FROM SMALL BEGINNINGS.

Some of our best Deposit Accounts were begun in a very modest way. By adding small sums at regular intervals, and by the accumulation of interest, they have grown till they now show handsome balances. It is not necessary to wait till you have a considerable amount to make a commencement. We accept small sums on deposit and allow interest at 3½ per cent. per annum, payable half-yearly.

HOLIDAY IN MANY MARKETS

American and Canadian Stock Exchanges Will Open for Business on Tuesday.

LONDON PRICES STRONG MONDAY

Financial and Commercial Markets With Quotations and Comment.

World Office.
Monday Evening, Sept. 1.

American and Canadian Exchanges are all closed to-day, and will open up for business to-morrow morning. London quotations to-day come slightly higher for American stocks, and C.P.R. is quoted higher at 144½. Prospects are very favorable for higher offerings at New York on Tuesday and conditions are promising for a continuance of bullish activky. The London stock market report of August 23rd last has the following to say of American Rails:

Good bull points, in a general market sense, continue to multiply or to improve. The crop outlook grows better as time progresses, and when the crops begin to furnish traffic look out for startling figures. Some comment has been made on the fact that net receipts have not been showing the improvement one would expect, having regard to the traffic, but it is certain that on many of the most important lines expenditure has been heavy in making improvements by the way of anticipating the heavier business of the future. We cannot expect, therefore, to "have the cake and eat it." As the Hon. Jefferson M. Levy says: "The public have been befogged and fooled, and now securities that are not speculated in internationally are advancing 20, 50 and even 100 per cent. in value, while securities that are internationally traded in have only risen some five and ten points since a great crop became assured. Therefore, the great crop is not discounted, and an enormous increase in value in these securities is assured." We have contended as much ourselves, and if the coal strike can only be cleared out of the way—altho it has reached the limit of its force as a depressing factor—a big rise in Coalers may eventuate. This is a matter in which the universal Mr. Morgan looms large in the public eye, but we may rely on him not to set the coal-owners by the ears thru ill-advised concessions to the strikers, whose exhibitions of violence have only resulted in estranging the public further from the men. In other industrial directions, every report we receive only adds weight to the belief that the boom is a long way from exhaustion, and the fact that heavy orders are being sent to this country for iron and steel shipbuilding materials, because the American mills are unable to take more orders, is a very important offset to the rumors of Mr. Schwab retiring from the Steel Trust. What is certain is that Mr. Schwab is coming to Europe, and, showing something "of the man," it is much more probable that he intends to promote co-operation than to retire from his prominent position at so early an age as forty. On top of all the other influences for good in keeping up and in raising railway prices, we have the persistent progress in the way of traffic agreements; the promise of success for the Morgan interests in the Northern Securities deal and incidental movements which encourage us to think that there is still plenty of time to obtain comfortable margins on the right side from well-considered operations in the American market.

"When the two new stopes at Sydney Mines, Sydney (No. 2 and 3, are in operation we expect to raise one million tons of coal a year," said Mr. J. F. Stairs, president of the Nova Scotia Coal and Stee Company, in an interview with a Record representative last night. "We are now mining 250,800 tons. Each of the new stopes should give one thousand tons per day and the capacity of the old stope will be increased. A great part of the increased output will find a market in Canada, as our company is now unable to suppy the Canadian demand on account of using a large portion of our output in our own works at Sydney Mines and Trenton. A short time ago we had enquiries from England, but were obliged to state that we would be unable to take any orders. When the new stopes are opened we will look for a share of the European trade, which is being successfully developed by the Dominion Coal Company.

"The work on the blast furnace and foundation of the coke ovens is now under way and there will be no delay thru the winter months. The new coke ovens, of which there will be 80, will be of the same pattern as those at Ferrona, these being found more satisfactory than the new pattern introduced by the company at Sydney Mines. In the spring the steel furnace will be started and also a steel mill. A blooming mill, it is probable, will eventually be erected at Sydney Mines, but at present the finished product will be made at Trenton, only the steel ingots being turned out at Sydney."—Sydney Record.

Montreal Live Stock.

Montreal, Sept. 1.—The receipts of cattle at the East End Abattoir this morning were 400 head of cattle, 200 calves, 600 sheep and 300 lambs. There was a good attendance of buyers, and prices were well maintained for cattle—the only thing that was marked and that he had formerly served in the United States army, from which he had deserted. The prisoner further asserted that he did not know the name of the man he had killed. His object was robbery and he knocked the man on the head with a coupling pin.

END WITHIN TWO WEEKS.

Senator Platt Says Strike Will Be Settled Then.

New York, Sept. 1.—Senator Thomas C. Platt declared in the most positive terms last night that the coal strike would be settled within the next two weeks. The question was brought up by a query as to how the Republicans intended to treat the strike in their state platform.

"It will not be an issue in the campaign," Senator Platt replied. "It will be settled within a week."

"How will it be settled? Will there be arbitration or will an agreement be reached between the miners and the operators?" was asked.

