canadian Sportsman has received word from the Orkney Stud farm that Nettie by Luther dropped a fine filly on the 19th to Inspector. The young miss has been christened Rosabelle.

Plaisted has been appointed coach and trainer of the Pullman Boat club of Pullman, Ill. Eph Morris has left Pittsburg for Chicago, where he will go into the hotel or droving business.

John A. Kennedy in partnership with an amateur sculler named Morgan has started in the hotel and coffee room business in Washington, D. C. He is also training the Potomac rowing club.

The teams of Oxford and Cambridge universities played their tenth annual match at Rugby football Feb. 14, on the grounds of the Blackheath club, England. Oxford won by one try to nil.

Bruce, the English racehorse who won the Grand Prize of Paris, was to have been sold recently, but an inspection showed that he would not again stand training, and consequently he has been relegated to the stud.

A lacrosse match was played at Willesden Green, London, Eng., on Feb. 3, between the teams of the London lacrosse club and Cambridge university, the home players winning by three games to one. This was the first occasion of a university team visiting London.

John Williams, the swimmer, formerly of Montreal, Canada, is now employed on the Ohio river steamer Crown Point, and while in Cincinnati, O., last week, managed to have inserted in local journals several challenges to "any and all swimmers in this world."

Clarence Whistler of Kansas City, Mo., is credited with saying that ninety-nine out of one hundred so-called wrestling matches in America are "fixed-eye." Whistler has been before the public some time, and it may be believed that he speaks from personal knowledge.

John Largan, the English sculler, has been knocked all to pieces in Australia, being beaten Jan 30 on the Paramatta river by Hagar Pearce and on Jan. 13 by McDonald. A proposed match between Largan and Trickett fell through, the backers of the former paying forfeit.

We have received the premium list of the international dog show to be held at Ottawa on the 26th, 27th, and 28th inst. under the auspices of the Dominion of Canada Kennel club. The list can be obtained from Mr. B H Vicars, secretary-treasurer of the club at Ottawa.

For the first time since 1849 the Oxford and Cambridge boat race will this year be rowed on a Thursday, the date fixed upon being March 15. The race has been rowed 28 times on a Saturday, six times on Wednesday, three times on Friday, once on Tuesday, and once on Thursday.

The fifth international football match between representative teams of the English and Welsh associations was played Feb. 3 at Kensington Oval, London, the English team winning by five goals to nothing. This was the rubber match, each side having previously won two games.

Peter Duryea of this city, at last accounts residing with Charles Rowell at Chesterton, Eng., has been seriously ill with inflammation of the stomach, and was shortly to leave for Nice in search of improved health. George W. Lee, the oarsman, has also been unwell and was to accompany Duryea to France.

A gentleman in England offers to match an unknown against George Littlewood, George Mason, Sam Day or any other man in that country, in a go-as-you-please race of seventy-two hours, contestants to travel twelve hours daily, for from $1000 up to $2500 a side; or he will join in a $500 sweepstakes, with not less than four competitors.

At the eighth annual commencement of the American Veterinary college in New York the Rev. G. E. Strobridge prayed that Providence would abolish "the abomination of the check-rein; put it into the hearts of aristocrats to exchange their fragments of embroidery for comfortable horse blankets, and temper the wind to the clipped steed."

Cippolats, Lord Rosebery's six-year-old mare by Macaroni out of Duckling, died Feb 7, at the Durdans, Epsom, Eng., after foaling twin colts to Dutch Skater. As a three-year-old Cippolats, among other good performances, defeated Robert the Devil for the Midsummer Stakes, and finished second for the St. Leger and Cesarewitch Stakes, both of which were won by the famous son of Bertram.

Mr. Dyment of the Orkney Stud farm is very jubilant about his 3 yr. old b g. Director by Disturbance, out of Nettie. This is quite an inbred youngster, his sire and dam being both out of Lucy. Though many will shake their heads over such close inbreeding, the owner of Director is sanguine that the son is speedier than the sire, and is confident that he will prove a sensational performer the coming season. Mr. Dyment refused $500 for him last autumn.—Canadian Sportsman.

