Two Ontario Government loans are to be placed upon the market by the Government this spring, one for $2,000,000 for the general purposes of the province and the other of $210,000 for the purchase of timber limits in Algonquin Park. Both loans will be floated in Ontario and will be open to popular subscription.

Dashwood

Mr. and Mrs. Chris Burgemeister returned home Monday after a week's visit with relatives at Walkerton and Hanover.

Miss Lucinda Kraft left Monday for Exeter after a month's vacation with her parents here.

Mr. and Mrs. Long and daughter of London spent Sunday with their daughter, Miss Long, milliner at Tieman & Edighoffer's.

Mrs. Peter McIsaac returned home on Saturday from London, where she had been for a few days with her son Wilfrid, who underwent an operation for appendicitis at St. Joseph Hospital last Tuesday. He is doing nicely.

Messrs. Solomon and Herbert Miller of London are visiting their mother for a few days.

Mr. Alfred Zimmer arrived home from Buffalo on Saturday, where he has been for the past two years. He intends to take a trip out west.

Miss Bertha Guenther of Exeter and Miss Katie Guenther of Parkhill spent Sunday under the parental roof.

Mr. Joseph Eidt and daughters spent Monday at Crediton.

Mr. Jacob Zeller and family, accompanied by Mr. and Mrs. Jacob Brenner and family left Tuesday for their new home at Stratford. Their household effects were taken to Stratford with Mr. Guenther's auto bus. We wish them every success in their new home.

Mr. Milton Harris of Crediton was the guest of Miss Theo Hartleib Sunday.

Mr. Ed. Rhode have moved to Hensall to reside.—Miss Dunlop has accepted a position as teacher in Brantford and Miss Buchanann of Hensall has taken her place here.—Milfred McIsaac underwent an operation for appendicitis in London last week.—Mr. John Stephen has sold his 50 acres on the 14th of Hay to Henry Link and Alex Wild for $3000.—Miss Ethel Kellerman is to be congratulated in passing her Normal Examinations.—The Dashwood Junior baseball club has been engaged with T. Klump; Vice-Pres., Nadiger, Manthe following officers as follows— Pres. aging Com., Geo. Shore, H. Zummer; Sec-Treas., Geo Edighoffer., W. C. Miller.

BLIMVILLE

A quiet but pretty wedding took place at the Methodist parsonage, yesterday, Wednesday, when Rev. Steadman united in marriage Mr. Clarence Charlton Levy of Usborne and Miss Charlotte Jane Harness, daughter of the late Isaac Harness of Blanshard. The young couple will make their home in the Township of Usborne and will have the best wishes of their many friends for a happy wedded life.

A WINDSOR LADY'S APPEAL

To All Women—I will send free with full instructions, my home treatment which positively cures Leucorrhoea, Ulceration, Displacements, Falling of the womb, Painfull or Irregular Periods, Uterine and Ovarian Tumors or growths also Hot Flushes, Nervousness, Melancholy, Pains in the Head, Back or Bowels, and Bladder troubles, where caused by weakness peculiar to our sex You can continue treatment at home at a cost of only about 12 cents a week My book, "Woman's Own Medical Adviser," also sent free on request. Write to-day. Address, Mrs. M. Summers Box. H. 840 Windsor, Ont.

$100 Reward $100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease tha science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Address F. J. CHENEY & CO., Toledo, O.
Sold by all Druggists, 75 cents.
Take Hall's Family Pills for constipation.

True enough, few of us escape the tongue of gossip at one time or another.

To Farmers

A CHOICE LINE OF HORSES FOR FORMERS TO BREED FROM.

BARON IREBY, No. 9996, 13334, is a pure-bred imported Clydesdale Stallion, of excellent breeding and choice pedigree, stands 17 hands high and is well proportioned in every way. He will stand for service at his own stable, Lot 17, COncession 14, Stephen Township during the season. ISAAC TETREAU & W. DEVINE, Prop.; Wm. DEVINE, Manager.

CAMBUSHINNIE SQUIRE, No. 16149, Vol. 34, is a pure-bred imported Clydesdale Stallion, was foaled in 1908, and shows a line of ancestors that is considered unbeaten by any horse. He is built on strong and choice lines, and should prove a sure foal-getter. He will stand for mares at his own stable, Khiva, Lot 12, Con. 13, Stephen. WM. WITZEL & SON, Khiva, Props. CENTRAL Business College, STRATFORD, ONT.

Our classes are now larger than ever before but we have enlarged our quarters and we have room for a few more students. You may enter at any time. We have a staff of nine experienced instructors and our courses are the best. Our graduates succeed. This week three recent graduates informed us that they have positions paying $65 $70 and $125 per month. We have three departments,—Commercial, Shorthand and Telegraphy. Write for our free catalogue now.

D A. McLACHLAN, Principal.

EDMONTON

During the past year Edmonton has come to the front rank of the more important Commercial Centres of Canada. Available trade statistics indicate that the volume of trade is expanding at a faster rate of increase than that of any other city in the Dominion.

THE BANK CLEARINGS ARE THE LARGEST PERCENTAGES OF INCREASE SHOWN BY ANY CLEARING CENTRE IN CANADA, AND TO-DAY EDMONTON STANDS SEVENTH IN THE LIST OF CANADIAN COMMERCIAL CENTRES.

THE EASTERN WHOLESALE AND MANUFACTURING CONCERNS ARE BUILDING WAREHOUSES AND DISTRIBUTING PLANTS IN EDMONTON IN ANTICIPATION OF THE GREAT VOLUME OF TRADE TO BE CENTRED THERE. IT IS IMPOSSIBLE TO COMPUTE THE EXTENT OF THE TERRITORY FOR WHICH EDMONTON WILL BE THE DISTRIBUTING POINT. THE CITY IS SITUATED AT AN ALTITUDE OF 2,200 FEET AND THE GROUND DIPS TO THE NORTH. THUS, ALTHOUGH ONE GETS INTO MORE NORTHERLY LATITUDES, AS ONE GOES NORTH, THE CLIMATE DOES NOT GET COLDER FOR THE FURTHER ONE GOES THE LOWER THE ELEVATION GETS AND THE LONGER THE SUNSHINE OF THE MIDSUMMER DAYS.

AT FORT VERMILLION, WHICH IS MORE THAN 400 MILES NORTH OF EDMONTON MAGNIFICENT CROPS OF WHEAT AND OTHER GRAINS HAVE BEEN RAISED FOR MANY YEARS. FORT VERMILLION IS IN THE PEACE RIVER DISTRICT AND THE GENERAL CHARACTERISTICS AS TO SOIL AND CLIMATE ARE MORE FAVORABLE IN THE PEACE RIVER SETTLEMENTS THAN IN THE OLDER SETTLEMENTS TO THE EAST AND SOUTH.

IN ADDITION TO THE PEACE RIVER DISTRICT ABOUT 50,000 SQUARE MILES OF FERTILE COUNTRY NOW PARTLY SETTLED AND CAPABLE OF SUPPORTING A DENSE FARMING POPULATION LOOK TO EDMONTON AS THEIR COMMERCIAL CENTRE.

FROM THE FOREGOING IT WILL HAVE BEEN GATHERED THAT CONDITIONS ARE FAVORABLE FOR THE DEVELOPMENT OF A GREAT WHOLESALE CENTRE. THERE ARE FACILITIES FOR TRANSPORTATION AND A BIG CONSUMING AREA CAPABLE OF INDEFINITE EXPANSION, WHICH IS PROTECTED FROM COMPETITION BY GEOGRAPHICAL CONDITIONS.

THE ESTIMATE OF AVAILABLE COAL CONTENTS OF THE EDMONTON DISTRICT IS SIXTY THOUSAND MILLIONS OF TONS.

THE OPPORTUNITIES FOR THE INVESTOR IN CITY REAL ESTATE WERE NEVER MORE FAVORABLE THAN AT THE PRESENT TIME. THE FUTURE OF THE CITY IS ASSURED AND THERE IS NO POSSIBLE CONDITION IN EXISTENCE TO-DAY THAT CAN RETARD OR STOP THE CITY'S GROWTH, AND CONSEQUENTLY THE RISE IN LAND VALUES.

FARM LANDS PURCHASED TO-DAY WILL PROVE A SAFE AND PROFITABLE INVESTMENT.

For further information regarding City Property, Farm Lands and Homesteads enquire at our office in EXETER --- the premises lately vacated by the Bank of Commerce.

FERTILIZER

WHY NOT USE FERTILIZER INSTEAD OF BARNYARD MANURE?

It is easier to apply to the land and gives better satisfaction in every way. It is used for all grain crops and also a good catch of clover on poor meadows. Give your land a good top dressing of Fertilizer before planting your potatoes and it will double your crop. It is good for beans and for all kinds of root crops It has been tested and found to be better than other fertilizers. Give it a trial. Over three hundred tons sold already.

The National Fertilizer, which is placed on the market by the National Land, Fruit and Packing Company, is the only organic fertilizer made, and shows the following analysis compared with barnyard manure:—

Nitrogen 6.50, equal to 4.0 ammonia.
Phosphoric acid 5.75, equal to 12. soluble phosphates.

Potash 3.50.

McGILLIVRAY

A happy event took place on Tuesday, the 16th, inst at 4 p.m. at the home of Mr. John Daley, of McGillivray, when his third daughter, Arvella Evelyn, was united in marriage to Mr. Wesley J. Hord, of East Williams, in the presence of numerous relatives gathered from Strathroy, Adelaide, McGillivray, East Williams, Greenway, Harpley and other places. Rev. W. Godwin, Pastor of the Methodist Church, Parkhill, performed the ceremony. The duties of groomsman was alloted to Mr. John A. Fraser, of Vanneck and those of bridesmaid to Miss Delila B. Hayter, of Harpley. The bride looked charming in a white embroidered muslin gown. At the close of the ceremony the company to the number of about fifty regaled themselves at the sumptuous repast provided by the generous hostess.

HAY.

The following is the result of the promotion examination for S. S. No, 2, Hay.—V. Class, W. Northcott 70; E. Jones 65, IV, Class, E. Campbell 66, Ralph Hawkins 66, J. Murray 58 E. Willard 57, Hilda Williams 49. III class G. Case 78, A. Dearing 63, V. Jones 59, E. Geddes 59, W. Willard 47, Herman Willard 42. Geo. Mawson, Teacher.

Dan Surerus died very unexpectedly on April 11th, in Hay Township, at the age of 48 years, 1 month and 16 days. He was born on the old homestead, Bronson Line, February 24th, 1864, and was married to Gertrude Weber in 1893, which union was blessed with four children—Alvin at Victoria College, Toronto; Gordon, Flossie and Almeda at home. Last Thursday while at work in the bush with his son Gordon, sawing down a tree, he was struck by the falling tree and received such internal injuries that he succumbed the same day. He was a good neighbor, a loving husband and a most affectionate father. He leaves to mourn, a sorrowing wife, 4 children, an adopted daughter, four brothers and two sisters. Interment took place on Sunday to the Evangelical Cemetery, Bronson Line.—Mr. John Rickbeil, one of Hay's residents, passed away recently in Cavalier, N. Dak. He was born in Hamburg, Germany, May 22nd, 1820, and was therefore 91 years, 10 months and 6 days old. He came to Preston, Canada, in 1847 and in 1852 he moved to Hay Township. In 1855 he was married to Louisa Hansel. The deceased moved to Cavalier in 1880, where he lived until his death. Besides his aged wife he leaves to mourn his departure seven children, 25 grand children and five great-grand children.

Death to Dandruff Germs Life to All Hair

NO MORE DANDRUFF, FALLING HAIR, SCALP ITCH, BALD HEADS OR DULL FADED HAIR.

This is a free country. It's your right, your privilege to use any hair tonic you desire.

But why continue to use a hair tonic that doesn't do what it should do—kill the germs and banish all dandruff and hair troubles?

If you have dandruff, if your hair is getting thin and falling out, if your scalp itches and your hair isn't bright and lustrous bear in mind this fact; that America, is guaranteed by W. S. Cole to PARISIAN SAGE, how sold all over give the limit of satisfaction if used for any of the above hair or scalp troubles, or money back.

PARISIAN SAGE is the most delightful and refreshing hair dressing for men, women and children, and is particularly in demand by refined women who desire to increase their beauty by acquiring an abundance of fascinating hair, full of life and lustre.

A large bottle of PARISIAN SAGE costs but 50 cents, at W. S. COLE'S and druggists everywhere. The girl with the Auburn hair is on every carton and bottle.

WOODHAM

Another pioneer passed to the great beyond in the person of Henry Adam Sweitzer. He had been in poor health for some months and ten days ago was taken worse. On Friday morning he died and Sunday, afternoon, Apr., 14th, funeral services were conducted at the house by the Rev. W. R. Vance, interment taking place in Kirkton cemetery. Three sons and five daughters are left to mourn his loss. He was in his eightieth year and was born in Brock Township and came to the Base Line of Blanchard sixty years ago.

BIDDULPH

Much and sincere regret was felt here on learning of the death of Mrs. John Devereux, of the Huron Road, McKillop, which sad event occurred early Tuesday morning. About a week previously, while in the the enjoyment of her usual good health she was suddenly overtaken by a severe chill, which developed into pneumonia. Mrs. Devereux was a native of the Township of Biddulph. Her maiden name was Mary Nangle. She was the eldest daughter of the late Patrick Nangle and was married to Mr. Devereux about 20 years ago. She leaves no family, but is survived by her husband and two sisters and six brothers.

ZURICH.

Peter Beaver of Sebewaing, Mich., visited his mother who is ill for a few days last week.—Mr. and Mrs. John Geiger and family left last week for their new home in Pigeon, Mich.—Rev. H Dierlamm of Elkton, Mich., a former pastor of the Evangelical church here, died on April 14th, at Elkton.—And Surerus of New Hamburg, Cyrus Surerus and Oliver Zinn of New Dundee, Samuel Surerus of Petersburg, Abe Surerus of Berlin and Jacob Surerus and Wife of Mitchell were here attending the funeral of the late Daniel Surerus.—Oliver Surerus has moved to Owen Geiger's farm a mile west of town.—Mr. S. Kipfer has moved into T. Johnson's dwelling recently vacated by Mr. O. Surerus.—J. F. Rickbeil, J. Preeter and F. W. Hess have each placed orders for Ford automobiles—E. Zeller has purchased the interests of his partner F. J. Wickwire in the Zurich Herald, Dashwood Pioneer and Crediton Star and the plant will be located at Zurich.

MOUNT CARMEL.

The marriage of Mr. John Maloney of St. Marys, to Miss Nora Carroll, of the 8th concession of Stephen, was solemnized in the R. C. Church here on Tuesday, April 16th. The bride was attired in brown silk and wore a beautiful cream hat. She was attended by her cousin, Miss Nellie Dalehay, while the groom was supported by his brother, Joseph Maloney, also of St. Marys. After the wedding breakfast the happy couple left on the evening train for Detroit to spend a short honeymoon.—Miss Mary Ryan was called home from Chicago last week owing to the very low condition of her brother.—Mr. and Mrs. Henry Miller of Zurich called on friends here Sunday.—Mr. Timothy Coughlin still lies very seriously ill at St. Joseph's Hospital, London.—Mr. and Mrs. Patrick Maloney of St. Marys attended the wedding of their son, John here last week.—Miss Joan Regan of Detroit is visiting her home here at present.

HENSALL

Lorne Scott was in Toronto last week.—J. McMartin of Toronto was a guest at R. Bonthron's.—Mrs. J. Blatchford has returned from a visit of some weeks in Toronto.—The I.O.O.F. Hall has been considerably improved.—Geo. McEwen returned last week from the west where he spent two weeks looking after property interests.—G. C. Petty was in London last week, attending the funeral of Mr. Ramsay, one of the earliest settlers in Hensall. As a carpenter deceased assisted in erecting several of the first houses.—A letter box has been placed at the station, through the influence of Mr. J. J. Merner.—Many farmers in this section are going extensively into potato growing this season—Robt. Cameron has purchased the residence he has occupied for several months from Miss Annie Wren.—Mrs. N. Shirray and daughter Miss Agnes returned last week after spending two months in Toronto.—Mrs. J. Allister, who for nearly a year has resided with her son, Dr. McAllister of Georgetown, is here visiting relatives.—The band has re-organized and elected the following officers,—Milne Bannie, leader; J. W. Ortwein, Hon.—Pres.; Dr. Sellery, Pres.; T. Palmer, jr., Vice.; H. P. Madden, Sec.-Treas.

BRUCEFIELD.—The Oddfellows held an entertainment on Thursday evening when 20 new candidates were admitted into the lodge. A supper was held at the close, at Mr. Walker's hotel, when a contingent from Hensall were present and also the grand master, Mr. Popplestone, of Blyth.

BAYFIELD—Word was received here on Saturday last of the death, which occurred in Saginaw, Mich., of Charles Stacker. Deceased was an old resident of Bayfield and left here for Saginaw about twenty two years ago. One sister, Mrs. Michael Dupee, resides here.—Mr. A. E. Erwin met with a severe loss one day last week when he was obliged to shoot one of the black team which was used on the hearse, owing to his having his leg broken.

MITCHELL—Mrs. S. Somerville went to Stratford a few weeks ago to visit her sister, Mrs. Geo. Hird, and was taken ill while there, and died on Friday evening. She was a member of the Methodist choir, and the chair that she had occupied was draped in mourning on Sunday. Deceased was 46 years of age. Besides her husband, she leaves four brothers and four sisters.

TUCKERSMITH—At the residence of her nephew, Mr. Frank Hutson, at Stapleton, on Tuesday, Miss Emma Cook passed away at the age of 62 years. Deceased was born in England. She had only been ill a few days from pneumonia.

KIPPEN.Kilpatrick brothers have bought the hundred acre farm, known as the Paul Doig farm, south of the village, which now gives them 200 acres of fine property.

Nature's Way Is The Best.

Buried deep in our American forest we find bloodroot, queen's root, mandrake and stone root, golden seal, Oregon grape root and cherrybark. Of these Dr. R. V. Pierce made a pure glyceric extract which has been favorably known for over forty years. He called it "Golden Medical Discovery."

This "Discovery" purifies the blood and tones up the stomach and the entire system in Nature' own way. It's just the tissue builder and tonic you require when recovering from a hard cold, grip, or pneumonia. No matter how strong the constitution the stomach is apt to be "out of kilter" at times; in consequence the blood is disordered, for the stomach is the laboratory for the constant manufacture of blood. Dr. Pierce's Golden Medical Discovery strengthens the stomach—puts it in shape to make pure, rich blood—helps the liver and kidneys to expel the poisons from the body. The weak, nervous, run-down, debilitated condition which so many people experience at this time of the year is usually the effect of poisons in the blood; it is often indicated by pimples or boils appearing on the skin, the face becomes thin—you feel "blue."

J. G. KERR, ESQ.

"More than a week ago I was suffering with an awful cold in my head, throat, breast, and body," writes MR. JAMES G. KERR, of 710 L. Street, S. E., Washington, D. C. "Some called it La Grippe, some pneumonia. I was advised by a friend to try a bottle of your 'Golden Medical Discovery.' I tried a bottle and it did me so much good that I feel safe in saying it is the greatest and best medicine that I ever took. My health is much better than it was before using your medicine. It does all you claim for it and is satisfactory."

Dare You Marry?

SECRETS OF HOME LIFE

Statements made by patients taking the New Method Treatment. They know it Cures

☞ No Names or Testimonials used without written consent

CONSTITUTIONAL BLOOD DISEASE.

Patient No. 16474. "The spots are all gone from my legs and arms and I feel good now. I am very grateful to you and shall never forget the favor your medicines have done for me. You can use my name in recommending it to any sufferer. I am going to get married soon. Thanking you once more, etc."

SAYS TWO MONTHS CURED HIM.

Patient No. 16765. Age 23. Single. Indulged in immoral habits 4 years. Deposit in urine and drains at night, Varicose Veins on both sides, pains in back, weak sexually. He writes:—"I received your letter of recent date and in reply I am pleased to say that after taking two months' treatment I would consider myself completely cured, as I have seen no signs of them coming back (one year).

THE WORLD SEEMS DIFFERENT.

Patient No. 15623. "I have not had a regular Emission I don't know when and am feeling fine. The world seems altogether different to me and I thank God for directing me to you. You have been an honest doctor with me."

VARICOSE VEINS CURED.

Case No. 16888. Symptoms when he started treatment:—Age 21, single, indulged in immoral habits several years. Varicose Veins on both sides—pimples on the face, etc. After two months' treatment he writes as follows:—"Your welcome letter to hand and am very glad to say that I think myself cured. My Varicose Veins have completely disappeared for quite a while and it seems a cure. I work harder and feel less tired. I have no desire for that habit whatever and if I stay like this, which I have every reason to believe I will. Thanking you for your kind attention," etc.

GAINED 14 POUNDS IN ONE MONTH.

Patient No. 13522. This patient (aged 58) had a chronic case of Nervous Debility and Sexual Weakness and was run down in vigor and vitality. After one month's treatment he reports as follows:—"I am feeling very well. I have gained 14 pounds in one month, so that I will have to congratulate you." Later report:—"I am beginning to feel more like a man. I feel my condition is getting better every week." His last report:—"Dear Doctors—As I feel this is the last month's treatment that I will have to get, I thought at one time I would never be cured but I put confidence in you from the start and you have cured me."

CURES GUARANTEED OR NO PAY

We treat and cure VARICOSE VEINS, NERVOUS DEBILITY, BLOOD AND URINARY COMPLAINTS, KIDNEY AND BLADDER DISEASES and all Diseases peculiar to men.

You will be proud of the bread you'll make with PURITY FLOUR

AFTER seeing a batch of big, golden-crusted, snowy-white loaves, that you have baked from PURITY FLOUR, you will, indeed, be proud of your cooking-ability—and proud of your wisdom in deciding to pay the little extra it costs to procure such high-class flour. You will admit, too, that we are justified in the pride we take in milling this superb flour.

PURITY FLOUR

"More bread and better bread"

PURITY FLOUR is milled exclusively from the best Western hard wheat—the world's finest. More than that, PURITY FLOUR consists *entirely of the high-grade portions of the wheat.* The low-grade portions are separated and excluded during the PURITY process of milling. Such high-class flour, of course, expands more in the baking. It makes *"more bread and better bread."*

It makes lighter, flakier pastry, too, if you just take the precaution to add *more* shortening. On account of its unusual strength PURITY FLOUR, for best results, requires more shortening than ordinary flour.

Progressive dealers, everywhere, sell PURITY FLOUR and take pride in recommending it.

Add PURITY FLOUR to your grocery list right now. 106

Sold in EXETER by R. G. Seldon

HOUSEHOLD

SELECTED RECIPES.

Watercress Soup.—Cut up not fine one bunch of watercress and four good sized potatoes. Put them in two quarts of boiling water and boil one hour, add one quart of milk, and heart in a double boiler. Season with salt, pepper and a dash of Cayenne.

Rhubarb and Pineapple Marmalade.—Take seven pounds of rhubarb (unpeeled and cut small), seven pounds of sugar, one large pineapple (chopped fine) and the juice of one lemon. Put all in a preserving-kettle and let stand overnight. Next day cook until thick.

Potatoes Otero (an excellent dish for supper or luncheon).—Bake a number of potatoes in the oven; remove the skins carefully, make a hole in each potato, and into each break an egg, seasoning it with salt, pepper, and plenty of butter. Put the potatoes in a buttered dish and cook them three or four minutes in an oven that is not too hot. It will add to the flavor of this dish if each egg is covered with a thin slice of truffle.

St. Charles Indian Bread.—Mix one tablespoonful of butter with a saucer of hot rice, and two well-beaten eggs, one teaspoonful of salt, one pint of milk, and finally five tablespoonfuls of white cornmeal mixed with one teaspoonful of baking powder. The batter will be almost as thin as milk. Pour it into well-greased, long, narrow pans, and cook half an hour. When the bread is done, turn it out on platters by tipping the pans upside down. Care must be taken, however, that none of the bread sticks to the pans.

Dutch Turnabout.—Among the delicious and economical dishes which the Dutch housewife contrives from "left-overs," there is one great favorite familiarly known as "Turnabout." The foundations of this receipt are two or three cold boiled potatoes and a few slices of cold meat. Mash the potatoes very fine; mix in slowly, stirring all the time, a half-cupful of salad oil, a pinch of salt and a dash of pepper, and a cupful of warm water. When thoroughly blended add a spoonful of tarragon or ordinary vinegar and set aside. Chop the meat fine and add to it a chopped gherkin, two chopped pickled onions, a bit of beet-root and a raw apple, peeled, cored and chopped. Mix well together with a pinch of salt and a dash of Cayenne pepper; break an egg on the mixture and stir in well; drop in a quarter-cupful of salad oil, and press into a plain mold. When fully shaped, turn out and serve on a flat dish, with the potato sauce poured round it.

Another successful dish is made with cold soup meat as a foundation. Chop a quarter of a pound of it and place in a saucepan with a bit of dripping, salt, pepper, and a taste of nutmeg. Pour on it a cupful of milk and stir over the fire until it boils. Add enough flour to thicken slightly, one spoonful of finely chopped onion and two of powdered parsley. Butter scallop shells and fill with the mixture, sprinkling brown bread-crumbs over it. Place the shells in a hot oven, and allow the mixture to get thoroughly browned. Serve very hot.

CAKES.

Hot Water Sponge Cake.—Work together one and one-fourth cups of granulated sugar, or one and one-half cups of powdered sugar, with the yellows of four eggs well beaten. Whip separately the whites of four eggs until they are light and fluffy as snow, and add them to the yellows and sugar. Take one and one-half cups of flour through which two small teaspoonfuls of baking powder has been thoroughly mixed, and stir in briskly with the above. Put a pinch of salt into four tablespoons of boiling water and add to this mixture. Grate lightly the outer yellow part of the rind of one-half lemon, and add for flavoring. Bake in a moderately hot oven in a cake tin which has a hollow cylinder.

Don't Heat Cake Pans.—Never heat cake pan before putting in the batter, but grease well while cool with clear lard, then dust well with flour. The cake will not stick even if the pan has been used for other purposes.

White Layer Cake.—Cream together one scant cup butter and two cups pulverized sugar, thoroughly sifted. Add gradually one cup of sweet milk. Sift two teaspoons of baking powder with three cups flour and slowly add this to above. Then fold in the beaten whites of six eggs. Flavor with vanilla. Bake in layers, about twenty minutes.

WHAT TO SAVE.

Save inside soap wrappers to rub irons on when ironing.

Save cold coffee left from breakfast and use instead of water on your ferns.

Save tea leaves, rinse in cold water and use on the carpet when sweeping to lay the dust.

Save old tooth brushes to use when cleaning silver, and to apply paste blacking to shoes—nothing finer to clean in between sole and upper.

Save any surplus cold starch, allow to settle, pour off water, let dry and it may be used again.

Wash eggs before breaking and save the shells to settle coffee.

WORTH KNOWING.

Make old petticoats, unfit for any other use, into laundry bags.

Odd pieces of fruit, such as one banana, an apple or an orange, are mixed with lemon gelatine to advantage.

Take the bottoms of worn out gauze underwear and buttonhole around the edges. Use as wash cloths.

A little vinegar put into water in which eggs are poached will keep them white and prevent them from spreading.

In baking a cake it is well to remember that a sponge cake requires a lower temperature than a cake made with butter.

A scented bag that will keep moths away is made as follows: One-half ounce each of cloves, nutmeg and caraway seeds.

Tough steak should be chopped and mixed with diced potatoes and then baked. Grated cheese over this dish improves the flavor.

Do not destroy any net from old curtains. Cut into squares of desired size and stitch together, and they will make excellent wash cloths.

A saucer of baked beans can be heated with catsup in a pan and a spoonful on toasted crackers serve nicely for the noonday luncheon.

If gilt frames are coated with copal varnish it will preserve them, and they can be washed with water without removing the luster from the gilt.

Be careful never to use too much butter in cake. Use a scant amount rather than what the rule calls for, and it will save many a poor cake.

Cold water, a teaspoonful of ammonia and soap will remove machine grease when other means would not answer on account of colors running.

To wash water bottles or any vase having a long neck fill with clear hot water, and tiny bits of torn paper. Shake well and rinse in clear water.

Don't handle the dough any more than necessary when making biscuits, doughnuts or cookies. The more you handle it, the tougher it will become.

Varnished furniture should be rubbed with silk occasionally, when a little sweet oil may be used. If rubbed on and wiped off carefully it will remove all spots and preserve the brightness of the veneer.

To remove wall paper take warm water that is softened with borax or ammonia and apply with a sponge. The paper will soon become soaked and blistered and may be easily stripped off. It is well to do this a day or so before the new paper is put on.

Economical work aprons may be made of flour sacks which have been boiled in water containing a generous supply of concentrated lye for removing the lettering. Use one or two sacks, according to the width of apron desired, and another one or two for a ruffle across the bottom.

The process of dusting may be rendered practically dustless if the dust cloths are occasionally washed in hot suds, dipped in kerosene and then dried thoroughly in the open air. The duster or dry mop treated in this manner greatly improves the appearance of hard wood floors.

We know that discoloration, mold and often unsightly looking rents are made by the accumulating of water, between paper and ceiling, caused by leaks in unsound roofs or disordered bathrooms. When you see a damp spot appear on your ceiling, immediately make a few openings in it with a pin point, fastenng the pin on a stick or long broom handle, and let off the water. The paper will dry out, leaving soon not the least trace of disaster.

To prevent the bedclothes pulling out from the foot of the bed and leaving the feet cold take half an old sheet and put one end or half of it under the foot of the mattress and let the other half hang over the footboard while you spread the sheets and blankets as usual; but before putting on the spread bring the other part of the half sheet up over the clothes as far as it will come, then put on the spread. It will take more than an ordinary amount of kicking on the part of the most vigorous boy to tear the clothes loose.

SHE DIDN'T WANT ANOTHER.

A lady was asked recently how she stood on the vote for women question. She replied she didn't "stand at all," and told a story about a farmer's wife who had no very romantic ideas about the opposite sex, and who, hurrying from churn to sink, from sink to shed and back to kitchen fire, was asked if she wanted to vote. "No, I certainly don't! I say if there's one little thing that the men folk can do along for goodness sake let 'em do it!" she replied.

When a man has no good reason for doing a thing he has one good reason for letting it alone.

SOME VIEWS OF THE MIGHTY TITANIC

THE SUNDAY SCHOOL STUDY

INTERNATIONAL LESSON, APRIL 28.

Lesson IV.—The Beatitudes, Matt. 5. 1-12. Golden Text, Matt. 5. 8.

Verse 1. The multitude—In the last verse of the preceding chapter Matthew mentions the multitudes which were following Jesus everywhere as he went from place to place in Galilee. With a reference to these multitudes he now introduces his narrative of what occurred on one special occasion.

The mountain—The use of the article indicates that a definite, well-known hill or mountain was intended, but which one it is not possible to say.

His disciples—The word "disciple" means literally learner, and is here to be taken in its broader sense, as not restricted to the twelve.

3. Blessed—The word translated "blessed" is thought to come from a root word meaning great, in the sense of outward prosperity. In early classical Greek it was applied more especially to the gods, who were considered great because of their power and dignity rather than because of their goodness or holiness. A little later it was applied also to the dead, especially to heroes who had died in battle. The Greek philosophers from Socrates onward use it in a sense including the moral element, but in the Bible alone is the word lifted into the region of the spiritual as distinguished from the merely material and intellectual. Even in the Old Testament usage of the term there remains more of the sense of outward prosperity than in the New Testament. It is interesting to note how this word passed up into the higher region of Christian thought and was stamped with the gospel signet and laden with all the richness and significance of gospel blessedness."

Poor in spirit—Those conscious of their deep spiritual needs. Luke adds to this beatitude the pronouncement of woe against the rich: 'Woe unto you that are rich! for ye have received your consolation."

4. They that mourn—There is nothing in the meaning of the word "mourn" or of the sentence in which it occurs that would limit this phrase to those who mourn on account of their spiritual poverty or sinfulness, though it is not improbable that Jesus had such especially in mind. The corresponding woe recorded by Luke reads: "Woe unto you, ye that laugh now; for ye shall mourn and weep."

5. The meek—We have here another word which Christianity has lifted to a higher plane of meaning. Literally the word means mild or gentle, but the quality of meekness in human character was not considered praiseworthy by heathen philosophers. Thus Aristotle calls meekness "a mien inclining to a defect." Christian meekness is based on humanity, and is an outgrowth of Christian experience quite as much as a natural quality.

6. Righteousness—Rightness of life and conduct in the sight of God. Shall be filled—The verb in the original is very strong, indicating complete satisfaction of hunger and thirst. Luke adds, "Woe unto you, ye that are full now! for ye shall hunger."

8. Pure in heart—Heart here refers to inner soul-life controlling the entire personality (compare Gen. 42. 28; Psa. 19. 14; Prov. 4. 23; Luke 12. 34).

Shall see God—The development of Christian character subsequent to the cleansing of life's motives brings with it a gradual unveiling of God, whose power, holiness, and love appear more and more plainly to those who are pure in thought and life.

9. Peacemakers—Primarily those who heal dissensions, but also those whose lives, because of their purity and loving service are a benediction to all about them, bringing, as it were, the peace of God into the environment in which they are spent.

Sons of God—Those most akin to the divine nature, whose presence, like that of God, brings peace and blessing.

10. Persecuted for righteousness' sake—All whose sincere effort to live a godly life in this world is misunderstood, and for that or other reasons opposed and ridiculed, may be said to be persecuted for righteousness' sake.

11. Falsely—The mere face that a person is persecuted and evil spoken of, even if the persecution and slander is out of all proportion to the offense, is not sufficient; only when all is brought upon a person wholly unjustly, that is, when the person is entirely innocent, is there cause on his part for the rejoicing mentioned in the next verse.

12. The prophets that were before you—Jesus thus seems to place his disciples on an equality with Old Testament prophets. We have here a hint at the broader meaning of the word "prophets." A prophet was a teacher, one who proclaimed the truth, the term not being limited in its application to one who foretold future events. The pronouncement of woe which Luke records reads: "Woe unto you, when all men shall speak well of you! For in the same manner did their fathers to the false prophets."

Map showing where Titanic struck iceberg, and positions of Olympic and Virginian, first boats to receive wireless call for help.

WORLD-WIDE WIRELESS.

France is planning to establish an elaborate system of wireless telegraph stations upon French territory throughout the world. The government will thus be enabled to send messages to any point on the globe without dependence upon existing telegraph cables, most of which are owned or controlled by foreign capital. Experts agree that 12 stations will be sufficient to insure the success of the project. The starting point would be the Eiffel Tower in Paris, and messages would be relayed to stations in the following French possessions: Dahomey, Timbuktu and Kunsque in West Africa; Jibuti, on the Red Sea, and Madagascar; Pondicherry, India; Saigon, Indo-China; New Caledonia; Tahiti and the Marquesas Islands; Martinique.

KISSES SPREAD DISEASE.

Health Officer Frederich, of Cleveland, Ohio, announced recently that he had completed his investigation of the curious assortment of diseases that attacked a score of women guests following a bridge party given by Mrs. Meyer Kaskuloff. Scarlet fever, diphtheria, tonsilitis and grip developed among the guests a few days after the party. "It is my belief," Frederich said, "that the women distributed the germs among themselves by kissing one another. I can think of no other explanation."

WHIMSICAL U. S. LAWS.

A lawyer has completed a list of laws for odd crimes in the different States, and among these laws are the following: In Rhode Island it is a breach of the law not to provide good drinking water on all railroad trains; in Wisconsin a baker must serve three weeks in jail for sleeping in his bakery; in California nurses are punished if they fail in the proper instance to notify the physician of certain phases of illness in their patients, and in Ohio to water a bicycle path is an offense punishable by heavy fine and sometimes imprisonment.

PLAIN MADAME FALLIERES.

Example of Home Loving Woman of Middle Class.

In other European capitals the daily drive of the king and queen is a feature of their life. But one misses it in Paris. President Fallieres takes a walk every morning, but Madame Fallieres takes neither walks nor drives.

A witty Frenchman once said that Paris was invented so that foreigners should know nothing of France, and Madame Fallieres belongs to that France of the provinces whose life is a sealed book to most strangers. It is the type of the Petite Bourgeoisie, or lower middle class, of the south, descended from generations of women, honest and modest, whose existence has been centred in the home, in keeping it in order, overlooking the servants, and living close to the children, a type conserved through generations and seemingly as little impressed with the march of time as the Sphinx of Egypt. Educated in the "convent," and preserving throughout her life the convent custom of dressing in black, a devout Catholic, even married to a politician of the radical party, the woman of this class looks upon her home as a part of her religion, the most important part, and she lives in it almost as in a convent.

Any kind of pleasure, even a promenade, is unknown to her. She is always in the home, and early in life loses the desire for anything else. "When you are in the home, the outside world does not trouble you," is her motto. The products of her vegetable garden, the best way of turning draperies that have become worn, recipes for jams and jellies, these make up her world. She speaks when spoken to and makes a few shy remarks to her husband until he interrupts her with authoritative "Stop, that is enough." The husband is often a great talker, but in his home he talks on heedless of his listener, and is astonished if she exhibits powers of observation. He will then show a certain respect for his humble companion, and may even ask her advice at times, although seldom acknowledging it before the world.—From "Intimacies of Court and Society."

CHILDREN WHO BITE NAILS.

Cover Front Teeth Some to Prevent Them to Join.

The difficulty of curing children of the bad habit of gnawing the finger nails is well known. According to Mr. Didsbury, says the New York Herald, a good result in regard to this habit may be obtained by a treatment which acts on the teeth themselves instead of by seeking to protect the nails as is habitually done. For this purpose Mr. Didsbury recommends the disarming of the teeth by raising the articulation, and thus making it impossible for the front teeth to join. The result is that the child cannot bite the nails.

The treatment is most simple. It consists in raising the articulation symmetrically and bilaterally on a level with the molars in order not to disturb the mastication and consequently the child's nutrition.

The best method consists in covering all the molars in the upper or the lower jaw, but in a symmetrical and bilateral manner, by means of a metal apparatus, fixed with cement or gutta percha. With this method good results are obtained. Mons. Pony, of Lyons, treated in this manner several children in the habit of biting their nails, and had cured them radically and definitely at the end of several months without their health being affected and without the need of supervision by the parents or other people about them.

COMMON SENSE.

Common sense is a commendable quality. It keeps us from doing many foolish acts, and it is altogether reliable, like good kitchen range, or a favorite cake recipe. But the trouble with an excess of common sense is that it often crowds out much that is delightfully absurd, beautifully sweet and tenderly delirious. Also, too much common sense makes us too serious, and to be too serious is not to be companionable to those who love us. Beware, you wise ones, lest you grow too wise. A little nonsense—you know the rest.

A WORTHWHILE HABIT.

Overculture, even if it borders on affectation, is better than no culture at all. It is less offensive to hear a woman talk with grand airs than to hear her converse in common English of the streets, with all its slang and cheap wit. The English language contains quite a few words. Anyway there are enough to furnish one with an excellent vocabulary. A good set of dictionaries is a good investment. Have them near you and whenever you find a word you are not sure about it, meaning or pronunciation, look up. It is a worthwhile habit.

You don't have to be an optimist to make light of other people's troubles.

SPRING BLOOD IS WATERY BLOOD

How to Get New Health and New Strength at This Season

Spring ailments are not imaginary. Even the most robust find the winter months most trying to their health. Confinement indoors, often in overheated and nearly always badly ventilated rooms—in the home, the office, the shop and the school—takes the vitality of even the strongest. The blood becomes thin and watery and is clogged with impurities. Some people have headaches and a feeling of langour. Others are low-spirited and nervous. Still others are troubled with disfiguring pimples and skin eruptions, while some get up in the morning feeling just as tired as when they went to bed. These are all spring symptoms that the blood is out of order and that a medicine is needed. Many people take purgative medicines in the spring. This is a serious mistake. You cannot cure yourself with a medicine that gallops through your system and leaves you weaker still. This is all that a purgative does. What you need to give you health and strength in the spring is a tonic medicine that will enrich the blood and soothe the jangled nerves. And the one always reliable tonic and blood builder is Dr. Williams' Pink Pills. These pills not only banish spring weakness, but guard you against the more serious ailments that follow, such as anaemia, nervous debility, indigestion, rheumatism, and other diseases due to bad blood. In proof of this Mrs. Emma Duck, Carleton Place, Ont., says: "I was greatly troubled with weak spells, dizziness and extreme nervousness, and did not find anything to help me until acting on the advice of an aunt I began the use of Dr. Williams' Pink Pills. After using five boxes I found my health fully restored, and cheerfully recommend the pills to others."

If you are ailing this spring you cannot afford, in your own interest, to overlook so valuable a medicine as Dr. Williams' Pink Pills. Sold by all medicine dealers or by mail at 50 cents a box or six boxes for $2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

SHANGHAI POLICE FORCE.

Three Hundred English Officers to Protect Foreigners.

It may not be generally known that the Shanghai (China) Municipal Council has a force of some 300 English policemen for the protection of the foreign settlements at that place, says the Christian Science Monitor. These are in addition to some 400 or 500 Sikh policemen and about 1,000 Chinamen. For the past six years detachments of policemen have been sent out to Shanghai from England, and, indeed, a small detachment is at present on its way out.

In obtaining the necessary number the Shanghai Municipal Council has to compete with the metropolitan police of London, who are always on the lookout for suitable recruits to maintain their high and well-known standard. The Shanghai constable, however, has his passage paid for him, and starts with a salary of $10 a week, so a good supply has hitherto been obtained. Not a few perhaps are attracted by the call of a strange, especially an eastern, country—a call to which Englishmen have ever been ready to lend a willing ear.

There are eleven "White Rivers" in North America.

Every Crisp, Little Flake of Post Toasties has a flavour all its own.

"Toasties" are made of selected white Indian corn; first cooked, then rolled into wafer-like bits and toasted to an appetizing golden brown.

A favorite food for breakfast, lunch or supper in thousands upon thousands of homes where people are particular.

"The Memory Lingers"

Sold by Grocers

Made by Canadian Postum Cereal Co., Ltd. Pure Food Factories Windsor, Ontario, Canada.

SEALS IN JAPAN.

Everybody Has One—The Cheapest Cost Only 5 Cents Apiece.

Japanese seals (han) are of wood, stone or metal, with signs engraved on the face. They are used in addition to a signature to represent an individual, a legal person or a corporation. The seals of the present Emperor are distinguished as privy and state seals. They are each three inches square.

The state seal is used mostly upon documents relating to foreign countries, says the Oriental Review, and has Chinese characters engraved on it; the privy seals are stamped on imperial rescripts, issued for proclamations at home.

Japanese law requires that each individual should send in an impression of his seal as a specimen (called jitsu-in) to have it registered and kept in a government office (district office of a city, town or village), that it may represent himself in a deed.

The material employed to make these seals consists of various kinds of precious stones, gold, silver, etc., those mostly in use at the present day are of agate, rock crystal, ivory, rhinoceros or buffalo horn, shell, marbles, or of cherry wood, or box-wood, and recently India rubber has come into use.

There are two ways of engraving characters on a seal, relief and intaglio; in the one the characters in the impression are shown in color, while in the other they are represented in white on colored ground. The ink used for stamping is called niku. The cheapest kind of seals are made of boxwood and sold at 5 cents apiece. Most seals are oval in shape, but some are round and others square. They rarely exceed one-half inch in diameter.

A MOTHER'S PRAISE OF BABY'S OWN TABLETS

Mrs. Wm. Sullivan, Main River, N. B., says: "Up to the time my baby was three months old it cried almost continually day and night. I tried many things, but got nothing to help it until a neighbor advised Baby's Own Tablets. I got a box of these and there was a change almost after the first dose and in a short time the child was in the best of health, and is now a big, fat, good-natured baby. I am now never without the Tablets in the house and recommend them to other mothers." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

COMPLIMENTARY.

Agnes—"And did he say I looked intellectual?"

Gladys—"Oh, no, indeed! I assure you he said nothing disparaging."

HONEST TEA IS THE BEST POLICY.

In order to find out to what extent the different food products are used by its millions of readers, the "Woman's World" (circulation over 2,000,000 copies monthly) recently inaugurated a most interesting coupon canvass.

One of the questions propounded was "What tea do you use?" and the replies received demonstrate that Lipton's Tea is the most popular of all package teas, showing its sale to be double that of the nearest competitor and considerably over one hundred per cent. more than the next two mentioned brands taken together. Surely Honest Tea is the Best Policy.

"SERVICE YEAR" FOR GIRLS

Would Forbid Them to Wed Without Housework Knowledge.

That it should be illegal for a girl to marry unless she can produce official evidence of having done one year's household service was the novel proposal at a recent session of the German Women's Congress.

Discussing the project recently broached for compelling German women to do some form of military service, Frau Gnauck-Kuehne urged that the home and motherhood were woman's most important sphere and that the "service year" of girls should be spent preparing them for it.

"Our girls," she said, "should be prepared by a year of service to fulfil their duties as wives just as our young men are prepared for the duties of national defence which the country may call on them to perform. No girl should have a legal right to marry unless she can show evidence of having prepared herself by a year's training for household management."

Frau Gnauck-Kuehne also advocated placing household finances on a legal basis whereby a wife should have the right to demand a fixed annual budget commensurate with the husband's income.

HER WAY OUT.

Little Hazel—"We've invited too many children to our tea party. There isn't enough for them to get more'n a bite each."

Little Dot—"That's too bad! I dess we'll have to call it a reception."

But the beauty that is only skin deep is better than the kind that rubs off.

JUST ONE MORE SPLENDID CURE

RHEUMATISM WAS VANQUISHED BY DODD'S KIDNEY PILLS.

Amable Lamarche Tells How His Kidney Disease Developed and How he got Relief When he Used the One Sure Cure.

Lefaivre, Ont., April 15 (Special)—Another splendid cure by Dodd's Kidney Pills is the talk of this village. Mr. Amable Lamarche is the person cured and the cure is vouched for by his numerous friends.

"It was a sprain and a cold that was the beginning of my trouble," Mr. Lamarche says in telling his story. "I could not sleep, my appetite was fitful and I felt heavy and sleepy after meals. I was always thirsty, had a bitter taste in my mouth and perspired freely. My limbs were heavy and I had a dragging sensation across the loins.

"When my symptoms developed into rheumatism I realized that my kidneys were the cause of the trouble and I started to take Dodd's Kidney Pills. Six boxes made me a well man."

Kidney trouble quickly develops into painful and often fatal diseases. To ensure good health, cure the first symptoms with Dodd's Kidney Pills. They never fail.

CLYDE LEEVITT,

Of the U. S. Forestry Service, who has resigned to become Chief Forester of the Canadian Conservation Commission and chief iron inspector for the Canadian Railway Commission.

COULD NOT SIDETRACK HER

Hostess (to one of the small guests)—"Now, dear, will you have some bread and butter to finish up with?"

Small Guest—"No, thank you. I will have some cake to be going on with."

A needle manufacturing machine is capable of producing 1,500,000 needles a week.

Over fifty tons of railway tickets are issued in a year by one English railway company.

Shiloh's Cure

QUICKLY STOPS COUGHS, CURES COLDS, HEALS THE THROAT AND LUNGS. 25 CENTS

GOOD REASON.

"Maggie! You are the most cheerful creature I ever met!" cried her mistress.

"Why shouldn't I be cheerful, mum?" said Maggie. "I haven't a relation in the world."

Minard's Liniment Cures Burns, Etc.

DEADLY HONOR.

"I simply can't stand the toot of an automobile horn."

"How's that?"

"A fellow eloped with my wife in an automobile, and every time I hear a horn toot I think he's bringing her back."

Constipation is the root of many forms of sickness and of an endless amount of human misery.

Dr. Morse's Indian Root Pills, thoroughly tested by over fifty years of use, have been proved a safe and certain cure for constipation and all kindred troubles. Try them. 25c. a box.

HE WAS TRICKED.

German Trade Spy Fined $1,500 by a British Court.

German spies in England are not all in search of military secrets. Franz Winzen, son of a German textile printer, has just had to pay $1,500 for trying to spy out trade secrets from the workmen of Sharp and Sons, who have a big business in that line in Yorkshire, England.

This was one of the prosecutions undertaken by virtue of the Prevention of Corruption Act. Winzen came over from Germany specially to extract the details of the secret process used by the Sharp Company, and he went about his spying in a systematic way.

Calling on an engraver employed at the Sharp works, he asked him to get a bottle of the printing mixture used and as much information as possible as to the machinery, offering $250 for the work. But the engraver was loyal to his concern and told his boss, who arranged that he and others should have further interviews with the spy and lead him on to commit himself to a more definite extent.

So the tricky Teuton was made to pay sundry dollars to the engraver, and finally drew up an agreement to engage another of the Sharp men who knew the process, for his German factory, for five years. When that interview ended, Winzen was arrested, but the Sharp Company was content to make him pay the fines and costs as a warning, and did not press for a prison sentence.

TERRIBLE RESULT OF BLOOD POISON.

After Three Operations Zam-Buk Was Tried and Proved Successful.

If people would only use Zam-Buk for chronic sores, blood-poison, etc., before permitting an operation, scores of limbs would be saved.

Mr. Robt. Patterson of North Pelham, Welland Co., Ont., writes: "My daughter, Annie, had blood-poison in her finger. The doctor operated twice on the finger, but did not obtain the desired result, and a third operation was considered necessary.

"Three doctors were present at this operation, but after it had been performed the wound did not heal. Try as we would we could not get anything to close the wound.

"We at last tried Zam-Buk, and it was really wonderful to watch how this balm healed the wound. Each day there was a marked improvement. First the wound in the palm of the hand closed, and then the finger which had been bad so long began to heal. The diseased flesh seemed to rise out of the wound and then drop off, and new healthy flesh formed from below, pushing off the diseased tissue. In a short time the wound was completely healed. Had we applied Zam-Buk at first we might have saved the finger.

For chronic sores, blood-poison, ulcers, abscesses, scalp sores, piles, eruptions, inflamed patches, eczema, cuts, burns, bruises, and all skin injuries and diseases Zam-Buk is without equal. 50c. box all druggists and stores, or post free from Zam-Buk Co., Toronto, for price. Have you tried Zam-Buk Soap? 25c. tablet.

DUSTLESS.

Lady Visitor—That new girl of yours seems very nice and quiet.

Mistress—Yes, she's very quiet. She doesn't disturb the dust when she's cleaning the room.

Pills That Have Benefited Thousands.—Known far and near as a sure remedy in the treatment of indigestion and all derangements of the stomach, liver and kidneys. Parmelee's Vegetable Pills have brought relief to thousands when other specifics have failed. Innumerable testimonials can be produced to establish the truth of this assertion. Once tried they will be found superior to all other pills in the treatment of the ailments for which they are prescribed.

There are nearly 23,000 locomotives employed on the various railways in the United Kingdom.

Minard's Liniment Cures Dandruff.

A CINCH.

Mrs. Knicker—"Can you get your boots buttoned without bending your knees?"

Mrs. Bocked—"Certainly; I make my husband do it."

Do not give your family food made with alum baking powder. Use Magic Baking Powder. Costs no more than the ordinary kinds and is guaranteed not to contain alum. All ingredients are plainly printed on each package. See if they are on the brand you are now using. All up-to-date Grocers sell and recommend "Magic."

Official figures show that the number of Quakers throughout the world is about 124,000.

There may be other corn cures, but Holloway's Corn Cure stands at the head of the list so far as results are concerned.

THE WORM TURNS.

Ocean Voyager—"Don't the passengers make you tired with the questions they ask?"

Captain—"Yes, very. What else is it you want to know?"

A Pill That is Prized.—There have been many pills put upon the market and pressed upon public attention, but none has endured so long or met with so much favor as Parmelee's Vegetable Pills. Widespread use of them has attested their great value, and they need no further advertisement than this. Having firmly established themselves in public esteem, they now rank without a peer in the list of standard vegetable preparations.

THIS SPRING CLEANING.

"He thinks he's a world-beater."

"I know, but his wife has finally convinced him that he's nothing but a carpet-beater."

I consider MINARD'S LINIMENT the BEST Liniment in use.

I got my foot badly jammed lately. I bathed it well with MINARD'S LINIMENT, and it was as well as ever next day.

Yours very truly,
T. G. McMULLEN.

AHEAD.

"Your wife is up-to-date."

"Up-to-date. Why man, she's three weeks' salary ahead of me now."

When Your Eyes Need Care

Try Murine Eye Remedy. No Smarting—Feels Fine—Acts Quickly. Try it for Red, Weak, Watery Eyes and Granulated Eyelids. Illustrated Book in each Package. Murine is compounded by our Oculists—not a "Patent Medicine"—but used in successful Physicians' Practice for many years. Now dedicated to the Public and sold by Druggists at 25c and 50c per Bottle. Murine Eye Salve in Aseptic Tubes, 25c and 50c. Murine Eye Remedy Co., Chicago

Great Britain in one year spends nearly $150,000,000 on tobacco.

Minard's Liniment for sale everywhere.

Beneath the surface of the earth the temperature increases about one degree for every sixty feet down.

"Perfectly Trustworthy" is the character of Bickle's Anti Consumptive Syrup. It can be used with the utmost confidence that it will do what is claimed for it. It is sure in its effects, as the use of it will clearly demonstrate and can be relied upon to drive a cold out of the system more effectively than any other medicine. Try it and be convinced that it is what it is claimed to be.

The longest lived of British trees is the yew, one specimen of which has attained the age of 2,880 years; the second longest is the oak, with a record of 1,600 years.

Cheapest of All Oils.—Considering the curative qualities of Dr. Thomas' Eclectric Oil it is the cheapest of all preparations offered to the public. It is to be found in every drug store in Canada from coast to coast and all country merchants keep it for sale. So, being easily procurable and extremely moderate in price, no one should be without a bottle of it.

CAREFUL.

"He's the most careful man I ever knew."

"That's so?"

"Yes, I asked him if he could change a ten-dollar bill the other day and what do you suppose he did?"

"I don't know."

"He made me show the ten before he'd commit himself. Said he'd been touched for five that way before."

Many are called, but few want to get up.

LOCAL DOINGS.

Mrs. Knight of Goderich visited Mrs. S. Martin part of this week.

Mrs. Jos. Snell of Thedford is the guest of Mrs. A. Hastings.

Mr. Owen of Bawden & Bawden's Real Estate office, London, was in town on Tuesday.

Some girls will tolerate most any kind of a fellow rather than give back any jewelry.

A new auto is like a bride; there is a lot of upkeep and depreciation to be considered.

Handsome is that handsome does; but it saves a lot of trouble to be born good looking.

Mr. Thos. Cann has purchased the house occupied by Mr. M. Salter from Mr. Richard Gould.

We are pleased to note that Mr. D. A. Ross was able to take a walk down town during the week.

Rev. Kettelwell gave a talk in Main street church on Monday evening in the interests of local option.

Don't forget that the straw hat season doesn't open until July 25th, since the climate has changed.

Mr. Thos. G. Sanders, Huron St. is confined to his home from an acute attack of rheumatism.

The present spring, the farmers say, has been one of the poorest maple syrup seasons they have ever known.

The financial loss will easily run into twenty millions of dollars. The vessel itself having cost ten millions.

Mr. Geo. Hicks, who is employed with Mr. Jeff Fisher, Usborne, is suffering from a broken shoulder bone, sustained by falling from an apple tree while pruning recently.

S. S. Cooper, proprietor of the Hotel Normandie, Clinton, was committed for trial by Magistrate Andrews on a charge of assault, made by a man and his wife who stayed at the hotel.

Fitting references were made in all the churches on Sunday to the terrible marine disaster of last week, and lessons drawn from the wreck and the heroic behavior of those on board.

Dr. J. E. McGillicuddy received a hurried call to Watford on Wednesday morning, owing to his mother having suffered a stroke of paralysis. Being too late to catch the train he drove the distance.

Mr. and Mrs. Wm. R. Elliott of Centralia, Ont., announce the enngagement of their daughter, Katherine Edna, to Mr. William Alexander Jenkins of London, Ont. The marriage will take place quietly in May.

His Honor Judge Barron, of Stratford announces the engagement of his youngest daughter, Mary Alice Augusta, to Mr. S. H. Gandier, B. S. A., of Guelph son of Rev. T. Gandier, of Pelee Island The marriage will take place quietly the end of April.

A calf, which at the time of birth, tipped the scales at 185 pounds, was born in West Oxford Township. The immense size of the calf has created a great deal of interest, and it is declared by stock raisers of long experience to be the largest they have ever seen.

Exeter won out in a game of bowls in the alley on Wednesday night of last week by a margin of 150 pins. The contestants were—Exeter,—John Walper, O. Atkinson, Reg. Blesett, Ed. Snell, D. Hartleib; Usborne—Ed. Westcott, C. Fisher, J. C. Snell, A. Dayman, A. Brintnell.

Reeve Heaman and Councillor Scott were in Clinton Thursday to attend a Hydro-electric meeting. Other towns and villages of Huron were represented at the meeting which was addressed by Messrs. Yates and Acres of Toronto, who are connected with the Hydro-Electric Commission.

Mr. S. Cudmore and Mr. Wes. Armstrong and Mr. Morgan each had a horse take ill while in town last week, with a disease of the kidneys. They recovered however, after a few days. Mr. Henry Guenther's home which had been ill at the Metropolitan for some days, died last week.

Mr. R. E. Manning received word Wednesday, that Mrs. A. S. Fisher, mother of Mrs. Manning, passed away at her home in Denver on Tuesday, at the age of 77 years. Deceased came to Clinton a bride and resided here for a great many years. About 25 years ago the family removed to Denver, Colorado.—Clinto nNew Era.

The Ild Time Concert given under the auspices of the W.C.T.U. in the Opera House on Friday night was a very successful affair in all except the number present. The attendance, although good, was not as large as expected. The star of the evening, and a particularly brilliant star at that, was Madame Rhoda of Detroit, Reader, who, perhaps, was the most pleasing entertainer that has been in Exeter for sometime. The local talent in solo, duet, quartette, chorus, violin solo, quilting bee scene, etc., took their parts most admirably. All in all, the entertainment was one of the best Exeter has witnessed during the season.

HICKS' FORECASTS FOR MAY.—A regular storm period is central on the 1st, covering the last three days in April, reaching to May the 4th. This period involves a marked seismic period, central on the 1st. May will come in with low barometer, high temperature and storms of rain, wind and thunder well on their transition from west to east. Even a well-instructed child, having a barometer to consult, will be able to foresee whether the storms are going to be dangerous. Low barometer, high temperature, humid, muggy air and south, to southeasterly winds, at this and all May storm periods, will be signals of tornadic danger. Heed them; much cooler will spread.

Farmers, Attention

Having been appointed Canadian Government Employment Agent at Exeter for this district, am in a position to secure and place in situations immigrant farm help and domestic servants. Farmers and others wishing to secure help of this kind should call at the ADVOCATE OFFICE or communicate with the undersigned.
C. H. SANDERS, Exeter.

Mr. Wm. Brimacombe moved to the North End this week.

Mr. Chas. Lindenfelt moved last week into the house he recently purchased from Miss Polly Fisher.

The little daughter of Rev. and Mrs. Collins, who was taken ill while visiting with her mother at Birr, is improving and now gives hope of recovery.

We had a couple of flurries of snow this week—the latest on the night of the 22nd—which is a little later than usual, but still we near not fear that spring will not come.

The many friends of Mr. John Mitchell will be pleased to know that he has sufficiently recovered from his recent illness to be able to be out around again, although he is very weak.

Will the Titanic disaster lessen the popular demand for speed. Even if it were proven that excessive speed alone was the cause, that demand to get-there-quick will still be made.

Owing to a high rental asked for training grounds the Goderich Council has abandoned the idea of having the midsummer volunteer training camp at Goderich. The camp will then be at London.

Grace, the youngest daughter of Mr. and Mrs. T. B. Carling is suffering from an attack of pneumonia following an attack of measles, and her condition cannot be considered any too encouraging.

Saturday, April 27—For sale by public auction on London Road South, the dwelling, 3 acres of land, and household effects, the property of Richard Robinson. Sale at 1 o'clock. T. B. Carling, Auctioneer.

Rev. Dr. Oaten of Brussells preached a very interesting and instructive sermons on Sunday in the James Street Church. Mr. Oaten sang a pleasing solo at the evening service. Rev. Blatchford of Centralia will occupy the pulpit on Sunday next.

TWENTY-FIFTH YEAR | EXETER, ONTARIO, THURSDAY, MAY 2, 1912. | SANDERS & CREECH

Local Items

Mrs. H. Elworthy is very sick at her home.

A man who does you a favor never gives as good measure as the man who is getting even.

Mr. Davis of the Jackson Co., has moved to the Perkins residence on William Street, Mr. Perkins having moved to the house he had purchased on Huron street from Mr. A. Dearing; and Mr. Thos. Case has moved to Simcoe-st.

Greta, the little daughter of Mr. and Mrs. Thos. Brock, jr., got hold of a small quantity of carbolic acid on Monday last and in her play proceeded to make tea, and had in fact placed the bowl to her lips when discovered. A doctor was immediately summoned and he found that the child had not taken any of the liquid but had touched it to her lips, which were somewhat burned. It was a close call.

The Government is just completing the planting in Lake Huron of the 45 million little whitefish which they have hatched out. This will only be completed a few days before they must start work securing the pickerel eggs which, when hatched out, will also be planted in Lake Huron. Of the latter variety it is expected that between 150 and 160 million will be placed in the lake this year. Thus, a total of nearly 200 millions of fish will be planted this spring.

Dr. J. E. and Mrs. McGillicuddy will have the sympathy of their many friends in the death of the former's mother at Watford last Thursday. Deceased had visited in Exeter and made many friends while here. She had been visiting at a neighbor's near her home, and when about to depart she sustained a stroke of paralysis and had to be taken back into the house, where she passed away two days later. The doctor was hastily summoned home on Wednesday of last week and remained until after the funeral which took place on Saturday.

HORSEMEN ATTENTION.

Horsemen will do well to consider the Advocate when in need of horse bills and cards. We have an excellent line of of cuts to choose from, and we insert a notice two weeks in the Advocate. Bring your orders early to avoid crowding.

W. J. CARLING

Mr. I.R. Carling was in London Wednesday.

Miss Edna McCallum is confined to the house through illness.

S. G. Bawden and R. N Creech were in London Monday on business.

Mrs. Ann Sutton has returned from Detroit where she spent the winter.

Mr. Emerson Cornish has moved into Mr. Cottle's house on Carling street.

Mr. Herb. Ford sold his residence on Mill street to Mr. Geo. Windsor of Lucan.

The Seaforth Council will buy a property on which to erect a $10,000 Carnegie Library.

When a girl becomes conscious that her dresses are too short, she has become a women.

The baby son of Mr. and Mrs. Hubert Walters is very ill with pneumonia, following measles.

Mrs. Thos. Prior had the misfortune to fall down stairs Tuesday and broke her shoulder bone.

Mr. T. A. Russell, an Exeter Old Boy, has been appointed a member of the Board of Governors of the University of Toronto.

Mr. Wm. Stewart has moved from Farquhar to town, and has taken up his residence in the house vacated by Mr. A. E. Hodgert.

Extradition of Dr. William Beattie Nesbitt, wanted in Toronto on a charge of wrecking the Farmers Bank of Canada was ordered at Chicago by United States Commissioner Mark A. Foote.

The Spring Horse Show at Brucefield Thursday was not up to the standard either in number of animals exhibited or in attendance. The horses shown, however, were of excellent quality. A number from Exeter attended the show.

"Only a month; or a Curious Mystery Explained," is the title of a new serial story commenced in the Advocate last week. In it the author portrays a remarkably interesting and fascinating story and readers of fiction should not fail to read it.

County Clerk Wm. Lane is in receipt of a letter from Dr. R. W. Bruce Smith, Ontario Inspector of Houses of Refuge, which speaks of the repealing of a section of a certain Act. The paragraph dealing with it is as follows,—"You will note that the section in the former Act giving power to the county to collect from the different municipalities the sum of $25 for the maintainence of each inmate sent to the House of Refuge therefrom has been repealed and that in future the inmates of Houses of Refuge are to be supported by the whole county without reference to the municipality from which inmates may be committed."

Division Court will be held in the Town Hall on Wednesday next.

DISSOLVED PARTNERSHIP — The partnership business heretofore existing between Mr. J. D. Atkinson and Mr. R. N. Rowe as furniture dealers and undertakers has been dissolved, and in future the business will be conducted by Mr. Rowe.

SPLENDID CONCERT—The Band Benefit Concert found a responsive cord in the hearts of many citizens on Friday night, the object being to furnish funds for the purchase of uniforms for the members of the Band. But altogether aside from the worthiness of the object, the entertainment was a most creditable one, once more demonstrating the fact that there is sufficient talent in Exeter for any emergency and that Exeter entertainers can hold their own with the average outsider. After a few brief remarks from Reeve Heaman who accepted the chair and explained the object of the concert, the program opened with a creditable selection from the Band. The quartette numbers by Messrs. Heywood, Southcott, Christie and Andrews were well received and heartily encored, as were also the selections by Misses Huston, Follick, Chowen and Treble. The reading by Miss Edmunds while difficult, was admirably rendered and proved deeply interested, Earl Southcott and Ed. J. Christie each sang solos and acquitted themselves well. Miss Delight Hobbs' violin selections were beautifully rendered, as were also the piano solos by Mr. Phillips. Norman Ford, interested the audience with two very pleasing violin selections. Owing to illness Mrs. Weidenhammer was unable to be present. The Band music interspersed proved very interesting and reflects great credit upon its members, considering the comparatively short time they have been in practice. The proceeds amounted to about $90.00.

MR. BAKER DEAD— There passed away at the home of Mr. Chris. Zuefle, station street, on Friday morning last at one o'clock, another of Exeter's oldest and most respected citizens, in the person of William Baker, at the great age of 85 years, 9 months and 21 days. The deceased was always possessed of a hearty and robust constitution and had enjoyed his usual good health up to the last, and in fact, he was down town a few days before his demise. On Tuesday however, he suffered a stroke of paralysis from which he never rallied. Mr. Baker was a native of England, being born at Ickleham Parish, Sussex, on July 5th, 1826 and imigrated to Canada in 1849. He lived in different parts of Western Ontario and helped to build different branches of the Great Western Railroad, In the year 1853 he settled on Lot 7, S B. Stephen, which at that time was covered with bush, and which he afterwards cleared and made for himself and family a comfortable home. In 1856 he married Eliza Long, the happy union being blessed by a family of four sons and three daughters, by whom he is survived—They are Thomas of Port Huron; Wm. of London; George of Walkerville; Harry of Detroit; Mrs. Thos. Flynn, Exeter, Mrs. Abe Dearing, Grand Bend; Mrs. Chris. Zuefle, Exeter, all of whom were present at his bedside when the end came. Mrs. Baker predeceased her husband about three years. Mr. Baker was a man of industrious habits, sterling character, and those who knew him best will mourn his departure, and the example of his consistent daily life and the memory of his many kindly deeds will long be remembered. The funeral services were conducted by the Rev. Mr. Powell, of Main Street Church, at one o'clock on Saturday, the funeral taking place to the Exeter Cemetery.

DEATH OF REV. JAS. LIVINGSTONE

Rev. Jas. Livingstone, pastor of the Methodist Church at Mitchell, died in the General Hospital, Stratford, on April 25th, after an illness extending over many months. For some weeks past he had been in a very critical condition and death was not unexpected. Last Summer while in Windsor, Mr Livingstone was taken ill with what was believed to be ptomaine poisoning, and later typhoid fever developed. At the same time he was in such a critical condition that little hope was held out for his recovery. Later, however, he rallied, and apparently was in his usual health.

Mr. Livingstone was 62 years old. He was born at Tara and graduated from the Wesleyan College at Montreal 40 years ago. His work had been throughout his career in Western Ontario, and he had held pastorates as follows: Kippen, Bayfield, Florence, Blenheim, Clinton, Listowel, Kincardine, Alymer, Windsor, Petrolea, London and Mitchell. Recently Mr. Livingstone had received and accepted a call to a large church in Winnipeg and expected to leave for that city in a few months. Besides his wife, who resides in Mitchell, he is survived by five sons and four daughters. The funeral was held on Monday to Kincardine where some of Mr. Livingstone's children are buried. Rev. Rich. Hobbs of Exeter, was one of three to be ordained at the same time and place as the late Rev. Mr. Livingstone. Rev. Mr. Hobbs has for some months been on the sick list at the parsonage Exeter and has been visited several times by Mr. Livingstone. By Mr. Hobbs the death of Mr. Livingstone is keenly felt.

THAMES ROAD

The farmers are busy seeding.—Miss Anna Allison is confined to her bed with measles.—While working around the barn Mr. G. Williams got his hand painfully squeezed.—At the annual election of officers of the Bethany Epworth League the following were elected—President, Mr. John Cann; 1st Vice, Miss Ruby Passmore; 2nd Vice, Mr. Wesley Johns; 3rd Vice, Miss Lily Woods; 4th Vice, Mr. Orville Cann; Sec'y, Miss Flossie Passmore; Treas. Mr. Harry Ford; Organist, Miss Flossie Francis.

ODDFELLOWS ATTEND CHURCH.

The 93rd anniversary of the introduction of Oddfellowship in America was on Sunday last celebrated by members of the order all over the continent. In Exeter the local brethren to the number of nearly a hundred attended divine worship in Main street Methodist church where they listened to an interesting and instructive sermon by the pastor, Rev. Powell. The first American lodge of Oddfellowship was founded at Baltimore, Maryland, by Thos. Wildey, on April 26, 1819. The initial meeting was attended by five men, and was held in a room in the Seven Stars Inn, a famous building which was destroyed by fire on Feb. 8th, 1904. A brick from the building is a highly prized relic at the local lodge room, the gift of Bro. E. J. Spackman. Wildey died in Baltimore in 1861, but before his death he had seen his work grow beyond his greatest expectations. And to-day the society is the largest on the continent. The institution of Oddfellowship in Canada took place at Montreal on August 10th, 1843. Prince of Wales lodge No. 1, was formed with five members. The first lodge was instituted in Ontario at Belville in the summer of 1845. The following year about fifteen lodges were instituted, No. 10 being at Kingstone, where Bro. John A. Macdonald who afterwards became Canada's illustrious premier, was the first Noble Grand. In 1855 the Grand Lodge of Canada West, now Ontario, was instituted, with seven lodges represented. To-day there are over 400 subordinate lodges, with a total membership of over 40,000 in Ontario alone.

Rev. Powell took for his text I. Peter 2-17, "Honor all men, love the brotherhood, fear God, honor the King," which he said were four admirable injunctions, covering every phase of human life. Dropping the first, third and fourth injunctions he called attention to "Love the Brotherhood." Brotherhood, he said, meant an association of men. There are many brotherhoods, all doing a good work which is peculiarly their own.—The political brotherhoods, and as we all acknowledge there is no superior government to party government we have a right to have our parties. The trades and labor brotherhoods have an important field of work. Society brotherhoods like the Oddfellows are governed by the principles of humanity and religion and are doing a great work. For 25 years I have watched the organization and you have earned our "God bless you, go on." He then called the attention to the brotherhood of the text, The Christian Brotherhood with Christ as the elder brother; called also the Church of God, embracing all denominations; known also as the brotherhood of saints, and the brotherhood of God. It is the strongest in the world, carries the best insurance, being an insurance on the immortal soul. It is a strong, wealthy and invincible brotherhood, with its own passwords and language. You can pick them out by the language they use. Have you the password to the presence of the eternal God? If not hasten to join the brotherhood of God. Get your name on the Lamb's Book of Life.

On their return to the lodge room a vote of thanks was tendered the pastor and officials of the church for the able sermon and the privilege of worshipping in the church.

EXETER COUNCIL

Special meeting of the council met in Mr. Levett's office, April 18th, members were all present. The meeting was called for the purpose of meeting Mr. F. Farncomb re new sewer and water works contract.

Scott—Levett—That we procure one Mueller tapping machine for one inch hole maximum under pressure suitable for 4, 6, and 8 inch pipe and that the clerk write the Canadian Fairbank Co., J. Robinson & Co., and Manson Co., Toronto.—Carried.

Adjourned to the call of the Reeve.

Special meeting of the council held in the Town Hall, Wednesday evening, the 24th of April, 1912. Members all present. Minutes of the meeting held on the 15th and 18th inst. were read and approved.

Specifications for proposed sewer on the west side of Main Street was the chief topic for the evening's discussion It was decided to submit a by-law for $5,000 to be voted on Monday 27th of May, and to commence the work as soon as practicable.

Levett—Ford—That all connections to be made at the time of Construction of the sewer. The sum of $2.00 will be charged and all future connections to be put in at cost. No connections to be made less than $2.00.—Carried.

Rivers—Scott—That we submit a by-law for $5,000 to construct the sewer including two culverts on Albert and Elizabeth Streets and that the clerk prepare a by-law, the debentures to run for a term of twenty years, and the same be published in three issues of the Exeter Times.—Carried.

Levett—No Seconder—That Dickson and Carling prepare the sewer by-law.

Scott—Ford—That the preparing of the by-law be left in the hands of the reeve.—Carried.

Ford—Levett—That the vote for sewer by-law be submitted to the Electors, on Monday, the 27th of May.—Carried.

Scott—Ford—That we adopt the following and that the clerk prepare a by-law confirming same.—Carried.

No. 1. Poll, Handford's House, E. Treble, D. R. O., H. Ford, Poll Clerk.

No. 2., Town Hall, W. D. Weekes, D. R. O; Jos. Davis, Poll Clerk.

No. 3. Jno. Mitchell's office, H. R. Huston, D. R. O; Alex Dyer, Poll Clerk.

No. 4. North End Fire Hall, R. G. Seldon, D. R. O., Alex McPherson, Poll Clerk.

Levett—That we adjourned to the call of the reeve.

The council met in special session on April 30. All present. Previous minutes read and approved. By-law No. 8, 1912, of the Village of Exeter to authorize the borrowing of the sum of $5000 to construct the main street drain was read the first and second time and provisionally passed on motion of Levett and Scott. Ford—Levett—That the following accounts be passed as read,—Hamilton Machine Co., repairs, 1.00; J. A. Stewart, cemetery ac. 6.91; J. Rowe, cemetery ac. 1.50; Electric Light Co'y 120.00; W. J. Blesett, pt. sal., 37.50 T. B. Carling, do., 25.00; John Ford, do., 31.25; W. Drew borrowed money and int. 1008.75; W. Welsh, labor 2.68 T Houlden 19.60; R. Gilles 19.60; A. Delve 25c.; J Norry 1.00; Sid Sanders 15.22; T. Brock, sr., 8.95; D.Russell 6.65; H. Sanders 1.70; H. Keetle 1.75; R. Sanders 6.12; N. Vale 6.65; T. Webster 8.40; W. Brimacombe 87c.; G. Atkinson 5.25; A. Sanders 4.02; W. Westcott 9.75; R. Robins 75c.; G. Cudmore 3.00; R. Davis 24.80; F. Mallott 1.40, Levett that we adjourn to the call of the Reeve.

T. B. Carling, Clerk.

FARQUHAR.

Seeding is pretty well finished up again although the weather is quite cold yet.—Mr. W. J. Vance, who has confined to his home for some time past, as the result of a stroke of paralysis, is improving slowly.—Mrs. John McDougal, jr., who underwent an operation for the removal of cancer in London Hospital last week, is, we understand, doing nicely.—Mr. Eleasier Williams had the misfortune last week to have the barn door blow against him and knock him over the embankment, injuring his shoulder and collar bone quite seriously. Mr. Williams is at present at the home of his son, George, where the accident took place.—Mr. Wm. Stewart and family moved to Exeter last week.—Rumor has it that we are to have a blacksmith in our village in the near future.—Mr. Thos. Bell has purchased and torn down and removed the old Brimacombe house and intends erecting a new house on his own farm on the 9th concession.—Mr. and Mrs. Thos. Allen and family have got settled in their new home recently purchased from Mr. John Kay.

LUMLEY.

Master Tom Glenn is recovering from an attack of measles.—Mr. Jas. Harton has returned from Forest.—Mr. G. Hobkirk is having a new roof put on his residence.—Rev. R. A. Miller of Auburn attended the funeral of his brother William on Friday last.—Mr. Jack and Miss Maude Glenn spent Sunday with friends at Hillsgreen.—Mr. Stewart McQueen is still confined to his room, although he is improving slowly.—Mr. and Mrs. Harris, Messrs. Michael and Geo. Miller and Miss Jennie were here on Friday attending the funeral of their brother.

Death of William Miller.—We regret to report the death of William Miller which sad event occurred on Wednesday morning of last week. The deceased had been a long sufferer, his illness spreading over several months. He leaves to mourn his demise a widow and three small children, who have the sympathy of a large circle of friends.

BIRTHS

Godbolt—At Elmville on April 27, to Mr. and Mrs. Chas. Godbolt, a daughter. 6

Walper—In Exeter, on April 25th, to Mr. and Mrs. John Walper, a son.

MARRIAGES

McKenzie—McCallum—At Nairn, on April 17th, Miss Clara, only daughter of Mr. Donald McCallum, of Dashwood to Mr. Simon McKenzie, of 6th Con.

Barthel—Murray—At Mitchell, on April 24, by Rev. Dr. McRae, Mrs. Elizabeth Murray of Mitchell, to Mr. Wm C. Barthell of Fullarton.

Burns—Dalton—At Dublin, on April 23, by Rev. Father Noonan, Mr. Frank Burns, to Miss Mabel Dalton, both of Hibbert.

DEATHS

Phillips—In Exeter, May 1, Doris, daughter of Mrs. Mason Phillips, aged 12 years, 2 months.

Baker—In Exeter, on April 26th, William Baker, aged 85 years, 9 months, and 21 days.

Miller—At Lumley, on April 24th, Wm. Miller, aged 58 years, 10 months, 18 days.

NOTICE TO CREDITORS

In the matter of the Estate of Harriet Payne, late of the Township of Stephen, in the County of Huron, spinster, deceased.

Notice is hereby given pursuant to the Statute in that behalf, that all persons having claims against the estate of the said Harriet Payne, deceased, who died on or about the 23rd day of January, 1912, are required, on or before the 18th day of May, 1912, to send by post prepaid, or to deliver to Kenneth Goodman, of the Town of Parkhill, in the County of Middlesex, Solicitor for the Executors of the last Will and Testament of the said deceased, full particulars of their claims and statement of their accounts, and of the nature and value of the securities, if any, held by them, duly verified,

And take notice that after the said 18th day of May 1912, the said executors will proceed with the distribution of the assets of the said deceased amongst the persons entitled thereto, having regard only to the claims of which notice shall then have been received, and that they will not be liable for the assets, or any part thereof, so distributed, to any person or persons of whose claim they shall not then have had notice.

JOHN SHERRITT,
SAMUEL WEBB, Executors.
by KENNETH GOODMAN
Their Solicitor.

Dated at Parkhill this 23rd day of April A. D., 1912.

The Men's Store

WE NOW HAVE AS NEAT AND TIDY A MEN'S FURNISHING STORE AS THERE IS IN WESTERN ONTARIO AND WE INVITE YOU TO INSPECT OUR PREMISES AND HAVE A LOOK THROUGH OUR STOCK.

EVERYTHING IN THE STOCK IS NEW AND UP-TO-DATE IN EVERY RESPECT. WE INTEND TO CARRY NOTHING BUT THE BEST GOODS FOR THE PRICE, AND YOU WILL BE CONVINCED OF THIS ON AN EXAMINATION. WE WISH TO DRAW SPECIAL ATTENTION TO OUR KENMORE SOFT AND HARD HATS. THE FULL LIST OF FURNISHINGS CONSISTS OF

Ready-to-wear Suits
" " " Overcoats
" " " Fancy Vests
" " " Odd Pants
Overalls, Shirts, Collars, Ties, Cuffs, Underwear, Socks, Gloves, Handkerchiefs; Hats and Caps.

An Immense Range

YOU SHOULD SEE THE IMMENSE RANGE WE ARE SHOWING OF READY-TO-WEAR AND MEASURED SUITINGS, OVERCOATINGS AND TROUSERINGS. Tailor and Furnisher—Exeter

205 BODIES ON DEATH SHIP

Cable Steamer Arrives at Halifax With Victims of Titanic

A despatch from New York says: Two hundred and five bodies of the victims of the Titanic disaster have been picked up at sea by the cable steamer Mackay-Bennett, and were brought back to Halifax. Bodies are floating upon the sea many miles east and west in latitude 41.35 north and longitude 48.37 west, says the wireless from the "death ship."

The following despatch was received on Thursday by the White Star Line through the Cape Race (Nfld.) wireless station: "Drifting in dense fog since noon Wednesday. Total picked up, 205. Bodies are in latitude 41.35 north, longitude 48.37 west, extending many miles east and west. Mail ships should give this a wide berth. Medical opinion is that death has been instantaneous in all cases, owing to pressure when bodies drawn down in vortex."

Of the 205 bodies recovered by the Mackay-Bennett, only 43 have been identified, leaving 162 unidentified dead on board.

HAYS, ASTOR AND STRAUS.

A despatch from Halifax, N. S., says: The cable steamer Minia arrived alongside the Mackay-Bennett near the scene of the Titanic disaster at midnight Thursday, and on Friday morning at 6 o'clock recovered the body of Charles M. Hays, late President of the Grand Trunk Railway. This is the first body picked up by the Minia. These particulars reached here in a wireless message through Sable Island. The bodies of John Jacob Astor and Isador Straus have been identified and embalmed aboard the cable steamship Mackay-Bennett, according to an official wireless despatch received by the White Star Line offices on Friday.

The news of the identification of J. J. Astor and Isador Straus came in a wireless despatch relayed by the steamship Caledonia to the Cape Race wireless station. It simply read.

"Further names—William Ale; F. Dutton, J. Stone, Philip J. Stokes, Edwin H. Petty, William Dashwood, W. Hanton, Thomas Anderson, A. Laurence, J. Adam, A. Boothby, Ragozzi Abel, J. Butterworth, A. Robins, Chas. Louch, Olsen F. Penny, Charles Chapman, Albert Wirz, Achille Wallens, Carl Asplanade, J. S. Johnson, H. Allen, W. Anderson, H. P. Hodges, J. P. Talbot, J. M. Robinson, K. A. Hell, J. W. Gill, A. Johnson, A. Lilly, Ed. Barker, G. F. Bailey, O. S. Woody, P. Hewitt, P. Connors.

"Following been embalmed—C. C. Jones, Isador Straus, Reg. Buller, H. H. Harrison, T. W. Newell, John Jacob Astor, Milton C. Long, W. C. Dulles, H. J. Allison (Montreal), George Graham, (Toronto), Jacob Birnbaum, Austin Partner (Ottawa), F. F. White, Pyroll W. Cavendish, Hendrick J. Zillner."

This makes ninety-two bodies identified.

PRICES OF FARM PRODUCTS

REPORTS FROM THE LEADING TRADE CENTRES OF AMERICA.

Prices of Cattle, Grain, Cheese and Other Produce at Home and Abroad.

BREADSTUFFS.