"I cannot tell you how it will be settled," Senator Platt replied, "but there will be no coal sold at $10 a ton this winter. It will surely be settled within a week, or at the longest within two weeks from this time."

Senator Platt declined to tell why he was so confident that the strike was nearing its end, but he spoke like a man who had no doubt in his own mind that what he said would prove to be true.

TURKEY RESPONSIBLE.

Constantinople, Sept. 1.—The report that the Turkish government has refused to further discuss the responsibility for the capture of Miss Ellen M. Stone, as the outrage was not committed on Turkish soil, is not true. The question of the Porte's responsibility is indisputable, since the capture, payment of the ransom and liberation of the captives all occurred in Turkish territory.

ARCHBISHOP OF NEW YORK.

Rome, Sept. 1.—The propaganda to-day decided to recommend the Pope to appoint Right Rev. John M. Farley, D.D., the Auxiliary Bishop of New York, as Archbishop of New York, in succession to the late Archbishop Corrigan.

WILL FREE SOLDIER PRISONERS.

Havana, Sept. 1.—Both branches of Congress have passed resolutions calling for the release of all convicts confined on the Island of Cuba who fought in the Cuban army.

Chained By His Brother.

Vienna, Sept. 1.—The police of Peisching, a village near Vienna, have just discovered an old, demented man, who for 40 years has been kept in durance by his brother, a small landed proprietor, named Leopold Styx.

The unhappy man was fastened to the partition of a narrow stall in a stable with horses and cattle. It is asserted that Styx has thus long enjoyed the old maj's heritage.

Now the Deathless Duel.

Paris, Sept. 1.—French duellists have devised a new scheme for satisfying their outraged honor without danger to life or limb. In the future wax instead of lead bullets will be used. The mark left by the wax will decide which man was hit and who must apologize. An epidemic of insults and challenges is expected to follow.

Fierce Race Fight.

Hopkinsville, Ky., Sept. 1.—At a negro festival near Pembroke, Jerry and Danderfield Ware, infuriated because Manager Frank Massie tried to eject them from the grounds, emptied their pistols into a crowd of dancers. Massie was probably fatally wounded. John Tandy was killed, and James Williams' jaw was shot off. No arrests have been made.

Frithjof Heard From.

Tromsoe, Norway, Sept. 1.—The sealing yacht Soeblomsten arrived at Alten-Fiord Sunday, and brought a letter from the Frithjof. The latter was spoken Aug. 14 in lat. 73.50 north and long. 40 east. She reported all well on board, and added that the ice was very bad, and she had been unable to reach Franz Jozef Land.

To See the Exhibition.

Among the Exhibition visitors are six boys who ran away from their homes in Peterboro. They tramped up to the city on the railroad tracks, getting their refreshment at the hands of hospitable country folk. The eldest is but 15. Their sole impedimenta is some soap and a towel

6000 TROOPS IN FLORENCE

City Patrolled as If in Time of Siege Because Forty Trades Are on Strike.

HUNDREDS PUT UNDER ARREST

English Church Set on Fire By Petroleum, But Flames Are Extinguished.

Florence, Sept. 1.—The employes of 40 different callings have joined the strike which began last Friday. The town appears to be in a state of siege. Troops have been recalled from the manoeuvres and from camp, and every square in the city is occupied by a company of soldiers. Strong infantry and cavalry patrols, with fixed lances and bayonets, are parading the streets of Florence and its suburbs. Six thousand troops, in addition to a number of policemen and carbineers, have been concentrated in the city. Plenty of other soldiers are available should order be disturbed.

The summer exodus has left the town partly empty, and many inhabitants have left from the fear of possible disorder. The government, which, according to its democratic program, has allowed the strikers complete liberty as long as order was maintained, has assumed a most energetic attitude since the strikers forced willing workmen to remain idle and committed acts of vandalism, such as the cutting of gas pipes and attempts at incendiarism. The headquarters of the workmen are occupied by the military authorities. All meetings and processions have been forbidden, and hundreds of suspected persons have been arrested. These measures have prevented disorder and have frustrated the efforts of the Anarchist and Socialist elements to profit by the strike to foment trouble.

The tramway operatives and the gas men are among those who have joined the movement. The troops have been ordered, as far as possible, to maintain the public services.

Arrangements have been made for 50 tons of bread to be brought daily into Florence from outside the city, and nobody will be allowed to purchase more than two pounds at a time. The troops are slaughtering animals to provide meat. The water supply of the city is assured. Owing to the cutting of gas pipes certain portions of Florence are now lighted with torches. The cafes are closed.

The populace condemns the strike as out of all proportion to the small question involved.

It is estimated that 40,000 men are idle in Florence. The municipal newspapers have ceased to appear as a result of the strike.

Certain workmen who were repairing the Gelfry of the English Church, in Minchill-street, refused to join the strike. The strikers thereupon threw petroleum over the board fence surrounding the building and set it on fire. The flames were extinguished before serious damage resulted.

Numerous arrests have been made and the jails are filled to overflowing. Large numbers of prisoners have been transferred to neighboring towns.

What is most feared in Florence is that the strike contagion may spread to Milan, Genoa and other industrial centres.