The second annual convention of the intercollegiate lacrosse association has recently been held in Cambridge, Mass Representatives were present from the following colleges: Columbia, Atkins and Clements; Harvard, Machado and Noble; New York University, Kingsley and Skerry; Princeton, Gilmore and Hodgee. An application from Yale for membership was favorably acted upon. A constitution based on that of the National Amateur Lacrosse association was discussed and adopted. The most important work before the convention was the adoption of a set of playing rules for the game. The existing rules were considerably simplified, so as to adapt them to the conditions necessary for a college association. The chief changes made were as regards fouls and the powers of umpires and referee. Punishments for fouls were specified, as well as the penalty for foul goals. Officers were elected for the ensuing year as follows: President, Noble, '84, Harvard; vice president, Cottle, Yale; secretary-treasurer, Hodge, '83, Princeton. An executive committee was also appointed, which is to arrange the dates of matches. The championship of the past year was formally voted to Harvard. The convention hereafter will meet annually.

**Elliott's Last Fight.**

CHICAGO, March 2.—The struggle between Dunn and Elliott last night is described as terrific. The men clinched each other and fell together. Plaisted, the referee, tried to part them. Dunn's wound is regarded as dangerous. Dunn served a term in Sing Sing for killing James Logan in New York, the police of which city considered him a very dangerous man.

*** "No eye like the master's eye." Had Æsop lived in our day he might well have added, "No popular curative like Kidney-Wort." All eyes are beginning to turn to it for relief from diseases of the liver, bowels and kidneys. Kidney-Wort is nature's remedy for them all. Those that cannot prepare the dry, can now procure it in liquid form of any druggist.

**Bradstreet's Weekly Report.**

New York, March 2.—The dispatches to Bradstreet's from leading trade centres of the United States this week again tell of an improved feeling in general trade, and this in spite of a comparatively large increase in the number of failures reported for the week. The cotton situation is unchanged save as a somewhat greater faith in big crop figures gives a downward tendency to prices. Contracts for pig iron are delayed and prices thus far are very low. American pig is dull. The outlook is believed to be improved. Manufactured iron is quiet and dull. Steel rails are quiet. Petroleum is lower and dull, due to renewed expectation of the Cooper pact. The supply of ocean tonnage is plenty and the demand slight. Rates are low. There were 209 failures in the United States reported to Bradstreet's during the past week, 56 more than in the previous week, 108 more than in the corresponding week of 1882, and 126 more than in the first week of 1881. Canada and the provinces had 29, an increase of 10 over the preceding week.

**A Hearty Recommendation.**

Jacob A. Empey, of Canamore, states that he has taken Burdock Blood Bitters with great benefit in a lingering complaint, and adds that he would gladly recommend it to all.

Orin Catlin, 49 Pearl street, Buffalo, N. Y., says: I tried various remedies for the piles but found no relief until I used Dr. Thomas' Eclectric Oil, which entirely cured me after a few applications.

Ladies of all ages who suffer from loss of appetite; from imperfect digestion, low spirits and nervous debility, may have life and health renewed and indefinately extended by the use of Mrs. Lydia E. Pinkham's remedies for all complaints incident to the female constitution. We have not only a living faith in Mrs. Pinkham, but we are assured that her medicines are at once most agreeable and efficacious.

Dr. W. Armstrong, Toronto, writes: "I have been using Northrop & Lyman's Emulsion of Cod Liver Oil and Hypophosphites of Lime and Soda for Chronic Bronchitis with the best results. I believe it is the best Emulsion in the market. Having tested the different kinds, I unhesitatingly give it the preference when prescribing for my consumptive patients, or for throat and lung affections."

