THE SCOTT ACT.—The Committee has made a complaint against the proprietor of the International Hotel. A number of witnesses were examined on Monday and yesterday. NEW MILLINARY STORE.—Miss Ellen Wright has much pleasure in announcing to the ladies of Sackville and vicinity that she will open a branch store in Blair Estabrooks' building, Main street, where orders will be taken for all kinds of millinery goods. Hats, bonnets, &c., made and trimmed in latest styles and at lowest prices. Fowls, butter, eggs, &c., taken in exchange for goods.—tf.

THE COLONIAL FOUNDRY will close up on the 1st December for the winter. This is done to enable the proprietors to make repairs and also to get out a large number of new styles of stoves and ranges, which they propose introducing next season. They have been at a large expense in securing the very latest patterns approved in the United States, and expect in 1884 to distance anything before offered in this market.

S. S. ENTERTAINMENT.—On Sunday evening last the Sunday School of the Beulah Baptist Church, Upper Sackville, gave an entertainment. Combined with the literary part of the performance there was some excellent music, Miss Rhoda Wheaton and Miss Myrtle McMeekin being the organists. The former young lady was presented with a handsome writing-desk and received a very complimentary address read by Mr. Charles Lund, Superintendent of the school.

AN ADVENTURE.—On Saturday, masters Jones, Killam and Desbrisay, of the Academy, accompanied by master Charles Morice, sailed up Morice's Lake, landed and went into the Beech Hill woods, beech-nutting. Not returning at nightfall, their absence created alarm, and a party was despatched to Beech Hill to hunt them up. The truants, however, came down the Lake at nine o'clock, none the worse, only very tired and hungry, having wandered about in the woods hours, in consequence of losing their bearings.

His case of medals on exhibition was very large, and contained too large a number of them to mention in detail. G. C. Fawcett, Agent, Upper Sackville.

Petitcodiac Items.

—Very little plowing has been done on account of the dryness of the ground.

—The recent local election was quite an exciting one here, but passed off very quietly. Killam's majority, as you are aware, was very large here.

—We have had fine weather for securing potatoes, &c., with two very good rains recently which have benefitted the grist mills considerably, but have scarcely helped the dry wells any. Potatoes, and indeed all vegetables, have been a poor crop, except in individual cases.

—The approaching election of councillors is beginning to attract some attention. In addition to Messrs. Kay, Bleakney, and Flewelling, who have been in the field for some time, Mr. A. Alward is being brought out by requisition, and will no doubt poll a good vote. Some of his most ardent admirers declare that he will lead the poll. He and Flewelling are both strictly temperance men and are considered good farmers, with fair business tact, and the general impression is, I think, favorable to them.

Baie Verte Items.

—The Agricultural Exhibition took place at Port Elgin on Saturday. The exhibits, as a general thing, did not come up to the standard of previous years. McDonald has received the contract for building the large boarding house at the mines. The foundation for pit house, engine house, etc., and for the large and heavy machinery have been commenced. The ground for the boarding house is being chosen and stone for the foundation quarried. A large crew of men are at work. Messrs. Geo. W. Chandler and Charles Crossman receive $11,000 for their interests in the Copper Mining rights. The money was paid over on Saturday.

—On Sunday, 21st inst., the Bishop Coadjutor confirmed twenty persons. His Lordship remained till Tuesday afternoon, when he took train for Shediac, where he will also confirm. The circumstance that the service of confirmation concurred with that of general thanksgiving added interest to the occasion. The church had been very beautifully and very chastely decorated with flowers, fruits, and vegetables, the grouping of the several parts around the font commanding general admiration. The occasion was, we believe, one of great satisfaction to the community in general; and, owing to many interesting local features and circumstances, it is looked on as a red letter day among churchmen in particular.

Cumberland Items.

—Barque "Alma" went to sea on Saturday last. The tug took the "Thallasa" out on Tuesday. The harbor will then be without a ship until the arrival of the "Plovmanden" from North Sydney, where she put in leaky after being out 65 days from Liverpool.