CONFESSES TO A MURDER.

Lance-Corporal Lloyd Surrenders to Police in England.

Colchester, Eng., Sept. 1.—At the Police Court here this morning, Lance-Corp. Lloyd of the Bedfordshire Regiment, who had surrendered to the authorities, charging himself with the murder of an unknown man in Kansas City, Mo., in January last, was remanded for a week, after formal evidence had been given. Lloyd, who claims to be an American citizen, in his confession to the police, said his real name was William G. B. C. Toll of 212 East Seventeenth street, Kansas City, that he was married and that he had formerly served in the United States army, from which he had deserted. The prisoner further asserted that he did not know the name of the man he had killed. His object was robbery and he knocked the man on the head with a coupling pin.

TRAGEDY IN BUFFALO.

Buffalo, Sept. 1.—Patrick O'Brien, aged 38, died early to-day as the result of injuries received in a fight yesterday. The police are searching for Charles H. Calla, an inspector, who it is alleged inflicted the blow which caused O'Brien's death.

EXPLOSION ON A GUNBOAT.

Cherbourg, France, Sept. 1.—An explosion occurred to-day on board the submarine boat La Francaise. Several men were injured.

BOTH WERE DROWNED.

Rat Portage, Sept. 1.—Fred Smith and Owen Martin were upset in a canoe yesterday and both drowned.

To Those of Sedentary Occupation.—Men who follow sedentary occupations, which deprive them of fresh air and exercise, are more prone to disorders of the liver and kidneys than those who lead active, outdoor lives. The former will find in Parmelee's Vegetable Pills a restorative without question the most efficacious on the market. They are easily procurable, easily taken, act expeditiously, and they are surprisingly cheap, considering their excellence.

NOTICE

Owing to the ezcessive demand for

HAPPY THOUGHT RANGES,

the William Buck Stove Co., Brantford, were unable to make a display of their celebrated output at the Fair. In order to remedy this disappointment to their numerous patrons, Mr. R. Bigley, the Toronto Agent, has prepared a large display of Buck's goods, in his commodious showrooms, 96 and 98 Queen E, where Exhibition visitors are cordially invited.

MARTINIQUE VILLAGE DESTROYED.

Mont Pelee in Violent Eruption—Le Carbet Swept By Tidal Wave.

Castries, Island of St. Lucia, British West Indies, Sept. 1.—The British steamer Korona arrived here yesterday evening from Fort de France, Island of Martinique. She reports that a terrible eruption of Mont Pelee occurred at 9 o'clock Saturday night, and that people who arrived at Fort de France from the northern part of the island reported that the village of Morne Rouge (near the district previously devastated), had been entirely destroyed, and that Le Carbet (a village on the coast, close to the southern end of the territory, which was destroyed at the time of the great eruption) has been swept by a tidal wave. About 200 persons lost their lives.

A sloop from the Island of St. Vincent which reached here this morning reports that Mont Pelee's crater is now quiet, but that the detonations during Saturday night were the loudest heard up to that time, and that the inhabitants were terribly alarmed.

TWENTY-FIVE WERE KILLED.

Birmingham, Ala., Sept. 1.—In a wreck on the Southern Railway, at Berry, 65 miles west of this city, the trainmaster, H. N. Dudley, and about 25 colored passengers were killed. The engine was derailed and six coaches overturned.

DIED BY PARIS GREEN.

Guelph, Sept. 1.—Charles Redmond of Durham-street committed suicide by taking Paris green yesterday. Altho every effort was made to save his life, he succumbed last evening.

STATUE OF GOVERNOR FLOWER.

Watertown, N.Y., Sept. 1.—A statue of Roswell P. Flower, once Governor of this state, was unveiled here to-day.

A Busy Season.

The opening of the fall season was marked by unusual activity on the part of the employes of Messrs. Smith, White and Runciman in their warehouse, 9 and 11 Wellington-street. The World was assured by the gentlemen in charge that the trade for this season has been altogether beyond their expectations. In the trimmed hat department they are showing a magnificent display of trimmed millinery. Attention was drawn to their French and American importations, most artistic creations of the milliners' art, but their own designers quite excelled these, both in workmanship and style. This impression was demonstrated by the numbers, even at that early hour, marked sold. It would tax any one's ability to go into a description of even a few of the hats there. As one of the firm remarked, everything is used and correct in the millinery business just now. If put properly together. Plush and camels' hair effects are leading and will be most becoming for fall and winter use, these combined with fur of all kinds and beautiful garnitures in ostrich, osprey, birds, etc., cannot fail to make it a profitable season. The smart, ready-to-wear is still very much in evidence.

Goes to London.

Arthur H. O'Neil, late treasurer of the Grand Opera House, has been appointed resident manager of the London Opera House, one of the best stands in the circuit of A. J. Small. Mr. O'Neil has been a long time in the theatrical business in Toronto, and has made himself much esteemed by his generous qualities of heart and hand. His appointment is in the nature of a promotion. He leaves on Thursday for his new field, and will reside there all the year round.
