MOFFAT'S
Life Pills and Phœnix Bitters.

These Medicines have now been before the public for a period of FIFTEEN YEARS, and during that time have maintained a high character in almost every part of the globe for their extraordinary and immediate power of restoring perfect health to persons suffering under nearly every kind of disease to which the human frame is liable.
IN MANY THOUSANDS
of certificated instances, they have even rescued [illegible] from the jaws of premature graves, [illegible] they had at [illegible] they have [illegible] enjoyment of [illegible] but a partial [illegible] whole were [illegible] and upon [illegible] was to their [illegible] by the sponge [illegible] them with renewed [illegible] they were indebted for [illegible] their name.
Unlike the host of pernicious quackeries which boast of vegetable ingredients, the LIFE MEDICINES are purely and solely vegetable; and contain neither Mercury, nor Antimony, nor Arsenic, nor any other mineral, in any form whatever. They are entirely composed of extracts from rare and powerful plants, the virtues of which, though long known to several Indian tribes, and recently to some eminent pharmaceutical chemists, are altogether unknown to the ignorant pretenders to medical science; and were never before administered in so happily efficacious a combination.
The first operation is to loosen from the coats of the stomach and bowels the various impurities and crudities constantly settling round them; and to remove the hardened feces which collect in the [illegible] Other Medicines, [illegible] and leave such [illegible] Costive [illegible] Diarrhœa [illegible] fact is well [illegible] to examine the [illegible] the prejudice against the quack [illegible] effect of the LIFE MEDICINES is to [illegible] the faithful action of [illegible] regularity of the [illegible] which takes its red color from the agency of the liver and lungs, before it passes into the heart, being thus purified by them, and nourished by food coming from a clean stomach, courses freely through the veins, renews every part of the system, and triumphantly mounts the banner of health in the blooming cheek.
The following are among the distressing variety of human diseases in which the VEGETABLE LIFE MEDICINES are well known to be unfailing:
DYSPEPSIA, by thoroughly cleansing the first and second stomachs, and creating a flow of pure healthy bile, instead of the stale and acrid kind; FLATULENCY, *Loss of Appetite, Heartburn, Headache, Restlessness, Ill-temper, Anxiety, Languor, and Melancholy*, which are the general symptoms of Dyspepsia, will vanish, as a natural consequence of its expulsion.

Dropsies of all kinds, by freeing and strengthening the kidneys and bladder: they operate most delightfully on these important organs, and hence have ever been found a certain remedy for the worst cases of GRAVEL.
Also Worms, by dislodging them from the turnings of the bowels the slimy matter to which these creatures adhere.
Asthma and Consumption, by relieving the air-vessels of the lungs from the mucous which even slight colds will occasion, and which, if not removed, becomes hardened, and produces these dreadful diseases.

INFLUENZA will [illegible] by two even in [illegible] this most distressing and obstinate malady, the VEGETABLE LIFE MEDICINES deserve a distinct and emphatic recommendation. It is well known to hundreds in this city, that the former proprietor of these valuable Medicines was himself afflicted with this complaint for upwards of THIRTY-FIVE YEARS; and that he tried in vain every remedy prescribed within the whole compass of the *Materia Medica*. He however at length tried the Medicine which is now offered to the public, and he was cured in a very short time, after his recovery had been pronounced not only improbable, but absolutely impossible, by any human means.
FEVER AND AGUE.

MERCURIAL DISEASES.
Persons whose constitutions have become impaired by the injudicious use of Mercury, will find these Medicines a perfect cure, as they never fail to eradicate from the system all the effects of Mercury infinitely sooner than the most powerful preparations of Sarsaparilla. A single trial will place them beyond the reach of competition, in the estimation of every patient.
BE CAREFUL OF COUNTERFEITS.

LIFE ASSURANCE COMPANY,
*No. 2, Princes Street, Bank, London.*
CAPITAL—ONE MILLION STERLING.
Empowered by Special Act of Parliament, 4 Vict., Chap. 9.
REDUCED RATES OF PREMIUM—HALF CREDIT RATES OF PREMIUM.