Toronto, April 30.—Flour—Winter wheat, 90 per cent. patents, $4.00, at seaboard, and at $4.00 to $4.10 for home consumption. Manitoba flours—First patents, $5.70; second patents, $5.20, and strong bakers', $5, on track, Toronto.

If you want knowledge you must toil for it; if food you must toil for it; and if pleasure you must toil for it. Toil is the law.

ARMENIAN JUST ESCAPED

Found Boat on Titanic And Threw it Into The Ocean

A despatch from Brantford says: David Varthanian, an Armenian, 24 years of age, one of the steerage survivors of the Titanic, arrived here on Wednesday night to join Brantford friends. Four of Varthanian's comrades, who were bound for Hamilton, were lost. Varthanian was later joined in this city by Ashan Kricorian, a compatriot, who escaped in the same boat as Major Peuchen. Kricorian is the man who Major Peuchen and the quartermaster mentioned as being found crouching in the bottom of the boat. Kricorian had a broken arm, and when commanded to take an oar and row was of little use owing to his injury.

Kricorian's chum, Varthanian, through an interpreter, told a thrilling story of the disaster from the viewpoint of the steerage passengers, who had just finished a concert before the ship struck. Nearly all had retired, and were awakened by revolver shots from the officers.

When Varthanian and his comrades got up they were ordered to remain in the back part of the ship and put on life belts. All obeyed orders except a hundred, for whom the supply on hand was short. About half an hour after the crash all the steerage passengers had to move back, the water getting into their apartments. Varthanian with a number of other foreigners found a boat, and threw it into the water, and all jumped. He was later pulled in, and there were so many different nationalities that none understood each other.

The Titanic went down when the foreigners were about 30 yards distant. The sinking of the boat threw all the foreigners back into the water again, but Varthanian was again fortunate enough to get picked up.

The Armenian spent three days in a New York hospital, secured a new suit of clothes, a ticket for Brantford and $10 before leaving.

MAX AS STORY TELLER.

"The eternal progression of the imperishable soul," was one of a number of fine phrases let fall in the course of Mr. Max Pemberton's lecture on "Literature and Travel," given recently in London.

Illustrating insular ignorance the lecturer told of a countryman who was shown some kangaroos at the Zoo. "What are these?" he asked. "Natives of Australia," was the reply. "Oh, heavens!" he exclaimed, "my sister married one of them!"

An American lady who professed

Mr. Max Pemberton.

to be a reader, said she knew Scott well. "Do you know 'Ivanhoe'?" asked a dour Scott. "That's fine!" she said. "'The Lady of the Lake'?" "Still better." "'Quentin Durward'?" "A great book." "Scott's Emulsion?" "The finest of them all!"

The following story was told by a judge to Mr. Pemberton just before he came to the City Temple. Two ladies being in Warwick Prison, the governor visited the cells, and said to one of the prisoners: "Of course, you will have to observe all the conventions of the prison." "Yes," she said, "but I wish to make a communication." She was told she must make it in writing. She replied. "It is an urgent communication, and I wish to make it before a witness." The governor sent for the chaplain and the doctor. When they were all in the cell, the prisoner said: "I want to tell you that no gentleman comes into a lady's room with his hat on!"

THE OLD PLEA.

He "Didn't Know It Was Loaded."

The coffee drinker seldom realizes that coffee contains the drug, caffeine, a serious poison to the heart and nerves, causing many forms of disease, noticeably dyspepsia.

"I was a lover of coffee and used it for many years and did not realize the bad effects I was suffering from its use. (Tea is just as injurious as coffee because it, too, contains caffeine, the same drug found in coffee.)

"At first I was troubled with indigestion. I did not attribute the trouble to the use of coffee, but thought it arose from other causes. With these attacks I had sick headache, nausea and vomiting. Finally my stomach was in such a condition I could scarcely retain any food.

"I consulted a physician; was told all my troubles came from indigestion, but was not informed what caused the indigestion. I kept on with the coffee and kept on with the trouble, too, and my case continued to grow worse from year to year until it developed into chronic diarrhea, nausea and severe attacks of vomiting. I could keep nothing on my stomach and became a mere shadow, reduced from 159 to 128 pounds.

"A specialist informed me I had a very severe case of catarrh of the stomach which had got so bad he could do nothing for me and I became convinced my days were numbered.

"Then I chanced to see an article setting forth the good qualities of Postum and explaining how coffee injures people, so I concluded to give Postum a trial. I soon saw the good effects—my headaches were less frequent, nausea and vomiting only came at long intervals and I was soon a changed man, feeling much better.

"Then I thought I could stand coffee again, but as soon as I tried it my old troubles returned and I again turned to Postum. Would you believe it, I did this three times before I had sense enough to quit coffee for good and keep on with the Postum. I am now a well man with no more headaches, sick stomach or vomiting and have already gained back to 147 pounds." Name given by Canadian Postum Co., Windsor, Ont.

A little tip will often cure a waiter of deafness.

MAKING SAFE INVESTMENTS

PROSPECT OF APPRECIATION IN INDUSTRIAL STOCKS ONLY REASON FOR BUYING THEM.

This is Greatest Just After Industrial Depression and Least During Good Times—Not a Proper Investment for Anyone Who Has to Depend on Income From Investments.

The articles contributed by "Investor" are for the sole purpose of guiding prospective investors, and, if possible, of saving them from losing money through placing it in "wild-cat" enterprises. The impartial and reliable character of the information may be relied upon. The writer of these articles and the publisher of this paper have no interests to serve in connection with this matter other than those of the reader.

(By "Investor.")

The safety of an investment in an industrial stock as we saw last week depends to no small degree on the nature of the product which the company manufactures. Perhaps equally as much, however, it depends on the men at the head of the company. When you hear that an experienced miller like the late Robert Meighen is at the head of a milling company, you naturally conclude that the company will be run properly. On the other hand, if you learn that a man whose whole experience has been in the steel and iron business is to manage a cement company you naturally hesitate before buying the cement company's shares. That in the case of the Canada Cement Company Mr. Jones proved himself to be quite as successful as a "cement man" as he did an "iron man," only goes to show that there are exceptions to every rule.

However, not alone on the name of the general manager should one purchase an industrial. Not long ago an experienced investor in Toronto hesitated over purchasing an otherwise extremely desirable industrial bond for the sole reason that the business reputation of one of the directors was not entirely to his liking. When such a man hesitates on account of one director when a bond is the subject of enquiry, much more should one consider before buying an industrial stock. Moreover, not only must a man be careful that the directors are not dangerous men, but it is essential that they be business men of experience—not mere "dummy" directors. When one sees the name of such a man as Sir Edmund Osler, or D. B. Hanna, or Z. A. Lash, and, of course, scores of others whose names appear on the directorate of our best and most carefully managed companies, on the board of a new company or one in which we consider investing, it is quite certain that, although it is no guarantee of success, it is a foregone conclusion that mismanagement or dishonesty will not need to be feared.

So in considering safety of an industrial stock always scan well the list of directors.

When that is done, however, the safety of the average industrial stock is not excessive, except in the case of preferred shares, which are usually reasonably safe as a business man's investment.

The rate of income in an industrial stock should be high to compensate for other weaknesses. B. C. Packers Common pays 6 per cent. and sold most of the year at around 75, at which price the income was 8 per cent. on the capital invested. At the present time the prospect of a bonus has put the stock higher; but an industrial common stock should yield about 8 per cent., unless there is some very good reason for the stock to sell higher while a preferred stock should return at least 6 3-4 to 7 per cent.

It is quite impossible to make any general statement with respect to the convertibility of industrial shares. On an average, however, one should not count on any high degree of this feature.

Prospect of appreciating in value is, of course, the chief reason why one buys industrial shares. This should be present in a high degree or there is no attraction in buying the stock at all. As a general rule the prospect of appreciation is greatest at the end of an industrial depression, and least at a time like the present when industrial conditions have been extremely satisfactory for an extended period. The present, therefore, is not a good time to buy stocks, and for the same reason it is a good time to buy sound bonds.

Stability of market price is almost wholly lacking in industrial stocks. They fluctuate quickly and sharply, up one day and down the next. Take Canadian General Electric. In 1899 it sold at 140, in 1901 it touched 231, in 1902 it got back to 193, while in 1908 it worked down to 83. It is now around 114. There is not much stability here. Preferred shares fluctuate far less, of course, and, in fact, generally may be counted to remain within a radius of ten points.

To sum up, Industrial Stocks are investments proper only for business men in close touch with conditions and certainly never for anyone who is dependent on the income from their investments for a living.

SOFT COAL AGREEMENT.

Owners and Miners Settle Differences for Next Two Years.

A despatch from Indianapolis says: Representatives of soft coal mine owners of Ohio, Western Pennsylvania, Illinois and Indiana, and of the United Mine Workers of those States, on Thursday afternoon signed the wage agreement ratified by the recent referendum vote of the miners. The agreement will be the basis of contracts to be entered into for the next two years by the bituminous miners and operators of many States. It grants a wage increase of five cents a ton.

INFANT MORTALITY.

4,278 Montreal Children Did Not Live a Year.

A despatch from Montreal says: Fifty per cent. of the children who died in Montreal last year were less than a year old, according to the report of Dr. Louis Laberge, chief of the Civic Health Department. The report shows that out of a total infant mortality of 9,974 no fewer than 4,278 children did not live to a whole year.

TAX ON LIQUOR TRAVELLERS.

Prince Edward Island Proposes to Make Them Pay $200.

A despatch from Charlottetown, P.E.I., says: Travellers selling liquors will hereafter pay a tax of $200, according to a bill now before the Legislature. The late Government passed a bill prohibiting any commercial traveller from taking orders for liquor houses. The Dominion Government declared this bill ultra vires, and liquor travellers have had no interference since.

TORONTO CORRESPONDENCE

INTERESTING GOSSIP FROM THE QUEEN CITY.

Major Peuchen and the Titanic Disaster —G. T. R. Management—Street Railway Trouble.

(We have arranged for a weekly letter about Toronto affairs, which, we believe, will be of great interest to many of our readers. These letters will be from the pen of one of Canada's foremost journalists, a man who has covered some of the world's greatest happenings and now occupies a leading position on one of the Toronto dailies.)

After the first horror of the Titanic disaster had worn off the chief local interest in the event centered around the person of Major Peuchen, who on a call being made for seamen to help man a lifeboat offered his services and was thereby saved. Major Peuchen is a wealthy man and has been prominent in military and yachting circles. He has never, however, figured in public affairs, and was until the present event known only to a comparatively small circle. But during the past week a perfect storm of private controversy has centered around his name. It is difficult to describe or to explain the heat and acrimony which have characterized the discussions, in which has participated practically every man, woman and child in the entire population.

Perhaps it is a fair statement of the situation to say that moderate-minded men have no hesitation in accepting Major Peuchen's story of his escape as absolutely true. It has in any case been amply corroborated by other eye-witnesses. Where he made his mistakes were in his criticisms, the sweeping nature of which, as originally published, he subsequently denied, and in his speedy announcement of a certificate of bravery signed by the second officer of the Titanic. Much of the criticisms of him has doubtless been unjust, and a good deal of sympathy for his position has been aroused.

To hear a lot of comment one would think that men who by the thousand in the city do not give up their seats in a street car to women, would never think of trying to save themselves if on a sinking ship, even if they could do so without taking any woman's seat in a lifeboat.

WHO WILL HEAD THE G. T. R.?

The loss of C. M. Hays leaves the Grand Trunk Railway and its allied lines temporarily without a head. Speculation as to his successor in controlling the destinies of the system broke out as soon as it was definitely learned he was dead. The names most prominently put forward include E. H. Fitzhugh, Vice-President of the Grand Trunk; E. J. Chamberlin, Vice-President of the Grand Trunk Pacific; William Wainwright, and Major Leonard. Mr. Fitzhugh has had a long experience under various Grand Trunk regimes. Though he has never been charged with full responsibility he is understood to be a man of resourcefulness and much force of character. Mr. Chamberlin's work with the Grand Trunk Pacific has been highly commended and he is regarded as a coming railroader. Mrs. Wainwright is highly estimable, but his age and state of health kept his name from being as prominently mentioned as some of the others.

BOATS WILL BE CAREFUL.

One effect of the Titanic disaster, undoubtedly, is that water travel, whether on the ocean or on the lakes, will be safer from now on than it has been for years. A false confidence has been abroad. Ships do not sink now-a-days was the feeling, and if they do wireless telegraphy would bring aid before lives were lost. Speed and comfort were, therefore, given undue regard in relation to safety. Had the catastrophe befallen a smaller boat the larger ones would still have felt that they were safe, and there may, therefore, be something of Providence in the fact that it was the Titanic, the mightiest of them all, that was selected for the slaughter. Now, every other vessel knows that it must henceforth relax no possible precaution. Local lines have been taking stock of their safety appliances, and may be depended upon to do all that is possible.

MAY BE STREET CAR STRIKE.

Trouble is brewing between the Toronto Street Railway Company and its employes, organized as the Street Railwaymen's Union, with a membership of about 1,500 men. An agreement made two years ago comes to an end on June 15, and the men declare that they must have higher wages and improved conditions of work or on that date they will go on strike.

No other labor trouble that can threaten Toronto contains such possibilities of inconvenience as a street railway strike. Toronto spreads over such a wide area that many people now live five or six miles from their work. A strike means the embarassment of factories and stores and trouble for every one.

At present the men's maximum wage is 25 cents an hour. They demand 30. Another chief grievance lies in the distribution of their hours. Owing to the rush traffic night and morning hundreds of extra men have to be put on at those periods. They put in the remainder of their days' work whenever they get a chance. They complain that often they have to remain on duty fifteen or sixteen hours in the day to get in their nine hours' work.

Public opinion runs so antagonistic to the company that it is likely the men will have a lot of moral support. How long this would last under the inconveniences of a strike is a question. In the last year or two the men have been recruited by a great number of immigrants who are sometimes excellent servants of the public, and sometimes the reverse.

TRIBUTE TO C. M. HAYS.

Mr. A. W. Smithers Records Grief of G.T.R. Officials.

A despatch from London says: Mr. A. W. Smithers, Chairman of the G.T.R., writing to The Times, says:—"As there will be no opportunity till the next general meeting of the G.T.R. in October of publicly paying a tribute to Mr. C. M. Hays, late President, I venture, as you kindly allow me, to express on behalf of the proprietors, board, officers and staff of the company their deep grief at his untimely loss and their high appreciation of his great and devoted services to the company and their heartfelt sympathy with his widow and family in their great sorrow."

GERMANS FOR CANADA.

Tide of Emigration Likely to Turn in This Direction.

A despatch from Ottawa says: That the stream of German emigration is likely to turn Canadawards is stated in a report to the Department of Trade and Commerce from J. T. Lithgow, acting trade agent at Berlin. Mr. Lithgow points out that his office, under the German law, is not permitted to induce a German subject to emigrate, but information may be given, and has been given, in response to numerous enquiries from people "who have decided to go to Canada, nearly all of whom are in comfortable circumstances, and many with considerable money to invest."

Eight Years of Bad Eczema on Hands

Miss Mary A. Bentley Montreal

Cured by Cuticura Soap and Ointment

Miss Mary A. Bentley, 93 University St., Montreal, writes, in a recent letter: "Some nine years ago I noticed small pimples breaking out on the back of my hands. They became very irritating, and gradually became worse, so that I could not sleep at night. I consulted a physician who treated me a long time, but it got worse, and I could not put my hands in water. I was treated at the hospital, and it was just the same. I was told that it was a very bad case of eczema.

"Well, I just kept on using everything that I could for nearly eight years until I was advised to try Cuticura Ointment. I did so, and I found after a few applications the burning sensations were disappearing. I could sleep well, and did not have any itching during the night. I began after a while to use Cuticura Soap. I stuck to the Cuticura treatment, and thought if I could use other remedies for over seven years with no result, and after only having a few applications and finding ease from Cuticura Ointment, it deserved a fair trial with a severe and stubborn case. I used the Cuticura Ointment and Soap for nearly six months, and I am glad to say that I have hands as clear as anyone. It is my wish that you publish this letter to all the world, and if anyone doubts it, let them write me."

Cuticura Soap and Ointment are sold by druggists and dealers everywhere. For a liberal free sample of each, with 32-p. book, send to Potter Drug & Chem. Corp., 58 Columbus Ave., Boston, U. S. A.

An Absolutely Safe 6% Investment

¶ The First Mortgage Bonds of Price Bros. & Company 6 per cent. on the investment---secured by first mortgage on one of the finest paper mills and over four million acres of the best pulp and timber land in America---insured with Lloyds, of London, England, against fire---offer a most attractive investment. The present net earnings of the Company are sufficient to pay the bond interest twice over. The growing demand for pulpwood is yearly increasing the value of the Company's properties. These bonds have been purchased by the best informed financiers in both Canada and England. At their present price they yield 6 per cent interest. Considering security, earnings, assets, and the likelihood of appreciation in value, Price Bros. & Company bonds constitute an exceptional investment.

Write for full description of these bonds.

HOUSEHOLD

NEW DISHES FROM ITALY.

Although French cooking is traditionally regarded as the best of any country in Europe, there are those who cherish a weakness for Italian dishes. The following recipes were culled by the writer when she was on a visit to Italy, and made the discovery that many new touches were given to our own familiar foods. Some are well worth duplicating at our tables by way of achieving the especial sauce of appetite—variety.

Spinach, for instance, is served in a ring mold, the vegetable being tender in the usual way, drained, chopped fine and when hot passed through a wire sieve. At the point a little white, thin sauce, with the white of an egg, is added, and the mixture pressed into a mold, which is set in hot water until needed for table. Thin, hot slices of tongue are laid in groups of twos and threes on the top of the ring.

Of celery, the green stalks are cut in pieces two inches or so in length and stewed until tender, and served like asparagus on toast, with buttered sauce—a delicious dish, more especially if grated Parmesan cheese is sprinkled on top before the celery is sent to table.

Plain boiled rice, cooked tender and well salted, becomes a dish of consequence if served with a cream cheese sauce. A rich white sauce is made and grated Parmesan cheese stirred in thickly while the sauce is very hot. Serve with this course oblongs of dry thin toast.

The following dishes are even more typically Italian than the foregoing, and if the recipes are faithfully carried out will be found quite excellent:

Pizzella—Add to rather less than three-fourths pound of flour three potatoes rubbed through a sieve and a pinch of salt. Dissolve a piece of fresh yeast the size of a small marble, in a little tepid water. Make a hole in the center of the flour and add the dissolved yeast, working the paste lightly until it comes away easily from the baking board or slab (a marble slab is the best).

Put the paste in a basin and place it aside in a warm place until it has risen (about three hours). Heat some oil in a frying pan, dip your hands in tepid water, tear off lumps of the paste and fry, rinsing your hands each time to prevent the paste sticking to them. Place a little thick tomato sauce in the center of each "pizzella" and serve very hot.

Rolle of Rice.—Boil a cabbage. Boil some rice (do not overboil it), and when ready add two well-beaten eggs, a little butter, pepper, salt and grated Parmesan cheese. Spread a small quantity on a leaf of a boiled cabbage, and roll it round and tie it. When as many as required are prepared, fry them in boiling oil. Serve very hot, with tomato sauce to which some butter and grated Parmesan have been added.

CARE OF THE DISHCLOTH.

During the last few years scientists have endeavored to awaken the people to the vast importance of bacteria. To-day every one is beginning to realize and to recognize the important part which bacteria play in home sanitation, writes an experienced housekeeper.

Bacteria comprise a small class of law plants which are possessed of wonderful powers. There are hundreds of different species and forms, all of which are extremely minute and which are never visible to the naked eye. The fact that they are so universally found in nature, together with their great powers of multiplication, renders them of the greatest importance in nature. We should not get the idea that all bacteria are to be condemned, because some of them are our friends rather than our enemies. However, there is a class of bacteria, called pathogenic, or disease-producing bacteria, which are harmful, and it is against these that we should wage our war.

To most people the care of the dishcloth seems a very simple and unimportant phase in our household duties, and yet the dishcloth is a very important factor in the kitchen, and may be the cause of serious trouble.

We all know of a housekeeper (of course we never do such a thing), who is really very cleanly and considered a number one housekeeper, who, after washing her dishes, washes off the gas plate, the sink and probably a little of the woodwork with the same cloth. She throws out the dishwater, rinses out the pan and cloth and hangs it over the pan or over in some dark corner to dry. Then after each meal this process is continued, until the cloth is simply in strings. I know a woman who says that she "always makes it a rule never to use her dishcloth after it gets to be over a yard long." Now, when we stop to consider the seriousness of pathogenic bacteria and the diseases which they cause, we realize that a slimy, greasy dishcloth would be very likely to breed disease.

A noted physician relates an experience which he had in a family where a daughter was taken ill with diphtheria. After her death two other members of the family were taken with the same disease. As there were no other cases in that town and apparently no cause for it, he began to investigate. He searched the whole house and surroundings and found everything perfectly sanitary. He was about to give up his investigation when he caught sight of the dishcloth. Upon examining it he found it to contain millions of microbes. So the cause of the diphtheria was attributed to the dirty dishcloth which the mother had thoughtlessly used.

We should always wash the dishcloth thoroughly with hot water and soap after using it, rinse it and shake it out and then hang it in the sun to dry; never using it for anything excepting dishwashing. And do not use it until "it is a yard long."

We must realize that "it is the little things which count," even in sanitation.

HOUSEHOLD HINTS.

When bread making, do not use too much salt or the loaves will not be light.

Sponges will not get slimy if rinsed in clean water and put in the air after using.

Save every spoonful of gravy or stock, for a small quantity of either is a great improvement to made dishes.

If the oven is too hot, place a basin of cold water in it; this will speedily lower the temperature.

Suet puddings must be boiled for at least two hous, and if cooked from three to four hours they will be better.

To Remove Varnish.—First rub well with sandpaper and then apply spirit of ammonia on a soft rag.

To Clean Paint.—Dip a flannel into powdered whiting, and rub the surface of the paint, and you will be pleased with the result.

Steel table knives should never be used in the kitchen, for if anything greasy is stirred with them they immediately become blunt.

When cake tins are worn thin, scatter a little sand over the oven shelf before putting down the cake tin, and it will not burn in the baking.

Where moths are troublesome scatter powdered bitter apple under the papers of drawers and cupboards. Turpentine, too, is useful for the purpose.

If you wish to keep books in good condition, have open shelves. Glass doors certainly exclude dust, but they are apt to keep in damp and harbor moths.

Tar stains may be removed from cotton fabrics by covering the spot with butter, and allowing it to remain for a few hours before washing.

Fat and suet will keep for a long time if finely shredded, mixed with flour, and put in a cool place. Great care should always be taken that fat is chopped very finely for puddings.

To Stain Chairs—Scrub the chairs well and let them dry. Then paint with a solution of permangante of potash and water. If not dark enough apply a second coat. Next apply a coat of thin size, and, lastly, a coat of common varnish.

Leghorn hats may be cleaned with sulphur and the juice of a lemon. Stir a teaspoonful of sulphur into the juice of a lemon. Brush the mixture well into the hat with a toothbrush. Hold under the tap for a minute to get rid of the sulphur, then dry in an airy place.

WISE SAYINGS.

A rolling stone gathers some hard knocks.

Small men feel big when standing on their dignity.

It's his running expenses that keeps many a man behind.

A professional politician is a man who has no candid opinions.

If you want other people to look down on you look up to them.

There are times when a good bluff is as effective as great riches.

In the game of hearts, when a man is in doubt he should lead diamonds.

Dancing would be awfully hard work if it wasn't for the fun of the thing.

Every girl with money looks like a get-rich-quick proposition to some young man.

No man can profit altogether by the experience of others. He must buy some of his own.

A man can remember to his dying day all the things he learned at college—outside his textbooks.

If a man is too proud to beg and too honest to steal he should leave politics to those who are fitted for it.

A girl is awfully disappointed shortly after marriage to discover that her husband is merely an ordinary man like her brother.

STORY LIKE A PROPHECY

TALE OF A GREAT SHIPWRECK BY AN ICEBERG.

Author's Realistic Details Might Be Narrative of Actual Event.

The current number of the Popular Magazine, issued a few days ago, contains a story of a great ship wrecked at sea by collision with an iceberg. In its essentials it fits with such uncanny exactness the sparse details yet received of the Titanic disaster that one would be led almost to believe that the author, Mr. Mayn Clew Garnett, was endowed, like Cassandra, with a gift of dire prophecy. Some of the most striking paragraphs of Mr. Garnett's story are given below:—

The Admiral was a giant liner, a ship of eight hundred feet in length, and the snoring of the bow wave told of a tearing speed. She was doing 22½ knots an hour, or more than 25 miles, the speed of a train of cars.

There was a puff of colder air than usual. A chill as of death itself came floating over the silent ocean. A man on lookout stood staring straight into the mist ahead, and then sang out:

"Something right ahead, sir," he yelled in a voice that carried

LIKE THE ROAR OF A GUN.

Capt. Brownson just seized the lever shutting the compartments, swung it, jammed it hard over, and screamed:

FIGURES IN HOME RULE HISTORY.

Premier Asquith and his illustrious predecessor, the late William Ewart Gladstone.

"Stop her—stop her—hard over your wheel—hard over——"

His voice ended in a vibrating screech that sounded wild, weird, uncanny in that awful silence. A hundred men stopped in their stride, or work, paralyzed at the tones coming from the bridge.

With a grinding, smashing roar, as of thousands of tons coming together, the huge liner plunged headlong into the iceberg that rose grim and silent right ahead, towering over her in spite of her great height. The shock was terrific, and the grinding, thundering crash of falling tons of ice, coupled with the rending of steel plates and solid planks, made chaos of all sound.

The Admiral bit in, dug, plowed, kept on going, going, and the whole forward part of her almost disappeared in the wall of white. A thousand tons of huge flakes slammed and slid down her decks, burying her to the fore hatch in the smother. A thousand tons more crashed, slid, and plunged down the slopes of the icy mountain and hurled themselves into the sea with giant splashes, sending torrents of water as high as the bridge rail. The men who had been forward were swept away by the avalanche. And then, with reversed engines, she finally came to a dead stop, with her bows jammed a hundred feet deep in the ice wall of the berg.

Brownson tied town the siren cord, and the roar shook the atmosphere.

THE TREMENDOUS TONES

rose above the din of screaming men and cursing seamen; and then the master called down to the heart of the ship, the engine room:

"Is she going?" he asked.

"Water coming in like through a tunnel," came the response. "Nearly up to the grates now——"

That was all. The man left the tube to rush on deck, and the captain knew the forward bulkheads had gone; had either jammed or burst under that terrific impact. The ship was going down.

The Admiral had struck straight into the wall of an iceberg that reached as far as the eye could see in the haze. It towered at least three hundred feet in the air, showing that its depth was colossal, probably at least half a mile.

Brownson stood calmly watching the press gain and lose places in the boats. The ship was sinking. That was certain. She must have struck so hard that even the midship bulkheads gave way, or were so twisted out of place that the doors failed. The chief engineer came below him and glanced up.

As he did so, a tremendous roaring blast of steam blew the superstructure upward. The boilers had gone.

The decks grew more and more steep. The liner was settling by the head and to starboard. She was even now twisting, rolling over; and the motion brought down thousands of blocks of ice from the berg. The engines had stopped long since. She still held her head against the ice wall; but it would give her no support. She was slipping away—

AWAY TO HER GRAVE BELOW.

Brownson gazed back over the decks. He watched the crowd impersonally, and it seemed strange to him that so much valuable fabric should go to the bottom so quickly. The paint was so clean and bright, the brass was so shiny. The whole structure was so thoroughly clean, neat, and in proper order. It was absurd.

The liner suddenly shifted, leaned to starboard, heeled far over, and her bows slipped from the berg, sinking down clear to her decks, clear down until the seas washed to the foot of her superstructure just below Brownson. Masses of ice fell from her into the sea. The grinding, splashing noise awoke the panic again among the remaining passengers and crew. They strove with maniac fury to get the rafts and other stuff that might float over the side. Two boats drew away full to the gunwales with people. The air below began to make that peculiar whistling sound that tells of pressure—pressure upon the vitals of the ship.

A whistling roar arose above all other sounds. The siren had ceased, and Brownson knew the air was rushing from below. The ship would drop in a moment. He dreaded that last plunge, that drop into the void below. The thought held him a little. The ocean was always so blue out there, so clear and apparently bottomless, a great void of water. He wondered at the depth, what kind of a dark bed would receive that giant fabric, the work of so many human hands. The silence was coming again, and the sounds on the sinking ship were dying out. Then, suddenly, came a cracking and banging of ice blocks and the ship raised her stern higher. Then she plunged straight downward, straight as a plummet for the bottom of the Atlantic Ocean.

The Mean Man—"Is there anything more heartrending than to have a wife who can cook but won't do it?" Dyspeptic—"Yes, to have one that can't cook and will do it."

THE SUNDAY SCHOOL STUDY

INTERNATIONAL LESSON, MAY. 5.

Lesson V.—Poverty and riches, Luke 6. 20-26; 16. 19-31. Golden Text, Luke 12. 15.

6. 20-26.

Verse 20. His disciples—Jesus is speaking to a larger group of his followers, including but not confined to the apostles. It is quite possible that we have before us in this part of Luke's narrative a shorter, variant account of the same incident described in Matthew 5. 1-12, though in all probability Jesus may have repeated the substance of his beautitudes on different occasions. This would account largely for the difference in form and wording between the beautitudes as found in Matthew and in Luke.

Ye poor—One of the chief differences between Matthew and Luke in their accounts of the beautitudes is the personal application which Luke makes of each blessing to the disciples immediately addressed by Jesus. (Compare Introduction to Lesson for April 28.) This difference in the two evangelists may be accounted for by the character and habits of thought of the two men, Matthew, the tax gatherer, expressing himself more naturally in impersonal terms, while Luke, the physician, reveals the more intimate personal touch. The principal thought of the first beautitude as here recorded is that those poor in this world's goods, while shut out from many of the privileges which wealth and social standing offer, may, through the acceptance of the gospel, come into possession of the best of all things, the kingdom of God.

21. Ye that hunger now—There is to be a reversal of conditions in the kingdom of heaven, where the obstacles of accidental social position shall not interfere with individual advantage.

22. When men shall hate you — Entertain bitter prejudices against you.

Separate you—Excommunicate or ostracize you from their company.

Reproach—Speak evil of.

23. Rejoice in that day—An example of such rejoicing in the face of dire persecution is found in the enthusiasm of the early martyrs.

Their fathers unto the prophets—The persecution which Jeremiah suffered at the hands of his countrymen are an outstanding example.

24. Woe—This is not merely a denunciation or pronouncement of doom on the rich, as such, any more than the promise of the second beautitude is an assurance of reward for poverty, in itself. The four expressions of woe must be taken together as constituting a lamentation over the existing unfortunate and unjust social distinctions and conditions.

Ye have received your consolation—Such as wealth, taken by itself apart from the other blessings of life, can give.

25. Ye that laugh now—Laughter and mirth in Jesus's day were seldom met with apart from the ease and luxury of wealth and social position. Jesus well knew how much of the prosperity of this day came through the acquisition of ill-gotten gains, and was followed by sinful self-indulgence, meriting condemnation.

26. When all men shall speak well of you—Universal popularity is too often gained by surrender of deep convictions and of principles, in an effort to placate prejudice and win approval. Against such popularity Jesus warns his followers.

16. 19-31.

19. Now there was a certain rich man—The parable which follows is taken from its context in Luke's narrative and inserted at this point in our study, as illustrating one of the beautitudes both on its positive and its negative side.

Faring sumptuously—Or, living in mirth and splendor. The name of the rich man is not given, the popular title, "Dives," being only the Latin for "rich."

20. Lazarus—The Hebrew Eleazar, meaning "he whom God helps."

Was laid at his gate—A common Oriental custom among beggars was to solicit alms at the gates to the homes of the wealthy.

Full of sores—The victim of disease, as well as poor, and thus in a doubly pitiable plight.

21. The crumbs that fell from the rich man's table—The word crumbs, is supplied in the English translation. The reference in the original is simply to that which was left over and wasted.

The dogs—These still roam in droves about the streets of Jerusalem and other Syrian cities.

22. The angels—Belief in angels was common among the Jews at this time, except for the sect of the Sadducees.

Abraham's bosom—The figure is taken from the custom of reclining at table and Lazarus is thought of as occupying the place of honor next to Abraham. The imagery of the parable is Jewish throughout.

23. Hades — Compare Introductory paragraph above.

Seeth Abraham afar off — The language is still figurative. We note, however, that even in the figure used Lazarus is not in Hades, which, in the parable, is no longer a realm for departed spirits in general, but a place of punishment for the wicked only. We must distinguish clearly also between the ethical use which Jesus makes of things referred to in his parables and his doctrinal statements or more direct teachings.

24. Send Lazarus—The despised outcast of further years is recognized by the rich man, who now becomes the suppliant.

25. Receivedst—The verb in the Greek has an intensive meaning of receivedst to the full. So far as the simple statement of this verse is concerned it shows merely a reversal of fortune, leaving the moral reasons for this reversal to be inferred by the hearers in the light of the entire parable.

26. Besides all this—Or, in all these things.

A great gulf fixed—The barrier between the evil and the good is discernible from one side only. The wicked man seldom appreciates why he is shut out from the fellowship of good people.

None may cross over—The gulf cannot be bridged in either direction.

27. Send him to my father's house—In the heart of the man there was revived the spark of solicitude for others, which had almost been quenched.

29. Moses and the prophets—The law and the writings of the prophets. These were the well-known and sufficient guides to right living.

31. Neither will they be persuaded, if one rise from the dead—A rebuke to the Jewish craving for the manifestation of marvelous signs.

RETURN TO SIMPLE EATING.

German Journal Bids Society Leaders Save Nation.

The Lokal Anzeiger publishes an urgent appeal to German society leaders to return to "simple eating." It states that the luxury era in Germany has caused an extravagance in dining which threatens financial impoverishment and digestive ruin. Carlsbad, Marienbad, Kissingen and other spas, which cater to the needs of "penitent gluttons," are, says the journal, visited by numbers, annually increasing, who go there in spring and summer to make amends for over-eating and over-drinking in winter. "It would be a genuine public service on the part of leading society personages if they would begin by practical example to wage war on the sensual luxuriousness of modern entertaining, as far as the culinary end of it is concerned. Only by a return to simple and sensible dinners can we avert genuine economic and physical perils."

MILLINER'S DEVICE.

Artist Draws Customer, and Sketch Sent Home With Hat.

Some of the leading milliners of Paris, France, have introduced a new device for paying a pretty compliment to their best customers, and one that is well calculated to please them. When a client of distinction enters the shop and proceeds to try on the various new "creations" which the fashionable milliner produces, all unknown to herself the customer is sitting, or, rather, standing, for her portrait to an artist in concealment behind a screen. Absorbed in the fascinating occupation of trying on a new hat, with her whole attention fixed on the reflection of herself in the glass, she is quite oblivious of the artist's presence. Meanwhile he swiftly transfers to paper the feature of his unconscious subject. What is her surprise, therefore, on receiving the next day the hatbox containing her purchase, to find pasted upon the box an original drawing of herself wearing the new chapeau!

GRAINS OF GOLD.

The wealthiest kingdom can show nothing so beautiful as a virtuous home.

Ridicule is not the test of truth, because truth must always be the test of ridicule.

Time is a continual over-dropping of moments, which fall down one upon the other and evaporate.

Happiness consists in activity. Such is the constitution of our nature; it is a running stream, and not a stagnant pool.

Nothing is rich but the inexhaustible wealth of nature. She shows us only surface, but she is a million fathoms deep.

The true man is one who will neither seek an indirect advantage by a specious word, nor take an evil path to secure a good purpose.

"Yes," said the veteran, "at one time we were within an inch of freezing to death. Luckily, however," and he gazed reflectively at the ceiling—"we had the presence of mind to fall into a heated discussion."

Exeter Advocate,

Sanders & Creech, Props.

THURSDAY, MAY. 2, '12

NOTE AND COMMENT

Quebec Provincial elections will take place May 15. At present there are no saw-offs and it is probable that there will be polling in all the 82 constituencies.

The following statement, contained in a letter to Roosevelt from Taft ten days before the latter signed the Reciprocity agreement, will suffice to show Canadians what Taft meant when he said that Canada was at the "Parting of the ways". The statement was made public by Taft at Boston on Thursday night, and proves that Canada was wise in rejecting the Reciprocity Agreement.

The letter read in part,—"It might at first have a tendency to reduce the cost of food products somewhat. Meantime the amount of Canadian products we would take would produce a current of business between Western Canada and the United States that would make Canada only an adjunct of the United States. It would transfer all their important business to Chicago and New York, with their bank credits and everything else, and it would increase greatly the demand of Canada for our manufactures. I see this for an argument against reciprocity made in Canada, and I think it is a good one."

The cattle feeder is in somewhat of a quandry this spring. Feeders are selling at about the same price as they did two years ago. The experience of 1910 is still fresh in the memory, and the man who is in the cattle feeding business is somewhat chary about undergoing a similiar experience. The store cattle bought up in the spring of 1910 at from 5.50 to 5.75 a cwt. did not make money for the feeder. Will the season of 1912 duplicate that of 1910, is what many are asking. While it is never safe to prophesy as to what the market for beef cattle will be five or six months hence, there are certain conditions pertaining to the cattle trade in general at the present time that should be taken into account. It is generally agreed that this continent has fewer beef cattle than for some time back. There are also fewer young animals coming forward, and a scarcity of beef cattle is predicted for a couple of years to come. Conditions in 1912 are therefore different from what they were two years ago, and feeding may turn out to be a more profitable venture.

CLINTON—Thos. Gibbons, a farmer living near here was badly injured, when, as he was out on the land operating a big roller, the seat broke, and falling backwards pulled the horses back. Only the seat raising up took side of the roller saved him from being killed. As it was the doctor had to put fifteen stitches in his forehead. Gibbings was also hurt about the ribs, though none were broken. Loomis

STAFFA—The funeral of Robert Dalton was held at Staffa on Tuesday afternoon to Staffa cemetery. Two years ago Mr. Dalton was buried in a cave-in in a gravel pit, and sustained injuries to his back which made him a invalid ever since. Deceased was 43 years old and besides his wife, leaves a family of small children. Mr. George Dalton of this town is a brother.

CENTRALIA

Dr. J. S. Coulter of London was the guest of E. Colwill over Sunday.

Crediton

FOR SALE—At Zwicker's, Crediton, No. 1 Red Clover, Alsike, Alfalfa, Timothy, Kentucky Blue and Orchard Grass—specially selected for seeding purposes Also a quantity of clean Alsike and Timothy Seed mixed at very reasonable prices. Parties requiring should buy early as the better grades will be scarce and higher as season advances.—CHAS. ZWICKER, CREDITON.

This is House-cleaning time. Everywhere you can see clothes out on the line and the poor old man has a stick in his hand beating the carpets. It will soon be over. Then the meals will be on time.

The flax-mill finished the season's threshing last week. Seeding is now in full swing but the weather has kept back the growth.

Fred Wein of Clinton spent the past week in town visiting his daughter Mrs. Mary Beaver.

Milton Harris of Park Hill is in town and resumed his trade of painting.

We are sorry to state that Fred Young's health has received a set back His many friends hope there will be a change for the better.

Miss Steinacher of Wingham is visiting her parents Mr. and Mrs. Henry Steinacher for a few days.

Frazer Brown left on Monday for Windsor where he joined the Berlin Baseball team as pitcher. Success, Teddy!

Arbor Day was celebrated at school on Tuesday. The yard was given a thorough cleaning and everything now looks spick and span.

On Monday evening, the members of the Evangelical Church met and decided to have the exterior of the building repainted and new joist put in the basement. These repairs are badly needed and when completed will make a decided improvement.

Our brick and tile yards have started their men at work and are getting everything ready for brick and tile making.

George Eilber and Nelson Shenk left here on Wednesday for New Ontario to assume their posts as Fire Rangers on the T & N. O. Railway. George goes to his old place at Gillies Depot and Nel. at Porcupine. Both are good efficient men and a credit to the Government which appoints them.

Miss Clara Wind of Detroit is home for a few weeks visit.

John Finkbeiner is having the exterior of his dwelling repainted.

F. J. Wickware has moved his job printing plant in the room to the rear of Lawson's Jewelry shop.

Trevethick & Hodgins sold a handsome rubber tire buggy to August Hill on Tuesday. Their buggies are meeting with a ready sale this spring.

Mrs. Browne suffered a stroke on Friday and is at present quite low.

Dr. Orme, W. H. Pagot, Herb. Graham and Fred Irish motored to London on Saturday and heard "Get rich quick Wallingford.

Mr. Worden representing the Pelhelm Nursery Co. of Toronto, is in town soliciting business.

We are pleased to state that the health of Mrs. Henry Voelker and Mathew Wein has improved considerably during the past week.

George Lawson had a drain dug across the road one day last week in order to drain his cellar. Messrs Wuerth & Haist have notified quite a number of our townsmen to meet and adjust a drainage trouble. It appears the town sewer passes through their land and they claim damages.

On Sunday evening while Mr. and Mrs. Dan. McIsaac and family were returning home from Dashwood, their horse made a bolt from the house pulling up the post to which is had been tied and ran down street with Mrs. Isaac and child in the rig helpless. The horse was stopped at Hill's Hotel without any damage being done. It is indeed fortunate that all passed off safely.

Some of our fishermen have had great luck this week at the river.

Albert Morlock, motor expert, has had his lumber shed moved to the side of his shop and will convert it into a garage where he will be able to fix up any sick motors which need attention.

Don't forget the game of foot-ball to be held in town on Friday evening between the Tigers of the east end and the Brownies of the west end of town. The westerners met defeat last week 2-0 and now want revenge.

On Friday evening a baseball meeting was held in the bank rooms with a good number in attendance. Herb Young was appointed captain; W. H. Paget manager, and Fred Irish Sec.-Treas. We feel satisfied the team will hold up their reputation this year as in the past.

Dashwood

House-cleaning and garden making is the order of the day.—Miss Kate Stire of Park Hill spent Sunday with her parents here.—Mrs. Jos. Snell of Thedford was renewing acquaintances in town for a few days last week.—Mr. and Mrs. John Preter of Zurich spent Sunday in town.—Mr. and Mrs. Dan McIsaac of Crediton visited friends in town Sunday.—Mr. Michael Stire, jr. of Stratford is here for a few days helping to move his family and household effects to that place, where they intend to reside in future.—Mr. Joseph Eidt is visiting his son, Herman, at Forest for a few days.—Mr. Alfred Zimmer left on Monday for Saskatoon, where he expects to remain for a while. —Messrs. Solomon and Herb Miller left Saturday for Vancouver, B.C., both having secured positions there.—Mr. Herman Zimmer and Mr Wes. Miller spent Monday in London.—Mr. Jonas Hartleib is building a new shop on Main street for the purpose of storing his implements. They commenced work on it last week.—Quite a number of our young people attended the dance at Bossenberry's, Grand Bend, on Thursday night of last week.

Happily Wedded.—A quiet wedding took place at the Lutheran parsonage on Tuesday of last week, when Miss Emma Willert, daughter of Mrs. Levi Hamacher became the wife of Mr. William Schroeder, son of Mr. and Mrs. George Schroeder, sr. Rev. G. Thun performed the ceremony. They will make their home in Dashwood. Congratulations.

Mr. Jos. Guhan assessor for Stephen, has handed in his roll and the following figures have been taken from the roll. No. of acres in Stephen 56,798; total assessment of real property $1989374; buildings 646810 exemptions $68200; taxable income $700. Total assessment $2657456; number of children between 5-16, 792; male persons between 21-60 788; total population 3270; deaths during year 29, births 19. The population for 1911 was 3555, births 55 and deaths 14. There are 310 dogs in the township.

FERTILIZER

WHY NOT USE FERTILIZER INSTEAD OF BARNYARD MANURE?

It is easier to apply to the land and gives better satisfaction in every way. It is used for all grain crops and also a good catch of clover on poor meadows. Give your land a good top dressing of Fertilizer before planting your potatoes and it will double your crop. It is good for beans and for all kinds of root crops It has been tested and found to be better than other fertilizers. Give it a trial. Over three hundred tons sold already.

The National Fertilizer, which is placed on the market by the National Land, Fruit and Packing Company, is the only organic fertilizer made, and shows the following analysis compared with barnyard manure:—

Nitrogen 3.50, equal to 4.6 ammonia.
Phosphoric acid 5.75, equal to 12. soluable phosphates.
Potash 3.50.

ONTARIO

PROVINCIAL LOAN OF $2,000,000 AND $210,000

THE GOVERNMENT OF THE PROVINCE OF ONTARIO, under the authority of Chapter 4, of the Statutes of Ontario, 1911, invites subscriptions from the public for a loan of $2,000,000 on bonds of the Province of Ontario, or "Ontario Government Stock."

The bonds will be dated 1st May 1912, and payable on the 1st of November, 1941, in denominations of $1,000 each, with coupons attached for interest at the rate of 4 per cent. per annum, payable half yearly, on the 1st of May and 1st of November in each year, at the office of the Provincial Treasurer, Toronto or at the offices of the Bank of Montreal, in Montreal, Canada, and in New York, N. Y., at the holder's option. Bonds will be made payable to bearer, but on request will be registered in the office of the Provincial Treasurer and endorsed as payable only to the order of certain persons or corporations, and on request of holders will be exchanged for "Ontario Government Stock" at any time.

Also balance of Algonquin Park Loan of $210,000 on the same terms and with the same dates, under the authority of Chapter 9, 1 George V.

The issue price during the month of May, 1912, will be 102 for each $100 and after the 31st day of May, 1912, the issue price will be $102 and interest accrued from the 1st of May, 1912.

ALL BONDS AND INSCRIBED STOCK ISSUED UNDER THE AUTHORITY OF THE SAID ACT ARE FREE FROM ALL ONTARIO PROVINCIAL TAXES, CHARGES, SUCCESSION DUTY AND IMPOSITIONS WHATSOEVER.

Purchasers of Stock or Bonds will be required to send certified cheque with the application, payable to the order of the "Provincial Treasurer of Ontario."

This loan is raised upon the credit of the Consolidated Revenue Fund of Ontario, and is chargeable thereupon.

A. J. MATHESON,
Provincial Treasurer.

Treasury Department, Parliament Buildings, Toronto, April 19th, 1912.

Newspapers inserting this advertisement without authority from the Department will not be paid for it.

HENSALL

The funeral of Joseph Hudson, was held from the family residence to Bayfield cemetery on April 23rd. Mr. Hudson was one of Hensall's best-known residents, and died on Saturday after an illness of a couple days Deceased had lived on his farm at Hillsgreen for many years. He came to Hensall a few years ago and engaged in the purchase of hogs for the leading packers, and was well known and much thought of by the farmers throughout this section. He leaves a large family, grown up, and settled in different parts of Canada and Michigan.

Charles Schaffer of Marlett, Mich., is here visiting his brother Ned and other relatives.—Thomas. McClymont, of London, was here attending the funeral of the late Jos. Hudson.—C. Bacrett has been very ill for the past two weeks but he shows sign of improvement.—Archie Blatchford, who has been confined to the house through illness, for a considerable time, is improving slowly. —By request the Choir of Carmel Church repeated the sacred oratorio "Olivet to Calvary" in Carmel Church last Sunday evening.—John and Thos. Hudson of Marlette, Mich., arrived here on Saturday shortly before their father died.—Ned Schaffer of Blyth is in town He had taken the job of taking down D. Urquhart's flax mill which has been sold to-gether with the machinery to a Blyth Company.

HAY.

Margaret Rothermel widow of the late Peter Beaver, Sr., died at the home of her son Mr. William Beaver, 15 th, Con., on April 22nd, at the age of 73 years, 1 month and 10 days. She had been suffering from a complicatino of diseases, and for the past month it was known that her days on earth was nearly numbered. She leaves to mourn, two sons, Peter of Sebewaing, Mich., and Wm. on the homestead, the daughters being Mrs. Leah Wein, of Stephen, Mrs. Angeline Heverley of Cleveland, Mrs. Mary Ann Rellinger of Detroit, and Mrs. Clara German, of Berlin. The late Mrs. Beaver was a quiet kindly disposition and made many friends during her 36 years residence in this section.

VARNA

Miss Maggie Reid, daughter of Mr. Samuel Reid, is quite ill at her home here.—Mr. and Mrs. J. E. Hamwell left Tuesday on a visit to the west. They intend visiting different parts and may settle permanently.—Miss Walls, who has been on an extended visit to her uncle's Rev. Mr. Snowden, accompanies them.—Mr. James Delgatty and family have left for Calgary. Both Mr. Hamwell and Mr. Delgatty are old Huron teachers who have done good work Mr. Hamwell has also very satisfactory filled the position of clerk of the Township of Stanley for the last ten or twelve years. R. J. Richardson was appointed to succeed him.

WHAMEN.

Mr. and Mrs. Arthur Gunning of Kirkton were the guests of the latter's brother Albert here on Sunday.—Ernest Hobbs and sisters, Maggie and Myrtle, were guests of Mr. and Mrs. J. V. Millson here on Sunday.—Wilson Morley is engaged at Mr. N. Ogden's for a few weeks.—The Kirkton Telephone Co. are now running a wire from Granton out the townline to Whalen. This will be of great convenience to farmers on this road.—W. Knowles has been driving posts in this vicinity for the past few weeks.—The fall wheat in this section is only a fair showing and is in need of a few warm showers.—The members of the W. M. S. attended the convention in Clandeboye on Thursday.—Loftus Hern, son of Philip Hern, left Monday for Rockwood to visit his sister before leaving for Calgary, where he has secured a position. We wish him success.

TENDERS FOR DREDGING.

SEALED TENDERS addressed to the undersigned and endorsed "Tenders for Dredging Ontario," will be received until 4 p. m. on Monday, May 13, 1912, for dredging required at the following places in the Province of Ontario,—

Goderich, Napanee, Picton, Telegraph and Nigger Islands.

Tenders will not be considered unless made on the forms supplied, and signed with the actual signatures of tenderers.

Combined specification and form of tender can be obtained on application to the Secretary, Department of Public Works, Ottawa. Tenders must include the towing of the plant to and from the work. Dredges and tugs not owned and registered in Canada shall not be employed in the performance of the work contracted for. Contractors must be ready to begin work within thirty days after the date they have been notified of the acceptance of their tender.

A separate cheque for each place for which a tender is submitted must accompany the tender. This cheque must be equal to five per cent. (5 per cent.) of the amount of the tender, based on the approximate quantities set opposite the name of place, but in no case must the cheque be for less sum than $1,500. The cheque must be accepted on a chartered bank, and payable to the order of the Honorable the Minister of Public Works. If the tender be not accepted the cheque will be returned.

The Department does not bind itself to accept the lowest or any tender.

By order,
R. C. DESROCHERS
Secretary.

Department of Public Works,
Ottawa, April 27, 1912.

Newspapers will not be paid for this advertisment if they insert it without authority from the Department.

LUCAN—The business of the Queen's Hotel has changed hands, the proprietor, Mr. Frank Marshall, selling to Mr. John McGrath of Erie House, Blenheim.

DRYSDALE—A very pretty wedding was solemnized in St. Peter's Church on Tuesday, April 23rd, when Miss V. Bedard, became the wife of Mr. E. Denomy. The ceremony was performed by Rev. L. Landreville P. P. The bride wore a dress of white messaline silk, trimmed with fringe and lace. Her sister was bridesmaid. George Denomme of Chatham supported the groom.

Lovely Hair for Women

PARISIAN SAGE PUT LIFE AND LUSTER INTO DULL, FADED HAIR
IT IS GUARANTEED

If you haven't enjoyed the marvelous benefit derived from using delightful, refreshing PARISIAN SAGE, the modern hair grower, beautifier and dandruff remedy, you have missed a real treat.

Every woman should use PARISIAN SAGE, not only to banish dandruff and other hair troubles but to prevent falling hair, baldness, grayness, and faded hair, PARISIAN SAGE puts life and luster into any person's hair, and best of all it is guaranteed to do as advertised by W. S. COLE or money back.

HOT FLASHES.

Women in middle age often complain of hot flashes. They are at that stage of life—when their delicate organism needs a tonic and helping-hand which only Dr. Pierce's Favorite Prescription can give them. Many women suffer needlessly from girlhood to womanhood and from motherhood to old age—with backache, dizziness or headache. A woman often becomes sleepless, nervous, "broken-down," irritable and feels tired from morning to night. When pains and aches rack the womanly system at frequent intervals, *ask your neighbor about*

Doctor Pierce's Favorite Prescription.

MRS. J. IRHOP, of 321 S. Bentalou Street, Baltimore, Md., says: "I wrote you about nine months ago, telling you of my condition. I have a fine baby girl—she weighed nine pounds when born. She is my third child and the strongest of them all. My suffering was only for two hours. I took several bottles of 'Favorite Prescription' and one of Dr. Pierce's Smart-Weed. I never had a well day before I took your medicines. I was surprised how well I felt—could eat—was always hungry, and never had a sick stomach. The nurse who was with me said the medicine was wonderful because I got along so nicely after having had so much trouble before. She intends to recommend it to all her suffering patients. Everybody is astonished at me because I only weighed 102 pounds before and now I weigh 135. I have had several ladies come to me and ask about Dr. Pierce's medicine. I am willing to recommend it to all who suffer and want help. If any want information I will be glad to give it to them."

CHAPTER I.—(Cont'd)

"There is Miss Morgan," exclaimed Cecil, "that lady in a blue ulster; and there is her uncle just joining her."

"Many thanks for your kind help," said Frithiof, and with a second bow and a smile from his frank eyes he passed on and approached Mr. Morgan.

"Welcome to Norway, sir," he exclaimed, greeting the traveler with the easy courteous manner peculiar to Norwegians. "I hope you have made a good voyage."

"Oh, how do you do, Mr. Falck?" said the Englishman, scanning him from head to foot as he shook hands and speaking very loud, as if the foreigner were deaf. "Very good of you to meet us, I'm sure. My niece, Miss Blanche Morgan."

Frithiof bowed, and his heart began to beat fast as a pair of most lovely dark-gray eyes gave him such a glance as he had never before received.

"My sister is much looking forward to the pleasure of making your acquaintance," he said.

"Ah!" exclaimed Blanche, "how beautifully you speak English! And how you will laugh at me when I tell you that I have been learning Norwegian for fear there should be dead silence between us."

"Indeed, there is nothing which pleases us so much as that you should learn our tongue," he said, smiling. "My English is just now in its zenith, for I passed the winter with an English clergyman at Hanover for the sake of improving it."

"But why not have come to England?" said Blanche.

"Well, I had before that been with a German family at Hanover to perfect myself in German, and I liked the place well, and this Englishman was very pleasant, so I thought if I stayed there it would be 'to kill two flies with one dash,' as we say in Norway. When I come to England that will be for a holiday, for nothing at all but pleasure."

"Let me introduce my nephew," said Mr. Morgan, as Cyril strolled up. "And this is my daughter. How now, Florence, have you found your boxes?"

"Allow me," said Frithiof; "if you will tell me what to look for I will see that the hotel porter takes it all."

There was a general adjournment to the region of pushing and confusion and luggage, and before long Frithiof had taken the travelers to his father's carriage, and they were driving through the long, picturesque Strandgaden. Very few vehicles passed through this main street, but throngs of pedestrians walked leisurely along, or stood in groups talking and laughing, the women chiefly wearing full skirts of dark-blue serge, short jackets to match, and little round blue serge hoods surmounting their clean white caps; the men also in dark blue with broad felt hats.

To English visitors there is an indescribable charm in the primitive simplicity, the easy informality of the place; and Frithiof was well content with the delighted exclamations of the new-comers.

"What charming ponies!" cried Blanche. "Look how oddly their manes are cut—short manes and long tails! How funny! we do just the opposite. And they all seem cream-colored."

"This side, Blanche, quick! A lot of peasants in sabots! and oh! just look at those lovely red gables!"

"How nice the people look, too, so different to people in an English street. What makes you all so happy over here?"

"Why, what should make us unhappy?" said Frithiof. "We love our country and our town, we are the freest people in the world, and life is a great pleasure in itself, don't you think? But away in the mountains our people are much more grave. Life is too lonely there. Here in Bergen it is perfection."

Cyril Morgan regarded the speaker with a pitying eye, and perhaps would have enlightened his absurd ignorance and discoursed of Pall Mall and Picadilly, had not they just then arrived at Holdt's Hotel. Frithiof merely waited to see that they approved of their rooms, gave them the necessary information as to bankers and lionizing, received Mr. Morgan's assurance that the whole party would dine at Herr Falck's the next day, and then, having previously dismissed the carriage, set out at a brisker pace than usual on his walk home.

Blanche Morgan's surprise at the happy-looking people somehow amused him. Was it then an out-of-the-way thing for people to enjoy life? For his own part mere existence satisfied him. But then he was as yet quite unacquainted with trouble. The death of his mother when he was only eleven years old had been at the time a great grief, but it had in no way clouded his after-life, he had been scarcely old enough to realize the greatness of his loss. Its effect had been to make him cling more closely to those who were left to him—to his father, to his twin-sister, Sigrid, and to the little baby, Swanhild (Svarnhoel), whose birth had cost so much. The home life was an extremely happy one to look back on, and now that his year of absence was over and his education finished it seemed to him that all was exactly as he would have it. Faintly in the distance he looked forward to further success and happiness; being a fervent patriot, he hoped some day to be a king's minister—the summit of a Norwegian's ambition; and being human he had visions of an ideal wife and an ideal home of his own. But the political career could very well wait, and the wife too, for the matter of that.

CHAPTER II.

Herr Falck lived in one of the pretty, unpretentious houses in Klavedalen, which are chiefly owned by the rich merchants of Bergen. The house stood on the right-hand side of the road surrounded by a pretty little garden, it was painted a light-brown color, and like most Bergen houses it was built of wood. In the windows one could see flowers, and beyond them white muslin curtains, for aestheticism had not yet penetrated to Norway. The dark-tiled roof was outlined against a wooded hill rising immediately behind, with here and there gray rocks peeping through the summer green of the trees, while in front the chief windows looked on to a pretty terrace with carefully kept flower-beds, then down the wooden hillside heights on the further shore and on one side a break in the chain of mountains and a lovely stretch of open country. To the extreme left was the giant Ulriken, sometimes shining and glistening, sometimes frowning and dark, but always beautiful; while to the right you caught a glimpse of Bergen with its quaint cathedral tower, and away in the distance the fjord like a shining silver band in the sun.

As Frithiof walked along the grassy terrace he could hear sounds of music floating from the house; some one was playing a most inspiriting waltz; and as soon as he had reached the open French window of his father's study, a quaint pair of dancers became visible. A slim little girl of ten years old, with very short petticoats, and very long golden hair braided into a pig-tail, held by the front paws a fine Esquimau dog, who seemed quite to enter into the fun and danced and capered most cleverly, obediently keeping his long pointed nose over his partner's shoulder. The effect was so comical that Frithiof stood laughingly by to watch the performance for fully half a minute, then, unable to resist his own desire to dance, he unceremoniously called Lillo, the dog, away and whirled off little Swanhild in the rapid waltz which Norwegians delight in; the languid grace of a London ballroom would have had no charms for him, his dancing was full of fire and impetuosity, and Swanhild, too, danced very well; it had come to them both as naturally as breathing.

"This is better than Lillo," admitted the child. "Somehow he's so dreadfully heavy to get round. Have the English people come? What are they like?"

"Oh, they're middling," said Frithiof, "all except the niece, and she is charming."

"Is she pretty?"

"Prettier than any one you ever saw in your life."

"Not prettier than Sigrid?" said the little sister, confidently.

"Wait till you see," said Frithiof. "She is a brunette and perfectly lovely. There now!" as the music ceased, "Sigrid has felt her left ear burning, and knows that we are speaking evil of her. Let us come to confess."

With his arm still round the child he entered the pretty, bright-looking room to the right. Sigrid was still at the piano, but she had heard his voice and had turned round with eager expectation in her face. The brother and sister were very much alike; each had the same well-cut Greek features, but Frithiof's face was broader and stronger, and you could tell at a glance that he was the more intellectual of the two. On the other hand, Sigrid possessed a delightful fund of quiet common sense, and her judgment was seldom at fault, while, like most Norwegian girls, she had a most charmingly simple manner, and an unaffected light-heartedness which it did one good to see.

"Well, what news?" she exclaimed. "Have they come all right? Are they nice?"

"Nice is not the word! Charming! beautiful! To-morrow you will see if I have spoken too strongly."

"He says she is even prettier than you, Sigrid," said Swanhild, mischievously. "Prettier than any one we ever saw."

"She? Which of them?"

"Miss Blanche Morgan, the daughter of the head of the firm, you know."

"And the other one?"

"I hardly know, I didn't look at her much; the others all seemed to me much like ordinary English tourists. But she—well, you will see to-morrow."

"How I wish they were coming to-night! you make me quite curious. And father seems so excited about their coming. I have not seen him so much pleased about anything for a long time."

"Is he at home?"

"No; he went for a walk, his head was bad again. That is the only thing that troubles me about him, his headaches seem to have become almost chronic this last year."

A shade came over her bright face, and Frithiof, too, looked grave.

"He works very much too hard," he said; "but as soon as I come of age and am taken into partnership he will be more free to take a thorough rest. At present I might just as well be in Germany as far as work goes, for he will hardly let me do anything to help him."

"Here he comes, here he comes!" cried Swanhild, who had wandered away to the window, and with one accord they all ran out to meet the head of the house, Lillo bounding out in front and springing up at his master with a loving greeting.

Herr Falck was a very pleasant-looking man of about fifty; he had the same well-chiseled features as Frithiof, the same broad forehead, clearly marked, level brows, and flexible lips, but his eyes had more of gray and less of blue in them, and a practiced observer would have detected in their keen glance an anxiety which could not wholly disguise itself. His hair and whiskers were iron-gray, and he was an inch or two shorter than his son. They all stood talking together at the door, the English visitors still forming the staple of conversation, and the anxiety giving place to eager hope in Herr Falck's eyes as Frithiof once more sung the praises of Blanche Morgan.

"Have they formed any plan for their tour?" he asked.

"No; they mean to talk it over with you and get your advice. They all professed to have a horror of Baedeker, though even with your help I don't think they will get far without him."

"It is certain that they will not want to stay very long in our Bergen," said Herr Falck, "the English never do. What should you say now if you all took your summer outing at once and settled down at Ulvik or Balholm for a few weeks, then you would be able to see a little of our friends and could start them well on their tour."

"What a delightful plan, little father!" cried Sigrid, "only you must come too, or we shall none of us enjoy it."

(To be continued.)

Newfoundland has a public debt exceeding $20,000,000.

BURGLAR PROOF GLASS.

Burglas-proof glass is now made in France. Embedded in the glass are light wires running in parallel transverse lines about one inch apart. The wires are connected to a battery, and carry a light charge of electricity. If the window is broken the electric current is broken and a bell is caused to ring. The breaking of the wires releases a magnetic switch, causing the alarm to be given. Unless the glass is completely broken no alarm will be given.

Take **BOVRIL** not medicine.

If you are not feeling quite up to the mark take a cup of Bovril daily. It will strengthen you, and, more still, it will enable you to properly digest and benefit by your ordinary meals.

MAXWELL'S LAWN MOWER

adds to the pleasure of possessing "a well kept lawn"

You'll notice the difference in the Maxwell Lawn Mower the first time you cut the grass with it.

Crucible Steel Cutter Knives cut clean and close, and hold their edge. Cold rolled steel shafts mean easy running. The whole mower is so compact, so strong and perfectly balanced, that cutting the lawn is a light, pleasant exercise, that you will really enjoy.

Made in 4 styles sizes from 8" to 22" in width — with and without grass-catching attachment.

Your hardware man probably has all sizes in Maxwell's Lawn Mowers—if not he can get it for you. Insist on Maxwell. Write us

WRITE your name and address in the lines above, clip out this ad, and mail it now. We will send, by return mail, a book that tells how to make yours a "Twentieth Century" farm.

You wouldn't be satisfied to use a scythe to cut your grain, when a modern harvester can do it so much better, would you? Nor to use the old soft-iron plough-share that your ancestors walked behind, when you can get an up-to-date riding plough? Every Canadian farmer realizes the advantages of Twentieth Century implements.

The next step is

The 20th Century Material—Concrete

Concrete is as far ahead of brick, stone, or wood as the harvester is ahead of the scythe or the riding-plough is ahead of the old iron plough-share.

Concrete is easily mixed, and easily placed. It resists heat and cold as no other material can; hence is best for ice-houses, root-cellars, barns, silos and homes. It never needs repair; therefore it makes the best walks, fence-posts, culverts, drain-tiles, survey monuments, bridges and culverts. It cannot burn; you can clean a concrete poultry-house by filling it with straw and setting the straw afire. The lice, ticks and all germs will be burned, but the house is uninjured.

It is cheap—sand and gravel can be taken from your own farm. Cement, the only material you must buy, forms from one-seventh to one-tenth of the whole volume.

Do you want to know more about Concrete on the Farm? Then write your name and address in the lines above, or on a postcard, mail it to us, and you will receive by return mail a copy of

"What the Farmer Can Do With Concrete"

Not a catalogue, but a 160-page book, profusely illustrated, explaining how you can use concrete on YOUR farm.

SPRING REMINDERS OF RHEUMATISM

Raw, Damp Weather Starts the Pain, but the Trouble Lies in the Blood

Spring weather is bad for rheumatic sufferers. The changes from mild to cold, the raw, damp winds start the aches and twinges, or in the more extreme cases, the tortures of the trouble going. But it must be borne in mind that it is not the weather that causes rheumatism. The trouble is rooted in the blood—the changeable weather merely starts the pains. The only way to reach the trouble and to cure it is through the blood. The poisonous rheumatic acids must be driven out. Liniments and rubbing may give temporary relief, but cannot possibly cure the trouble. The sufferer is only wasting time and money with this kind of treatment and all the time the trouble is becoming more deeply rooted—harder to cure. There is just one speedy cure for rheumatism — Dr. Williams' Pink Pills. They act directly on the impure, acid-tainted blood. They purify and strengthen it and thus root out the cause of the rheumatism. Here is strong proof of the above statements. Mrs. Robt. Luffman, Midland, Ont., says: "About three years ago my grandson, Robert Luffman, was attacked with inflammatory rheumatism. He became so bad he could only walk when someone helped him about. One arm he had to carry in a sling, and we felt sure he would be a cripple for life. The trouble also affected his heart. The doctor said his blood was turning to water and we had little hope for his recovery. The medicine the doctor gave him did not do more than soothe the pain a little, then he would be as bad as ever. On a former occasion Dr. Williams' Pink Pills had cured my daughter of rheumatism, and we finally decided to try them in Robert's case. After the use of three or four boxes there was a slight improvement and he continued taking the Pills until he had used 12 boxes, when the trouble had completely disappeared, and he has not been afflicted with it since."

Sold by all medicine dealers or by mail at 50 cents a box or six boxes for $2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

OLD ENGLISH INNS.

The Pope's Head at Norwich, which the licensing authorities have decided to refer for compensation, claims to be the oldest public house in England. There are, however, other claimants, such as the Saracen's Head, Newark; the Old Green Man, Erdington; the Seven Fineden, which last, they say, was used as an inn in 1042. The Fighting Cocks Inn, St. Alban's, goes one better, and claims to be the oldest inhabited house in England. F. W. Hackwood describes it as "a curious structure, of octagonal shape, of early Saxon origin, having been built as a boat house to the monastery founded by St. Albans by King Offa, about Stars, Witby-grove, Manchester, and the Bell, 795."

BEATING SPEAKER.

Col. Henry R. Smith, Sergeant-at-Arms of the Dominion Parliament since 1872, has some good stories to tell concerning the expedients employed by members of the House of Commons to question the truthfulness of other honorable members without being called upon by the Speaker to retract.

A Westerner once called a fellow-member a liar in the House, and when urged to retract remarked that he would withdraw the expression out of respect to the Speaker, but added that he would certainly call the member a liar outside the premises of the chamber. But in most cases attacks on veracity are more cleverly clothed in verbiage.

The most artistic effort in this direction recalled by Col. Smith was that of a wit who, after listening

Lieut.-Col. H. R. Smith.

to a speech from the benches opposite, said: "The statements of the honorable member just seated force me to the conclusion that if he had lived in the days of Sapphira that lady would have preferred him to Ananias as a husband."

A GOOD REMEDY FOR LITTLE ONES

Baby's Own Tablets are the best medicine a mother can give her little ones. They are absolutely safe, being guaranteed by a government analyst to contain no opiates or other harmful drugs. They cure constipation and indigestion, expel worms, make teething easy, in fact cure all the minor ills of little ones. Concerning them Mrs. Murray Marshall, Zephyr, Ont., says: "I have used Baby's Own Tablets for my children and always with the best of results. I can recommend them as a good remedy for little ones to every mother." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

MOTOR STREET CARS.

Electric trolley-cars are to be replaced by "petrol tramcars" on the short line between Morecambe and Heysham, in the northwest of England. One car is already in successful use, and two other cars have been ordered for the line. Each car carries 37 passengers, and is driven by a 55 horse-power, four-cylinder gasoline motor. The cost of the running and maintenance of the "petrol tram-car" well be studied with interest by street railway managers. Many believe that the car will be a serious competitor of the trolley system, since it requires no heavy expenditures for overhead or underground equipment or for generating-stations.

The Karoo grasshopper of South America has a ten-inch wing spread.

Simple and Sure.—Dr. Thomas' Eclectric Oil is so simple in application that a child can understand the instructions. Used as a liniment the only direction is to rub, and when used as a dressing to apply. The directions are so plain and unmistakable that they are readily understood by young or old.

WORLD'S DEAREST WINES.

In the Rathshaus at Bremen, Germany, is stored the dearest wine in the world. In the cellar of this establishment, built in 1405, is a collection of wines of vintage of 1653, 1227 and 1784. The wine of the vintage of 1653 is valued at $24,947,767,500, it is said.

Send for free sample to Dept. W. L. National Drug and Chemical Co., Toronto.

WIFE OF THE P.M. TALKS TO WOMEN

TELLS WHAT DODD'S KIDNEY PILLS DID FOR HER.

She Suffered for Two Years and Found a Cure for all Her Troubles in a Single Box.

Lower Caraquet, Gloucester N. B., April 22 (Special).—Mrs. Jos. O. Chiasson, wife of the police magistrate here, who for two years has been practically an invalid, is again in the best of health, and she is telling her friends how quick and complete was her cure when she took Dodd's Kidney Pills.

"My illness," Mrs. Chiasson says, "was caused by a strain, and for two years I was a sufferer. My back ached, I was always tired and nervous, there were dark circles under my eyes and after sleeping I had a bitter taste in my mouth.

"I had a pressure and sharp pain on the top of my head, I was always thirsty and my skin had a harsh, dry feeling. I was often dizzy, I perspired easily and my perspiration had an unpleasant odor.

"Almost from the first dose Dodd's Kidney Pills helped me, and by the time I had finished the first box I was a well woman."

Mrs. Chaisson's symptoms showed that the trouble was her kidneys. That's why Dodd's Kidney Pills cured her so quickly.

ANOTHER RIDDLE SOLVED.

Kind Scientists Tell Us Why Cats Fall on Their Feet.

The ingenuity of a scientist has resulted in the construction of an apparatus to show why a cat in falling invariably alights on its feet.

This apparatus consists of a cardboard cylinder wherein are stuck four rods to serve for legs, together with a tail devised on similar principles. The object of the experiment is to show that a cat's peculiar faculty depends on the rotation of its tail with sufficient vigor.

It appears that this faculty is specially developed by climbing and leaping animals, such as members of the feline tribe, monkeys, squirrels, rats, and most lemurs. The tail plays a most important role in the turning process.

According to the inventor of this apparatus, all tree-inhabiting monkeys have long tails, and there is not the slightest doubt that these tails are of great aid to all climbers in enabling them to turn in the air. The tail also acts as a balancer, as evidenced in the case of a squirrel, which may be seen walking along a tightly stretched wire or string, swinging its tail from side to side very much after the manner of the professional wire walker balancing himself with a pole.

Cholera and all summer complaints are so quick in their action that the cold hand of death is upon the victims before they are aware that danger is near. If attacked do not delay in getting the proper medicine. Try a dose of Dr. J. D. Kellogg's Dysentery Cordial, and you will get immediate relief. It acts with wonderful rapidity and never fails to effect a cure.

A VERY BUSY MAN.

Posey—"I tell you, Crankum is a busy man."

Cooney—"What's his occupation?"

Posey—"He owns an auto."

When Your Eyes Need Care
Try Murine Eye Remedy
No Smarting—Feels Fine—Acts Quickly. Try it for Red, Weak, Watery Eyes and Granulated Eyelids. Illustrated Book in each Package. MURINE is compounded by our Oculists—not a "Patent Medicine" but used in successful Physicians' Practice for many years. Now dedicated to the Public and sold by Druggists at 25c-50c per bottle. Murine Eye Salve in Aseptic Tubes, 25c-50c. Murine Eye Remedy Co., Chicago

A girl's kisses are like pickles in a bottle—the first is hard to get, but the rest come easy.

Minard's Liniment Lumberman's Friend.

"Did your wife turn out to be all that you expected her to be?" "More. When I married her she was as slim as a young gazelle. Now she weighs nearly 200 pounds."

The most obstinate corns and warts fail to resist Holloway's Corn Cure. Try it.

HOW "LO" EXPLAINED IT.

In the early days of the Klondike gold-fields, the miners lived almost wholly on canned goods brought from the United States and Canada. To an old Indian who frequented the diggings, the cans were a constant surprise—the meat, vegetables and fish all amazed him.

When the first phonograph was imported, however, he had come to consider himself wise in the ways of the paleface. After listening gravely to a song by the machine, he said, with the assurance of one to whom everything is entirely clear, "He canned white man."

THE OLDEST METAL.

A recent paper presented to the Royal Institution at London in discussing the question of the metals used by the great nations of antiquity pointed out that gold was probably the first metal known to man because it is generally found native. The oldest metallic objects to which we can assign a probable date are thought to be those found in a royal tomb at Nagada in Egypt supposed to have been that of King Menes. In one of the chambers were some bits of gold and a bead, a button and a fine wire of nearly pure copper. If the tomb has been properly identified these objects are at least 6,300 years old. Nearly all the ancient gold that has been examined contains silver enough to give it a light color. It was gathered by the ancients in the bed of the Pactolus and other streams of Asia Minor.

THE LURE OF THE SEASIDE.

From time immemorial the sea has been calling the children of men. Sea-faring men are lost ashore. The dwellers of inland cities and towns hearing the call come down to enjoy the cool breezes that are found by the sea. There is always life and action, even the coming and going of the tide, the eternal restlessness have a lure. People are looking for a change of scene and new places to visit each year, and Canadians cannot do better than to spend their summer this year at Long Island Sound in the vicinity of New London, Conn. The Grand Trunk Railway System will make it easy for their patrons as a new train service will be inaugurated. A handsome booklet entitled, "The Seashore," has just been issued and can be secured for the asking, from A. E. Duff, District Passenger Agent, Toronto.

HIS BAD LUCK.

"I do believe my brother will die a bachelor. He has such bad luck. Every time he wants to marry a girl for love, she has too little money."

These Pills Cure Rheumatism.—To the many who suffer from rheumatism a trial of Parmelee's Vegetable Pills is recommended. They have pronounced action upon the liver and kidneys and by regulating the action of these organs act as an alternative in preventing the admixture of uric acid and blood that causes this painful disorder. They must be taken according to directions and used steadily and they will speedily give evidence of their beneficial effects.

TIMELY WARNING.

Stenographer—"Mr. Jones, I am about to marry—a poet!"

Employer—"Ah! Then you are going to leave us?"

Stenographer—"Oh, no. But I shall need more pay."

Minard's Liniment Co., Limited.
I was very sick with Quinsy and thought I would strangle. I used MINARD'S LINIMENT and it cured me at once.
I am never without it now.
Yours gratefully,
MRS. C. D. PRINCE.
Nauwigewauk, Oct. 21st.

"Bought a farm, eh? Pay cash for it?" "Well, I paid cash for what it was worth and gave a mortgage for the balance."

All mothers can put away anxiety regarding their suffering children when they have Mother Graves' Worw Exterminator to give relief. Its effects are sure and lasting.

In the reign of Charles II. the burning of coal was accounted a public nuisance.

Ask for Minard's and take no other.

BIGGEST RACE PROBLEM.

"Br'er Jones, does you think de devil is a black or a white man?"

"I dunno; and all I does know is —de biggest race problem is how ter keep ten yards ahead of him!"

In the year 1700 the United Kingdom produced 2,612,000 tons of coal; in 1900, 225,200,000 tons.

In Order to Find Out

to what extent the different food products are used by its millions of readers, the "Woman's World" (circulation over 2,000,000 copies monthly) recently inaugurated a most interesting coupon canvas throughout North America.

One of the questions propounded was, "What tea do you use?" and the replies received demonstrate that Lipton's Tea is the most popular of all package teas, showing its sale to be double that of its nearest competitor and over 100 per cent. more than the next two mentioned brands taken together. Surely Honest Tea is the Best Policy.

LIPTON'S TEA
GOES FARTHEST FOR THE MONEY

COLT DISTEMPER
Can be handled very easily. The sick are cured, and all others in same stable, no matter how "exposed," kept from having the disease, by using SPOHN'S LIQUID DISTEMPER CURE. Give on the tongue or in feed. Acts on the blood and expels germs of all forms of distemper. Best remedy ever known for mares in foal. 50c and $1 a bottle; $6 and $11 dozen, of druggists and harness dealers. Cut shows how to poultice throats. Our free Booklet gives everything. Largest selling horse remedy in existence—15 years. Distributors—ALL WHOLESALE DRUGGISTS.

WILLIAM'S EXCUSE.

"How does it happen that you are five minutes late at school this morning?" the teacher asked severely. "Please ma'am," said William. "I must have overwashed myself."

Trial is Inexpensive.—To those who suffer from dyspepsia, indigestion, rheumatism or any ailment arising from derangement of the digestive system, a trial of Parmelee's Vegetable Pills is recommended, should the sufferer be unacquainted with them. The trial will be inexpensive and the result will be another customer for this excellent medicine. So effective is their action that many cures can certainly be traced to their use where other pills have proved ineffective.

Wife—Did you post that letter I gave you? Hubby—Yes, dear; I carried it in my hand so I couldn't forget it, and I dropped it in the first box. I remember, because— Wife—There, dear, that will do. I didn't give you any letter to post.

Nothng lights up a girl's face like a good match.

Keep Minard's Liniment in the house.

A CONSIDERATE SON.

A certain father, whose son is an undergraduate at one of the larger colleges, has frequent occasion to remonstrate with the boy on his extravagance.

In a recent letter he sent a check for fifty dollars, but accompanied it with admonitions to lead a more economical life.

"My son," he wrote, "your studies are costing me a good deal."

To which his son replied, cheerfully:

"I know it, father, and I don't study very hard, either."

"John, do you love me?" "Yes." "Do you adore me?" "I s'pose." "Will you always love me?" "Ye—look here, woman, what have you been and gone ordered sent home now?"

Yes, Maud, dear, it is quite all right for you to accept rings from married men if you work at a telephone exchage.

WORSE THAN SOUP.

Wife (dining at restaurant) — "John, dear, can you see what those people at the next table are eating?"

Husband—"Can't see at all, but it sounds like celery."

100 PERSONS CURED OF ECZEMA

Within the past few months over 100 persons have written to the Zam-Buk Co. reporting their cure of eczema, rashes and skin diseases by Zam-Buk! Does this not prove that Zam-Buk is something different? Don't you need it in your household?

Miss Mary McCuaig, 913 St. Catherine Street W., Montreal, says: "I do not know words powerful enough to express my gratitude to Zam-Buk. Eczema broke out on my scalp and hands. The irritation of the scalp was so bad that I could not sleep or rest, and I feared I should have to have my hair cut off. On my hands the disease appeared in sore patches, the burning and itching of which drove me many times to spells of weeping. I went to the dispensary, but they referred me to a skin specialist, who said that mine was as bad a case of eczema as he had seen. He gave me some ointment, and then a second lot, but neither gave me any relief.

"I was in a very bad condition when Zam-Buk was introduced, but I soon found out that it was different from all the other remedies. I persevered with the Zam-Buk treatment, and each box did me more and more good. The irritation and smarting soon disappeared, then the sores began to heal, fresh healthy skin grew over the parts which had been sore, and I am now quite free from all traces of eczema, both on head and hands. My hair has also been saved."

Zam-Buk is also a sure cure for piles, eruptions, blood-poison, cuts, burns and all skin injuries. 50c. all druggists and stores, or Zam-Buk Co., Toronto, for price. Refuse substitutes.

Linoleums—Rugs and Wall Papers. Everything to beautify your home in our Furnishing Department.—Stewart's.

PROPERTY FOR SALE

The undersigned is offering for sale part of Lot 13, Con. 1, Usborne, situated half mile south of Exeter, containing seven and one fifth acres. There is on the premises a good frame house and barn, good well of water, about 80 apple trees and a quantity of small fruits. This is a splendid property, well situated and will be sold reasonable and on easy terms. If not sold privately on or before May 20, 1913, it will be offered by public auction with the household effects on June 1, 1913. For further particulars apply to Thos. Cameron, auctioneer, Farquhar, or on the premises to Mr. John Salter, Exeter.

A match has a head but no face; a watch has a face but no head; a river has a mouth but no tongue; an umbrella has ribs but no trunk; a tree has a trunk but no ribs; a clock has hands but no arms; the sea has arms but no hands; a rooster has a comb but no hair; a rabbit has hair but no comb. Odd, isn't it?

A Reactionary Storm Period has its center on the 6th, 7th and 8th, during which it will grow warmer, barometer will fall and more rain and blustering winds will pass eastward over the country. The Venus period will remain in force to the middle of May, causing vicious electrical storms, with sudden changes from very warm to cool, at the storm periods. Nights will be quite cool from about 8th to 11th, with possibly frost northward.

HOMESEEKERS' AND SETTLERS' SPECIAL TRAINS TO WESTERN CANADA.

Via Chicago and St. Paul, April 16th, 23rd and 30th, and every second Tuesday thereafter until Sept. 17th, inclusive. Tickets will also be on sale on certain dates via Sarnia and Northern Navigation Company. Special Train will leave Toronto 10.30 p.m. on above dates for Edmonton and points in Manitoba and Saskatchewan, stopping at all points on Grand Trunk Pacific Railway, west of Winnipeg. Through coaches and Pullman Tourist Sleepers will be carried fully equipped with bedding and porter in charge. Berths may be secured in sleepers at low rate.

This is an exceptional opportunity for those wishing to take advantage of the remarkably low one way settlers rates or round trip Homeseekers excursions, through the American cities. No change of cars.

Secure tickets, berth reservations etc. from any Grand Trunk Agent, or write A. E. Duff, District Passenger Agent, Toronto Ont.

LOCAL DOINGS.

Yesterday was May Day.

Baseball practice has commenced.

May—month of flowers and blossoms.

The auto owners are getting their cars out these days.