Mrs. J. G. Robertson, of Toronto, was cured of general debility, loss of appetite, etc. She says "that life was burdensome until she used Burdock Blood Bitters." She also states that "she feels better than for years, and cannot praise Burdock Blood Bitters too much." The best medicine known for all diseases of blood, liver kidneys.

The cheapest medicine in use is Dr. Thomas' Eclectric Oil, because a very little of it is required to effect a cure. For croup, diphtheria, and diseases of the lungs and throat, whether used for bathing the chest and throat, for taking internally or inhaling, it is a matchless compound.

"Kind words can never die," and there are none but kind kind words spoken regarding Hagyard's Yellow Oil, that old reliable remedy for external and internal use. It cures rheumatism, deafness, croup, sore throat, and all soreness and wounds of the flesh.

Do no violence to the liver and general system by repeated doses of mercury in the shape of calomel and blue pill. Many persons thus dose themselves even without the advice of a physician. The best substitute for such pernicious drugs, and the use of which is never followed by disastrous effects upon the general health, is Northrop & Lyman's Vegetable Discovery and Dyspeptic Cure, which permanently tones the stomach, regulates the bowels, purifies the blood, and gives a healthful glow to the cheek.

The great source of consumption and many wasting forms of disease, is scrofula lurking in the system. The true specific for this condition if found in Burdock Blood Bitters; that medicine purifies the blood and builds up the enfeebled system.

Mr. Henry Harding of Toronto writes: My little daughter, 7 years of age, has been a terrible sufferer this winter from rheumatism, being for weeks confined to her bed, with limbs drawn up, which could not be straightened, and suffering great pain in every joint of limbs, arms and shoulders. The best of physicians could not help her, and we were advised to try Dr. Thomas' Eclectric Oil, which was done, and the benefit was at once apparent; after using two bottles the pain left, her limbs assumed their natural shape, and in two weeks she was as well as ever. It has not returned.

Mr. W. J. Gunow, of Newbury, has used Burdock Blood Bitters, in his family with good effect, and says that Rev. J. R. Smith, has used it, and speaks of it in high terms of praise. It is the great blood purifying tonic that acts upon the bowels, the liver, the kidneys, the skin, and the blood.

Mr. W Maguire, merchant, at Franklin, writes: I was afflicted with pain in my shoulder for eight years—almost helpless at times—have tried many remedies, but with no relief, until I used Dr. Thomas' Eclectric Oil. After a few applications the pain left me entirely, and I have had no pains since.

A. D. Weeks, druggist, of Uxbridge, says he never sold any pills that gave such universal satisfaction as the National Pills, and adds, "I sincerely believe them to be the best in the market and can safely recommend them to my customers."

Mr. A. Fisher, of the Toronto Globe, says: "I take great pleasure in recommending Northrop & Lyman's Vegetable Discovery and Dyspeptic Cure to the public. I have suffered with dyspepsia for some time, and have tried several remedies without receiving any benefit. Being recommended to do so, I used one bottle, and must say that I find the result perfectly satisfactory, not having been troubled with this distressing disease since, and would recommend others similarly afflicted to purchase a bottle at once and try it, as I am satisfied they will receive benefit from its use."

**A Pulpit Joke.**

At a church in Scotland, where there was a popular call, two candidates offered to preach, of the names of Adam and Low. The last preached in the morning and took for his text, "Adam, where art thou?" He made a most excellent discourse, and congregation were much edified. In the evening Mr. Adam preached, and took for his text, "Lo, hereafter I!" The impromptu and his sermon gained him the church. The perfection of coffee is that prepared by the Le Quor Tea Company

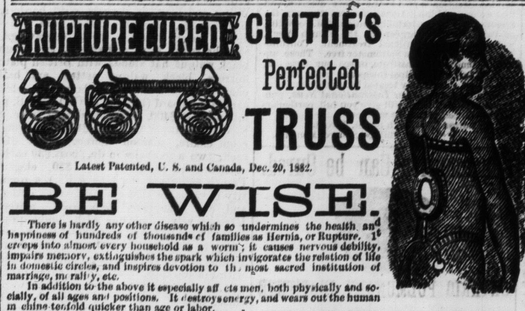
RUPTURE CURED CLUTHE'S Perfected TRUSS



Latest Patented, U. S. and Canada, Dec. 20, 1882.

