WHERE CAN YOU BEAT HIM!

HERE IS A SON OF THE
$10,000 BULL
"KING SEGIS PONTIAC ALCARTRA"
is out of Fairmont Netherland Posch, 29.61 lbs. butter in 7 days,—within a few hours of being a senior 2-year-old. HER MILK AVERAGING 5.01% BUTTER FAT.

The sire of this bull was the highest priced bull ever sold at public auction,—his dam having made 30.87 lbs. butter in 7 days at 3 years 9 months, 19 days, milk testing 4.47% butter fat.

Records of 10 of nearest dams: of this bull average for the 10, 28 lbs. butter in 7 days; records of his six nearest dams average 31 lbs.; records of dam and sire's dam average 30.34 lbs. butter both being 5-year-olds.

I have gotten this great bull to use on the daughters of Prince Hengerveld of the Pontiacs, my great herd sire. You know he is a brother to the world's greatest butter cow, Spring Farm Pontiac Lass, 44.152 lbs. butter in 7 days, her milk testing 6.82%, butter fat, she being one of 13 cows, sisters to "Prince," that have broken world's records.

You will agree with me that this breeding makes the strongest combination in Holstein heavy-producing, high-testing blood, in Canada, or elsewhere, to-day!

Probably we can arrange service fees to your satisfaction from either of my two great bulls, should you have cows that will be approved.

MARKET REVIEW AND FORECAST

Toronto, Monday, July 21.—Judging from the latest crop reports, crop conditions throughout the Dominion will, on the whole, be well up to average. Hay is the chief exception, a light crop being reported from most quarters. Reports from some points speak of failures in different crops, but these are local conditions.

There seems to be little change for the better in the money situation. Advices from the Old Country state that British bankers are ready to advance money for the movement of Canadian crops, but when we read that the city of Berlin is obliged to pay six per cent interest on a long term loan it would appear that if we are to get any relief we will have to pay fo. it.

WHEAT

The first bushel of Ontario wheat was marketed last week, when the Toronto Board of Trade received a fine sample from Kent county. It graded No. 1 and weighed the full 60 lbs. to the bushel. Reports of a good crop in the West have had a tendency to ease prices, which are a little lower than last week. Quotations are: No. 1 Northern, $1.02; No. 2, 99c; No. 3, 96½c; feed wheat, 5c; Ontario No. 2, 98c to 99c for car lots at outside points, ranging down to 10c less for poorer grades.

COARSE GRAINS

The foreign demand for Western oats is quiet and trade on the whole is easy. The home trade still continues to be the dominating feature of the market. Quotations are as follows: Oats, No. 2 C.W., 38c; No. 3 C.W., 36½c; No. 1 feed, 36½c; Ontario No. 2 white, 35c to 36c at country points; corn, American No. 2 yellow, 64½c; No. 3, 63½c; No. 2, 66c to 68c; peas, No. 2, 90c to 95c car lots; buckwheat, No. 2, 52c to 53c; barley, malting, 52c to 53c. At Montreal there was some foreign enquiry for oats, but bids were below par. There is a fair trade in No. 2 C.W. oats, which are plentiful. Quotations are: Oats, No. 2 C.W., 37c; No. 3 C.W., 34 to 34½c; No. 1 feed, 36c; No. 3 C.W., 40c; No. 1 feed, 41c; corn, American No. 2 yellow, 67½c to 68½c; barley, Manitoba feed, 55c to 56c; malting, 63c to 65c; buckwheat, No. 2, 58c to 60c.

MILL FEEDS

Supplies of mill feeds are being rapidly exhausted, and trade is tight. Manitoba bran is quoted at $19.20 in bags, track; shorts, $21; Ontario bran, $19 in bags; shorts, $21; middlings, $23 to $25. The trade at Montreal is active and firm. Quotations are: Bran $19; shorts, $21; middlings, $26.

HAY AND STRAW

Hay prices are steadily rising as the supplies of old hay on hand are rapidly becoming depleted. Wholesale quotations on track are: Baled hay, No. 1, $13.50 to $14.50; No. 2, $12 to $13; No. 3, $7 to $8; baled straw, $7 to $7.50. The receipts at Montreal the past week have been fairly heavy, and the demand has been firm at advanced prices. Average quotations are: No. 1, $14 to $14.50; No. 2 extra, $13 to $13.25; No. 2 ordinary, $11 to $11.50; No. 3, $10 to $10.50; clover, as to grade, $10 to $10.50.

HIDES AND WOOL

The trade in hides is rather dull. Dealers are quoting at country markets as follows: Hides, cured, 13c; green, 12c; horse hides, No. 1, $3.75 to $4; horse hair, 37c; calf skins, 16c; sheep skins, $1.50 to $1.85; lamb skins, 25c to 35c. Unwashed wool, coarse, 16c; fine, 18c; washed, coarse, 24c; fine, 26c.

POTATOES AND BEANS

Local new potatoes have not yet arrived on the market in any appreciable quantity. What new ones have come in are selling at $3.25 to $3.50 a barrel. Quotations are as follows: Ontario potatoes, 75c a bag; in car lots, 65c; New Brunswicks, 90c; in car lots, 80c. Virginia, new, $3.25 a barrel.

Prime beans are quoted at $1.75 to $2 a bus.; hand picked, $2.35 to $2.40.