Mrs. Robt. Deller is confined to her bed through illness.

But the beauty that is only skin deep is better than the kind that rubs off.

Mr. Ortwein of Hensall has accepted a situation with Mr. E. Willis as barber.

Dr. Houze is moving into the dwelling he recently purchased from A. Pym on North Street.

The Jackson Manufacturing Company has closed down for a few days to take stock and to install new machinery.

People think they are charitable enough if they don't believe more than half the mean stories told on a man.

Commissioner Blasett had the roads cleaned up last week and they now present an appearance that would be hard to beat.

Rev. Blatchford of Centralia occupied the James Street pulpit very acceptably on Sunday. Rev. Yelland took the duties at Centralia.

Mr. Clarence Duplan assisted in the services of Trivitt Memorial Church on Sunday and preached very acceptably in the morning.

Mr. William Sweet had a valuable mare die on Thursday last. There seems to be an unusually large number of horses dying this spring.

Mr. Joseph May, London Road south, has disposed of his hundred acre farm in Usborne to Mr. Wm. Snell of the same township. This is one of the best farms in the township of Usborne.

William Lightfoot, while working at the Gillis Sawmill on Friday, unfortunately got crushed against a pulley and had the muscles of his back and arm torn and bruised considerably. He will be off duty for a time.

Among the graduates in medicine at London are, S. Coulter of Hensall, G. G. Clegg and M. Shipley of Clinton, and J. McRae of Ilderton. Beattie Martin of London, formerly of Exeter, passed in all the subjects in the second year course.

The public are now prohibited from using Canadian Post Offices as advertising bureaus. The Post Office department has issued an order to the effect that no advertisement or notice of any character will be allowed to be posted inside or outside the buildings.

Sunday next being set apart as Missionary Campaign Sunday in the Diocese of Huron a general exchange of clergymen will take place. Rev. Collins will preach in Wingham and Rev. Lowe of Lucan will occupy the pulpit of the Trivitt Memorial, morning and evening.

This town has long enjoyed the distinction of being one of the best markets in the country. This distinction has been gained and maintained by paying the top of the market, or a little more for produce and selling merchandise as low, or a little lower than it can be bought elsewhere.

Hensall's oldest resident passed away recently in the person of Mrs. John Welsh, formerly of Exeter, in her 90th year. She was strong and active up to a short time ago. She was born in Devonshire, England, in 1828. She grew up on the old land and was married to John Welsh who predeceased her 38 years. About six years after his death she came to Canada and settled in Exeter, where she resided till about 7 years ago when she went to Hensall and has since resided with her sons, William and Richard. The funeral took place to Exeter Cemetery.

DRESSES & SUITS CUT TO MEASURE

Miss Mary Tom, having recently completed a course at Toronto in one of the best cutting schools in America, is prepared to cut to measure any style of dress or suit. Ladies who make their own dresses will save time and material by using a pattern cut from their actual measures. Miss Tom has also opened Dressmaking Rooms at her residence on Main street, South, where she will be pleased to meet her former patrons and any new ones. Dressmaking rooms at side entrance.
SHOP CLOSED EVENINGS.

COURT HARMONY INSTALL.—At the last regular meeting of Court Harmony No. 61, Exeter, held Monday night, the following officers were duly installed by Dist. Chief Ranger, W. J. Taylor, assisted by High Marshall, John McLaughlin;—Ed. Dignan, C. R.; Jos. Harvey, V. C. R.; F. W. Gladman, Rec. Sec'y; R. N. Rowe, Fin. Sec'y; T. H. McCallum, Treas.; Wm. Harding, Chap.; Geo. Hill, S. W.; Chas. Northcott, J. W. Stephen Powell, S. B.; Willis Powell, J. B. F. W. Gladman was appointed representative to the High court.

HIGH QUALITY FLOUR

We hear a good deal these days about building up to a standard, not down to a price. Model Flour is a splendid example.

The popularity of our brand is due to its superior qualities. Not a stone is left unturned to make MODEL the best flour. We have a good assortment of feed and lots more coming.—HARVEY BROS.

YOUNG LIFE CUT SHORT—The death occurred on Wednesday morning at 3 o'clock of Miss Doris, daughter of Mrs. Mason Phillips, at the family residence, John Street, Exeter, at the age of 12 years, 2 months. Deceased had been ill since last January of lung trouble and the decline had been slow but sure. She was a bright and winsome girl and will be much missed in the home. The family came to Canada less than two years ago from Yorkshire, Eng., and after residing in London a few months came to Exeter to live. Besides the mother deceased is survived by a sister, Miss Hilda Alice, and a brother, Mr. R. Phillips, organist of the James Street church, Exeter; a sister, Mrs. H. B. Smith of St. Thomas, and five brothers in England. The sympathy of the community is extended to the bereaved. The funeral will take place to the Exeter cemetery on Friday afternoon at 2 o'clock.

Mr. Henry Huston was in London on Monday.

Miss Ida Cottle, who has been in London for some months has returned home.

Mr. Thos. Elston returned Thursday from a three weeks' visit with friends in Hensall.

Mr. John Mallett was in Adelaide Sunday to see a little niece, daughter of Mr. and Mrs. Nickles, who is very ill.

Mr. L. H. Dickson is in Goderich this week on legal business in connection with the alleged license bribery case.

Dr. Folfitt, who visited his parents here for several days, left Monday on his return to his home in North Vancouver, B.C.

Misses Eva Carling and Evelyn Gill, nurses of New York and Toledo, respectively, arrived here last week, being called home owing to the illness of the former's sister, Grace Carling, who is now improving.

Mr. Al. Down of St. Paul, Minn., spent the past week renewing acquaintances in Exeter. Mr. Down is an Exeter Old Boy, who has been away for about 20 years, and he remarked that there are only a few of people whom he recognized. He is in the Real Estate business and is largely interested in Mexico.

A brave man may not run from danger, but he may dodge without loss of reputation.

RUGS, WALL PAPERS AND LINOLEUMS—We have put in a beautiful line of Rugs and Linoleums, and carry a large number of samples of Wall Papers, which we can obtain for you at shortest notice. We don't believe that you can find a better all round place to fit out the home than right at this store. JAS. BEVERLEY, the leading funeral director and furniture man, opposite Commercial Hotel.

HIGH QUALITY FLOUR

We hear a good deal these days about building up to a standard, not down to a price. Model Flour is a splendid example.

The popularity of our brand is due to its superior qualities. Not a stone is left unturned to make MODEL the best flour. We have a good assortment of feed and lots more coming.—HARVEY BROS.

TWENTY-FIFTH YEAR | EXETER, ONTARIO, THURSDAY, MAY 9, 1912. | SANDERS & CREECH

Local Items

Mr. Jas. Walters returned from the Soo last week.

Mr. Robert Kelland of London spent Saturday in town.

Mr. James Handford and daughter, Miss Annie, returned Monday evening from Toronto, where the former attended the horse show.

Miss Fanny Bawden of London, Eng., arrived here on Thursday last and will spend a few weeks with relatives, the guest of her brother, Mr. Peter Bawden.

Messrs. Percy Gillies, Fred Bawden, C. Heywood and Gerald Hurdon were in London Monday. Gerald has been offered a position as sign writer in the city and will accept it.

Mrs. J. Willis Powell is on the sick list.

Mr. Harry Parsons of London spent Sunday here.

Mr. Robert Leathorn of London is in town this week.

I. R. Carling and S. G. Bawden were in London Monday.

Miss Risdon of London visited Mrs. W. J. Heaman part of the week.

Mrs. Weidenhammer was called to Streetsville last week owing to the illness of her father.

Mr. Chas. Adams of Calgary arrived here last week to visit Mrs. Adams, who has been the guests of her mother, Mrs. D. Johns, for some weeks.

Miss Fanny Bawden, daughter of the late William Bawden, who is on a tour around the world, sailed for Vancouver, B.C., from Sidney, Australia, on May 8.

Chas. Grafton of Wiarton was in town this week.

Gordon Taylor of Clinton was home over Sunday.

Dr. L. L. Follick of St. Marys was in town Sunday.

Mr. Frank Wood returned Saturday from a month's trip west.

Miss Mary Balkwill was in Parkhill and Alma Craig last week.

Chester Coulter and a friend motored over from Stratford Sunday.

Mr. Well Smith of Acton spent a day with W. J. Statham. Mr. Smith and Mrs Statham spent Tuesday in Seaforth.

Mr. and Mrs. Chas. Rinshed of Detroit are visiting at the home of Mr. and Mrs. Isaiah Hall, Exeter North.

Mrs. Wm. Taylor of New York arrived a few days ago to wait on her sister, Mrs. Wm. Delbridge of Usborne, who still continues quite ill.

Mrs. D. W. Collins and family returned Thursday from their visit with relatives at Birr, the children having recovered from their attack of measles.

Mrs. Ogden is undergoing an operation in London this week.

Sandy Bawden expects his new auto, "A Reo" five passenger car, this week.

Frank Mallett, jr., moved this week from Simcoe Street to the residence of the late Mrs. Geo. Eacrett on Main-st.

Division Court was held in the Town Hall Wednesday when Judge Holt disposed of a minor case and a couple of judgment summons.

Dr. Roulston and J.M. Southcott supplied for Rev. Millyard on Sunday in Hensall; and Russell May will supply for Rev. Hicks in Crediton on Sunday.

The Women's Institute desire the assistance of as many of the men as can come at their tree planting bee at the river side on Friday afternoon next, from 2 to 5 o'clock.

A Snowflake correspondent says.— We regret to learn that J. F. Drew is under the weather. Dr. Corbett has been in attenndance. We hope he will soon be around again.

The men who in the final accounting find the largest balance to their credit in the book of life, are those who were more concerned about what they owed to others than about what others owed to them.

Mr. Fred. Mills, while throwing brick to a scaffold at the new house being erected by Messrs. Snell and Marchand on Tuesday, one of the brick fell off, striking him on the head, inflicting an ugly scalp wound which took several stitches to close.

A. M. WRIGHT DIES— Ammi W. Wright, one of the best known men in Michigan, and well-known to many here, and who married a former Exeter lady, Miss Anna Case, daughter of the late William Case, died at his home in Alma, Mich., Sunday last. Although Mr. Wright had been in poor health since an injury he sustained about two years ago in a fall from his carriage, his death was due to a stroke of paralysis he suffered about one week ago. Michigan in all her history has produced no stronger character in the commercial world than Ammi W. Wright, who after 89 years of strenuous life, acquired a fortune estimated at more than $40,000,000. Endowed by nature with a masterful mind, supported and strengthened by a hardly physique both of which by surroundings were developed to the highest types of perfect manhood, he stood during his remaining years, a true case of the survival of the fittest. Mr. Wright came from the most rugged of New England stock. He was born in Vermont in 1822, and made that state his home until 1850.

On March 6, 1848, Mr. Wright was married in Rochingham, Vt., to Miss Harriet Barton, a native of that state. George N. Annie B., Caroline S., and Arthur P. Only one survives, Sarah H., now the wife of Dr. Lancashire. Mrs. Five children were born. Sarah H. Wright died June 30, 1884, and on Dec. 21, 1885, Mr. Wright married Miss Anna Case, of Exeter.

STEPHEN COUNCIL.

The council met in Crediton, on the 6th of May. All members present. The minutes of the previous meeting were read and adopted.

Elliott—Kellerman—"That the Assessment Roll as filed with the Clerk, be accepted and that the Assessor, Joseph Gunnan, be paid his salary"—Carried.

Finkbeiner—Yearley—"That By-law No 191 being a By-law appointing the Pathmaster, Pound-keepers and Fence viewers, having been read the third time be passed and signed by the Reeve and Clerk and the seal of the Corporation attached thereto.—Carried.

Kellerman—Elliott—"That By-law No. 192 being a By-law to appoint Henry F. Elber Charles Steinhagon and Thomas Webb, inspectors to enforce what is commonly known as "The Cattle By-law" with their divisions; Con. 1 to Con. 9 inc; Con. 10 to Con. 17 inc; and Con 18 to the western boundary of the Township respectively, having been read the third time, be passed and signed by the Reeve and Clerk and the seal of the Corporation attached thereto'—Carried.

Elliott—Kellerman—"That Alonzo Hodgins be appointed overseer of the construction of the concrete abutments and floor of the small bridge on the L. R. E Concession and Councillor Finkbeiner the abutments and floor of the bridge on the 21st Concession.—Carried.

Yearley—Elliott—"That the Township Court of Revision of the Assessment Roll be held in the Town Hall, Crediton on Monday, the 27th day of May next at 10 a.m.—Carried.

It is resolved that Gravel Contracts shall be let at the next Council meeting at 2 p.m.

A large number of accounts were passed which will appear in next issue.

The council adjourned to meet again the 27th of May next at 10 a.m.

Henry Elber, Clerk.

THE CENTRE HURON LICENSE INVESTIGATION.

Much conflicting evidence was heard in the alledged bribery case (in connection with the liquor licenses at Goderich last week Chairman Patterson swearing that Farr, an hotel keeper of Goderich, offered him $300 to protect his license, and Farr swearing that Patterson demanded $500 to do the trick. The department is now in possession of the evidence and interesting developments were soon evident. As a result of the investigation the citizens of Goderich have presented a petition to the council asking that the by-law to deduce the number of licenses be rescinded. The reasons advanced are that reduction does not decrease the sale of liquor, and does reduce the accommodation,

The report of Commissioner Eudo Saunders was quickly acted upon by Hon. W. J. Hanna, Provincial Secretary, with the result that License Inspector Asquith and Chairman Patterson have been removed from office. The latter had resigned previously and his resignation is accepted and Mr. Hanna claims that Mr. Asquith's usefulness had gone, since he said he had been offered a bribe and had not reported to the department.

W. M. S. CONVENTION

Quite a number of Exeter ladies attended the 17th annual convention of the Exeter District Women's Missionary Society at Clandeboye on Thursday last. A large number were present and a lengthy program given during the morning, afternoon and evening sessions. The usual reports showing progress were received. Musical selections were given by the Clandeboye choir, Granton Auxiliary, Mrs. Orme of Lucan and Mrs. E. Bice, and addresses by Miss Vergo, a returned missionary from China, and Miss E. McKenzie of London The Clandeboye ladies furnished refreshments. The next meeting will be held in Parkhill.

MOUNT CARMEL.

At Goderich, on April 23rd, Miss Nora Lennon of this place was happily married to Simon Stiles of Seattle, Wash. The bride's many friends here wish both herself and groom many happy years of wedded life.—A number from here attended the ball at Exeter Friday. —Sandy Greenlee is all smiles at the arrival of a son.—Mr. Patrick Buckley and sister Anna of Mooresville called on friends here Monday.—Mrs. Biggan and little daughter of Niagara visited her mother, Mrs. Lennon, for a few days last week.—Mr. T. J. Hall, our popular merchant and postmaster, was on the sick list for a few days last week. —Mrs. Ryan and daughter Misses Annie and Margaret, and Mrs. Sullivan of London attended the funeral of the late Hugh Ryan on Monday.

It becomes our sad duty to chronicle the death of Hugh Ryan, who died on May 4th, at the home of his parents, Mr. and Mrs. Thos. Ryan, aged 34 years. Deceased had been ill for several months of lung trouble and his decline had been slow but sure. He spent the past nine months at Gravenhurst and three weeks ago he was obliged to return to his home incurable. Hugh was a young man of sterling character, He leaves to mourn his demise his sorrowing parents, seven brothers and three sisters, besides a host of friends, who have our sympathy. The six brothers acted as pall bearers. The remains were interred in the R.C. cemetery here on Monday at 11 a.m.

The many friends of Mr. Timothy Coughlin are pleased to know that he is rapidly improving at St. Joseph Hospital and will soon be able to return to his home.

WHALEN.

Lloyd Ashton of London visited his grandfather, Mrs. Jas. Gunning, over Sunday.—Mr. and Mrs. John Wren of Planshard spent Sunday at Mr. Albert Gunnings.—The annual meeting of the Sunday School was held last Tuesday evening, the pastor, Rev. Blatchford, presiding. The election of officers resulted as follows,—Supt., J. D. Hazelwood; Associate-Supt., Frank Gunning; Sec'y, John Wright; Treas., John Hodgson; Organist, Verda Morley. Reports from the various committees showed the school advancing in every department of the work.—Quite a number in this vicinity are done seeding, the ground working very good. this spring.

HARPLEY

Messrs. Patrick of Yorkton, Sask., are visiting their sister, Mrs. Roy Sherritt —Miss Edith Taylor called on her friend, Miss V. M. Sherritt Saturday. —Miss Mabel Green who has been helping Mrs. Thos. Love for a few weeks, returned to her home at Brewster Saturday.—Miss Muriel Faills of the Parkhill High School, spent Sunday at home.

CLANDEBOYE

The Women's Institute held its regular meeting at the home of Mrs. Ansley Neil.—Mr. Ben Seale of St. Marys spent Sunday with Mr. E. Bice.—Mr. Doyle of Exeter was in town purchasing horses to ship West.—Mrs. Addison is spending a few days with relatives here.—Mr. E. Murdy is spending a few days with relatives in London.

Mr. Wesley Hessey and Austin Bice spent Saturday with friends in Exeter. —Mr. Geo. Adamson of Strathroy spent a few days in town recently.—Rev. Sage of London conducted the services in St. James' Church on Sunday.—Mr. R. G. Seldon of Exeter intends rebuilding the grain store here in a few days. —Mr. Roy Simpson has just received a consignment off ence posts from Wisconsin to dispose of.—J. R. Atkinson, who for the past year has been assistant at the station here, has received a position on the G.T.P. and will take up his duties

SAINTSBURY

Mr. E. B. Smyth left here for Alberta one day last week. He intends remaining for sometime.—Miss Cora Washburn of Guelph visited around here for a few days last week.—The people of St. Patrick's church intend holding a concert and supper on May 24th in Racey Memorial Hall. Watch for bills in the near future.—Mr. and Mrs. Geo. Godbolt of Sunshine visited on the Townline on Sunday last.—Farmers are about finished seeding around here.—Vera Davis who has been laid off from school with measles for sometime, is able to be out again.—Heber Davis and Vera Hodgson are both laid up with measles but are doing well.

USBORNE.

School report of S. S. No. 1, Usborne —Entrance—E. Rowcliffe, W. Dougal, C. Harris, J. Dougal, M. Strang, O. Rowcliffe, E. Harvey. IV. Class—M. Dew, F. Jarrott, L. Selves, K. Sanders, H. Neil, V. Bell, R. Dick. III. Class—M. Dougal, C Moir, C. Neil, E. Cann, I. Mitchell, L Oke, L Neil, R Moir. Sr. II. W Selves, L Purdy, A Strang, G Dew, T Dougall. Jr. II., P Harris, E Mitchell, H Wood, M Selves, E Cudmore. Sr.Pt. 1, J Stacey, M Purdy; Pt. I, A., A.Moir Pt. I., B., C Down, F Harvey, V Dunn, E Neil, J Oke. Average attendance 38. —W. B. Rydall, teacher.

BIRTHS

McGillicuddy—In Exeter, May 7th, to Dr. J. E. and Mrs. McGillicuddy, a son.

ONLY A MONTH;

OR, A CURIOUS MYSTERY EXPLAINED.

CHAPTER II.—(Continued).

"I would run over for the Sunday, perhaps, that would be as much as I could manage, but Frithiof will be there to take care of you. What should you want with a careworn old man like me, now that he is at home again?"

"You fish for compliments, little father," said Sigrid, slipping her arm within his and giving him one of those mute caresses which are so much more eloquent than words. "But, quite between ourselves, though Frithiof is all very well, I sha'n't enjoy it a bit without you."

"Yes, yes, father, dear," said Swanhild, "indeed you must come, for Frithiof he will be just no good at all, he will be sure to dance always with the pretty Miss Morgan, and to row her about on the fjord all day, just as he did those pretty girls at Norheimsund and Faleide."

The innocent earnestness of the child's tone made them all laugh, and Frithiof vowing vengeance on her for her speech, chased her round and round the garden, their laughter floating back to Herr Falck and Sigrid as they entered the house.

"The little minx!" said Herr Falck, "how innocently she said it too. I don't think our boy is such a desperate flirt, though. And as far as I remember there was nothing more than a sort of boy and girl friendship at either place."

"Oh, no," said Sigrid, smiling. "Frithiof was too much of a schoolboy, every one liked him and he liked every one. I don't think he is the sort of man to fall in love easily."

"No; but when it does come it will be a serious affair. I very much wish to see him happily married."

"Oh, father! surely not yet. He is so young, we can't spare him yet."

Herr Falck threw himself back in his arm-chair, and mused for a few minutes.

"One need not necessarily lose him," he replied, "and you know, Sigrid, I am a believer in early marriages—at least for my son; I will not say too much about you, little woman, for, as a matter of fact, I don't know how I should ever spare you."

"Don't be afraid, little father; you may be very sure I sha'n't marry till I see a reasonable chance of being happier than I am at home with you. And when will that be, do you think?"

He stroked her golden hair tenderly.

"Not just yet, Sigrid, let us hope. Not just yet. As to our Frithiof, shall I tell you of the palace in cloud-land I am building for him?"

"Not that he should marry the pretty Miss Morgan, as Swanhild calls her?" said Sigrid, with a strange sinking at the heart.

"Why not? I hear that she is a charming girl, both clever and beautiful, and indeed it seems to me that he is quite disposed to fall in love with her at first sight. Of course, were he not properly in love I should never wish him to marry, but I own that a union between the two houses would be a great pleasure to me—a great relief."

He sighed, and for the first time the anxious look in his eyes attracted Sigrid's notice.

"Father, dear," she exclaimed, "won't you tell me what is troubling you? There is something, I think. Tell me, little father."

He looked startled and a slight flush spread over his face, but when he spoke his voice was reassuring.

"A business man often has anxieties which can not be spoken of, dear child. God knows they weigh lightly enough on some men; I think I am growing old, Sigrid, and perhaps I have never learned to take things so easily as most merchants do."

"Why, father, you were only fifty last birthday, you must not talk yet of growing old. How do other men learn, do you think, to take things lightly?"

"By refusing to listen to their own conscience," said Herr Falck, with sudden vehemence. "By allowing themselves to hold one standard of honor in private life and a very different standard in business transactions. Oh, Sigrid! I would give a great deal to find some other opening for Frithiof. I dread the life for him."

"Do you think it is really so hard to be strictly honorable in business life? And yet it is a life that must be lived, and is it not better that such a man as Frithiof should take it up—a man with such a high sense of honor?"

"You don't know what business men have to stand against," said Herr Falck. "Frithiof is a good, honest fellow, but as yet he has seen nothing of life. And I tell you, child, we often fail in our strongest point."

He rose from his chair and paced the room; it seemed to Sigrid that a nameless shadow had fallen on their sunny home. She was for the first time in her life afraid, though the fear was vague and undefined.

"But there, little one," said her father, turning toward her again. "You must not be worried. I get nervous and depressed, that is all. As I told you, I am growing old."

"Frithiof would like to help you more if you would let him," said Sigrid, rather wistfully. "He was saying so just now."

"And so he shall in the autumn. He is a good lad, and if all goes well, I hope he will some day be my right hand in the business, but I wish him to have a few months' holiday first. And there is this one thing, Sigrid, which I can tell you, if you really want to know about my anxieties."

"Indeed I do, little father," she said, eagerly.

"There are many matters which you would not understand even could I speak of them; but you know, of course, that I am agent in Norway for the firm of Morgan Brothers. Well, a rumor has reached me that they intend to break off the connection and to send out the eldest son to set up a branch at Stavanger. It is a mere rumor and reached me quite accidentally. I very much hope it may not be true, but there is no denying that Stavanger would be in most ways better suited for their purpose; in fact, the friend who told me of the rumor said that they felt now that it had been a mistake all along to have the agency here, and they had only done it because they knew Bergen and knew me."

"Why is Stavanger a better place for it?"

"It is better because most of the salmon and lobsters are caught in the neighborhood of Stavanger, and all the mackerel, too, to the south of Bergen. I very much hope the rumor is not true, for it would be a great blow to me to lose the English connection. Still, it is not unlikely, and the times are hard now—very hard."

"And you think your palace in cloud-land for Frithiof would prevent Mr. Morgan from breaking the connection?"

"Yes; a marriage between the two houses would be a great thing; it would make this new idea unlikely if not altogether impossible. I am thankful that there seems now some chance of it. Let the two meet naturally and learn to know each other. I will not say a word to Frithiof, it would only do harm; but to you, Sigrid, I confess that my heart is set on this plan. If I could for one moment make you see the future as I see it, you would feel with me how important the matter is."

At this moment Frithiof himself entered, and the conversation was abruptly ended.

"Well, have you decided?" he asked, in his eager, boyish way. "Is it to be Ulvik or Balholm? What! You were not even talking about that. Oh, I know what it was, then. Sigrid was deep in the discussion of to-morrow's dinner. I will tell you what to do, abolish the romekolle, and let us be English to the backbone. Now I think of it, Mr. Morgan is not unlike a walking sirloin with a plum-pudding head. There is your bill-of-fare, so waste no more time."

The brother and sister went off together, laughing and talking; but when the door closed behind them the master of the house buried his face in his hands, and for many minutes sat motionless. What troubled thoughts, what wearing anxieties filled his mind, Sigrid little guessed. It was after all a mere surface difficulty of which he had spoken; of the real strain which was killing him by inches, he could not say a word to any mortal being, though now in his great misery he instinctively prayed.

"My poor children!" he groaned. "Oh, God, spare them from this shame and ruin which haunts me! I have tried to be upright and prudent; it was only this once that I was rash. Give me success for their sakes, oh, God! The selfish and unscrupulous flourish on all sides. Give me this one success. Let me not blight their whole lives."

But the next day, when he went forward to greet his English guests, it would have been difficult to recognize him as the burdened, careworn man from whose lips had been wrung that confession and that prayer. All his natural courtesy and brightness had returned to him; if he thought of his business at all he thought of it in the most sanguine way possible, and the Morgans saw in him only an older edition of Frithiof, and wondered how he had managed to preserve such buoyant spirits in the cares and uncertainties of mercantile life. The two o'clock dinner passed off well; Sigrid, who was a clever little housekeeper, had scouted Frithiof's suggestion as to the roast beef and plum-pudding, and had carefully devised a thoroughly Norwegian repast.

"For I thought," she explained afterwards to Blanche, when the two girls had made friends, "that if I went to England I should wish to see your home-life just exactly as it really is, and so I have ordered the sort of dinner we should naturally have, and did not, as Frithiof advised, leave out the romekolle."

"Was that the stuff like curds and whey?" asked Blanche, who was full of eager interest in everything.

"Yes; it is sour cream with bread-crumbs grated over it. We always have a plateful each at dinner; it is quite one of our customs. But everything here is very simple, of course, not grand as with you; we do not keep a great number of servants, or dine late, or dress for the evening; here there is nothing"—she hesitated for a word, then in her pretty foreign English, added, "nothing ceremonious."

"That is just the charm of it all," said Blanche, in her sweet, gracious way. "It is all so real and simple and fresh, and I think it was delightful of you to know how much best we should like to have a glimpse of your real home-life instead of a stupid party. Now mamma cares for nothing but just to make a great show, it doesn't matter whether the visitors really like it or not."

Sigrid felt a momentary pang of doubt; she had fallen in love with Blanche Morgan the moment she saw her, but it somehow hurt her to hear the English girl criticize her own mother. To Sigrid's loyal nature there was something out of tune in that last remark.

"Perhaps you and your cousin would like to see over the house," she said, by way of making a diversion. "Though I must tell you that we are considered here in Bergen to be rather English in some points. That is because of my father's business connection with England, I suppose. Here you see, is his study, he has a real English fireplace; we all like it much better than the stoves, and some day I should like to have them in the other rooms as well."

"But there is one thing very un-English," said Blanche. "There are no passages; instead, I see, all your rooms open out of each other. Such numbers of lovely plants, too, in every direction; we are not so artistic, we stand them all in prim rows in a conservatory. This, too, is quite new to me. What a good idea!" And she went up to examine a prettily worked sling fastened to the wall, and made to hold newspapers.

She was too polite of course to say what really struck her; that the whole house seemed curiously simple and bare, and that she had imagined that one of the leading merchants of Bergen would live in greater style. As a matter of fact, you might, as Cyril expressed it, have bought the whole place for an old song, and though there was an air of comfort and good taste about the rooms and a certain indiscribable charm, they were evidently destined for use and not for show, and with the exception of some fine old Norwegian silver, and a few good pictures Herr Falck did not possess a single thing of value.

Contrasted with the huge and elaborately furnished house in Lancaster Gate with its lavishly strewn knickknacks, its profusion of all the beautiful things that money could buy, the Norwegian villa seemed poor indeed, yet there was something about it which took Blanche's fancy.

(To be continued).

Perpetual motion is easy enough with a scandal that once starts.

A woman doesn't consider the wearing of diamonds vulgar—unless she hasn't any.

Fond Mother (to teacher)—"Don't you think my boy is bound to make his mark?" Teacher (despairingly)—"I'm afraid so. It seems impossible for him to learn to write."

A little boy, who had just recently mastered his catechism, confessed his disappointment in the following terms:—"Say, dad, I obey the fifth Commandment, and honor my father and mother, yet my days are not a bit longer in the land, for I'm put to bed every night at seven o'clock just the same."

BOVRIL

renews the blood, creates nervous energy, builds up healthy muscle.

On the Farm

THE GRASS YIELD.

Farmers who content themselves with two tons or less cannot understand how yields of three or four tons, or even more, are obtained. There are, however, four chief essentials, a smooth surface, with even, steady grade, thorough preparation of the soil, an abundance of good, healthy seed and plenty of fertility and to which might be added the proper amount of moisture, writes Mr. R. B. Rushing.

Where land is stumpy or rocky, it may be considerable expense to remove them, but to obtain the greatest amount of grass it must be done. The rocks must either be sunk or hauled away and the surface smoothed so as to give a gentle grade. A little depression where the water can stand may cause a patch of grass to die out and a few patches will kill a hundred pounds of hay.

The same with stumps or bush thickets her and there and they soon cut down the yield.

After this thorough grading the land is thoroughly fitted. This does not mean just plowed and harrowed in the ordinary way. I prefer the use of a cut-away disc, which does the work just the opposite to the turning plow.

The turning plow turns the furrow slice over, leaving the hard upper soil at the bottom. The harrowing which follows simply works over the soil which has been turned to the top, while the surface soil remains untouched.

The cut-away, on the other hand, tosses or throws the soil up instead of turning it over. At the first sight it means to leave the ground rough and in poor condition, but a little thought will show the object of it.

We do not want to turn the furrow over, for this leaves practically half the soil undisturbed by the harrow and most of the weed seeds and grass roots are at the bottom, where they will not be destroyed by ordinary tillage.

They are, of course, hidden from view, but later will be sure to grow and injure the new seeding of grass. With the cut-away, the soil is tossed up again and again, thus letting the air and the sun into it while many grass and weed roots will be thrown up where the sun will destroy them.

This continued working of the soil with the cut-away clears the soil of foul stuff and gives the new seeding a chance. The soil should be worked over with the cut-away and the smoothing harrow many times, not all at once, but continued through July and August. In this way, when ready to seed the soil is certainly as fine as an ash heap.

The seed then should be put on carefully and accurately, so as to have every square inch of surface covered, thus having two blades of grass where one formerly was.

I see many farmers seem to be content with six quarts of timothy and four quarts of red clover to the acre, but I have found it most profitable to use from ten to twelve quarts of timothy and about the same of red top and six quarts of clover.

The reason for so doing is that often this intensive soil culture is so fine in result that everywhere that a seed can fall should be covered, thus securing grass on every particle of the soil.

The red top is added because it is a tall, slender grass which grows well between the salks of timothy and will add from one-half to a ton of hay to the yield.

It would not pay to use this heavy seeding where the land was left lumpy or stony, for unless every inch of the soil is well prepared a good share of the seed will be wasted.

After the soil is perfectly fitted and the seed is thoroughly sown, the question of plant food must be settled if it has not been previously seen to, as it should have been before seeding. The thicker the seed the more plant food is required to make a full crop.

First, we must remember that five tons of hay will remove from the soil nearly 100 pounds of nitrogen, 25 of phosphoric acid and about 130 of potash.

A very good mixture of the commercial fertilizer is to use one third of each nitrate of soda, fine ground bone and muriate of potash. This, however, should be regulated according to the needs of the particular soil. Some will need more of one and some more of another.

The questioon frequently asked is: Why is the large amount of potash necessary? No one who has ever used fertilizers on grass need be told that nitrogen gives the grass a rich, green color and makes it grow very rapidly.

I, for one, have never been able to grow merchantable hay without plenty of potash. The grass would grow, but it would not stand up so as to cut with the mower.

The potash gives the strength to the stems so that the timothy and red top do not lodge or fall down before cutting. With a thin crop of grass this would not make so much difference, but when one starts out to raise four tons or more of hay on an acre of land at one cutting every stalk of grass must stand up straight.

Let it once go down and nothing can save it, for its very thickness will make a heavy mat which will ruin the hay.

Farmers who expect to grow heavy crops of grass should remember this and always use potash freely, especially when nitrogen is used.

Avarice is the only kind of ice that will not melt.

YOUR GUARANTEE OF QUALITY

"SALADA"

on a sealed lead package of Ceylon Tea, is your safeguard and guarantee.

"SALADA" means freshness, purity, exquisite aroma, delightful flavor.

"SALADA" means purity, healthfulness, satisfaction.

HANDS UP!

"You say you were held up this morning by a footpad with a revolver. At what time?"

"Five minutes to one."

"How can you fix the time so precisely?"

"Because I could see the church clock, and I noticed that its hands were exactly in the same position as my own."

"I understand that he was critically ill." "He was as soon as he became convalescent." "As soon as he became convalescent?" "Yes. He was dangerously ill, and then as soon as he became convalescent he became so critical there was no pleasing him."

Well, Well!

THIS is a HOME DYE that ANYONE can use

I dyed ALL these DIFFERENT KINDS of Goods with the SAME Dye.

I used

DYOLA

ONE DYE FOR ALL KINDS OF GOODS

CLEAN and SIMPLE to Use.

NO chance of using the WRONG Dye for the Goods one has to color. All colors from your Druggist or Dealer. FREE Color Card and STORY Booklet 18. The Johnson-Richardson Co., Limited, Montreal.

Refined to absolute purity—sealed tight and protected from any possible contamination—

Redpath

Extra Granulated Sugar

in this new 5-Pound Package is the cleanset, purest sugar you can buy. Each Package contains 5 full pounds of sugar.

Ask your Grocer for it.

Canada Sugar Refining Co. Limited.

MAXWELL'S

HIGH SPEED CHAMPION

Easiest running and most satisfactory washing machine made in Canada. Can be worked with side crank as well as top lever. Red Cypress Tub and the whole top opens up. Wash day is the easiest day of the week when you wash with the Maxwell "High Speed" Champion.

JEWEL FOOD CUTTER

is just what you need for your kitchen. So much easier, quicker and more convenient than cutting up meat, etc., with a knife.

"Jewel" is superior in every way to imported food choppers, and being made in Canada, costs less.

FAVORITE CHURN

makes the most delicious butter you ever tasted. It's real "quality" butter—that is a pleasure to eat.

Both hand and foot levers and roller bearings, enable a child to churn with the "Favourite". All sizes from ½ to 30 gallons

Write us for Catalogues, if your dealer does not handle these household necessities.

APRIL FIRE LOSS $1,355,055

In Twenty Cases Conflagrations Caused Damage Exceeding $10,000

A despatch from Toronto says: Fifteen lives were lost and damages to the amount of $1,355,055 was caused by fires in Canada during April, according to the estimates made by the Monetary Times. The losses due to fires in March last and in April, 1911, were 24 lives and $2,261,414, and 20 lives and $1,317,900 respectively. The property loss caused by conflagration in 1910 was $23,593,315; in 1911 it was $21,459,575; and in the first four months of 1912 it has been $8,259,272. During April there were twenty fires which caused losses exceeding $10,000 each, and the largest conflagrations took place at Vancouver, Victoria, Toronto, Fort William, and Winnipeg. Three big fires took place in this city.

The Monetary Times' summary shows that the structures damaged or destroyed during the month were: Twenty-two residences, eight stores, five warehouses, three business blocks, two stations, two lumber mills, two iron works, two factories, two churches, two stables, two picture shows, two boathouses, and one each of the following: Flour mill, drill-shed, police post, pool-room, hotel, art gallery, greenhouse, facing mill, sampling plant, rolling mill, skating rink, kiln, office building, motor works, elevator. There were also 30 head of cattle, nine horses, 466 chickens, 16,000 bushels of wheat and oats, 700 barrels of potatoes, harness, a street car, an automobile, and a caboose. Three of the fires were attributed to lamp explosions, two each to defective flues, defective wiring, incendiarism, one each from motor blowing out, asphaltum igniting, sparks from an engine, matches, and many were of unknown origin.

The number of deaths as a result of fires was 77 during the first four months of the year. The number in 1911 was 317, and in 1910 it was 256.

A PEACEFUL DEATH.

Ship's Surgeon Contradicts Statements as to Terror on Faces.

A despatch from Halifax says: Dr. Thomas Armstrong, surgeon on the Mackay-Bennett, contradicted on Wednesday night the report published that the faces of the dead were "distorted with terror" when found. He said: "I was on duty on the deck during the recovery of 306 bodies, and with the exception of about ten bodies that had received serious injury, their faces were calm and peaceful; in fact, so peaceful that it was difficult to realize that they were dead. Some had their arms folded and legs crossed, as if they were taking rest. For the benefit of the very sympathetic public who may have been misled by such statements, I may safely say that a majority died a peaceful death, and the minority were killed instantaneously. Consequently relatives and friends who suffered from the disaster have this consolation that the departed ones did not suffer."

GOLD MINERS QUIT WORK.

54,000 Go Out as a Protest Against Shooting of Companions.

A despatch from St. Petersburg says: Fifty-four thousand workmen in the Lena gold-fields have struck as a protest against the shooting down of miners by soldiers on April 17. The Minister of Commerce stated in the Douma Thursday that the Government would conduct a comprehensive enquiry into the deplorable affair. One hundred and seven gold miners were killed and 80 wounded in a fight with Russian soldiers at the Lena gold mining workings, April 17. No details of the fighting or its cause have been received.

WAS BURNED TO DEATH.

Famous Nova Scotia Hunter Perished in His Barn.

A despatch from Truro, N.S., says: Ralph McCabe, a well-known resident of Greenfield, near Truro, and one of the famous hunters of this country, with a record of nearly 100 moose, was burned to death in his barn early Wednesday morning along with his stock and most of the contents of the barn.

BIG BUILDING BOOM.

Permits Issued in Brantford During April Totalled $281,655.

A despatch from Brantford says: During the past month this city broke all previous records in regard to building permits, the total valuation reaching $281,655. This is an increase of $220,090 over April, 1911. For the first four months this year, permits have issued valued at $436,615.

MINERS MAY STRIKE.

Anthracite Workers Have Rejected the Proposed Agreement.

A despatch from New York says: The Conference Committee of the anthracite mine workers turned down the tentative agreement accepted by their own sub-committee and the sub-committee of the anthracite operators at the meeting of the full conference committees of the anthracite operators and the mine workers which was held on Thursday. The indirect recognition of the union in the appointment of a Grievance Committee for every mine, as set forth in the tentative agreement, was not enough for the committee. Its members wanted full recognition of the union, the check-off system, by which the union dues would be withheld from the pay envelopes of the miners, the eight-hour work day, a larger increase in wages than 10 per cent., and a shorter agreement than four years, practically, in short, all that the original demands called for.

ELLIS KILLED PORTER.

Makes Confession of Murder and Pleads Self-defence.

A despatch from Kinmount, Ont., says: Arthur A. Ellis, aged thirty-six, shot and killed Louis Porter, his brother-in-law, on Thursday evening, April 26. Ellis confessed his guilt on Friday morning to Provincial Inspector H. Reburn at Ellis' house, near the Cameron road. He was immediately arrested by local Constable John Welch and taken to Minden. Ellis told the story of the shooting to Inspector Reburn with apparent coolness. He said: "Porter met me on the road. Both of us carried rifles. Porter asked me if I was looking for him. I told him no. With that Porter opened fire, but missed me. I pulled my rifle and shot him in self-defence. I then dragged and carried him to a spot in the bush about 200 yards from the road."

HAILEYBURY DISTRICT TOWN

Selected by Government to be Centre of Temiskaming.

A despatch from Toronto says: Haileybury is to be the judicial centre of the new judicial district of Temiskaming. The long-looked-for announcement was made by Hon. W. H. Hearst, Minister of Lands, Forests and Mines, after a meeting of the Cabinet on Thursday. Haileybury is the Government's choice on account of its position and because of certain other advantages. The competition among the towns of the district for the distinction which Haileybury has gained, has been a keen one, and Haileybury, New Liskeard, Cobalt and Englehart all sent deputations to the Government, urging their claims. The municipality which has been selected will be the site of the district buildings and court-house.

WEALTH OF COBALT'S CAMP

Prof. Mickle Puts Total at 247,000,000 Ounces, Including Ore Already Mined

A despatch from Cobalt says: Prof. G. R. Mickle, Provincial Mine Assessor, at a meeting of the Cobalt branch of the Canadian Mining Institute, estimated the total production of Cobalt camp from all known producing veins 247 million ounces, including 35 millions from undiscovered veins, and eight millions on the dumps. The estimates are based on most careful mathematical calculations, and as the results correspond so nearly with previous estimates of local mine managers weight is given to the figures. If any error is made it is in underestimation. Fifty-six per cent. on values have been extracted from the known veins, representing a value of $65,000,000, but the total output of the camp is not confined to future production from the present veins and those undiscovered, as the possibilities are for a process that will make exceedingly low values payable.

The Mackay-Bennett, which docked at Halifax with her gruesome cargo of Titanic victims.

PRICES OF FARM PRODUCTS

REPORTS FROM THE LEADING TRADE CENTRES OF AMERICA.

Prices of Cattle, Grain, Cheese and Other Produce at Home and Abroad.

BREADSTUFFS.

Toronto, May 7.—Flour—Winter wheat, 90 per cent. patents, $4, at seaport, and at $4 to $4.10 for home consumption. Manitoba flours—First patents, $5.70; second patents, $5.20, and strong bakers', $5, on track, Toronto.

Manitoba wheat—No. 1 Northern, $1.12 on track, Bay ports, all-rail; No. 2 Northern, $1.16, and No. 3, at $1.13, on track, Bay ports, all-rail. Feed wheat, 73 to 76c, all-rail.

Ontario wheat—No. 2 white, red and mixed, $1.02 to $1.03, outside.

Peas—No. 2 shipping peas, $1.25, outside.

Oats—Car lots of No. 2 Ontario, 49 to 50c, and No. 3 at 47 to 48c, outside. No. 2 Ontario, 52 to 52 1-2c, on track, Toronto. No. 1 extra W. C. feed, 52 1-2c, all-rail, and No. 1 feed, 51 1-2c, all-rail.

Corn—No. 3 American yellow, 83c, track, Bay ports, all-rail.

Buckwheat—70 to 72c, outside.

Bran—Manitoba bran, $25, in bags, Toronto freight. Shorts, $27.

COUNTRY PRODUCE.

Apples—$3.50 to $4.50 per barrel.

Beans—Small lots of hand-picked, $2.65 to $2.75 per bushel.

Honey—Extracted, in tins, 11 to 12c per lb. Combs, $2.50 to $2.75.

Baled Hay—No. 2 would probably bring $17.50 to $18 a ton. Clover, mixed, $13.50 to $14, on track.

Baled Straw—$11, on track, Toronto.

Potatoes—Car lots of Ontarios, in bags, $1.70 to $1.80, and Delawares at $1.85 to $1.90. Out-of-store, $1.95 to $2.

Poultry—Wholesale prices of choice dressed poultry:—Chickens, 18 to 20c per lb.; fowl, 12 to 13c; ducks, 15 to 17c; turkeys, 20c. Live poultry, about 2c lower than the above.

BUTTER, EGGS, CHEESE.

Butter—Dairy, choice, 26 to 27c; bakers', inferior, 22 to 23c; creamery, 30 to 31c for rolls, and 29 to 31c for solids.

Eggs—New-laid, 22 to 23c per dozen in case lots.

Cheese—New cheese, 15 to 15 1-2c per lb.

HOG PRODUCTS.

Cured meats—Bacon, long clear, 13 to 13 1-2c per lb. in case lots. Pork, short cut, $23 to $24; do., mess, $20 to $21. Hams—Medium to light, 17 to 17 1-2c; heavy, 15 to 15 1-2c; rolls, 12 1-2 to 13c; breakfast bacon, 17 to 18c; backs, 19 to 20c.

Lard—Tierces, 13 1-4c; tubs, 13 1-2c; pails, 13 3-4c.

MONTREAL MARKETS.

Oats—Canadian Western, No. 2, 54 1-2c; do., No. 3, 50 1-2c; extra No. 1 feed, 51 1-2c; No. 2 local white, 50 1-2c; No. 3, do., 49 1-2c; No. 4, do., 48 1-2c. Barley—Manitoba feed, 65c; malting, $1.05 to $1.10. Buckwheat—No. 2, 74 to 75c. Flour—Manitoba Spring wheat patents, firsts, $5.80; do., seconds, $5.30; strong bakers', $5.10; winter patents, choice, $5.10 to $5.35; straight rollers, $4.65 to $4.75; do., in bags, $2.15 to $2.25. Rolled oats—Barrels, $5.35; bag of 90 lbs. $2.55. Millfeed—Bran, $25; shorts, $27; middlings, $29; mouillie, $30 to $36. Hay—No. 2, per ton, car lots, $16.50 to $17. Cheese—Finest westerns, 12 1-2 to 12 3-4c. Butter—Choicest creamery, 25 1-2 to 25 3-4c; seconds, 24 1-2 to 24 3-4c. Eggs—Fresh, 23 to 23 1-2c. Potatoes, per bag, car lots, $1.80 to $1.85.

UNITED STATES.

Minneapolis, May 7.—Close—Wheat—May, $1.11 1-8; July, $1.12 1-4; September, $1.05 7-8 to $1.06; No. 1 hard, $1.14 to $1.14 1-8; No. 1 Northern, $1.13 5-8; No. 2 Northern, $1.11 5-8; No. 3 wheat, $1.09 5-8. Corn—No. 3 yellow, 78 to 79c. Oats—No. 3 white, 54 1-2 to 55c. Rye—No. 2, 90c. Bran—$24 to $24.50. Flour—First patents, $5.10 to $5.40; do., seconds, $4.75 to $5; first clears, $3.50 to $3.85; do., seconds, $2.40 to $2.60.

Buffalo, May 7.—Spring Wheat—No offerings; Winter, No. 2 red, $1.21; No. 3 red, $1.19. Corn—No. 3 yellow, 83 1-2c; No. 4 yellow, 81 1-2c; No. 3 corn, 81 3-4 to 82 3-4c; No. 4 corn, 79 3-4 to 80 1-4c, all on track, through billed. Oats—No. 2 white, 61c. Barley—Malting, $1.24 to $1.38.

LIVE STOCK MARKETS.

Montreal, May 7.—The top price realized for choice steers was $7.75, while good sold at $7 to $7.25, fair at $5.75 to $6.25, and common at $4.50 to $5.60 per cwt. The trade in cows and bulls was more active than usual, and the former brought from $5.75 to $6.50, and the latter from $5.85 to $6.75 per cwt. Sales of selected lots of hogs sold at $9.60 to $9.75 per cwt., weighed off cars. Sheep were scarce and in demand at $6 to $6.50 per cwt. for ewes. The demand for lambs was good at $4 to $6 each. The trade in calves was active at prices ranging from $1.50 to $10 each, as to size and quality.

Toronto, May 7.—Cattle—Extra choice heavy steers, for butcher and export, $7.30 to $7.60; good medium to choice butcher loads, $6.40 to $7.10; mixed light butcher, $5.50 to $6.15; common, $3.50 to $5.60; canners, $2 to $3; choice butcher cows, firm at $5.25 to $6.25; bulls, $5 to $6.25. Stockers—Steady demand at $5.25 to $6 for good quality; extra choice heavy feeders, $6. Calves—Good veal, $6.50 to $8; bobs, $1.60 to $2.50. Sheep—Market steady. Choice ewes, $5 to $5.60; yearlings, $8 to $9; bucks and culls, $4 to $5; spring lambs, $4 to $7 each. Hogs—Market firmer, at $8.60 to $8.85, fed and watered, and $8.35 to $8.40, f.o.b.

LABOR WAGES IN THE WEST.

Common Variety Can Earn $3 a Day and Mechanics $5.

A despatch from Winnipeg says: Hayter Reed, general superintendent of Canadian Pacific hotels, arrived from the West on Thursday morning. "The demand for labor throughout the West," declared he, "is perfectly astounding. As a consequence, men are restless. I cannot persuade them to stay with a job any length of time, no matter what wages are offered. A common laborer can earn $3 a day and a mechanic $5."

COST OF LIVING.

Higher Prices for Meats, Eggs and Butter Predicted.

A despatch from New York says: The next twelve months will see some new records in high prices for meats, eggs and butter is the belief of Mr. Preston, editor of the Produce News. The cold season has put the hens far behind in their work, the expert declares, and the supply of butter in sight is not likely to satisfy the public demand. The price for potatoes would go to $8 a barrel, he adds, if it were not for Irish and Belgian importations. The cabbage crop is short, and cabbages, like artichokes, are becoming luxuries. Poultry is the one product, he declares, that has not risen in price by leaps and bounds.

PREFERRED DEATH TO SCHOOL

Young Vancouver Boy Committed Suicide.

A despatch from Vancouver, B. C., says: Ernest Clarke, aged fourteen, living with his parents at 888 Eighth avenue west, committed suicide on Thursday morning, preferring death to school. He objected so strenuously to going to school that his mother sent his father to reason with him. He told his mother that he would take poison first. When his father went into the room the lad whipped out a revolver so quickly that before he could be stopped he shot himself through the temple, dying instantly.

WIRELESS ON LAKE STEAMERS

New Bill of U. S. Merchant Marine Committee.

A despatch from Washington says: Regulations regarding life-saving appliances on American-owned ships will be extended to foreign-owned vessels as well by a bill agreed upon on Wednesday by the House Merchant Marine Committee. It also requires passenger ships on the great lakes to be equipped with wireless, but would exempt Long Island Sound passenger ships from the ocean-going requirements. Auxiliary wireless equipment and two operators for each ship are among other features of the measure.

SUCCESSION DUTIES.

Half-year Total Falls Far Below That of Last Year.

A despatch from Toronto says: The six months' record of succession duty returns shows a margin of some six thousand dollars above the Provincial Treasurer's estimate, but the large total rolled up in the first half of the previous financial year has not been approached. The six months' total is $356,675.25, compared with $524,207.66 for the half year of 1910-1911. The succession duty revenue for April was $88,615.73, compared with $135,387.59 in the corresponding month of last year.

"PHANTOM" SHIP FOUND.

Was a Cargo Boat Bound From New York to Genoa.

A despatch from Algiers says: The mysterious steamer which was in the vicinity of the Titanic when she foundered is believed here to have been the cargo boat Kura, from New York for Genoa, which arrived here on Wednesday. The Kura left New York on April 13. She has no wireless apparatus. The captain reports that he encountered icebergs and a fog on the night the Titanic was wrecked, but he only learned of the disaster Tuesday night.

Toronto's tax rate was fixed at 18½ mills.

Ten Kingston licenses have been cut off, leaving the number of licensed hotels at fifteen.

The Italians landed on Rhodes Island and drove the Turkish garrison out at the point of the bayonet.

FACTORY WALL COLLAPSED

Two Were Killed and Twelve Injured in Accident at Toronto.

A despatch from Toronto says: With the suddenness of a thunderbolt, the south wall of Wm. Neilson's new five-story confectionery building on Gladstone avenue collapsed at 10.30 on Saturday morning, burying a score of employees—mostly girls—beneath a debris of bricks, plaster and splintered timbers, resulting in death to two persons and injuries to fifteen others. The whole side of the building, including the first section of each floor and the machinery on the first and second stories, crashed through into the basement, or split up when the pile reached the level of the foundation, and heaped up in the vacant lot to the south of the plant. One hundred and twenty feet long from front to back, seventy-five feet high, and of a thickness ranging from twenty-two inches at the base to fourteen inches at the top, the whole mass was precipitated into a gnarled and tangled heap inside of five minutes. There were 170 people employed in the plant, principally girls. Only the basement and first two floors were being used as a manufactory, as the three upper floors were in process of rapid construction. On account of the lighting area on the south side the bulk of the work was being carried on close to this wall, and that more people were not entrapped in the wreckage is a miracle. The dead: Mrs. Eva Anderson, 1206a Dufferin street, operator in the box department on the first floor; Luega Scenna, 740 Brock avenue, Italian laborer.

STOWAWAYS ON BOARD.

Two Men Stole Trip to Canada on Devona.

A despatch from Montreal says: The stowaway season opened on Sunday with the arrival of the Thomson liner Devona from Middlesboro, carrying two men who had paid no passage. The Devona sailed on April 20, and was a few days out when the stowaways were located. One is a middle-aged man, the other a mere boy. They were turned over to the immigration authorities here and are being held pending deportation proceedings. The Devona reported passing through ice for thirty-six hours off Cape Ray.

TO DETECT ICEBERGS.

Discovery That Will Enable Steamers to Tell Presence of Ice.

A despatch from Copenhagen says: Ellehammer, a prominent inventor, claims to have made a discovery which will enable steamships to accurately locate icebergs and rocks at a distance of 1,200 yards through darkness or fog. He refuses to explain his discovery or give any details, but says it is very simple. He will offer the device to all the trans-Atlantic steamship companies as soon as it has been patented.

NET RESULTS OF ENQUIRY.

What U. S. Senate Commission Has Recommended.

A despatch from New York says: The net results of the Titanic investigation and the proposed recommendations of the Senate Committee that has been conducting the enquiry here and in Washington were described Thursday by Senator Smith, chairman of the committee. The recommendations will include double bottoms for all large vessels, full lifeboat equipment, searchlights, danger signals, double watches at night, two-man wireless service and avoidance of the northerly track in the iceberg season.

CONSTABLES SHOT.

One Man Killed and One Wounded by Fugitive Indians.

A despatch from Vancouver says: Word from Ashcroft on Friday night gives brief details of a fatal encounter between a posse of Provincial Police and two Indian fugitives from justice on the Cariboo road, a few miles from that city. Provincial Constable Kindness, one of five officers in pursuit of the Indians, was shot and killed, and Constable Loring was shot in the arm. The other three constables in the party are missing.

THREE MEN KILLED.

Train Runs Into Waggon Containing Four Persons.

A despatch from Troy, N. Y., says: Three men were killed outright and a boy was slightly injured on Wednesday afternoon near St. John's, Quebec, when a train leaving St. John's at 3.49, and due in Troy at 10.50, struck a waggon containing two brothers named Fayette, a companion named Marsh, and a boy. The story of the accident was told here by a brakeman of train No. 6, the one which struck the waggon.

SUCCESSOR TO THE TITANIC.

Additional Lateral Bulkheads to be Feature of New Liner.

A despatch from London says: It is stated that the Big White Star liner now under construction at Belfast will be altered so as to include additional lateral bulkheads in order to minimize the risk of disaster. The work on the new steamship will be accelerated so that she can replace the Titanic at as early a date as possible.

THE NEWS IN A PARAGRAPH

HAPPENINGS FROM ALL OVER THE GLOBE IN A NUTSHELL.

Canada, the Empire and the World in General Before Your Eyes.

CANADA.

Port Colborne is to have a branch of the Buffalo Union Furnace Works.

Mr. M. Ferguson of Stratford has been appointed City Engineer at Guelph.

The dairies supplying milk to London, Ont., have been cut off by the inspector.

The ferry fares between the two Soos have been reduced from ten cents each way to five.

The new arrangement for parcel post between Canada and France was inaugurated on Wednesday.

Col. Hughes has lent twenty Ross rifles to the corps of British cadets who will visit the Toronto Exhibition.

Adele Marin, a French girl, was sentenced to two hours' imprisonment at Montreal for contempt of court.

The Government steamer Montmagny left Halifax on a search for more bodies from the steamer Titanic.

The late Dr. Carroll left land to the town of Ingersoll for a park, and his residence as a Protestant Children's Hospital.

Mrs. Weisz, now in Montreal, was deprived of her husband and almost every cent she had in the world by the Titanic disaster.

Point Edward hotelmen disposed of their remaining stocks of liquor, when local option came into force, by giving free drinks to all-comers.

Cayuga Indians on the Brant reserve are pressing their hundred-year-old claim against the United States Government for their annuity.

Capt. Lardner of the search ship Mackay-Bennett expressed the conviction that further search for the bodies of the Titanic victims was useless.

Col. Hughes proposes to provide free transportation for tyro riflemen making the highest scores in their corps to the Dominion Rifle Association meeting.

The Canadian Northern Railway interests announce that Toronto would be connected with Guelph and Bowmanville by radial lines by the end of this year.

The T. & N. O. bridge over Boston Creek, north of Dane, was burned, and passengers desiring to transfer had to cross a hastily improvised bridge of logs.

The authorities will probably pardon an old convict at Kingston Penitentiary who tried to give the alarm during the recent escape and was beaten into insensibility.

May 24th will be observed as a holiday as usual this year, but the Government may take steps in the future looking to the observance of King George's birthday on June 3.

GREAT BRITAIN.

The Royal Society of Literature decided to confer the gold medal on Thomas Hardy.

The British inquiry into the loss of the Titanic was opened on Thursday, Lord Mersey presiding.

The Olympic seamen were found guilty of mutiny, but permitted to go free and return to the ship.

UNITED STATES.

The Board of Bishops of the Methodist Episcopal Church in the U. S. proposed a relaxation of the rules touching amusements.

Suit against the International Harvester Company, charging it with being a monopoly in restraint of trade and asking that it be dissolved, was filed by the Government in the United States District Court.

Exeter Advocate,

Sanders & Creech, Props.

THURSDAY, MAY. 9, '12

H. A. Macdonald, director of colonization, Toronto, writing to farmers says.—Realizing that one of the most urgent needs of the farmers of our Province is an adequate supply of farm labour, the Colonization Branch has been endeavouring to meet that demand by bringing men from Great Britain and Ireland and placing them with farmers in this Province. During the past few years several thousand have been brought out and placed in this way. Instead however, of the demand lessening, it seems to be increasing. Our observation and experiences convince us that while there may be many explanations of this regrettable fact, the one outstanding reason is the practice of employing men for six or eight months of the year and then turning them out to find situations elsewhere for the balance of their time. This works out in such a way that the men who have been employed on the farms now seem to gravitate to towns and cities in the winter months and remain there, with the result that the farmer is compelled to start over again the next spring in his efforts to secure help.

Having regard to these facts, I beg to make the following suggestions, the adoption of which we are satisfied would go a long way towards relieving the stringency which exists at the present time.

(1) First and foremost, arrange to employ a man by the year. We have found that the farmer who employes his help by the year, especially if he is able to supply a house and a small piece of land, is the farmer who has the least trouble over the help problem. It is the better way for the man as well as for the farmer. If you feel your work does not warrant the employment of a man the year round, you might be well advised to consider the question of taking up a few more branches of farm work or handling additional live stock, and in this way we feel satisfied you would more than make up the extra cost of the help.

(2) Do not be to exacting about getting an experienced man. Experienced farm labourers are rare at the present time, as there is a large demand for them in the Old Country as well as on this side. If you take an inexperienced man, recognizing that he is unfamiliar with the condition to training him for a few months, you will find, in nine case out of ten, that he will prove very useful to you. Being reasonably generous in the matter of treatment and wages is essential if hired help is to be retained.

We beg to submit these suggestions to the farmers of the Province feeling satisfied that if they are acted upon, the results will redound to the personal advantage of the farmer as well as to the prosperity of the Province.

The general opinion is that farm lands have seen their lowest price in Western Ontario. With the high prices in farm products of all kinds, and very often a shortage in many of the products, the prices of farm lands have simply got to go up.

The largest yet in the series of bank mergers which have formed such important events in Canadian financial history in the last few years has been arranged. It is a merger of the Royal Bank and the Traders Bank, and will make the Royal Bank the third largest bank in Canada, in a class with the Bank of Montreal and the Canadian Bank of Commerce.

Crediton

FOR SALE—At Zwicker's, Crediton, No. 1 Red Clover, Alsike, Alfalfa, Timothy, Kentucky Blue and Orchard Grass—specially selected for seeding purposes. Also a quantity of clean Alsike and Timothy Seed mixed at very reasonable prices. Parties requiring should buy early as the better grades will be scarce and higher as season advances.—CHAS. ZWICKER, CREDITON.

Our township council had their monthly business meeting in the Town Hall on Monday. Considerable business was transacted. Henry F. Elber was appointed one of the over-seers to enforce the Cow-tag By-law with division from the 1st concession to the 9th concession inclusive. It is the intention of the council, now since this by-law was carried at the last election, to see that all the requirements are rigidly fulfilled.

Mrs. Rosina Finkbeiner and little grandson Howard Beaver, is visiting her daughter Mrs. Russel Hurtable in Hamilton for a few weeks.

Our bowlers are getting quite enthusiastic and some good work is being done. The recruits will soon make it hot for the old-timers.

Robert Dinney, wife and family have moved to London where he has secured a position. They were well thought of while living in our midst and we wish them every success in their new home.

Mathew Weln, a highly respected farmer living west of this village, passed to the great beyond on Tuesday after several weeks of suffering. The deceased was one of the early pioneers and was always well thought of as a father, neighbor and citizen. He attained the age of 75 years and was always in good health until the last year. His remains will be interred in the Evangelical Cemetery to-morrow after-noon Friday at which Rev. Burn will officiate. The deceased leaves to mourn his loss a sorrowing wife, three sons; John, Joseph and Samuel of Crediton and four daughters: Mrs. John Sweitzer of Crediton, Mrs. Pope and Mrs. Haylock of London and Mrs. Alex Borland of Woodstock. The bereaved family have the sympathy of the entire community.

George Holtzman and Harry Beaver have built a shed over the portable saw-mill at Fred Kerr's the past week.

Miss. Steinacher, who visited her parents for a few days, returned to her home in Wingham on Tuesday morning.

LUMLEY.

Mr Fred Ellerington is building a fine cement silo. The work is being done by Mr. John Hunkin of Exeter.—Mr. Enoch Parker is putting up a lot of new fence, pruning the orchard and otherwise improving the Imery farm which he recently purchased.—Mr. Frank Ryckman has set out a new orchard.—Mr. and Mrs. N. B Horton of Harpurhey spent Sunday with friends here.—Wm. Glenn and family attended the Stewart-Green nuptials Wednesday.—A pretty wedding took place at the home of the bride's parents, Hay Township, yesterday when Miss Gladys May Green, eldest daughter of Mr. Jas. Green, to Mr. John W. Stewart, son of Mr. Wm. Stewart of Usborne.—House cleaning is the order of the day. Most of the farmers of this vicinity are through seeding.

There is a much larger demand in Huron County for waifs than the Children's Aid Society is able to supply. It is usually the other way.

You farmers I suppose have never realized the fact that he abused skunk captures and devours more beetles, grasshoppers and mice than all other animals to-gether.

STATE OF OHIO CITY OF TOLEDO, } ss.
LUCAS COUNTY

Frank J. Cheney makes oath that he is senior partner of the firm of F. J. Cheney & Co., doing business in the City of Toledo, County and State aforesaid, and that said firm will pay the sum of ONE HUNDRED DOLLARS for each and every case of Catarrh that cannot be cured by the use of Hall's Catarrh Cure. FRANK J. CHENEY

Sold by all Druggists, 75c.
Take Hall's Family Pills for constipation.

CENTRALIA

Mr. Wes. Luker has returned to Goderich to resume work in the mill, after spending a couple weeks here with his mother and brother.—Mr. and Mrs. Rd. Hicks leave this week for Edmonton, after spending several weeks with their son, Andrew Hicks.—The base ball boys are busy practising and are getting into form again, and judging from the way the boys are progressing we are going to have a team that will give a good account of themselves ere the season is over.—The quarterly official Board of the Methodist Church met on Tuesday evening and wound up the business for the past conference year. The finances were found to be in good shape—Seeding is about over and the showers of Sunday evening and Tuesday have caused vegetables and the grass to spring up quite rapidly.—Mr. Dan Austin has started out for the season with his cement mixer and has a big season's work ahead of him.—Mr. Thos. Wills of Exeter is visiting his son here.—Mr. Wilson Culbert left on Saturday for Saskatoon, he having accompanied a carload of stock for Mr. Maloney.—Mr. W. T. Colwill returned from the West on Saturday and reports everything looking favorable and the seeding about completed when he left on April 30th.

Many are busy seeding, while quite a number are about through.—Mr. A. J. S. Hancock of Vancouver, B. C., attending the wedding of his neice, Miss Elliott last week.—Mrs. French, who has been visiting her sister, Mrs. W. R. Elliott for the past month met with a very painful accident on Monday last by falling down a flight of stairs, receiving many painful bruises. Luckily however, no bones were broken. She intends returned to her home in Clinton this week.

A Pretty Wedding—A quiet, but pretty wedding took place on May first at the home of Mr. and Mrs. W. R Elliott, "Fairfield Farm" Centralia when their second daughter Katharine Edna Gertrude was married to Mr. William A. H. Jenkins of London, Ont. The ceremony was conducted by Rev. F. W. Blatchford, in the presence of the immediate relatives only. Mr. Thomas Mitcheltree of London played the wedding music. The bride who was given away by her father, looked charming, in a cream serge suit, trimmed with Wedge wood blue velvet, large plumed hat and carried a boquet of white roses and lily of the valley. Congratulations over a dainty breakfast was served. The dining room being prettily decorated with carnations, Sweet peas, and smilax. After which Mr. and Mrs. Jenkins motored to London, where they took the train for Buffalo, New York and other points of interest. The bride was the recipient of many valuable and useful presents among them a very generous cheque from her father.

DASHWOOD

The stock and implements of the late John Pope are to be sold thursday afternoon, on Lot 32, S. B., Hay, by H. Bossenberry Auctioneer.

To Farmers

THOMAS CARLYLE, No. 13,879, 13, 146, is a pure bred imported Clydesdale stallion, a noted son of the noted Thomas, with an excellent pedigree and a fine record as a foal getter. He will stand for mares this season at his own stable, Centralia.—C. H. BASKERVILLE, Prop. and Manager.

ONTARIO

PROVINCIAL LOAN OF $2,000,000 AND $210,000

THE GOVERNMENT OF THE PROVINCE OF ONTARIO, under the authority of Chapter 4, of the Statutes of Ontario, 1911, invites subscriptions from the public for a loan of $2,000,000 on bonds of the Province of Ontario, or "Ontario Government Stock."

The bonds will be dated 1st May 1912, and payable on the 1st of November, 1941, in denominations of $1,000 each, with coupons attached for interest at the rate of 4 per cent. per annum, payable half yearly, on the 1st of May and 1st of November in each year, at the office of the Provincial Treasurer, Toronto or at the offices of the Bank of Montreal, in Montreal, Canada, and in New York, N. Y., at the holder's option. Bonds will be made payable to bearer, but on request will be registered in the office of the Provincial Treasurer and endorsed as payable only to the order of certain persons or corporations, and on request of holders will be exchanged for "Ontario Government Stock" at any time.

Also balance of Algonquin Park Loan of $210,000 on the same terms and with the same dates, under the authority of Chapter 9, 1 George V.

The issue price during the month of May, 1912, will be 102 for each $100 and after the 31st day of May, 1912, the issue price will be $102 and interest accrued from the 1st of May, 1912.

ALL BONDS AND INSCRIBED STOCK ISSUED UNDER THE AUTHORITY OF THE SAID ACT ARE FREE FROM ALL ONTARIO PROVINCIAL TAXES, CHARGES, SUCCESSION DUTY AND IMPOSITIONS WHATSOEVER.

Purchasers of Stock or Bonds will be required to send certified cheque with the application, payable to the order of the "Provincial Treasurer of Ontario."

This loan is raised upon the credit of the Consolidated Revenue Fund of Ontario, and is chargeable thereupon.

A. J. MATHESON,
Provincial Treasurer.

Treasury Department, Parliament Buildings, Toronto, April 19th, 1912.

Newspapers inserting this advertisement without authority from the Department will not be paid for it.

TENDERS FOR DREDGING.

SEALED TENDERS addressed to the undersigned and endorsed "Tenders for Dredging Ontario," will be received until 4 p. m. on Monday, May 13, 1912, for dredging required at the following places in the Province of Ontario,—

Goderich, Napanee, Picton, Telegraph and Nigger Islands.

Tenders will not be considered unless made on the forms supplied, and signed with the actual signatures of tenderers.

Combined specification and form of tender can be obtained on application to the Secretary, Department of Public Works, Ottawa. Tenders must include the towing of the plant to and from the work. Dredges and tugs not owned and registered in Canada shall not be employed in the performance of the work contracted for. Contractors must be ready to begin work within thirty days after the date they have been notified of the acceptance of their tender.

A separate cheque for each place for which a tender is submitted must accompany the tender. This cheque must be equal to five per cent. (5 per cent.) of the amount of the tender, based on the approximate quantities set opposite the name of place, but in no case must the cheque be for less sum than $1,500. The cheque must be accepted on a chartered bank, and payable to the order of the Honorable the Minister of Public Works. If the tender be not accepted the cheque will be returned.

The Department does not bind itself to accept the lowest or any tender.

By order
R. C. DESROCHERS
Secretary.

Department of Public Works,
Ottawa, April 27, 1912.

Newspapers will not be paid for this advertisment if they insert it without authority from the Department.

TENDER FOR SEWER, EXETER, ONT.

Tenders will be received up to Friday noon, May 10 next, for the construction of about 3,000, feet of sewers; also for about 3,000 feet of 12-inch and 18 inch virtrified sewer pipe and specials Plans and specifications and forms of tender may be seen at the office of either of the undersigned. The lowest or any any tender not necessarily accepted.

F. W. FARNCOMB, Consulting Engineer, London, Ont.
T. B. CARLING, Town Clerk Exeter, Ont.

Lost His Hair, Beard and Mustache

TERRIBLE PLIGHT OF A PENNSYLVANIA MAN REPORTED BY A PROMINENT CITIZEN.

"About two years ago my hair, beard and mustache started to come out in spots. These spots were entirely bare of hair.

Seeing PARISIAN SAGE advertised, I purchased 4 bottles and after using two of the bottles, the hair came in until now I have as good a head of hair as I had before this trouble started.

I can truthfully recommend this preparation to any one for what it is recommended for. Sam Galder, Jamison City, Col. Co., Pa. Oct. 11, 1911."

Please bear in mind that PARISIAN SAGE is not guaranteed to grow hair on bald heads.

In Mr. Galder's case the hair root was not dead and there is no good reason why PARISIAN SAGE should not do just what he writes it did.

"The next time Mr. Galder came into my store after purchasing the PARISIAN SAGE," writes the druggists who sold him, "his appearance was so changed I did not know him."

PARISIAN SAGE is without doubt the most efficient hair grower, beautifier and dandruff cure in the world, and people who are wasting time with ordinary commercial tonics should wake up.

PARISIAN SAGE will banish dandruff, stop falling hair and itching scalp will put life, lustre and beauty into faded hair or money back. It is a most delightful and refreshing tonic for men, women and children. Large bottle 50cts. at W. S. COLE'S and druggists the country over.

MINERVA PURE PREPARED PAINT

Look for this Trade Mark when you buy paint.

It means painting as it should be—painting that will look the best and wear the longest under all weathers and hard usage.

This Trade Mark is backed by 76 years of world wide paint experience—it's the sign of

MINERVA PURE READY PREPARED PAINT

Perhaps the last job blistered, cracked or peeled—because the paint was not perfectly made.

Try Minerva Paint this time.

The Perfect incorporation of the Minerva ingredients produces a paint with great covering capacity—while its elastic properties prevent peeling off, blistering or cracking, insuring long life, thus putting off the necessity of repainting for the longest time—meaning economy to you.

There's a Minerva Paint, Enamel or Varnish for every purpose.

Sold by prominent dealers at all points including

Hawkins & Son, Exeter

PINCHIN, JOHNSON & CO. (Canada) Limited Toronto - Ont.

"It's so easy to paint with Minerva"

Dr. de Van's Female Pills

A reliable French regulator; never fails. These pills are exceedingly powerful in regulating the generative portion of the female system. Refuse all cheap imitations. Dr. de Van's are sold at $5 a box, or three for $10. Mailed to any address. The Scobell Drug Co., St. Catharines, Ont.

HENSALL

Ivan Welsh left for Toronto yesterday He intends remaining there and working at his trade.—The following Hensallites left for the west last week James Johnstone and son, Brandon, Man, Walter Hobkirk Moberry, Man., Robert Higgins, Port Arthur—Dr Sellery, Hanson Petty and Thos. Kyle have purchased automobiles.—James Clark received a telegram from the West conveying the sad intelligence that his wife's brother-in-law, James Dagg, formerly of Centralia, had departed this life.—Mrs. John Henry Petty had the misfortune to fall from a stable loft and fracture her leg between the knee and the ankle.—Miss Mabel Nell daughter of Albert Nell, Lumley, had the misfortune to be thrown against a barbed wire fence on Saturday last and had her face so badly torn that the doctor found it necessary to put in several stitches.—Erin Steacy left last week for Port Carling, Muskoka—Mrs. McMartin and children of Toronto are the guests of her parents, Mr. and Mrs. Robert Bonthron.—W. Welsh has disposed of his planing mill and lumber yard to H. Soldan. Mr. Welsh has been in business here for about twenty years, previous to which he was foreman for the late Robt. Patterson. He leaves shortly for Toronto.—On April 30th the death angel visited the home of Paul D. Bell and removed the aged partner. Mrs. Bell, who was in her 87th year, was born in Scotland and came to this section when it was nearly all forest. She suffered the shardships and privations of the early settlers and lived to enjoy the fruits of comparative comfort and ease in her declining years. She leaves a family of grown up sons and daughters together with her bereaved husband to mourn the loss of a good mother and wife. The funeral took place to Hensall Union Cemetery.—Thomas and J Hudson and members of their families left for home, Marlette, Mich, last week. —The Rev. Mr. Millyard took the Rev. R. Hobb's pulpit at Exeter Sunday, and the pulpit here was filled by Dr. Roulston and Mr. Southcott.

GRAND BEND.

(Too late for last week.)

Mr. Bert Statton, who has been in London for the winter, returned recently bringing an auto with him, purchased by his father. Grand Bend can now boast of having an auto as well as other villages. He intends using it as a passenger bus.—Mr. and Mrs. Wm. Oliver have gone to Sudbury, where the former has secured a job as foreman of a bridge and railway gang.—Mr. Emery Carriere, who has been home for a few weeks has returned to Toronto.—Wm. Levie and Max Gratton are pleased at the arrival of babes—to the former a boy on April 22, and to the latter a girl on April 26.—While pruning apple trees Wm. Clarkson in preventing himself from falling had his arm pulled out of joint at the shoulder, which will lay him off work for some time.—Wm Willert has hired with Ware and Geo. Oliver to work at cement work.—A. Tiedeman is building a "rolly-coaster."—A daughter arrived to Mr. and Mrs. J. Gill on the 28th.—Messrs Jones of London were here part of last week.—Mr. and Mrs. Joe. Brenner, Ezra Brenner Miss Willert and Mr. John Statten and sons were in London last week.

BRUCEFIELD—Mr. J. H. O'Neil has sold his fifty acres on the London Road north of the village to Mr. Wm. McQueen whose farm is but a short distance from it. The price was $1800.

The following is the report of S. S. No. 8, Hay for the month of April.—Sr. IV L. Truemner, T. Kuntz, T. Miller, F. Kitenfeldt; Jr. IV L. Shumacher L. Broderick, C. Kuntz, I. Messner. Sr. III H. Shumaker, C. Becker, E. Kitenfeldt, C. Wiegand, E. Messner. Jr. III B. Wiegand, N. Miller, C. Hartman, H. Becker, N. Kitenfeldt; Sr. II A. Hartman W. Zller, E. Miller, H. Messner, T. Messner. Jr. II H. Truemner V. Becker Sr. Pt. II E. Messner, K. Hartman, E. Kitenfeldt, Elda Messner. Jr. Pt. 1, E. Broderick, M. Becker, W. Brokenshire. Primary—H. Wiegand, L. Bender, A. PBecker. No. on roll 36. Average attendance 32.

V. Graybell, Teacher.

KIPPEN—The many friends of Mrs. John Petty, of the second concession of Hay, will regret to learn of a serious accident that befel here a few days ago. She was in a loft in the barn looking for eggs, and fell through a trap-door to the floor below, breaking her leg just below the knee.— Eddie the little son of Mr. and Mrs. Wesley Harvey, also met with a painful accident. He was up in an apple tree, and falling broke his arm.

MITCHELL—A quiet but pretty wedding took place on May 1, at the home of Mr. and Mrs. Wm. Burton, when their daughter, Miss Mary Burton Williams, formerly assistant superintendent of the Jamestown, N. Y., hospital, was united in marriage to Dr. Wm. Miller Sill of the same city.

AILSA CRAIG—Dennis Finan, who was accidently killed on G.T.R., at Detroit on 27th of April came to Ailsa Craig from Quebec about 50 years ago and worked as a section hand on G.T.R. Some years since he removed to Detroit and was given charge of a section of the G. T. R. there, and at the time of his death was in charge of a G.T.R. gate. He was 79 years old.

MITCHELL—Mr. John Clark, an aged pensioner of the British Government, died on Thursday in his 86th year. He had been resident of Mitchell for many years. He was known as the Balaclava veteran, and was fond of telling of his experiences in the Crimean War, where he had fought in many battles, and on special occasions, wore the medals of Inkerman, Balaclava, Sebastopol and other fights.

ZURICH.

Ab. Schettler, who has been employed with Mr. C. Hartleib as harnessmaker left last week for the west.—The estimated cost of the new schools is about $7000.00 and as the trustees had been limited to $6000.00 by the recent meeting of the ratepayers, another meeting will likely have to be called.

USBORNE.

A pleasing event took place on Tuesday of last week at the residence of Mr. and Mrs. T. Washburn, Usborne, when their daughter Vera was united in marriage to Mr. ClarenceB. Routly The ceremony was performed at five o'clock in the afternoon by Rev. Racey of Kirkton church. The bride was assisted by her sister Miss Ella, and the groom by his brother Guy. The bride was handsomely attired in white silk, and the bridesmaid in Copenhagen blue silk. Among the wedding presents were a number of handsome cheques. The groom's gift to the bride was a sunburst of pearls. The ceremony over the interested parties and the guests to the number of thirty-five partook of a dainty luncheon. The young couple have the best wishes of all.

HAY TOWNSHIP.—The following statistics have been taken from the rolls as returned by Oscar Klopp, for Hay Township.—acres 52,473; cleared land 42,290; woodland 2,226; slash land 1,587; swamp 6,185; value of lands $1,582,539.00 value of buildings $768-690.00 exemptions $48,425.00. Business assessment $22,650.00 income $2,600.00; Total assessment $2,444,-904.00; population 2882; births, 71; deaths 16; No. of dogs 350; No. of bitches. 28.

BETTER THAN SPANKING

Spanking does not cure children of bed wetting. There is a constitutional cause for this trouble. Mrs. M. Summers, Box W. 840, Windsor, Ont., will send free to any mother her successful home treatment, with full instructions. Send no money but write her to-day if your children trouble you in this way. Don't blame the child, the chances are it can't help it. This treatment also cures adults and aged people troubled with urine difficulties by day or night.

TORONTO CORRESPONDENCE

INTERESTING GOSSIP FROM THE QUEEN CITY.

Another Bank Merger—Toronto's Base Ball Fans—Illness of Mr. Mabee, Chairman of Dominion Board of Railway Commissioners.

The merging of the Traders Bank with the Royal Bank has not been received with any great enthusiasm in Toronto, partly, no doubt, because it means the loss of the control of a leading financial institution to this city. In recent years Toronto has rather been giving itself airs as the city rapidly assuming undisputed supremacy as the banking centre of Canada. While Montreal had the head offices of the Bank of Montreal, Merchants', Royal and Molson's, Toronto could point to the Bank of Commerce, Toronto, Traders, Imperial, Dominion, Metropolitan, Sterling, Home, and Standard. Now control of the Traders goes to Montreal, and Toronto is not altogether pleased. It was just the other day when the Bank of Commerce invaded Montreal by absorbing the Eastern Townships Bank, but now there comes a corresponding set-back to Toronto's aspirations. Nor does Toronto like to hear Montreal say anything about the Sovereign, Ontario or Farmers' Banks, all Toronto institutions of late lamented memory.

SIX BANKS HAVE HALF BUSINESS.

Apart from this phase of the question, there is some disposition to argue whether these bank mergers are a good thing or not. It is surprising to find there are fewer banks doing business in Canada now than there were many years ago, in spite of the fact that new ones are continually being organized. It is also surprising to find that the six biggest banks now have over half of the banking capital in the country, more than half of the deposits, and more than two-thirds of the discount or loaning business. This is a striking concentration of the money power. Whether it is a good thing for the country is a question for the economists. There are not wanting argumentative gladiators on both sides of the controversy.

BASEBALL TO THE FRONT.

The real opening of the Baseball season as far as Toronto is concerned came with the first week of May. Three weeks earlier the International League opened with the Toronto team away from home, but the event was so overshadowed by the Titanic disaster that it failed to reach the general public in even a mild degree.

With the first appearance of the team at home it was different. The players and officials proceeded in carriages, as if in state, through the down town streets to the ferry, thence to the Island to the big grand stand that holds 15,000 people, completely surrounding the diamond in an oval. There were plenty of flags and music and big guns to do the honors. All the players, in uniform, lined up and marched across the diamond and back again to let the fans get a good look at them, then there was the formal "first" ball, and the game was on.

MAYOR IS A FAN.

There are a lot of fans among Toronto's public men. The Mayor himself is one. Controller "Tommy" Church is another. Controller Hocken likes to see a game occasionally, and many others of the Council slip off to the game whenever they get a chance. James L. Hughes, School Inspector, is a dyed-in-the-wool fan. So are T. C. Robinette, J. W. Curry, and other prominent lawyers. Prominent financiers like R. A. Smith, of Osler & Hammond, and Norman Macrae, of Pellatt & Co., rarely miss a game, and there are a few clergymen who enjoy an occasional contest.

RAILWAYS NOT OPPRESSED.

This is not said to insinuate that Mr. Mabee has favored the railways. But when the work of the Dominion Railway Board and of Mr. Mabee to date comes to be analyzed it will be found that as far as direct results go the decisions of that body have not been very radical or in any degree oppressive on the corporations. At the same time the work of the Board has been of the utmost value. It has been breaking new ground, and has proceeded surely, if, perhaps, cautiously. It has been asserting its jurisdiction on general lines and in a multitude of details, rather than attempting to enforce revolutionary changes. It has established precedents which seem to assure to the Board exceedingly wide authority over the management of Canada's railways.