BE WISE.

There is hardly any other disease which so undermines the health and happiness of hundreds of thousands of families as Hernia, or Rupture. It creeps into almost every household as a worm; it causes nervous debility, impairs memory, extinguishes the spark which invigorates the relation of life in domestic circles, and inspires devotion to the most sacred institution of marriage, morality, etc.

In addition to the above it especially affects men, both physically and socially, of all ages and conditions. It destroys energy, and wears out the human machine tenfold quicker than age or labor.

Sufferer, Be Wise, Rupture as well as deformity can only be treated by mechanical treatment. After the doctor has failed to hold your Rupture, after you have tried your druggist's stock and "Liniments," and failed, Rupture always increasing instead of decreasing, I say come to or write to me, and I will do for you all I can.

Medals, Philadelphia Centennial, and first prizes wherever exhibited.

Ninety-en years' material experience, 12 years established in Canada, thorough acquaintance with the Anatomy of the Human Frame, natural mechanical advantages have made me a perfect master of this profession, and everybody Ruptured or Deformed should send stamps for book on Rupture and the Human Frame, containing valuable information, registered by

VICE-PRESIDENTS—HON ALEXANDER MORRIS, M.P.P, JOHN L. BLAIKIE, Esq.

(EXTRACT FROM THE LAST ANNUAL REPORT.)

The Directors have great satisfaction in reporting to the Policy-holders and Guarantors that, during the past financial year, the progress of the Company has more than met their most sanguine expectations and the results justify a strong confidence in the still further success and usefulness of the Company.

The Directors point with much satisfaction to the large reduction of over 17 per cent. in the ratio expense to premiums for the year. This large reduction in expenses affords the strongest proof of the care and economy with which the Company's affairs are conducted.

The Company issues all ordinary forms of policies, but its special Tontine plans have continued to prove acceptable to many of our most wealthy and successful business and professional men, who have not been slow to discover that this system of investment enables them satisfactorily to accomplish many objects which they are altogether unable to effect under the ordinary plans.

WHERE THE MONEY GOES.

The year 1882 has been a most successful one in the operations of the ÆTNA LIFE INSURANCE COMPANY. It has increased its Assets, its surplus, its Annual Income, and the Premium receipts from Interest have again greatly exceeded its losses by death. In this year, 5,191 new policies, for $9,525,955.00 of Insurance. Its Disbursements for Death Claims, and on Matured Endowments, have not been quite so large as during the preceding year, but they have amounted to $1,768,508.32. This large sum has been distributed, geographically, as follows:—

In Canada, though for nearly twenty years past receiving a larger income than any other Company with one exception, it has recently been making VERY RAPID STRIDES. Its good qualities are only beginning to be appreciated. In the past five years alone, its Canadian Income has grown from $379,701 to over $500,000. The following statement shows how this was done:—

In 1878, an increase over the previous year of ..... $ 4,161
The next year, an increase over 1878 of ..... 23,658
In 1880, a further increase over that again of ..... 39,516
And in 1881, still onward and upward, by ..... 56,344
In 1882 no halt, but a vigorous stride of about ..... $100,000

During 1883

there is every probability of a still more pronounced vote of the people in favor of the ÆTNA as a safe, sound, strong, economical and careful Company with which to place one's surplus funds for investment.

It is believed that a majority of the Clergymen of Canada, whose lives are insured, and on its Membership Roll, and during the past year an unusual number of the Bank Managers and Business Men, in all parts of the Dominion, have invested in its Endowment Bonds on account of superior safety, compared with most other profitable means of accumulation.

Send for a copy of the Company's quarterly journal, "THE ÆTNA." It is sent free of charge, to any address, by the Toronto Office.
