We beg to draw attention to the merits of our

Solid Core Rubber Covered Wire

. for Interior Wiring and use in damp locations.

This wire has the purest and most homogeneous insulation of any rubber covered wire in the market.

We do not aim to produce a cheap and consequently an inferior insulation, but we have spared no expense towards the production of a high grade of wire at a low price. We use no “recovered” rubber or other refuse stock, but only pure rubber compound.

Send sample order and test the insulation. Prices lower than for any like grade