But that authority has not yet made the railways squirm to any appreciable degree. That may come later, perhaps under the present Board, or it may be that a new generation of commissioners will reap the harvest the present Board has sown.

BOARD SEES FAIR PLAY.

Municipalities sometimes find themselves at a disadvantage before the Railway Board, because the railways are always represented there by staffs composed of the best lawyers they can secure, and these staffs have become practically permanent. They travel around with the Board from place to place, and are as familiar with the railway law and all its intricacies as a good Presbyterian is with the Shorter Catechism. Their work brings them before the Board day in and day out the whole year round. If one of the Commissioners has a headache they can detect it as soon as he comes inside the door, and govern themselves accordingly. Anyone coming before the Board on an occasional case cannot but find himself under a handicap when matched against these champions of the law. But the handicap is generally overcome by the desire of the Board to see fair play to all.

In form the Board is as democratic as anyone could desire, but there is a dignity about Mr. Mabee's "court" that prevents anyone taking undue liberties. The amount of business get through is amazing.

NATIVE SONS OF ONTARIO.

As a native son of Ontario, this Province takes a special pride in the career of Mr. Mabee. He lived a good part of his life in Stratford, where he quickly became a shining light in law and politics. The latter he dropped long ago.

Another son of Ontario whom the work of the Board is bringing into prominence is Mr. E. W. Beatty, general solicitor for the Canadian Pacific Railway Company. Mr. Beatty, though occupying such a responsible position, is still scarcely more than 35 years old, but he concedes honors to few in his handling of a case. In 1894 Beatty entered the University of Toronto from one of the nearby High Schools. After completing his arts and law courses he joined the C.P.R.'s legal staff, where he soon showed his mettle. Now he draws a salary which is doubtless well advanced in five figures, and travels in his private car, the same as the members of the Dominion Government's Railway Board.

What's the Use of Cooking When you don't have to?

Post Toasties

are skilfully and fully cooked at the factory—ready to serve direct from package with cream, and sugar if you like.

These thin bits of toasted corn (sold by grocers) are crisp, delicious, satisfying and convenient.

NARROW SHAVES IN THE AIR.

Very Thrilling Moments 'Twixt Earth and Sky.

Since men began to fly a new set of risks have been added to life. The how and why of the tragedies that have happened in the air can never, of course, be clearly known. But the story of the happenings that have shaved tragedy by a hair's-breadth make blood-curdling reading.

A week or two ago, for instance, Beatty, the American airman, ascended near New York with a lady passenger. The day was bitterly cold, and when the aeroplane was 1,500 feet up the gasoline began to freeze. The engine, of course, stopped. The airman started to glide downwards.

In the middle of the first long swoop, the lady, terrified by the stopping of the engine, turned hysterical, and began to scream and twist about in her seat. Just as she was about to jump frantically earthward, the airman, still managing his machine with one hand, bent back and gripped his scared passenger by the neck, and held her firmly down till the aeroplane softly touched the ground.

As he wiped the perspiration off his forehead, he remarked:

"Never again for me, thanks! Ladies barred!"

An equally hair-raising experience was that of the balloonist, Drury, who, caught in a fog some years ago, drifted over Manchester, England.

The hundred-yard-long guide rope hanging below caught firmly round a lamp-post, and before the unhappy balloonist had realized that he was anywhere but over the green fields, his balloon swung down over a cluster of tall factory chimneys, belching smoke and innumerable sparks. For five long minutes the balloon stayed there, the half asphyxiated balloonist knowing that one stray spark would blow the balloon and balloonist into innumerable pieces. An intelligent policeman noticed the rope twined round the lamp-post, and, though no balloon was in sight, guessed, and saved the situation. But the balloonist, who died a couple of years ago, promptly retired from aeronautics. His nerve was broken.

As an example of sheer daring under conditions that would make the ordinary plucky person faint with terror, there is the case of the two sisters who some years ago were giving a parachute display at an English watering-place. Side by side, the two balloons sailed slowly up into the air, the two women giving an acrobatic performance on the trapeze below each parachute.

The time came to cut free from the balloons and drop to earth. But just at the critical moment the disconnecting cord of the parachute refused to work. Through the still air of upper space the dismayed acrobat shouted to her sister, who was some yards away and lower down. The answer came in one word:

"Jump!"

Swinging her trapeze like a pendulum, the plucky girl gave the perilous leap into space, as though there were a net a few yards below. The practised hands of her sister caught her as she came. The trapeze stood the shock, and those who saw the doubly-laden parachute drop in safety saw a happy ending in one of the most sensational feats in the history of the air.

A most amazing escape from what seemed absolutely certain death was that of Adolf Baumgartner, a Swiss airman, last summer.

One thousand-five hundred feet up, a strong gust caught and upset his biplane, turning it completely over. The airman was so completely boxed in by supports and wires that he did not fall. Descending like a spinning leaf, the machine, whose engine had stopped, righted itself, tail up, nose rather downward. Half dazed, Baumgartner instinctively gripped the balancing lever as he hung in suspense.

For one awful second the biplane hung, then, the planes gripping the air, the collapse changed to a downward glide. Baumgartner got out as calmly as if he had not been performing two complete somersaults in the air, but fainted a few moments after.

DEDICATION.

"If I were a great author I would dedicate a book to you."

"You'll do that anyhow," replied the bride.

"What sort of a book?"

"A check book."

A man never complains of his wife's relations—if she hasn't any.

BUTTERMILK AS FOOD.

It Is Given a High Rating by Hygienic Experts.

An ordinary glass of buttermilk contains about as much nutriment as two ounces of bread, a good-sized potato or a half pint of oysters, says a recent bulletin of the United States Department of Agriculture. It thus contains about the same food constituents as skim milk, but it has an added hygienic value because the protein is more easily digested than the protein in skim milk, and therefore is often prescribed by physicians for children and invalids, especially those suffering from intestinal trouble.

Protein, being the most costly of food ingredients, is the one most likely to be lacking in inexpensive meals, and this is the nutrient which both skim milk and buttermilk supply in a cheap and useful form, and when taken with bread or used in cooking they form a very nutritious addition to the diet. Two and one-half quarts of skim milk or buttermilk contains about the same amount of protein as one pound of round steak, and costs about one-quarter as much. Two quarts of milk has a greater nutrient value than one quart of oysters. The nutriment in the form of oysters would cost 30 to 50 cents, while the skim milk or buttermilk would have a value on the farm of from two to four cents.

The latest photograph of Lady Duff Gordon, one of the survivors of the ill-fated steamer Titanic. Lady Gordon posed for this photograph just a few days before she sailed from England.

CLOCK OF ST. GILES.

Edinburgh's Famous Timepiece Damaged.

All loyal Scotchmen will learn with regret that the well-known clock on St. Giles' Tower in Edinburgh, which must have told the time to Scott and Burns, is doomed to disappear. Apparently a workman fell through the case and damaged the mechanism so badly that the civic authorities do not consider the wornout works worth repair. So the old clock will be banished to the City Museum and replaced by an invisible timepiece, without hands or face, which will hardly strike the hours and leave the aesthetic effect of the tower unspoiled. The ancient clock of St. Giles has seen two centuries of service, but is a mere giddy youth compared with some of the mediaeval horologues on English cathedrals. There are clocks that date from the fourteenth century at Exeter, Wells and Peterborough.

GLASS PAVEMENTS.

Seven or eight years ago a plant was established near Lyons, France, for the manufacture of paving-glass. Numerous descriptions of the new paving material were published, and a brilliant future was predicted for it. The city authorities of Lyons permitted the manufacturer to lay a specimen section of glass pavement in the Place de la Republique, a centre for heavy traffic. The glass bricks failed to stand the test of wear. The edges of them were soon broken and splintered, and many of the blocks split in two, so that within two years it became necessary to remove the widely heralded innovation and substitute stone or wood. The city officials are agreed that glass pavement can be used under favorable circumstances for sidewalks, but not for the middle of streets.

All women are more or less credulous, and some have faith in their husbands.

MAKING SAFE INVESTMENTS

DANGER OF CARELESS REAL ESTATE INVESTING.

Get-rich-quick fakirs covering Ontario at present time—Real Estate wildcatting replacing old fashioned Mining Stock Speculation.

The articles contributed by "Investor" are for the sole purpose of guiding prospective investors, and, if possible, of saving them from losing money through placing it in "wild-cat" enterprises. The impartial and reliable character of the information may be relied upon. The writer of these articles and the publisher of this paper have no interests to serve in connection with this matter other than those of the reader.

(By "Investor.")

I was talking the other day with a bond salesman who had been travelling through western Ontario in the interests of the investment house he represented. Nearly everyone he interviewed he found had been buying or thinking of buying real estate—principally western real estate. Not isolated instances, but numbers of apparently sane people, were buying land—or swamp—they had never seen from men they didn't know, on the strength of drawings and blue prints which might have been borrowed for the occasion, and not only buying but paying out real money on their purchases.

The amount of money which has gone out West—and even to Toronto—to pay for subdivision property and mortgages is appalling. Not since the days when George H. Munro sold farmers and others Canadian Marconi shares at $5 a share, which he bought on the open market at not over $1.50, has there been so much foolish eagerness to be swindled displayed as at the present time.

Early in this series of articles I gave some particulars about investing in real estate, and showed that nothing could be less wise than buying land which one hasn't seen. No sensible farmer would under any circumstances buy a farm in the next township he hadn't seen unless on the strongest advice of a trusted friend, and yet at the present time many such faremrs are breaking this fundamental rule of elementary investment just because the land—mind you it usually isn't even a farm, which could scarcely fail to be some good—is situated in the wonderful West.

No form of speculation or investment requires more careful thought than buying real estate. So many influences conspire to make it valuable or to detract from its value. Means of transportation are particularly important in the case of city or town subdivisions. As a rule you may be sure that any subdivision properties now on the market are too far away from the centre of things to make it possible to dispense with some means of rapid transit, and if there is no rapid transit there is no value to the property except as a speculative chance that some day a car line may run that way.

However, words and rules will not influence anyone who has gone so far as to be prepared to buy unseen land, and are not required for those who have had experience or are otherwise too discreet to buy under such circumstances.

There is one rule you may be quite sure of: If any property is sufficiently a bargain to warrant any one buying it as a sound speculation, you may be sure it would be cheaper and much less trouble to sell it to people at home who know all about the place than to peddle it about the country. It is only subdivisions miles away from anything that can be bought at a low enough price to make it worth while going to all the expense of sending salesmen through the country to sell on the installment plan. In many instances in the West of cities of not more than 20,000 inhabitants, the country about them has been subdivided further out from the centre of the city than has Toronto, a city of over 400,000.

My friend the bond salesman had this complaint also: "I go to see a man and offer him a sound security. I tell him its good points and its bad ones. I offer him goods that I would gladly buy myself if I had the money. I have the house back of me with a good many years' reputation, and as I have been on this district a number of years now I am pretty well known and could get the strongest references from any of the bankers. Can I sell them bonds? Not one quarter of what the wealth of my district would justify. Oh, no. Everyone is buying first Marconi, then mining stocks, now land, from men they don't know, who probably would get references from the bankers which would shut them out of business were they indiscreet enough to ask for them; who have no reputation, no strong house behind them, and whose land not one in ten would take a chance on buying for himself. It doesn't seem right."

I couldn't console him much. "Oh, well," I said, "they'll lose their money and learn a hard lesson." That didn't seem to satisfy him, for he was strongly under the impression, and on mature consideration I agreed with him, that if they lost all their money they wouldn't be able to buy bonds or in fact anything else.

He's quite right, and particularly so when he said that a great many people will believe a "good whopping lie" who are more or less skeptical when they hear a plain unvarnished talk from a salesman who doesn't need to lie to point out the good points of his bonds.

Meanwhile, if you are tempted to dabble in real estate, if necessary spend half your money going to see the property, and then you may save the other half; but don't buy real estate on a stranger's "say so."

MISER'S HOARD TO CHARITY.

Fortune Won by Privation Left to a Children's Hospital.

Vienna's charitable institutions are to be increased by a new children's hospital, to be erected at a cost of 2,500,000 crowns, bequeathed for the purpose by Josef Spitzberger, who died recently at the age of 88 years, says the London Standard. This fortune was accumulated by a life of hard work, accompanied by the severest self-privation.

Spitzberger was for many years head cashier of a large milling concern in Austria. He seems to have been born thrifty, for at a very early age he gave up taking sugar in his coffee, and persuaded his parents to give him the few pennies saved in this way, to put in the savings bank. And as he began, so he continued throughout his long life, contenting himself with the barest necessities. Every penny he could save went into the bank.

For many years he lived in a small miserable room in a poor street in the suburbs of Vienna. The room had neither stove nor light. To keep warm when he was not at business Spitzberger visited the museums and art galleries, and to save the expense of light he went to bed when it grew dark. He mended his own clothes, and his whole wardrobe consisted only of one suit and one shirt. During his last years he lived literally on dry bread and tea made fresh only once a week. He drank this decoction without any sugar.

Spitzberger was a frequent visitor on the Bourse, and made a good deal of money in lucky speculations. He was interested in public affairs, but never bought a newspaper, going at half past six o'clock every morning to read the sheets pasted outside the offices of the journals.

To all the remonstrances of his friends he replied: "Your pleasure is to spend—mine to save. Leave me my pleasure; it is all for a good purpose."

Spitzberger never married, and with the exception of some small legacies to relatives, has left his whole fortune for the children's hospital.

BERLIN THE RIVAL OF PARIS.

It Is Attracting Strangers in Increasing Numbers.

Which is the more important city, Paris or Berlin? A generation ago the question would not have arisen but recent statistics show that Berlin is rapidly coming to the front as a centre of attraction to the world. Between 1906 and 1910 the number of strangers annually visiting Berlin has increased from 1,029,461 to 1,278,609, while the number of strangers who visited Paris in 1908 (the last year available) only amounted to 1,209,514.

It is true that of the latter number no fewer than 460,709 were foreigners, whereas in Berlin out of the 1910 visitors only 253,838 were foreigners. As against this, however, it ought to be noted that since 1906 the number of foreigners who have visited Berlin yearly has increased by over 42 per cent., which is a more rapid rate than is shown by Paris, and Berlin therefore must soon overtake Paris.

6% INTEREST AND SAFETY

¶ Price Bros. and Company Bonds pay 6 per cent on the investment. They offer the strong security of first mortgage on 6,000 square miles of pulp and timber lands—which are insured at Lloyds against fire. The earnings of the Company at present approximate twice the bond interest. The new pulp mill in course of construction will double this earning power. Purchased at their present price they pay interest at the rate of 6 per cent. The best posted investors in Canada and England have purchased these bonds. Owing to the security and increasing demand of the products of the Company, these bonds will unquestionably increase in value.

If you have money to invest write us for complete information.

ROYAL SECURITIES CORPORATION LIMITED

BANK OF MONTREAL BUILDING . . . YONGE AND QUEEN STREETS

R. M. WHITE, Manager — TORONTO, MONTREAL-QUEBEC-HALIFAX-OTTAWA, LONDON (ENG.)

Acquiring an Interest in a Successful Canadian Industrial Company

An opportunity of acquiring an interest in The Siemon Company, Ltd., the well-known and successful manufacturers of hardwood flooring and lumber, is afforded to the holders of the 7 per cent. Preferred and Profit-sharing Stock of the Company.

The Preferred Stock, a small block of which we are now offering, subject to prior sale, in addition to the 7 per cent. cumulative dividend, shares equally with the Common Stock in all dividends paid in excess of the 7 per cent. dividend. In this way, when 3 per cent. is paid on the Common an additional 3 per cent. will have to be paid on the Preferred, and when 6 per cent. is paid on the Common the same amount will also have to be paid on the Preferred in addition to the 7 per cent. regular dividend.

The Siemon Company is a consolidation of companies, with mills and plants located at Wiarton, Parry Sound and Lakefield, Ont., and there has been such a steady demand for the products of the Company that it is unable to fill more than 60 per cent. of its orders. Important extensions are now necessary in order to keep pace with the development of its business, and in particular it is desired to increase the already large number of valuable hardwood timber limits which the Company now holds. It is with a view of financing these extensions that we now offer a small block of the Preferred Stock.

Investments in the preferred stock of successful Canadian industrial companies have been the safest which Canadian investors have ever had.

We would be pleased to forward special circular containing full particulars regarding the Company, or, if you prefer, would make arrangements to have one of our representatives call to supply any information you may desire.

NATIONAL SECURITIES CORPORATION, LTD.

CONFEDERATION LIFE BUILDING, TORONTO, ONT.

The New Perfection Oil Cook-stove

Suits Everybody

It suits the most exacting French chef. It suits the housewife. It is found in luxurious villas—in camps—in farms—in humble city homes. Everybody uses it; everybody likes it. It is the all-round stove for all the year round. It bakes, broils, roasts and toasts as well as a coal range. It is equipped with a special heating plate, and we sell the New Perfection oven, broiler, toaster, and pancake griddle—each specially designed for use with the

New Perfection Wick Blue Flame Oil Cook-stove

All dealers sell the stove. It is handsomely finished in nickel, with cabinet top, drop shelves, towel racks, etc. Long chimneys, enameled turquoise-blue. Made with 1, 2 or 3 burners.

Free Cook-Book with every stove. Cook-Book also given to anyone sending 5 cents to cover mailing cost.

THE IMPERIAL OIL COMPANY, Limited

Winnipeg, Montreal, St. John, Halifax and Queen City Division, Toronto

BANISH PIMPLES AND ERUPTIONS

IN THE SPRING MOST PEOPLE NEED A TONIC MEDICINE

One of the surest signs that the blood is out of order is the pimples, unsightly eruptions and eczema that come frequently with the change from winter to spring. These prove that the long indoor life of winter has had its affect upon the blood, and that a tonic medicine is needed to put it right. Indeed, there are few people who do not need a tonic at this season. Bad blood does not merely show itself in disfiguring eruptions. To this same condition is due attacks of rheumatism and lumbago; the sharp stabbing pains of sciatica and neuralgia; poor appetite and a desire to avoid exertion. You cannot cure these troubles by the use of purgative medicines—you need a tonic, and a tonic only, and among all medicines there is none can equal Dr. Williams' Pink Pills for their tonic, life-giving, nerve-restoring powers. Every dose of this medicine makes new, rich blood which drives out impurities, stimulates every organ and brings a feeling of new health and energy to weak, tired, ailing men, women and children. If you are out of sorts give this medicine a trial and see how quickly it will restore the appetite, revive drooping spirits, and fill your veins with new, health-giving blood.

You can get these pills from any medicine dealer or by mail at 50 cents a box or six boxes for $2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

THE WRETCH.

"Now that our wedding day is drawing near," she said, nestling a little more closely in his arms, "I am beginning to be awfully frightened. Sometimes I almost feel tempted to run away and never come back."

"I didn't intend to tell you about it," he replied, "but I frequently feel that way myself."

"Why, Fred! I don't believe you really love me. You—you heartless wretch! I shall never speak to you again."

Some persons have periodical attacks of Canadian cholera, dysentery or diarrhoea, and have to use great precaution to avoid the disease. Change of water, cooking, and green fruit, is sure to bring on the attacks. To such persons we would recommend Dr. J. D. Kellogg's Dysentery Cordial as being the best medicine in the market for all summer complaints. If a few drops are taken in water when the symptoms are noticed no further trouble will be experienced.

"I saw Pibble standing on a corner yesterday winding up his estate." "His estate?" "Yes; a dollar watch."

Minard's Liniment Lumberman's Friend.

Tommy, aged ten, had a sister named May, of whom he was very fond. May had also a lover who was very fond of her. One night when their grandfather called he asked Tommy—"What do you call May's young man?" "I call him 'April showers,'" said Tommy. "Why," asked the old man, "what on earth makes you call him such a silly name as that?" "Well, you see," said Tommy, "he brings 'May flowers.'"

It is Criminal to Neglect the Skin and Hair

THINK of the suffering entailed by neglected skin troubles—mental because of disfiguration, physical because of pain. Think of the pleasure of a clear skin, soft, white hands, and good hair. These blessings, so essential to happiness and even success in life, are often only a matter of a little thoughtful care in the selection of effective remedial agents. Cuticura Soap and Cuticura Ointment do so much for poor complexions, red, rough hands, and dry, thin and falling hair, and cost so little, that it is almost criminal not to use them.

Although Cuticura Soap and Ointment are sold by druggists and dealers everywhere, a postal to "Cuticura," Dept. 5M, Boston, U.S.A., will secure a liberal sample of each, with 32-page booklet on Skin and Scalp Treatment.

THE QUEEN'S EXAMPLE FELT.

English Society Girls Turn to Domestic Science.

Ever since his widowhood, Lord Curzon has devoted himself principally to the welfare of his three young daughters. Periodically a rumor is circulated that the distinguished widower has chosen a successor to the stately Mary Leiter. The names of half a dozen eligible women have been mentioned as the second Lady Curzon, but it is his settled determination to remain unmarried.

Although prospective inheritors of a brilliant position, with all the ease from arduous duties that a large fortune commands, the Curzon girls are being educated in a very practical fashion, indeed. Lord Curzon is so intent upon inculcating the domestic instincts, for instance, that he has arranged for them to learn cooking and various kinds of old-fashioned needle-work.

This attention to the practical details of ordinary life is in keeping with the spirit abroad in the more exalted circles of English society, and is doubtless due in some measure to Queen Mary's influence. Several society brides of the immediate past were instructed in cooking before their marriage. The Duchess of Sutherland had Lady Rosemary Leveson-Gower taught to make Scotch cakes and biscuits, while the Duchess of Rutland's daughters know the mysteries of the kitchen as well as their own chef. Besides, many of these titled folk, including Lord Curzon himself, have a horror of the domestic revolting suffragette.

AN EXCELLENT REMEDY.

Baby's Own Tablets are an excellent remedy for little ones. They never fail to relieve baby of stomach and bowel complaints or the many other little ills that worry him. Besides this they are absolutely safe, being guaranteed by a government analyst to contain no opiates or other harmful drugs. Concerning them Mrs. Sam. Legros, Ste. Cecile, Que., writes:—"I have found Baby's Own Tablets an excellent remedy for my little one and would not be without them." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

INDEMNITY REPAID.

A German statistician declares that the war indemnity of $1,000,000,000, paid by France to Germany in 1871, has been almost completely repaid, as German losses at French gambling resorts have amounted to $12,500,000, a year.

THE SEASHORE.

The Grand Trunk Railway aims and intends to make New London and its environments a popular seaside resort. The first move in this direction is the inauguration of an up-to-date night express service between Montreal and New London, which will have connection at Montreal for passengers eastbound and westbound between Chicago and Montreal and intermediate points. Such well known resorts as Fisher's Island, Watch Hill, Block Island and Long Island, which are in the immediate vicinity of New London, will be reached with ease and comfort. There are splendid hotels at these places to suit the pockets of all, and many delightful cottages are open to those who desire more exclusive accommodation. A handsome booklet, profusely illustrated, will be mailed free on application to A. E. Duff, District Passenger Agent, Toronto.

Perhaps the worst thing about charity is that it covers a multitude of sins that should be exposed.

Protect the child from the ravages of worms by using Mother Graves' Worm Exterminator. It is a standard remedy, and years of use have enhanced its reputation.

PLENTY OF CARRIAGES.

According to recent statistics, the population of Paris is 2,700,000, and there exists a carriage for each forty-one inhabitants and a bicycle for each sixteen. At this rate, making allowance for the smallness of Parisian families, hardly any one needs to walk unless by choice. As the number of vehicles is duplicated every fifty years, 1950 will find the number of vehicles in Paris too large for the city streets to contain unless they are scattered evenly throughout the capital.

A CRANK.

"What does your husband like for his breakfast?"

"Anything I haven't got in the house."

ALL COME FROM THE SAME CAUSE

WHY DODD'S KIDNEY PILLS CURED MME. DUFAULT'S ILLS.

She Had Diabetes, Sciatica, Backache and Headache, but Found Speedy Relief in the Great Canadian Kidney Remedy.

St. Boniface, Man., May 6. (Special).—After suffering for three years from a complication of diseases, Madame Oct. Dufault, of 84 Victoria-street, this city, is once more in perfect health and Dodd's Kidney Pills are credited with another splendid cure. Speaking of her cure, Madame Dufault says:

"Yes I am again a well woman, and I thank Dodd's Kidney Pills for it. I suffered for three years and I may say I had pains all over my body. I had sciatica, neuralgia and diabetes. My back ached, and I had pains in my head. I was nervous and tired all the time; there were dark circles around my eyes which were also puffed and swollen, and heart fluttering added to my troubles.

"But when I started to use Dodd's Kidney Pills I soon began to get better. I took thirteen boxes in all, and I think they are a grand medicine."

Every one of Madame Dufault's ailments is a direct result of diseased kidneys. That's why Dodd's Kidney Pills so quickly cured them all.

TWO EFFECTIVE COAT SETS.

Last season's suit may be given an up-to-date appearance by the addition of a set of new collars and cuffs, as shown in the illustration. The upper set is of black and white striped taffeta, with over-set of Irish lace. Below this is a wide collar of white flannel, trimmed with tiny buttons to match the suit.

A Thorough Pill.—To clear the stomach and bowels of impurities and irritants is necessary when their action is irregular. The pills that will do this work thoroughly are Parmelee's Vegetable Pills, which are mild in action but mighty in results. They purge painlessly and effectively, and work a permanent cure. They can be used without fear by the most delicately constituted, as there are no painful effects preceding their gentle operation.

More young men might manage to earn a living if their fathers declined to do it for them.

Keep Minard's Liniment in the house.

THE DERIDED OBESE.

"Laugh and grow fat."

"Yes, and then get laughed at."

If one be troubled with corns and warts, he will find in Holloway's Corn Cure an application that will entirely relieve suffering.

SOME OBJECTOR.

"Does your wife object when you stay out late at night?"

"She couldn't file more objections, my dear sir, if she were a corporation lawyer."

CLUBS TO OFFSET SALOONS.

King George Provides Homelike House for Workmen.

While Watson Rutherford, a Liverpool M.P., has introduced a bill in Parliament to make British liquor saloons more like "a home from home," King George is tackling the liquor problem in his own way, down in Norfolk, around his home at Sandringham.

He has built a clubhouse for his workmen at West Newton, where liquor can be obtained in reasonable quantities under the best conditions and accompanied by comfortable surroundings. This is to compensate the workmen for the prohibition of saloons on the Sandringham estate.

But some of the workmen live at Dersingham, a mile or so from Sandringham, and so far have counted themselves especially independent, as they are outside the radius of royal prohibition. To rope them in the King now plans to build a second club-house at Dersingham, as a Coronation gift, where the members can see all the papers or play at games while enjoying their evening glass.

As for the country generally, every visitor to England from overseas comments on the squalor of many of the saloons. The memoranda accompanying the Rutherford bill says these saloons are mostly designed merely as places to drink in, with no provision as in other civilized countries, for the adequate accommodation of the public. The bill does not propose to take away any of the powers for police supervision of saloons or to increase the facilities for more drinking, but it does plan to raise the tone and comfort of the liquor shops, for the promoters believe they will tend to increase good order and national sobriety.

BADLY ULCERATED LEG.

Zam-Buk Cured Her when so Bad She Had to Use Crutches.

For varicose sores, bad leg, or chronic ulcers, Zam-Buk is without equal as a healer. A proof of this is just to hand from Montreal. Mrs. T. Edwards, of 164 Amherst St., writes: "Some time ago a bad sore broke out on my left leg near the ankle. For a week or two I did not heed it, but it got so bad that I could hardly walk. I sent for our doctor, and he told me that I would have to lay up with the wound. I did so for three weeks. At the end of that time the ulcer healed a little, but I could only move about by using crutches.

"The sore then broke out badly, and the doctor told me that the only thing that would cure it would be an operation, and that I should have to lay up for a year.

"My son had cured a bad cut on his finger by using Zam-Buk, and he advised me to give this balm a trial. I did so, and in less than a week's time it stopped the pain, which had been so bad that many nights I did not get a wink of sleep. In a very short time the wound was so much better that I was able to move about and do my work. I persevered with Zam-Buk, with the result that the wound is now perfectly cured, and the limb is as sound and strong as ever."

Zam-Buk is just as good for piles, abscesses, boils, scalp sores, blood poison, festering wounds, cuts, burns, scalds, eczema, eruptions, and all skin injuries and diseases. All druggists and stores 50c. box, or Zam-Buk Co., Toronto, for price.

The real thing in honest men is one who pays the widow that $5 he borrowed of the late lamented just before he left this vale of tears.

It Will Cure a Cold.—Colds are the commonest ailments of mankind and if neglected may lead to serious conditions. Dr. Thomas' Eclectric Oil will relieve the bronchial passages of inflammation speedily and thoroughly and will strengthen them against subsequent attack. And as it eases the inflammation it will stop the cough because it allays all irritation in the throat. Try it and prove it.

THE PROBLEM SOLVED.

In sinking a shaft at a colliery near Doncaster, England, water was encountered. It was pumped out at the rate of 7,000 gallons a minute, but the supply seemed inexhaustible, and the engineers were about to give up. But some German engineers came to the rescue. They bored holes around the shaft to a depth of 400 feet, lined these with steel tubes, and pumped down a freezing mixture, which soon turned the ground and the water into a great block of ice. Through this the boring was continued as through rock; then the shaft was lined with iron plates. This done, warm water was pumped down the tubes to thaw out the ground gradually. The frost wall was so strong that it has required three months to thaw.

"Eh, doctor," said a gillie of a small Scotch town to a friend, "he maun hae been an extraordinary man, that Shakespeare. There are things hae come into his head that never would have come into mine at all."

The Empire's most delicious beverage

A BRIGHT OUTLOOK.

Mrs. Muchblest—I feel uneasy. The baby hasn't cried all day.

Mr. Muchblest—So do I. He will probably cry all night.

A Pleasant Purgative.—Parmelee's Vegetable Pills are so compounded as to operate on both the stomach and the bowels, so that they act along the whole alimentary and excretory passage. They are not drastic in their work, but mildly purgative, and the pleasure of taking them is only equalled by the gratifying effect they produce. Compounded only of vegetable substances the curative qualities of which were fully tested, they afford relief without chance of injury.

GOING TOO FAR.

The Husband—"Well, say what you will, my dear, you'll find worse men than me in the world."

The Wife—"Oh, Tom, how can you be so bitter?"

Somebody has discovered that the hobble skirt does not prevent a woman from jumping to conclusions.

Ask for Minard's and take no other.

SURE PROOF.

Doctor—"What makes you think the boy isn't normal?"

Mother—"Everything. He was sixteen years old last March and yet he doesn't seem to think he knows more than his father."

Don't be a quitter. There is still plenty of room in the hall of fame.

PURIFIED HIS BLOOD

Dr. Morse's Indian Root Pills Healed Mr. Wilson's Sores

When the sewers of the body—bowels, kidneys and skin ducts—get clogged up, the blood quickly becomes impure and frequently sores break out over the body. The way to heal them, as Mr. Richard Wilson, who lives near London, Ont., found, is to purify the blood. He writes:

"For some time I had been in a low, depressed condition. My appetite left me and I soon began to suffer from indigestion. Quite a number of small sores and blotches formed all over my skin. I tried medicine for the blood and used many kinds of ointments, but without satisfactory results. What was wanted was a thorough cleansing of the blood, and I looked about in vain for some medicine that would accomplish this.

At last Dr. Morse's Indian Root Pills were brought to my notice, and they are one of the most wonderful medicines I have ever known. My blood was purified in a very short time, sores healed up, my indigestion vanished. They always have a place in my home and are looked upon as the family remedy."

Dr. Morse's Indian Root Pills cleanse the system thoroughly. Sold by all dealers at 25c a box.

TWO TARTARS.

Hobb—"Is your wife critical?"

Nobb—"Frightful! She is almost as bad as my 15-year-old daughter."

May 24th will be observed as a holiday as usual this year, but the Government may take steps in the future to the observance of King George's birth day on June 3rd.

Mr. and Mrs. Alf. Bedford celebrated their china wedding in London on Thursday last. A number of Exeter people attended and spent the evening as guests of Mr. and Mrs. Bedford.

Word was received here from the West this week by Mrs. Thos. Sanders, Huron street, that her son, Frank Sanders who resides near Outlook, Sask., had recently lost two children by death, and he himself is quite ill, suffering from tapeworm

Mr. Wm. Arnold, a former resident of Exeter, was awarded $48 in a Division court case tried at Kincardine a few days ago. The suit was for damages against Robt. Lowry, who traded a mare with Mr. Arnold, which turned out to be a kicker.

Mr. G. E. Anderson got an unpleasant shaking up one day last week by being thrown from a rig when the dashboard, against which he was bracing himself, gave way. The horse became frightened at the rattle of some tinware that he had in the wagon when returning from doing a job in the country. After a run of a mile the horse was caught none the worse.

The quarterly official meeting of the James Street Methodist Church was held Tuesday evening when the following stewards were elected for the ensuing year:—Recording steward, Peter Frayne S. Martin, F. Wood, E. J. Shapton, R. Coates, John May, C. H. Perkins, W. F. Down, C. N. Keddy. S. Martin was elected delegate to the District meting and J. G. Jones alternative.

The following from the Ottawa Journal has reference to a son of the Rev. Richard Hobbs, pastor of the James-st. Methodist church, Exeter.—"Mr. Allan B. Hobbs, B.A., of The Journal editorial staff, has been appointed editorial writer on the Grain Grower's Guide at Winnipeg, and he has left for the west. Mr. Hobbs did work for the Toronto News while attending his classes at Toronto University, and, after graduating, came to The Journal. He has been a most valued member of the staff for some eighteen months. Mr. Hobbs is possessed of considerable literary ability, and with the experiences of the coming years is expected to attain a very distinguished position in Canadian journalism. On the occasion of his leaving Mr. Hobbs was the guest last evening of some of the members of the editorial staff of the Journal at an informal dinner in the New Russell hotel. After dinner Mr. Hobbs was presented by his colleagues with a solid leather handbag and accorded the best wishes of the entire staff."

Two farmers were not long since discussing their local paper. One thought it had too many advertisements in it. The other replied; "In my opinion the advertisements are far from being the least valuable part of it. I look them over carefully and save at least five times the cost of the paper each week through the business advantages I get from them." Said the other, "I believe you are right.—I know that they pay me well and rather think it is not good taste to find fault with the advertisements after all." Those men have the right idea of the matter. It pays any man with a family to take a good local paper for the sake of the advertisements if nothing more. And if business men fail to give farmers a chance to read advertisements in the local paper, they are blind to their own interest, to say the least of it. "You never trade with me," said a business man to a prosperous farmer. "You have never invited me to your place of business and I never go where I am not invited; I might not be welcome," was his reply.

HICKS' FORECASTS FOR MAY.—A regular storm period central on the 13th, involves the 11th to the 16th. The Moon is on the equator on the 12th, and new on the 16th, which facts indicate that a daily cycle of heavy rain and thunder storms, beginning on the 12th, will most likely continue until after new moon on the 16th. If the barometer drops to low readings about the 11th and 12th, look for severe storms of wind, rain, hail and thunder to follow, and if the barometer fails to rise and the winds continue from the east and south with continued high temperature, expect storms to repeat themselves daily. When the wind shifts steadily and cooler from the west, and the barometer rises resolutely, the cycle of daily storms will cease, and settled weather will follow.

Sucker fishing is one of the sports just now.

Mrs. Wm. Sanders, 3rd concession of Stephen is recovering from an attack of bronchitis.

Mr. Frank Mallett, who has been working with T. J. Wilson during the winter, has accepted a position with R. N. Rowe, furniture dealer.

To run a newspaper without occasionally publishing an item that is untrue, or without giving offence, is like running a railroad without having accidents and smash-ups; it can't be done.

"Have you frogs' legs?" asked a man of the waitress in the restaurant. No sir, I haven't" said the girl as she flushed and drew herself up. "It's rheumatism that makes me walk like that."

James Parker, a blacksmith, claiming to hail from Stratford, having imbibed too freely of booze, was taken in charge by Constable Bissett and was compelled to take lodging in the lockup over Sunday.

An ambitious man put some $5000 in to a newspaper in Midland two or three years ago. He spent a good deal of money after that to keep it alive, and now the paper has gone to the graveyard.

A good many years ago, when a boy was whipped in school, he received another whipping when he went home, but in these days the father and mother wipe his tears away and go and whip the teacher.

Attention has been called by the Department of Education to the fact that the fee of $1.00, which was to have been imposed on candidates writing the Junior School Entrance examination, will not be demanded.

Rev. Millyard of Hensall preached in James Street Church on Sunday. Rev. Hicks of Crediton will occupy the same pulpit next Sunday. Rev. Hobbs says if his present improvement continues he may be able to take the work himself in in a very few weeks.

Rev. Wm. Lowe of Lucan, who occupied the pulpit of the Trivitt Memorial church on Sunday last, preached two strong and forceful missionary sermons. Rev. D. W. Collins preached similar discourses in Hensall, not going to Wingham as was announced.

Harry, son of Mr. Alby Robinson, traveller, while on his way to Exeter from Crediton in an auto Tuesday night something went wrong with the works when opposite Mr. S. Parson's farm about a half mile south of town and the machine turned turtle into the deep ditch. Mr. Robinson was underneath the machine but managed to escape without much injury, having received only a few slight bruises and a slight shaking up. The auto was damaged to the extent of $35 or $40

Mr. George Cudmore, Huron street, met with an accident on Monday that might easily have resulted seriously. He was harrowing in Mr. Marchand's garden and the harrows becoming clogged with some weedy stuff stopped the horse to remove it. While thus engaged the horse made a turn and started away, a portion of the harrow tilting up and then falling on Mr. Cudmore, causing several painful bruises. Luckily, however, the bolt dropped out of the clevis that connected the horse to the harrows and thus averted any further danger.

GOOD HORSE RETURNED.—Mr. W. Tapp has purchased that fine imported horse "Storm King", lately owned by Messrs. Bawden & McDonell, and sold some three years ago to a gentleman in Owen Sound. He is such a good breeding horse that farmers wished him back again, and consequently Mr. Tapp has purchased him and he will arrive this week. Storm King has a fine pedigree and has a most excellent record. Many of the highest priced horses sold around here this winter were sired by "Storm King". He will stand for the season at the McDonell Barns, John-st. Parties needing the use of a good horse will do well to see Mr. Tapp at the Central Hotel.

W. J. CARLING

Mrs. Morlock is quite ill this week.

Miss Nina Carling and Miss Evelyn Gill were in London Tuesday.

One would think that the ordinary newspaper publisher has nothing else to do but publish gratis a lot of advertising, such as Guelph Agricultural College stuff, conservation committee reports, and the government annuity write-ups; that is judging by the amount of this matter which weekly comes into a printing office, with requests to publish free of charge. This stuff is purely advertising and should be paid for. Lately a Quebec Drug firm asked us to advertise their cure-all-pills and take our pay out in pills. We wonder what they thought was wrong with us. Another firm wants us to go into the shoe cleaning business on a similar proposition. Then there are a lot of fruit tree men want us to plant trees on our roofs in payment of advertising. These classes of stuff are confined to the waste paper basket without hesitation as we are not in the free publicity business just yet.

PUBLIC MEETING—A public meeting will be held in the Town Hall, on Tuesday night, May 21st, to discuss the proposed Drainage By-law. Let there be a good attendance of the ratepayers.

FATHER DEAD—The death occurred in Streetsville on Friday last of Mr. William Steen at the age of 78 years Death was due to old age. Mr. Steen was a native of Canada and lived in Ontario all his life. Four sons and three daughters survive. One daughter is Mrs. W. B. Weidenhammer of Exeter, who had been at his bedside during his illness. The funeral took place on Monday.

RAPID PROMOTION—Mr. Clarence E. Miners, who went west 13 months ago to act as clerk in the Nutana P. O. at a salary of $50 a month, was after two months made mail clerk on the C. N. R. running from Saskatoon west to Kindersley, 185 miles, at a salary of $85 a month. Two weeks ago he was placed on the main line of the G. T. P. and runs from Rivers, Man., to Wainwright, Alta., a distance of 525 miles, at a salary of $100 a month. This is rapid promotion for a young man of only 20 years of age, but Clarence is a steady and deserving boy.

DIED IN THE WEST.—The Crystal City Courier of last week reports the death of a former Exeter resident, Mr. Samuel Holman, brother of Mr. George W. Holman of Egmondville.—"The swift winged angel of death has again visited the Rosebud district removing from its midst a well known figure in the person of Mr. Samuel Holman. A few weeks ago one of his knees caused some little trouble by inflammation for which he went to the hospital at Hannah, N. D., for treatment. While there further symptons of nephritis developed resulting in blood poisoning, causing his death on the evening of May the 5th. Mr. Holman was only fifty-nine and leaves a wife, seven sons and four daughters to mourn his loss."

DEATH OF WILLIAM ANDERSON—The news of the rather sudden death of Mr. William Anderson, a familiar character and well-known citizen of Exeter, came as a great surprise to his friends here last week, he having died at Victoria Hospital, London, on Tuesday, May 7th, a little over a week previous deceased left here apparently enjoying his usual good health, but shortly after some internal trouble developed, and he was moved from 229 Richmond street, to Victoria Hospital where an operation was performed, but in afforded no relief to his trouble and he passed away. Mr. Anderson was of a reserved nature, but was kind hearted and industrious. He was aged 56 years. His remains were brought here for burial the funeral taking place from the home of Mr. Samuel Baskerville, (brother-in-law) on Friday to the Exeter cemetery.

DEATH OF SAMUEL SKINNER—Another of the worthy pioneer residents of this township passed to his reward on Wednesday, of last week, May 1st. We refer to the demise of Samuel Skinner, in the 81st year of his age. Mr. Skinner who was, until about a year ago, one of the hardiest and most rugged of Usborne's residents, was overtaken with an affliction of the heart and from that time to his death he had been in failing health. No change however, manifested itself until the Tuesday morning before his death, when he was stricken down with a stroke of paralysis, and in a few short hours death claimed him, passing away about 12 o'clock Wednesday. Deceased was born in Devonshire, England, in the year, 1831, and came to Canada with his wife and family in 1854, first settling in London. A few months later he moved to the 2nd concession of Stephen, where he remained only about 2 years, and then moved to Usborne where he resided until death. His aged partner, whose maiden name was Mary Ann Kelland, predeceased him about five years. Mr. Skinner was that type of man that a township or community would be proud to possess—being honest and true, kind hearted and industrious, and as a neighbor and friend there could be no better. He was a staunch Conservative and a member of the English church. He is survived by six of a family—four sons and two daughters—Thomas of Owen Sound, William, Samuel and Robert of Usborne. Mrs. John Noble of Wiarton, and Mrs. Jno. Peart of Usborne. The funeral which was largely attended took place to the Exeter cemetery on Friday.

WOODHAM

There died at her home here on Sunday one of our oldest residents in the person of Mrs: Isabella Walker, aged 70 years. The funeral took place yesterday.

EXETER COUNCIL

The Council met in the Town Hall Friday evening, 10th inst. Members all present. Minutes of last meeting read and approved. Tenders were received for the excavating and laying of tile; also for the furnishing of tile. The same were opened and read as follows,—

Toronto Pottery Co.—12 in. sewer pipe 23½c. a ft., T branches 2-ft long $1.00 each, curves and elbows 75c. each; 15 inch pipe 32¾ a foot, Y or T branches 2 ft. long 1.35 each, curves and elbows 1.00 each.

The Dominion Sewer Pipe Co.,—12 in. pipe 27c. a ft., 15 in. 39c. a ft., 4 in. junctions 22½c. each, 12 do. 1.12, 15 do. 1.65; 4 bends 15¾c. each.

Hamilton & Toronto Sewer Pipe Co.—12 in. pipe 24½c; 15 in. 33c.; 12 in. junctions 1.08; 15 in. do. 1.46, 2 ft long

Toronto Sewer Pipe Co.—12 in pipe 25¾ 15 in. do. 35¾; 12 in. junctions 1.80; 15 in. do. 2.44.

Ontario Sewer Pipe Co.—12 in. pipe 27c. a ft; 15 in. do. 36c., 15 in. double strong 39c.; 12 in. junctions 1.12, 15 in junctions 1.53; 15 do double st. 1.65.

T. Martin Co., London, excavating and laying tile, etc., $2540.00; manholes at 10.00 each.

W. J. Johnston & Co., London,—Excavating etc. 2744.00; manholes each $15

John Bell, Exeter—Excavating etc., 2475.00; manholes each 8.00.

Jos. Lawson, Crediton—Excavating, etc 2100.00; manholes each 6.00.

J. N. Howard, Exeter—Excavating, etc. 1800.00; manholes each 5.00.

A. Q. Bobier, Exeter,—Excavating etc., furnishing tile $4100.00.

The letting of contracts was left to Monday night.

Levett—Scott—That Mrs. Sutton's taxes be refunded.—Carried.

Ford—Rivers—That the Court of Revision hold its first sitting for the hearing of appeals, etc., Friday, June 7th at 7 o'clock p. m.

A special meeting of the Council was held in town Hall Monday ev'g, 13th inst. All members present. Minutes of last meeting read and adopted. Scott—Ford—that J. N. Howard's tender of $1800 for excavating and $20 for four manholes be accepted, subject to the passing of the By-law, Mr. Howard to furnish bonds satisfactory to the Council, and that the work be commenced by June 15th and be completed by the 15th of August.—Carried. Levett—Rivers—that the Hamilton and Toronto Sewer Pipe Co's tender being the lowest be accepted, subject to the passing of the By-law. Quality of pipe to be as per specification, also to be satisfactory to the engineer.—Carried. Mayor Armstrong of Paris, who was a visitor at the council meeting, was called upon by Councillor Levett to say a few words as to how they did things in his town. Mr. Armstrong replied, stating he did not come with the intention of saying anything, but merely came to see how you do your business here, being interested in that sort of work. He fully went into the waterworks and sewerage systems, also the workings of the Hydro Electric and advised to secure it as there is nothing that would boom your town like Hydro Electric, and in order to be anything like a place nowa-days you have to have both power and fire protection. Mr. Armstrong spoke for over an hour. Levett—Scott—that a vote of thanks be tendered Mayor Armstrong for the very able and interesting address he had given on the Hydro Electric system and other municipal topics—Carried. The Reeve thanked Mr. Armstrong in behalf of the Council for his very able and timely address, and at some time in the near future would be pleased to have him come here and speak again on the subject of Hydro Electric. Mr. Armstrong replied, thanking the Council and stated that he would be only too pleased to come and speak to them at any time if he could be of any service to them.

T B. Carling, Clerk.

EXETER SCHOOL BOARD

Meeting of the Board held in the Town Hall, Monday, May 13th, 1912 with all members present. The following is the order of business duly submitted and approved. Per chair—

Minutes of the previous meeting. Reports of Coms. Repairs-Conductor pipe repaired. Principal-attendance largely reduced owing to the prevelance of measles about 100 cases being reported.

Test exams not very promising Form I to be dismissed June 10th to allow room for the midsummer exams.

Tulip beds very promising. Collection of aster seed received from Guelph plant ed. Each room holds a flower bed in charge. Insurance policy for 1800.00 renewed with refund due the school on premium of $16.40. Per F. Wood and R. N. Creech that the principal's report be accepted. Per F. W. Gladman and A. E Fuke that the committee appointed to secure a resident Agricultural Instructor for the district be empowered to send a deputation to the June session of the County Council if found advisable.

The Inspector, J. B. Tom, being present on invitation of the chair spoke of the Public School section of the school as being with one or two Exceptions Thoroughly well worked. Miss Murray had been appointed to take charge of part of the 4th class, and Miss Kinsman of a junior third. Ground glass was advocated by the inspector as the best medium for diffusing and shading light. The Board's delegation to the Education association meeting at Toronto F. W. Gladman, then spoke supplying the following ideas in the minds of the association as worthy of consideration

1st. That the character and ability of the teacher should be held as 90 per cent. of the value of the school.

2nd, That the child should be held during its public school years as the ward of the state and be by it provided with all necessary facilities and aids as required for its full equipment Educationally for any of the callings of life.

3rd, That it may be desirable for this board to extend the school age within the corporation of Exeter from fourteen to fifteen years of age.

4th, That it may be desirable in the interests of the child as well as the school to introduce regular medical inspection of the schools.

5th. That it may be the duty of this board to initiate a movement for the institution of a trustee's association for this riding which shall elect a representative annually to support its views on the Educational council of the Province, and so to bring them directly to the attention of the minister.

6th. That it may be desirable on the part of this board that a resolution be passed and forwarded,—That all educational institutions of this province be held under the direct supervision of the minister, and so duly inspected in common with all institutions directly established by government.

Per R. N. Creech and F. Wood—That the thanks of the board be given our delegation, Mr. Gladman, and that the expenses incident be paid; and the ideas suggested be held over for consideration at the next meeting. Per R. N. Creech and F. Wood—That the baseball club (F. Boyle, pres.) be granted the use of school grounds subject to conditions of 1911. Per R. N. Creech and I. Armstrong—That the disposal of the daily refuse of the school be directed by the grounds and sanitary committee. Per F. Wood and R. N. Creech —adjournment to 1st Monday in June.

J. GRIGG, Sec'y

WHALEN.

Miss Edna Gunning has returned home after spending a few weeks in Exeter.—Mrs. Devitt and daughter of Buffalo, N. Y., are visiting here, the guests of Mrs. Frank Morley. Her mother, Mrs. Charnock, also of Buffalo, spent last week here, the guest of Mrs. Morley.—The organized Bible class of Granton, 15 in number, visited our class here on Sunday, much to the delight of the school.—The vote on Church Union for this circuit was 173 for and 20 against, out of a membership of 209, including Centralia and Whalen.—Fall wheat is improving fine, the wet weather of late having been a great help to the wheat and grass lands. Seeding is at an end and farmers are busy preparing the corn and root lands.—Engineer Farncombe of London was in Biddulph last Friday outlining a water course through the front of the township, one mile east of Centralia.—Mr. Wm. Morley and family spent Sunday with her parents in London Township.

BIRTHS

Skinner—In Usborne on May 13th, to Mr. and Mrs. Everett, Skinner, a daughter.

Pollard—In Windsor, on May 11th, to Mr. and Mrs. Percy Pollard, nee Della Hawkins, a daughter.

Eacrett—In Hay, May 6th, Christopher Eacrett, aged 78 years.

Walker—In Woodham, on May 12th, Isabella Walker, aged 70 years.

NOTICE TO CREDITORS

In the matter of the Estate of Harriet Payne, late of the Township of Stephen, in the County of Huron, spinster, deceased.

Notice is hereby given pursuant to the Statute in that behalf, that all persons having claims against the estate of the said Harriet Payne, deceased, who died on or about the 23rd day of January, 1912, are required, on or before the 18th day of May, 1912, to send by post prepaid, or to deliver to Kenneth Goodman, of the Town of Parkhill, in the County of Middlesex, Solicitor for the Executors of the last Will and Testament of the said deceased, full particulars of their claims and statement of their accounts, and of the nature and value of the securities, if any, held by them, duly verified,

And take notice that after the said 18th day of May 1912, the said executors will proceed with the distribution of the assets of the said deceased amongst the persons entitled thereto, having regard only to the claims of which notice shall then have been received, and that they will not be liable for the assets, or any part thereof, so distributed, to any person or persons of whose claim they shall not then have had notice.

JOHN SHERRITT,
SAMUEL WEBB, Executors.
by KENNETH GOODMAN
Their Solicitor.

Dated at Parkhill this 23rd day of April A. D., 1912.

TORONTO CORRESPONDENCE

INTERESTING GOSSIP FROM THE QUEEN CITY.

Toronto's Reputation for Intolerance — Judge Mabee Honored in Death—Who Will Receive the Vacant Position? —Canadian Club Officers, &c.

(We have arranged for a weekly letter about Toronto affairs, which, we believe, will be of great interest to many of our readers. These letters will be from the pen of one of Canada's foremost journalists, a man who has covered some of the world's greatest happenings and now occupies a leading position on one of the Toronto dailies.)

The intolerance of Toronto has been a theme of discussion before this, but never so forcefully as recently. "Toronto is the home of International hatred," declared Mr. Justice Riddell in a recent address. "Toronto, without exception, is the most intolerant city in the world," said a speaker at another meeting.

These remarks do not apply particularly to Toronto's reputation for Sabbath observance, and similar virtues, but to the fact that Toronto is impatient of any opinion that does not agree with its own. It is this arrogance of opinion, which manifests itself among all classes, which gives such bitterness to Toronto controversies, whether it be on Sabbath observance, religious issues or merely politics. Perhaps we will mellow with age.

HONORED MR. MABEE.

Rarely has the death of any Canadian called forth such widespread expressions of sorrow and esteem as has that of Hon. J. P. Mabee. A Premier could have had scarcely more attention, and indeed it has been stated that the position which Mr. Mabee made for himself as Chairman of the Dominion Railway Board was second in importance only to that of the Premiership of Canada.

Though a man of the world, Mr. Mabee was particularly happy in his domestic relations, according to the testimony of intimate friends. He was the apple of his mother's eye. She predeceased him only recently, as did also his wife. They spent their summers always at Port Rowan, the late Judge's birthplace. The surviving family consists of a young son and daughter.

WHO WILL SUCCEED HIM?

The filling of his position is the biggest piece of patronage the new government has had to deal with since it came into power. Conjecture as to what Mr. Borden and Mr. Cochrane, Minister of Railways, would do began immediately Mr. Mabee's death was announced. Some surmized that D'Arcy Scott, Vice-Chairman of the Board, might be promoted. He is a son of Senator Scott of Ottawa, has shown considerable capacity for his work and comes of a family that often gets what it goes after. Others guessed that one of the High Court Judges might be offered the position. The names of prominent members of the bar, such as, Wallace Nesbitt, K.C., I. F. Hellmuth, K.C., and Mahlon K. Cowan, K.C., were early mentioned. The rumor attached to the latter name was particularly interesting in view of the fact that he has always been an active Liberal, with a wide reputation for forcefulness and resource on the stump, coupled with the report that, despite this fact, he had strong support from influential members of the Cabinet.

Others thought that the position should go partly as a reward for political services as well as for familiarity with railway matters, and in this connection the names were discussed of some of the former aspirants for the position of Minister of Railways, such as E. A. Lancaster, K.C., M.P. for Lincoln; W. F. Maclean, M.P. for South York; A. E. Armstrong, M.P. for East Lambton; Arthur Meighen, M.P. for Portage La Prairie, and C. A. Magrath, former M.P. for Medicine Hat. The latter has a wide knowledge of the transportation needs of the West, which loom so large at present, though he lacks the legal and judicial knowledge which has hitherto been regarded as a requisite for the position.

It is interesting to note that when the name of H. L. Drayton, K.C., Corporation Counsel for Toronto, was mentioned it was pointed out that he is already drawing a salary of $14,000 a year, while the Railway Commissioner's position is worth only $8,000. A civic salary of $14,000 is something that Toronto justly takes some credit for.

CANADIAN CLUB OFFICERS.

The Toronto Canadian Club, the parent organization of the movement which is spreading widely, has just elected its officers for the next year. Much of the success of this organization has been due to the judgment with which these officers have been selected, and this year promises to be no exception. The new President is Dr. A. H. U. Colquhoun, Deputy Minister of Education, who will guide the destinies of the club with care, and will be an ideal presiding officer. In Toronto Dr. Colquhoun has an unusually wide circle of personal friends.

The First Vice-President is Mr. T. A. Russell, an Ontario boy who has emphatically made good in Toronto. Russell comes from Huron county, and, like hundreds of other country boys, aspired to a University degree. He graduated in 1899. It is said that the late Prof. Goldwin Smith was greatly disappointed when on graduation Russell did not return to farming. Instead he took a position as secretary of the Canadian Manufacturers' Association, and there displayed an executive capacity which was chiefly responsible in making that body the powerful organization it is to-day. In a short time Russell entered private business, and is to-day head of one of the largest commercial enterprises in Toronto.

The Second Vice-President is Arthur Hewitt, Manager of the Consumer's Gas Company, a gentleman who is coming into prominence, and the other members of the committee are young men, energetic, optimistic and forceful, the type which already Canada is making distinctively its own.

WHEN THE BALL TEAM LOSES.

When the baseball team is losing there are a lot of disgruntled fans about town. Generally very little of their railings see the light of day in the newspapers, for the sporting editors, as a rule, are loyal supporters of the home team. But the bleacherite bases his opinion on what he sees, not what he reads. And his opinions are generally forcibly expressed. Here is what some of the critics are saying:

That the pitching staff is not good enough; that it lacks a single high-class artist.

Catching staff ditto. Fischer got in wrong with 15,000 fans on opening day by a fool throw to second to stop a steal when there was a man on third who scored easily on the play. "Bonehead," said the knockers. Wilson is an unknown quantity.

That Tim Jordan is not there with his mighty swats often enough in the pinches; that when a hit means the winning of the game a good pitcher can strike him out.

That O'Hara, a home-bred boy, is ready for a less pretentious league than the International.

And that there is a lack of team play and of snappy fighting spirit in the whole organization.

That's what the critics say when the team is losing.

EIGHT KILLED IN MINES.

Report on Casualties in Mining Properties in Ontario.

A despatch from Toronto says: A report by Mr. E. T. Corkill, chief inspector of mines, just published, shows that there were eight men killed in the mines of the province during the first three months of 1912, as compared with 17 during the same period of 1911. Six of the accidents occurred in the mines, the other two on the surface. During the three months 26 persons were injured in the workings of various mines, and seven above the ground. In metallurgical works in the province 15 persons were injured.

MAKING SAFE INVESTMENTS

THE VERY PRESENT DANGER OF BUYING HIGH YIELD AGREEMENTS OF SALE.

How Some Easterners, Under the False Impression That They are Going to Make a Very High Return on Their Money, are in a Very Fair Way to Lose Most of It.

The articles contributed by "Investor" are for the sole purpose of guiding prospective investors, and, if possible, of saving them from losing money through placing it in "wild-cat" enterprises. The impartial and reliable character of the information may be relied upon. The writer of these articles and the publisher of this paper have no interests to serve in connection with this matter other than those of the reader.

(By "Investor.")

I was reading a Canadian financial paper just before sitting down to write this article and my attention was attracted by several advertisements offering "investors" agreements of sale at prices to return them from 17 to 25 per cent, and it struck me quite forcibly that no doubt there were many people who purchased such securities under the wholly erroneous impression that they were making a reasonably safe investment.

When the purchaser of a property is unable to pay down a sum sufficient to justify the vendor giving him title to the property, or for other reasons, a document called an agreement for (or of) sale is given, the title of the property remaining with the vendor who, however, if the agreement is registered—as it may be—cannot transfer the property to anyone but the other party to the agreement unless some term of the contract is not complied with. The agreement usually bears interest at the usual rate for mortgages in the part of the country where executed and has as security the ownership of the property, the small equity represented by the cash payment and the covanent of the purchaser. In fact it is in many ways quite like a mortgage.

In the West, where ready money is scarce and nearly everybody is land poor, these agreements of sale are frequently sold by the owners at a very severe discount from the face value. Now, just as a bond selling below par returns a better rate than it does at par, the agreement of sale, if sold low enough, may return as high as 25 per cent., the amount of return indicating in some measure to what degree the seller is "hard up." For example, an agreement of sale bearing 6 per cent., with two years to run, and sold at 89 1-2 cents on the dollar, would return the purchaser 12 per cent. This would add something like 10 per cent. margin as security.

Now, anyone who has much to do with mortgages, when looking for absolute security, will seldom loan at better than 60 per cent. of the full value on IMPROVED PROPERTY, so that an agreement of sale discounted as above can scarcely be considered a gilt-edged investment when the margin—if 10 per cent. of the purchase price were paid in the first place—would not be in excess of 20 per cent., particularly as usually the property is unimproved. So, even examined casually, such an investment could not be considered conservative.

But owing to the circumstances surrounding it, generally speaking, an agreement of sale is safe only when there is a rising market in real estate. Just now, to all appearances, the Western real estate market has been decidedly overdone. The suburbs of many western cities have been subdivided to such an extent that there are building lots on the market that would accommodate a population of from five to ten times their present population. Even at their present rapid rate of growth, therefore, there is little chance of much of the subdivided land being really valuable for many years to come. Consequently and conversely there is every probability that much of this land will fall sharply in price as soon as people realize this fact, and they are beginning to realize it at the present time.

If you had a bill of sale on some of this property, how would you fare? That is a question that many people are asking, and it appears to me that they have every reason to feel uneasy.

Those who have followed this column from the first, know that even in Canada one can get in income of over 6 per cent. with safety only on rare occasions. As we have seen, the agreements of sale netting 25 per cent. are by no means safe, but peculiarly enough—and you will see why when you come to think it over—the same agreement netting 6 per cent. is even less safe. The reason is clear. The agreement netting 25 per cent. is selling at a heavy discount, while the one netting 6 per cent. sells at par. In other words, other things being equal, the one netting the higher return has a proportionally greater percentage of security back of it. However, to get either your 6 per cent. or your 25 per cent. the agreement must be paid off at maturity at par and this, judging from the present appearance of the market, is just what is unlikely to happen, taking them on an average. The moral of it all is: "DO NOT BE TEMPTED TO BUY INVESTMENTS SOCALLED WHICH RETURN A HIGH AMOUNT OF INCOME, IN THE VERY NATURE OF THINGS THEY ARE DANGEROUS."

There is one sure and ample proof that what I have said of all this is correct. Canadian Insurance Companies and Canadian Loan Companies are glad to get the highest possible rates on their money. Most of them invest in Western mortgages yielding from 6 per cent. to 8 per cent. after careful investigation by their large staffs of inspectors and valuators. I have yet to hear of any of them—I do not speak of the highly speculative loan companies of the far west—buying agreements of sale. If they were worth buying they would never get past the insurance companies. I don't think I could possibly put it stronger.

The holders of many agreements of sale will wake up some day to find their interest or principal unpaid, when they will then proceed to sell the property. If they can do it they will probably find that at the market price no small part of their capital has vanished and they still will have to pay incidental legal expenses. "It's better to be safe than sorry" is a good rule, particularly in the matter of investments.

PRICES OF FARM PRODUCTS

REPORTS FROM THE LEADING TRADE CENTRES OF AMERICA.

Prices of Cattle, Grain, Cheese and Other Produce at Home and Abroad.

BREADSTUFFS.

Toronto, May 14.—Flour—Winter wheat, 90 per cent. patents, $4.05 at seaport, and at $4.10 to $4.15 for home consumption. Manitoba flours—First patents, $5.70; second patents, $5.20, and strong bakers', $5, on track, Toronto.

Manitoba wheat—Prices at Bay ports—No. 1 Northern quoted at $1.11 1-2, Bay ports; No. 2 at $1.08 1-2; and No. 3 at $1.05 1-2, Bay ports.

Ontario Wheat—No. 2 white, red and mixed, $1.04 to $1.05, outside, according to location.

Peas—No. 2 shipping peas, $1.25, outside.

Oats—Car lots of No. 2 Ontario, 49c, and No. 3 at 47c, outside. No. 2 Ontario, 51 to 52c, on track, Toronto. No. 1 extra W. O. feed, 49c, Bay ports, and No. 1 at 48c, Bay ports.

Corn—No. 3 American yellow, 83c, Bay ports, and at 86c, track, Toronto.

Buckwheat—70 to 72c, outside.

Bran—Manitoba bran, $25, in bags, Toronto freight. Shorts, $27.

COUNTRY PRODUCE.

Apples—$3.50 to $5.00 per barrel.

Beans—Small lots of handpicked, $2.65 to $2.75 per bushel.

Honey—Extracted, in tins, 11 to 12c per lb. Combs, $2.50 to $2.75.

Baled Hay—No. 2 would bring $18 to $19 a ton. Clover, mixed, $14 to $15, on track.

Baled Straw—$10.50 to $11.00, on track, Toronto.

Potatoes—Car lots of Ontarios, in bags, $1.75 to $1.80, and Delawares at $1.85 to $1.90. Out-of-store, $1.95 to $2.

Poultry—Wholesale prices of choice dressed poultry:—Chickens, 18 to 20c per lb.; fowl, 12 to 13c; ducks, 15 to 17c; turkeys, 20c. Live poultry, about 2c lower than the above.

BUTTER, EGGS, CHEESE.

Butter—Dairy, choice, 25 to 26c; bakers', inferior, 21 to 22c; creamery, 29 to 30c for rolls, and 28 to 29c for solids.

Eggs—New-laid, 22 to 23c per dozen, in case lots.

Cheese—New cheese, 14 1-2 to 15c per pound.

HOG PRODUCTS.

Bacon—Long clear, 13 to 13 1-2c per lb., in case lots. Pork, short cut, $23 to $24; do., mess, $20 to $21. Hams—Medium to light, 17 to 17 1-2c; heavy, 15 to 15 1-2c; rolls, 12 1-2 to 13c; breakfast bacon, 17 to 18c; backs, 19 to 20c.

Lard—Tierces, 13 1-4c; tubs, 13 1-2c; pails, 13 3-4c.

MONTREAL MARKETS.

Montreal, May 14.—Oats—Canadian Western, No. 2, 54 1-2c; do., No. 3, 50 1-2c; extra No. 1 feed, 51 1-2c; No. 2 local white, 50 1-2c; No. 3, do., 49 1-2c; No. 4, do., 48 1-2c. Barley—Manitoba feed, 64 to 65c; malting, $1.05. Buckwheat—No. 2, 74 to 75c. Flour—Manitoba Spring wheat patents, firsts, $5.80; do., seconds, $5.30; strong bakers', $5.10; Winter patents, choice, $5.25 to $5.35; straight rollers, $4.80; do., in bags, $2.25 to $2.35. Rolled oats—Barrels, $5.35; bag of 90 lbs., $2.55. Millfeed—Bran, $25; shorts, $27; middlings, $29; mouillie, $30 to $34. Hay—No. 2, per ton, car lots, $18.50 to $19. Cheese—Finest westerns, 13 to 13 1-4c; do., easterns, 12 5-8 to 12 3-4c. Butter—Choicest creamery, 26 1-2 to 27c; seconds, 25 1-2 to 26c. Eggs—Fresh, 23 to 23 1-2c; No. 2 stock, 18 to 20c. Potatoes—Per bag, car lots, $1.75 to $1.80.

UNITED STATES MARKETS.

Minneapolis, May 14.—Wheat—May, $1.14 5-8; July, $1.15; September, $1.07 1-4; No. 1 hard, $1.17 1-2; No. 1 Northern, $1.17; No. 2 Northern, $1.15; No. 3 wheat, $1.13. Corn—No. 3 yellow, 76 1-2 to 78c. Oats—No. 3 white, 54 to 54 1-2c. Rye—No. 2, 89 1-2c. Bran—$24 to $24.50. Flour—First patents, $5.20 to $5.50; do., seconds, $4.95 to $5.20; first clears, $3.70 to $4.05; do., seconds, $2.60 to $3.

Buffalo, May 14.—Spring wheat, No. 1 Northern, carloads store, $1.21 7-8; Winter, No. 2 red, $1.24; No. 3 red, $1.22; No. 2 white, $1.22. Corn—No. 3 yellow, 84c; No. 4 yellow, 82c; No. 3 corn, 82 1-4 to 83 1-4c; No. 4 corn, 80 1-2 to 80 3-4c, all on track, through billed. Oats—No. 2 white, 61 1-2c; No. 3 white, 61c; No. 4 white, 50c. Barley—Malting, $1.20 to $1.30.

LIVE STOCK MARKETS.

Montreal, May 14.—Sales of choice steers at $7.50 to $7.75, good at $7 to $7.25 and the lower grades at from $4.50 to $6.50 per 100 lbs. Choice cows brought from $6.25 to $6.50, and common stock from that down to $4.50, while bulls sold at $5 to $6.75 per 100 lbs., as to quality. Calves ranged from $1.50 to $10 each. Sheep brought from $5 to $6.50, and yearling lambs $7.25 to $7.50, while Spring lambs sold at from $8 to $7 each. Selected lots of hogs sold at $9.40 to $9.65 per cwt., weighed off cars.

Toronto, May 14.—Medium cattle were a good sale at $5.75 to $6.75 and common cattle from $4 to $5.50. Hogs were strong at $6.80 to $6.85, fed and watered, and lambs were steady. There was a poor demand for stockers, but short-keep feeders were firmer at $6.25 to $6.35. Milk cows were reported easier and from $8 to $10 off in price.

COMING FOR CHILDREN.

Mother Sails to Claim Her Infant Titanic Survivors.

A despatch from Nice, France, says: Mme. Navratil, who declared that the two waifs saved from the Titanic, and who are being cared for in New York, are her children, has received the photographs of the children. She immediately recognized them, and will sail on the Oceanic to claim her sons. According to Mme. Navratil, her husband took the children from her cousin, to whom they had been confided pending divorce proceedings. Later she learned that her husband had gone to England, and she believed that he took passage for America. She described the children as Michel, called "Lolo" for short, aged four years, and Edmond, called "Momo," two years old.

DIRTY BILLS MUST GO.

Banks Must No Longer Issue Dilapidated Currency.

A despatch from Ottawa says: The day of the dirty dollar is passing. The new Bank Act will be brought down almost immediately upon the reassembling of Parliament, and in it there will be a provision under which it will be the duty of the banks not to reissue soiled or faded notes. The banks have already a standing request from the Department of Finance to return for exchange all soiled Dominion notes which come into their possession. The old "shinplaster" or 25-cent note is likely to disappear in a short time, as it is understood the Minister of Finance does not favor it.

If You Like a Little Quiet Fun

Ask some pompous person if Grape-Nuts Food helps build the brain.

Chances are you get a withering sneer and a hiss of denunciation.

Then sweetly play with the learned toad.

Ask him to tell you the analysis of brain material and the analysis of Grape-Nuts.

"Don't know? Why, I supposed you based your opinions on exact knowledge instead of pushing out a conclusion like you would a sneeze."

"Well, now your tire is punctured, let's sit down like good friends and repair it."

The bulky materials of brain are water and albumin, but these things cannot blend without a little worker known as Phosphate of Potash, defined as a "mineral salt."

One authority, Geohegan, shows in his analysis of brain, 5.33 per cent. total of mineral salts, over one-half being Phosphoric Acid and Potash combined, (Phosphate of Potash) 2.91 per cent.

Beaunis, another authority, shows Phosphoric Acid and Potash (Phosphate of Potash) more than one-half the total mineral salts, being 73.44 per cent. in a total of 101.07.

Analysis of Grape-Nuts shows Potassium and Phosphorus (which join and make Phosphate of Potash) is considerable more than one-half of the mineral salts in the food.

Dr. Geo. W. Carey, an authority on the constituent elements of the body, says: "The gray matter of the brain is controlled entirely by the inorganic cell-salt, Potassium Phosphate (Phosphate of Potash). This salt unites with albumin and by the addition of oxygen creates nerve fluid or the gray matter of the brain. Of course, there is a trace of other salts and other organic matter in nerve fluid, but Potassium Phosphate is the chief factor, and has the power within itself to attract, by its own law of affinity, all things needed to manufacture the elixir of life."

Further on he says: "The beginning and end of the matter is to supply the lacking principle, and in molecular form, exactly as nature furnishes it in vegetables, fruits and grain. To supply deficiencies—this is the only law of cure."

Brain is made of Phosphate of Potash as the principal Mineral Salt, added to albumin and water.

Grape-Nuts contains that element as more than one-half of all its mineral salts.

Every day's use of brain wears away a little.

Suppose your kind of food does not contain Phosphate of Potash.

How are you going to rebuild today the worn-out parts of yesterday?

And if you don't, why shouldn't nervous prostration and brain-fag result.

Remember, Mind does not work well on a brain that is even partly broken down from lack of nourishment

It is true that other food besides Grape-Nuts contains varying quantities of Brain food.

Plain wheat and barley do. But in Grape-Nuts there is a certainty.

And if the elements demanded by Nature, are eaten, the life forces have the needed material to build from.

A healthy brain is important, if one would "do things" in this world.

A man who sneers at "Mind" sneers at the best and least understood part of himself. That part which some folks believe links us to the Infinite.

Mind asks for a healthy brain upon which to act, and Nature has defined a way to make a healthy brain and renew it day by day as it is used up from work of the previous day.

Nature's way to rebuild is by the use of food which supplies the things required.

FROM THE EDITOR.

He Forgot That He Had a Stomach.

Talking of food, there is probably no professional man subjected to a greater, more wearing mental strain than the responsible editor of a modern newspaper.

To keep his mental faculties constantly in good working order, the editor must keep his physical powers up to the highest rate of efficiency. Nothing will so quickly upset the whole system as badly selected food and a disordered stomach. It therefore follows that he should have right food, which can be readily assimilated, and which furnishes true brain nourishment.

"My personal experience in the use of Grape-Nuts and Postum," writes a Philadelphia editor, "so exactly agrees with your advertised claim as to their merits that any further exposition in that direction would seem to be superfluous. They have benefited me so much, however, during the five years that I have used them, that I do not feel justified in withholding my testimony.

"General 'high living' with all that the expression implies as to a generous table, brought about indigestion, in my case, with restlessness at night, and lassitude in the morning, accompanied by various pains and distressing sensations during working hours.

"The doctor diagnosed the condition as 'catarrh of the stomach,' and prescribed various medicines, which did me no good. I finally 'threw physics to the dogs,' gave up tea and coffee and heavy meat dishes, and adopted Grape-Nuts and Postum as the chief articles of my diet.

"I can conscientiously say, and I wish to say it with all the emphasis possible to the English language, that they have benefited me as medicines never did, and more than any other food that ever came on my table.

"My experience is that the Grape-Nuts food has steadied and strengthened both brain and nerves to a most positive degree. How it does it, I cannot say, but I know that after breakfasting on Grape-Nuts food one actually forgets he has a stomach, let alone 'stomach trouble.' It is, in my opinion, the most beneficial as well as the most economical food on the market, and has absolutely no rival." Name given by Postum Co., Battle Creek, Mich.

"There's a Reason" for

Grape-Nuts

Notes of Particular Interest to Women Folks

CHOICE RECIPES.

Spanish Omelet—Cook together in one tablespoon of butter one chopped green pepper, one-half sliced onion; add one and one-half cups of tomato; add salt and cook slowly for fifteen minutes. Make an omelet by your usual rule, and just before folding spread with part of the tomato mixture. Turn out on a hot platter and serve with the rest of the sauce poured around it.

Vienna Steaks—Chop together one-half pound each of raw beef and veal. Season with three-quarters teaspoonful of salt, paprika and a little celery salt, one-eighth teaspoonful nutmeg, one teaspoonful lemon juice, a few drops of onion juice. Add one beaten egg. Let stand three hours. Make into small steaks and pan-broil. Spread while hot with butter and sprinkle with salt and pepper.

Bean Stew—Soak over night one pint of Mexican beans. The next morning boil for five minutes in fresh water and drain. Add two quarts of boiling water and let cook slowly for two hours. At serving time brown two chopped onions in two tablespoons of butter; drain the beans and add to the onions. Add one cup of strained tomatoes, season with salt and pepper and cover closely. Let stew for twenty minutes. Serve very hot, with or without boiled rice used as a border.

Jaune Mange—Soak one ounce of gelatin in one-half cupful of cold water. Add to one cupful of boiling water and stir till dissolved. Take from the fire and pour over the beaten yolks of four eggs, beating steadily. Return to the fire, add one cupful of powdered sugar, one-half teaspoonful of cinnamon, the juice and half of the grated peel of one orange. Stir till boiling hot; add one cupful of sherry; pour into a mold and chill. Serve with whipped cream.

Sponge Pudding—Beat stiff the whites of three eggs. Boil together one cup of water and one of sugar. Add one teaspoon of vanilla, one tablespoon of gelatin softened in cold water, and remove from the fire. Fold in the beaten whites of the eggs; divide into two parts, color one part with pink vegetable coloring and let stand until cold and nearly set. Pour one quart into a mold, keeping the other part just warm enough to prevent setting until the rest is solid. Then add the second part and set aside to get very cold and firm. Serve with cream.

Making Meat Sauce.—In making a meat sauce of any kind; it is wiser to blend the flour with the melted butter. By doing this, the starch in the flour is more quickly cooked and the butter is absorbed. When the flour is mixed with water and then stirred into the liquid, at least ten minutes of boiling is required to cook the flour, and even then it may have a raw taste. Another difficulty with a sauce made this way is that the butter often does not blend, but rises to the surface of the liquid.

Escalloped Beef and Potatoes.—Fill a casserole or baking dish with alternative layers of boiled sliced beef and sliced raw potatoes; season with salt and pepper. Pour over this meat stock to cover. This is perhaps best if thickened a little with flour. Cover the whole with bread crumbs and dot with a little fat from the top of the kettle after the beef was boiled, instead of butter—use but little. Cook until potatoes are tender. Additional seasonings to suit the taste may be added to this scallop.

Orange Pie.—Beat a cupful of sugar and a large tablespoonful of butter together until creamy. Moisten two level teaspoonfuls of cornstarch with a little milk, and add to a cupful of milk scalded in the double boiler. Cook and stir a minute, then pour quickly into the butter and sugar. Add the grated yellow rind and juice of one orange mixed with a well beaten egg. Peel another large, juicy orange; slice very thin and cut slices into quarters. Line a deep pie tin with good light paste, and bake in a moderately quick oven until done. When the mixture is cool, quickly stir in the cut and sugared oranges and turn the mixture into the baked crust and place in the oven a few minutes to brown. Meanwhile beat up the whites of two eggs to a white froth; add two tablespoonfuls of powdered sugar and beat up stiff and white. Heap on the pie, dust thickly with sugar and again place in the oven to brown slightly.

USEFUL HINTS.

Mice object to camphor, which, if put in places frequented by them, will drive them away completely.

Grease on a well can be generally eradicated by covering with clean blotting paper and then passing a warm iron over it.

Washing lamp chimneys by immersing them in hot water makes them very brittle. A safer way to clean them is to hold them over the steam of a teakettle and polish with an old soft linen cloth.

An eiderdown quilt may be washed in a lather. Rinse it carefully and then shake it well before hanging out in the wind. While drying shake several times and it will be like new.

Kerosene rubbed on with a soft cloth will clean zinc perfectly. Kerosene or gasoline applied with a cloth will also remove all grease marks from porcelain basins and bathtubs. Rinse well with very hot water.

If after removing a mustard poultice the affected place is rubbed with camphorated oil there is not likelihood incurring cold.

Paint your tin wash basins on the inside with a good white enamel paint, if you would prolong their usefulness.

An old-fashioned but efficient remedy for hives is a solution of common baking soda and water. Dissolve half a cupful of the soda in a basin of water. Bathe the spots with this several times a day.

In selecting beef, the pieces which are well mottled with fat will be found the richest and juciest.

When purchasing a roast of veal have the butcher lard it with salt pork. This will make the meat juicy instead of being dry, and it will have a fine flavor that can be had in no other way.

KNOWS NOW.

Doctor Was Fooled by His Own Case For a Time.

It's easy to understand how ordinary people get fooled by coffee when doctors themselves sometimes forget the facts.

A physician speaks of his own experience:

"I had used coffee for years and really did not exactly believe it was injuring me, although I had palpitation of the heart every day. (Tea contains caffeine—the same drug found in coffee—and is just as harmful as coffee.)

"Finally one day a severe and almost fatal attack of heart trouble frightened me and I gave up both tea and coffee, using Postum instead and since that time I have had absolutely no heart palpitation except on one or two occasions, when I tried a small quantity of coffee which caused severe irritation and proved to me I must let it alone.

"When we began using Postum it seemed weak—that was because we did not make it according to directions—but now we put a little bit of butter in the pot when boiling and allow the Postum to boil full 15 minutes, which gives it the proper rich flavor and the deep brown color.

"I have advised a great many of my friends and patients to leave off coffee and drink Postum, in fact I daily give this advice." Name given by Canadian Postum Co., Windsor, Ont.

Many thousands of physicians use Postum in place of tea and coffee in their own homes and prescribe it to patients.

"There's a reason," and it is explained in the little book, "The Road to Wellville," in pkgs.

Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human interest.

Secure & Profitable Bonds Paying 6%

¶ Price Bros. & Company have been in business in Quebec over 100 years. It is the largest industry in Quebec Province. Their holdings of pulp and timber lands are 6,000 miles in extent, and have been valued by experts at over $13,000,000. The net earnings in 1910 were $448,000,000. The new pulp mill now under construction will double these earnings. Timber limits are insured with Lloyds of England against fire.

¶ Price Bros. & Company First Mortgage Bonds pay 6 per cent. interest on their present price. They will assuredly appreciate in value. Considering interest return, security, and future increase in value, they are an unusually attractive investment.

On application we will send you literature fully describing these bonds.

MONTREAL-QUEBEC-HALIFAX-OTTAWA LONDON (ENG.)

Is the Titanic Still Afloat?

By Charles M. Bice, Denver, Col.

The sinking of the Titanic in mid ocean has given rise to many curious speculations by the so-called scientists.

The question is asked in all seriousness: Is the Titanic still floating? Will she continue to float as long as the world spins?

Another asks: Where is she now, on the bottom of the sea just under where she went down with her precious load of human lives, or has she drifted and is she on the bottom at some other place?

There seems to be no unanimity, even among the wise scientific guys of the Smithsonian Institute in their answers given to these queries.

Some say that sinking as she did at an angle of about 50 degrees, she would zigzag to the bottom, first shooting one way and then another, and, to make it mysterious, they couch the problem in mathematical language thus: "Her path would describe an arc of a great circle, whose limit would be reached at a point tangent to a line parallel to the surface," and so on through a whole lot more highbrow stuff.

Another scientific sharp denies that she lies at the bottom, and asserts that the gulf stream and the Arctic current, both of which flow there, the first above the other, would both have something to say about the Titanic before she reached the bottom, and that they would carry her no one knows where, but surely a long distance from where she went down. Many think because the ocean at that point is over two miles deep that the boat must be at least two miles to one side of the place where she disappeared.

Then, along comes another scientific sharp and says, All are wrong, no such thing possible; not even lead will sink to the bottom of water that deep. It will go down till the weight of the water exerts such an enormous pressure that it cannot sink further, and will there remain for ever suspended.

So with the Titanic. It, too, is suspended at some point, doubtless, far from the bottom, there to remain as long as the "world wags," or until the chemical action of the sea water has eaten her up.

If these so-called scientists would employ a little common sense, they would not make themselves appear so ridiculous as they have succeeded in doing.

All these half-reasoned theories are based on the erroneous notion that the density of the water a mile or two down in the ocean depths is far greater than at the surface. They confuse density with pressure. There is no question but that the pressure is vastly increased as such enormous depths are reached.

We can get some idea of this pressure when we consider that at a depth of 100 feet by actual test the pressure exceeds 6,000 pounds to the square foot. Divers who go down 150 feet or a little more (which is about the limit), find that the pressure has increased over 3,000 pounds more than at the 100 feet depth.

Divers must be armored specially to resist the pressure if they descend more than 150 feet. It is estimated that the pressure on the Titanic, reckoned upon the basis of increase aforesaid, as she lies under 2,000 fathoms of water, is over 750,000 pounds per square foot.