FRUITS AND VEGETABLES

Few changes are to be noted in fruit prices. The crop on the whole seems to have been good and trade has been active. Average quotations are as follows: Raspberries, 15c to 17c a box; red currants, 8c to 9c; blue berries, basket, $1.75 to $2; black currants, $1.75 to $2; gooseberries, 75c to 85c; cherries, 75c to $1.25; plums, $1.75 to $2.25; peaches, large crate, $4; tomatoes, basket, $1.75 to $2.

HONEY

Owing to the quantity of fruit being offered, trade in honey is dull. Dealers predict a drop in prices at an early date. Strained clover honey is selling at 12½c a lb. in 60-lb. tins; 12½c in 10-lb. tins; 13c in 5-lb. tins; buckwheat, 9c a lb. in tins, and 8c in bbls.; comb honey, No. 2, $2.50 per doz.; extra, $3 per doz.; No. 2, $2.40 per doz.

EGGS AND POULTRY

Liberal supplies of eggs are coming in. Wholesalers are quoting to the trade as follows: New laid, 24c to 25c; fresh, 20c to 21c; seconds and splits, 16c to 18c. Fresh killed fowl are quoted at 18c to 19c per lb.; live fowl, 14c to 15c; dressed spring chickens, 24c to 25c; live, 18c to 19c; ducks, 13c to 14c; turkeys, 18c to 20c. At Montreal eggs are firm. Fresh are quoted at 23c to 24c; selected, 25c to 26c.

DAIRY PRODUCE

The make of butter through the country has been large and the trade of late has been rather dull. In cheese the tone is easier. Creamery prints are quoted at 26c to 27c; solids, 25c to 26c; dairy prints, 20c to 24c; inferior, 18c to 20c; twins, 14½c to 15c; large, new, 14½c to 15c; twins, 15c to 15½c; large, 15c.

HORSES

The trade is fair for the hot weather season. Prices, if anything, show a slight decline. Quotations are as follows: Heavy drafters, $190 to $230; general purpose, $140 to $225; waggon horses, $140 to $175; drivers, $100 to $150.

LIVE STOCK

The trade during the week has been good. There was a good run, which was readily disposed of. Early in the week there was a strong demand for stockers but later a bit of a slump was noticed both in stockers and in common cattle. Choice steers are bringing $8 to $8.15; choice butchers' cattle, $8.10; good common to good, $8.75 to $8.60; common butchers' cows, $5.25 to $5.50; common good, $3 to $5.25; bulls, from $4 to $5; stockers, $4 to $5.85; light, $2.50 to $3; cutters and canners, $1 to $3. Choice milkers range from $60 to $95; springers, $60 to $65; common to medium, $35 to $50; calves, $5 to $9.50.

Sheep and lambs have been firm. Ewes, $4.25 to $5.50; bucks, $3.50 to culls, $2.50 to $3.50; lambs, $6 to $7; spring lambs, $9 to $9.50.

Hogs have been steady and steadily climbing. F.o.b. quotations are $9.65 to $9.75; $9.15; sows, $7.60.

At Montreal there has been an active trade in good stock, with prices ruling higher. The run of sheep was small and slower. The quotations are: Choice steers, $8.75 to $9; common to good, $8 to $8.50; choice butcher cows, $5 to $5.50; bulls, $4 to $4.25; canners, $3.25 to $3.75. Calves $3 to $8; choice lambs bringing $5.75 to $6.10; hundred pounds, and lambs, $4.50.

MONTREAL HOG MARKET

Montreal, Saturday, July 19.—There was no actual change in the condition of the market for live hogs this week, though the feeling, if anything, was more in sympathy with the lower prices ruling in the Toronto Market as commented on this day week. The supply was somewhat larger towards the end of the week, which the demand was fairly good by packers, and sales of selected lots were made at $10.40 a cwt., weighed off cars.

On the other hand, the market for dressed hogs is weaker and packers have reduced their prices 25c a cwt. The demand for abattoir fresh killed is fair for abattoir lots at $14 to $14.25 a cwt.

EXPORT CHEESE TRADE

Montreal, Saturday, July 19.—There was a break in prices for cheese this week owing to the fact that prices were run up too far in the recent advance, and English importers were not prepared to pay the price. It would have been much better all round for our trade if we had advanced at a more moderate pace. There is no doubt that there is considerably less cheese being made in this country this year, and that the article is worth the money, and before long you will be back to this level. It may not until the fall, but there is no doubt that before the end of the year cheese will be worth more than the prices current to-day. In the meantime, we must follow the lead of the English market and make a price which will enable us to sell whatever they are willing to pay. Advices from all over the country indicate a falling off in the make. We are now past the flush and must look for smaller receipts from now on. The ruling prices paid in the country this week ranged from 12½c to 12¾c, the great bulk of the cheese selling at these figures. Much more markets sold at 1-16c to ⅛c more. The best in prices came on Thursday, when the markets are held at Brockville, Belleville and other points, but, at the beginning of the week, the price was maintained at 13c.

The market for butter is steadily declining, owing to the heavy make and the small speculative demand, which has resulted in piling up the stock in Montreal to such an extent that cold storage warehouses are filled to overflowing. There is an improved demand from the West for speculative purposes, but we will be a further decline in price until we reach a point at which an export trade will develop. Finest Eastern Townships creamery is quoted at 24½c, with other finest qualities at 24c.

DAIRY BOARDS

London, Ont., July 12.—Four hundred and twenty boxes offered, but no sales made. Bidding was from 12c to 12½c.

Owsanville, July 12.—Seven cheese factories offered 1,142 packages of butter. Three factories sold at 24½c. Four factories not sold.

Belleville, July 12.—There were 12