THE great and decided success which has attended this Institution, has induced the Directors to REDUCE the RATES originally required in British North America, to the ordinary European Rates. The result of such Reduction is to enable parties to avail themselves of the important benefits to Life Assurance at *much lower Rates of Premium than those of any other Assurance Company transacting business in Canada.*
The Directors have also resolved to extend to British North America the advantages afforded by the HALF CREDIT RATES of PREMIUM which have been so highly approved, and are so generally adopted by Policy Holders in the United Kingdom. The most liberal conditions are likewise offered to the Assured in the limits to which they may proceed by sea or land, to other parts of North America without affecting their interest in their respective Policies.

THIS INSTITUTION offers to the Assured very many advantages, at quite as low a rate of Premium as guarantees *safety* to the Office.
Policies will hereafter be issued—the Assured entitled, whether at the payment of his first Premium, or at *any future* period, to borrow, upon interest, to the extent of *one-half* of the Annual Payments made, without any responsibility or guarantee, personal or otherwise, nor will the Policy (the only security) be required to be lodged with the Society, as each Loan will be endorsed thereon.
Under this new system, the value of each Policy will at all times be known, and the great objection to Life Assurance entirely removed, as the Assured can at *any time present his Policy, and demand of the Society an immediate payment of one-half of the Annual Premiums paid thereon,* thus giving to each Policy a known actual cash value.
Existing Policies will continue upon the former system, or may be converted into one of the new form.
As the Policies received from London are signed in Montreal, under special Power of Attorney from three of the Court of Directors in London, to the Local Board in this City, there is no *Stamp Duty.*
Applicants are not charged for the Medical examination.
The Assured has the right of paying his Premium within *Thirty Days* after it falls due, thereby preventing the forfeiture of his Policy, which would otherwise frequently occur.
The Society will, on satisfactory proof of the health of the party, receive the Premium within a year after its falling due.
By the establishment of the General Agency here, *Risks are Accepted, Loans Granted,* and *Losses Paid* by the Montreal Local Board, without referring to London.

EXTRACTS FROM
"RAVENSHOE—AN AUTOBIOGRAPHY."
BY HENRY KINGSLEY, AUTHOR OF THE HILLS AND SPAIN.

THE FLOWERS OF THE GRASS.—DATE OF FUGLEDEN.—THE RENDEZVOUS.—LEWS.—BRUTE-ENS OF ENGLAND.—WHERE, HERING.—WELL-BORNE BAIT.—THE FIGHT.—HUGH BLACK GRIGG.—FRAME OF ADAMANT.—THE STORM.—DURSBAIRNS.—THE BAROUCHE.—THE RAIN OPENED.

How for every thing there is a time and a season, and then how does the glory of a thing fade from it, even like the flower of the grass. This is a truism, but it is one of those which are continually forcing themselves upon the mind. Many years have not passed over my head, yet during those which I can recall to remembrance, how many things have I seen flourish, pass away, and become forgotten, except myself, who, in spite of all my endeavors, never can forget any thing! I have known the time when a pugilistic encounter between two noted champions was almost considered in the light of a national affair; when tens of thousands of individuals, high and low, meditated and brooded upon it, the first thing in the morning and the last thing at night, until the great event was decided. But the time is past, and many people will say, thank God that it is; all I have to say is, that the French still live on the other side of the water, and are still casting their eyes hitherward—and that in the days of pugilism it was no vain boast to say, that one Englishman was a match for two of t'other race; at present it would be a vain boast to say so, for these are not the days of pugilism.

But those to which the course of my narrative has carried me were the days of pugilism; it was then at its height, and, consequently, near its decline, for corruption had crept into the ring; and how many things, states and sects among the rest, owe their decline to this cause! But what a bold and vigorous aspect pugilism wore at that time! and the great battle was just then coming off; the day had been decided upon, and the spot—a convenient distance from the old town; and to the old town were now flocking the bruisers of England, men of tremendous renown. Let no one sneer at the bruisers of England—what were the gladiators of Rome, or the bull-fighters of Spain, in its palatiest days,