It would seem to be a reasonable inference that under such pressures the density of the water would be increased accordingly, but scientists have demonstrated by actual experiments that water is almost wholly incompressible, and for a long time it was thought to be absolutely so. Extremely delicate and accurate testing instruments have been used, and sea water to the depth of one mile has been measured and found to be only one one-hundred and thirtieth greater than at the surface. Hence, for all practical purposes, it may be concluded, that a given body of water is not materially reduced in dimension by any known means of pressure that may be applied.

Keeping these facts clearly in mind, there should be no difficulty in locating the resting place of the Titanic.

As water is practically incompressible, its density or weight is not perceptibly greater at the two-mile level than it is at the surface, and hence its power of buoyancy is only slightly greater.

It follows from this that any object that could not float at the surface would have no chance to remain suspended at any intermediate point, but must sink directly to the bottom.

The increased pressure at the two-mile depth manifestly could not prevent the Titanic from reaching the bottom, because the pressure is from all sides, and equal, downwards as well as upwards.

No doubt this enormously increased pressure would instantly crush any air-filled chambers or other frail or compressible matter in the vessel, and hence, as the hulk descended, the displacement would become lessened and the [illegible] through the water would be correspondingly accelerated.

Even the iron and the other metals of which the Titanic was largely constructed are much more compressible than water, and hence it is idle to suppose that the Titanic in sinking swerved far from a perpendicular line.

If the statement of some of these scientists were true, then the sounding of the ocean depths would be impossible; but we know that this has been successfully accomplished in water more than twice the depth of that which overlays the Titanic. Very odd and curious forms of deep sea life, dredged from the ocean bottoms, have been brought to the surface by the English ship "Challenger," and in 1868 Prof. Huxley announced his belief that the gelatinous substances found in the ooze of the beds of the deep seas, is a sheet of living matter extending around the globe. He named it Bathybius and thought he had discovered the real origin of all life.

Denver, Col, 1912.

SCIENCE AND SUPERSTITION.

The Shah of Persia's Experience With Radium.

Radium—most mysterious of the new mysteries in modern science—is so little familiar to unscientific men that the panic of the Oriental potentate described in a recent book by Mons. Xavier Paoli, a French detective, is easily understood.

Once, while in Paris, the Shah of Persia, Muzaf-far-ed-din, expressed a wish to know something of Professor Curie's discovery. Monsieur Paoli made the necessary arrangements. Complete darkness is of course needed if radium is to reveal itself in all its brilliancy. With endless trouble Paoli persuaded the monarch to descend into one of the hotel cellars that had been arranged for the purpose.

But at length his majesty, with all his suite, proceeded to the underground apartment. Professor Curie closed the door, switched off the electric light, and uncovered his specimen of radium. Suddenly a shout of terror between the roar of a bull and the yell of a man being murdered rang out, and was echoed by a hundred others.

"Amid general excitement and consternation," writes Monsieur Paoli, "we flung ourselves upon the electric switches, and turned on the lights.

"Then we beheld a strange spectacle. In the midst of the prostrate Persians, with his arms round the neck of his grand vizier, and his round pupils dilated to their very rims, stood the Shah, shouting at the top of his voice in Persian:

"'Come away! Come away!'

"The switching on of the light calmed his mad terror as if by magic. Realizing the disappointment and chagrin he had caused Monsieur Curie, the Shah tried to compensate him by the offer of a decoration. But the austere man of science," concludes Paoli, "thought fit to decline it."

SOME DAYS FAVORABLE.

Human Organism Subject to Variations in Week's Time.

Not alone the weather, but certain days of the week also exert favorable or unfavorable influences upon the human organism. Such are the conclusions reached by Prof. W. Trabert, director of the Vienna Meteorological Institute, after collecting valuable data on the subject. That the weather affects the general condition of people has long been conceded, but Prof. Trabert is the first to investigate the matter from the scientific standpoint.

He induced a large number of persons of different standing and occupations to furnish him with particulars of their daily state of health, noting particularly any changes or disturbances in their normal condition. Many school teachers have also been making investigations along the same lines among their pupils, carefully classifying their general behavior and conduct. From the very interesting results thus obtained it is clear that other influences than the weather affect the human organism.

For it was found that persons are subject to weekly periodical changes corresponding in almost the same measure or degree to weather influence. With adults, for example, Saturdays and Sundays are "favorable" days, while on Tuesdays and Fridays many unfavorable deviations from the normal condition were observed.

With school children it was found that Monday is the best day and Saturday the worst; also that all afternoons are "unfavorable." Physiologically speaking, that day is found to be bad when there is a deep atmospheric depression and the day is good when the barometer is rising. Atmospheric pressure seems to affect the human condition very much as it does the weather.

For 1911-1912 the total estimated number of men in the German Navy exceeds 60,000.

"Kitty," said her mother, rebukingly, "you must sit still when you are at the table!" "I can't, mamma," protested the little girl; "I'm a fidgetarian!"

SHOPS ACT OF 1912.

New Experience in Paternal Government in Britain.

The British shopkeeper on May 1 began a new experience in paternal government. The Shops Act of 1912 became operative on that day, and henceforth every employer included in its schedules will be compelled under penalties to grant his employes a weekly half-holiday and a definite period for their meals. Thousands of shop hands already have a half-holiday through a voluntary, mutual agreement with their employers. The new Act extends this privilege by statute to thousands more who have hitherto been unaffected.

Under the provisions of the Act most shops must henceforth be closed absolutely at 1.30 p.m., one day in the week, but exceptions in this respect are allowed in certain trades, such as saloons, restaurants, butchers and other dealers in perishable goods, as well as tobacconists, drug stores and newspaper vendors. These trades must, nevertheless, arrange for every employe to have the benefit of the Act individually.

There has been practically no opposition to the general principles of the Act, but two days of its working has sufficed to show that the details must be revised. The act is inelastic. It inflicts inconvenience and even hardship in some cases. One of the chief difficulties in connection with restaurants is a compulsory 45 minutes for the waiters' meals which comes in the busiest period of the day. The waiters and waitresses also complain that the half holiday deprives them of a valuable proportion of their tips, which in many cases constitute their sole earnings.

The barbers are up against a similar difficulty at meal times. A curious situation has been created in small shops, where various classes of goods are retailed. For instance, a drug store may keep open always to sell medicines, but on the day fixed for a half-holiday in its town it must not sell scented soap or other articles of this kind. So, too, a news dealer may sell newspapers and magazines, but not stationery on the half-holiday.

The big department stores are not affected in this matter, as they already by custom close all branches of their business for a half day.

Another anomaly of the Act is that it does not embrace wholesale warehouses, and accountants and other clerks who are not sales hands in any shop. Shopkeepers are puzzled as to how to interpret many of the clauses, and are bombarding the newspapers with letters and asking questions as to whether they will be punishable for certain courses of conduct.

USBORNE.

Hodgins—Hunter—A most picturesque and delightful May-time wedding was solemnized on Wednesday of last week, at the home of Mr. and Mrs. Phin. Hunter, when their eldest daughter, Eliza J. (Jennie) became the bride of Mr. Jas. G. Hodgins of Biddulph. About 75 guests were present from Hamilton, Toronto, London, Berlin, Ilderton, Lucan, Seaforth and Exeter gathered to witness the ceremony, which was performed by Rev. G. W. Racey of Kirkton. At 5 o'clock the bride, accompanied by her father, entered the parlor to the strains of the wedding march played by Miss Alice Hunter, sister of the bride and the bridal party took their place underneath an arch of evergreens, tastily decorated with flowers. The bride's gown was particularly beautiful, being made of cream satin ribbon sette, trimmed with point lace insertion. She wore the customary bridal veil and carried a white prayer book. The bride and groom were unattended, save little Elaine Hodgins, sister of the groom, who acted as flower-girl. The ceremony and congratulations over a most sumptuous wedding feast was served, the tables being prettily decorated with flowers, as was also the entire house. The bride's going away dress was of navy blue serge with large black hat with willow plumes, all beautifully harmonizing. The wedding presents formed a magnificent array, among them being several cheques. The young couple are popular in social circles, and will have the best wishes of a host of friends for their future happiness and prosperity. They will take up house-keeping on the groom's fine farm on the 4th concession of Biddulph.

Dashwood

A very heavy rain storm set in Saturday and continuing all day Sunday. On Monday morning it turned to snow. We hope this will be the last snow storm this season.—Mr. Jos. Wambold spent Wednesday with friends in Berlin.—Dr. T. P. McLaughlin spent Wednesday in St. Marys.—Miss P. Long, milliner for Tiemann and Edighoffer visited her parents in London over Sunday.—Mrs. Fred Gentner, sr., and daughter Bertha spent Sunday in Exeter.—Miss Clara Kraft is spending a few weeks under the parental roof.—Mrs. W. Tait of Parkhill visited her sister Mrs. C. Steinhagen last week.—Mrs. (Rev.) Schroeder of Mount Clemens, who was called to the bedside of her father, Mr. L. Walper, Sr., on account of serious illness, had the misfortune to break her arm in two places the same night of her arrival. She was going down the veranda steps after it was dark when she slipped and fell.—Mr. Ed. Willert and family of Grand Bend, accompanied by Mr. and Mrs. R. Hayter, spent Sunday with Mr and Mrs. H. Willert.—Miss Bertha Gentner left Monday for Centralia where she has secured a position.

Miss Clara Kraft of Thedford is holidaying with her parents, Mr. and Mrs. P. Kraft.—Mrs Williams, Ehlers and Mrs. George Kellerman were in Berlin last week, attending the funeral of Mrs. Ehlers brother, Mr. Heisneaves of Bridgeport, Ont.—Mr. Henry Guenther has bought the dwelling house of Mrs. Joseph Snell.—The committee, who are arranging for our big celebration on June 3rd are doing good work. The Exeter band has been engaged for the day. The Crediton Stars and the Fullarton team will be present. One of the special features of the program will be horse racing. The committee are giving $100, to be divided among races. The days sport will be followed by a big concert at night.

Crediton

FOR SALE—At Zwicker's, Crediton, No. 1 Red Clover, Alsike, Alfalfa, Timothy, Kentucky Blue and Orchard Grass—specially selected for seeding purposes. Also a quantity of clean Alsike and Timothy Seed mixed at very reasonable prices. Parties requiring should buy early as the better grades will be scarce and higher as season advances.—CHAS. ZWICKER, CREDITON.

add crediton.

We experienced a touch of winter on Monday. Snow covered the ground to a depth of four inches and the sudden change brought out the fur coats. —The auto craze has struck town. Sam. Brown, Albert Morlock, John Morlock, and William Morlock have each bought a car this week. It is reported that several more of our farmers are thinking of buying.—Alfred Clark of Alisa Craig paid his parents a visit on Tuesday. —We are pleased to learn of the improved condition of Fred Young. It is hoped there will be now a speedy recovery. —Otto Ewald has resumed his trade as butcher with Nicholson & Lawson. —Herb. Brown has secured an agency to sell the book on the Titanic Steamship Disaster.—There is some talk of our Sunday Schools uniting and having an excursion to Goderich some time next month.—Boost it along—It will give a pleasant days outing.—Harry Sweitzer has bought and removed a portion of the old planing mill factory.—Mich. Beaver is doing the carpenter work of Albert Morlock's auto repair shop.—W. H. Paget spent last Sunday in St. Catharines.—A meeting of the tennis players was held in the Bank rooms on Monday evening. The election of officers resulted as follows.—Hon. Pres. H. Elber, M. P. P., Pres., W. H. Paget Vice-Pres. Ira S. Brown; Sec'y Fred Irish. Treas Garnet Sweitzer; Chap., Herb. Graham; Manager, Herb. Elber; Manager of the grounds R. Carey. The boys have bought a new net and balls and hope to get down to practice as soon as weather permits.

GRAND BEND.

Mr. L. Ravelle went to Toronto Hospital last week. Mrs. Ravelle was called there Saturday.—Mr. Walter Statton and family spent a few days at Goderich recently.—Mr. Ilse is putting a roof over his merry-go-round.— Mr. Stubbs of near Thedford is visiting his daughter, Mrs. J. Baird for a few days.—Mr. and Mrs. Frank Allister and Mrs. M. Gill were in Parkhill on business Wednesday.—Messrs. Oliver, who have been working at Hillsboro' for a few weeks, returned home Saturday.—A Every horse from Hensall died at Mr. Carrière's stable Sunday.

CENTRALIA

A prominent young swain of a neighboring village while driving out of this place a little late the other night saw something dressed in white along the roadside, which startled both him and the horse for a moment. The horse was too frightened to allow the driver to investigate, but he says her would not mind spending a five-spot to know what it was.

The severe snow storm of Monday came as a surprise and was a gentle reminder that winter still lingering in the lap of spring.—Large numbers of cattle have been delivered here during the week, and are changing hands at good high prices.—Mr. and Mrs. Geo. Dobbs of Alisa Craig spent Sunday the guests of relatives in the village.—Miss Norris of Staffa spent the past week with her sister, Mrs. N. Mitchell. —Mr. and Mrs. Jenkins of London spent a couple days with Mr. and Mrs. W R. Elliott.—Mr. Rich Luker is not so well again and is confined to his bed.—Mr. and Mrs. A. Maguire have moved to the village. We welcome them to the burg to become residents for a time at least. —Owing to the storm on Monday the game of baseball with the Exeter team had to be called off till the grounds get into shape.—The following lines as an ode to our baseball boys was composed by one of our local poets and handedf or publication.—

Our baseball boys are all recalled
And signed up, every one;
All bound to win, they'll show you that,
When Daly goes to bat.

The title now is 'Daly's Nine
All looking very fine;
Waiting with new gloves and mask
To match up any nine.

Nick came out in fighting trim
With speed & curve that's sure to win;
He'll fan them out without a score—
One, two, three and four.

Mike on first and Chancey second
No bull can pass them by;
And Heck as usual in the mask
Will stop the ball if not too high.

With Austin third and Daly short
No grounders pass between;
They stop the ball and pass it round
To bases all serene.

Harold out in centre field—
The boy so straight and tall—
And when a fly doth come his way
He's sure to get the ball.

Then, Sandy, he's a handy kid,
He plays right hard, you bet;
He plays the game with strategy,
Which means a winner yet.

Luker plays out in right field
Which always is his place;
But when he gets a hit at bat
You ought to see him race.

Murray takes the left field,
And no better fun he'd ask;
But sometimes for a little change
He takes the glove and mask.

Austin takes the pitcher's box
When Daly calls him in;
He pitches fast with curve and drop
That helps the boys to win.

Dempsey bats with all his might
Or else don't bat at all;
But when he bats it out of sight,
The umpire gets another ball.

Alvin and Douglas are sportsmen
And always on reserve.
Their attention to the baseball
Much credit does deserve.

For keeping score you can't beat Don,
He's always feeling merry;
Sure the boys are all in fighting trim
As in the days of "Derry."

Now, here's success to the baseball boys
Whenever they may play;
We'll back them up in every game—
And its Hip, Hip, Hurrah.

STATE OF OHIO, CITY OF TOLEDO, } ss
LUCAS COUNTY

Frank J. Cheney makes oath that he is senior partner of the firm of F. J. Cheney & Co., doing business in the City of Toledo, County and State aforesaid, and that said firm will pay the sum of ONE HUNDRED DOLLARS for each and every case of Catarrh that cannot be cured by the use of Hall's Catarrh Cure. FRANK J. CHENEY

Sworn to before me and subscribed in my presence, this 6th day of December, A.D. 1886.

(SEAL) A. W. GLEASON, NOTARY PUBLIC

Hall's Catarrh Cure is taken internally, and acts directly on the blood and mucous surfaces of the system. Send for testimonials free.

Sold by all Druggists, 75c.
Take Hall's Family Pills for constipation.

FARQUHAR.

Mrs. McNicol has returned from London, where she was staying with her daughter, Mrs. John McDougal, Jr., who is also home and progressing favorably since having gone through an operation at Victoria Hospital.—Our town is at present besieged with the wave of measles, which has been so prevalent of late.—Mr. John W. Stewart brought home his bride last week, and has settled down to the stern realities of life on the homestead on the Boundary.—Mr. Lawrence Fulton spent Sunday at Walton, visiting his father, who is very low as a result of an accident which he experienced a few weeks ago. It appears the old gentleman was in the company of a friend and in crossing the railway track on a lumber wagon the engine struck and smashed the hind wheels of the wagon, throwing Mr. Fulton off and breaking his collarbone and injuring him otherwise—in fact it was not expected that he would survive at the time.

Frogmore, the residence of Mr. and Mrs. Jas. Green, Parr Line, Hay, on Wednesday of last week, was the scene of one of those interesting events when their eldest daughter, Miss Gladley May was united in marriage to Mr. John Wellington Stewart, a prosperous young farmer from Usborne township. The ceremony was performed by Rev. G. F. Brown of Zurich, and was witnessed by nearly two hundred invited guests. After congratulations to the young couple, a splendid wedding dinner was served. The bride looked very charming in a gown of pale blue Marquisette, with trimmings of lace, satin, and ball fringe, wearing the usual bridal veil, caught up with orange blossoms, and carrying a bouquet of pink and white carnations. She was unattended, her little sister Vietta Pearl, dressed in white, acting as ring bearer, while Miss Pearl McCormick played the wedding march. The presents received were both costly and useful, showing the high esteem in which the young couple are held. The groom's gift to the bride was a handsome brooch, and to the ring bearer a pearl ring. The young couple will reside on the groom's fine farm, "Hill Crest", Farquhar. Their many friends join in wishing them a happy and prosperous wedded life.

Lady Tupper, wife of Sir Charles Tupper, former premier of Canada, died in England on Saturday. Her remains will be brought to Canada for interment. Sir Charles, who was seriously ill a few weeks ago, is now in good health again

To Farmers

THE MILLER II, 27,851, is a pure-bred imported Shire Stallion, from the best of ancestors and with the the best of records. Will stand at his own stable, Dashwood, for the season, WILLIS & GUENTHER, Props., W. WILLIS Manager.

COLLEGE CHUM, 15,553, is a pure-bred imported Shire, with choice pedigree and record. Monday leaves his own stable Dashwood, and goes to Ed. Lamports. Tuesday to Grand Bend, Wednesday afternoon to Robt. Hayter's for night; Thursday to Ed. Ryan's and Mt. Carmel; Friday to Khiva and home. WILLIS & GUENTHER, Props., -F CASE, Manager.

CHARMING PRINCE, 11477, 15597, is a pure-bred Clydesdale, with an excellent pedigree and good record as a stock getter. Will stand at his own stable, Farquhar.—W. H. KAY Prop. and Manager.

That choice farm of 108 acres on the 2nd and 3rd concessions of Usborne, being one and a half miles from Exeter On the premises is a large brick house with slate roof, and frame barns and stabling. Will be sold separately or together to suit purchaser. 15 acres in fall wheat, 40 acres fall plowing done, balance in grass. Apply to
THOS. FISHER, Exeter.

CENTRAL Business College.
STRATFORD, ONT.

Our classes are now larger than ever before but we have enlarged our quarters and we have room for a few more students. You may enter at any time. We have a staff of nine experienced instructors and our courses are the best. Our graduates succeed. This week three recent graduates informed us that they have positions paying $65 $70 and $125 per month. We have three departments,—Commercial, Shorthand and Telegraphy. Write for our free catalogue now.
D A. McLACHLAN, Principal.

Do You Want to be Protected in Your Investments in

WESTERN CANADA

Would you like to feel reasonably sure that you are getting a square deal in buying or selling property in the West? Wouldn't it be better for you to buy or sell your property through a firm that will keep you in touch with every movement in which you should be interested, and a firm that realizes that to build up a good connection they must do the very best they can for those who buy property on their recommendation?

That is exactly the position we are in. We handle no property except we are convinced it is an A1 proposition.

We will transact all business connected with any deal a purchaser may make.

We will guarantee to protect you when you come to see it.

We will secure sales for you at the most opportune time.

We will keep you in touch with what is going on in the locality where you buy your property.

We do this because we are carrying on a straightforward, conscientious business. We are not here to-day and away to-morrow, and we realize that a satisfied client is the best advertisement in the world.

We have at the present time the selling of some of the best propositions in city property in Edmonton and Moosejaw, also a large number of good farm lands in Alberta and Saskatchewan.

Ask your druggist for it. If he cannot supply the MARVEL, accept no other, but send stamp for illustrated book—sealed. It gives full particulars and directions invaluable to ladies. WINDSOR SUPPLY CO., Windsor, Ont. General Agents for Canada.

ONTARIO

PROVINCIAL LOAN OF $2,000,000 AND $210,000

THE GOVERNMENT OF THE PROVINCE OF ONTARIO, under the authority of Chapter 4, of the Statutes of Ontario, 1911, invites subscriptions from the public for a loan of $2,000,000 on bonds of the Province of Ontario, or "Ontario Government Stock."

The bonds will be dated 1st May 1912, and payable on the 1st of November, 1941, in denominations of $1,000 each, with coupons attached for interest at the rate of 4 per cent. per annum, payable half yearly, on the 1st of May and 1st of November in each year, at the office of the Provincial Treasurer, Toronto or at the offices of the Bank of Montreal, in Montreal, Canada, and in New York, N. Y., at the holder's option. Bonds will be made payable to bearer, but on request will be registered in the office of the Provincial Treasurer and endorsed as payable only to the order of certain persons or corporations, and on request of holders will be exchanged for "Ontario Government Stock" at any time.

Also balance of Algonquin Park Loan of $210,000 on the same terms and with the same dates, under the authority of Chapter 9, 1 George V.

The issue price during the month of May, 1912, will be 102 for each $100 and after the 31st day of May, 1912, the issue price will be $102 and interest accrued from the 1st of May, 1912.

ALL BONDS AND INSCRIBED STOCK ISSUED UNDER THE AUTHORITY OF THE SAID ACT ARE FREE FROM ALL ONTARIO PROVINCIAL TAXES, CHARGES, SUCCESSION DUTY AND IMPOSITIONS WHATSOEVER.

Purchasers of Stock or Bonds will be required to send certified cheque with the application, payable to the order of the "Provincial Treasurer of Ontario."

This loan is raised upon the credit of the Consolidated Revenue Fund of Ontario, and is chargeable thereupon.

A. J. MATHESON,
Provincial Treasurer.

Treasury Department, Parliament Buildings, Toronto, April 19th, 1912.

Newspapers inserting this advertisement without authority from the Department will not be paid for it.

Dr. de Van's Female Pills

A reliable French regulator; never fails. These pills are exceedingly powerful in regulating the generative portion of the female system. Refuse all cheap imitations. Dr. de Van's are sold at $5 a box, or three for $10. Mailed to any address. The Scobell Drug Co., St. Catharines, Ont.

CURIOSITY Prompted Many Women To Try PURITY FLOUR

THEY were curious to see exactly what results would be produced by flour *consisting entirely of the high-grade portions* of the best Western hard wheat.

They were curious to know more about a flour that contained none of the low-grade portions, which are found in every wheat berry, but which are separated and excluded from the high-grade in the process of milling PURITY FLOUR.

THEY were curious to know whether an ALL HIGH-GRADE hard wheat flour was really superior to a mixed hard and soft wheat flour.

They were curious to see and taste the kind of bread, buns, biscuits, cakes and pies PURITY FLOUR would make.

Curiosity prompts you to seek the knowledge they discovered. It's urging you to try PURITY FLOUR.

REMINDER: On account of the *extra* strength and *extra* quality of PURITY FLOUR it is necessary, for best pastry-results, to add *more* shortening than you are accustomed to use with an ordinary flour. Add *more* water when making bread.

Add PURITY FLOUR to your grocery list right now

PURITY FLOUR

"More bread and better bread"

Money Back Dandruff Cure

W. S. COLE GUARANTEES PARISIAN SAGE FOR DANDRUFF AND FALLING HAIR

Destroy the Dandruff germs, that's the only known way to eradicate dandruff, and PARISIAN SAGE contains just the ingredients that will destroy germs.

Dandruff causes falling hair and baldness because the little dandruff germs rob the hair roots of the nourishment that should go to supply life, luster, and vigor to the hair.

PARISIAN SAGE costs but 50 cents a bottle at W. S. Cole's, and druggists everywhere. It is guaranteed to banish dandruff, stop falling hair or scalp itch, or money back. The girl with the Auburn hair is on every bottle. It is a most delightful and daintily perfumed dressing that quickly invigorates the scalp.

"My hair was falling out badly until I began to use PARISIAN SAGE, but it looks fine now. My hair was getting very thin, but it is getting thick and wavy."—Eliza Archer, 60 Church St., Hartford, Conn., June 5.

KIRKTON.

Miss Laura Ethel Wiseman, one of Kirkton's former esteemed young ladies, has been the successful winner of the gold medal in the Victoria School for nurses at London, the award being made for proficiency in practical work. As a reward for her attachments Miss Wiseman has been appointed assistant superintendent in the same school.

SAINTSBURY

SOCIAL AND CONCERT—Rev. J. E. J. Millyard will give his lime light views and lectures on "Ten Nights in a Barroom" and "The Rose, Shamrock and Thistle," with 200 beautiful views in St. Patrick's school room on Friday evening, May 24th. Tea served from 5 to 8 p.m. Admission 30c. Children 15c.

HENSALL

The Hensall Gun Club will hold a shoot on the 24th of May.—G. C. Petty this week disposed of the residence occupied by J. Lorn Scott, on King St. to Mrs. McKay.—Death visited Hillsgreen on Sunday taking away William, son of Mrs. George Pringle, at the age of 19 years. The deceased had been a cripple all his life owing to a deformity in his lower limbs.

USBORNE COUNCIL

Council met at Township Hall, May 4. All members were present. Minutes of the last regular meeting were read and approved. Skinner—Ellerington—that a Court of Revision of the assessment roll for 1912, be held at Township Hall, on Saturday, June 1, at 10 o'clock; and that the Clerk duly advertise same.—Carried. Brock—Routly—that By-law No. 2, confirming the appointment of Pathmasters, be passed, signed and sealed—Carried. Routly—Ellerington—that By-law No. 3, providing for repairs and outlet to Anderson drain, as read, be signed by the Reeve and Clerk, and the the corporate seal attached.—Carried. The Clerk was instructed to write contractors for the construction of branch B, Elimville Repairs. Tenders to be opened and contract let at next meeting of the council, June 1st, at 3 o'clock. Council then adjourned to meet June 1st, after Court Revision.

F. Morley, Clerk.

KHIVA.

John Cunningham Dead.—It will be sad news to many in this neighborhood to learn of the death of John Cunningham, eldest son of Mr. and Mrs. Barney Cunningham of Ilderton, formerly of Khiva. The deceased was taken ill on April 29th, and a few days later a physician was called, who pronounced his case appendicitis, and later peritonitis. It was quite evident from the first that his condition was serious and little hope was held out for his recovery. He, however, rallied through until Saturday, April 4th, when mumps set in on both sides of the face, followed by a relapse of peritonitis and gradually sinking death claimed him on Wednesday, May 8th, at the age of 14 years 5 months and 24 days. John was much loved among his associates and will be missed by all, but more particularly in the home, which has been robbed of a bright, kind-hearted boy, whom to know was to respect. Deep sympathy is expressed by many friends to the parents. Many were the floral tributes including a pillow from his teacher and Sunday school pupils, and also a wreath from Grace Sunday school, of which he was a member. The funeral, which was largely attended, took place Friday to St. George's Church cemetery.

HAY.

Christopher Bacrett Dead.—The subject of this sketch, which refers to the death of Mr. Christopher Bacrett, was one of the pioneers of Hay Township, and was a man noted for his strict integrity, his many good qualities as a friend, neighbor and citizen, and his death is regretted by a large circle of friends. The deceased was stricken about a month ago with a stroke of paralysis, from which he never recovered, and a second stroke ended his life, he having passed away on Monday, May 6th. Born in Bally Brittus, Ireland, in the year 1834, deceased emigrated to Canada about 52 years ago. In 1854 he went to New York and was married, and returning to Canada settled on the 2nd concession of Hay, where he has continuously resided ever since. Mrs. Bacrett died about two years ago. He was a man of considerable ingenuity and was much interested in mechanical devices. He was a lover of music and once made a violin which possessed much beauty of tone. Mr. Bacrett, though 78 years and 5 five months of age, a very active man and rode his bicycle up to the time of his affliction. He leaves to mourn his demise one sister, Mrs. Patrick O'Brien, and three brothers—Michael of Brantford; Chas. of Sarnia, and Hugh of Detroit; he is also survived by five sons and two daughters—William of Toronto; Robert of Hensall; Alfred, Los Angeles, Cal.; Albert of Port Angeles; Fred. of Seattle, Wash.; Mrs. Webber, of Huston, Texas. The funeral took place to the Exeter Cemetery Thursday.

EGMONDVILLE—James Coming after a lengthy illness died here Saturday night at the age of 71 years.

ST. MARYS—Charles McCallum, a pioneer after a lingering illness died Saturday night, aged 85 years.

MITCHELL—W. H. Troupe, a brakes man on the G. T. R., was killed at Mitchell Monday by being run over by the train.

SEAFORTH—Wm. Sleith, a well-known citizen, died shortly after retiring on Saturday night as a result of heart disease, aged 66 years.

BRUCEFIELD—Lightning struck the he nhouse of David McIntosh last week. The crowd that soon was gathered by telephone put out the fire before it got to the barns.

TUCKERSMITH—The engagement is announced of Miss M. Pearl Wise, daughter of Mr. and Mrs. John Wise, Tuckersmith, to Mr. John A. Innes, son of Mr. and Mrs. Alexander Innes, Stanley, the marriage to take place early in June.

PARKHILL—The sawmill of Grieves & Leslie was destroyed by fire recently. It was noticed in time to save the saw and engine, but the mill was burned badly. The cause of the fire is unknown. The work of building was commenced at once.

BLAKE—Another of the beloved and respected pioneer residents of this district has departed from this life. Mrs. Sparks, relict of the late George Sparks of the Bronson Line, Stanley, died at her home on Tuesday morning, having reached a good age. She had been ill for some time so that her demise was not unexpected.

GREENWAY—R. Carruthers met with a very painful accident last week. The wheel of a wagon passed over his foot injuring his toes severely.

NOTICE—COURT OF REVISION

TOWNSHIP OF MCGILLIVRAY

Notice is hereby given that the Court of Revision on the Assessment Roll of the Township of McGillivray for the year 1912, will be held in the Town Hall, West McGillivray on Saturday the 1st day of June 1912 at the hour of two o'clock P. M.

J. D. Drummond, Clerk.

TENDERS

TOWNSHIP OF MCGILLIVRAY

The undersigned will receive tenders for the erection of a cement arch over creek on 14th Con. opp. Lot 14. Plans and specification may be seen at the residence of J. D. Drummond, Tp. Clerk. Tenders will be opened at the Town Hall, West McGillivray on Saturday the 1st day of June 1912, at one o'clock P.M. The lowest or any tender not necessarily accepted.

J. D. Drummond, Clerk. W. T. Ulens, Reeve.

FREE TO YOU—MY SISTER

FREE TO YOU AND EVERY SISTER SUFFERING FROM WOMEN'S AILMENTS.

I am a woman.
I know woman's sufferings.
I have found the cure.

I will mail, free of any charge, my home treatment with full instructions to any sufferer from women's ailments. I want to tell all women about this cure—yes, my reader, for yourself, your daughter, your mother, or your sister. I want to tell you how to cure yourself at home without the help of a doctor. Men cannot understand woman's sufferings. What we women know from experience, we know better than any doctor. I know that my home treatment is a safe and sure cure for Leucorrhœa or Whitish discharge, Ulceration, Displacement or Falling of the Womb, Profuse, Scanty or Painful Periods, Uterine or Ovarian Tumors or Growths, also pains in the head, back and bowels, bearing down feelings, nervousness, creeping feeling up the spine, melancholy, desire to cry, hot flashes, weariness, kidney and bladder troubles where caused by weakness peculiar to our sex.

I want to send you a complete 10 days treatment entirely free to prove to you that you can cure yourself at home, easily, quickly and surely. Remember, that it will cost you nothing to give the treatment a complete trial; and if you should wish to continue, it will cost you only about 12 cents a week, or less than two centes day. It will not interfere with your work or occupation. Just send me your name and address, tell me how you suffer, if you wish, and I will send you the treatment for your case, entirely free, in plain wrapper, by return mail. I will also send you free of cost, my book—"WOMAN'S OWN MEDICAL ADVISER" with explanatory illustrations showing why women suffer, and how they can easily cure themselves at home. Every woman should have it and learn to think for herself. Then when the doctor says—"You must have an operation," you can decide for yourself. Thousands of women have cured themselves with my home remedy. It cures all, old or young. To Mothers of Daughters, I will explain a simple home treatment which speedily and effectually cures Leucorrhœa, Green Sickness, and Painful or Irregular Menstruation in Young Ladies. Plumpness and health always result from its use.

Wherever you live, I can refer you to ladies of your own locality who know and will gladly tell any sufferer that this Home Treatment really cures all women's diseases and makes women well, strong, plump and robust. Just send me your address, and the free ten days' treatment is yours, also the book. Write to-day, as you may not see this offer again. Address:

MRS. M. SUMMERS, Box 840 H - WINDSOR, ONT.

ONLY A MONTH;

OR, A CURIOUS MYSTERY EXPLAINED.

CHAPTER II.—(Cont'd)

Later on, when the whole party had started for a walk, and when Frithiof and Blanche had quite naturally drifted into a tete-a-tete, she said something to this effect:

"I begin not to wonder that you are so happy," she added, "the whole atmosphere of the place is happiness. I wish you could teach us the secret of it."

"Have you, then, only the gift of making other people happy?" said Frithiof. "That seems strange."

"You will perhaps think me very discontented," she said, with a pathetic little sadness in her tone which touched him. "But seeing how fresh and simple and happy your life is out here makes me more out of heart than ever with my own home. You must not think I am grumbling; they are very good to me, you know, and give me everything that money can buy; but somehow there is so much that jars on one, and here there seems nothing but kindliness and ease and peace."

"I am glad you like our life," he said, "so very glad."

And as she told him more of her home and her London life, and of how little it satisfied her, her words, and still more her manner and her sweet eyes, seemed to weave a sort of spell about him, seemed to lure him on into a wonderful future, and to waken in him a new life.

"I like him," thought Blanche to herself. "Perhaps, after all, this Norwegian tour will not be so dull. I like to see his eyes light up so eagerly; he really has beautiful eyes! I almost think—I really almost think I am just a little bit in love with him."

At this moment they happened to overtake two English tourists on the road; as they passed on in front of them, Frithiof, with native courtesy, took off his hat.

"You surely don't know that man? he is only a shop-keeper," said Blanche, not even taking the trouble to lower her voice.

Frithiof crimsoned to the roots of his hair. "I am afraid he must have heard what you said," he exclaimed, quickening his pace in the discomfort of the realization. "I do not know him certainly, but one is bound to be courteous to strangers."

"I know exactly who he is," said Blanche, "for he and his sister were on the steamer, and Cyril found out all about them. He is Boniface, the music-shop man."

Frithiof was saved a reply, for just then they reached their destination, and rejoined the rest of the party, who were clustered together on the hill-side enjoying a most lovely view. Down below them, sheltered by a great craggy mountain on the further side, lay a little lonely lake, so weird-looking, so desolate, that it was hard to believe it to be within an easy walk of the town. Angry-looking clouds were beginning to gather in the sky, a purple gloom seemed to overspread the mountain and the lake, and something of its gravity seemed also to have fallen upon Frithiof. He had found the first imperfection in his ideal, yet it had only served to show him how great a power, how strange an influence she possessed over him. He knew now that, for the first time in his life, he was blindly, desperately in love.

"Why, it is beginning to rain," said Mr. Morgan. "I almost think we had better be turning back, Herr Falck. It has been a most enjoyable little walk; but if we can reach the hotel before it settles in for a wet evening, why, all the better."

"The rain is the great drawback to Bergen," said Herr Falck. "At Christiania they have a saying that when you go to Bergen it rains three hundred and sixty-six days out of the year. But after all one becomes very much accustomed to it."

On the return walk the conversation was more general, and though Frithiof walked beside Blanche he said very little. His mind was full of the new idea which had just dawned upon him, and he heard her merry talk with Sigrid and Swanhild like a man in a dream. Before long, much to his discomfort, he saw in front of them the two English tourists, and though his mind was all in a tumult with this new perception of his love for Blanche, yet the longing to make up for her ill-judged remark, the desire to prove that he did not share in her prejudice, was powerful too. He fancied it was chiefly to avoid them that the Englishman turned toward the bank just as they passed to gather a flower which grew high above his head.

"What can this be, Cecil?" he remarked.

"Allow me, sir," said Frithiof, observing that it was out of the stranger's reach.

He was two or three inches taller, and, with an adroit spring, was able to bring down the flower in triumph. By this time the others were some little way in advance. He looked rather wistfully after Blanche, and fancied disapproval in her erect, trim, little figure.

"This is the Linnaea," he explained. "You will find a great deal of it about. It was the flower, you know, which Linnaeus chose to name after himself. Some say he showed his modesty in choosing so common and insignificant a plant, but it always seems to me that he showed his good taste. It is a beautiful flower."

Roy Boniface thanked him heartily for his help. "We were hoping to find the Linnaea," he said, handing it to his sister, while he opened a specimen tin.

"What delicate little bells!" she exclaimed. "I quite agree with you that Linnaeus showed his good taste."

Frithiof would probably have passed on had he not, at that moment, recognized Cecil as the English girl whom he had first accosted on the steamer.

"Pardon me for not knowing you before," he said, raising his hat. "We met yesterday afternoon, did we not? I hope you have had a pleasant time at Bergen?"

"Delightful, thank you. We think it the most charming town we ever saw."

"Barring the rain," said Roy, "for which we have foolishly forgotten to reckon."

"Never be parted from your umbrella is a sound axiom for this part of the world," said Frithiof, smiling. "Halloo! it is coming down in good earnest. I'm afraid you will get very wet," he said, glancing at Cecil's pretty, gray traveling-dress.

"Shall we stand up for a minute under that porch, Roy?" said the girl, glancing at a villa which they were just passing.

"No, no," said Frithiof; "please take shelter with us. My father's villa is close by. Please come."

And since Cecil was genuinely glad not to get wet through, and since Roy, though he cared nothing for the rain, was glad to have a chance of seeing the inside of a Norwegian villa, they accepted the kindly offer, and followed their guide into the pretty, snug-looking house.

Roy had heard a good deal of talk about sweetness and light, but he thought he had never realized the meaning of the words till the moment when he was ushered into that pretty Norwegian drawing-room, with its painted floor and groups of flowers, and its pink-tinted walls, about which the green ivy wreathed itself picturesquely, now twining itself round some mirror picture-frame, now forming a sort of informal frieze round the whole room, its roots so cleverly hidden away in sheltered corners or on unobtrusive brackets that the growth had all the fascination of mystery. The presiding genius of the place, and the very center of all that charmed, stood by one of the windows, the light falling on her golden hair. She had taken off her hat and was flicking the rain-drops from it with her handkerchief when Frithiof introduced the two Bonifaces, and Roy, who found his novel experience a little embarrassing, was speedily set at ease by her delightful naturalness and frank courtesy.

Her bow and smile were grace itself, and she seemed to take the whole proceeding as a matter of course; one might have supposed that she was in the habit of sheltering wet tourists every day of her life.

"I am so glad my brother found you," she exclaimed. "You would have been wet through had you walked on to Bergen. Swanhild, run and fetch a duster; oh, you have brought one already, that's a good child. Now let me wipe your dress," she added, turning to Cecil.

"Where has every one disappeared to?" asked Frithiof.

"Father has walked on to Holdt's Hotel with the Morgans," said Swanhild. "They would not wait, though we tried to persuade them to. Father is going to talk over their route with them."

Cecil saw a momentary look of annoyance on his face; but the next minute he was talking as pleasantly as possible to Roy, and before long the question of routes was being discussed, and as fast as Frithiof suggested one place, Sigrid and Swanhild mentioned others which must on no account be missed.

"And you can really only spare a month for it all?" asked Sigrid. "Then I should give up going to Christiania or Trondhjem if I were you. They will not interest you half as much as this south-west coast."

"But, Sigrid, it is impossible to leave out Kongswold and Dombaas. For you are a botanist, are you not?" said Frithiof, turning to the Englishman, "and those places are perfection for flowers."

"Yes? Then you must certainly go there," said Sigrid.

"Kongswold is a dear little place up on the Dovrefjeld. Yet if you were not botanists I should say you ought to see instead either the Voringsfos or the Skjaeggedalsfas, they are our two finest water-falls."

"The Skedaddle-fos, as the Americans call it," put in Frithiof.

"You have a great many American tourists, I suppose?" said Roy.

"Oh, yes, a great many and we like them very well, though not as we like the English. To the English we feel very much akin."

"And you speak our language so well!" said Cecil, to whom the discovery had been a surprise and a relief.

"You see we Norwegians think a great deal of education. Our schools are very good; we are all taught to speak German and English. French, which with you comes first, does it not? stands third with us."

"Tell me about your schools," said Cecil. "Are they like ours, I wonder?"

"We begin at six years old to go to the middle school; they say it is much like your English high schools; both my brother and I went to the middle schools here at Bergen. Then when we were sixteen we went to Christiania, he to the Handels-gymnasium, and I to Miss Bauer's school, for two years. My little sister is now at the middle school here; she goes every day, but just now it is holiday time."

"And in holidays," said Swanhild, whose English was much less fluent and ready, "we go away. We perhaps go to-morrow to Balholm."

"Perhaps we shall meet you again there," said Sigrid. "Oh, do come there; it is such a lovely place."

Then followed a discussion about flowers, in which Sigrid was also interested, and presently Herr Falck returned, and added another picture of charming hospitality to the group that would always remain in the minds of the English travelers; and then there was afternoon tea, which proved a great bond of union, and more discussion of English and Norwegian customs, and much laughter and merriment and light-heartedness.

When at length the rain ceased and Roy and Cecil were allowed to leave for Bergen, they felt as if the kindly Norwegians were old friends.

"Shall you be very much disappointed if we give up the Skedaddle-fos?" asked Roy. "It seems to me that a water-fall is a water-fall all the world over, but that we are not likely to meet everywhere with a family like that."

"Oh, by all means give it up," said Cecil, gayly. "I would far rather have a few quiet days at Balholm. I detest toiling after the things everyone expects you to see. Besides, we can always be sure of finding the Skjaeggedalsfos in Norway, but we can't tell what may happen to these delightful people."

(To be continued.)

"MY STOMACH IS FINE

Since Taking Na-Dru-Co Dyspepsia Tablets"

Mrs. J. Merkhuger, Waterloo, Ont., enthusiastically recommends Na-Dru-Co Dyspepsia Tablets. Her experience with them, as she outlines it, explains why.

"I was greatly troubled with my stomach" she writes. "I had taken so much medicine that I might say to take any more would only be making it worse. My stomach just felt raw. I read of Na-Dru-Co Dyspepsia Tablets, and a lady friend told me they were very easy to take, so I thought I would give them a trial and really they worked wonders. Anyone having anything wrong with his stomach should give Na-Dru-Co Dyspepsia Tablets a trial, they will do the rest. My stomach is fine now and I can eat any food."

One of the many good features of Na-Dru-Co Dyspepsia Tablets is that they are so pleasant and easy to take. The relief they give from heartburn, flatulence, biliousness and dyspepsia is prompt and permanent. Try one after each meal—they'll make you feel like a new person.

NO LONGER FEAR SMALLPOX.

Doctors Able to Prevent Former Fearful Pockmarks.

Smallpox is no longer feared by civilized mankind. This is partly due, no doubt, to the immunization of the races through vaccination, and partly to the better methods of sanitation and preventive treatment generally. In the first year of our occupation of the Phillipines, where smallpox was then an epidemic or constant disease, there were 240 deaths. A system of rigid vaccination was adopted, and in the last five years there have been only five cases and not a single death. The army records in Porto Rico tell the same story, and seem to prove beyond question the efficacy of vaccination. Dr. S. C. Rockhill, of Cincinnatti, reports that he has had much success in preventing the pock marking of the face in smallpox cases by painting the pustules with a lotion of nine parts glycerine and one part iodine. By this treatment also the patients get over the attack in from eight to fifteen days. Others prevent the pitting by keeping the patients in a room where no light whatever but red light enters. —New York Herald.

You can always tell a belle by her rings.

"Both men and women want to conceal their age, and for much the same reason. Men wish to appear older than they are in order to rule sooner, and women wish to appear younger than they are in order to rule longer."

The man who can please himself is easily pleased.

Mrs. Testy (looking up from the paper)—"Isn't this strange? A man after a fit of illness was absolutely unable to remember his wife, and did not believe she was the one he married." Mr. Testy—"Well, I dunno. It's pretty hard work sometimes for a man to realize that his wife is the same woman that he once went crazy over."

Well, Well!

DY-O-LA

ONE DYE FOR ALL KINDS OF GOODS

Can you arrange the above sets of jumbled letters into the names of eight well known fruits. If so, YOU CAN SHARE IN THE DISTRIBUTION OF THE ABOVE PRIZE. It is no easy task. But by patience and perseverence you can probably make out 5 or 6 of them. To the person who can make out the largest number we will give the sum of One Hundred Dollars. To the person making out the second largest number the sum of Fifty Dollars. To the person making the third largest number the sum of Thirty Dollars. To the person making the fourth largest number the sum of Twenty Dollars. Should two persons send answers equally correct, the first two prizes will be divided between them, (each receiving $75.00) Should three send in equally correct answers, the first three prizes will have to be divided, (each receiving $50.00). Should four persons send equally correct answers, the whole sum of $200.00 will be equally divided (each receiving $50.00), and so on in like proportion, provided they comply with a simple condition about which we will write as soon as answers are received. WE DO NOT WANT A CENT OF YOUR MONEY WHEN YOU ANSWER THIS ADVERTISEMENT. If you can make out anything like a complete list, write us at once enclosing 2-cent stamp for our reply. DO NOT DELAY. WRITE AT ONCE. Address, CANADIAN MEDECINE CO., Dept. 51, MONTREAL, QUE.

Don't let repairs eat up your profits

Whether they represent actual cash outlay, or only the time of yourself and your help, repairs are *waste* just the same. When you make an improvement—no matter how small its cost may be—let it be *permanent*. Then it is a real investment, something on which you can realize in *cash* should you decide to sell your property; and something that will pay you constant dividends in convenience, sightliness and comfort as long as the farm remains your own.

Concrete Improvements Are Permanent

They last as long as the very hills themselves. They do not require experts to build them. Their first cost, in most cases, is no more than for inferior materials.

Aren't you interested in the subject of permanent, modern farm improvements?

Then write for the book that describes hundreds of them—

"WHAT THE FARMER CAN DO WITH CONCRETE"

It isn't a Catalogue. Every one of its 160 handsomely illustrated pages is interesting and instructive. They tell how to mix concrete, how to place it, what can be done with it. The book was printed to sell for 50 cents, but we have a copy for you, free.

AN INVITATION TO SICKNESS

Thin, Watery Blood Leads to a Breakdown in Health

Thin, impure blood is an invitation to sickness. The blood is at work day and night to maintain the health and any lack of strength or purity in the blood is a weakness in the defense against disease. Anaemia is the doctor's name for lack of blood—watery blood. There may be an actual loss in the quantity of the blood, or one or more of its constituents may be lacking. The surest symptom of anaemia is pallor. The trouble is particularly common among young girls between the ages of fourteen and eighteen, but it is also found in women of all ages, and quite frequently attacks men. It is nearly always present and prevents recovery after grippe, fevers, malaria, and operations and for this reason a tonic medicine is required in all these cases to enrich the blood, build up the nerves and restore health and strength. And there is no other tonic as good as Dr. Williams' Pink Pills, as has been proved in thousands and thousands of cases, among them that of Miss Annie Turner, Marie Joseph Post Office, N.S., who says:—"Dr. Williams' Pink Pills have been of inestimable benefit to me. I was so badly run down that I could hardly go about, was not able to help in the work about the house. As my health grew worse the trouble brought on some species of fit, and when these attacks would come on I would sometimes remain unconscious for half an hour. After many other medicines had failed to help me, my brother got me a supply of Dr. Williams' Pink Pills and I began taking these. In the course of a few weeks I felt much better, and after taking the Pills for a time longer I was again in the full enjoyment of good health. I feel that I cannot praise Dr. Williams' Pink Pills too highly and I recommend them to all weak girls."

You can get these Pills from any medicine dealer or by mail at 50 cents a box or six boxes for $2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

QUITE SATISFACTORY.

An old colored barber is responsible for this gem: When asked if he favored the abolishing of capital punishment, he replied: "No, sah, I don't. Capital punishment was good enough fo' ma fo'fathers, an' it's good enough fo' me."

Dr. J. D. Kellogg's Dysentery Cordial is a speedy cure for dysentery, diarrhoea, cholera, summer complaint, sea sickness and complaints incidental to children teething. It gives immediate relief to those suffering from the effects of indiscretion in eating unripe fruit, cucumbers, etc. It acts with wonderful rapidity and never fails to conquer the disease. No one need fear cholera if they have a bottle of this medicine convenient.

"Tall women nearly always marry short men." "I have noticed it; I wonder why it is?" "Short men can't run fast.'

Minard's Liniment Lumberman's Friend.

CUT RATHER LOW.

"Do you notice how the color of this dress matches my eyes?"

"Yes; and I also notice how the cut of it matches that sore throat you have."

Skin All Covered With Eruption

N. Henri Tardif.

Tried Many Remedies 3 or 4 Years. Cuticura Soap and Ointment Cured.

A Quebec man, N. Henri Tardif, of St. Casimir, writes in a letter dated Mar. 31, 1911: "I had a very bad skin, all covered with eruption, eight years ago. I have had all of both my shoulders covered with it, and the high part of my arms, and my face, but it was the worst on my shoulders. I tried many different remedies to cure it, but nothing was any good. At last I went to an apothecary. He asked me if I had ever used Cuticura Soap and Ointment. I told him no, and I bought a box of Cuticura Ointment and a cake of Cuticura Soap. I used three boxes of Cuticura Ointment, but I am glad of the same, for Cuticura Soap and Ointment completely cured me of my skin eruption. I spread the Cuticura Ointment on all my sore parts, and I think that in washing my face with the Cuticura Soap, it hindered my eruption from itching and burning. I tried many remedies during three or four years but Cuticura Soap and Ointment cured me." (Signed) N. Henri Tardif.

Cuticura Soap and Ointment are sold throughout the world, but to those who have suffered much, lost hope and are without faith in any treatment, a liberal sample of each with a 32-p. booklet on the skin and scalp will be mailed free, on application. Address Potter Drug & Chem. Corp., 50 Columbus Ave., Boston, U. S. A.

LEOPARD AND UMBRELLA.

A Hunter's Laughable Experience In India.

The audacity of the leopard in pursuit of his favorite food is remarkable. In "Sport on the Nilgiris," Mr. F. W. F. Fletcher gives an instance in his own experience while living in India. He adds that he lost probably twenty dogs at various times, all carried away by leopards. Some were taken under his very nose.

One April afternoon I had been over to see a friend about four miles away, writes Mr. Fletcher, and shortly after I left his bungalow on my return home, it began to rain. As riding was uncomfortable in the wet, I got off my nag, and gave him to the horsekeeper. After a mile the rain stopped, and the sun came out; but I shut my umbrella and determined to walk the rest of the way home. Before me trotted five little terriers, behind me came the syce, leading my horse. We reached a sharp bend in the road, and the doggies had disappeared round it, when I saw the whole pack rushing back full tilt, with a leopard at the heels of the hindmost dog.

Just as they reached me, the leopard seized Flirt, and at the same moment I "landed" him a blow on the head with all my force with the umbrella, which flew into splinters. The leopard dropped the dog, but his impetus was so great that he could not stop, and rushing past me, he knocked my syce clean off his legs. Then he jumped into the grass bordering the road.

The change that came over our peaceful procession in that one instant was astounding. There stood I in the road, flabbergasted, with a broken umbrella-handle in my hand; my syce was roaring blue murder on his back; my horse was bolting for home like a runaway engine, and my five little dogs were shivering at my feet. I picked Flirt up and carried her home. She was badly bitten in the neck, but frequent applications of phenyl soon made the wounds heal, and in a fortnight or so she was well again. But she was a changed dog. She would come out with me, but she always stuck to my heels, and nothing would induce her to enter the scrub or join the other dogs in a hunt of any kind.

MOTHERS PLEASED WITH BABY'S OWN TABLETS

A mother who has once used Baby's Own Tablets for her little one never fails to show her pleasure at the result. She at once realizes that they are the ideal medicine for baby—being absolutely safe and free from injurious drugs and at the same time a sure cure for all the little ills from which babies suffer. Mrs. P. Theriault, Pacquetyille, N. B., writes:—"Please send me another box of Baby's Own Tablets. I was extremely pleased with the last. My baby was greatly troubled with constipation and vomiting, but the Tablets quickly cured her." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

CORRECTED.

"Did you say I was a dead beat?"

"Nope. I never said you were dead."

A Purely Vegetable Pill.—The chief ingredients of Parmelee's Vegetable Pills are mandrake and dandelion, sedative and purgative, and have a most healthful effect upon the secretions of the digestive organs. The dyspeptic and all who suffer from liver and kidney ailments will find in these pills the most effective medicine in concentrated form that has yet been offered to the suffering.

Experience is costly, but there is invariably a slump in the market when you try to dispose of it.

GOT THE PLACE.

Merchant—"Our salesmen must show tact. Now, for instance, if a lady came in the store and asked to see some false hair, what would you say to her?"

Bright Boy—"I'd ask her what shade her—her friend preferred, an'——"

"Enough," said the merchant, "name your own salary."

The Real Boss — "Your clerks seem to be in a good humor," remarked the friend of the great merchant. "Yes," replied the great merchant. "My wife has just been in, and it tickles them to death to see somebody boss me around."

Ask for Minard's and take no other.

BORDERING ON THE MIRACULOUS

JOHN McELROY'S HEART TROUBLE CURED BY DODD'S KIDNEY PILLS.

Could Not Work all Summer, and Doctor Failed to Help, but Cure Was Quick When He Used Dodd's Kidney Pills.

Benton, N.B., May 13 (Special).—Bordering on the miraculous is the cure of John McElroy, a young man well-known here. He was suffering from heart trouble and was so bad that all last summer he was not able to do a day's work. Dodd's Kidney Pills cured him. In telling the story of his cure, Mr. McElroy says:

"I went to a doctor who said I had palpitation, but his medicine did not seem to reach the spot. I suffered for over a year and all last summer I was not able to do a day's work. My sleep was broken and unrefreshing. I felt heavy and sleepy after meals and I was always tired and nervous. I perspired freely with the least exertion.

"After I had finished taking the doctor's medicine, and as I felt no better, I read in an almanac what Dodd's Kidney Pills could do and made up my mind to try them. Before I had finished the first box I felt different, and by the time the second was half gone I was working in the woods and doing good work."

GOLD BY ELECTRICITY.

Can Now Be Pulled Up from 12,000 Feet Below Surface.

It is unknown as yet to what depth mining operations on the Rand will be carried on in the future. So many different factors enter into the question, such as value of the reefs, working costs, underground temperature, etc., that it is impossible to speak definitely on the point, but it may be anywhere between 6,000 and 12,000 feet from the surface. Ten years ago it seemed as though the ultimate depth capable of being reached would depend entirely upon the ability of the mechanical engineers to design suitable plants to wind ore successfully from great depths, and much speculation prevailed upon the subject. Since the application of electricity to winding purposes became an accomplished fact that difficulty seems to have well-nigh disappeared, and the ultimate depth to which mining operations can be taken on the Rand appears to be governed more by the value of the reefs as they grow in depth than by any other factor. At all events, engineers on the Rand now regard the deep winding problem with every complacency, feeling sure that, by the adoption of stage winding, they will be able to wind the ore from any depth mining engineers can successfully extract it.—Cassier's Magazine.

"Keep out of debt, young man," said the philosopher. "People will think better of you for it." "Perhaps," was the thoughtful reply; "and yet I've noticed that the more I owe people the gladder they always seem to see me."

It Rubs Pain Away.—There is no liniment so efficacious in overcoming pain as Dr. Thomas' Eclectric Oil. The hand that rubs it in rubs the pain away and on this account there is no preparation that stands so high in public esteem. There is no surer pain-killer procurable, as thousands can attest who have used it successfully in treating many ailments.

HIS VERSE.

A little boy who had reached the age when boys feel that a watch is the one thing that makes life worth living, was told that for the present a watch could not be given to him.

But Edward continued to tease for one, until the whole family were wearied. Then his father, after explaining that he should certainly have a watch when he was older, forbade him to mention the subject again.

The next Sunday, the children, as was their custom, repeated Bible verses at the breakfast-table. When it was Edward's turn, he astonished them all by saying:

"'What I say unto you, I say unto all: Watch!'"

NEW PARIS PROFESSION.

Footless Man Made $100,000 Taking People Across Streets.

The "cul-de-jatte" does not exist in London, and there is not even a name in England for him, but in Paris he is a not unusual spectacle. There are, in the Paris streets, a number of men who for some reason have been obliged to suffer amputation of both legs from the trunk, and who beg for public charity on little carriages on which they wheel themselves about with extraordinary skill, using their hands as propellers. It is an unwritten police rule in Paris that all traffic must be stopped whenever a "cul-de-jatte" wishes to cross the road, and in these days of motor cars and taxicabs the rule is a good one.

But the "cul-de-jatte" has discovered that many people who are uncrippled have more difficulty than he in getting from one pavement to another, and he has turned his deformity into a money-maker. Every day at crowded street corners one may see one of these unfortunates on his little carriage heading a crowd of timid folk across the road while the policemen at each side keep back the traffic. When they are safely on the other side the "cul-de-jatte" takes off his cap and asks for "ferry money." He rarely collects less than 18 pence, and as he repeats the performance twenty or thirty times a day the simplest calculation will show that his trade is a good one. It is true that it needs special accomplishments. One of these cripples died in Paris recently leaving a fortune of $100,000.

MINISTER PRAISES ZAM-BUK.

Tells How It Cured His Wife's Bad Sore.

Rev. Henry J. Munton, of Blackfolds, Alta., writes: "My wife had a very bad sore foot, which it seemed impossible to get anything to heal. The sore would heal to a certain point and then fester again, and so on. I procured a box of Zam-Buk, and after persevering with this herbal balm for some time the sore was completely healed.

"I have since recommended Zam-Buk to several of my parishioners, and it always gives satisfaction."

Another instance in which Zam-Buk proved of unequalled value is told by Mr. N. L. Gerry, of Brandon, Man. He says: "I had my left foot run over by a waggon loaded with wheat. The foot was very badly crushed, and my little toe and the next toe were laid open. I applied Zam-Buk, and only had to miss work for two days. Zam-Buk healed the wound so quickly that on the third day I was able to put on my boot and walk to my work. In a very short time my toes were quite healed, and the foot is now as sound as ever, thanks to Zam-Buk."

Just as good for chronic sores, ulcers, piles, blood poison, burns, scalds, eruptions, eczema, and all skin injuries and diseases. 50c. box at all druggists and stores, or Zam-Buk Co., Toronto. Try Zam-Buk Soap, too, 25c. per tablet.

CHEAP OCEAN TRAVEL.

The voyage to England now costs on the best ships about half the rate charged by the Britannia, the first mail steamer to cross the ocean, 70 years ago. One can go first-class for three cents a mile; second-class for half of that, and third-class—with better accommodation than the best in the Britannia's day—for about 80 cents a hundred miles, and these rates include meals. Compare them with the standard railway passenger costs and meals in the dining-car or station eating houses extra.

CURED BY GIN PILLS.

Bridgeville, N. S.

"For twenty years I have been troubled with Kidney and Bladder Trouble, and have been treated by many doctors, but found little relief. I had given up all hope of getting cured when I tried Gin Pills. Now, I can say with a happy heart that I was cured.

"DANIEL F. FRASER."

"Has your son arrived at the years of discretion?" "Oh, yes! He's about to be married!" "How you do contradict yourself!"

Why suffer from corns when they can be painlessly rooted out by using Holloway's Corn Cure.

WAS WISE.

Mrs. Greig—"What are you burning, my dear?"

Mr. Greig—"The letters I wrote you before we were married."

Mrs. Greig — "You heartless wretch! Have you no sentiment, no——"

Mr. Greig—"Please be quiet. I'm doing this for your sake. I'm trying to fix things so that if I die nobody can dispute my will on the ground of insanity."

Don't buy until you see our stock of up-to-date clothes for men and boys.—Stewart's.

GOOD HORSE RETURNED.—Mr. W. Tapp has purchased that fine imported horse "Storm King", lately owned by Messrs. Bawden & McDonell, and sold some three years ago to a gentleman in Owen Sound. He is such a good breeding horse that farmers wished him back again, and consequently Mr. Tapp has purchased him and he will arrive this week. Storm King has a fine pedigree and has a most excellent record. Many of the highest priced horses sold around here this winter were sired by "Storm King". He will stand for the season at the McDonell Barns, John-st. Parties needing the use of a good horse will do well to see Mr. Tapp at the Central Hotel.

Big range of House Dresses in Prints, Ginghams and Chambrays sizes 32 to 44. Prices $1.50 to $2.50.—Stewart's.

LOAD OF CALVES.—I will have a load of Calves at the Central Hotel, Exeter, at 12 o'clock, on Wednesday May 22nd, for sale.—Geo. Chapman.

Rugs, Linoleums and Carpets. There is no difficulty in selling the new patterns. The prices you will find are right.—Stewart's.

PLANTS FOR SALE—Geraniums, Fuchsia, Ferns, Ageratum, Labelia, Asters, Pelargonium, Stocks, Salvia, silver Leaf Dracena, Coleus, German Ivy, Double and Single Petuna, Balsoms, Vinca, and all kinds of plants for hanging baskets. In vegetables plants we have Early and Late Cabbage, Cauliflower, Spanish Onions, Celery, Peppers, all kinds of tomatoes. LOUIS DAY, Gardener and Florist, Exeter.

3 yds x 3 yds Japanese Matting Rugs. The very thing for bedrooms. Ask to see them—Stewart's.

PROPERTY FOR SALE

The undersigned is offering for sale part of Lot 13, Con. 1, Usborne, situated half mile south of Exeter, containing seven and one fifth acres. There is on the premises a good frame house and barn, good well of water, about 30 apple trees and a quantity of small fruits. This is a splendid property, well situated and will be sold reasonable and on easy terms. If not sold privately on or before May 20, 1912, it will be offered by public auction with the household effects on June 1, 1912. For further particulars apply to Thos. Cameron, auctioneer, Farquhar, or on the premises to Mr. John Salter, Exeter

SALT WELL ANNUAL MEETING.—Notice is hereby given that the Annual Meeting of the Exeter Salt Well Co. will be held in the Town Hall, Exeter, on Monday June 10th, at 2 o'clock p. m., for the transaction of general business. T. B. Carling, Secretary.

Dr. Beattie Nesbitt, who is accused of forgery in connection with the Farmers Bank, has been brought from Chicago to Toronto, and will undergo his trial.

HOMESEEKERS' AND SETTLERS' SPECIAL TRAINS TO WESTERN CANADA.

Via Chicago and St. Paul, April 16th, 23rd and 30th, and every second Tuesday thereafter until Sept. 17th, inclusive. Tickets will also be on sale on certain dates via Sarnia and Northern Navigation Company. Special Train will leave Toronto 10.30 p.m. on above dates for Edmonton and points in Manitoba and Saskatchewan, stopping at all points on Grand Trunk Pacific Railway, west of Winnipeg. Through coaches and Pullman Tourist Sleepers will be carried fully equipped with bedding and porter in charge. Berths may be secured in sleepers at low rate.

This is an exceptional opportunity for those wishing to take advantage of the remarkably low one way settlers rates or round trip Homeseekers excursions, through the American cities. No change of cars.

Secure tickets, berth reservations etc. from any Grand Trunk Agent, or write A. E. Duff, District Passenger Agent, Toronto Ont.

MARRIAGE LICENSE.—Get your marriage license at the Advocate Office.

LOCAL DOINGS.

A woman can make a full meal out of a pickle and a dish of ice cream.

Rev. Powell of Main Street and Rev. Vance of Woodham exchange pulpits on Sunday next.

Curiously enough every one just out from England originally intended to sail on the Titanic.

Mr. J. W. Taylor last week sold his fruit orchard east of the school to Mr. A. E. Fuke.

We regret to learn of the serious illness of Mr. Frank Willis of Spring Field, Sask., an Exeter Old Boy.

Some people pay pew rent with the idea that it entitles them to an admission ticket to the big show hereafter.

Mr. W. T. Gillespie is negotiating for the purchase of a large auto-truck from The Clinton Motor Company of Clinton.

The many friends of Dr. and Mrs. McGillicuddy will sympathize with them in the death of their little son of only two days.

The sermons in James Street church on Sunday by Rev Hicks of Crediton were well received by large congregations morning and evening.

Mr. T. W. Hawkshaw has purchased a driver from Mr. T. Case, for use during his summer vacation here and at Grand Bend.
add dashwood

Methodist quarterly boards have voted 12,294 in favor of, and 1762 against church union. The members are 631166 for and 8040 against. The percentage of both is about 90 in favor.

A light flurry of snow fell on Monday morning and the day was cold and dark and dismal. Fires that had been allowed to go out in the shops and offices were rekindled, straw hats were discarded and overcoats donned again.

Mr. Geo. Bawden, one of London's oldest contractors, died in Victoria Home for Incurables on Thursday last, after an illness extending over some months. Deceased was a brother-in-law of Mrs. Thos. Bawden of Clinton, formerly of Exeter.

The finance department of Ottawa is now sending out the new $10 and $5 Canadian gold coins. The Advocate, however, is willing to take the subscription money in the same old one, two and five dollar bills, although we have no objection to the gold coins.

Saturday's London Advertiser contains photographs and an account of a wireless telegraphy apparatus constructed and successfully operated by an Exeter Old Boy, Shirley T. Bobier of Belgrave and a friend W. Brydges. Their outfits are situated two miles apart.

Esther, the eight-year old daughter of Mr. and Mrs. William Nickles near Adelaide, passed away on Friday after a lengthy illness. Mrs. Nickles was formerly Miss Finkbeiner, daughter of Mr. and Mrs. Mathew Finkbeiner of Stephen. A number of relatives autoed to the funeral on Sunday.

Rev. Croley of Wingham conducted the services in the Trivitt Memorial church on Sunday last, Mr. Clarence Duplan assisting in the evening. Rev. Croley is a very fluent preacher and preached two very powerful and interesting discourses. Rev. Mr. Collins took Mr. Croley's work in Wingham.

The story is told that Rev. Mark Turnbull, late of Goderich, and well-known in Exeter, saved his life in Mexico by proving to the bandits who had captured him, that he was a preacher, by reciting one of his sermons the manuscript of which they had found among his papers.

Sunday last—the second Sunday in May—was Mother's Day, and generally recognized as such in Canada and United States by appropriate church services and the wearing of white carnations—whose whiteness stands for purity; its form, beauty; its fragrance love; its wide field of growth, charity; its lasting qualities, faithfulness—all a true mother's attributes.

Mr. and Mrs. Tom Creech and Mrs. A. Dearing had a narrow escape from asphyxiated with coal gas on Tuesday morning last. It appeared that a quantity of wet coal had been placed in the stove, and the dampers being turned off, caused an accumulation of gas which escaped through a broken mica. All were overcome with the gas and it was some time before they recovered.

OPEN AIR CONCERT—The Exeter Band gave a delightful open air concert on Friday evening—the first of the season. We understand their uniforms have been ordered through W. W. Taman, Merchant Tailor.

FROGS.—A closed season for frogs has been fixed by the Ontario Government. H. Ellber, M. P. P., has received word that commencing with this year frogs may not be caught or killed during the months of May and June of each year. A heavy penalty may be imposed for violation of this law.

TREE PLANTING.—A number of the men of town assisted the Women's Institute to plant about 85 trees on the ground set aside for a park at the river side on Friday last. The trees was of the maple variety. A number of evergreens will be planted shortly. The park has not yet been named, but 'Tecumseh' seems to be the favorite. The Institute is, however, open for other suggestions for a name.

EXCURSION—The Annual Excursion of the Huron Old Boy's Association of Toronto will take place to the old county on Saturday, July 6th, returning the following Monday. The objective points are Goderich and Kincardine. A special feature will be the auto trip around the county starting at Goderich and going via Bayfield, St. Joseph, Zurich, Credgton, Centralia, Exeter (Saturday night), Hensall, Seaforth, Walton, Brussels, Wroxeter, Gorrie, Bluevale, Wingham, Belgrave, Blyth, and Clinton.

BOUGHT BUSINESS—Mr. J. D. Atkinson, who recently sold his share in the partnership of Rowe & Atkinson, furniture dealers and undertakers, has purchased with Mr. James Danford of Clinton, the furniture and undertaking business of Messrs Ball & Hoover in Clinton, and has taken possession. The family will move there shortly. Mr. Atkinson has been a good business man and citizen in Exeter several years, and we regret the departure of himself and family. We commend them to the good people of Clinton.

Mrs. Jos. Sutton was in London Tuesday.

Mrs. Jos. Sutton was in London Tuesday.

Mrs. R. Higgins of Hensall is visiting here.

School Inspector Tom is in town this week.

Lawry Watson visited in Stratford on Monday.

Wm. Piper of Seaforth was in town Wednesday.

Mr. Geo. Powell of Thedford called on friends here Monday.

Mr. Nelson Prior is visiting in Toronto.

Mrs. Chas. Ellis and son Marshall of Moosejaw, Sask., are visiting Miss Pearl Levitt in town.

The Methodist District Meeting was held in the James Street Church this week—Tuesday and Wednesday. But as much of the important business is being transacted as we go to press we are leaving the report until next issue. Nearly a full compliment of delegates is present. The meetings are presided over by the chairman of the district, Rev Mr. Hobbs. The addresses at the public meeting Tuesday evening were appreciated by those who were privileged to be present.

Mr. and Mrs. Frank Gill are having their Huron street dwelling enlarged by an extra story, and it will be otherwise renovated.

Inspector Torrance of South Huron had two liquor cases last week. J. P. Rau of Zurich was fined $75 and costs for selling on Sunday, and John Dobus of Hensall, a "Lister" was fined $10 and costs.

Mrs. Thos. Elliott met with an unpleasant accident on Friday morning last. She was on her way to visit at Mr. Geo. Ford's, Biddulph, taking the train to Centralia and from there was being driven out to Mr. Ford's, when they met an automobile. The horse became frightened and the occupants were hurled into the ditch with the result that Mrs. Elliott sustained injury to her head and was badly shaken up.

Highest prices paid for all kinds of Produce.

W. J. CARLING

THE SEWER BY-LAW.

Exeter ratepayers are to vote Monday next on a by-law to lay a large sewer along Main street, from the Post Office to the river. The by-law calls for an expenditure of $5000. The money is to be borrowed, and repaid in 20 annual instalments of about $400 each. The laying of the sewer will not cost more than the amount stated, and probably a few hundred dollars less. Owing to the fact that this sewer drains the land north of the post office to the river—two blocks east and one block west—it will be seen that it is a very important work. Every citizen of town knows that the laying of the sewer at the present time is an absolute necessity, owing to the fact that the old sewer caved in in several places this spring, causing a damming back of the water and the flooding of the gardens and cellars in the area mentioned; and during the present wet season the conditions are being repeated in even a greater degree.

The work, everybody must admit, must be done. Absolutely must be done. Then it only becomes a question of how well it is to be done, and how to pay for it, and who are to pay for it.

Do it well. We have had enough of half measures in Exeter as to the doing of things which are for the public good. It is time we commenced to build for the future. The drain should be built right, proper drop, sufficent depth best tile and connection; and these the specifications call for.

How to pay for it. The people of Exeter have shown over and over again that they would rather pay for public works on the twenty-year plan than in any other way, and they are right. People who live here fifteen years from now have a right to pay something towards the benefits they are enjoying. If the by-law were to fail in passing there would be but one thing to do—that is, pay the whole shot at one year.

Who are to pay for it. It has been argued that it should be a local improvement affair—paid for largely by those obtaining the benefit. The argument, like a good sewer, doesn't hold water. Nearly all the drains, and, in fact, all those of any importance have been put in by public funds, and this sewer must certainly be considered one of the most important.

These and other arguments were used at the public meeting Tuesday night by those who spoke; among them being Reeve Heaman, Councillors Scott and Rivers, Clerk Carling, J. W. Taylor, F. W. Gladman, and J. A. Stewart—all being in favor of the passing of the by-law. Before the meeting was closed a standing vote was taken and all were in favor of the by-law.

Everybody vote for the by-law and don't let us be forced to pay the whole cost in one year.

EXETER COUNCIL

The Council met in the Town Hall on Friday evening, May 17th. Members all present. Minutes of last meeting read and approved.

Mr. S. M. Sanders waited on the Council asking to have water supplied to the Canning Factory. He stated that they applied to have the water put in last year, but could not come to any arrangement with the council of that year, consequently had to put down an artesian well in order to supply their demand. Ford—Scott—That we supply the Exeter Canning and Preserving Co. with water for the sum of $40.00 for the season, the company agreeing to do the digging and filling in to a depth of 3½ feet for the sum of $10, the contract to run for a term of 2 years.—Carried.

Rivers—Scott—That the accounts be paid as read,—W. J. Bissett, meals for tramps, $3.00; London Advertiser, 6.00 London Free Press 6.30; Biggers Samuel 7.50; T. C. Brooks, express, 60c.; William Davis, caretaker N. E. Firehall 10.35; T. Baker, taking council to Parkhill in 1911, 8.00; H. Spackman, acct. 11.10; S. Powell, trees for cemetery, 17.50; J. Scott, expenses to Hydro meeting in Clinton 1.50; W. J. Heaman, do; 1.50; R Davis, labor 1.00; W. Gillespie 1.25; R. Horn 60c.; I. Taylor 50c.; J. Cookson 87c.; R. Gilles 4.00; Jas. Gould 2.00; G. Cudmore 3.90; Harley Sanders 1.25; Sid Sanders 6.47; Geo. Atkinson 10.68 T Brock, sr., 8.70; F. Mallett 7.35; Geo. Sanders 3.50; W. Hatter 1.23; Walter Westcott 6.98; J. Bell 2.10; total 135.78.

Petitions were presented asking to have the following streets watered. On motion of Rivers and Levett—That we ask for tenders for street watering, as follows,—Main, from South Boundary to Lake Road; Wellington, from Main to G.T.R. track; Huron, from Main two blocks east and two blocks west. Tenders to be in Clerk's hands not later than 7 o'clock Monday evening, May 27 The highest or any tender not necessarily accepted.—Carried.

Ford—Rivers—That all water rates be collected through the bank in future, if not paid each quarter by the 1st of the month.—Carried.

Levett—Adjournment to May 27th.

T. B. Carling, Clerk.

Mr. Thos. Essery, who is residing with his daughter, Mrs. A. Hastings, still continues very ill.

An emphatic denial was given by Premier Borden to a rumor which has been current in Ottawa and Toronto that Hon. L. P. Pelletier postmaster general has handed in his resignation. Where the rumor arose from is a mystery; but it was persistent gossip to-night in political circles.

VERY WET SEASON

This district and, in fact much of Ontario, has been experiencing an exceedingly wet season for the last few weeks. The climax, we hope, was reached on Monday night, when a heavy thunder, lightning and rain storm prevailed all night, with the result that many of the fields became flooded with water. The streams and rivers became as in early spring-time; in places the water was flowing over the roads. It is feared that considerable damage will have been done to the crops. This, however, will depend largely on what weather follows the wet season. A very hot sunny period will certainly cause much loss, but from present indications there is certainly no prospect of this occurring. Moderate weather with a drying wind would be a great help.

We understand that there are several bridges in the western part of Stephen washed away.

In Exeter those people whose property is drained by the Main street sewer are having their own troubles with flooded gardens and water-filled cellars—practically a recurrence of the conditions of a few weeks ago when the snow disappeared. The trouble is of course caused by the sewer caving in. There could be no better argument advanced for the carrying of the sewer by-law which is to be voted on next Monday.

CENTRALIA

Death.—One of our most respected citizens passed away on Thursday morning, May 16th, in the person of Richard Luker, at the age of 68 years, 1 month and 11 days. Deceased had been ailing for years, and for the past two years was quite sick. He was able to be out around, however, until a week before his demise, when he became much worse, and his decline was rapid until relieved of his sufferings as above stated. Lung trouble following an attack of pleurisy some years ago was the cause. He was a native of Canada and was born in the township of Hay, north of Hensall, in 1849. Later he with his parents moved to Stephen, and afterwards to Biddulph, where he resided about 35 years. Four years ago he moved to Centralia. He married Mary Brownlee, who predeceased him five years. The late Mr Luker was a man of many excellent parts and esteemed and respected by all who knew him. He was a Methodist in religion and a Liberal in politics. One son, Wilbert, of Centralia survives, and he has the sympathy of the whole community. The funeral was held to Exeter cemetery Saturday and was very largely attended. Rev. Blatchford officiated.

Rev. Blatchford and Mr. Thos Mitchell attended the Methodist District meeting at Exeter on Wednesday.—Rev. Steadman of Elimville will occupy the pulpit here on Sunday next, Rev. Blatchford taking the opening services of the Elimville church.—Mr. and Mrs. J. Wilson spent a few days the guest of their daughter at Strathroy.—Mrs. W. Diamond of Detroit spent the past week visiting at the home of Mr. and Mrs. F. Hicks.—The heavy rains of the past few days have caused many acres of land to be covered with water and it will no doubt do considerable damage to the grain that has been sown. So much rain is causing much delay to the farmers in finishing up the spring planting.—Mr. Thos. Essery, formerly of Centralia, is reported very low at the home of his daughter at Exeter.—Our baseball boys expect to play two games at Lucan on Friday, May 24th. Success boys.—Mr. Byron Hicks spent a couple days the past week in Toronto taking with him several loads of choice fat cattle.

CLANDEBOYE

Mr. E. Hodgson and Wilbert Revington have returned home, after spending a few days with friends in Toronto. Mr. Hodgson intends taking a trip to Edmonton at the beginning of the coming week.—Mr. Roy Atkinson spent Sunday with friends in London.—Mrs. W. Cunningham and her daughter, Miss Jennie, spent several days recently with relatives at Forest.—Mrs. E. A. McKenzie is spending a few days with her father at Denfield.—Mr. Geo. Patterson of Lissary has purchased an excellent driver from Mr. R. Atkinson of this place.—The most of the farmers of this district have finished their seeding and are preparing their corn and root ground.—Mrs. M. Love of Kenora, who has been spending the last two months with relatives here, will leave for her home Thursday.—Mr. Ben Mark spent a few days recently with friends in London.

BURNED TO DEATH

While preparing to get dinner on Monday, Miss Hewitt, suffered injuries that caused her death. She was alone in the house and was starting up a fire, when her apron caught fire and it blazed up until the upper part of her body was enveloped in flames. Neighbors heard her screams, and ran to her rescue. After a while they succeeded in smothering the blaze, but not before the upper part of the body, arms and hands were terribly burned. She died two days later.

A BEE DEMONSTRATION.

A Bee Demonstration is to be held in the Apiary of Mr. Jacob Haberer, Zurich on Tuesday, May 28th, commencing at 1 O'clock, sharp. The purpose of this demonstration is to explain the nature of Foul Brood and show how to cure it; also how to save the wax from the combs by means of the wax press. Your Inspector of Apiaries will take charge of the proceedings, assisted by successful local beekeepers. Be sure to come and bring your neighbors. Ladies specially invited. If you are not a beekeeper tell all your friends who are.

POTATO GROWERS WARNED

A note of warning has been sounded from Ottawa in regard to a very dangerous potato disease that has been brought to Canada in tubers imported from Europe during the present year. The disease which is known as potato Canker was recently discovered in an imported shipment. Canadian farmers are warned against the danger of planting imported seed.

The only way in which the disease can be introduced is through the planting of affected tubers.

The use of diseased tubers for seed may, in the worst cases, result in the complete destruction of the entire crop.

When once introduced the disease germ infests the soil for a period of eight years, which means that for at least eight years no sound potatoes can be raised on land thus infected.

None of the known remedies for other plant diseases will prevent the appearance of the disease.

The disease is spread rapidly through infested soil carried by wind, animals, farm implements, old bags or other means.

To use or sell potatoes imported from Europe is illegal.

BIRTHS

Kennedy—In Tuckersmith, on May 13th, to Mr. and Mrs. Alex. Kennedy, a son.
Gemmell—In Tuckersmith, on May 11 to Mr. and Mrs. David Gemmell, a son.
Down—At Staffa, on May 9th, to Mr. and Mrs. Thomas Down, a son.
McEwen—In McGillivray, on May 12th to Mr. and Mrs. Neil McEwen, a daughter.
Hodgins—Stephen, on Tuesday, May 14, to Mr. and Mrs. J. B. Hodgins, a son.

MARRIAGES

McLaughlin—McIsaac—At London, on May 8th, Mr. Patrick McLaughlin of London, to Miss Mary Ann McIsaac of London, formerly of Shipka.

DEATHS

Walper—In Dashwood, Ludwig Walper, sr., aged 85 years.
Luker.—In Centralia, on May 16th, Richard Luker, aged 68 years, 1 month and 11 days.
McCallum—At St. Marys, on May 11th, Charles McCallum aged 85 years, 4 months and 21 days.
Granville—Port Frank, Monday, May 6th, 1912, Alex Granville, in his 81st year.
Wilson—In McGillivray, on May 14th, Thomas Wilson, aged 70 years, 9 months.
Fell—In Hibbert, on April 12th, Rosetta daughter of John Fell, aged 16 years

MEETING OF HURON COUNTY COUNCIL

The council of the Corporation of the County of Huron will meet in the council chamber, in the town of Goderich, on Tuesday, the 4th day of June next, at 3 o'clock.

All accounts for settlement must be placed with the Clerk before this date.

Dated May 20th, 1912.

W. LANE Clerk.

GROWS RAPIDLY

is the popular verdict. It's fame like the sturdiness of a well rooted and grounded tree is enduring.

FLOUR POPULARITY

is distinctive to that special brand sold here. Don't chance some other, but insist on our trade mark. To be safe buy here.

If you want feed we can supply you, we have Bran, Shorts, Oats, feed wheat and several other feeds.

MAKING SAFE INVESTMENTS

UNWISDOM OF BUYING CERTAIN SHARES ON PRESENT MARKET.

Several Instances of Where the Investor Should Leave the Field Severely Alone and Let the Speculators Take the Chances and any Ultimate Profit.

The articles contributed by "Investor" are for the sole purpose of guiding prospective investors, and, if possible, of saving them from losing money through placing it in "wild-cat" enterprises. The impartial and reliable character of the information may be relied upon. The writer of these articles and the publisher of this paper have no interests to serve in connection with this matter other than those of the reader.

(By "Investor.")