PERSONALS. — Miss Alice Cole, daughter of Mr. Chris. Cole, of this town, left last week for Kansas, where she will engage as a school teacher.—Amongst those who matriculated at the New York College of Dentistry for the term commencing October 1st, we notice Mr. Winslow Knapp, son of the late Dr. Knapp, of this place, and Mr. B. B. Palmer, son of Mr. Edward C. Palmer, of Dorchester.—Prof. Schurman, of Dalhousie, has been spending a few days in Sackville with his brother-in-law, the Rev. Mr. MacDonald. A fortnight ago he returned from Europe where he has been since the middle of June.—Mr. Isaac Lowerison, of Frosty Hollow, received a sun-stroke last summer from which he never rallied, and his recovery is not now expected.—Dr. Botsford, of St. John, is in town.—Mr. Stevens, of the Moncton *Times*, was in Sackville on Tuesday.—Senator Botsford, of this place, who has been seriously ill, is slowly recovering.—Mr. Alex. BOTSFORD ITEMS.—An interesting social event takes place at Little Shemogue on 30th.—Mr. Frank Harper has purchased the corner property at Bayfield from Mr. C. Vanbuskirk, and proposes laying it out in lots for building or business purposes, for which it is well adapted owing to its proximity to the railway, as well as its central position and fine situation. Welsh & McLeod are laying in their fall stock of goods.

By Universal Accord,

AYER'S CATHARTIC PILLS are the best of all purgatives for family use. They are the product of long, laborious, and successful chemical investigation, and their extensive use, by physicians in their practice, and by all civilized nations, proves them the best and most effectual purgative Pill that medical science can devise. Being purely vegetable no harm can arise from their use, and being sugar-coated, they are pleasant to take. In intrinsic value and curative powers no other Pills can be compared with them; and every person, knowing their virtues, will employ them, when needed. They keep the system in perfect order, and maintain in healthy action the whole machinery of life. Mild, searching and effectual, they are especially adapted to the needs of the digestive apparatus, derangements of which they prevent and cure, if timely taken. They are the best and safest physic to employ for children and weakened constitutions, where a mild but effectual cathartic is required.

For sale by all druggists.

HALL'S VEGETABLE SICILIAN HAIR RENEWER is a scientific combination of some of the most powerful restorative agents in the vegetable kingdom. It restores gray hair to its original color. It makes the scalp white and clean. It cures dandruff and humors, and falling-out of the hair. It furnishes the nutritive principle by which the hair is nourished and supported. It makes the hair moist, soft and glossy, and is unsurpassed as a hair dressing. It is the most economical preparation ever offered to the public, as its effects remain a long time, making only an occasional application necessary. It is recommended and used by eminent medical men, and officially endorsed by the State Assayer of Massachusetts. The popularity of Hall's Hair Renewer has increased with the test of many years, both in this country and in foreign lands, and it is now known and used in all the civilized countries of the world.

For sale by all dealers.

—At Belleville, L. I., on Thursday evening last, while an oyster supper was being given in a Methodist church, Wm. Smith and Capt. John Sackett, brothers-in-law, quarrelled and exchanged blows. During the melee ten persons were injured, including the pastor who was seriously kicked and beaten. Smith and Sackett are confined to their beds.

—Mr. John Spark, of Taylor Village, writes to the Moncton *Times* that in June he planted the seeds of three potatoes and dug this fall three pecks of good eating potatoes.

—On Thursday last cowboys raided Glendine, Dakota, took the town, killed a man and fled.

—The Sheriff of Gloucester has discovered a new method for collecting money, and, like all other discoveries, is likely to prove awkward and irksome to the discoverer. It appears that the sheriff held an execution against a man, and, by some chicanery at present unknown, obtained information that a registered letter containing sufficient money to meet his demands would reach the post office at Shippegan at a certain date, whereupon this sheriff made his appearance at the post-office, and seeing the letter, seized it without giving the postmaster an opportunity of disputing his right to it, and refused to give it up. The sheriff was not content with this act, but, with the letter in his pocket, took the above mentioned man on a bailable writ, which he held against him, and after deducting the amount of the two claims and his own costs, refunded the balance. How this high-handed act will be dealt with remains to be seen.

—It will interest our farmers to know that at the Dominion Exhibition just closed at St. John both prizes offered for chemical fertilizers were taken by a Halifax firm of manufacturers—Messrs. Jack & Bell. The prizes were as follows: Superphosphate, best exhibit, for quality and manufacture, exhibitor to furnish analysis of composition certified by a professional chemist, silver medal; special fertilizers, for best collection, bronze medal. The judge was Professor Sheldon, of the Royal Agricultural College of England, whose endorsation, on account of his position in the centre of the most advanced agricultural systems of the world, is very valuable.

—The commission on Intercolonial Railway claims have concluded the investigation into the claims of Smith & Tibbado, contractors for section four. Decision was reserved. The date of the next sitting of the commission has not yet been fixed.

—The most dangerous fevers are typhoid, bilious, malarious and gastric These all originate in the stomach, liver or bowels, and may be easily prevented. One of *Parson's Purgative Pills* each night for a week will drive disease from the system.

LONE JACK, Mo., Sept., 14, 1879.

I have been using Hop Bitters, and have received great benefit from them for liver complaints and malarial fever. They are superior to all other medicines.