At the present time the Toronto and Montreal stock exchanges are showing the greatest activity for some months past. Several important investment and semi-investment securities like Rio de Janeiro Tramways, Sao Paulo, Winnipeg Electric and Toronto Railway—not to mention C. P. R.—have been strong and active. Of late, however, there has been a decided prominence given to the common shares of a number of industrial companies, which may be justified from a speculative point of view, but which no one should purchase under the impression that he was investing in the true sense of the word. For those who can afford to take chances, and can dispense with income from their investments for some time to come—several years, perhaps—there is something to be said for well chosen purchases of industrial common stocks. Anyone, however, who is sufficiently well versed in the financial situation to make such purchases with proper discrimination requires little further in the way of general financial education. For the average person—particularly those away from the chief centres, where information (of a sort) more or less informed may be had for the asking—it is the reverse of wise to "dabble" in the stock market. That, of course, is all they would be doing were they to purchase these securities at the present time.

The most recent of the common shares to move were those of the "Steel Company of Canada." Most of this stock was given away to the promoters and as a bonus to underwriters of the bonds. As such it represents merely the value placed on "good will," and at present, and for some years to come, is chiefly "water;" that is stock created for various purposes for which no money is paid, and, therefore, represents no investment of cash in the plant. When in years to come the increase in the value of the plant and other assets has justified giving a value of par for this stock the "water" is said to have been "squeezed out."

The earnings on "Steel of Canada" common shares are about 3.8 per cent. It should be some years before any dividend is attempted on the common shares and so they are not worth what they are selling for to-day, though the speculative chance that a dividend may be paid sooner than generally expected gives them a value in the market quite distinct from that which one would give them from an investment point of view.

Spanish River Pulp and Ontario Pulp and Paper Companies' common shares have also been moving excitedly for some time now, but as those interests closest to the inside are at a loss to justify the present prices—for as yet earnings do not justify them, though they may before long—there is not much to be said on the subject.

Other shares like Sawyer-Massey common are moving upwards too. The Sawyer-Massey common stock is doubtless nearer dividends than many others more recently issued, but the water hasn't yet been squeezed out in a sufficient degree to justify the purchase of the stock as an investment, albeit an unremunerative one, for there is no dividend in sight for some years on that stock either.

The policy of not paying dividends until a good substantial reserve is built up is a sound one, and any shareholder who urges his company to act otherwise is so eager for the fruits of the present that he jeopardizes the possibilities of large crops in the future.

And so, anyone who buys non-dividend industrial common stocks at the present time, unless he has reason to think the period of reserve building is at an end, is not investing wisely. In any case his investment savors rather too much of speculation to be in any sense sound.

LITTLE TOMMY'S ERROR.

Mrs. de Venoff—"Tommy, do you want some nice plum jam?"

Tommy—"Yes, mother."

"I was going to give you some to put on your bread, but I lost the key of the pantry."

"You don't need the key, mother; I can reach down through the window and open the door from the inside."

"That's what I wanted to know. Now just wait until your father comes home."

When the Appetite Lags

A bowl of

Post Toasties

with cream

hits the right spot.

"Toasties" are thin bits of corn: fully cooked, then toasted to a crisp, golden-brown.

This food makes a fine change for spring appetites.

Sold by Grocers, and ready to serve from package instantly with cream and sugar.

TORONTO CORRESPONDENCE

INTERESTING GOSSIP FROM THE QUEEN CITY.

A Clergyman's Mistake—The Race Meeting—Premier Borden's Visit—Beattie Nesbitt's Return.

(We have arranged for a weekly letter about Toronto affairs, which, we believe, will be of great interest to many of our readers. These letters will be from the pen of one of Canada's foremost journalists, a man who has covered some of the world's greatest happenings and now occupies a leading position on one of the Toronto dailies.)

Rev. J. D. Morrow's campaign for $40,000 to complete his big down-town church has not been helped by his action in marrying a young girl to a Chinaman at a late hour at night, and the subsequent Police Court proceedings. Mr. Morrow is the "marrying" minister of the city, that is, he of all the clergymen, has the greatest number of marriage ceremonies to his credit in a year. He boasts that he turns all the fees over to his church fund, but the fees as a rule from his patrons are not large, though the Chinaman gave him $10. Mr. Morrow has been using plenty of other methods of raising funds. Sporting organizations, in recognition of his interest in athletics and his former prowess as a sprinter, have raised a goodly sum, but the goal is still a long way off. Some of the wealthier congregations have given generously, and when Mr. Morrow gets a chance to go in another minister's pulpit he tells a touching story of his work among the down and outs and his struggle with the financial question. But large subscriptions are infrequent. Apparently to many people Mr. Morrow is eccentric.

WOODBINE GAYETY.

Possibly the gayest social function in the Toronto calendar is the opening of the O. J. C. spring meeting at the Woodbine. It is a scene not to be duplicated anywhere on the American continent. United States race meets are not society functions. They draw a sporting crowd pure and simple. And none of them has the beautiful setting that the Woodbine provides—the lake across the meadow, the unsurpassed green sward, the stately elms and the flower beds. Given May sunshine and May breezes the whole setting is idyllic.

The crowd is the most cosmopolitan that gathers in Toronto. It cuts society in a vertical section. The highest in the land is there. So is the lowest. About the stables one may see some rare specimens of humanity. So, also, in the public stand and betting ring. Some are, no doubt, attracted thither by the love of "man's best friend," but most have the fever of gambling in their veins.

PREMIER IS DEMOCRATIC.

The first visit of the Right Honorable R. L. Borden to Toronto since his accession to the Premiership was the occasion of a warm welcome, as was natural in a city which is so strongly devoted to his cause and party as is Toronto. While Mr. Borden's character seems on the surface to lack something of warmth, newspaper men know him to be one of the easiest public men in Canada to interview. His predecessor, Sir Wilfrid Laurier, refused always, and still refuses, to be quoted in an interview about anything. Mr. Borden, on the other hand, rarely declines to be interviewed, though, naturally, he does not make important announcements by this method. To say that he is easy to interview does not mean that he is a seeker of publicity, or has not a keen sense of dignity. Quite the contrary.

Sir Edmund Osler, his host during his visit, has always expressed himself as a warm admirer of Mr. Borden's abilities and character. Sir Edmund is one of Canada's wealthiest men, the Canadian Pacific and Northwest lands having furnished him with the means of fortune-building.

LIVE WIRE IN LACROSSE.

The lacrosse situation has been touched by a live wire this season, said live wire being no less a personage than our old friend R. J. Fleming, General Manager of the Toronto Street Railway, whose chief hobbies heretofore have been Jersey cows and Sunday school activities. Until last year "Bob" Fleming did not know a lacrosse stick from a baseball bat. Then he had the Toronto Lacrosse Club given to him. It was literally forced on him. The owners had been losing money. They saw no way of getting even. They had been playing on the Toronto Railway Company's grounds at Scarboro Beach, and so they went to the railway's manager and calmly informed him that it was up to him to take the team off their hands.

He went to see his boys play. They lost. He decided to get some new players. But he was informed that under the rules of the N. L. A. he could not engage new players at that stage of the season. The incident shows what a novice he was.

But this year he was not to be fooled again, with the result that lacrosse players have been making contracts at undreamed of prices. There never has been such doings. Of course, the game in this league has been thoroughly professionalized, and no one plays for glory. And hitherto they have played for moderate cash considerations. But between R. J. Fleming and Con. Jones, an ex-Australian, who runs a big billiard parlor in Vancouver, and who is the lacrosse magnate of British Columbia, salaries have been boosted to dizzy heights. In the Newsy Lalonde affair it is understood that Jones paid $5,000 for a one-season contract after Fleming thought he had him at $4,500, of which $2,000 had been paid over.

When friends point out that at such salaries he can't hope to make money, even if he filled the largest grand stand in the city at every game, Mr. Fleming declares that all he cares about is to get a team that will win games.

With big league lacrosse so thoroughly commercialized it is a pity that the situation in the amateur leagues of the national game is not better. But there is a hope that the rivalry between the Canadian and Ontario associations will be straightened out before another season.

DR. NESBITT HOME AGAIN.

Dr. Beattie Nesbitt is again in our midst. The method of his home-coming was quite in keeping with his character. How to get from the Chicago train to the jail without running into a reporter or a photographer was a problem that gave a new turn to the game of life, but as a game which offered some measure of enjoyment it appealed to the jovial doctor, and as such he entered into it with his accustomed zest.

Those who saw the doctor in court declare he has aged greatly in the sixteen months since he left Toronto. He has lost weight, added wrinkles and lost some of his accustomed lightsomeness of manner.

Sympathy is expressed for his wife and child, a little girl. Mrs. Nesbitt was one of the two daughters of the late Mr. Hubbard, who had built up a big business in dental supplies, and left at his death an estate of some $200,000. Dr. Nesbitt managed the business for a period, but unsuccessfully.

CLASSICAL MUSIC.

"What is your idea of classical music?"

"Well," replied Mr. Cumrox, "I don't profess to know much about it. But it always seems to me that when a man writes classical music he simply takes a tune and sees how much he can muss it up."

She—You married me simply because I had money. He—No. I married you because I didn't have money.

GOOD ADVICE.

Sir Edward Clouston, like many other Canadians, has learned that nothing ties up a railway like a driving snowstorm. A few years ago in February, the Ontario railways were almost completely tied up with one of the worst blizzards experienced in years. At that time Sir Edward had an important engagement in Ottawa, and although the weather prophets forecasted had snowstorms, he decided to make the trip by the C.P.R., who maintain a fast service between Montreal and Ottawa.

The train crew had a desperate fight to make headway from the time they left Montreal, and finally, when three miles from one of the smallest stations on the line, the engine went dead.

Sir Edward and Sir Thomas Shaughnessy, the president of the C.P.R., were warm friends, so when

SIR EDWARD CLOUSTON.

Sir Edward was informed that there was to be a serious delay he resolved to telegraph Sir Thomas.

A brakeman started out to make his way three miles to the telegraph office, and Sir Thomas gave him a personal message to the C.P.R. president. He also insisted that the brakeman wait for a reply. His message was as follows:

"Sir Thomas Shaughnessy,

"President C.P.R.:

"Am tied up in a snowstorm in one of your trains. Three miles from nowhere. What would you advise? Clouston."

On account of the snowstorm, there were delays in transmitting the message, and the reply, which reached the snow-bound knight three hours afterwards. It was clear and to the point:

"Sir Edward Clouston,

"C.P.R. train, three miles from nowhere:

"Advise patience and prayer.

"Shaughnessy."

HATS WORN AT TABLE.

This Rule of Etiquette Laid Down in 1673.

Seventeenth century etiquette prescribed that hats should be worn at table. "The Rules of Civility, or Certain Ways of Deportment," published 1673, gives some directions on this point. Under the supposition that "a person of quality detains you to dine with him," it is laid down that "when the person invited is seated he must keep himself uncovered till the rest sit down, and the person of quality has put on his hat. . . . If the person of honor drinks a health to you, you must be sure to be uncovered. If he speaks to you, you must likewise be uncovered till you have answered him. If one rises from the table before the rest, he must pull off his hat."

A trace of this etiquette lingers in the House of Commons, where a member is always allowed to wear his hat only when seated.—London "Chronicle."

FOOD AND INTELLECT.

It used to be thought that fasting purified the spirit and made the intellect clear. The mind with wings unclogged by the gross appetites of the body was supposed to be more free and nimble. The British Medical Journal does not believe that the intellect is strengthened by fasting, though undoubtedly it may be clouded by over-eating. On the other hand, fasting has often evil effects on the temper, which undo whatever spiritual good it may do in other ways; and as regards the intellect, it is a truism that the brain must be fed like any other part of the body. The quantity of food required to keep one in sound condition varies so largely that it is impossible to lay down more than a tentative average standard. The quality is a matter of custom and environment; here, too, no rigid universal rule can be enforced. Bacon's teaching, that whatever a man "finds good of" is for him the best, is sounder than any dogmas framed in the laboratory.

Some people fail to practice what they preach because they need the money.

A friend in word is not always a friend in deed.

QUEEN WAS INDEPENDENT

ANECDOTES ILLUSTRATING VICTORIA'S CHARACTER.

The Gracious Monarch Resented Anything That Lowered Her Dignity.

Gracious though the late Queen Victoria could be at times, she would brook no interference with her personal wishes. Furthermore, she was quite convinced in her early days of the infallibility of kings and queens, and strongly resented anything which, in her opinion, would lower her Royal dignity. This is made plain by Mrs. Jerrold in her stories of the court in the 'forties, contained in her book, "The Early Court of Queen Victoria."

Queen Victoria's childhood was exceedingly dreary, and it was, perhaps, scarcely surprising, when she became Queen of England, that she used her power and great position in very little ways. Her first request to her mother on her accession was that she should be "left alone for two hours," a privilege she had never enjoyed, while, when the Duchess of Kent begged her august daughter not to overtire herself by the excitement of attending in person to

PROROGUE PARLIAMENT,

the girl of eighteen answered:—

"That is a word I do not like to hear; all these ceremonies interest and please me, but have no such effect on my mind as that which I understand by excitement."

Not even Lord Melbourne was allowed to give her any slight correction. At her first Council the young Queen began reading:—

"This Act entituled"—which is the legal way of spelling "entitled."

"'Entitled,' your Majesty 'entitled,'" hastily corrected Lord Melbourne, in a loud aside.

The young Queen slowly drew herself up and said, quietly and firmly, "I have said it."

Then, after a pause, once more the beautiful, childish voice rang out:—

"This Act entituled——"

We get another striking illustration of Queen Victoria's independence of character in connection with what has been facetiously termed "the Great Bedchamber Plot." Ladies of the Bedchamber are appointed by the Government, and a change in the Administration usually means a change in the appointments. In 1839, however, Queen Victoria refused to part with the Ladies of the Bedchamber on the occasion of a

CHANGE OF GOVERNMENT,

and the consequence was that Sir Robert Peel declined to form a Ministry, Lord Melbourne returning to office.

"They wish to treat me like a girl," her Majesty said, regarding this trouble.

Again, in connection with her marriage, Mrs. Jerrold tells a characteristic anecdote of her late Majesty. Devoted as she was from the first to the Prince Consort, the Queen would brook no hint of mastery or barely of equality from him. When telling the Duchess of Gloucester of how she "had to propose to Albert," she explained how impossible it would have been for him to propose to the Queen of England; "he would never have presumed to have taken such a liberty." She had no intention that he should presume in any way. When pressing on him a secretary he did not want, she wrote: "I am distressed to tell you what I fear you do not like, but it is necessary, my dearest, most excellent Albert. Once more I tell you that you can perfectly rely on me in these matters."

Melbourne had a difficult task at times to curb the impetuosity of the youthful Queen, for she declined to be ruled against her will even by him. Thus, when Melbourne condemned the idea of the Queen appearing on horseback

AT A REVIEW.

"Very well, my lord," she said; "remember, no horse, no review," and there was no review accordingly.

One important thing the Prince Consort did after his marriage was to bring about a revolution in the Royal household, which, owing chiefly to the appointment of "do-nothing" officials, was in a state of disorganization. The servants were not only careless, but quite inefficient, and neither the Queen of England nor her husband could be sure of a well-warmed room. On one occasion Queen Victoria "feeling the cold especially, sent a messenger to Sir Frederick Watson, the Master of the Household, complaining that the dining-room was always cold. That perplexed gentleman, who either had no initiative or knew that interference would be useless, replied gravely to the messenger: 'Properly speaking, it is not our fault, for the Lord Steward lays the fire, and the Lord Chamberlain lights it.'"

Ships and goods were insured against the perils of the sea so long ago as the fiftieth century.

SOLD EVERYWHERE
REFUSE SUBSTITUTES

FLOWERS IN JAPAN.

Their Arrangement Is Regularly Taught.

The arrangement of flowers in Japan is not done haphazard, but is governed by rules. There are certain flowers that are used for festivals only; certain others that are absolutely prohibited by custom.

There are various styles of arrangement, each of which has a name, and the art of disposing the flowers correctly is regularly taught. Vases in which to put the flowers or twigs are of infinite variety, and harmony between the vase and the flower is one of the first conditions to be observed.

There is a flower for each month and for each circumstance, happy or otherwise. Special bouquets are arranged for birthdays, deaths, for the first day of the eighth month and for the hundred and one little ceremonies that are integral parts of Japanese life and for which it would be a serious mistake to use the wrong flower.

The place which a bouquet should occupy in a room is also important, and it is usually put before the kakemono or painting that ornaments every well furnished room in a Japanese house. There should always be harmony between the picture and the bouquet. Thus before every painting by the famous artist Toemmei, who loved chrysanthemums, should be placed a vase of those flowers.

It is not considered good taste to stand too near a vase of flowers. Three feet is a respectful distance from which to admire it. Approbation should be expressed in a low voice, simply and quietly, the color of the flower being first touched upon and different expressions being assigned to different tints.

6% INTEREST AND SAFETY

Price Bros. and Company Bonds pay 6 per cent on the investment. They offer the strong security of first mortgage on 6,000 square miles of pulp and timber lands—which are insured at Lloyds against fire. The earnings of the Company at present approximate twice the bond interest. The new pulp mill in course of construction will double this earning power. Purchased at their present price they pay interest at the rate of 6 per cent. The best posted investors in Canada and England have purchased these bonds. Owing to the security and increasing demand of the products of the Company, these bonds will unquestionably increase in value.

If you have money to invest write us for complete information.

ONLY A MONTH;

OR, A CURIOUS MYSTERY EXPLAINED.

CHAPTER III.

Even so limp a specimen of humanity as Cyril Morgan found that, after all, existence in this primitive region had its charms, while Blanche said, quite truthfully, that she had never enjoyed herself so much in her life. As for Frithiof, he made no secret of his love for her, it was apparent to all the world; to the light-hearted Norwegians, who looked on approvingly.

One morning, a little tired with the previous day's excursion to the Suphelle Brae, they idled away the sunny hours on the fjord, Frithiof rowing, Swanhild lying at full length in the bow with Lillo mounting guard over her, and Blanche, Sigrid, and Cecil in the stern.

"You have been all this time at Balholm and yet have not seen King Bele's grave!" Frithiof had exclaimed, in answer to Blanche's inquiry. "Look, there it is, just a green mound by that tree."

"Isn't it odd," said Sigrid, dreamily, "to think that we are just in the very place where the Frithiof Saga really lived?"

"But I thought it was only a legend," said Cecil.

"Oh, no," said Frithiof, "the Sagas are not legends, but true stories handed down by word of mouth."

"Then I wish you would hand down your saga to us by word of mouth," said Blanche, raising her sweet eyes to his. "I shall never take the trouble to read it for myself in some dry, tiresome book. Tell us the story of Frithiof now as we drift along in the boat with his old home Framnaes in sight."

"I do not think I can tell it really well," he said; "but I can just give you the outline of it:

"Frithiof was the only son of a wealthy yeoman who owned land at Framnaes. His father was a great friend of King Bele, and the king wished that his only daughter Ingeborg should be educated by the same wise man who taught Frithiof, so you see it happened that as children Frithiof and Ingeborg were always together, and by and by was it not quite natural that they should learn to love each other? It happened just so, and Frithiof vowed that, although he was only the son of a yeoman, nothing should separate them or make him give her up. It then happened that King Bele died, and Frithiof's father, his great friend, died at the same time. Then Frithiof went to live at Framnaes over yonder; he had great possessions, but the most useful were just these three: a wonderful sword, a wonderful bracelet, and a wonderful ship called 'Ellida,' which had been given to one of his Viking ancestors by the sea-god. But though he had all these things, and was the most powerful man in the kingdom, yet he was always sad, for he could not forget the old days with Ingeborg. So one day he crossed this fjord to Bele's grave, close to Balholm, where Ingeborg's two brothers, Helge and Halfdan, were holding an assembly of the people, and he boldly asked for Ingeborg's hand. Helge, the king, was furious, and rejected him with scorn, and Frithiof, who would not allow even a king to insult him, drew his sword and with one blow smote the king's shield, which hung on a tree, in two pieces. Soon after this good King Ring of the far North, who had lost his wife, became a suitor for Ingeborg's hand; but Helge and Halfdan insulted his messengers and a war was the consequence. When Frithiof heard the news of the war he was sitting with his friend at a game of chess; he refused to help Helge and Halfdan, but knowing that Ingeborg had been sent for safety to the sacred grove of Balder, he went to see her in 'Ellida,' though there was a law that whoever ventured to approach the grove by water should be put to death. Now Ingeborg had always loved him and she agreed to be betrothed to him, and taking leave of her, Frithiof went with all haste to tell her brothers. This time also there was a great assembly at Bele's grave, and again Frithiof asked for the hand of Ingeborg, and promised that, if Helge would consent to their betrothal, he would fight for him. But Helge, instead of answering him, asked if he had not been to the sacred grove of Balder, contrary to the law! Then all the people shouted to him, 'Say no, Frithiof! Say no, and Ingeborg is yours.' But Frithiof said that though his happiness hung on that one word he would not tell a lie, that in truth he had been to Balder's Temple, but that his presence had not defiled it, that he and Ingeborg had prayed together and had planned this offer of peace. But the people forsook him, and King Helge banished him, until he should bring back the tribute due from Angantyr of the Western Isles; and every one knew that if he escaped with his life on such an errand it would be a wonder. Once again Frithiof saw Ingeborg, and he begged her to come with him in his ship 'Ellida,'' but Ingeborg, though she loved him, thought that she owed obedience to her brothers, and they bade each other farewell; but before he went Frithiof clasped on her arm the wonderful bracelet. So then they parted, and Frithiof sailed away and had more adventures than I can tell you, but at last he returned with the tribute money, and now he thought Ingeborg would indeed be his. But when he came insight of Framnaes, he found that his house and everything belonging to him had been burned to the ground."

"No, no, Frithiof, there was his horse and his dog left," corrected Sigrid. "Don't you remember how they came up to him?"

"So they did, but all else was gone; and, worst of all, Ingeborg, they told him, had been forced by her brothers to marry King Ring, who, of she had not become his wife, would have taken the kingdom from Helge and Halfdan. Then Frithiof was in despair, and cried out, 'Who dare speak to me of the fidelity of women?' And so it happened that that very day was Midsummer-day, and he knew that King Helge, Ingeborg's brother, would be in the Temple of Balder. He sought him out, and went straight up to him and said, 'You sent me for the lost tribute and I have gained it, but either you or I must die. Come, fight me! Think of Framnaes that you burned. Think of Ingeborg whose life you have spoiled!' And then in great wrath he flung the tribute-money at Helge's head, and Helge fell down senseless. Just then Frithiof caught sight of the bracelet he had given Ingeborg on the image of Balder, and he tore it off, but in so doing upset the image, which fell into the flames on the altar. The fire spread and spread so that at last the whole temple was burned, and all the trees of the grove. Next day King Helge gave chase to Frithiof, but luckily in the night Frithiof's friend had scuttled all the king's ships, and so his effort failed, and Frithiof sailed out to sea in the 'Ellida.' Then he became a Viking, and lived a hard life, and won many victories. At last he came home to Norway and went to King Ring's court at Yuletide, disguised as an old man; but they soon found out that he was young and beautiful, and he doffed his disguise, and Ingeborg trembled as she recognized him. Ring knew him not, but liked him well, and made him his guest. One night he saved Ring when his horse and sledge had fallen into the water. But another day it is happened that they went out hunting together, and Ring, being tired, fell asleep, while Frithiof kept guard over him. As he watched, a raven came and sung to him, urging him to kill the king; but a white bird urged him to flee from temptation, and Frithiof drew his sword and flung it far away out of reach. Then the king opened his eyes, and told Frithiof that for some time he had known him, and that he honored him for resisting temptation. Frithiof, however, felt that he could no longer bear to be near Ingeborg, since she belonged not to him, and soon he came to take leave of her and her husband. But good King Ring said that the time of his own death was come, and he asked Frithiof to take his kingdom and Ingeborg, and to be good to his son. Then he plunged his sword in his breast, and so died. Before long the people met to elect a new king, and would have chosen Frithiof, but he would only be regent till Ring's son should be of age. Then Frithiof went away to his father's grave and prayed to Balder, and he built a wonderful new temple for the god, but still peace did not come to him. And the priest told him that the reason of this was because he still kept anger and hatred in his heart toward Ingeborg's brothers. Helge was dead, but the priest prayed him to be reconciled to Halfdan. They were standing thus talking in the new temple when Halfdan unexpectedly appeared, and when he caught sight of his foe he turned pale and trembled. But Frithiof, who for the first time saw that forgiveness is greater than vengeance, walked up to the altar, placed upon it his sword and shield, and returning, held out his hand to Halfdan, and the two were reconciled. At that moment there entered the temple one dressed as a bride, and Frithiof lifted up his eyes and saw that it was Ingeborg herself. And Halfdan, his pride of birth forgotten and his anger conquered by his foe's forgiveness, led his sister to Frithiof and gave her to be his wife, and in the new Temple of Balder the Good the lovers received the blessing of the priest."

"How well you tell it! It is a wonderful story," said Blanche.

It was such a contrast to her ordinary life, this quiet Norway, where all was so simple and true and trustworthy, where no one seemed to strain after effects. And there was something in Frithiof's strength, and spirit, and animation, which appealed to her greatly. "My Viking is adorable!" she used to say to herself; and gradually there stole into her manner toward him a sort of tender reverence. She no longer teased him playfully, and their talks together in those long summer days became less full of mirth and laughter, but more earnest and absorbing.

Cecil saw all this, and she breathed more freely. "Certainly she loves him," was her reflection.

Sigrid, too, no longer doubted; indeed, Blanche had altogether won her heart, and somehow, whenever they were together, the talks always drifted round to Frithiof's past, of Frithiof's future, or Frithiof's opinions. She was very happy about it, for she felt sure that Blanche would be a charming sister-in-law, and love and hope seemed to have developed Frithiof in a wonderful way; he had suddenly grown manly and considerate, nor did Sigrid feel, as she had feared, that his new love interfered with his love for her.

"Will there be church to-morrow?" asked Blanche, as they rested half-way. "I should so like to go to a Norwegian service."

"There will be service at some church within reach," said Frithiof; "but I do not much advise you to go; it will be very hot, and the place will be packed."

"Why? Are you such a religious people?"

"The peasants are," he replied. "And of course the women. Churchgoing and religion, that is for women; we men do not need that sort of thing."

She was a litle startled by his matter-of-fact, unabashed tone.

"What, are you an agnostic? an atheist?" she exclaimed.

"No, no, not at all," he said composedly. "I believe in a good providence, but with so much I am quite satisfied, you see. What does one need with more? To us men religion, church going, is—is—how do you call it in English? I think you say 'an awful bore.' Is it not so?"

The slang in foreign accent was irresistible. She was a little shocked, but she could not help laughing.

"How you Norwegians speak out!" she exclaimed. "Many Englishmen feel that, but few would say it so plainly."

"So! I thought an Englishman was nothing if not candid. But for me I feel no shame. What more would one have than to make the most of life? That is my religion. I hear that in England there is a book to ask whether life is worth living? For me I can't understand that sort of thing. It is a question that would never have occurred to me. Only to live is happiness enough. Life is such a very good thing. Do you not agree?"

"Sometimes," she said, rather wistfully.

"Only sometimes? No, no, always, to the last breath!" cried Frithiof.

"You say that because things are as you like; because you are happy," said Blanche.

"It is true, I am very happy," he replied. "Who would not be happy walking with you?"

Something in his manner frightened her a little. She went on breathlessly and incoherently.

"You wouldn't say that life is a very good thing if you were like our poor people in East London, for instance."

"Indeed, no," he said, gravely. "That must be a great blot on English life. Here in Norway we have no extremes. No one is very poor, and our richest men have only what would be counted in England a moderate income."

"Perhaps that is why you are such a happy people."

"Perhaps," said Frithiof, but he felt a little inclined to consider the problem of the distribution of wealth just then, and the talk drifted round once more to that absorbing personal talk which was much more familiar to them.

(To be continued.)

PICKERING'S PEERS.

As his father, the Earl of Clarendon, is no longer a young man, Lord Hyde's much-talked-of-action in emigrating as a farmer to Canada with his wife and children and his brother-in-law, Lord Somers, has not that air of permanent exile about it which lends, as a rule, a definitely depressing quality to such actions, says the London Bystander. Indeed, it is probable that

Lord Hyde.

health considerations, especially for his children, are the prime reasons for a step which is certainly an unusual one for a former young man about town, the heir to a rich earldom and a fine estate, and the son of a life-long courtier. In Edwardian days Lord Hyde, who is dark and well set-up, though slightly lame, was one of the few young

Lord Somers.

men about the Court, and it was at Dublin in the gay days of the Dudley Vice-royalty that he met his fair-haired, blue-eyed wife, the daughter of that Mrs. Somers Cox who was the adopted daughter of the painter Watts. Her brother, Lord Somers, though he had a long minority, succeeded to a somewhat attenuated fortune, the bulk of the Somers estates.

ARMY DESERTIONS.

Official government reports show thta the number of desertions from the British army last year reached the surprising height of 1,600, or nearly 400 more than the previous year. Though very little is ever said about it in the press, it is generally known that the recruiting authorities find it more and more difficult to get the necessary number of suitable young men for the army, and that to fill the gaps in the ranks all sorts of human derelicts and even ex-convicts are taken, with the result that the army is not thought by all to be altogether reliable.

BLACK, GREEN or MIXED

FIGHT WITH A DEVIL-FISH.

A Terrible Struggle With One of These Monsters.

One of the largest of fishes—perhaps the largest of true fishes, since the whale is a mammal—is the manta or giant devil-fish of tropical waters. A man who catches one of these monsters knows he has been fishing, for he often stands in no small peril of his life before the creature is landed. In the Wide World Magazine a writer gives this lively account of his experience with an unusually large manta:

We were fishing from a gasoline launch some fifteen miles down the coast from Manzanillo, Mexico. I was standing in the bows, ready to harpoon a large fish that had bitten, and was being pulled to the surface.

Suddenly fish and line were snapped away, and through the clear water I saw a huge dark purple mass, scarcely a fathom below the boat. Shouting to our Mexican engineer to start the launch, I threw the harpoon with all my strength. It struck home, and instantly a great disturbance took place. Some monstrous creature rose to the surface and dashed at the boat, striking out with what looked like two great wings.

The strokes were terrific, and we had the utmost difficulty in keeping clear. Had one of these "wings" touched the boat, it would have been smashed like match-wood, and, as sharks were watching the disturbance, our fate would soon have been decided.

Although the water all around us was seething from the fury of the monster's onslaught, we kept our heads, and did our best to disable the creature.

We embedded three harpoons in it. We also fired three revolver bullets into it, each of which produced volumes of dark exudus; and every time the madly flapping wings came near enough, the man in the bows gave them a lance-thrust.

Gradually the manta's struggles grew less, and it began to yield to the strain on the ropes. It was a long battle, however, for every now and then the great fish, seeming to regain strength, would attack us with renewed ferocity. Eventually, after a final flurry that caused the water to heave as if with an earthquake, it ceased its struggles, and we towed it ashore, escorted by shoals of sharks.

Tying the boat up at the wharf, I got permission from the commandant of the port to land our prize. Making it fast, we hoisted it on the crane, and ran it along to the railway office, in front of which we photographed it. It measured eighteen feet three and a half inches from tip to tip of the wings, and sixteen feet one inch from head to tail; near the centre it was over nine feet thick.

We estimated its weight at five tons. When we had photographed the great fish, we cast it off the end of the wharf, and the sharks demolished the carcass in an incredibly short time.

He (after popping the question)—"Why do you cry, my angel? Did I offend you by my proposal?" She (still sobbing)—"Oh, no, dear, it is not that; I am crying for joy. Mother always said to me: 'May,' she said, 'you are such an idiot that you would not get even a donkey for a lover,' and now I have got one after all."

She (tearfully)—"Our engagement is at an end, and I wish to return to you everything you have ever given me." He (cheerily)—"Thanks, Blanche! You may begin at once with the kisses!" They are married now.

Sanders & Creech, Props.

THURSDAY, MAY 23, '12.

There is in this country a woful lack of business methods among farmers. There are very few of them who can tell what it costs to produce a crop or what is the actual profit in feeding cattle or in milking cows. Only the other day a wealthy man from Europe, who is on a visit to this country was unable to obtain any definite information as to the profits made from farming. This was something he was very serious of securing definite information upon before investing his capital. And there is a reason for this lack of knowledge. The farmer in this country does a large amount of the labor himself and does not keep track of the work put upon the land, which is necessary if one is to estimate with accuracy the cost of production. In European countries there are many men engaged in farming in a large way. They do not work themselves, but keep an accurate account of all moneys paid out for work done, etc., and are able to tell to the last cent what it costs to produce a crop, feed a bunch of steers or to secure milk from a herd of cows and what the actual profits are. It would, however, pay every farmer in this country to keep an account of costs and be able to tell just what branch of farming pays him best.

Hon. Geo. P. Graham must feel delighted with the Globe for mentioning his name as the probably successor to Mr. Hays, late manager of the G. T. R., when he was not even considered. But probably The Globe wants Mr. Graham out of the party.

The director of colonization for Ontario touches the key-note of the hired help problem when he advocates the employment of men by the year on farms. The farmer who engages help in the spring and allows it to go in the fall is constantly on the look-out for help. Every spring he has to go through the task of trading a new man for the job. If all the men who engage on farms were experienced the situation would not be so serious. But experienced farm help cannot be easily secured. What few men there are who come to this country from the old land, and who have had experience in handling horses, caring for live stock, and in farm work generally, are quickly picked up by the more well-to-do farmers who can afford and who take good care that such men make more than a six or eight months' engagement. The average farmer, therefore, who engages for part of the year only, is handicapped right from the start. He has to be satisfied with what he can get, and if he hires a man in the spring who knows nothing about the business, and has to spend a month or six weeks before he can get much real value out of him, he should see to it that the man he has trained stays with him as long as possible.

"Patronize home institutions," cries the country editor from week to week. "That is right," says the merchant "give it to those who go to some other town to buy goods." Then with his heart filled with kindness to the loyal editor he sends his job work to a Toronto "sweat shop," or utilizes a piece of wrapping paper to write an order on for goods, or send a statement to a customer. Funny isn't it?

If there were no schools to take the children away from home part of the time, the insane asylums would be filled with mothers.

LUMLEY.

Quite a number of the children of this locality have the measles.—Mrs. R. D. Bell of near Hensall and brother Sidney McArthur visited Stewart McQueen Sunday.—Mr. Ira Chambers spent Sunday at J. T. Mitchell's.—Mr. W. Dougall and sister, Miss Mabel, of Rodgerville, also Miss Emily Dunn of Hensall were visitors at Stewart McQueen's Sunday.—Mrs. Wm. Glenn, Sr., who recently had the misfortune to get her right arm badly sprained, is improving slowly and it will be some time before she will be able to use it.—Mr. and J. T. Mitchell and son Stanley spent Sunday with Mr. and Mrs. Roger Rice near Seaforth.—Messrs. W. L. Kerslake and F. J. Simmons spent Sunday at G. Fairbairns, Tuckersmith.—Mr. D. McConnell of Cromarty makes his weekly trip on Saturday this year.—Miss Mary Broadfoot of Mill Road spent Monday at her brother's here.—So much rain has fallen here recently that it has stopped the preparation for the root crop.—Quite a number of young colts have died lately, rheumatism being the cause.—Mrs. Jas. Horton is having the inside of her residence nicely decorated. The work is being done by J. Stacey of Hensall.

(Intended for last week.)

Mr. and Mrs. Alex. Broadfoot, Mill Road, spent Sunday at Jas. Broadfoot's Master Glenn Broadfoot returning home with them.—We are pleased to report much improvement in Stewart McQueen's health.—Miss Edna Williams is visiting her nieces, little Helen and Alma Miller.—Mr. Austin Rice of Seaforth Collegiate spent the week end with his aunt, Mrs. Franklin Horton.—Misses Nan Horton and Maude Glenn, also Jack Glenn attended the organization of the Rebeckah Lodge in Seaforth on Friday evening.—Mr. John Glenn recently sold to Mr. O. B. Johnston of Clinton two fine draft horses, for which he received good figures.—Mr. and Mrs. John Routly of Winchelsea were visitors at John McQueen's Sunday.

Dashwood

Mr. and Mrs. Geo. Nern of Detroit attended the funeral of the late Louis Walper.

Mr. and Mrs. Sam Ireland of Stratford are attending the funeral of the late Mr. Ireland, the former's father.

Mr. J Deichert and Mr. Les. Williams of Zurich called on friends in the village Sunday.

Mr. Sadler of London was the guest of Mr. Herman Zimmer at the Commercial Sunday afternoon.

Mr. Pat Edinhoffer of Pigeon, Mich., visited relatives here for a few days last week.

Mr. Winthorn of Lindsay held a public meeting in Zimmer's Hall Saturday evening, concerning the Farmers Bank case.

Mr. and Mrs. John Triebner of Exeter visited the latter's parents, Mr. and Mrs. Lippert Thursday of last week.

Miss Beatrice Graybell, school teacher of Dryedale spent Sunday under the parental roof.

Mr. and Mrs. Sam Brown and son of Crediton spent Sunday with Mr. and Mrs W. Siebert.

A number of our young people motored to Parkhill Sunday with Mr. Guenther's auto bus.

Miss Clara Musser of Exeter is spending a few weeks with her parents here.

Another of our early settlers passed away, on Sunday morning of last week in the person of Mr. Ludwig Walper Sr., at the ripe old age of 85 years. Deceased was born in Rummeroch Germany, in 1826. The year 1847 he came to Canada, settling in the County of Waterloo. In 1849 he married Marie Weber of Zurich, when they made their home on the Bronson Line. His wife predeceased him four years. The funeral was held on Wednesday of last week. Service being conducted by Rev J. Thun, of the Lutheran Church, of which he was a valued member. He leaves to mourn three sons and seven daughters Louis, Jr., on the homestead Casper on the Bronson line, and August of Fort Wayne, Ind. Mrs. J. Schroeder and Mrs. H. Hahn of North Dakota. Mrs. Rev. Schroeder of Mt. Clemens Mich., Mrs. Weimer of Texas Mrs. Rev. Bartzlid, of Kansas, Mrs. Schmitt, of Fort Wayne, and Mrs. Fred Willert of the town line. He also leaves 45 grandchildren and 13 great grand children.

Crediton

FOR SALE—At Zwicker's, Crediton, No. 1 Red Clover, Alsike, Alfalfa, Timothy, Kentucky Blue and Orchard Grass—specially selected for seeding purposes Also a quantity of clean Alsike and Timothy Seed mixed at very reasonable prices. Parties requiring should buy early as the better grades will be scarce and higher as season advances.—CHAS. ZWICKER, CREDITON.

The rain of this week filled cellars everywhere, flooded fields and caused the river to rise within a foot of the spring freshet. The main sewer drain in town is blocked. Our Trustees will have it opened as soon as possible. The brick and tile yards were obliged to lay off work on Tuesday on account of the clay pits being flooded. Our fishermen are having great sport catching carp on the flats. Some fish weighing over 20 lbs have been caught.

Albert and John Morlock arrived home on Friday with their new Flanders Automobiles. They drove them from Walkerville through all kinds of mud and when they arrived here their machines were a sight to behold.

Friday is Victoria Day. A double-headed Ball game has been scheduled for the day between the Royal Team of London and our Stars. We hope the weather will be favorably enough to allow the games to take place. This will be the first time for our Stars to play ball. We feel satisfied they will give a good account of themselves.

Geo. Holtzman has finished the large brick-kiln shed for Fred Kerr.

Considerable complaint is heard from our people on account of the boys exploding fire-crackers on the street corners. There is not only the danger of frightening horses, but a burning stub of a cracker might set fire to a building. Something should be done to keep order in the town at night especially.

SHIPKA

Mr. Patrick McLaughlin and Miss M. Ann McIsaac, both of London were married in St. Peter's Catherdral, London by Rev. Fr. Aylward on Wednesday, May 8th, After the wedding ceremony the newly married couple took the early train to Centralia, from which place they drove to the home of the bride's brother, Mr. Dugald McIsaac of Shipka, where a sumptuous wedding dinner was provided. Miss Mary McLaughlin, sister of the groom, assisted the bride while Mr. M. Boyle, of London, acted as groomsman. In the evening a large number of friends and neighbors gathered at a reception held at Mr. McIsaac's.

How To Keep Your Hair Free From Dandruff

PARISIAN SAGE
BANISHES DANDRUFF
OR MONEY BACK

PARISIAN SAGE
STOPS FALLING HAIR
OR MONEY BACK

Parisian Sage
MAKES HAIR RADIANT
OR MONEY BACK

A Delightful and Refreshing Hair Dressing

People who desire to preserve the hair can gain some valuable information from the following.

Have your own brush and comb at home and at the hair dressers.

Never use a brush or comb in public places. They are usually covered with dandruff germs.

Wash your hair brush once a week with soap and warm water to which is added a disinfectant.

Shampoo the hair once a week with pure soap and water.

Use PARISIAN SAGE every day, rubbing thoroughly into the scalp.

PARISIAN SAGE is guaranteed by W. S. Cole to destroy dandruff germs and abolish dandruff, or money back.

To stop hair from falling and scalp from itching, or money back.

To put life and beauty into dull faded hair, or money back. Price 50 cents.

Labatt's Lager is the ideal warm weather drink—invigorating, refreshing, satisfying.

Try a glass when you feel fatigued. You will appreciate its beneficial, health-giving properties.

Keep a case of **Labatt's** in your home. It will prove a source of constant satisfaction.

JOHN LABATT, LIMITED
LONDON, CANADA.

CHARMING PRINCE, 11477, 15597, is a pure-bred Clydesdale, with an excellent pedigree and good record as a stock getter. Will stand at his own stable, Farquhar.—W. H. KAY Prop., and Manager.

THOMAS CARLYLE, No. 13,879, 13, 146, is a pure bred imported Clydesdale stallion, a noted son of the noted Thomas, with an excellent pedigree and a fine record as a foal getter. He will stand for mares this season at his own stable, Centralia.—O. H. BASKERVILLE, Prop. and Manager.

LORD OF THE MANOR, No. 23216, is a magnificently bred trotting stallion, and has the strains of the best trotters on both sides. He is a sure foal getter and turns the best of stock. He will stand for mares at his own stable, Thames Road. John Smollett will also be at the barns.—HALLIE BROWN Proprietor and manager.

LORD HOWATSON, No. 11,406, 10, 703, is a pure bred imported stallion, of excellent pedigree and record, being well and favorably known in this district. Monday leaves home, Maguire, to Eli. Bice's, McGillivray for night; Tuesday to Moses Simpson's to Ben Dobbs; Wednesday to J. Millson's, Whalen, to Hugh Carroll's; Thursday to R. Coate's to Garnet Frayne's; Friday to W. J. Stanlake's to H. Oestreicher's; Saturday to Frank Sim's, to home.—T. W. HODGSON, Prop. and Manager.

KING O'GOWRIE, 14207, is a pure-bred imported Clydesdale with a sure record and a fine pedigree. Monday he will leave his own stable, Crediton, and go to Albert King's for noon; to Mount Carmel for night; Tuesday to Khiva, to Silas Brokenshire's; Wednesday to his own stable; Thursday afternoon to Sam Jory's; Friday to Wm. Kernick's, to Paul Coates'; Saturday to Jonas Sims', to his own stable.—ELI KING, Proprietor and Manager.

CLAN MACGREGOR, 5566, 10528, is a pure-bred imported clydesdale, possessed of an excellent pedigree, and well-known in his district as a fine stock horse. Monday leaves home at Clandeboye, to Alex. O'Neil's, McGillivray; to T. Eagen's; Tuesday to J. Morgan's, to D Ashworth's; Wednesday to Elginfield and home. Thursday to ——, to T. Hodgins'; Friday to Hy. McFalls, to W. Johns; Saturday to J. T. Simpson's, to home.—JAS. HANDFORD, A. & W. McWILLIAMS, Prop.; SAM. BASKERVILLE, Manager.

Rowcliffe's and Centralia; Tuesday to Nelson Baker's and Morgan Dickson's; Wednesday to Pat Boyle's and Clandeboye; Thursday to John McLaughlin's and T. Morley's; Friday to Melville Skinner's and home; Saturday to John Allison's and home. George Coward, Proprietor and Manager.

SAINTSBURY

SOCIAL AND CONCERT—Rev. J. E. J. Millyard will give his lime light views and lectures on "Ten Nights in a Barroom" and "The Rose, Shamrock and Thistle," with 200 beautiful views in St. Patrick's school room on Friday evening, May 24th. Tea served from 5 to 8 p.m. Admission 30c. Children 15c.

ZURICH.

Mr. Daniel Oswald has purchased his father's farm, at the Bronson Line, and will likely move there shortly.— Mr. Hy. Bauer has disposed of his dwelling at the North end until recently owned by Mr. Conrad Thiel, to Mr. Wm. H. Bender.—Miss Diana Rickbell of Buffalo is visiting her parents, Mr. and Mrs. J. F. Rickbell.—Mr. and Mrs. Theo. McAdams of the Bronson Line attended the funeral of Mr. McAdam's mother Mrs. James McAdams of London.

Friends of Mrs. John Petty, of the second concession of Hay, will regret to learn of a serious accident that befel her a few days ago. She was in a loft in the barn looking for eggs, and fell through a trap door to the floor below, breaking her leg just below the knee.—Mr. Louis Walper Sr., one of the oldest settlers of this Township, died at the home of his son Louis, on May 12, at the age of about 85 years. He had been feeble for some time, though it was not thought that the end was so near.—Isabella Talbot, a widow of the late Edward Talbot, Stanley, died at the home of her son Henry on May 14th, at the age of 71 years. The deceased met with a slight accident several months ago, and this no doubt was the remote cause of her death.

HENSALL

Though the day was rather unfavorable yet there was a good turnout of members of the Odd Fellow and Rebekah Degree Lodges to the Methodist Church on Sunday morning. Rev. J. E. Millyard preached an appropriate sermon on the fatherhood of God, and consequent brotherhood of man.—Mrs. Fred McDonell is visiting relatives in Detroit.—Garnet Cudmore, who has been relieving agent on the G. T. R. is home on a visit.—Mrs. John Scott and Miss Sinclair sailed from Quebec for the Old Country where they will visit relatives for some time.—On Sunday Mrs. Cudmore had the misfortune to trip and fall down stairs, at her home, breaking some of her ribs, and giving her quite a shock.—On Monday evening D. A. Cantelon and wife bade farewell in Hensall and took train for Toronto. For about sixteen years David has been identified with the business life of our village.—The members of Hensall Rebekah Degree drove to Seaforth on Friday night and instituted a lodge there. About thirty went over and put on the three ceremonies, Initiation, Institution and Installation. The team received high praise for the manner in which they put on the work.—Mr Beattie of near Blake has moved to Hensall and taken up residence in G. D. Arnold's place.—D. Urquhart's residence has been moved back 15 feet, and workmen are putting a cement foundation under it. —Great improvements are being made in the foundry by Mr. Solden, who recently purchased it.—Miss Mabel Cud-Cudmore, nurse, of the Stratford Hospital, is home, taking care of her mother.

KIPPEN—Rev. John Richardson of this place has received a call to Jarvis.

BLANSHARD—Agnes Sweitzer, wife of George Bentley, died in Blanshard on May 9th, aged 60 years. The funeral took place to Kirkton cemetery.

KIPPEN—W. Kilpatrick caught six little foxes last week in a bush near here, and sold them for $4.00 each to a fox-raiser, Mr. John Downham of Strathroy.

STAFFA—The people of this neighborhood were deeply grieved to learn of the death of Miss Rosetta Fell, daughter of Mr. and Mrs. John Fell, of the 8th con. Hibbert, at the early age of sixteen years.

BRUCEFIELD—The Presbytery of Huron met here Tuesday of last week when considerable business of interest to the church was transacted. A special meeting will be held on May 24th in Clinton.

PARKHILL—A quiet wedding took place at the home of the bride's parents, Mr. and Mrs. John Daubs, when their second eldest daughter, Mattie, was united in marriage to Mr. Oliver McCallum, of London. The ceremony was performed by Rev. W. Godwin.

AILSA CRAIG, Last Tuesday morning Cliff, the young son of Mr. Dan McKellar, narrowly escaped a serious injury, when he fell beneath a disc which he was trying to mount while it was in motion. His leg was badly cut and bruised.—The death of Mrs. Mary Bowman took place at her home Thursday after a lingering illness. Deceased who was in her 80th year, is survived by three sons and two daughters, her husband having predeceased her some years

MITCHELL—Michael Meeney, aged 75 was found in a helpless condition near the road near Dublin Sunday, and died in a short time. It is supposed to have been a case of drunk and out all night.

BRINSLEY—A quiet wedding was solemnized at the home of Mr. and Mrs. George Corbett, Brinsley, when their only daughter Mary was united in marriage with Mr. Fletcher Gower Rev. Connor officiating. The bride was becomingly attired in cream and was attended by her cousin Miss Cassie Gilbert Mr. John Corbett brother of the bride supporting the groom. After the ceremony the company all sat down to a tasty repast, after which Mr. and Mrs. Gower left on the evening train for a honeymoon trip to London. The bride received quite a number of useful and pretty gifts

A WINDSOR LADY'S APPEAL

To All Women—I will send free with full instructions, my home treatment which positively cures Leucorrhoea, Ulceration, Displacements, Falling of the womb, Painfull or Irregular Periods, Uterine and Ovarian Tumors or growths also Hot Flushes, Nervousness, Melancholy, Pains in the Head, Back or Bowels, and Bladder troubles, where caused by weakness peculiar to our sex. You can continue treatment at home at a cost of only about 12 cents a week. My book, "Woman's Own Medical Adviser," also sent free on request. Write to-day. Address, Mrs. M. Summers Box. H. 940 Windsor, Ont.

Why Have "Nerves?"

This is the reason why women have "nerves." When thoughts begin to grow cloudy and uncertain, impulses leg and the warnings of pain and distress are sent like flying messages throughout limbs and frame, straightway, nine times in ten, a woman will lay the cause of the trouble to some defect at the point where she first felt it. Is it a headache, a backache, a sensation of irritability or twitching and uncontrollable nervousness, something must be wrong with the head or back, a woman naturally says, but all the time the real trouble very often centers in the womanly organs. In nine cases out of ten the seat of the difficulty is here, and a woman should take rational treatment for its cure. The local disorder and inflammation of the delicate special organs of the sex should be treated steadily and systematically.

Dr. Pierce, during a long period of practice, found that a prescription made from medicinal extracts of native roots, without the use of alcohol, relieved over 90 per cent. of such cases. After using this remedy for many years in his private practice he put it up in form of Dr. Pierce's Favorite Prescription, that would make it easily procurable, and it can be had at any store where medicines are handled.

Mrs. Lela B. Hawkins, of Zona, Va., writes: "I had been failing in health for two years—most of the time was not able to attend to my household duties. Female weakness was my trouble and I was getting very bad but, thanks to Doctor Pierce's medicines, I am well and strong again. I took only three bottles of 'Favorite Prescription,' and used the 'Lotion Tablets.' I have nothing but praise for Doctor Pierce's wonderful medicines."

NO NAMES OR PHOTOS USED WITHOUT WRITTEN CONSENT

NERVOUS DEBILITY

Thousands of young and middle-aged men are annually swept to a premature grave through Early Indiscretions, Excesses and Blood Diseases. If you have any of the following symptoms consult us before it is too late. Are you nervous and weak, despondent and gloomy, specks before the eyes, with dark circles under them, weak back, kidneys irritable, palpitation of the heart, bashful, dreams and losses, sediment in urine, pimples on the face, eyes sunken, hollow cheeks, careworn expression, poor memory, lifeless, distrustful, lack energy and strength, tired mornings, restless nights, changeable moods, weak manhood, premature decay, bone pains, hair loose, sore throat, etc.

YOU WILL BE A WRECK

Our New Method Treatment can cure you and make a man of you. Under its influence the brain becomes active, the blood purified, so that all pimples, blotches and ulcers disappear, the nerves become strong as steel, so that nervousness, bashfulness and despondency vanish, the eye becomes bright, the face full and clear, energy returns to the body and the moral, physical and sexual systems are invigorated; all drains cease—no more vital waste from the system. Don't let quacks and fakirs rob you of your hard earned dollars. We will cure you or no pay.

PROVINCIAL POLICE REPORT

During Half Year 70 Per Cent. of the Cases Were Convicted

A despatch from Toronto says: In the half-yearly report of Superintendent of Provincial Police for the period from November 1 to April 30, some 820 cases were handled, which is a decrease of twenty-nine over the corresponding period of a year ago. Of these practically seventy per cent., or 587, were convicted, 107 persons were discharged, in the case of ten the charges were withdrawn, and ninety-six stood awaiting trial. Of this latter number most of the cases have since been disposed of by Judges on circuit. There were 220 persons prosecuted under the liquor license act, which is an increase of fifty-nine; 186 convictions were secured, an increase of forty-five; seventeen charges were dismissed and three withdrawn. The seizures show an interesting collection, viz., 5,334 bottles of whiskey, 111½ gallons of whiskey in various receptacles, 14,280 bottles of beer, 172 barrels and cases of beer, forty-eight bottles of wine, thirty-eight bottles of brandy, sixty-eight bottles of gin, and forty-two gallons of wines in different receptacles. Under the offensive weapons act, the sale of 514 revolvers and pistols has been registered with the department. Under the game and fisheries act there were seventy prosecutions, forty-seven convictions and thirteen cases discharged. Only ten remain to be dealt with at the present time. During the half year officers stationed at frontier points have handed over 346 persons to the Immigration Department for deportation, or 183 more than in the corresponding period last year. Mr. Rogers emphasizes the fact that this is an important branch of the police work, and points out that the charges of vagrancy have been reduced nearly fifty per cent.

As a result of the prosecutions instituted some $14,000 has been collected in fines.

CHILD DIES FROM RAT BITES.

Mysterious Case of a Little Girl at London.

A despatch from London, Ont., says: The Miller baby which was bitten by rats at the home of Mrs. George Haslett, York Street, where it was being boarded by its mother, who is now in Berlin, died as a result of its injuries at Victoria Hospital on Thursday morning. The child was left in its cot in the dining-room on the night of April 25, when thirteen days old, and when discovered by Mrs. Haslett in the morning was in a very serious condition. The bedclothing was saturated with blood, and one of the infant's nostrils, portions of its ears and left check had been bitten by rodents.

TORNADO RAZES VILLAGE.

Hundreds Killed by a 15-Minute Cyclone in Hungary.

A despatch from Vienna says: In the district of Szolnock, Central Hungary, a tornado wiped out four market towns within fifteen minutes, on Thursday. In Balvanyos Varalja 340 houses were swept away, leaving hundreds destitute and burying dead and dying in the ruins. In the Village of Szasmate 150 houses were blown away. Of the Town of Kaba Ujfalu, with hundreds of houses, nothing remains. In one place 170 houses form a great heap of debris. Military detachments have been sent to help the destitute population. It is impossible to estimate the loss of life, but it is feared it must reach several hundred.

PRINCE OF WALES' PLANS.

Going to England for Birthday, and Then Returns to Paris.

A despatch from Paris says: The Prince of Wales, after the manoeuvers of the French fleet in the Mediterranean in June, which he will witness from the battleship Danton, will go to England for his birthday, June 23. He will return to Paris immediately after and will continue his studies until the Cowes regatta, the first week in August. The Prince goes then to Scotland and will remain there until October, when he will enter Oxford.

TITANIC FUND IS TOO BIG.

Lord Mayor Does Not Know What to Do With Surplus.

A despatch from London says: The Lord Mayor foresees considerable trouble as to what he is to do with the subscriptions to the funds for the Titanic sufferers. He says quite enough money has already been subscribed to relieve all distress, but the donations are still coming in. There will be a surplus of a considerable amount, to which consideration must now be given.

SCHEME OF REFORESTATION.

More Tree-Planting Will Be Done at Guelph.

A despatch from Guelph says: Commissioner Ryan, accompanied by Manager Foster of the Waterworks Department and Prof. Zavitz of the O. A. College, paid a trip of inspection to the park at the source of Guelph's water supply near Arkell, on Thursday. It was decided that more reforesting should be done this fall. Already ten thousand trees have been planted to insure a steady water supply, and in the future to be a valuable asset to Guelph.

AUSTRIAN PREMIER BLIND.

Sudden Malady Likely to Precipitate Crisis in the Cabinet.

A despatch from Vienna says: The Austrian Premier, Count Stuergh, was suddenly stricken with blindness on Wednesday, and the attending physicians fear he may not recover his sight. The Emperor has asked the Minister of the Interior, Dr. K. Heinold D'Udynski, to act in the interim. The Premier's retirement probably will involve a Cabinet crisis.

BANDITS HOLD UP TRAIN.

Southern Express Co. Decline Information as to Losses.

A despatch from New Orleans says: Southern Express Company officials here declined to vouchsafe any information as to the amount of money secured by robbers, who early on Wednesday held up a Queen & Crescent flyer south of Hattiesburg and dynamited the express car. It is denied, however, that the robbers obtained a sum approximately $140,000, the losses reported.

RAILWAY TROUBLE SETTLED.

Sir William Mackenzie Made Terms With Trainmen.

A despatch from Winnipeg says: It is announced that Sir Wm. Mackenzie has arranged an amicable settlement with the Canadian Northern Railway trainmen, and that the American crews which have been running Northern Pacific and Great Northern trains from the boundary will in future not operate the trains in Canada.

WORK STARTED ON TUNNEL.

C.N.R. Expect to Have 500 Men at Work at Montreal.

A despatch from Montreal says: Work on the big C.N.R. tunnel under the Mountain has started, and in a day or two the company expect to have 500 men at work. Mackenzie & Mann state that trains will be running through the tunnel in two years.

ROYALTY WATCH CAVALRY

King and Queen's Interest in the Manoeuvres at Aldershot

A despatch from London says: King George watched the cavalry manoeuvres at Aldershot from horseback on the hilltop, whither the Queen had gone in an automobile to join him, on Thursday. The Queen came out of the automobile, but was hardly able to stand the boisterous gale. She was obliged to grab her hat to hold it from the wind and the dust of the galloping horses, which together raised smothering dust clouds which often hid the soldiers. Afterwards there was an arduous mimic artillery battle. The airmen tried to co-operate in the manoeuvres, but were prevented by the terrible gale. King George purposes spending four or five days in the field with the troops manoeuvring at Aldershot about the last week of this month. Except that he will lodge at the palatial Royal pavilion, the visit will be informal. The King will spend the days in the saddle like an ordinary trooper. He will also thoroughly inspect the army aviation school and factory.

ROYAL PALACE OF DENMARK, THE LATE KING AND HIS QUEEN.

The large building in this picture represents the Danish royal palace. The figure inset above is that of the late King Frederick; that below is that of Queen Alexandrine, who now becomes the Queen Dowager.

PUNISHED FOR INTIMIDATION

Three Months for Seven Industrial Workers of the World.

A despatch from Kamloops, B.C., says: Seven Industrial Workmen of the World, found guilty of intimidation in connection with the strike on the Canadian Northern, were sentenced at the Assizes here on Thursday to three months in prison. Four of the men—Quirk, Miscinen, Olson and Schoulder—were found guilty of assault and for this received an additional six months each. In passing sentence Chief Justice Hunter said: "You are free to join any organization you wish, but when you act as you did in this case, you may get into the grip of the law. The people of this Province are law-abiding and an infringement of the law will not be tolerated."

The Saskatchewan Department of Agriculture reports that seeding compares well with other years.

MURDERED IN HAMILTON.

Frank Truckle Shoots His Wife in a Jealous Fit.

A despatch from Hamilton says: A shocking crime was committed in the heart of the city on Saturday morning about 11 o'clock, when Frank Truckle shot and almost instantly killed his wife at the corner of Park and Market streets. The shooting was witnessed by a number of persons, who chased the murderer. After pursuing him for about a mile he was surrounded at the corner of Park and Duke streets, and, seeing that escape was impossible, turned the revolver that caused his wife's death on himself, and inflicted a wound from which he died on Sunday morning. He was hurried to the City Hospital in an unconscious state, but recovered consciousness during the afternoon. Jealousy is the cause of the tragedy.

STEAMER BURNED.

Iona Sinks Fifteen Miles Out on Lake Ontario.

A despatch from Kingston says: The Montreal-owned steamer Iona, coal laden, took fire shortly before midnight in Lake Ontario on Saturday and was burned to the water's edge, subsequently sinking. The captain and crew of twelve men took to a lifeboat and were driven before a violent gale, finally landing on Sunday morning at Henderson Harbor, N. Y. The vessel was fifteen miles north of Oswego when fire was discovered near the boiler-room, and, after ineffectual attempts to subdue it, the men left the vessel. They were thoroughly exhausted on reaching land.

REPLY TO GERMANY.

Supplementary Estimates to be Presented by the Admiralty.

A despatch from London says: Mr. Winston Churchill, First Lord of the Admiralty, announced in the House of Commons on Wednesday that in view of the additional sums to be expended by Germany on naval construction under the new German naval bill, which passed its second reading in the Reichstag on Tuesday, he would certainly have to present supplementary naval estimates this year, as he had intimated in his speech when introducing the naval budget.

A Chinese leper at Montreal is to be deported. He must be quarantined the whole journey home.

THE NEWS IN A PARAGRAPH

HAPPENINGS FROM ALL OVER THE GLOBE IN A NUTSHELL.

Canada, the Empire and the World in General Before Your Eyes.

CANADA.

Harold Legg was drowned while canoeing at London, Ont.

New Brunswick elections will be held about June 13th.

E. T. Mott is the new president of Winnipeg Board of Trade.

Five stowaways were found on the steamer Montcalm at Quebec.

Stratford's tax rate will be 26½ mills, an increase of one-half mill.

Guelph radial railway employes will get 1½ cents an hour increase.

Tag day in Berlin and Waterloo realized $2,400 for hospital purposes.

One thousand men from northern Ontario will make an excursion to Toronto on June 21.

Two hundred thousand tons of ice have been stored for use in Toronto this summer.

Over 12,000,000 acres has been seeded to wheat in the three western Provinces.

Fire did $100,000 damage to the Royal City Mill at New Westminster.

Farmers in the Temiskaming district are going in for potato culture.

The bodies of three Titanic victims in a boat were picked up by the Oceanic and buried at sea.

Contracts have been let for the C.P.R.'s million-dollar irrigation work in Alberta.

A company is negotiating with the Montreal City Council with the object of providing an autobus service.

Mrs. Julia Buchanan of Pembroke has been acquitted of the charge of attempting to poison David Mordy.

It is reported at Ottawa that Hon. W. J. Hanna has been offered the Chairmanship of the Railway Commission.

The steamer Ames ran into the swing bridge at Hamilton on Friday, damaging the structure and effectively blocking the harbor.

The Canadian Car & Foundry Company is to establish new shops at Fort William with a capacity of seven thousand wood and steel cars yearly.

The Carney Lumber Company's mill at Owen Sound was burned on Saturday, entailing a loss of $150,000. The main building of the Hamilton Glass Works was also destroyed.

A work train with twenty workmen dropped through a bridge at Bassano, B.C., a distance of 40 feet. Harry Smith was killed and J. R. Constantine and M. F. Ogden fatally injured.

GREAT BRITAIN.

The second reading of the Welsh dis-establishment bill was passed by a majority of 87 votes.

The people of St. Kilda, Scotland, are threatened with starvation. A warship has been sent to the rescue.

UNITED STATES.

Counsel for the United States Steel Corporation have refused to produce certain papers demanded in the government suit to dissolve the trust.

GENERAL.

Rome restaurants must not serve bread and rolls not wrapped in paper.

Thirteen were killed and forty-five injured in a railway collision in Paris.

A Munich "loan shark" who charged 350 per cent. interest, has been given five years in prison.

The negotiations regarding terms in connection with the proposed loan to China were suspended owing to Russian objections.

The Italian naval and military authorities succeeded in reproducing the human voice in a message by wireless telephony at a distance of 160 miles.

Women in Berlin refused to attend theatres, where, by order of the police, they had to remove their hats. So theatre managers have secured a court order allowing the hats to be worn.

Two French aviators, Capt. Rehemer and M. L. Beauvais, were killed and another one, M. L'Houmeau, badly injured in two accidents. Nine French airmen have been killed in two weeks.

MINERS TO RESUME WORK.

Ratify Agreement Entered Into by the Officers.

A despatch from Wilkesbarre, Pa., says: By a vote of 323 to 64 the anthracite mine workers in convention on Saturday ratified the agreement entered into by their sub-committee with the coal operators, and ordered the 170,000 men and boys employed in and about the mines to return to work on Wednesday. The suspension, which is thus ended, began March 31, or seven weeks ago, when the agreement entered into in 1909 expired.

"ALEXANDRA DAY" IN JUNE

Novel Idea Has Been Put Into Effect By Society Ladies in London

A despatch from London says: A number of well-known society ladies have hit upon a very bright and novel idea in which to honor Queen Alexandra, and at the same time benefit the many hospitals, homes and charities in which her Majesty is interested. On a certain day at the end of June—to be called "Alexandra Day"—a band of society leaders, with many willing helpers, will sell in the streets of London flowers of all sorts, and the money so collected will be handed to Queen Alexandra for distribution among her pet charities. Some of the flowers will be artificial, made by those clever little cripple children in whose work Queen Alexandra has always taken the greatest personal interest, while, of course, others will be natural blooms, mostly from the sellers' own hot-houses. Roses will predominate, and next to the rose will come Queen Alexandra's favorite flower, the "Alexandra" carnation. Already a committee has been formed to arrange matters, the Countess of Wilton being the president, while among the members, who are all working hard enrolling helpers and arranging the hundred and one details, are the Duchess of Marlborough, the Marchioness of Dufferin and Ava, the Marchioness of Crewe, and many others. Needless to add, Queen Alexandra herself is taking a keen interest in the arrangements.

FIGURES IN THE BRITISH INQUIRY INTO THE TITANIC DISASTER.

SIR RUFUS ISAACS HAMAR GREENWOOD M.P. SIR JOHN C. BINGHAM

THE ACUTE PAIN FROM NEURALGIA

Permanently Cured Through the Use of Dr. Williams' Pink Pills.

Neuralgia is not a disease—it is only a symptom, but a very painful one. It is the surest sign that your blood is weak, watery and impure, and that your nerves are literally starving. Bad blood is the one cause—good, rich, red blood the only cure. There you have the real reason why Dr. Williams' Pink Pills cure neuralgia. They are the only medicine that contains in correct proportions the elements needed to make rich, red blood. This new blood reaches the root of the trouble, soothes the jangled nerves, drives away the nagging, stabbing pain and braces up your health in other ways. Among the sufferers from neuralgia, cured by Dr. Williams' Pink Pills, is Mrs. Chas. Brown, Durham, Ont., who says: "For months I suffered intensely from neuralgia. The pain in my head and face at times was so great as to be almost unbearable. I tried two doctors, and many remedies, without finding a cure, as there seemed to be no let-up to the plan. Finally I was advised to try Dr. Williams' Pink Pills, and I began their use. Soon I found the pains becoming less and after taking the pills for some weeks the trouble entirely disappeared and has not since bothered me."

If you are suffering from any blood or nerve trouble begin to cure yourself to-day with Dr. Williams' Pink Pills. You can get these pills from any medicine dealer or by mail at 50 cents a box or six boxes for $2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

ORIENT IN LONDON.

Queer Visitors and Queer Contrasts at Westminster Docks.

There were strange contrasts of West and East down at the Strangers' Home for Asiatics in the West India Dock, London, England, one day recently.

On the steps of the building, than which there is none in London less Oriental, half a score Lascars in fez and blue overalls above the dirty gayety of their cottons were basking in the sun, while in their usual lounging room Sir Walter Laurence, Lord Ampthill and other friends of East Indians were addressing a very prim Western meeting.

It was the annual meeting of the home, the only large official home for Asiatics in England. It is placed in the midst of the wild, floating population of Eastern people who spend half their vagrant lives round the docks. Opposite the home there is a twisty street full of Chinese.

While the speaking was going on a crew of Lascars waiting for a ship was happy out in the garden playing cards. Apart from the Lascars were a few Sikhs and a Ceylonese.

All sorts of destitute Orientals have found their way to this haven—the simple countryman who came over to see the King and tell him about the piece of land he and his fellow villagers wanted to buy; a prophet who believed himself to have drawn water from all the wells of truth and was anxious to give forth the same to all who would listen. They go back to their own people and tell gratefully of the great dark bungalow in the West India Road, where a man may eat and sleep and be safe from the ways of evil men.

'MARVELOUS' CURES OF SKIN ERUPTION

Four Children Constantly Scratching. Nearly Tore Limbs Off. Cured in a Month by Cuticura Soap and Ointment

"Two of my daughters and two of my sons were suffering from very bad heads, the doctor ordering my daughters to have all their hair cut off so as to prevent it from spreading all over their heads, and to get to the seat of the trouble in order to be able to rub some ointment, which he gave them, well into the sores. These sores started in small blotches which got larger and larger and then burst and spread all over their heads, and in some cases down their backs and bodies. The doctor said it was eczema, but they seemed to be daily getting worse. The sores formed like little boils, then filled with matter, and looked like abscesses. They became all inflamed and irritated, causing them to be constantly scratching themselves. This made the sores burst, and the matter flowed all over their heads. We had to cut their finger nails and at times to put gloves on their hands, the irritation was so bad, to keep them from digging into the flesh, and at night they would nearly tear their limbs off. The bolsters would be literally covered with blood.

"The teachers would not let them attend school for fear of infection spreading among the other children, so I resolved to try the Cuticura Remedies, which I found to benefit my children greatly. I continued with the Cuticura Soap and Cuticura Ointment for one month, and the result is a marvelous cure." (Signed) George Arthur Robinson, 27, Fitzwilliam St., Hoyland Common, nr. Barnsley, Yorks., Eng., Jan. 3, 1911.

Although Cuticura Soap and Ointment are sold throughout the world, a liberal sample of each, with 32-p. book on the skin will be sent free, on application to Potter D. & C. Corp., 46 Columbus Ave., Boston, U. S. A.

SIR WM. WHYTE.

Sir W. Whyte, who is a genial man with a keen sense of humor, tells these two stories of himself. A young reporter who had just come to Winnipeg was sent to the C. P. R. offices for news. He was energetic and enterprising and managed to make his way up to Sir William's office, his secretary being out of the ante-room at the time. "Anything fresh this morning?" said he briskly to the grey-haired official. "Nothing that I can see except you," replied the vice-president with a smile.

On another occasion while Sir William was making a tour of inspection he stopped at a little station, and going into the room of the operator, who was a new employe, enquired, "Are there telegrams for me?" The young man glanced up, not knowing to whom he was speaking, and said in a sarcastic tone: "Did you think your picture would be on them?" "My name is William Whyte," replied the big man quietly. The operator fell over himself.

Sir William Whyte.

GOOD AS A DOCTOR IN THE HOUSE.

Baby's Own Tablets are as good as a doctor in the house. They never fail to relieve the little one from stomach and bowel troubles, to expel worms, make teething easy and promote healthful sleep. Concerning them Mrs. J. H. Turner, Glenora, Ont., says: "I always recommend Baby's Own Tablets to my friends. I have used them for a long time and find them without an equal. They relieved baby of the feverishness and restlessness while cutting teeth and have made her one of the most healthy babies there is. I always keep them in the house and consider them as good as a doctor." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

HAD NOT.

Blobbs—"I don't believe you have any music in your soul."

Slobbs—"I don't think I have; every time I attend the opera my foot goes to sleep."

CURE FOR CONSUMPTION.

Such is the recuperative power contained in Copeland's Cure for Consumption that even the most advanced cases have been cured by its beneficial action. It can be taken by the weakest patient, to whom it gives a fighting strength as nothing else will. The appetite comes back. That weakening perspiration is stopped. The lungs and respiratory organs are healed at the same time. Its efficacy to fight consumption, weak or bleeding lungs, lingering coughs and bronchitis is proven beyond doubt not by what I state, but by what is stated by those who have taken it for those ailments and have been cured. Copies of testimonials of those who, after being given up by doctors and specialists, as only having a few days to live, and are alive and well to-day, are sent on request. Price $1 per bottle at your druggist, or direct from Wm. Copeland, 511 Pape Ave., Toronto, Canada.

CHURCH-GOING IN COMFORT.

Sunday morning in Holland is strangely different from the same occasion in this country. In the first place, a great many of the church-goers travel to the place of worship in their boats, and the canals are often packed with people in their full Sabbath attire. The Dutchman is a very devout church-goer, but he takes his religious service with considerable comfort. In the first place, except when devotions are actually in progress, he smokes his pipe or cigar within the sacred building. Whilst waiting for the service to begin the congregation talks in ordinary tones, discussing matters of interest, and new-comers are shown to their pews by a neatly-attired servant-girl, who takes the place of our sexton. Then again, the Dutchman does not remove his hat whilst in church, and so saves himself many a cold in the head.

WHY IT FAILED.

"I used to think I would know just how to manage my wife when I got her."

"Has your system proved to be a failure?"

"No; the system may be all right, as far as I know. She has never let me try it."

It's easy for a girl to believe a man is a hero because he isn't.

COMES FROM NOVA SCOTIA THIS TIME

ANOTHER SPLENDID CURE BY DODD'S KIDNEY PILLS.

R. Moulaison, whom two doctors treated, finds relief and permanent cure in Dodd's Kidney Pills.

Surette Island, Yarmouth Co., N.S., May 20 Special)—Mr. Renie Moulaison, a well known resident here, is telling his neighbors of his cure from a severe attack of Kidney Disease which kept him in a state of pain and suspence for two months and defied the efforts of two doctors who were treating him.

"My trouble started with a cold," Mr. Moulaison says. "My muscles would cramp and I had backache and dizzy spells. My head ached, and I had a tired, nervous feeling while specks of light flashed in front of my eyes.

"I suffered in this way for over two months and was treated by two doctors, but they didn't seem to be able to do much for me. Then I started to take Dodd's Kidney Pills and they helped me almost at once. Six boxes cured me."

Dodd's Kidney Pills always cure the Kidneys. Cured Kidneys strain all the impurities out of the blood. That makes pure blood and good health.

ANCIENT SURGICAL FORMS.

Hippocrates Wrote Treatises on Fractures and Wounds.

There is no doubt that some rough form of surgery must have existed from very ancient times, but it is strange to find that so complex and delicate an operation as trepanning is one of the oldest. So far as actual records go, Hippocrates gives us the earliest account. He wrote treatises on fractures, dislocations, and wounds of the head, in which he described the method of procedure to be followed in the case of a fractured skull. His direction was to cut away a piece of bone so that the pressure on the brain might be removed. There are also records about this time and later of a file being used for this purpose, which at a time when anaesthetics were undreamed of must have been, to say the least, painful.

According to Dr. T. Rice Holmes, the operation of removing pieces of bone was performed long before historic times. The effects on the skull are easily seen after death, and are visible as long as the bones are preserved. From inspection of certain skulls of the later Stone Age in Ancient Britain Dr. Holmes has come to the conclusion, as he announced in a lecture at the Royal Institute, that some of these had undergone the operation, which must have been performed with a stone implement.

Very many persons die annually from cholera and kindred summer complaints, who might have been saved if proper remedies had been used. If attacked do not delay in getting a bottle of Dr. J. D. Kellogg's Dysentery Cordial, the medicine that never fails to effect a cure. Those who have used it say it acts promptly, and thoroughly subdues the pain and disease.

IN COMMON TROUBLE.

"I always make it a practice to let to-morrow take care of itself."

"That's easy enough, but it's forgetting yesterday that causes trouble for so many of us."

The Oil for the Athlete.—In rubbing down, the athlete can find nothing finer than Dr. Thomas' Eclectric Oil. It renders the muscles and sinews pliable, takes the soreness out of them and strengthens them for strains that may be put upon them. It stands pre-eminent for this purpose, and athletes who for years have been using it can testify to its value as a lubricant.

WHAT!

"Begin every day well," said the philosopher.

"Sure!" said the grouch. "But what are you going to do if you've got chronic indigestion?"

CURED BY GIN PILLS.

Bridgeville, N. S.

"For twenty years I have been troubled with Kidney and Bladder Trouble, and have been treated by many doctors, but found little relief. I had given up all hope of getting cured when I tried Gin Pills. Now, I can say with a happy heart that I was cured.

"DANIEL F. FRASER."

Write us for free sample of Gin Pills to try. Then get the regular size boxes at your dealers, or direct from us—50c. a box, 6 for $2.50. Money refunded if Gin Pills fail to cure. National Drug & Chemical Co. of Canada, Limited, Dept. W.L., Toronto.

The average weekly wages of all workpeople engaged in iron and steel manufacture in the United Kingdom is $9.

Minard's Liniment used by Physicians.

OUR MATHEMATICAL SIGNS.

Plus, Minus, and Other Characters Result of Evolution.

Did you ever try to figure out why a short horizontal line should signify subtraction or minus, a plus addition and so on? The sign of addition is derived from the initial letter of the word "plus.' In making the capital letter it was made more and more carelessly until the top part of the "p" was placed near the centre; hence the plus sign was finally reached.

The sign of subtraction was derived from the word "minus." The word was first contracted into mus, with a horizontal line above to indicate the contraction, which was a printer's freak that may be found in any book bearing a date earlier than the beginning of the eighteenth century. After the lapse of a long period of time the letters were omitted altogether, leaving only the short line so well known to all.

The multiplication sign was obtained by changing the plus sign into a character resembling the letter "x." This was done simply because multiplication is but a shorter form of addition.

Division was formerly indicated by placing the dividend above a horizontal line and the divisor below. In order to save space in printing the dividend was placed to the left and the divisor to the right, with a simple dot in place of each.

The sign of equality is said to have first been used in the year 1557 by a sharp mathematician, who adopted it as a substitute for the words "equal to."

HAVE YOU A SKIN RASH?

Zam-Buk Will End It.

For skin rashes, eruptions, eczema, etc., either in adults or children, there is nothing known to science which equals Zam-Buk in the quickness and certainty of its curative power. Mr. Raymond Webber, of Allanburg, Ont., writes: "I have tried Zam-Buk for many ailments, and every time have found it successful. Some time ago I had a bad rash all over my body. I tried home-made salves, herb salves, and various home-made preparations, and these proved of no use, but when I tried Zam-Buk I was cured in a quarter of the time that I had been experimenting in vain with other preparations.

"My boy had boils, and once again Zam-Buk brought about a complete cure. We have also used it as a household balm and it always gives us full satisfaction."

Zam-Buk owes its unique healing power to certain herbal extracts it contains. Unlike most ointments it contains no poisonous coloring matter, no animal fat, but is purely herbal. For eczema, piles, blood poison, abscesses, ulcers, cuts, burns, and all skin injuries and diseases it is without equal. 50c. box all druggists and stores. Use also Zam-Buk Soap, 25c. tablet.

NOT AVAILABLE.

Maud—"Well, dear, have you found your ideal man, yet?"

Kitty—"Yes, but he's in a book."

They Soothe Excited Nerves.—Nervous affections are usually attributable to defective digestion, as the stomach dominates the nerve centres. A course of Parmelee's Vegetable Pills will still all disturbances of this character, and by restoring the stomach to normal action relieve the nerves from irritation. There is no sedative like them and in the correction of irregularities of the digestive processes, no preparation has done so effective work, as can be testified to by thousands.

You can afford to take chances only when you have nothing to lose.

Keep Minard's Liniment in the house.

NO ALTERNATIVE.

Manager to applying office boy—Why did you leave your last place?

Boy—Well, I couldn't git along wid de boss, an' he wouldn't git out.

Warts are unsightly blemishes, and corns are painful growths. Holloway's Corn Cure will remove them.

OUT OF PROPORTION.

"I'm a self-made man," said the proud individual.

"Well, you are all right, except as to your head," commented the other part of the conversation.

"How's that?"

"The part you talk with is out of proportion to the part you think with."

Bad Blood

is the direct and inevitable result of irregular or constipated bowels and clogged-up kidneys and skin. The undigested food and other waste matter which is allowed to accumulate poisons the blood and the whole system. Dr. Morse's Indian Root Pills act directly on the bowels, regulating them—on the kidneys, giving them ease and strength to properly filter the blood—and on the skin, opening up the pores. For pure blood and good health take

TRUTHFUL CHILD.

Papa—"Come here, little sweetheart, and tell me whom papa loves better than any one else in the world?"

Little Lola—"Papa."

A Pill for All Seasons.—Winter and summer, in any latitude, whether in torrid zone or Arctic temperature, Parmelee's Vegetable Pills can be depended upon to do their work. The dyspeptic will find them a friend always and should carry them with him everywhere. They are made to withstand any climate and are warranted to keep their freshness and strength. They do not grow stale, a quality not possessed by many pills now on the market.

PARADOXICAL POLITICS.

"There is one odd thing about the English candidates for parliament."

"What is that?"

"They stand for a seat."

Minard's Liniment Co., Limited,
Yarmouth, N. S.

Gentlemen,—In January last, Francis Leclare one of the men employed by me, working in the lumber woods, had a tree fall on him, crushing him fearfully. He was, when found, placed on a sled and taken home, where grave fears were entertained for his recovery, his hips being badly bruised and his body turned black from his ribs to his feet. We used MINARD'S LINIMENT on him freely to deaden the pain and with the use of three bottles he was completely cured and able to return to his work.

A liberal-minded man is one who thinks the way you do.

Ask for Minard's and take no other.

THE EXCEPTION.

"In one respect a man is unlike a conflagration."

"What is that?"

"When they put him out, he is full of fire."

Mother Graves' Worm Exterminator will drive worms from the system without injury to the child, because its action, while fully effective, is mild.

Uneasy lies the head that sports a home-made hair cut.

Minard's Liniment Lumberman's Friend.

TAKE IT IN BITS.

"No one has any more right to go through life unhappy than he has to go through it ill-bred," says Stevenson. When we remember what the writer's own life was, and what a brave battle he made against pain and discouragement, practising his own doctrines of good cheer to the last, it adds force to his words. He learned to find pleasure in the out-of-way places and to take it in bits as it came to him. The trouble with most of us is that we want our happiness in large quantities all at once, and we trample upon the little flowers of sweetness that spring all along the way.

In trying to carve his fortune many a man uses poor tools.

HOUSE FOR SALE
On William Street, Exeter.

Any person desiring a new cream separator will do well to call at the Exeter Bargain Store and see the Premier. This is one of the best and easiest running separators on the market. Come in and let us talk it over with you.

W. M. BLATCHFORD, Exeter.

Don't buy until you see our stock of up-to-date clothes for men and boys.—Stewart's.

GOOD HORSE RETURNED.—Mr. W. Tapp has purchased that fine imported horse "Storm King", lately owned by Messrs. Bawden & McDonell, and sold some three years ago to a gentleman in Owen Sound. He is such a good breeding horse that farmers wished him back again, and consequently Mr. Tapp has purchased him and he will arrive this week. Storm King has a fine pedigree and has a most excellent record. Many of the highest priced horses sold around here this winter were sired by "Storm King". He will stand for the season at the McDonell Barns, John-st. Parties needing the use of a good horse will do well to see Mr. Tapp at the Central Hotel.

Big range of House Dresses in Prints, Ginghams and Chambrays sizes 32 to 44. Prices $1.50 to $2.50.—Stewart's.

SALT WELL ANNUAL MEETING.—Notice is hereby given that the Annual Meeting of the Exeter Salt Well Co. will be held in the Town Hall, Exeter, on Monday June 10th, at 2 o'clock p. m., for the transaction of general business. T. B. Carling, Secretary.

Rugs, Linoleums and Carpets. There is no difficulty in selling the new patterns. The prices you will find are right.—Stewart's.

EYE SIGHT SPECIALIST.—Miss J. J. Allen, Eye Sight Specialist, will be at The CENTRAL HOTEL on SATURDAY JUNE 1st—one day.

3 yds x 3 yds Japanese Matting Rugs. The very thing for bedrooms. Ask to see them—Stewart's.

PROPERTY FOR SALE

The undersigned is offering for sale part of Lot 13, Con. 1, Usborne, situated half mile south of Exeter, containing seven and one fifth acres. There is on the premises a good frame house and barn, good well of water, about 30 apple trees and a quantity of small fruits. This is a splendid property, well situated and will be sold reasonable and on easy terms. If not sold privately on or before May 20, 1912, it will be offered by public auction with the household effects on June 1, 1912. For further particulars apply to Thos. Cameron, auctioneer, Farquhar, or on the premises to Mr. John Salter, Exeter

HICKS' FORECASTS FOR MAY.—All gathering storms should be watched at this time, as violent storms are probable. A Reactionary Storm period is on the 29th, 30th and 31st. A seismic period is central on the 30th—from 27th to June 4th.

LOAD OF CALVES.—I will have a load of Calves at the Central Hotel, **Exeter, at 12 o'clock, on Tuesday May 28th for sale.—Geo. Chapman.**

LOST—A pearl brooch, on Sunday, May 19th, between the Power House and James Street church. Reward to finder who will confer a favor by returning same to Dr. Roulston.

HOMESEEKERS' AND SETTLERS' SPECIAL TRAINS TO WESTERN CANADA.

Via Chicago and St. Paul, April 16th, 23rd and 30th, and every second Tuesday thereafter until Sept. 17th, inclusive. Tickets will also be on sale on certain dates via Sarnia and Northern Navigation Company. Special Train will leave Toronto 10.30 p.m. on above dates for Edmonton and points in Manitoba and Saskatchewan, stopping at all points on Grand Trunk Pacific Railway, west of Winnipeg. Through coaches and Pullman Tourist Sleepers will be carried fully equipped with bedding and porter in charge. Berths may be secured in sleepers at low rate.

This is an exceptional opportunity for those wishing to take advantage of the remarkably low one way settlers rates or round trip Homeseekers excursions, through the American cities No change of cars.

Secure tickets, berth reservations etc. from any Grand Trunk Agent, or write A. E. Duff, District Passenger Agent, Toronto Ont.

LOCAL DOINGS.

Thoughts of home aren't always sentimental.

Friday is May 24th, and a public holiday.

We have had plenty of wet weather of late.

Rev. Yelland occupied the James street pulpit Sunday.

Some people who can't think, think they are smart.

The sewerage by-law is to be voted on next Monday.

Mrs. O'Brien of Hay is very ill and not expected to recover.

It is hard to play even with a man who always gets back at you.

The bowlers expect to play their first games on the green on May 24th.

What does a man do for a manicure set when he loses his pocket knife?

When truth is not to be spoken use the typewriter instead of the telephone.

"Back to the Land", and "Stay on the Land" seem to be the favorite slogans.

Not knowing where to begin is about as exasperating as not knowing when to quit.

When a speaker says he is about to open a new line of thought it is the cue to duck.

A meeting of the Isaak Walton Fishing Club is called for Thursday evening at Capt. Hurdon's residence.

If we had what we want we should probably be round looking for some one to help dispossess us of it.

Rev. Powell preached anniversary services at Woodham on Sunday. Rev. Vance occupied Mr. Powell's pulpit.

Mr. N. D. Hurdon found the earliest mushrooms of the season on Wednesday morning—a dozen of the pink variety.

Mrs. John Hind, we are pleased to say, is recovering from an attack of peritonitis, and was able to sit up Tuesday.

When a man makes a fool of himself he always blames his wife, but when he makes a lucky hit he always prides himself.

After a man reaches seventy, and recovers from an illness, people wonder why he didn't have it over with, while he was about it.

Some fifteen Model Schools in Ontario will be open for a fall term, among them Clinton. The session opens Sept. 3rd and closes Dec. 13th.

Oliver J. Johnston of Clinton has been appointed License Inspector of Centre Huron to succeed R. Asquith who was dismissed. Alfred Baker of Brussels replaces Patterson as commissioner.

The Cantata given by the Young Ladies' Bible class of Caven Presbyterian church on Friday evening was a very pleasing affair and fairly well attended The Hensall Orchestra furnished the music.

Mr. Neelands of Hensall got ditched on Sunday while driving his auto on London Road. Either nerves or steering gear went wrong. Though thrown out and dumped around a good deal the injuries of the passengers were slight.

G. M. Elliott, county officer for the Children's Aid Society, visited children the society has placed in this vicinity, and also took a little girl from a foster home near Exeter, to Goderich to be replaced in another good home. The Society has over 50 children placed in homes in Huron County.

There is many a thing that people will buy if it is only suggested to them. There is many a thing that people want to buy, and would buy if they but knew where to get it, or what it would cost. The live seller is the one who knows how to whet the appetite of the buyer. You can say it to most people in this district by saying it in The Advocate.

The Militia Department has decided to hold a physical and military training camp for male teachers at London for six weeks this summer. The date set is from July 6th to August 16th, and $1.50 per day will be paid to all teachers who attend the camp. They will also be entitled to free transportation to and from the camp and many advantages are available for teachers who take the course.

EYE SIGHT SPECIALIST.—Miss J. J. Allen, Eye Sight Specialist, will be at The CENTRAL HOTEL on SATURDAY JUNE 1st—one day.

KIT OF TOOLS STOLEN—Mr. James Beer, who has been working in London for a month, had his kit of tools stolen from the check room of G. T. R. station at London on Saturday afternoon. He had sent the tools down by a carter, who had placed them in the check room, but on Mr. Berr's applying for them they had disappeared. After leaving a claim with the company's officials he returned home Monday morning.

Mr. S .G. Bawden was in St. Catharines last week where he had his automobile shipped to Exeter. It is expected to arrive to-day.

NEARLY DROWNED—Mr. Jas. Shapton lost a three year old colt which he was driving on Tuesday, and narrowly escaped drowning himself. He with his son Wilfrid was driving along the side road, three miles west of Exeter, when the horse became frightened and jumped into the water which was very high in the deep ditch. Mr. Shapton was thrown underneath, and but for the help of his son he would have been drowned, as he was completely under water. The colt got tangled up in such a way that it was impossible to save it.

STILL A POSSIBILITY—Mr. Langridge of the C. P. R. staff was in town on Monday, straightening up a few matters in connection with the St. Marys and Western Railway Company. On being asked whether the big corporation had taken over the charter of the smaller company Mr. Langridge was non-committal, but apparently such has been done, and it would not be surprising to hear in a short time that the C. P. R. company is about to commence the building of the road, the charter of which stated that the road was to run from St. Marys to Exeter and westward to some point on Lake Huron.

Mr. Walter Graham of London is visiting relatives here.

Mr. Frank Flintoff left Thursday for Stratford to remain.

Miss Allie Handford leaves this morn to visit her sister in Aylmer.

Mr. and Mrs. Deller left Saturday for London, accompanied by the former's mother.

Mr. Robert Rogers of Toronto spent a few days with friends in town during the week.

Mrs. Geo. Wills of London visited her parents, Mr. and Mrs. T. H. McCallum, last week.

Mrs. (Dr.) McCallum of Cressline, Ohio, is visiting her mother, Mrs. Morlock, who is quite ill.

Mrs. Hugh Oke has returned from a visit in Seaforth. She was accompanied home by Mr. Wm. Oke.

Mrs. Wm. Walker of the 2nd of Stephen with her little grandson left Tuesday for North Battleford, Sask.

Mrs. S. B. Clements, with her two sons of Vancouver, B. C., is the guest of her parents, Mr. and Mrs. James Dennis.

The little daughter of Mr. and Mrs. Jordan of London visited her grandparents, Mr. and Mrs. Jas. Murray, this week.

A number of those interested in the Sovereign Fruit Co. attended a meeting of the company in London on Monday evening.

DO IT NOW

TWENTY-FIFTH YEAR | EXETER, ONTARIO, THURSDAY, MAY 30 1912. | SANDERS & CREECH

Local Items

Dr. Hyndman with Mr. James Earl of Usborne and Mr. Mathew Finkbeiner of Stephen autoed to London Friday. Mr. Earl underwent an examination for an internal trouble, while Mr. Finkbeiner brought home his daughter, Miss Lizzie who has been in the sanitorium. Miss Finkbeiner, we are sorry to say, has not improved.

Many people are passionately fond of watercresses. Care should be taken in preparing them for table to wash them thoroughly well. The stream from which they are picked may be infected with typhoid. Vegetables taken from such streams are better boiled wherever possible; but vegetables to be eaten green should be well cleansed. The first water used might be made soapy without any disagreeable results.

Junior Public School Graduation Examination.—This examination begins on Monday, June 17th, at 8.45 a.m. at each H. S. Entrance centres as the candidates have specified. West Huron Teachers are requested to send the names, fees and centre at which the candidates desire to write to Inspector J. B. Tom before June 6th, so that proper arrangements may be made for the examination. Unless applications are sent in the first week of June for any centre no graduation examination will be held at that centre.

The St. Thomas Journal of last Wednesday says—"Charles R. Dale, Wabash, storekeeper at St. Thomas, has been promoted to the position of storekeeper at Toledo, and will assume his new duties about June 1, Mr. Dale was for four years night agent for the past two years has been Wabash storekeeper. He has a great many friends in this city who will be pleased to hear of his advancement, but at the same time hate to see Mr. Dale and his estimable wife leave the city"

Mr. and Mrs. Dale (nee Amelia Oke) visited relatives here during the week.

Aeroplane Flight—We read much these days about aeroplanes, flying machines, etc., but few of us have had the privilege of seeing such a machine in operation. The citizens of London, and many who happened to be in the city, however, were treated to an interesting sight on Friday last when aviator Havens made a trip in an aeroplane over the city. Leaving Carling farm on Dundas street he made an entire circuit of the city and returned in about twenty minutes, landing gracefully and without a mishap. The machine when at its highest was about 6000 feet above the earth. Many Exeter people were among the privileged ones.

May 24th was a very quiet day in Exeter. A number of visitors were entertained, a little gardening was done, and the bowlers playing their first games for the season. A number of sports attended the races in Mitchell while others drove over to the baseball game in Crediton.

On Thursday last a number of officials of the Canadian Northern Railway, accompanied by several St. Marys and Stratford people were in Exeter and the country west in connection with a proposed radial to be built through this section to Grand Bend. It is expected the line will be commenced this summer.

The following are the Licensed Auctioneers for Huron County.— Thos. Gundry, James Stanley, Henry Torrance, John Purvis, C. F. Vandrick, Patrick Walsh, F. S. Scott, James Jones, Thos. Cameron, B. S. Phillips, R. McCharles, Cameron, B. S. Phillips, R. McCharles, G. W. Walker, D. N. Watson, Joseph White, Alex. Morrison, V. R. Vannorman, Thos. Brown, Frank McConnell, Ed. Bossenberry, Thos. B. Carling, B. W. F. Beavers, Jas. Beswetherick, Ezra Walker Durr. And the following are the Licensed Pedlars.—A. Taylor, Geo. Mitchell, A. Oke, W. J. Powell, Albert Horner, John Darroch, Jas. Cassels, T Langan, F. L. Wittee, Henry Horney, H. D. Woods, W. J. McCracken, Dunc. McDonald, R. A. McDonald, Jas. R. Cutt, Geo. K. Holland, Robert Shaw, John Young, Edward Mitchell, B. Perehuan, J. L. Frey.

VISIT OF D. D. G. M.—Right Wor. Bro. Mallton of Stratford, District Deputy Grand Master of South Huron Masonic District, paid his official visit to Lebanon Forest Lodge, Exeter, on Monday evening, when the officers of the lodge exemplified the work of the first degree in a creditable manner. At the conclusion of the work the district deputy gave a very pleasing address on secret work of the order, and conducted a short lodge of instruction on that secret work. After a vote of appreciation of the address and work as given by the district deputy the lodge was closed, and the members repaired to the dining room of the Commercial Hotel, where a sumptuous supper had been prepared, and to which all did ample justice. This was followed by a short toast list, consisting of "The King"; "Grand Lodge" which was responded to by Rt. Wor. Bros. Mallton and Dickson; "The Dominion" responded to by W. Bro. D. W. Collins; and "Lebanon Forest Lodge," responded to by W. Bros. W. W. Taman and the Wor. Master, W. D. Sanders. A very pleasant evening was then closed by the singing of "Auld Lang Syne" and the National Anthem.

It hasn't rained all the time this week, but we have had a good deal.

Mrs. Phillips returned Monday from a visit with her daughter in St. Thomas.

The New Brunswick Legislative Assembly elections take place on June 20.

Mr. Clarence Duplan of Centralia has successfully passed his recent examination at Huron College.

Mr. John Staddon of Seaforth, a former resident of Exeter, has accepted a position with Mr. Geo. Manson, commencing work yesterday.

Mr. Moulton, student of Huron College, London, occupied the pulpit of the Trivitt Memorial church Sunday morning last, preaching an excellent discourse.

Mr. and Mrs. Jos. Cobbledick of Calgary, formerly of Exeter, announce the engagement of their younger daughter, Ethel Florence, to Thomas B. Stevenson, M.D. of Westaskiwin, Alta., son of James Stevenson, Hastings, Ont. The marriage will take place early in June.

Farm Sold—Mr. Mathew Finkbeiner of the 7th concession of Stephen has disposed of his fine two-hundred acre farm being Lots 16 and 17, to Mr. Edward Fahner of the same township. The price paid was $11,900. Possession to be given in the fall. This is one of the best farms in the township. Mr. Finkbeiner has not yet decided where he will make his future home, but likely it will be in Crediton.

Owing to the increased cost of everything necessary for the publication of a newspaper, advertising rates are being boosted in many places. It is likely that on Jan. 1st, 1913, most of the weekly papers of the province will be compelled to make a slight raise in the price of advertising space. Newspapermen are the last of all business men to increase rates to harmonize with the high cost of living and production, and a change will have to be made to prevent many of the smaller papers from going to the wall.

ELECTION OF OFFICERS— Exeter Lodge, No. 67, Independent Order of Oddfellows, elected officers on Tuesday night as follows,—Noble Grand, Luther Penhale Vice Grand, W. J. Statham; Rec.-Sec., R. N. Creech; Fin.-Sec., W. Johns; Treas., E.M. Dignan; Representatives to Grand Lodge, Chas. Northcott, Ed. Willis; Delegates to District meeting, R. N. Creech and Ed. Willis.

HICKS' FORECASTS FOR JUNE.—A regular storm period within the bracs of a Mercury period, extends from the 3rd to the 9th. The June solstice will impinge upon this period, causing electrical storms to continue and reach a crisis on and touching the 9th. The Moon is on the equator on that day, and the annual magnetic crisis extends from about the 8th to the 15th, so that thunder storms will be frequent and violent for several days at this time. These June thunder squalls often prove quite severe, with only moderate fall of the barometer. Heavy, and sometimes abnormal rains occur during the solstice with the barometer little below normal. At such times the hygrometer shows great humidity.

"Stay on the land" is a better cry than "back to the land." If, during the next decadem, all the boys who grow on the land, we will not need to worry much about growing centres. A boy born and raised on a farm, and who acquires an all-round practical knowledge of agriculture, is worth more to the country if he stays on the land than half a dozen city people who may venture in and make more or less a failure of farming. There is however, room in this country for every boy raised on a farm to continue in the business, and for the city man, too, who may desire to change his occupation.

The prosperity of a town is not guarded by the wealth of its inhabitants, but by the uniformity with which they pull together when any important undertaking is to be accomplished. A man with a thousand dollars at his command and a love for town in his heart, can do more for the building up and improving of it than the millionaire who locks up his capital and snaps his fingers at home progress.

Canada's total trade for the past fiscal year amounted to $862,699,732, an increase of no less than $103,605-343, as compared with the preceding fiscal year. Imports totalled $547,382, an increase of nearly $86,000,000; exports totalled $315,317,250, an increase of nearly $18,000,000. The year's increase in trade over fourteen per cent., is one of the largest, if not the largest, in the history of Canada According to present indications, the the Dominion's trade for the current fiscal year will run very close to the billion-dollar mark.

Of the total imports for the past year $355,204,452 were dutiable goods, while $186,144,249 were free goods. The Customs revenue totalled $87,548,542, an increase of $14,250,908.

Exports of domestic products for the the year totalled $290,233,857, the principal items being, Agricultural products $10,7,143,875; animals and their produce, $48,210,654; mines, $41,324-516; forests, $40,892,674; manufactures, $35,886,284; fisheries, $16,-704,678.

The increase in agricultural exports was approximately $24,500,000. There were decreases of a little over four millions in the exports of animals and their produce, nearly five millions in the ex ports of the forest, and a million and a half in mineral exports.

During the year Canada imported coin and bullion to the value of $26,033, 881 as compared with only $10,206,210 for the preceding year.

Menace To Public Health

To the Advocate,—

Dear Sirs,—For years our Board of Health has permitted parties to dump carcasses of dead animals within the limits of our corporation, and at the present time there are two carcasses of dead horses in the field owned by Mr. Alex Dow, near the river, and there are also two dead hogs lying in the river just east of the dam. Further more it is said, that it has become a practice of owners of dead animals to draw them to the river bank, and dump them on the bank or into the river, thereby polluting and contaminating the water that is now being used by many of our citizens for domestic purposes, and for sprinkling the public streets. For several days during the heated period of the summer of last year there was allowed to remain in front of the premises vacated by the Connor Machine Co. the carcase of a dead cat, and citizens were compelled to cross the street in order to avoid the repulsive sight and nauseating stench arising therefrom. Many persons wondered why the Board of Health did not take some action in the matter, but it will be remembered that they were at the time too busy removing some pea straw belonging to one of our local industries. But dead cats, horses, and other animals are not so offensive to the olefactory senses of the guardians of public health as is pea straw, I would commend to the attention of the Board of Health the odoriferous pulverization of particles to be found in and about several of the premises in the main parts of our village. These things are a menace to the health of our citizens.

Thanking you for the space,

A. CITIZEN.

EXETER COUNCIL

The council met in the Town Hall on Monday evening, 27th inst., with the members all present, excepting the reeve. Owing to the absence of Mr Heaman it was moved and adopted that Councillor Levett take the chair.

Tenders for the watering of the streets were received as follows.—Thos. Houlden $16.50 per week; Thos Creech $16.50 per week, or $3.90 per day when required; Henry Rumohr $17.40 per week. Scott—Rivers—That T. Houlden's tender for $16.50 per week be accepted, duties to commence Monday, June 3rd.—Carried.

Scott—Ford—That the clerk write the Hamilton Toronto Sewer Pipe Co., instructing them to forward one car of pipe as per contract.—Carried.

Rivers—Scott—That J. N. Howard's bond be accepted and his deposit of $90 be returned to him.—Carried.

Adjourned to call of reeve.

T. B. Carling, Clerk.

STEPHEN COUNCIL.

The Council of Stephen convened in the Town Hall, Crediton, on Monday, the 27th day of May 1912 at 1 p.m. All members were present.

The minutes of the previous meeting were read and adopted.

Kellermann—Elliott—That the clerk post the required notices and advertise that this council will consider the advisibility of passing a by-law on the 2nd of July next at 2 p.m. for the purpose of closing and selling an original road allowance situated between Lots 15 and 16 in the 21st concession of the Township of Stephen.—Carried.

Yearley—Elliott—That Wm. Witzel be appointed a poundkeeper.—Carried.

Gravel contracts to the amount of $823.25 were let for gravelling the roads in the municipality.

The following orders were paid,—Jos. Zeller, use of room at joint council meeting, 2.00; Rich. Hill, Rep. culvert, 75c.; Municipal World, supplies, 3.56; Hamilton Machinery Co., grader blade and bolts, 10.00; Express Co., express, 50c Wm. White, rep. road, 2.00; Wm. Hayter, moving bridge, 5.00; Chris. Finkbeiner, rep. culvert, 6.50; John Brown, filling in bridge, 1.50; J. Baird, repairs to bridge, 1.00; M. McIntyre, gravel contract, Blk. 7, S. B., 15.00; John Hays, com. Blk. S. B., 2.50; H'y Clark gravel contract, Blk. 8, S. B., 20.25; Dan. Shepperd, com. Blk. 8, S. B., 3.75 J. Neil, putting in tile, 3.50; Henry Kraft, rep. culvert, 2.50; Wm. Mawhinney, concrete culvert, S. B., 12.00; C. Hoffman, rep. culvert, 8.00; F. Clark, do., 50c.; S. Morrison do. 6.00; J. Doyle, do., 5.00. The Council adjourned to meet again in the Town Hall Crediton, on Tuesday, July 2nd, 1912, at 1 o'clock.

Henry Elliott, Clerk.

HARPLEY

Misses Agnes and Mabel Turnbull visited their cousins at the Post Office for the week end.—Mrs. Grace Murray entertained her friend Miss Jessie Webb on Sunday.—Miss Watson of Sarnia is visiting friends in this vicinity at time of writing.—The deluge of rain on Monday night of last week caused the creeks to rise carrying with them several bridges amongst them the bridge over the large creek at Mr. Stone's where a temporary bridge is erected as a new bridge of cement is to be built.— Mr. and Mrs. Manse Hodgins moved into their new residence "Sunnyside" last week.—Mr. Stephen Webb had a very successful barn raising on Saturday of last week.—Messrs Roy Sherritt, Maxime Desjardine, Geo. Webb, have raised their barns and are intending to build walls under them to prepare more stable room for the coming winter.

CLINTON—A quiet wedding was solemnized on Thursday evening, when Miss Della Hazel Finch was united in marriage to Mr. John Frank Dixon, by Rev. T. Wesley Cosens.

SEWER BY-LAW CARRIED

The vote on the by-law to lay a sewer from the Post Office to the river on Main Street was taken on Monday last and resulted 185 for, and 10 against. Although little interest was taken and the vote was small, there was well over one-third of the available vote polled, and consequently the by-law was carried.

By Polls	the	vote was	
No. 1,	For 39,	Against	4
No. 2,	For 64,	Against	1
No. 3,	For 60,	Against	3
No. 4,	For 22,	Against	2
Total.	185		10

The contracts have already been let and the work of laying the sewer will commence at once.

FIRE AT CLINTON

Clinton, May 25.—At 2.45 this morning fire was discovered in Cook's notion store, and before it was extinguished the stock was practically destroyed. The stock of Miss Cantelon milliner; A. J. Greig jeweler, and O. Fink, photographer, was damaged somewhat by smoke. Mr. Cook had $1,800 insurance on stock. John Jackson is the owner of the building.

FELL TO HER DEATH.

Mrs. William Lamony of the Goshen line, in Stanley Township, was fatally injured at her home on Tuesday afternoon. Her husband had been building an addition to the house over the kitchen and while it had been roofed and sided, the flooring was not in, Mrs. Lamont had occasion to go up stairs, and in some way missed her footing, and fell to the floor below. The carpenters and her son Rover working outside heard her fall, and on rushing in found her unconscious. She was attended by her son and daughter until the doctor came but never regained consciousness, and died in a short time. Mr. Lamont was in Zurich when the accident happened and was horrified when he returned, to hear of his wife's death. The deceased was 50 years of age, and besides her husband is survived by three daughters.

MANY GREAT FEATURES.

Coming with Sanger's Greater European Shows.

The shake-ups to the nerves, the ragtims beat of your heart, the fear that someone will be hurt, with the accompanying apprehension that they may not, all of this—and this is the delight of the Sanger's Greater European Shows to be at Exeter, Tuesday, June 4, must be given by the professionals who shake dice for their lives with fortune every performance.

One of the big acts is the original Earl Family. What this wonderful family do looks easy. Suppose you try it, and newspapers will write story about it, with a diagram showing the place where your body struck.

Another of the best-ever acts is the leaping contest. Fifty leapers take part. Dan O'Brien is the champion and does a double somersault over elephants, camels, and horses. Marie McPhail, Riding Russells and many other big acts are presented in many new riding stunts.

You will see the Ben Hur herd of Arabian stallions and the Black Hussar horses perform. They prove what a perfect world this would be if all men had as much intelligence as horses. You will see elephants waltz, teeter, play hide and seek, and undress and go to bed like people. You will see dog shows and mule shows and countless clowns. Sanger's Greater European Shows is a great show, presenting magnificent good old barbarous sport that makes you happy in feeling that civilization has not eliminated all the traits your grand-dads of the stone age left you as a message. The $25,000 Dublin Gray Horses are also coming, and they are a show in themselves.

BIRTHS

Hicks—In Centralia, on May 28th, to Mr and Mrs. Andrew Hicks, a daughter.

Sheere—In Fort William, May 19, to Mr. and Mrs. Nelson Sheere, a daughter

Wiegand—In Hay on May 18, to Mr. and Mrs. G. Wiegand, a son.

MARRIAGES

Oliver—Statten—At Corbett, on May 22, Ware Oliver to Miss Lottie Statten, both of Grand Bend.

Steeper—Loomis—McGillivray, on May 15th, Mr. Matthew Steeper to Miss Marion Loomis, daughter of Mrs. Oscar Loomis, both of McGillivray.

Amos—Brewen—Raymond, Alta., on May 16th, Mr. R. Alvin Amos, of Raymond, Alta., formerly of McGillivray, to Miss Mae Brewer, of Parkhill.

Stewart—Pollock—At Bayfield, on May 21st, by Rev. H. J. Condell, Florence second daughter of Mr. and Mrs. J. Pollock, to John M. Stewart of Goderich.

DEATHS

Hooper—In Lucan, May 22, Mary Ann, beloved wife of Wm. H. Hooper, aged 77 years.

Ireland—In Stephen on May 18, Robert Ireland, aged 81 years, 4 months.

ESTRAY COLTS.

Four yearling colts, on about May 18, from Klondike. One cream colored, one black pacer, and two bays (one bob-tailed). suitable reward on notifying the owner of their whereabouts—George Defore, Thedford, Ont.

Summer Wearing Apparel

OUR STOCK OF SUMMER WEARING APPAREL IS COMPLETE IN EVERY LINE—BOUGHT WITH A VIEW TO GIVING WEARERS THE COOLEST AND MOST COMFORTABLE CLOTHING FOR THE WARM WEATHER.

A GREAT DEAL OF YOUR PLEASURE AND COMFORT DEPENDS ON THE STYLE, WEIGHT AND FIT OF YOUR CLOTHES. THE "TAMAN" SUMMER GOODS STAND FOR "EASE AND COMFORT."

CALL IN AND EXAMINE OUR GOODS.

A FEW OF THE LINES ARE AS FOLLOW,—

Try it—test it—see for yourself — that "St. Lawrence Granulated" is as choice a sugar as money can buy.

Get a 100 pound bag—or even a 20 pound bag—and compare "St. Lawrence" with any other high-grade granulated sugar.

Note the pure white color of "St. Lawrence"—its uniform grain—its diamond-like sparkle—its matchless sweetness. These are the signs of quality.

And Prof. Hersey's analysis is the proof of purity —"99 99/100 to 100% of pure cane sugar with no impurities whatever". Insist on having "ST. LAWRENCE GRANULATED" at your grocer's.

ST. LAWRENCE SUGAR REFINING CO., LIMITED, MONTREAL. 66

ONLY A MONTH;

OR, A CURIOUS MYSTERY EXPLAINED.

CHAPTER III.—(Cont'd)

At length the top of the mountain was reached, and a merry little picnic ensued.

"Come!" said Sigrid to Cecil Boniface, "you and I must add a stone to the cairn. Let us drag up this great one and put it on the top together in memory of our friendship."

They stood laughing and panting under the shelter of the cairn when the stone was deposited, the merry voices of the rest of the party floating back to them.

"Do you not think we are dreadful chatterers, we Norwegians?" said Sigrid.

"I think you are delightful," said Cecil, simply.

Something in her manner touched and pleased Sigrid. She had grown to like this quiet English girl.

Once more Frithiof and Blanche were left alone.

"And you must really go on Monday?" asked Frithiof, with a sigh.

"Well," she said, glancing up at him quickly, "I have been very troublesome to you, I'm sure; always needing help in climbing! You will be glad to get rid of me though you would be too polite to tell me so."

"How can you say such things?" he exclaimed. "You know—you must know what these days have been to me."

"After all, I believe I should do better if I trusted to my alpenstock!" And laughingly she began to spring down the rough descent, a little proud of her own grace and agility and a little glad to baffle and tease him for a few minutes.

"Take care! take care!" cried Frithiof, hurrying after her. Then, with a stifled cry, he sprung forward to rescue her, for the alpenstock had slipped on a stone, and she was rolling down the steep incline. How he managed it he never realized, but love seemed to lend him wings, and the next thing he knew was that he was kneeling on the grass only two or three feet from the sheer cliff-like side with Blanche in his arms.

"Are you hurt!" he questioned, breathlessly.

"No," she replied, trembling with excitement. "Not hurt at all, only shaken and startled."

He lifted her a little further from the edge.

"How strong you are," she said, "and how cleverly you caught me! Yet now that it is over you look quite haggard and white. I am really not hurt at all. It punished me well for thinking I could get on without you. You see I couldn't!"

She sat up and took off her hat, smoothing back her disordered hair.

"If only I might always serve you!" he cried. "Oh, Blanche, I love you! I love you! Will you not trust yourself to me?"

All in a moment she was conquered; she could not even make a feint of resistance, but just put her hand in his.

"I will always trust you," she faltered.

Then, as she felt his strong arm round her and his kisses on her cheek, there flashed through her mind a description she had once read of—

"a strong man from the North,
Light-locked, with eyes of dangerous gray."

It was a love worth having, she thought to herself; a love to be proud of!

"But, Frithiof," she began, after a timeless pause, "we must keep our secret just for a little while. You see, my father is not here, and—"

"Let me write to him and ask his consent," exclaimed Frithiof.

"No, no, do not write. Come over to England in October and see him yourself, that will be so much better."

"Must we wait so long?" said Frithiof, his face clouding.

"It is only a few weeks; papa will not be at home till then. Every one is away from London, you know. Don't look so anxious; I do not know your face; it isn't happy; you were never meant to be grave. As for papa, I can make him do exactly what I like; you need not be afraid that he will not consent. Come! I have promised to trust to you and yet you doubt me."

"Doubt you!" he cried. "Never! I trust you before all the world; and if you tell me to wait, why, then, I must obey."

"How I love you for saying that!" cried Blanche, clinging to him. "To think that you who are so strong should say that to me! It seems wonderful. But indeed, indeed, you need not doubt me. I love you with my whole heart. I love you as I never thought it possible to love."

CHAPTER IV.

"We were beginning to think some accident had happened to you," said Sigrid, who stood waiting at the door of the hotel.

"And so it did," said Blanche, laughing. "I think I should have broken my neck if it hadn't been for your brother. It was all the fault of this treacherous alpenstock which played me false."

And then, with a sympathetic little group of listeners, Blanche gave a full account of her narrow escape.

"And you are really not hurt at all? Not too much shaken to care to dance to-night?"

"Not a bit," said Blanche, merrily. "And you promised to put on your peasant costume and show us the spring dans, you know."

"So I did. I must make haste and dress, then," and Sigrid ran upstairs, appearing again before long in a simply made dark skirt, white sleeves and chemisette, and red bodice, richly embroidered in gold. Her beautiful hair was worn in two long plaits down her back, and the costume suited her to perfection. There followed a merry supper in the dependence where all meals were served, then every one adjourned to the hotel salon, the tables and chairs were hastily pushed aside, and dancing began.

Herr Falck's eyes rested contentedly on the slim little figure in the maize-colored dress who so often danced with his son; and indeed, Blanche looked more lovely than ever that evening, for happiness and excitement had brightened her dark eyes, and deepened the glow of color in her cheeks. The father felt proud, too, of his children, when, in response to the general entreaty, Frithiof and Sigrid danced the spring dans together with its graceful evolutions and quaint gestures. Then nothing would do but Frithiof must play to them on the violin, after which Blanche volunteered to teach every one Sir Roger de Coverley, and old and young joined merrily in the country dance and so the evening passed on all too rapidly to its close. It was a scene which somehow lived on in Cecil's memory; the merry dancers, the kindly landlord, Ole Kvikne sitting near the door and watching them, the expression of content visible in Herr Falck's face as he sat beside him, the pretty faces and picturesque attire of Sigrid and Swanhild, the radiant beauty of Blanche Morgan, the unclouded happiness of Frithiof.

The evening had done her good, its informality, its hearty, unaffected happiness and merriment made it a strange contrast to any other dance she could recollect; yet even here there was a slight shadow. She could not forget those words which she had overheard on board the steamer, could not get rid of the feeling that some trouble hung over the Falck family, and that hidden away, even in this Norwegian paradise, there lurked somewhere the inevitable serpent. Even as she mused over it, Frithiof crossed the room and made his bow before her, and in another minute had whirled her off. Happiness shone in his eyes, lurked in the tones of his voice, added fresh spirit to his dancing; she thought she had never before seen such an incarnation of perfect content. They talked of Norwegian books, and her interest in his country seemed to please him.

"You can easily get English translations of our best novelists," he said. "You should read Alexander Kielland's books, and Bjornsen's ringing all day in my head, we will make Sigrid say it to us, for I only know the chorus."

Then as the waltz came to an end he led her toward his sister, who was standing with Roy near the piano.

Just then a polka was struck up and he hastily made his bow to Blanche.

"May I have the pleasure of this dance?" he said, in his condescending tone.

"Thank you, but I am so tired," she replied. "Too tired for any more to-night."

"Yes," said Sigrid, glancing at her. "You look worn out. Munkeggen is a tiring climb. Let us come upstairs, it is high time that naughty little sister of mine was in bed."

"The reward of virtue," said Cyril Morgan, rejoining his cousin Florence. "I have been polite to the little bourgeoise and it has cost me nothing. It is always best in a place like this to be on good terms with every one. We shall never be likely to come across these people again; the acquaintance is not likely to bore us."

His words were perfectly true. That curiously assorted gathering of different nationalities would never again meet, and yet those days of close intimacy were destined to influence forever, either for good or for evil, the lives of each one.

All through the Sunday Blanche had kept in bed, for though the excitement had kept her up on the previous night, she inevitably suffered from the effects of her fall. It was not till the Monday morning, just before the arrival of the steamer, that Frithiof could find the opportunity for which he had impatiently waited. They walked through the little garden, ostensibly to watch for the steamer from the mound by the flag-staff, but they only lingered there for a minute, glancing anxiously down the fjord where in the distance could be seen the unwelcome black speck. On the further side of the mound, down among the trees and bushes, was a little sheltered seat. It was there that they spent their last moments, there that Blanche listened to his eager words of love, there that she again bade him wait till October, at the same time giving him such hope and encouragement as must surely have satisfied the most exigeant lover.

All too soon the bustle of departure reached them, and the steam-whistle—most hateful and discordant of sounds—rang and resounded among the mountains.

"I must go," she exclaimed, "or they will be coming to look for me. This is our real good-bye. On the steamer it will be just a hand-shake, but now—"

And she lifted a lovely, glowing face to his.

(To be continued.)

All men are born free and equal, but most women are slaves to fashion.

Which is his

THERE'S no mistaking the expression of a man whose farm is well "improved." He *looks* as prosperous as he *feels*.

It isn't the size of a place that counts most, nor its actual dollars-and-cents value. It's rather that "well-kept," thrifty appearance; the appearance that makes you think of fat stock, and well-filled barns, and comfortable, contented living.

Neat, permanent improvements go further in giving a farm this appearance than any other feature.

Concrete Is The Ideal Material

for such improvements. It is neat, harmonizing with its surroundings in the country. Everlasting, it cannot be injured by fire, frost, wind or lightning. Age—instead of causing it to decay—actually makes it stronger.

Concrete never needs repair—first cost is last cost. New improvements can be added year after year with less expense than would be required to keep wooden structures in repair.

Concrete walks, feeding floors, dairy-barns, ice-houses, root-cellars, well-curbing, fence posts, silos—which of these does your farm need most? Whatever you want to build, it's best to build it of concrete.

Do you want to know more about this subject of permanent farm improvements? Then write for your copy of

"What The Farmer Can Do With Concrete."

It's a book of 160 pages, telling how other farmers have used the "handy material" to good advantage. Published to sell at 50c. a copy, it is now being offered free to all farmers who write for it. Address

Canada Cement Co., Ltd., 30-35 National Bank Building, Montreal.

HOUSEHOLD

DAINTY DISHES.

Broiled Finnan Haddie.—Soak twenty minutes in warm water. Drain and dry thoroughly, brush with melted butter and broil until browned on both sides. Transfer to a hot platter on which has been poured a cup of cream or white sauce, slip in oven an instant to reheat and serve.

Fricassed Veal—Select a light shoulder or fore-quarters of veal. Simmer till tender, then cut in pieces suitable for serving, salt and pepper them, roll in flour and brown on a griddle. Serve on toast, with a gravy made from liquor in which veal was cooked.

Canned Peach and Nut Salad — Select a large half peach for each person. Let stand thirty minutes in a little French dressing, drain and fill centers with chopped figs, dates or prunes mixed with a little cream. Sprinkle with chopped cashew nuts, place on lettuce leaves and serve.

Lemon Rice Pudding.—One and one-half cups rice, three cups milk, one egg, juice and rind one-half lemon, one-half cup sugar. Mix in order given, pour in buttered pudding dish, set in pan of hot water and bake slowly till firm in the center. Serve hot or cold with currant jelly sauce.

Tapioca Pear Soup—One-fourth pound dried pears, half to three-quarters sugar, one-quarter pound dried apricots, three tablespoons tapioca, one-quarter cup currants, few grains salt, one quart water, one-inch piece cinnamon, one tablespoon lemon juice, two cloves. Soak fruit over night in the water. In the morning add the spice and tapioca and simmer gently till both are done. Then sweeten, add salt and lemon juice and chill.

Currant Jelly Sauce—Boil one cup of granulated sugar and one-third cup of water, without stirring, four minutes; add four tablespoons of currant jelly. As soon as the sauce boils again, add two tablespoons of lemon juice and serve.

Potatoes Goldenrod—Three cups diced cooked potatoes, two tablespoons flour, three hard-cooked eggs, two cups milk, one tablespoon finely minced onion, one teaspoon salt, three tablespoons butter, one-quarter teaspoon pepper. Separate egg whites from yolks, cut into dice and add to potato. Fry onion in butter till softened, add flour and seasonings and gradually the milk, stirring well. Let boil; add potatoes and when very hot turn into serving dish. Put egg yolks in potato ricer and rice over dish. Serve at once.

TEA, COCOA AND COFFEE.

Making Tea.—Fill the kettle with fresh cold water and set it on to boil. If soft water can be procured, it should always be used. Never make the tea with water that has been long on the fire simmering or that has been twice boiled. The natural aeration of the water is drawn off by long-continued heating, and the hardness of the water is increased by the evaporation that takes place. The more rapidly the water is heated the better the tea. Warm the teapot. Put in the tea in the proportion of one ounce to six or seven persons, or a teaspoonful for each person, and a teaspoonful over. Pour on the boiling water. Cover the teapot and allow it to stand from five to seven minutes to draw. Take care to use a teapot in right proportion to the size of your party. If the teapot is not filled the tea cools rapidly. If tea is required in haste, while the water is coming to the boil put the tea into the teapot and stand it inside the oven until it is thoroughly hot through. Pour on the boiling water, and in a minute it will be ready to pour out.

Making Cocoa.—Two tablespoonfuls of cocoa, two cupfuls of milk, two tablespoonfuls of sugar, two cupfuls of boiling water and a pinch of salt. Mix the cocoa, sugar and salt together; add the boiling water gradually; when smooth, boil five minutes; add two cupfuls of milk scalded and beat with an egg beater or chocolate stick until frothy.

Making Coffee.—One cupful of coffee and six cupfuls of cold water. Put coffee in cheesecloth bag. Tie, allowing room for coffee to swell. Place in scalded coffee pot, cover with cold water and boil 10 minutes. Remove bag, let stand two minutes on back of range, and serve with hot milk, sugar and cream.

THE CLEAN HOUSE.

Modern scientists have tried to impress upon the minds of the general public the necessity of keeping the home as free from germs as possible.

Every disease has its beginning traced to these destroyers of life. Therefore, we should take every precaution in turn to destroy them.

The mother in the home would be wise to form a crusade against all warring germs. Each member of the family ought to assist her in every way possible In this manner the spread of contagious diseases may be greatly checked.

It is an impossibility to have the home strictly sanitary. This would mean sacrificing its artistic beauty. Carpets, draperies and papered walls, long considered a menace to health, would have to be dispensed with.

Very few families have the courage to run their homes upon a sanitary basis; therefore the lovely draperies and upholstered furniture remain.

With the word "home" is associated all that produces comfort, beauty and enjoyment.

A strictly sanitary house is not beautiful or conducive to cheerfulness. It reminds one of a hospital, and the desire to live there is never longed for by normal persons.

We can, to a certain extent, keep the home germproof. Here are a few suggestions which may prove helpful:

Window draperies sift all the germ-laden dust from the streets and very quickly become a delightful resting place for an unbelievable number of bacilli.

If the draperies are of washable material, they should be frequently dipped in a weak solution of chloride. Your druggist will tell you the right proportion.

The door-knob, turned by countless germ-covered hands, should have an antiseptic bath as often as possible.

Infectious diseases are spread very often by the seemingly harmless doorknob.

While the telephone is a wonderful invention, and it would be a difficult matter to exist comfortably without one, it is a breeder of disease. To prevent this, to a certain extent, an antiseptic shield should be placed over the mouthpiece. A good idea would be for each member of the family to have his own shield conveniently near the 'phone, and use it when speaking.

Combs and hairbrushes should not be neglected. They should have an antiseptic bath at least once a week. These articles used in the guest chamber should be subject to this treatment after the departure of each visitor.

Children, when using a pencil, moisten it with the mouth. This habit should be broken if possible. The danger of contagion is prevented by labeling the pencil with each owner's name. This can be done by pasting a strip of paper on the pencil or cutting the initials in the wood.

WISE SAYINGS.

Never stop work till you have to. I have seen so many good men retire—and go to pieces.—Dian Pigou.

Work is the very salt of life; not only preserving it from decay, but also giving it tone and flavor.—Hugh Black.

Providence never intended that any State here should be either completely happy or entirely miserable.—Blair.

If all men had to earn all they lived upon they would know better how to use money and how to save it.—Mr. Samuel Barrow.

Eschew wickedness. Be truthful in speech, faithful to your engagements, kind and helpful to your relations and neighbors.—Mahomet.

This world is full of fools, and he who would not wish to see one must not only shut himself up alone, but also break his looking-glass.—Boileau.

If men would only be as considerate to wife, children and servants as they are to acquaintances and strangers their homes would be incomparably brighter.—Canon Hensley Henson.

The unhappy are never pleasing, and all naturally avoid the contagion of misery. To hear complaints is wearisome alike to the wretched and the happy. . . . Who that is struggling under his own evils will add to them the miseries of another!—Dr. Johnson.

For two women to love each other all things must be clear and fair—there must be no mystery and nothing hidden. Between a man and a woman it is different. Some barriers should never be broken down, some things left undefined, if a man's love especially is to continue.—Mrs. W. K. Clifford.

THE BURSTING OF BOILERS.

The naval correspondent of the London Morning Post has something interesting to say on the subject of the bursting of the boilers aboard ship, of which so much has been heard. When a steamship sinks it is inevitable that reports should get about that the boilers burst as she went down. There is a roar and a great expulsion of steam from the funnels as the boilers become submerged, and it is assumed that this can only be caused by their bursting. It has, however, been proved over and over again that this effect is merely the result of the water suddenly reaching and putting out the fires; that there is no violent explosion within board, and that the bursting of boilers in such circumstances would be impossible.

Moors are forbidden by their religion to deposit their money in banks; instead, they hide it in the ground.

GREAT DANGER FROM FLIES

CARRY INFECTION FOR LONG DISTANCES.

Intelligent Cleanliness About All Premises Should be Rigorously Enforced.

Notwithstanding all that has been said and written, many people continue to ignore the constant danger from flies as carriers of infection. Everywhere food is exposed to the visits of these distributors of disease. A series of reports on this subject has recently been published in England, in which it is shown that infections may remain active upon flies which have been exposed to them—and their habits thus expose them continually—for from four to ten days. An idea of the distance to which infection may be dispersed by flies is given by recent investigations at Postwick, near Norwich, England, where it was found that marked flies travelled nearly a mile from the notorious refuse heap that served as their breeding ground.

As long as the fly was known merely as an annoying nuisance there was little chance of enlisting concerted effort for its suppression.

Why not put the flies in jail and let ourselves out?

Now that it is convicted of being the bearer of all manner of germs of disease, its extermination has become the most urgent next step toward cleanly living. How to do this is the problem.

THE MAIN FEATURE

in our solution of this problem in the past has been the invention of fly screen, with which to shut ourselves in prison, while we yield to the enemy undisputed possession of the out-of-doors. Then we have devised other disagreeable accessories, like tanglefoot paper and fly spatters with which to kill those that slip into our prisons. To cap the climax of stupidity we have supplied food at our kitchen doors and unlimited breeding places in our stable cellars.

In recent years our success in dealing with mosquitoes by attention to their breeding places has suggested a similar solution of the fly problem. Mosquitoes breed in stagnant water, and it is generally easy to drain, fill, stock with fishes or oil the pools of a neighborhood and relieve it completely of the mosquito nuisance. The fly breeds chiefly in stable manure, but will breed also in almost any decaying filth, animal or vegetable, and only ten days are required for eggs to hatch and mature.

We cannot too strongly advocate intelligent cleanliness, but even if all stable and barnyard accumulations were plowed into the fields weekly, there would still remain, in the cities, the gutters, sewers, dumps and all sorts of accidental accumulations anywhere; and in the country, the miles of roadsides and acres of barnyards and pastures. All this means that the breeding places are an impossible field of attack in case of the filth fly. In fact the plan has been before the country now for several years and we doubt whether a single city, town or even home has tried to follow it consistently for an entire season.

THE FLY NUISANCE

touches every home, and since one household can breed enough flies to cover at least a half a mile square, positively every family must co-operate. This means that we must, first of all, have a plan which shall appeal to everyone as fair and effective, and by its own merits enlist universal support. The public is an enormous mass of common sense, and nothing short of real common sense can move it. A pair of flies beginning in April may be the progenitors of billions by August. The one thing needful is intelligence enough on the part of every member of the community to realize how many flies may breed from a single pair. It has been computed that a pair of flies beginning to breed early in April might, if all lived, be the progenitors of 191,010,000,000,000,000,000, by August. The first nation or community in which this degree of civic intelligence is attended will be free from flies from that time on, and we need to develop this intelligence with reference to a good many other natural enemies.

JEWS IN DANGER FROM MOBS.

Old Accusation of "Blood Sacrifices" Inflaming Ignorant Minds.

A danger now menacing the Jews of Kieff, Russia, is causing much anxiety to their co-religionists throughout the world. They are being accused once more of carrying out "blood sacrifices," and the unreasoning passion of the mob is being worked up against them. And the usual results of race hatred against the Jews in Russia are known to everybody.

A year ago a boy named Andrei Yuschinsky was murdered at Kieff, and on very slender evidence a Jew has been arrested and charged with the murder. The inquiry is now in progress, but whether the accused man is guilty or not is not the point. The crime has been seized on by the mob orators, who assert that the boy Yuschinsky was murdered by Jews in order that his blood might be taken and used for ritual purposes, in obedience to an alleged Jewish religious law. The best-known Russian scholars, authors, and artists have made a vehement protest against the spreading of this dangerous fiction, and now the foremost Jewish people throughout Europe have joined their protests to that of the Russian intellectuals.

The accusation now being made at Kieff is a direct descendant of the mediaeval "ritual murder" charge which has been responsible for anti-Jeiwsh exercises. In the newspapers photographs of the murdered boy are being shown with the legend: "Orthodox Russian people, remember the name of the youth, Andrei Yuschinski, tortured by the Jews! Christians, watch your children!" It is against this dangerous and infamous propoganda that the Jews of Europe are now protesting, and in Germany particularly the movement of indignation and protest has taken large proportions.

"I hear Arthur has bought a motor car." "Yes." "Where has he run with it so far?" "Principally into debt."

During the last ten years the total number of depositors in the British Post Office Savings Bank has increased by over 3,000,000.

Women generally have delicacy, good taste and admiration for things that are graceful and beautiful.

FAMILY OF FREAKS.

Spanish Peasant Has Twelve Fingers on Each Hand.

Spain possesses two families at least which have unique records. One was brought to light when a woman called at Bilbao hospital with her son, who has enormous hands and 12 fingers on each. The most curious part of the case is that all her sons possess similar hands. One has 21 fingers, another 23, and the other five children 24 fingers each. All are living and enjoying good health. Many doctors are studying these cases. At Zarzatano, a town in the same province, a child has just been born, while his father, grandfather, great-grandfather, and his great-great-grandfather are still living. His name is Urriticoechea, and the family are Basque farm laborers. The great-grandfather and great-great-grandfather have acted as godfathers to the latest arrival. The united family constitutes nearly a whole village.

WOMAN JAIL GOVERNOR.

Mme. Jenny Porchet, who has charge of the prison at Aigle, in the Canton of Vaud, Switzerland, is now fifty-two years of age, and thirty-one years ago she married the then prison governor. At his death the authorities advertised for a successor, and among the applicants was his widow, who had managed the prison during her husband's long illness. Another point in her favor was her physique. In height she wants only an inch of six feet, and possesses the muscles of a wrestler. The Prison Commission doubted her fitness, but when she offered to try her strength against the most powerful gendarme, all doubts subsided. The prison is said to be the best managed in Switzerland.

AIRMEN IN FLOCKS.

As many as 120 aeroplanes will take place in the coming 1912 French army manoeuvres, along with the unprecedented number of 140,000 men, or one-fifth of the total army. The aeroplanes comprise twenty sections, or "escadrilles," of eight aeroplanes each. At present the War Department is engaged in laying out the plans for the manoeuvres, in which the aeroplanes will make all the combinations which appear to be useful.

THE SUNDAY SCHOOL STUDY

INTERNATIONAL LESSON, JUNE 2.

Lesson IX. Hypocrisy and sincerity. Matt. 6, 1-18. Golden Text, Matt. 6, 1.

Verse 1. Take heed—The exhortation which follows is a criticism of Pharasaic religion and an insistence upon the necessity of keeping religion free from ostentation. The lesson passage may be divided into three parts, as follows: Verses 1-4, devoted to almsgiving; verses 5-15, to prayer, and verses 16-18, to fasting.

Righteousness—Almsgiving, prayer, and fasting were conspicuous elements in righteousness as understood by the Jews.

To be seen—Or, to be a spectacle to; that is, to make an ostentatious display. The word used here is the Greek word from which the word theatre is derived. Jesus is warning against insincere play-acting in religion.

Reward with your Father who is in heaven—This is granted only to those who are contrite and humble in spirit.

2. Sound not a trumpet—There is a Greek phrase, meaning "to play one's own pipe," which in modern colloquial English has become "to blow one's own horn."

Hypocrites — Literally, play-actors, or pretenders; that is, those who pose and act upon the stage before an admiring audience. In both Matthew and Luke this epithet is frequently applied to the Pharisees.

Have received—That is, "in full." They have therefore no further recognition or reward to expect.

3. Let not thy left hand know—"Hide your charity not only from the gaze of others, but from the too frequent recollection of it in your own consciousness."

5. Stand and pray — Standing was the customary posture for prayer. Wherever a man happened to be when the hour for prayer came, custom required that he assume this posture. The point Jesus makes against the Pharisees is that they so arranged their daily routine of work as to be in some conspicuous place when the hour for prayer arrived, so that all might see their elaborate devotions.

Have received their reward—The recognition or admiration of the populace.

6. Inner chamber—The private place of prayer. This was usually in the upper part of the house, sometimes being a small room built upon the flat roof.

7. Vain repetitions—The Hebrew Talmud contains this promise, "Everyone that multiplies prayer is heard." Jesus teaches that the mere multiplication of the verbal part of prayer is not in keeping with the true spirit of communion with God.

8. Your Father — Some early manuscripts read, God your Father.

9. After this manner—The prayer which follows is intended to be a model of simplicity, directness, and brevity. A slightly variant parallel is found in Luke 11. 2-4.

In heaven—Literally, in the heavens. This was a common introduction to Jewish prayer, intended to express the thought that the place of God's abode was invisible.

Hallowed—Considered ever sacred.

10. Thy kingdom—Compare introductory paragraphs to this and the following lesson.

11. Our daily bread—The sustenance which our physical needs for the day demand.

13. Bring us not into temptation—God does not tempt man to evil (James 1. 13), but he does permit trials to come upon all (Heb. 4. 15). The petition here is for strength to overcome the evil one.

Many early manuscripts, though with considerable variation, add at this point the words, For thine is the kingdom and the power and the glory, forever. Amen.

16. When ye fast—Jesus takes for granted the compliance of his followers with many of the customary religious observances.

Of a sad countenance—Hypocritically so. The Pharisees fasted twice in the week (Luke 18. 12).

Disfigure their faces—Face and head were left unwashed and unkempt, as indicative of the seriousness of the mood in which the fasting was performed. The whole attire of the one thus fasting was in harmony with his facial appearance.

Their reward—In this case the mere notice of their fellows, either with or without commendation, as the case might be.

17. Anoint thy head—As if for a glad festival. By thus radically changing the manner in which fasting was to be performed, Jesus actually does away with the practice in its older Jewish form, since without the outward ostentation fasting lost its historic character of a public observance and religious formality.

18. But of thy Father . . . in secret—Jesus emphasizes the inner personal side of religious life, and makes it clear that personal religion must be a matter of the inner life. In so far as it touches the lives of others and becomes social in its nature it must be chastened and lifted wholly above the plane of self-seeking ostentation by a sense of sacred communion with the Father.

AN IMPORTANT QUESTION.

Canada's Duty Toward the Bahama Islands.

The question of the entry of the Bahama Islands into the Confederation of Canada is once again to the front. There are at present unsatisfactory trade conditions existing in the islands which render it necessary that relief must be secured from some source. There are two alternatives open to the people of the islands, either to throw in their lot with Canada, becoming one of the provinces of the Dominion, or to negotiate with some country a reciprocal trade arrangement. In regard to the latter, there are only two countries with which any arrangement of the kind could be made, the Domonion of Canada and the United States. The Bahama Islands produce goods for which there is a market in both Canada and the United States, while Canada and the United States produce goods which the people of the Bahamas must necessarily import.

The entry of the Bahamas into confederation would remove all trade barriers in the way of customs duties between Canada and the islands, and would, therefore, afford the relief for which the latter are looking. Of course, a reciprocal trade arrangement with Canada would to a large extent serve the same purpose, but there is this difference, that in the case of negotiations of this nature United States influence would naturally intrude itself, for it can be taken for granted that the Americans would not lose the possible advantage of a trade alliance of this kind without a struggle. Concessions might be offered which it would be difficult to resist. Were, however, the Bahamas to become part of Canada, there would not only be freedom of trade between the islands and this country, but the Dominion would also be under obligation to provide means of transportation between its present Atlantic ports and the suggested added territory, something which it is possible the United States might offer as a concession in connection with any trade arrangement with that country.

As the situation stands, and as already pointed out, the islands must secure relief either from Canada or the United States; from Canada either through confederation or by means of a reciprocal trade arrangement, and from the United States through the latter, unless absolute necessity should force the islanders into renunciation of the British connection and the allying of their political as well as their trade interests with those of the United States.

The question, therefore, becomes one of Imperial concern. Canada in this matter could render a great service to the empire by either admitting the Bahamas into confederation, or by entering into such a trade arrangement with the people of the islands as will give them relief from their present unsatisfactory conditions. The entry of the islands into confederation would settle matters once and for all, whereas a trade arrangement might not in the end prove satisfactory, and might result in doing what it is desired should not be done, throw the Bahamas into the arms of the United States. It is hoped, therefore, that the Dominion Government shall give the best possible attention to whatever advances in the direction of confederation may be made by the people of the Bahamas.—Nelson Daily News.

DISASTERS TO SHIPS.

The Greatest Loss of Life Was On the Titanic.

The tale of great disasters to merchant ships is too long to do more than glance at. It includes the Austria, a steam emigrant vessel, burned in 1858 in the Atlantic, and involving a loss of nearly 500 lives; the s.s. Royal Charter, wrecked off the Welsh coast in 1859, with a loss of 446 lives and nearly £800,000 in gold; the s.s. London, lost in the Bay of Biscay in December, 1865, with a loss of 220 persons; the White Star s.s. Atlantic, on her way to Halifax in 1873, with a loss of 560; the Great Queensland, in 1876, on her way to Melbourne, with 569 persons on board, supposed to have caught fire off Cape Finistere, and the Princess Alice, which was run into by another steamer on the Thames in 1878, and went down with between 600 and 700 persons. In none of these, nor in any other instance since, did the loss of life approach to that of the Titanic, the obvious reason being that it is only within a comparatively few years that vessels have numbered their pasengers and crew by the thousand. The Titanic, therefore, has accomplished for herself the sorry record of carrying with her into the depths by far the largest number of human lives sacrificed to any single disaster at sea.

Of the total gold output of the world the British Empire supplies nearly sixty per cent.

Exeter Advocate,

Sanders & Creech, Props.

THURSDAY, MAY 30, .'12

Dashwood

CARD OF THANKS

The family of the late Robert Ireland wish to return thanks for the many kindnesses and sympathy extended them during their father's illness and subsequent death.

Empire Day was quietly celebrated in our village. A number of our young people spent the day in Mitchell, taking in the races.

Mrs. Louis Preeter and children spent the holidays with her husband at Stratford.

Mr. and Mrs. Geo. Koch accompanied by Mr. and Mrs. Henry Kraft spent the 24th with friends in Mitchell.

Mr. and Mrs. J K. Goetz attended the funeral of a relative in Sebringville last week.

Mrs. John Ehlers and daughter spent Monday in Strathroy.

Mr. and Mrs. Henry Guenther and family spent Sunday in Zurich.

Mr. and Mrs. Simon Willert of Parkhill were visitors in the village over Sunday.

Don't forget the big celebration in our village the 3rd of June.

Mr. and Mrs. Wm. Kuntz of Exeter spent Sunday with the former's parents.

Mrs. Robert Hayter spent a few days with her parents Mr. and Mrs. Henry Willert last week.

Mrs. Frank Tankel of Fort Wayne, Ind., is spending her vacation with her parents, Mr. and Mrs. George Schroeder.

Mr. and Mrs. Spugelhurg and Miss Rose Hauter of Berlin visited the latter's parents, Mr. and Mrs. Hauter over the holidays.

Mrs. Burns and children of London and Miss Amelia Witzel of Detroit are visiting a few weeks with their mother Mrs. Witzel.

Mr. Jos. Wambold moved his household effects into the new bank building while Mr. Dearing has taken charge of the former's confectionery. We wish him every success.

A friendly game of baseball was played in our village on Monday night between the Brownies of Crediton and our junior team. The score was 8 to 3, in favor of Dashwood.

In memoriam of Mr. Robert Ireland who died on the 18th of May, 1912—from his loved ones.

Jesus called our father home
From this world of care,
To dwell in that bright Heaven home,
Eternal joy to share.

Some day, some time our eyes shall see
The face we loved so well;
Some day his hand shall clasp in ours
And never bid farewell.

We loved him, yes, we loved him,
But Jesus loved him more,
And He has sweetly called him
To yonder shining shore.

The golden gates were open,
A gentle voice said "Come"
And with farewells unspoken
He calmly entered home.

Too late for last week.

Fred Dearing has purchased Jos. Wambold's confectionery business. The latter will continue his papering and barber business.

On May 18 the death occurred of a pioneer, Mr. Robert Ireland on Stephen the 19th concession, at the great age of 81 years and 4 months. For nearly sixty years he had been a resident of Stephen and was held in the highest esteem by his many friends and neighbors. Two sons and one daughter survive, Sim of Stratford, Aron on the homestead and Mrs. Murray on the 10th con. The funeral to Grand Bend cemetery Tuesday and was largely attended.

GRAND BEND.

The Misses Becker visited their parents at Dashwood Sunday.

MARRIED.—Mr. Ware Oliver was united in marriage to Miss Lottie Statten on May 22nd at the parsonage, Corbett. The bridesmaid was Miss Gladys Patterson, cousin of the groom, while the groom was attended by Bert Statten. After the ceremony was over all repaired to the home of the bride's parents where a dainty supper was served. Only the near relatives of both parties were present. The happy couple have the best wishes of all.

Our mail man was delayed last week on on account of the washouts.— Mr. and Mrs. Ravelle, who were in Toronto have returned home.—The bridge north of Grand Bend gave way Saturday so a temporary bridge has been built until the new one can be put up.—Mr. and Mrs. H. Willert of Dashwood were in our burg Saturday.—The fishermen who had their nets blown to pieces are putting them in again.

Death—The home of Ernie Ireland was visited by death and his father was claimed. The deceased had been in a helpless condition for the last four months. Robert Ireland came to this country when it was a wilderness, settling on the 19th con. of Stephen, where he died. By hard work and enduring many hardships he made himself a comfortable home, besides having gained considerable of this world's goods. He was a member of the Presbyterian church, and in politics was a Conservative. He leaves to mourn his demise two sons and one daughter, Sim of Stratford, Ernie and Mrs. Murray of Stephen, besides two brothers, one in Mitchell. The funeral was largely attended. The remains were laid to rest in Grand Bend cemetery beside those of his wife who predeceased him many years. The bereaved have the sympathy of all.

CENTRALIA.

The holiday was quietly observed in the village the majority going out for the day.

The baseball boys went to Lucan but were beaten badly, the score being 16-7. Of course if they had to do it over again they say it would be much different.

Mr. F. Hicks and nephew, Archie Hicks spent the holiday with relatives at Byron.

Miss Kate Marshall spent the holidays under the parental roof at Blythe.

Mr. and Mrs. S Andrew spent the holiday with relatives at Hensall.

Mr. Will Wood and wife and Miss Minnie of London were the guests of the Misses Wilson over Sunday.

Mr. Frank Aldsworth of Waterloo spent a few days at the home of Mr. and Mrs. John Wilson.

Miss Blatchford returned home from Toronto University on Saturday ev'g.

Miss Clara Fairhall of Lucan spent a couple of days at home here.

Don't forget the Epworth League Ice Cream Social on Friday evening. A good time is expected.

The Baseball game with the Exeter boys on Tuesday evening had to be called off on account of the rain. This is the third time it has rained when they had arranged to play.

Mr. Victor Blatchford of Windsor, holidayed with his parents here.

Rev. Steadman of Elimville occupied the pulpit on Sunday last and preached two excellent sermons.

Crediton

Misses Beatrice and Lulu Hedden visited for several days during the week the guests of Mrs. Wilson Anderson.

The little son of Mr. and Mrs. George Hedden who got his head cut with an axe recently is doing nicely.

Mr. Wm. Bowman has the sympathy of his friends in the death of his mother at Atlee Craig recently.

The marriage took place last week of Mrs. S. Fahner of this place to Mr. Henry Bauer of Zurich, the ceremony being performed by Rev. Burn. About 40 guests were present at the ceremony which took place at Mrs. Fahner's home.

Mr. and Mrs. John Preeter of Zurich autoed over here on Sunday and spent the day with Mr. and Mrs. Sam Brown.

Mr. and Mrs. Chas. Greb and family of Belin spent last Saturday and Sunday in town, the guests of Mr. and Mrs. August Hill.

Mr. Gottfried Gaiser has moved the old building he bought some time ago from Chas. Beaver. The removal has made a decided improvement to the appearance of the street.

During the past week Mr. Mathew Finkbeiner sold his 200 acre farm in Stephen to Mr. Edward Fahner, who in turn sold his 50 acres to Herman Oerstreicher. Mr. Finkbeiner bought the house and lot in town owned by Mr. Fred Halst and will repair it this summer and move to town in the fall.

Harry F. Elber, the cow-tag inspector, has been quite busy of late enforcing the by-law. As a result a number were obliged to pay good prices to get their cattle out of pound.

Miss Ella Link of Zurich spent last Sunday in town with her mother.

Victoria Day passed off quietly. The Royal baseball club of London played our Stars two games of ball. The games were of little interest and the large number of spectators certainly regretted paying their money to witness such a tame spectacle. The morning game of five innings resulted in a score of 9-1 in favor of Crediton, and the afternoon game 11-0 in our favor. Towards the last of the afternoon game the visiting team concluded it was a hopeless task and instead of making an effort to catch and run after the ball, they sat down in the field and waited until some one else had the heart to come and do something. Our boys were in good shape and there were very few errors made. Both King and Teddy pitched good ball and quite a number of good strike-outs came to their credit. We sincerely hope London will furnish us with something better than a bunch of school-boys the next time they write us for a game.

The Township Council held a court of revision in the hall on Monday. Quite a number of dogs were added in the three police villages. In the afternoon $800 were let. Prices are away up. We may look for increased taxes this fall.

Mr. and Mrs. Edward Sweitzer of New Hamburg are visiting the latter's father, Mr. Michael Finkbeiner.

Now since the auto season is in full swing, it is a common thing to see four or five on main street at different periods during the day. Wonder what the horse thinks about it?

On Monday morning about nine o'clock the call of fire was heard and it was soon learned that the butcher's slaughter house was burning. It was soon burnt to the ground and but for the service of the fire engine the new hen stable would have been destroyed. The building was owned by August Hill and not insured. Lawson & Nicholson, the butchers lost their sleighs and other material amounting close to $75. It is understood that while rendering fat, the kettle took fire. It has been the custom to ring the school bell in the event of a fire but it being nine o'clock very few people turned out, thinking it was the call for school. Would it not be a good idea to have a special hammer attached to the bell or else put one up in the fire-all so that there would be no mistake when an alarm is given. The Fire Department is sadly in need of hose. We understand the Trustees are about buying some more at once.

The special rally day services which were held in connection with the Y.P.A. of the Evangelical church Sunday evening, were well attended. Papers were given by Miss Olivia Holtzmann, Miss Snider and Rev Burn. These proved very interesting and instructive and some splendid ideas were given how to make a successful Y.P.A. Miss Ella Link sang a beautiful solo, "Abide with us," and Miss Clara Halst and Miss Adeline Finkbeiner a very appropriate duett. The male chorus favored the audience with a selection which was sung in their usual excellent manner.

We are pleased to see Fred Young occasionally, although he isn't strong enough to come up to his place of business. We trust he will rapidly improve in health as the warm weather proceeds.

Mr. and Mrs. Garnet Baker of London spent last Sunday in town with Dr. and Mrs. Orme.

On Friday evening the Maccabees of this village and a number of other friends met in the home of Mrs. Sheardown to help celebrate her 73rd birthday. A very enjoyable time was spent by all. A splendid lunch was served for the occasion to which all did themselves justice.

Frank Snell is moving his household effects to London where he has secured a good situation.

Sam and Ben Sheardown of Goderich spent the holiday with their mother in town.

Fred Irish of the Commerce staff visited friends in Detroit during the week.

NAVAL NICKNAMES.

Old as the Hills, Used In All Countries and Never Alter.

In the American and English navies, as well as in the merchant marines, are found nicknames that have been in use since before men dreamed that there was land on the other side of the western ocean. Tradition, most inflexible of all rules, governs them, and they never alter, whether the ship clears from the Golden Gate or from London docks. Some of the nicknames are of obvious origin; others seem to gain force by their apparent lack of reason.

For instance, why should all men named Wright be called "Shiner?" Clark is invariably "Nobby," Green is "Jimmy," and a White is a "Knocker." "Spud" Murphy explains itself, as does "Dusty" Miller. "Lofty" and "Shorty" do not need to present cards to their mates when they sign op, and it is not worth while for the brunette sailor to resent it when a friendly chap hails him as "Nigger." He can't whip the entire crew, one after the other.

The rigid forms of the quarterdeck do not hold during the watch below, and the captain is the "Skipper," and the first lieutenant is familiarly "Jimmy the One." On fighting ships the gunnery lieutenant is "Gunnery Jack," or, more briefly, "Guns," the torpedo lieutenant "Torpedo Jack" or "Sparks" and the navigating officer "The Navy."

Even a landlubber would know that "Tommy Pipes" was the boatswain, "Chips" the carpenter, "Jimmy Bungs" the cooper and "Sails" the sailmaker. —New York Tribune.

MUSIC RUSKIN HATED.

Some Wagner Compositions Filled Him With Blind Fury.

It is of course well known that when the great litterateur and philosopher, Ruskin, disliked any one or anything he did not hesitate to say so in the most forcible language the occasion might require. It is doubtful, however, if any denunciation Ruskin ever penned or uttered equaled his outburst over some of Wagner's music, which, according to Mr. E. T. Cook in "The Life of Ruskin," filled him with blind fury. Thus to Mrs. Burne-Jones:

"Of all the bete, clumsy, blundering, boggling, baboon blooded stuff I ever saw on a human stage that thing last night ('The Meistersinger') beat, as far as the story and the acting went, and of all the affected, sapless, soulless, beginningless, endless, topless, bottomless, topsyturviest, tuneless, scrannel piplest, tongs and boniest doggerel of sounds I ever endured the deadliness of, that eternity of nothing was the deadliest, as far as the sound went. * * * As for the 'Lied,' I never made out where it began or where it ended, except by the fellow's coming off the horse block."

What on amazing prodigy, by the way, Ruskin was! He recited the One Hundred and Nineteenth Psalm before he was three, at seven he had written a work entitled "Harry and Lucy Concluded, Printed and Composed by a Little Boy and Also Drawn," at eight he had turned Scott's "Monastery" into 400 lines of verse, and at eleven he wrote 2,000 lines called the "Iteriad," describing a tour in the lakes.—Pearson's Weekly.

STATE OF OHIO CITY OF TOLEDO, } ss
LUCAS COUNTY

Frank J. Cheney makes oath that he is senior partner of the firm of F. J. Cheney & Co., doing business in the City of Toledo, County and State aforesaid, and that said firm will pay the sum of ONE HUNDRED DOLLARS for each and every case of Catarrh that cannot be cured by the use of Hall's Catarrh Cure. FRANK J. CHENEY

Sworn to before me and subscribed in my presence, this 6th day of December, A. D. 1886.

(SEAL) A. W. GLEASON, NOTARY PUBLIC

Hall's Catarrh Cure is taken internally, and acts directly on the blood and mucous surfaces of the system. Send for testimonials free.

F. J. CHENEY & CO., Toledo, O.

Sold by all Druggists, 75c.
Take Hall's Family Pills for constipation.

CLANDEBOYE

Mrs. Yager and her daughter, Miss Tillie, are spending a few days with relatives of this village.—Mr. E. Hodgson and Wilbert Revington left for Edmonton on Tuesday morning where they will transact some important business.—Mrs. M. Love, who has been visiting with her mother Mrs. C. Herbert of this village for the past two months, left for her home in Kenora on Monday. Mrs. E. Rice accompanied Mrs. Love to her home where she will visit for a few weeks.—A large number of this village attended the game of base ball in Lucan on May 24th.—Miss Hattie Hodgins of London spent a few days with Mrs. Forte of this village.— Mrs. Wesley Hodgins of Centralia, spent Friday with her parents of this village. —Mr. Geo. Simpson of this village is busily engaged setting up farm implements. He has a large number of orders to fill before the harvest sets in.

MAGUIRE

Leaving for the Old Sod.—Mr. Alex. Todd, who for many years has been conducting the store and post office here leaves to-day, Thursday, for Scotland, his native land. Mr. Todd has been a good and faithful servant as postmaster here, and being now past 71 years of age he will hardly return to Canada. His many friends here will wish him "bon voyage" and a happy reunion with the friends of his younger days.

McGILLIVRAY

Quite a surprise was sprung on the friends of R. Alvin Amos, os Raymond Alta., formerly of McGillivray, when on Thursday of last week he was quietly married to Miss Mae Brewer, of Parkhill, Ont. The ceremony was performed at the home of his brother, Dr J. Elmer Amos, of Raymond, by Rev. T. P. Perry of the Wesley Methodist Church, Lethbridge. The contracting parties were unattended and with the exception of the resident minister in Raymond, no friends were invited.

PILES CURED at HOME
by New Absorption Method.

If you suffer from bleeding, itching, blind or protruding Piles, send me your address, and I will tell you how to cure yourself at home by the absorption treatment; and will also send some of this home treatment free for trial, with references from your own locality if requested. Immediate relief and permanent cure assured. Send no money, but tell others of this offer. Write to-day to Mrs. M. Summers, Box 840 Windsor, Ont.

Fresh Groceries

We are now well established in business and we believe on the best of authority (namely that of a daily increasing business) that we are meeting a long felt want, and giving the best of satisfaction.

Remember our motto,—"Fresh Groceries all the time."

All kinds of produce taken in exchange.

JAS. GOULD

It Is Up To You

To protect your family from the ravages of disease and infection; and the rigors of winter; to make your home the abode of Health and Happiness.

Statistics tell us that there were over 250,000 deaths in North America last year from fever and Pneumonia; Over 90 per cent. of these cases were traceable to out-door closets, and all were the result of insanitary conditions.

Are you going to allow this terrible death rate to continue.

Why not insure Health by installing a "PARKYTE" SANITARY CHEMICAL CLOSET.

Absolutely Sanitary and Odorless carries the endorsement of Physicians and Health Officials, and our own Iron-clad guarantee, Requires no expensive water-system; no plumbing; no sewage can be installed in any part of your home at the cost of a few minutes of your spare time; lasts a life time and cost less than a CENT a day.

"PARKYTE" Chemical has been proven by Bacteriological test to be the most powerful Disinfectant, Deodorant and Germicide, known to Science.

The "PARKYTE" SANITARY CHEMICAL CLOSET is sold by

W. J. Heaman, Exeter, Ont.

A call there will convince you. No further argument will be necessary.

KIRKTON

Granton baseball club visited Kirkton Wednesday evening and met a Waterloo score, 6-0.—Rev. Snell and Mr. Alf Paul were in Toronto last week.

Secretary Amos, Doupe of the Agricultural Society has received the following entries for the standing wheat competition, and has forwarded the same to the Government. It is a good list and reads as follows.—Dawson's Golden Chaff—John Morphet, Wilbur Sparling, Thos. Harding, Percy Sparling, John Kennedy, Robt. Hazlewood, Geo. Hazlewood, David Kemp, Clarkson Switzer Wesley Shier, Abundance,—M. Brethour, Hugh Berry, Nelson Watson, Hiram Copeland, Wm. Hanna, John Hanna, Chas. Camm, Perry Doupe, Jas. Brown, Jas. Moore, Bonnell—James McCurdy. American Amber—John Hooper & Son. American Wonder—Frank Gunning American Banner—Wesley Spearin.

SAINTSBURY

The concert and tea, given in the Race Memorial Hall on May 24 was a decided success. The hall was crowded to the doors, while some were unable to gain admission. There were people from all parts—Hamilton, Wheatley, Deleware and elsewhere. The entertainment was highly creditable, the lime-light views given by Rev. J. E. J. Millyard being highly appreciated. Mr. John Essery ably filled the chair and everybody went away well pleased. Saintsbury is noted for their good suppers and entertainments. The proceeds amounted to $130.—Miss Alice Davis, who has been visiting around Deleware for some time, has returned to her home here, accompanied by her sister, Mrs. Edward Hotham.—Mr. John Hotham is spending a few days with friends around here.—Mrs. J. R. Armitage of Hamilton is visiting friends in this locality.—Mr. and Mrs. Jos. Atkinson of Wheatley autoed here on May 24th and is spending a few days with friends here.—Mr. and Mrs. Garfield Needham of Bryanston spent a couple with friends around here during the week.—Fred. Davis is laid up with a sore hand.—Lucan foot ball boys played a game with our team on May 24, but no score was made on either side.

KIPPEN—Mrs. Andrew Ball, Sr., of the London Road, Kippen, announces the engagement of her youngest daughter Mary Alice Cameron, to Rev. John Richardson, B.A., pastor of St. Andrew's Presbyterian church, Kippen; the marriage to take place the latter part of June.

HENSALL—The friends of Miss Grace Thompson, daughter of Alexx Thompson who, with his family, left here to reside in Toronto over a year ago, will regret to learn that she is seriously ill in that city with diphtheria. She had just completed her second-year examinations at Toronto University taking honors.

KIPPEN—Mr. Gordon Gauld, who has been in Toronto for the past year visited a few days with relatives and friends in the village, who were pleased to see him. Mr. Gauld leaves shortly for Saskatchewan, where he intends to work in the mission field during the summer months.

ST. MARYS—Mr. and Mrs. George E. Whiten, Vernon, B. C., announce the engagement of their youngest daughter, Eleanore Rose, to Mr. William Edmund Andrews, of St. Mary's, Ont. The marriage will take place the latter part of June.

Mrs. George Kaupp

STATES THAT PARISIAN SAGE IS BEST HAIR TONIC

"I had a bad case of dandruff. My scalp was full of dandruff and it came out thick and scalpy. My hair came out badly; often I nearly cried on account of losing my pretty head of hair. I heard of PARISIAN SAGE and only had to use two bottles, before the hair stopped coming out, the scalp became clean, and all the dandruff disappeared. The hair became silky and one big reason that I liked PARISIAN SAGE was that it kept the hair smooth, silky, and clean, with no traces of stickiness.

I believe this tonic to be the best on the market as there has been no return of dandruff, or hair falling out whatever. I am glad to publicly endorse the use of PARISIAN SAGE. I have often endorsed its use and am glad to do it." 88 E. Bond St., Corry Pa.

PARISIAN SAGE, the delightful hair dressing and beautifier sold by W. S. COLE and druggists everywhere. Guaranteed for falling hair, dandruff and scalp itch. Large bottle 50 cents.

MEETING OF HURON COUNTY COUNCIL

The council of the Corporation of the County of Huron will meet in the council chamber, in the town of Goderich, on Tuesday, the 4th day of June next, at 3 o'clock.

All accounts for settlement must be placed with the Clerk before this date.
Dated May 20th, 1912.

Edgar Edighoffer of Bad Axe, Mich., is visiting relatives here.—Mrs. Smith of Rodney is visiting her daughter, Mrs. C. Hartleb. Mrs. Hill of Spokane is also here.—Miss Rosalta Kaecher of the 14th con. returned home from Bad Axe, Mich., after an extended stay.—Mr. H'y Bauer, Sr., of town and Mrs. Sophia Fahner of near Crediton, were united in marriage last week. Mr. Bauer has disposed of his dwelling here and has moved to Crediton.—Mr. Jas. Allan, brother of Mr. Robt. Allan of the Town Line, died last week in his 77th year. For over 50 years the deceased had been an invalid, owing to a paralytic stroke received in his young days, and made his home with his brother. The funeral took place to Bayfield cemetery

BRUCEFIELD—On Monday of last week the spirit of Mrs. Reinke of Seaforth, departed from the home of Mrs. Rose. She came about three weeks ago on a visit, and became so ill that she was unable to return home. Her husband and members of her family were with her at the last. She resided for many years on a farm near Egmondville, where she was well and favorably known.

BRUCEFIELD—The death occurred on May 19 of Mr. Ezra Hohner, who had been sick for upwards of a year with pernicious anaemia. Deceased, who was in his 32nd year, enjoyed good health until a year ago, when he had to give up his position on the railway section. Besides his young widow and son he is survived by an aged mother near Blake and several brothers and sisters.

SUNSHINE FURNACE

Best call and find out the reasons why we so promptly back McClary's guarantee with our own. Let us explain to you why the "Sunshine" is called

"The Understudy of the Sun."

McClary's

310

Are You Blue and Worried?

Nervous? Some of the time really ill? Catch cold easily and frequently suffer from biliousness or headache? The reason is that your system does not rid itself of the poisons in the blood; just as impossible as it is for the grate of a stove to rid itself of clinkers. The waste does to us exactly what the clinkers do to the stove; make the fires burn low until enough clinkers have accumulated and then prevent its burning at all. Your liver is sluggish—you are dull and heavy—sleep does not rest, nor is food appetizing. In this condition illness develops. Doctor Pierce's Golden Medical Discovery eradicates the poisons from the body—a glyceric alterative extract made from bloodroot, golden seal and mandrake root, stone and queen's root, without the use of alcohol. No matter how strong the constitution the stomach is apt to be "out of kilter" at times; in consequence the blood is disordered, for the stomach is the laboratory for the constant manufacture of blood.

MRS. BLAKE.

MRS. BERTA BLAKE, of Port Dover, Ont., Box 58, writes: "I have been a great sufferer for years from throat trouble, catarrh, indigestion, female troubles, bloating, constipation and nervousness—at times I would be in bed, then able to be up again. Was under many different doctors' care, and would get better for a little while, then I would go down with chronic inflammation all through me. For nineteen years I had this poison in my blood. After trying nearly everything I got worse. I read in The People's Common Sense Medical Adviser of Dr. Pierce's Golden Medical Discovery and Dr. Sage's Catarrh Remedy. I have taken the 'Golden Medical Discovery' and 'Pleasant Pellets,' and have used five bottles of Dr. Sage's Catarrh Remedy. I am now able to do my work and walk with pleasure. I feel like a new woman. I enjoy everything around me and thank God for letting me live long enough to find something that made me well again."

Dr. Pierce's Pleasant Pellets regulate liver and bowels.

MEN - YOU NEED NERVE

Wonderful Nervous System

EARLY INDISCRETIONS AND EXCESSES HAVE UNDERMINED YOUR SYSTEM

The nerves control all actions of the body so that anything that debilitates them will weaken all organs of the system. Early Indiscretions and Excesses have ruined thousands of promising young men. Unnatural Drains sap their vigor and vitality and they never develop to a proper condition of manhood. They remain weaklings, mentally, physically and sexually. How you feel? Are you nervous and weak, despondent and gloomy, specks before the eyes with dark circles under them, weak back, kidneys irritable, palpitation of the heart, bashful, debilitating dreams, sediment in urine, pimples on the face, eyes sunken, hollow cheeks, careworn expression, poor memory, lifeless, distrustful, lack energy and strength, tired mornings, restless nights, changeable moods, premature decay, bone pains, hair loose, etc.

This is the condition our New Method Treatment is GUARANTEED TO CURE.

We have treated Diseases of Men for almost a lifetime and do not have to experiment. Consult us FREE OF CHARGE and we will tell you whether you are curable or not.

We guarantee curable cases of
NERVOUS DEBILITY, VARICOSE VEINS, BLOOD AND SKIN DISEASES, GLEET, BLADDER URINARY AND KIDNEY COMPLAINTS

T. G. Creech

HENSALL

Dr. Sam Coulter has gone to Toledo, Ohio, for hospital work.—Rev. Harburn of Toronto has been visiting his brother William.—Mrs. Cawthorpe of Tavistock is the guest of her mother Mrs. Dick.—Mrs. John McFarlane has moved into the residence she recently purchased from Mrs. Smillie, on the London Road.—J. Lorne Scott has rented and moved into the fine residence belonging to the estate of the late John McFarlane, on Queen street.—Miss Dora Sherritt has returned to Victoria Hospital, London, to resume training as a nurse, after spending holidays at her home here.—Dr. Sellery received the sad news that his cousin, Russel Temple had died at Duluth. The remains passed through here on the way to Kincardine where the interment took place, Dr. Sellery wife and children attended the funeral.

McGILLIVRAY

The death occurred on May 14th of T. Wilson a well known resident of McGillivray township at the age of 70 years and 9 months. Mr. Wilson has been ill for a longtime. He was born in Quebec province and when only four years old his parents removed to McGillivray and settled on the 4th con. He married Miss Mary Tweddle in 1875 by whom he is survived. He is survived by four children, one son William at home, and three daughters, Margaret at home, Mrs. Wm. Lewis, 12th con., McGillivray, and Mrs. T. H. Wainwright of Alma Craig. He is survived by three brothers.

O-Pee-Chee Chewing Gum

The flavor lingers long—it's a smooth, succulent, lasting gum—made to taste delicious. No need to overlook your taste, no need to repress or destroy it—since you can buy the smoothest and the best gum made at the same price, and flavored to suit you.

You can have any fruit essence you desire. A better 'Spearmint' at the same price—or the best Pepsin, by asking for O-Pee-Chee.

O-Pee-Chee is sold by all dealers who sell the best gum.

O-Pee-Chee Gum Co.
London Limited - Canada 7

CANADIAN CROP ACREAGE

Heavy Percentage of Winter-Killed Wheat ---Large Decrease in Yield.

A despatch from Ottawa says: A bulletin of the Census and Statistical Office makes the following report on the crops and live stock of Canada. The area sown to winter wheat last fall was reported as 1,097,900 acres, of which 707,200 acres were in Ontario, and 300,700 acres in Alberta. From reports of correspondents at the end of April, it is estimated that about 31.50 per cent. of this area has been winter killed, the proportion being 28.72 per cent. in Ontario, and 38.50 per cent. in Alberta. This represents a total deduction from the area sown of about 345,000 acres (229,000 acres in Ontario and 116,000 acres in Alberta). The average condition of winter wheat on April 30 was 72.62 of a standard (71.24 per cent. in Ontario and 76.80 per cent. in Alberta). From these figures it is calculated that the yield per acre from winter wheat in 1912 is likely to be about 20 bushels per acre, or 13 per cent. less than the average yield of the three years, 1909-11, viz., 23.33 bushels per acre, provided that average conditions prevail between now and harvest.

In the Maritime Provinces spring seeding on April 30 had only begun here and there, most of the ground being still under snow. Very little progress had been made by the same date in Quebec, the amount of seeding done representing not more than about 3 or 4 per cent. In Ontario about 15 per cent. of the total seeding was completed, but this applies chiefly to the western and southern parts of the Province. In the North-West Provinces the wet condition of the ground, coupled with cold weather and the small amount of fall plowing completed last year, has caused seeding operations to be somewhat backward.

In Manitoba 50.13, in Saskatchewan 71.54, and in Alberta 61.26 per cent. of the seeding of spring wheat was completed by the end of April, and of total seeding done the percentage proportions were Manitoba 36.63, Saskatchewan 49.30, and Alberta 51.50.

Nearly 14 per cent. of the hay and clover meadows have been winter killed, and their average condition is represented by 74.63 for all Canada, the figures for Quebec taking 50, for Ontario 80.46, for Manitoba 88.48, for Saskatchewan 87.82, for Alberta 95.60, and for British Columbia 97.72.

The report on the condition of live stock shows a high average for the Dominion, being over 90 per cent. of a standard. West of Ontario the figures exceed 90 for all descriptions of live stock. In Ontario, for milch cows and other cattle, in Quebec, for horses and milch cows, and in Prince Edward Island, for milch cows and other cattle, the percentage figures of condition fall below 90, the range being from 83 to 88.

PRICES OF FARM PRODUCTS

REPORTS FROM THE LEADING TRADE CENTRES OF AMERICA.

Prices of Cattle, Grain, Cheese and Other Produce at Home and Abroad.

BREADSTUFFS.

Toronto, May 28.—Flour—Winter wheat, 90 per cent. patents, $4.05 to $4.10 at seaboard, and $4.15 to $4.20 for home consumption. Manitoba flours—First patents, $5.70; second patents $5.20, and strong bakers', $5, on track, Toronto.

A license reduction campaign will be started in London, Ont.

KING CHRISTIAN X. OF DENMARK,

who is 42 years old. He has two sons.

QUEEN ALEXANDRINE OF DENMARK,

who is a sister of the German Crown Prince.

CHINESE PREMIER SHOT.

Crank Empties Revolver While Official is Dining.

A despatch from Pekin says: While President Yuan Shi Kai was dining with members of the Cabinet, Governors of provinces and leading Chinese officials, on Friday, Chung Ping Lin, a disgruntled office seeker, bribed the attaches and entered the hall flourishing a revolver. He fired several shots point blank at Tang Shao Yi, the Premier, whom he blamed for his failure to get the political promotion he had sought. His aim was bad and all the shots went wild. After his ammunition was exhausted Chang was overpowered by the attendants and taken to jail.

DEVELOPMENT OF FEMINISM.

700-Acre Farm Financed and Worked by Women.

A despatch from London says: A seven hundred acre farm in Sussex on the Surrey border, controlled, financed and worked exclusively by women, is the latest development of feminism. Sympathizers with the scheme have subscribed $50,000. The farm is to have cattle, sheep, pigs and poultry and many institutions run by women have promised to patronize it with orders for milk and dairy products.

MAKING SAFE INVESTMENTS

THE DANGERS OF "LONG DISTANCE SPECULATION" TOO OFTEN OVERLOOKED.

Recent Sudden Rise in Canadian Markets a Trap for the Unwary—Profits on Long Held Speculations Eaten Up by Interest.

The articles contributed by "Investor" are for the sole purpose of guiding prospective investors, and, if possible, of saving them from losing money through placing it in "wild-cat" enterprises. The impartial and reliable character of the information may be relied upon. The writer of these articles and the publisher of this paper have no interests to serve in connection with this matter other than those of the reader.

(By "Investor.")

Those who have watched the steady rise in the Canadian stock markets during the past three months have doubtless felt elated if they owned some advancing stock or disappointed if they were interested merely as spectators. Let these latter console themselves with the homely axiom that "Everything which goes up must come down." This phrase is true of the stock market as of everything else. Everything which goes up without a sure foundation and strong superstructure cannot remain above the general level for long. Last week the movements of several industrial stocks were noted. Now many of these have advanced without a semblance of foundation or superstructure. They have been carried up in the whirlwind of general prosperity and market activity, which at present is whirling throughout Canada. A halt, and they drop back to where they should be.

But how about those who eschew the excitement of the stock market and buy the tame and steady, but eminently respectable, bonds? As bonds don't go up much at best they have but a little distance to fall at worst. So long as the security is behind a bond, and reasonable care and discretion, will keep an investor clear of misfortunes. Like Black Lake Asbestos, the bondholder need have no uneasiness over the future of his principal or the regular payment of his interest. In this column, since its inception, stress has been laid on the advantage of investing in sound bonds over semi-speculative purchasing of stocks. To deal in stocks with any hope of success one must of necessity be on the spot. The folly of "long distance" speculation is obvious when one sits quietly to contemplate it, but all too many people outside of the market centres believe that by means of the market news in the daily press and occasional communication from their broker they can successfully purchase speculative stocks.

Take a feverish market like that at present. On the day this is being written one could have bought Sao Paulo at ten o'clock and by noon have sold it at a ten point profit. Yet by twelve-fifteen the stock was back six points. Anyone not in close touch with the market who sent in an order this morning might have lost several points within a few minutes of the time his order was filled. The way of the bond may be slow, but one can sleep easily and not open his daily paper with trepidition for fear of a break in his investment that will more than wipe out his year's income.

And so it goes. The speculator in real estate hasn't the excitement of the stock gambler, but his losses may be no less severe and far reaching. Many readers can remember the time when the dull times of 1889-1892 commenced. The owner of real estate found things change with surprising suddenness. From having people offering absurdly high prices for his land he found—if he wanted to sell—that he had to offer it to the buyers. The bids he would get were usually below his price, and worse than all, these offers became lower and lower until finally he found it practically impossible to sell without severe loss. Many men who bought speculative real estate during that boom have only recently found an opportunity to get out without loss, when the twenty-five years' interest on their money is added. For it is a point too many people overlook that the longer they hold an unproductive property the less their chance of making a real profit; for their money even in a savings bank at 3 per cent., compound interest, doubles itself about every eighteen years. The result is that a man who purchases western land now and has to wait five years for his profit, must sell for at least one and a half times its value to make fifteen per cent. on his money if we deduct interest at 5 per cent. on the sum involved.

The man with bonds or sound investment stocks on the other hand has something which is returning him an assured income, which he can readily sell and which—far more important in some instances—does not take time from his ordinary business to watch.

INVESTING MONEY.

Among the securities which are attracting attention these days none is regarded more highly by the careful investor than the six per cent. first mortgage bonds of The Spanish River Pulp & Paper Mills, Limited.

Exclusive of the value of the concession, which gives the Company the right to cut pulp wood on an area of 6,000 square miles, the assets of the Company including the Pulp and Paper Mills at Espanola, Ontario, are estimated at six times the bond issue.

During its first year of operation, the Company showed profits of $309,263.19 from wood and pulp mill operations alone. The bond interest and other charges were $106,627.54, leaving net profits of $202,635.65 for the year.

It is believed that the earnings with the paper mill now in operation should be well over $400,000 for the ensuing year. As the Bonds are a first mortgage on all the Company's property, it is plain to see why they are in such demand. At the present price of 98 1-2 they yield 6 1-8 per cent. per annum. Interest is payable the 1st of July and the 1st of January. The bonds are in $500 denominations, and with the high interest yield, combined with absolute safety of principal, make an ideal investment.

The Dominion Bond Company, Limited, Toronto, will furnish complete information on request.

CANADIAN FRUIT WINS.

Gold Medals Were Awarded Canada and Australia.

A despatch from London says: At the International Flower Show on Thursday Canada and Australia were awarded blue ribbons in the form of large gold medals for the best collection of fruit. The King expressed great satisfaction at the admirable arrangements of the exhibits.

TITANIC WAS WARNED.

British Investigators Believe Vessel Hit the Identical Berg.

A despatch from London says: That the iceberg with which the Titanic collided was one of those of which she had warnings from other ships is the conclusion reached by the Board of Trade court of inquiry, after a careful examination of the wireless telegrams passed to and from the steamer on the day of the disaster.

TORONTO CORRESPONDENCE

INTERESTING GOSSIP FROM THE QUEEN CITY.

Good Story From Ottawa—Princess Patricia—Royal Family's Visit—Honors for Sir William Mackenzie.

(We have arranged for a regular Weekly Letter about Toronto and Ontario affairs. These letters have proved of the utmost interest to our readers. They are from the pen of one of Canada's foremost journalists, a man who has reported some of the world's greatest happenings, and now occupies a leading position on one of the Ontario dailies.)

Toronto is disposed to smile at the pretensions of Ottawa society. Consequently it has enjoyed the story, which has been circulating for some months, to the effect that the Duke of Connaught was obliged to desist from his visits to the Ottawa Golf Club because the citizens of Ottawa, members of the club, were so anxious to do the right thing that they always rose to their feet every time his Royal Highness entered a room. His Royal Highness' wish in visiting the club had been merely to enjoy himself and mix on terms of equality with the other members. But when he found this was impossible he had to abandon this particular form of recreation.

But, perhaps, some Toronto people have been putting their foot in it, too, during the two weeks' visit of their Royal Highness, though not always through an excess of formality. It is related that at one of the balls one of the guests was hurrying to get into the ball-room, and finding a broad back blocking the doorway, tapped the owner of the said broad back on the shoulder and asked him to kindly stand aside. The fussy guest was horror-stricken to find that it was the Duke of Connaught he had thus addressed. The orchestra made a break, too, when they played "Oh, You Beautiful Doll" on the approach of the Princess Patricia. Not that the Princess is not an unusually beautiful young lady, but the compliment, if intended as such, was somewhat familiarly expressed.

THE PRINCESS' BEAUTY.

This question of the Princess' beauty has been a favorite topic of discussion since Torontonians have had an opportunity of looking at her face to face. On the whole it may be said she has come up to the advance notices, if one may so speak of a Princess, though most observers, human-like, have admired her with the mental reservation that one or more of their acquaintances excelled in good looks even the Royal beauty. Hers is the typical English type of beauty, mild and sweet and lacking in animation. Her features are finely moulded and regular with the exception of the cheek bones, which are noticeably high.

Despite her good looks, however, press photographers testify that the Princess is what is known in that profession as "camera-shy." In other words, she takes pains to dodge or duck her head every time she sees a camera. At some of the outdoor functions she attended there were all sorts of "snap-shotters." But very few of them got a really good picture of her Royal Highness, who without appearing to be conscious of the presence of the camera-men, proved to be an adept at keeping her face out of range.

ENTERED LIFE OF THE TOWN.

This visit of the Royal Family has been in many respects a much quieter event to Toronto than the one last autumn. The first visit was a State affair, and all the functions were, accordingly, formal. This time there has been much more informality, with just enough of the trappings of State, such as the scarlet uniformed outriders, which often heralded the approach of the Royal visitors, and never failed to bring throngs of spectators, to tickle the fancy of the multitude. Their Royal Highnesses made an earnest effort to enter into the real social life of the town. To this end they went about freely, accepted many invitations and they themselves entertained a great deal. Nearly every day a score or two representative citizens, judges, lawyers, clergymen, physicians, newspaper editors and captains of industry were invited to luncheon or dinner, as other engagements permitted. In this way they came in contact with a great many people in a more or less intimate manner, and doubtless learned a great deal of the various opinions and points of view of Canadians. Torontonians, on their part, were delighted with the frank and unaffected manners of the Royal hosts and their staff. There was an entire absence of "side" and apparently a genuine pleasure in making new acquaintances.

HONORS FOR SIR WILLIAM.

Sir William Mackenzie, who placed his residence, "Benvenuto," overlooking the city from the heights at the north, at the disposal of his Royal Highness, promises to be shortly one of the richest men in the world, if his many railway and other schemes develop as expected. It is rumored, too, that there are high Imperial honors in store for him, that his present knighthood will soon be supplanted by more important titles, but to this there can, of course, be no present confirmation.

There is a story that Sir William secured the palatial Benvenuto from its former owner for a consideration of 1,000 shares of Toronto Street Railway stock. According to report, this stock cost the President of the company about $10 a share, so that for the equivalent of $10,000 he got a property that is now worth probably $150,000 or $200,000. This is but an example of the Mackenzie luck—or foresight.

Many people suppose that Sir William was the Duke of Connaught's host at Benvenuto during the Royal visit. This is hardly correct. The residence was simply turned over to His Royal Highness, who brought his own servants, some twenty in number, while Sir William and his family found quarters elsewhere.

GALA DAY FOR THE CHILDREN.

Empire day has come to be a great event for the school children of the city. On that day they marched, many thousand strong, to Queen's Park, there to lay their garlands of flowers on the monuments of statesmen and heroes which adorn the approaches to the Parliament buildings. The ceremony is a conception of School Inspector James L. Hughes, who generally arranges that some outstanding notable shall be present to lend dignity and interest to the proceedings. This year he was particularly fortunate in the presence of the Duke of Connaught, and the feature of the afternoon was when his Royal Highness reviewed the scene from a position at the base of the monument to his mother, the late Queen Victoria, which unfortunately is one of the least impressive of the Queen's Park memorials.

A MILLION FOR TORONTO.

It is quite the fashion now to talk about the day when Toronto will have a million population. And the promise of an early fulfilment of the prediction has just been given color by the report prepared by a board of expert engineers, who were asked to prepare plans for a water supply for the future Toronto. In their report they speak confidently of a million population in the near future, and have drawn plans accordingly. But they are collecting from Toronto a fee of $25,000 for their brief work, and perhaps felt the need of a little flattery to help their bill along. However, there are some optimists who talk of two million people within thirty years.

SALE OF HUDSON BAY LAND.

A despatch from Edmonton, Alta., says: Property to the total value of $2,560,650 had been sold in the portion of the Hudson Bay reserve recently thrown on the market up to 3 o'clock Wednesday afternoon. In Edmonton alone the value of the lots sold is $1,860,500, a total of 486 lots having been disposed of to date.

MAGIC BAKING POWDER

INSURES PERFECT BAKING RESULTS

CONTAINS NO ALUM

MADE IN CANADA

E.W. GILLETT COMPANY LIMITED TORONTO, ONT.

FIVE CAPITAL CASES.

Largest Number in Any Month for Some Years.

A despatch from Ottawa says: Five capital cases are under consideration at present by the Minister of Justice, which is the largest number of any month of the past two years. The executions are scheduled to take place between June 1 and June 27. All the cases are in the West. One execution to take place on June 1 has been postponed pending the consideration of Hon. C. J. Doherty, who has not had time to weigh the facts.

NEW PRESIDENT OF G.T.R.

E. J. Chamberlin Succeeds the Late C. M. Hays.

A despatch from London says: It was officially announced here on Friday that Edson Joseph Chamberlin, vice-president and general manager of the Grand Trunk Pacific Railway, has been appointed president of the Grand Trunk Railway, of Canada, to succeed Chas. M. Hays, who died in the Titanic disaster. Mr. Chamberlin has also been elected a member of the Grand Trunk board of directors, vice Mr. Hays.

PRICELESS ORCHIDS.

A despatch from London says: The greatest display of the world's floriculture ever known was opened by the King and Queen at the grounds of Chelsea Hospital on Wednesday. The show is in a tent covering four acres. It is filled with priceless blooms from many climes, among which is one group of orchids alone valued at a million dollars.

An Absolutely Safe 6% Investment

The First Mortgage Bonds of Price Bros. & Company 6 per cent. on the investment—secured by first mortgage on one of the finest paper mills and over four million acres of the best pulp and timber land in America—insured with Lloyds, of London, England, against fire—offer a most attractive investment. The present net earnings of the Company are sufficient to pay the bond interest twice over. The growing demand for pulpwood is yearly increasing the value of the Company's properties. These bonds have been purchased by the best informed financiers in both Canada and England. At their present price they yield 6 per cent interest. Considering security, earnings, assets, and the likelihood of appreciation in value, Price Bros. & Company bonds constitute an exceptional investment.

Write for full description of these bonds.

The New Perfection Toaster

Anyone, even a little girl, can make toast on the New Perfection Oil Cook-stove

She will not burn the toast, and she will not burn her fingers either, if she uses the New Perfection Toaster.

For toast or roast
For boil or broil
For fry or bake

there is no other stove that is as quick and as handy as the New Perfection Oil Cook-stove—the convenient stove for all purposes, all the year round.

Every dealer has it. Handsomely finished in nickel, with cabinet top, drop shelves, towel racks, etc. Long chimneys, enameled turquoise-blue. Made with 1, 2 and 3 burners. Free Cook-Book with every stove. Cook-Book also given to anyone sending 5 cents to cover mailing cost.

THE IMPERIAL OIL COMPANY, Limited

Winnipeg, Montreal, St. John, Halifax and Queen City Division, Toronto

TWO YEARS SUFFERING

Brought on by a Severe Strain—How a Cure Was Found.

Mr. Joseph Stephens, Rosemount, Ont., is one of the great host who continually sound the praises of Dr. Williams' Pink Pills, and he has much reason to do so as they brought him from suffering to health, after he had spent much money and two years of time experimenting with other treatments. Mr. Stephens tells his experience as follows: "In the month of January, 1908, while working in a logging camp at Creston, B.C., I got my back injured. I suffered a great deal of pain and was almost helpless. I tried plasters, thinking they would help me, but they were of no use. I took several medicines, equally without benefit. Then I was advised to try electrical treatment and did so for a time, but without getting any permanent relief, and it began to look as though I was going to be permanently crippled. Then I was advised to undergo treatment with a specialist at Spokane, Wash. After examining me he said I was in a very bad shape and that the trouble was likely to result in Bright's disease. However, he told me that he felt sure he could cure me. At a heavy expense I was under his treatment for three months, but did not get the least benefit. I was almost in despair; work was plentiful and wages good, but I could not work, as I was quite unable to bend. I was in this condition for about two years, when my brother, who was with me all the time, came across one of Dr. Williams' pamphlets and read of the great work Dr. Williams' Pink Pills were doing. He urged me to try them, but I thought it would be useless to spend more money after all the other treatment had failed. He insisted, however, and got a dozen boxes of the Pills and I began to take them. Before I had used half a dozen boxes I felt relief, and I continued taking the Pills until every vestige of the pain was gone, and I could raise my hands above my head and then bend until I could touch my toes with my fingers, something I had not been able to do for over two years. My cure was a great surprise to my comrades, and you may be sure I told them what brought it about. I am now as well and strong as any man in the country and I owe it all to Dr. Williams' Pink Pills."

Sold by all medicine dealers or by mail at 50 cents a box or six boxes for $2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

It's difficult for a man to practice economy and be popular at the same time.

Landlord—You owe me now for four months' rent, and the first three months you paid so promptly. Tenant—Yes, I know; I shouldn't have done it.

"So you want me to raise your salary?" said the stern employer. "Can you give me but two good reasons even why I should do so?" "Yes, sir," answered the meek employee sadly. "Twins!"

"How did you get that fine spring overcoat?" "I had a sure tip on a horse race." "I never knew one of those sure tips to pan out." "Neither did I, so I didn't play it. Put the money into an overcoat instead."

COMPLETE Treatment

Warm Baths with Cuticura Soap and Gentle Applications of Cuticura Ointment

For All Kinds of ECZEMA

Although Cuticura Soap and Ointment are sold by druggists and dealers everywhere, a liberal sample of each, with 32-page booklet on the care and treatment of the skin, will be sent post-free, on application to "Cuticura," Dept. 6M, Boston, U.S.A.

A GENEROUS PRINCE.

The big Empire fancy dress ball supper which was arranged to take place at the Savoy Hotel, London, on the 23rd of May, in aid of the Middlesex Hospital, was under the immediate patronage of Prince Alexander of Teck.

Prince Alexander is the third son of the late Duke of Teck, and has taken up the philanthropic work with which his lamented brother was so closely associated. He is deeply interested in the welfare of the Middlesex Hospital, and is ever ready to assist in charitable undertakings.

Prince Alexander served in the 7th Hussars, and saw war service

Prince Alexander of Teck.

in Matabeleland and South Africa. On both occasions he was mentioned in despatches and was rewarded with the D.S.O. for gallantry displayed during the South African campaign. In 1904 he married the Princess of Albany, and the royal couple reside at Henry III. Tower, Windsor Castle.

Though only thirty-eight, Prince Alexander has crowded a deal into his life. He is a captain of the Royal Horse Guards, and a Knight of Justice of St. John of Jerusalem, and his amiable disposition has made him a great favorite.

WOULD NOT BE WITHOUT BABY'S OWN TABLETS

Once a mother has used Baby's Own Tablets she would not be without them. They are the only medicine for little ones guaranteed by a Government analyst to be free from those opiates and other harmful drugs found in so-called "soothing" mixtures. Concerning them Mrs. J. C. Wood, Underwood, Ont., says: "I have used Baby's Own Tablets for the last four years and would not be without them, as I have found them beneficial every time I have given them to my little ones." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

WORLD'S BIGGEST STONES.

Syrian Temple Has One Seventy Feet Long.

Probably the largest stones ever used in any building are seen in the western wall of the great temple of Baalbek, in Syria, and the problem is still unsolved as to the methods used in conveying them from the quarries and of placing them in position. The quarries from which these blocks were undoubtedly cut can be seen about half a mile to the south-west of the temple. The three stones lie horizontally, and form part of the outer wall of the building. They are not on the lowest port of the masonry, but are twenty-three feet above the first row of stones. Each stone is over sixty feet long, thirteen feet high, and ten feet thick. The most wonderful block of all still lies in the quarries, for something must have occurred to stop the work of separating it completely from the rock, and the great stone has lain there for centuries awaiting completion. This stone is seventy feet long, fourteen feet high, and thirteen feet wide. The three sides and part of the fourth have been beautifully chiselled, and are smooth and even.

ANSWER WAS EASY.

Gibbs—"You say you were wrong in quarrelling with your wife; then why don't you go home and admit it?"

Dibbs—"The price of admission is too high."

"How many kinds of flowers are there in the world?" "Really, I have no idea. Some day I'll get hold of my wife's spring hat and count 'em up."

NO OPERATION WAS EVER NEEDED HERE

BECAUSE MRS. GOODINE USED DODD'S KIDNEY PILLS.

Doctor said she would have to undergo operation, but Dodd's Kidney Pills cured her.

Central Kingsclear, York Co., N. B., May 20 (Special).—"The doctor said I would have to undergo an operation." So said Mrs. J. V. Goodine, of this place. But she smiled as she made the remark, for all need of the dreaded operation had vanished. Mrs. Goodine used Dodd's Kidney Pills and is a well woman. Given in brief and in her own words, Mrs. Goodine's experience is as follows:

"I was very miserable with Kidney Disease and unable to do my own work. The doctor said I would have to undergo an operation. After using three boxes of Dodd's Kidney Pills I was all better and able to do my work. This statement is true, as you can easily prove by enquiring among my neighbors."

Dodd's Kidney Pills cure the Kidneys; cured kidneys strain all the poisons and other causes of disease out of the blood. Thus Dodd's Kidney Pills are a natural cure for all Kidney diseases and all ills caused by diseased kidneys.

POINTED PARAGRAPHS.

And the louder a man talks the less it amounts to.

How narrow minded most people are who argue with us!

Some people lie because they are too polite to tell the truth.

It's surprising how many grievances most worthless men have.

You can sometimes do a friend a favor by refusing to give him advice.

It doesn't take a very clever woman to make a man make a fool of himself.

And many a woman has lost a good friend by leading him to the matrimonial altar.

When the average man has a chance to say a good word for his neighbor he is apt to go lame.

It's an easy thing for a married man to understand why, as a bachelor, he didn't understand women.

We have no hesitation in saying that Dr. J. D. Kellogg's Dysentery Cordial is without doubt the best medicine ever introduced for dysentery, diarrhoea, cholera and all summer complaints, sea sickness, etc. It promptly gives relief and never fails to effect a positive cure. Mothers should never be without a bottle when their children are teething.

India produces twelve million tons of coal per annum.

Minard's Liniment used by Physicians.

A BAD SIGN.

Percy—I have reason to think my wife has ceased to love me."

Harold—"Is it possible?"

Percy—"Yes, she hasn't jumped on me for nearly a week."

Hard and soft corns both yield to Holloway's Corn Cure, which is entirely safe to use, and certain and satisfactory in its action.

MUST BE GENUINE.

Mother—I think we'd better send for the doctor. Johnny complains of pains in his head.

Father—It's nothing serious. He has had them before.

Mother—Yes, but never on a holiday.

Keep Minard's Liniment in the house.

HIS LIBRARY.

"What a splendid library you have?"

"Yes, indeed," he said, proudly. "The collection of a lifetime, I presume."

"Exactly."

"Have you read everything in it?"

"Well, hardly. I don't expect ever to read all the books I have."

"You don't?"

"No. You see, the books I read I keep upstairs in my den. These books are all volumes that some clever agent has succeeded in convincing me that I ought to read."

MOST PRIMITIVE RACE.

Kubus Have Little More Intelligence than Apes.

A people without any form of religion, without superstition, devoid of any thought of the future state, has been found in the interior forests of Sumatra, according to Dr. Wilhelm Valez, the geologist of the University of Breslau, who has made extensive journeys through the island.

There he found the Kubus, as he named them, who are scarcely to be distinguished from the small manlike ape of the Indo-Mayalan countries.

They are wanderers through the forests seeking food. They have no property. They are not hunters, but simply collectors. They seek merely sufficient nuts, fruits and other edible growths to keep them alive.

The Kubus wage very little warfare upon the small amount of animal life in their silent and sombre land. The only notion he could get from them of a difference between a live and a dead person was that the dead do not breathe.

He infers that they are immeasurably inferior to the paleolithic man of Europe, who fashioned tools and hunted big game with his flint-tipped arrow and knife. The words they know are almost as few as the ideas they try to express—Scientific American.

A Simple and Cheap Medicine.—A simple, cheap and effective medicine is something to be desired. There is no medicine so effective a regulator of the digestive system as Parmelee's Vegetable Pills. They are simple, they are cheap, they can be got anywhere, and their beneficial action will prove their recommendation. They are the medicine of the poor man and those who wish to escape doctors' bills will do well in giving them a trial.

VALUATION.

"Politeness cost nothing," said the ready-made philosopher.

"Yes," replied Mr. Growricher. "If it had a market value there would be more of it."

Minard's Liniment Co., Limited.

Gents,—I have used your Minard's Liniment in my family and also in my stables for years and consider it the best medicine obtainable.

Yours truly,
ALFRED ROCHAV,
Proprietor Roxton Pond Hotel and Livery Stables.

VERY MUCH ALIKE.

"Did you ever get a kiss by telephone?"

"No, what's it like?"

"It's like dreaming about something to eat when you go to bed hungry."

When Your Eyes Need Care

Try Murine Eye Remedy. No Smarting—Feels Fine—Acts Quickly. Try it for Red, Weak, Watery Eyes and Granulated Eyelids. Illustrated Book in each Package. Murine is compounded by our Oculists—not a "Patent Medicine"—but used in successful Physicians' Practice for many years. Now dedicated to the Public and sold by Druggists at 25c and 50c per Bottle. Murine Eye Salve in Aseptic Tubes, 25c and 50c.

Murine Eye Remedy Co., Chicago

IN GOOD TRAINING.

"Nothing serious the matter with your father's lungs, is there Jerry?"

"I should say not. He's been coughing for 37 years, and he can cough louder than ever."

A Ready Weapon Against Pain.—There is nothing equal to Dr. Thomas' Eclectric Oil when well rubbed in. It penetrates the tissues and pain disappears before it. There is no known preparation that will reach the spot quicker than this magic Oil. In consequence it ranks first among liniments now offered to the public and is accorded first place among all its competitors.

Of the 237,722 non-commissioned officers and men in the British Army, 167,281 belong to the Church of England.

Minard's Liniment Lumberman's Friend.

ONE REASON.

He (sneeringly)—Many women prefer their dogs to their husbands."

She (bitterly)—"Why shouldn't they? The dogs growl only occasionally."

Worms sap the strength and undermine the vitality of children. Strengthen them by using Mother Graves' Worm Exterminator to drive out the parasites.

HOW A BEAR FISHES.

A bear is about the last animal you would credit with being able to fish, but fish he does, and in it he displays an amount of patience and skill that is amazing. He will lie quite still upon an overhanging log or bank with paw uplifted and eyes attentively scanning the water. Salmon and trout are his chief delight, and should one come near enough to the surface he is snapped out on the bank with a flip and a twist, and vanishes in bruin's big maw.

Think this over!
Is there any beverage that costs you less per cup than
LIPTON'S TEA
GOES FARTHEST FOR THE MONEY

COLT DISTEMPER

Can be handled very easily. The sick are cured, and all others in same stable, no matter how "exposed," kept from having the disease, by using SPOHN'S LIQUID DISTEMPER CURE. Give on the tongue or in feed. Acts on the blood and expels germs of all forms of distemper. Best remedy ever known for mares in foal. 50c and $1 a bottle; $6 and $11 dozen, of druggists and harness dealers. Cut shows how to poultice throats. Our free Booklet gives everything. Largest selling horse remedy in existence—15 years. Distributors—ALL WHOLESALE DRUGGISTS.

GREAT SCHEME.

Knicker—So Jones has a great invention?

Bocker—Yes, an umbrella handle that retains the finger prints.

Away With Depression and Melancholy.—These two evils are the accompaniment of a disordered stomach and torpid liver and mean wretchedness to all whom they visit. The surest and speediest way to combat them is with Parmelee's Vegetable Pills, which will restore the healthful action of the stomach and bring relief. They have proved their usefulness in thousands of cases and will continue to give relief to the suffering who are wise enough to use them.

Five men's strength is equivalent to that of one average horse.

Ask for Minard's and take no other.

A USEFUL FOWL.

"Why don't you get rid of that hen? You say she never lays."

"But she is an incessant cackler, and that keeps the other hens at a high mark."

"What will you women do with the vote when you get it?" asked the man sarcastically. "Well," replied the bright woman, "we'll try not to be too busy to go to the polls to use it."

HOUSE FOR SALE
On William Street, Exeter,

Any person desiring a new cream separator will do well to call at the Exeter Bargain Store and see the Premier. This is one of the best and easiest running separators on the market. Come in and let us talk it over with you.

W. M. BLATCHFORD, Exeter.

Don't buy until you see our stock of up-to-date clothes for men and boys.—Stewart's.

Everybody should give heed to the advice issued by the medical officer of health and pursue a steady and ruthless warfare on the house fly. After all the information published of recent years regarding the habits of this insect pest and its disease carrying capacity it ought not to be necessary to do more than to remind householders that each fly brought to an untimely end at its first appearance means many millions less during the summer. A general campaign of extermination now will be of infinite service to the health and comfort to our homes.

Big range of House Dresses in Prints, Ginghams and Chambrays sizes 32 to 44. Prices $1.50 to $2.50.—Stewart's.

SALT WELL ANNUAL MEETING.—Notice is hereby given that the Annual Meeting of the Exeter Salt Well Co. will be held in the Town Hall, Exeter, on Monday June 10th, at 2 o'clock p. m., for the transaction of general business. T. B. Carling, Secretary.

Rugs, Linoleums and Carpets. There is no difficulty in selling the new patterns. The prices you will find are right.—Stewart's.

EYE SIGHT SPECIALIST.—Miss J. J. Allen, Eye Sight Specialist, will be at The CENTRAL HOTEL on SATURDAY JUNE 1st—one day.

3 yds x 3 yds Japanese Matting Rugs. The very thing for bedrooms. Ask to see them—Stewart's.

PROPERTY FOR SALE

The undersigned is offering for sale part of Lot 13, Con. 1, Usborne, situated half mile south of Exeter, containing seven and one fifth acres. There is on the premises a good frame house and barn, good well of water, about 80 apple trees and a quantity of small fruits. This is a splendid property, well situated and will be sold reasonable and on easy terms. If not sold privately on or before May 20, 1912, it will be offered by public auction with the household effects on June 1, 1912. For further particulars apply to Thos. Cameron, auctioneer, Farquhar, or on the premises to Mr. John Salter, Exeter

It is hoped that parents will not keep their children out of school unnecessarily, as the months of May and June are very important. Children who miss these two months cannot possibly expect to pass examination for promotion in June.

MAID WANTED—Apply to Mrs. W. G. Waugh, Exeter.

LOST—A pearl brooch, on Sunday, May 19th, between the Power House and James Street church. Reward to finder who will confer a favor by returning same to Dr. Rouleston.

HOMESEEKERS' AND SETTLERS' SPECIAL TRAINS TO WESTERN CANADA.

Via Chicago and St. Paul, April 16th, 23rd and 30th, and every second Tuesday thereafter until Sept. 17th, inclusive. Tickets will also be on sale on certain dates via Sarnia and Northern Navigation Company. Special Train will leave Toronto 10.30 p.m. on above dates for Edmonton and points in Manitoba and Saskatchewan, stopping at all points on Grand Trunk Pacific Railway, west of Winnipeg. Through coaches and Pullman Tourist Sleepers will be carried fully equipped with bedding and porter in charge. Berths may be secured in sleepers at low rate.

This is an exceptional opportunity for those wishing to take advantage of the remarkably low one way settlers rates or round trip Homeseekers excursions, through the American cities No change of cars.

Secure tickets, berth reservations etc. from any Grand Trunk Agent, or write A. E. Duff, District Passenger Agent, Toronto Ont.

LOAD OF CALVES.—I will have a load of Calves at the Central Hotel, on Thursday, June 6th, for sale. This will be the last load of the season.—G. Chapman.

P. Frayne	F. Boyle
W. W. Taman	F. E. Willis
Jones & May	

Rev. Sharp will conduct union services next Sunday—in the Presbyterian church in the morning and in Main Street church at night.

Many of the business men of town have again agreed to close their business places Thursday afternoons during July and August. See notice in another column.

Miss Martha Carling, daughter of Mr. and Mrs. T. B. Carling of Exeter, and graduate nurse of New York hospital, has been appointed nurse at Barnard College, New York at a salary of $90 a month.

The baseball boys drove to Centralia on Thursday evening and played a nine-innings game. They report the result 11-11. At the end of the third innings the score stood 6-0, in favor of Centralia. But the visitors rallied in the latter half and finally evened up.

Rev. Kennedy of Alma Craig occupied the James Street pulpit Sunday last Next Sunday Mr. Russell May will take charge of the morning service, and the Epworth League will conduct the evening service. If Rev. Mr. Hobbs keeps as well as he is at present he will preach his farewell sermons the following Sunday.

DIED IN THE WEST.—Mr. John T. Dempsey of Neepawa, Man., formerly of Usborne township, died at his home on Thursday, May 30th, at the great age of 97 years. The late Mr. Dempsey was a native of Ireland, having been born at Antrim, in the year 1815. He came to Canada in 1844 and settled in Usborne, on the 4th concession, where he remained until about thirty years ago, when he moved to the West, residing near Neepawa. Mr. Dempsey was admittedly the oldest Free Mason in the world, he having joined the order in Ireland when twenty years of age, thus he was 77 years a mason. On coming to Canada deceased affiliated with the masonic lodge here, and all over Canada and western States he was a striking figure in masonic circles

STRAYED HORSE

There strayed onto the premises of the undersigned on May 26, a bronco mare, gray in color. Owner can have same by paying expenses.

W. J. CARLING

Dr. Kinsman was in Sarnia this week.

Garvey Acheson returned to London yesterday, after a visit at his home here.

We are sorry to report that a number of Mr. and Mrs. W. H. Dearing's family are ill.

The Isaak Walton Fishing Club will take their annual trip to Grand Bend on Friday, June 14th.

We will soon begin to think that in this section we are to have a rainy season, then six months winter.

Mr. and Mrs. C. B. Snell left yesterday for Pontiac Mich., where they will visit with Dr. and Mrs. Ferguson.

Mr. John Mitchell, who had sufficiently recovered from his recent illness as to be able to be out and around, has again been attacked by the old enemy and as a result he has been compelled to take his bed again.

The London Advertiser of Tuesday says of an Exeter Old Boy.—Fred Shaddock, of 604 Central avenue, sustained a painful injury to his foot the other night when, in leaving his verandah he jumped upon a garden rake that had been left on the lawn. The tines penetrated his foot and protruded from the upper side. He was attended by a physician, and will be laid up for a considerable time.

RUN OVER AND KILLED.—Word has been received here by friends of the sad accident that befel Dalton Elliott Anderson, son of Dr. D. A. and Mrs. Anderson, of Winnipeg, formerly of Exeter, who was run over and fatally injured by a street car in that city on Saturday, May 25th. The boy was riding a bicycle and he endeavored to cross in front of the car which struck him, and passing over his left arm, crushing it to a pulp. He was taken to the hospital where he succumbed at 9.15 Sunday morning. The father, who was riding in an automobile at the time the accident was powerless to render any assistance. The accident happened under especially sad circumstances. It had been the intention of Dr. Anderson and his little son to dine at the residence of A. E. Hooper, the little fellow's uncle, shortly before 6 o'clock Mr. Hooper rode up to Dr. Anderson's apartments on a bicycle with the intention of going to 266 Simcoe street with the doctor and Dalton. The three were about to enter Dr. Anderson's automobile when little Dalton saw his uncle's bicycle standing at the curb "I'll ride your wheel, uncle." His father agreed with a smile, and the little fellow promptly mounted the wheel saying as he did, with a little laugh "I'll get there before you, father." These were the last words the boy was heard to utter. Dr. Anderson and his family are well-known here and Dalton who was the only son and the pride of the family, was a bright youth. He was a silver and gold medalist in oratory.

WEDDED.—A very pretty wedding was solemnized at the home of Mr. and Mrs. J. W. Taylor, Exeter, on Tuesday, when their daughter Maude was united in marriage to Mr. J. C. Wentworth Agnew, barrister at law, of Winnipeg. Rev. R. Whiting of London officiated. The bride who was given away by her father, looked charming in a gown of embroidered marquisette over ivory satin, trimmed with white Irish lace. She wore the conventional veil caught up with lily of the valley and pearls, and carried a shower bouquet of bridal roses and lily of the valley, her only ornament being a necklace set with pearls and amythists, the gift of the groom. The bridesmaid, Miss May Foster of Winnipeg, wore a dainty gown of mimon over pale blue satin with touches of pearl trimmings, and a black picture hat with willow plumes and pink rosebuds, and carried a bouquet of pink roses. The bride's niece, Isabel McTavish of Shakespeare made a dainty little flower girl, dressed in white Swiss embroidery and poke bonnet, and carried a basket of pink roses and lilies of the valley. The groom was attended by Mr. Ernest Taylor, brother of the bride. Miss Pearl Leavett played the wedding march, Mr. Colin McKenzie, St. Thomas, sang 'Because" during the signing of the register. The groom's gift to the bridesmaid was a gold band bracelet; to the best man and Mr. McKenzie gold monogram tie pins; to the flower girl a signet ring and to Miss Leavett a pearl sapphire hat pin. Relatives and friends were present from St. Thomas, London, Winnipeg, Clinton and Shakespeare. After a dainty wedding luncheon the happy couple left for Ottawa, Toronto, Niagara Falls and other eastern points. The bride's travelling suit was navy-blue serge, with black hat. Mr. and Mrs. Agnew will be at home to their friends in Winnipeg after September first.

EXETER BOY DIES IN THE WEST

Word was received here Sunday that Melville Dearing was dead in the West. The telegram was sent by the mounted police and simply stated that the young man was dead, and asked what was to be done with the body. No particulars were received. The young man was the son of Mr. Abe Dearing, until recently of Exeter, but now of Grand Bend He was well-known in Exeter, and conducted the bowling alley for several months. About two years ago he went to London and a few weeks since went West, residing near Elbow, Sask. Word has been sent to forward the body to Exeter for interment, and probably no particulars will be received until the arrival of the body, which will not be until the end of the week. The parents have the sympathy of all in their sudden bereavement.

Later—Word has since been received that Mr. Dearing was struck by lightning on Saturday last and instantly killed, and that the body is in a very bad state of decomposition, so much so that it renders it almost impossible to ship it. As a consequence interment will likely take place at Elbow.

Dashwood's Celebration

Great national events are very properly kept in mind by public consent. Our Yankee cousin celebrates his Fourth of July with bon-fires, fire-crackers, orations, and a general big time to remembrance of attaining independence as a people; Canadians celebrate July 1st as an event in our history, when the then scattered provinces of this our fair country united into one great Dominion. But British subjects everywhere are always found loyal in commemorating the event of the birthday of their King or Queen as the case may be in a right royal shape.

The patriotic and good citizens of Dashwood took up the matter of celebrating the birthday of King George V. on Monday last, and this the inaugural attempt at celebrating in the town's history will go on record as being most successful and an occasion long to be remembered by the hundreds who were in attendance.

The weather man was certainly favorable to such an occasion, as after almost continuous rains for two weeks, the sun shone out in great splendor, and, but for the racing, things were ideal. The heavy rain of the day previous, however, made the track a little mushy in places and otherwise a little heavy.

The committee in charge had left nothing undone to make the event a most fitting and commendable one. The village was dressed in holiday attire, long streamers of bunting in varied colors and at varied intervals were stretched across Main street, and flags, bunting, etc., were to be seen here, there and everywhere, thus demonstrating the loyalty of the citizens in a manner that would have done credit to a much larger place

The opening event was the Calithumpian procession, headed by the Exeter Band, which afforded much merriment for both old and young.

Following were the prizes awarded,—1st, 'Doctor Operating," Messrs. Klump Kellerman, Miller and Hoffman; 2nd, 'The Johnston Family," Messrs. Nadker and Wein; 3rd, 'Dancers" Messrs. Schroeder, Musser, Willert and Deichert.

The baseball match in the morning, between the Centralia and Dashwood teams was a good exhibition of ball, resulting in a victory for Centralia by a score of 4-3.

The afternoon game between the Crediton and Fullarton teams resulted in a rather easy victory for Crediton. It seemed at first that Crediton would have their hands full, but after the second innings the game went easy for Crediton, the result being a score of 18-5 in favor of Crediton.

The half-mile foot race was keenly run, the first prize going to Wm. Musser, 2nd to Wm. Thomas and the 3rd to E. Oestreicher, Time 2.19.

The horse races as usual proved to be deeply interesting, the prizes being awarded as follows,—

GREEN RACE—¼ MILE.

Sleepy Joe,	W. Schroeder	1st
Pat	W. R. Pollock	2nd
Billy Tarentum	T. Klump	3rd

Best time 1.20.

2.30 CLASS

Roadmaster	T. Murdock	1st
Minnie Bars	Frank Reider	2nd
Jack Hunter	Elber & Son	3rd

Best time 1.10½.

A chapter of accidents happened during the afternoon but luckily none were attended with serious results. Probably the most noteworthy was that happening during the third heat of the 2.30 race. On the east side of the track there was a very soft spot and when Jack Hunter, the horse owned by Elber & Son of Zurich struck it he made a complete somersault, the cart going with him and the driver was thrown in the air and a considerable distance forward. Strange to say neither the driver nor horse was hurt and there was nothing broken.

Miss Schroeder, while standing on the track was knocked down by one of the race horses and the wheel of the sulky passed over her, but fortunately with no bad results.

A team that was being used for harrowing on the track became frightened and shying against the barbed wire fence got mixed up therewith.

A young man, accompanied by a lady friend, while driving around the track happened to lose one of the lines and as a result the horse was drawn into the fence, upsetting the occupants but as in the other case all escaped uninjured.

Two other horses got mixed up in the fence to which they were tied and while threatening serious results both escaped injury.

The concert in the evening proved a fitting wind-up to the day's entertainment, Mr. Spencer of Toronto fully maintained his former reputation as an entertainer.

The total proceeds amounted to about $310.00—sports $260 and concert $50

The Exeter Band furnished music throughout the day and their many choice selections were highly pleasing to all.

FIRE AT PARKHILL

Parkhill, June 3rd.—A serious fire occurred here this morning about 3.30 when the flour mill of the Parkhill Milling Company was burned to the ground. The loss will be about $15,000, with insurance of $7,000. The firemen worked hard, playing three streams on the blaze, but lack of the water handicapped them. The burning of this mill will be a great loss to the town and surrounding country, as it was the best mill in this section It will likely be rebuilt. The origin of the fire is unknown.

FIRST DRAFT

The following are a number of the changes made by the first draft of the stationing committee of London Conference,—

London, Hyatt Avenue, J. E. Millyard of Hensall
Dorchester, E. A Fear of Blyth.

Blenheim, G. W. Dewey of London.
Wardsville, Wm. Godwin of Parkhill.
Glencoe, Richard Hobbs of Exeter.
Pt. Stanley, W. R. Vance of Woodham

TUESDAY WAS CIRCUS DAY

The Sanger Circus arrived here early Tuesday morning and pitched their tents north of Station St. Two performances were given and both were well attended there being a large number of people in from the country surrounding. Much of the acrobatic work was excellent, the Earl Troups being especially fine. The Leech sisters were good. The clowns were funny in spots. The feature of the whole show was the dancing of a handsome bay horse. The band music was much appreciated. The management of the show by Mr. W. J. Daplyn was a pleasing feature, and everything about the show was clean in every respect. Courteous treatment was extended to all the patrons.

USBORNE PIONEER PASSES

Death of Mrs. Dew.—The death of Mary Evans, widow of the late John Dew, at her home, Lot 31, concession 3, Usborne, on Thursday, May 30th, was an event of regret among an entire community of friends and acquaintances of the deceased. Mrs. Dew had not enjoyed very good health for upwards of six months, being a sufferer from heart trouble, but her case did not assume a serious aspect until the Friday night previous to her demise, when she was taken down and gradually sinking passed away about 1.30 o'clock on the morning above stated, at the age of 73 years and 10 months. The deceased was whole-souled and true, possessing those characteristics that tend to make the world better, and while her death was not wholly unexpected it leaves an ineffacable void among those who knew and esteemed her for her lovable qualities. Mrs .Dew was born in Wales in the year 1838, but came to Canada with her parents when only three years of age, first settling in this locality, consequently she was among the pioneer settlers of the district who endured the hardships and inconveniences incident to pioneer life. She was wedded to her late husband in the sixties, and to the union eight children were born, seven of whom survive,—David of Hensall, Frank and Clyde of N. Davota, Charles, Evan and Daniel at home; Mrs. Phil. Ryckman of Moosejaw, and Mrs. Frank Golder of Middlemiss. Mrs. Dew was a member of the English church, and was admired for her consistent Christian character. The funeral took place to the Exeter cemetery on Sunday, June 2nd, at 2 o'clock and was largely attended.

MCGILLIVRAY COUNCIL

Council met June 1st. All members present. Previous minutes read and approved. A large number of accounts were ordered paid.

Nickles—Rosser—That the tender of R Hutchinson for the building of a concrete bridge on Con. 20, opposite Lot 7, at $5.50 per cubic yard, and the tender of D. Witherspoon for the building of a concrete arch on Con. 14, opposite Lot 16, for the sum of $109.00 be accepted and that J. Robinson be appointed inspector on said bridge and arch.—Car'd.

The council adjourned to meet on June 24th at 1 o'clock.

Court of Revision met as per notice. W. T. Ulens was appointed chairman. By resolution the assessment of John McGregor was reduced $500, that of John Grieve reduced $350; and that of Fred Harrison $150. The court adjourned to meet on June 24th at 4 o'clock.

J. D. DRUMMOND, Clerk.

BIRTHS

Niblock—In McGillivray, May 23, to Mr. and Mrs. Thos. Niblock, a son.
Jones—In Moray, May 28th, to Mr. and Mrs. J. W. Jones, a daughter.
Decker—In Hay, May 26th, to Mr. and Mrs. John Decker, jr., a son.
Klopp—In Hay, May 26th, to Mr. and Mrs. Oscar Klopp, a son.
Sparling.—In Anderson, May 24, to Mr. and Mrs. Percy Sparling, a son.
Hazelwood—At Whalen, May 22, to Mr. and Mrs. John D Hazelwood, a son.
Harbourn—In Staffa, on May 27th, to Mrs. and Mrs. Jas Harbourn, a daughter.

MARRIAGES

Agnew—Taylor—At the home of the bride's parents, Exeter, June 4, J. C. Wentworth Agnew, of Winnipeg, to Miss Maude, daughter of Mr. and Mrs. John W. Taylor of Exeter.
O'Mara—Carroll—At Mt. Carmel, June 4 John Joseph O'Mara of Lucan to Miss Katherine Mary Carroll.
Geiger—Pfile—At the home of the bride's parents Mr. and Mrs. Benjamin Pfile Lot. 10, Con. 14, Hay, on June 5, Mr. Roland Geiger to Miss Melissa B. Pfile.

DEATHS

Dew—At Hurondale, May 30, Mary Ann Evans, widow of the late John Dew, aged 73 years and 10 months.

ONLY A MONTH;

OR, A CURIOUS MYSTERY EXPLAINED.

CHAPTER IV.—(Cont'd)

Then presently, as they walked down to the little pier, she talked fast and gayly of all they would do when he came to England; she talked because, for once, he was absolutely silent, and because she was afraid that her uncle would guess their secret; perhaps it was a relief to her that Frithiof volunteered to run back to the hotel for Mr. Morgan's opera-glass which had been left by mistake in the salon, so that, literally, there was only time for the briefest of farewells on the steamer. He went through it all in a business-like fashion, smiling mechanically in response to the good wishes, then, with a heavy heart, stepping on shore. Herr Falck, who was returning to Bergen by the same boat which took the other travelers only as far as Vadheim, was not ill-pleased to see his son's evident dejection; he stood by the bulwarks watching him, and saying a word or two and then to Blanche who was close by him.

"Why, see!" he exclaimed, "the fellow is actually coming on board again. We shall be carrying him away with us if he doesn't take care."

"A thousand pardons!" Frithiof had exclaimed, shaking hands with Cecil and Roy Boniface. "I did not see you before. A pleasant journey to you. You must come again to Norway some day, and let us all meet once more."

"Vaer saa god!" exclaimed one of the sailors; and Frithiof had to spring down the gangway.

"To our next merry meeting!" said Roy, lifting his hat; and then there was a general waving of handkerchiefs from the kindly little crowd on the pier and from the parting guests, and, in all the babel and confusion, Frithiof was conscious only of Blanche's clear "Auf wiedersehn!" and saw nothing but the sweet, dark eyes, which to the very last dwelt on him.

"Well, that is over!" he said to Sigrid, pulling himself together, and stifling a sigh.

"Perhaps they will come here next year," suggested Sigrid, consolingly.

"Perhaps I shall go to England next autumn," said Frithiof, with a smile.

"So soon!" she exclaimed involuntarily.

He laughed, for the words were such a curious contradiction to the ones which lurked in his own mind.

"Oh! you call two months a short time?" he exclaimed; "and to me it seems an eternity. You will have to be very forbearing, for I warn you such a waiting time is very little to my taste."

"Then why did you not speak now, before she went away?"

"You wisest of advisers!" he said, with a smile, "I did speak yesterday."

"Yesterday!" she cried, eagerly. "Yesterday, on Munkeggen?"

"Yes; and all that now remains is to get Mr. Morgan's consent to our betrothal."

"Oh, Frithiof! I am so glad! so very glad! How pleased father will be! I think you must write and let him know."

"If he will keep it quite secret," said Frithiof; "but of course not a word must be breathed until her father has consented. There is no engagement as yet, only we know that we love each other."

"That ought to be enough to satisfy you till the autumn. And it was so nice of you to tell me, Frithiof. Oh, I don't think I could have borne it if you had chosen to marry some girl I didn't like. As for Blanche, there never was any more sweet and lovely."

It seemed that Frithiof's happiness was to bring happiness to the whole family. Even little Swanhild guessed the true state of things, and began to frame visions of the happy future when the beautiful English girl should become her own sister; while as to Herr Falck, the news seemed to banish entirely the heavy depression which for some time had preyed upon him. And so, in spite of the waiting, the time slipped by quickly to Frithiof, the mere thought of Blanche's love kept him rapturously happy, and at the pretty villa in Kalvedalen there was much laughter and mirth, and music and singing; much eager expectation and hope, and much planning of a future life which should be even more full and happy.

At length, when the afternoons closed in early, and the long winter was beginning to give signs of its approach, Frithiof took leave of his home, and, on one October Saturday, started on his voyage to England. It was, in a sense, the great event of his life, and they all instinctively knew that it was a crisis, so that Sigrid drew aside little Swanhild at the last, and left the father and son to have their parting words alone.

"I look to you, Frithiof," the father said eagerly, "I look to you to carry out the aims in which I myself have failed—to live the life I could wish to have lived. May God grant you the wife who will best help you in the struggle! I sometimes think, Frithiof, that things might have gone very differently with me had your mother been spared."

"Do you not let this depression influence you too much, father?" said Frithiof. "Why take such a dark view of your own life? I shall only be too happy if I make as much of the world as you have done. I wish you could have come to England too. I think you want change and rest."

"Ah!" said Herr Falck, laughing, "once over there you will not echo that wish. No, no, you are best by yourself when you go a-wooing, my son. Besides, I could not possibly leave home just now; we shall have the herring-fleet back from Iceland before many days."

Then, as the signal was given that all friends of the passengers must leave the steamer, he took Frithiof's hand and held it fast in his.

"God bless you, my boy; I think you will bring honor to our name, sooner or later. Now, Sigrid, wish him well, and let us be off."

He called little Swanhild to him, and walked briskly down the gangway, then stood on the quay talking very cheerfully, his momentary depression quite past. Before long the steamer began to glide off, and Frithiof, even in the midst of his bright expectations, felt a pang as he waved a farewell to those he left behind him.

"A happy return to Gammle Norge!" shouted Herr Falck. And Sigrid and Swanhild stood waving their handkerchiefs till the steamer could no longer be seen.

"I am a fool to mind going away!" reflected Frithiof. "In three weeks' time I shall be at home again. And the next time I leave Bergen, why, who knows, perhaps it will be to attend my own wedding!"

And with that he began to pace the deck, whistling, as he walked, "The Bridal Song of the Hardanger."

CHAPTER V.

The event to which we have long eagerly looked forward is seldom all that we have expected, and Frithiof, who for the last two months had been almost hourly rehearsing his arrival in England, felt somewhat depressed and disillusioned when, one chilly Monday morning, he first set foot on English soil. The southerner, arriving at Folkstone or Dover, with their white cliffs and sunny aspect, gains a cheerful impression as he steps ashore; but the Norwegian, leaving behind him his mountains and fjords, and coming straight to that most dingy and unattractive town, Hull, is at a great disadvantage.

A fine drizzling rain was falling; in the early morning the shabby, dirty houses looked their very worst. Swarms of grimy little children had been turned out of their homes, and were making their way to morning school, and hundreds of busy men and women were hurrying through the streets, all with worn, anxious-looking faces. As he walked to the railway station Frithiof felt almost overpowered by the desolateness of the place. To be a mere unit in this unthinking, unheeding crowd, to be pushed and jostled by the hurrying passengers, who all walked as if their very lives depended on their speed, to hear around him the rapidly spoken foreign language, with its strange north-country accent, all made him feel very keenly that he was indeed a foreigner in a strange land. He was glad to be once more in a familiar-looking train, and actually on his way to London; and soon all these outer impressions faded away in the absorbing consciousness that he was actually on his way to Blanche—that on the very next day he might hope to see her again.

Fortunately the Tuesday proved to be a lovely, still autumn day. He did not like to call upon Mr. Morgan till the afternoon, and, indeed, thought that he should scarcely find him at home earlier, so he roamed about London, and looked at his watch about four times an hour, till at length the time came when he could call a hansom and drive to Lancaster Gate.

There are some houses which the moment you enter them suggest to you the idea of money. The Morgans' house was one of these; everything was faultlessly arranged, your feet sunk into the softest of carpets, you were served by the most obsequious of servants, all that was cheap or common or ordinary was banished from view, and you felt that the chair you sat on was a very superior chair, that all the pictures and ornaments were the very best that could be bought, and that ordinary people who could not boast of a very large income were only admitted into this aggressively superior dwelling on sufferance.

As to Frithiof, when he was shown into the great empty drawing-room with its luxurious couches and divans and its wonderful collection of the very best upholstery and the most telling works of art, he felt, as strongly as he had felt in the dirty streets of Hull, that he was a stranger and a foreigner. In the whole room there was nothing which suggested to him the presence of Blanche; on the contrary, there was everything which combated the vision of those days at Balholm and of their sweet freedom.

Before many minutes had passed, however, his host came into the room, greting him politely but somewhat stiffly.

"Glad to make your acquaintance," he said, scanning him a little curiously as he spoke. "I heard of you, of course, from my brother. I am sure they are all very much indebted to you for planning their Norwegian tour for them so well."

Had he also heard of him from Blanche? Had she indeed prepared the way for him? Or would his request come as a surprise? These were the thoughts which rushed through Frithiof's mind as he sat opposite the Englishmen and noted his regular features, short, neat-looking, gray beard, closely cropped hair, and rather cold eyes.

"It is curious that you should have come to-day," he remarked, after they had exchanged the usual platitudes about the weather and the voyage, and the first impressions of England. "Only to-day the final decision was arrived at about this long-mooted idea of the new branch of our firm at Stavanger. Perhaps you have heard rumors of it?"

"I have heard nothing at all," said Frithiof. "My father did not even mention it."

"It is scarcely possible that he has heard nothing of the idea," said Mr. Morgan. "When I saw you I half thought he had sent you over on that very account. However, you have not as yet gone into the business, I understand?"

"I am to be taken into partnership this autumn," said Frithiof. "I was of age the other day, and have only waited for that."

"Strange," said Mr. Morgan, "that only this very morning the telegram should have been sent to your father. Had I known you were in England, I would have waited. One can say things better face to face. And yet I don't know how that could have been either, for there was a sudden chance of getting good premises at Stavanger, and delay was impossible. I shall, of course, write fully to your father by the next mail, and you will tell him that it is with great regret we sever our connection with him."

Frithiof was so staggered by this unexpected piece of news that for a minute all else was driven from his mind.

"He will be very sorry to be no longer your agent," he said.

"And I shall be sorry to lose him. Herr Falck has always been most honorable. I have the greatest respect for him. Still, business is business; one can't afford to sentimentalize in life over old connections. It is certainly best in the interests of our firm to set up a branch of our own with its headquarters at Stavanger. My son will go out there very shortly."

"The telegram is only just sent, you say?" asked Frithiof.

"The first thing this morning," replied Mr. Morgan. "It was decided on last night. By this time your father knows all about it; indeed, I almost wonder we have had no reply from him. You must not let the affair make any breach between us; it is, after all, a mere business necessity. I must find out from Mrs. Morgan what free nights we have, and you must come and dine with us. I will write and let you know. Have you any particular business in London? or have you only come for the sake of traveling?"

(To be continued.)

Gives Stamina.

It will benefit your children or your invalid.

E-2-12

J. R. BOOTH'S WORK.

John R. Booth, the lumber and paper king of Canada, recently celebrated his eighty-sixth birthday in Ottawa. All his life he has been a hard worker and was never much given to dress, style or titles. When the editors of "Who's Who in Canada" asked him to state what his favorite recreation was, Mr. Booth replied, "work," and so it appears in that publication. Notwithstanding that he is a millionaire many times over, Mr. Booth never stood on dignity or ceremony. In this respect he differs from a certain glib ex-alderman of the Capital City who once managed to squeeze into the Council, and although he was never successful in being re-eleteed, he was particularly fond of referring to himself as Ex-Alderman D——.

Now "Ex-Alderman" is a peculiar designation in that you can hang on to it until the day you die if you feel disposed to make use of the prefix. The proud retainer of the title, going to the telephone one day, rang up Mr. Booth, who had

Mr. J. R. Booth.

some cattle to sell, for the former civic functionary was a drover by trade. In answer to the ring of the instrument, he inquired, "Is that you, Booth?"

Receiving an answer in the affirmative, he proclaimed, "This is Ex-Alderman D—— speaking. I understand, Booth, you have some fat cattle to sell. What is your price for them?"

Mr. Booth told the inquirer, but evidently the figure did not meet his fancy.

"Too dear, Booth, we cannot deal at the quotation you name," and the speaker rang off.

A bystander remarked, "Don't you think that Ottawa's leading captain of industry might have been styled Mr. Booth?"

"Oh, I don't know about that," observed the ex-alderman. "He is entitled to no special distinction. You see, he never occupied a seat in the Council."

SPAIN'S PREMIER TOREADOR.

How Madrid Welcomed Return of Bombita to the Ring.

Bombita, the darling of Spain, has recovered from the dangerous wound he had received in a bull fight, and last Sunday all Madrid went to the Plaza de Toros to welcome the greatest of all toreadors to the scene of former triumphs, writes a correspondent of the London Standard.

The sun was beating down on the tiers of seats opposite me, where a thousand fluttering fans looked like brilliant butterflies. King Alfonso and the Queen were in the royal box surrounded by the flower of the Spanish aristocracy. All the women wore the graceful mantilla and the Queen had red roses in her hair.

Charmed as the people were to see the youthful King and Queen, their chief thoughts were for Bombita, the dashing Bombita, whose photograph appears in dozens of newspapers every week. He is as daring and as expert a toreador as the men of the old school, but he is not in ordinary life the toreador with a little pigtail, happier in the cafe than in the drawing-room.

The fabulous fees he receives for his dangerous work permit of his keeping a motor car and enables him to dine in the most fashionable restaurants. He is faultlessly dressed by a London tailor, and when I met him the other night at an evening party I took him to be a diplomatist or a Spanish grandee.

In the arena Bombita was radiant in rose color silk and gold lace, and he wore white silk stockings and dainty shoes—a charming costume for a masquerade, but inappropriate for the work of slaying ferocious bulls. But Bombita was superb. He played with death like a child with a toy.

He knelt for a moment in the sand as his second bull, snorting with fury, rushed upon him. The creature's horns seemed within an inch of his body when he rose, stepped aside with the grace of Nijinsky, and plunged his short sword into the animal's neck.

The dexterity, the amazing daring of the man, filled the critical audience with new wonder at the prowess of their favorite. A great shout went up. "The ear! The ear!" The toreador who has pleased the public by his skill is accorded the right to keep the ear of the bull he has killed as a trophy. It is for the spectators to judge whether he deserves the supreme reward.

On Sunday some were opposed to the award and for at least two minutes it hung in the balance whether Bombita would take home the trophy and, as I suppose he does, nail it to the wall of his dining-room. King Alfonso decided the matter by joining in the popular cry, and Bombita received his reward.

NEW FRENCH BATTLESHIPS.

British Models Followed—England to Store Oil Fuel.

French battleship designers appear to be following the general lines of British constructors in their 1912 building programme for capital ships of the first class, except that the tonnage of the French ships will considerably exceed that of the British ships of the Orion class, the displacement of which is 22,680 tons.

The French are placing ten 13.4 inch guns on the new ships as a primary armament, mounted on five twin gun turrets, all placed on the centre line after the Orion model. These guns are of slightly less calibre than the British 13.5 inchers, though the French ships will be larger by over 1,000 tons.

The new French ships will be 541 feet long and 88 feet 6 inches broad. Their speed will be 20 knots. The time for building and completing is to be three years, compared with the two years of the British builders.

The secondary armament will remain of the same calibre as in previous ships, that is, 5.5 inches, while in future ships the British will carry six inch guns. The armor will not be quite so extensive in area, but will be thicker in parts than in previous types. Turbine engines will be used.

The British Admiralty is making a considerable increase in oil fuel storage. This was determined upon when the coal strike was by no means regarded as a certainty. Still further extension has since been decided upon.

At Portsmouth the amount of expenditure in providing storage has been raised from $65,000 to $250,000; on the Humber from $210,000 to $600,000; at the Invergordon from $40,000 to $220,000; on the Medway from $210,000 to $650,000. A sum of $35,500 is to be spent to provide new accommodation for oil fuel at Hambowline Dockyard; $125,000 for new works at Hongkong and $66,500 at Pembroke.

The commencement of work on the Grand Trunk Pacific Railway hotel assures the fact that Edmonton will have a hostelry as large as the railway hotel in Winnipeg.

THE newest thing in sugar—and the best—is this 5-Pound Sealed Package of Redpath Extra Granulated. In this carton 5 pounds full weight of Canada's finest sugar comes to you fresh from the Refinery, and absolutely free from any taint or impurity. Ask your Grocer for the Redpath 5-Pound Package.

CANADA SUGAR REFINING COMPANY, LIMITED, MONTREAL.

PHILISTINISM IS NARROW

It Lacks the Generosity to Give Itself to a Holy Cause for the World's Good

Where there is no vision, the people perish.—Proverbs, xxix., 18.

Our life is marred by lack of a vision which must come to each soul and give it a feeling, however dim, of the grandeur, the wonderfulness, the mystery, the beauty and holiness in the world. Without such a feeling we perish spiritually. A philistine is deficient in the sense of life's consecration and therefore of its impenetrable mystery and inexhaustible possibilities.

The rebuke implied in the word philistine is deserved by masses of men and women in so far as they have let the generous enthusiasms of their youth and the beautiful visions of high hopefulness die out. They have marred their lives. Life to be worthy must have some unselfish, emancipating interest which frees it from the thrall of its drudgery and is inspired by vision of

THE WONDERFUL WHOLE

of which it is a part. Nature has ceased to be for philistinism a holy place of marvellous secrets, pointing beyond itself as the living garment to the Everlasting Craftsman that wove it.

Philistinism lacks interest in ideals. It lacks interest in fellow men. It becomes not easily enthusiastic. It dubs as cranks others who do, measuring ambition and aspiration by its own standard of practicableness, which makes for selfish interest and comfort. It declares the idealist, whether patriot, reformer or self-sacrificing devotee to humanity, a visionary. In quite an ignoble sense the ordinary philistine applies to the idealists Emerson's phrase and calls them "fools of ideals." It is earthy, material, realistic and inert. From such a state of mind no progress can be expected. As our text has it, if a nation were made up of only the philistine multitude it would soon perish, because it would shut itself out from all true religion,

FROM ALL SAVING WISDOM,

from all emancipating literature and art and from all generous impulses and enthusiasms.

Religion, while leading us to lose ourselves in the love of God, at the same time enables us to discover and emancipate the portion of God that is in us. In a word, religion keeps alive the infinite task of self-culture and self-discipline by bringing home to men's imagination the thought of the Infinite Mind that is the Holy Teacher and Law Giver, and the Infinite Heart, that is the perfect love. Such a thought liberates and brings great vision, and again and again becomes the inspiration for some large, unselfish interest that shall emancipate man from the thraldom of his labor or business or pleasure. Religion is the cure for the philistine.—Rev. Dr. Samuel Schulman.

THE SUNDAY SCHOOL LESSON

INTERNATIONAL LESSON, JUNE 9.

Lesson X.—Hearing and doing, Luke 6. 39-49. Golden Text, James 1. 22.

Verse 39. A parable—One of several grouped together in Luke's account at this point. There is an intimate connection in thought with the exhortation which immediately precedes, that, namely, against judging others.

Can the blind guide the blind?—Jesus chooses a very familiar subject for the figurative lesson of his parable. The affliction of blindness is very common in Palestine, even to-day.

A pit—An open cistern or square tank such as was commonly used for the storing of rain water.

40. Disciple—Literally, learner; that is, the pupil.

Not above his teacher—Not wiser or better informed than his teacher.

Perfected—Or, equipped, when his period of training is completed.

41. Why beholdest thou? — Why dost thou take notice of?

The mote—Literally, dry fragment, a mere splinter.

In thy brother's eye—The precepts which Jesus sets forth are intended for observance in domestic and social life, without special reference to their application in courts of law.

The beam—Literally, main beam, the rafter supporting the center of the roof. The thought is that of blindness to one's own far more serious fault.

42. Thou hypocrite—In classic Greek the word translated hypocrite means actor, and is used in connection with the drama. In the New Testament, however, it often has the sense of one acting a false part in life, and hence is exactly equivalent in meaning to our English word hypocrite used in the translation.

Then shalt thou see clearly—A right understanding of self and an appreciation of one's own faults and limitations is necessary before one can rightly understand the needs of others.

43. No good tree—No sound or perfect tree.

Corrupt tree—The unsound, decayed or worm-eaten tree, incapable of bringing forth good fruit.

44. Known by its own fruit—The quality of fruit which a given tree produces not only labels it among other trees, but determines absolutely its commercial value.

Thorns . . . bramble bush—It has been said that there is probably no other country on earth of the same extent which has so many plants with thorns and prickles as has the Holy Land. These often grow in close proximity to the fruit-bearing fig trees and grapevines. The thorns and thistles were enough in evidence in every fruit orchard and vineyard to give the words of Jesus a heightened significance, making his meaning perfectly clear to his hearers.

45. The good man—The Greek word man here used signifies man in the generic sense.

Treasure—The sense is that of a hoarded and concealed treasure.

Bringeth forth—Again and again; perpetually.

Man . . . treasure—Both nouns, as the italics indicate, are left to be supplied in the original.

His mouth speaketh—It is in speech and action that the secrets of the heart are revealed.

46. Why call ye me?—A question addressed to those among his hearers who, professing to be his disciples, failed to obey his teachings.

The things which I say—The principles which I have just been setting forth.

47. Heareth . . . doeth—The parable which follows hinges on these two words. Hearing is the essential preliminary, without which the doing would be impossible. The test of character, however, lies in the doing.

48. Digged . . . deep—In the version of the parable given by Matthew the men differ in the respective sites which they select for building. Here they differ in the manner in which they lay the foundations, the one observing more care than the other in making the excavation for the foundation.

A flood arose—Floods caused by an unusual downpour during the rainy season are not infrequent in Palestine.

The stream—The mountain freshet overflowing its banks and cutting itself a new channel rushed against that house.

49. Earth without a foundation—Quite probably the soft and level deposit of a former flood, convenient, but most insecure for building purposes.

Straightway it fell in—It had no chance whatsoever of withstanding the torrent.

HOW TO AVOID TUBERCULOSIS

A Few Rules Which Should be Strictly Observed.

A healthy body is the best protection against the tubercle bacillus or any other diseases breeding germ. Therefore, keep well by observing the following rules:—

Live, work and sleep in rooms flooded with fresh air and purified by sunlight every day. See that your sleeping room is thoroughly ventilated.

Use good, pure nourishing food, and thoroughly masticate what you eat.

Cultivate cleanly, temperate and regular habits of living.

Avoid breathing dust-laden air. In sweeping and dusting use a moist broom and duster.

Don't spit on the floor of the dwelling, shop, school, public building or on the sidewalk. If you must do so spit in the gutter or into a spittoon.

If you have a cough do not resort to quackery, but consult a physician or go to a dispensary. Make full use of good food, fresh air and rest. Live as much as possible in the open air, and have your sleeping room always thoroughly ventilated.

For the protection of others when coughing or sneezing hold a handkerchief before your face.

Since 1730 horse-racing has been held annually at Epsom, England.

Last year the output of coal in England, Scotland, and Wales was 271,794,360 tons.

HEALTH

PALPITATION OF THE HEART.

Palpitation of the heart is a distressing and common trouble, often giving rise to fears of heart disease, thus making the complaint worse than it really is. One of the symptoms of palpitation and heart trouble generally is the fact of a person becoming aware of the beating of his own heart. We ought really to be entirely unconscious of this function, and consciousness of it shows us that something is wrong. Undue beating is usually a functional disorder, although in some cases it is a sign of organic trouble, and a doctor should be consulted. The distinction between the two, however, is not difficult to detect. Palpitation, the functional irregularity, is intermittent and sudden in its attacks, while the organic disease is usually continuous. Then again, exercise relieves palpitation in the one case, while it tends to increase the trouble in the other. Palpitation of the heart is much more common in women than in men, and is found mostly in nervous subjects. The best plan, therefore, in treatment of the complaint is to attend to the nervous system. The symptoms of palpitation are chiefly an irregular pulse, leaping of the heart, giddiness, noises in the head, and spots before the eyes. The skin, too, is affected, and becomes moist in consequence. Treatment, as already stated, must be directed to the nerves, and one of the best means is by way of the digestion. Tea and coffee, taken liberally, are quick to attack the nerves, and the sufferer from palpitation should avoid these beverages as much as possible. Tobacco also has similar effects. Rich food should be avoided, although it is foolish to diet oneself too strictly, for palpitation can result from either over-rich blood or ill-nourished blood. Flatulence and acidity of the stomach both tend to disorder the nervous system, while tight-lacing is another evil that cannot be too strongly condemned. In the case of a severe attack of palpitation the patient should lie down and all tight clothes should be loosened. A little brandy or sal volatile may be given, although half a teaspoonful of bi-carbonate of soda will generally afford speedy relief. —A Physician.

SPRAINS.

A sprain results when a joint or a muscle is wrenched so violently that the ligaments or tendons are torn or even stretched.

The word strain is used to describe injuries so slight that although there is pain and stiffness, there is no swelling. Such injuries are treated by tight bandaging or "strapping"—to the end that the parts may have rest and support while recovering. The word sprain always describes injuries that are accompanied by swelling, which is caused by bleeding into the tissues, and which may be either simple or complicated. A simple sprain is marked by pain, tenderness, loss of power and swelling, and a complicated sprain by more serious trouble, such as torn cartilage or broken bone.

Proper treatment of a sprain varies with the extent of the mischief, but there are certain things that must always be done. Bleeding into the tissues must be checked, inflammation prevented as far as possible; pain relieved; absorption promoted; the torn ligaments repaired, and the joint restored to a condition in which it can perform its work properly.

It has been said that slight sprains need little treatment, but a great deal of care; for a sprain that is so slight as to be almost unnoticed is often followed by structural changes in the joint. A sprained joint should be tightly bandaged at once, and the flow of blood into the tissues should be checked by means of cold applications.

A little later there is nothing so useful as proper massage to promote absorption and restore power to the joint. If the injury is to a leg, the patient should be put to bed; if to an arm, he should use a sling. However slight the injury may appear, the part must have rest if it is to get well.—Youth's companion.

The New Parasols

This season has brought out many new and charming creations in women's parasols. There is a profusion of color combinations unusually pleasing and attractive. The handles, too, have a wide breadth of design, odd and fascinating in their various shapes. The parasol illustrated has a pretty covering of Beauty Rose silk, with narrow black velvet ribbon and cream applique, and a border of black and white vertical stripes. The handle is beautifully carved, and of the long Directoire design. A really effective parasol for the present season.

THE BAHAMAS.

Looking Forward to Annexation to Our Dominion.

An article copied in this paper with regard to the aspirations of the Bahamas as to become a province of Canada suggests the question that occurred to many, why it was that the Bahamas, which have expressed themselves so favorable to political union with the Dominion, were not represented at the trade conference at Ottawa, which has resulted in a reciprocity agreement between the West Indian Islands and the Dominion. A glance at a map suggests an explanation. The islands that sent representatives to Ottawa belong exclusively to the Windward and Leeward groups, with Trinidad and the mainland colony of British Guinea added. The Bahamas lie far to the north and west of those islands. They have no commercial connection with them and their problems are altogether different. They are not interested in sugar and cocoa, and think more of the fruit trade and of the winter tourist traffic. Their attitude, as we should gather from the accounts that have reached us of the enthusiastic colonization movement, is that they want free trade with Canada, not in a few articles only, most of which do not particularly interest them, but in everything, and believe that this can only be obtained by that absolute union which would result from their joining the Canadian federation. They look forward to a full course banquet at the Dominion table in the near future, so why should they bother with an advance sandwich, and waste time and divert the attention of their people by a discussion of the ingredients to be put into that sandwich.

His Excellency Sir William Grey-Wilson, who has been the Governor of the colony for the past six years, and retired on May 24th, has been an active promoter of the annexation idea. If we mistake not, his advice to the island legislature has been to have nothing to do with the trade negotiations, which were not of particular interest or importance to them, but to wait until the autumn, and then, if the consent of the Imperial authorities can be obtained in the meantime, to send a deputation to Ottawa to discuss, not a mere trade agreement, but political union. At least this is in accordance with the views privately expressed by the governor when recently here. It will be remembered that Sir William is a cousin of our late Governor-General. Lady Grey-Wilson is a cousin of the Rev. Dr. Barclay, of this city. We see it stated that His Excellency will be gratefully remembered for his very wholehearted devotion to the interests of the colony, and that Lady Grey-Wilson, by her unfailing kindliness, genuine goodness, dignity, approachability and tact, has endeared herself to the people there.—Montreal Witness.

GROWING SUGAR BEETS.

England May Become a Sugar-Producing Country.

A serious attempt is now in progress to make England a sugar-producing country. When the question of home-grown sugar beets was first brought up seriously some fourteen years ago the sugar bounties were undoubtedly one of the chief reasons that discouraged the idea. The British farmer, moreover, is very conservative, and in late years financiers have been more wary than before of home industries, especially if of an experimental nature.

But now both farmers and financiers have decided to give the industry a thorough trial. This spring about 3,500 acres between Yarmouth and Norwich have been planted with sugar beets. A factory for the manufacture of sugar is being erected near Cantley station, Norfolk, in the middle of the district, and preliminary engagements have been made for the building of two other factories.

Experiments in sugar beet growing were carried out last year under the auspices of the Board of Agriculture in seven centres in England. The Board's report has now been issued, and is decidedly encouraging for those concerned in the experiment in East Anglia mentioned above. The conclusion of the Board of Agriculture says definitely:

"There is no question that beets with high sugar content can be grown in this country and give yields equalling if not exceeding those obtained on the Continent."

The report points out that "in no case did the crops receive more attention than would be given to growing mangolds or swedes by a farmer of ordinary skill. In no case was subsoiling carried out, a practice which on the Continent is regarded as indispensable. It is therefore significant to learn that the average yield of sugar beets in Prussia did not exceed six tons an acre, a figure only slightly in excess of the yields obtained at the Devon or Essex stations, which have been characterized as failures in view of the better results obtained at the other stations."

The venture of course has still to be regarded as experimental. It has been proved beyond question that sugar beets will grow in England as well as on the continent. It may be taken as beyond controversy that the crop is generally suitable to English soil.

More than soil, however, has to be considered, and great field experiments on the scale now being attempted in East Anglia differ from trials on small plots.

The difficulties in the way of this new industry are, however, well worth facing. Great Britain pays annually to the Continent for beet sugar no less a sum than $90,000,000. To grow at home crops worth even a moderate percentage of that amount would be a huge boon for the English agriculturist.

FROM BONNIE SCOTLAND

NOTES OF INTEREST FROM HER BANKS AND BRAES.

What is Going on in The Highlands and Lowlands of Auld Scotia.

The death rate in Troon last quarter was 10.4 per 1,000.

A labor exchange is about to be established in Wick.

Charles Falconer, provision merchant, Gorbals, was fined $100 for selling margarine as butter.

About 3,000 quarters of oats were shipped from Macduff the other day.

The death has occurred in Edinburgh of Alex. Kerr, a Crimean and Indian Mutiny veteran.

In recovering £67 10s. 6d. an Edinburgh man recently expended £72 8s. 8d. in legal expenses.

Glasgow possesses 14 Gaelic speaking citizens who do not know the language of the tax collector.

A new steamer, Queen Alexandra, has been built for the Clyde service of the Turbine Steamers, Limited.

In Fife and West of Scotland complaint is being made that old or weak miners are not being re-employed.

The population of the city of Aberdeen on the census day was 163,891. This is an increase of 10,388 over 1901.

Kirkaldy and Dysart School Board are to erect a new school at Pathhead for the accommodation of 11,050 pupils.

The Duke of Buccleuch is to present a site of about one and a half acres for an infectious diseases hospital in Dalkeith.

Not since the Lanarkshire and Renfrewshire foxhounds hunted in Lanarkshire, has there been such a crop of foxes as now.

Peter Sloan, chief electrician on the Titanic, was a Scotsman well-known in the shires of Wigtown, Kirkcudbright and Ayr.

At Dundee several hundred pounds of damage was done on board a German steamer through the bursting of a paraffin lamp.

One of those on the Titanic at the time of the disaster was Wm. Moyes, son of Mr. Alexander Moyes, head-master of the Elementary High School, Stirling.

At Dundee the Caledon Shipbuilding Company have booked an order for a twin-screw oil-tank steamer, with carrying capacity of 4,500 tons, to steam 10½ knots.

The works formerly belonging to the Armadale Iron Company at Bathville, Armadale, which recently ceased operations, have been purchased by Mr. James Wood, of Wallhouse.

Wide-spread regret was expressed in Alloa when it became known that Robert Millar, engineer, North Street, Alloa, was on the engineering staff of the ill-fated Titanic, and was lost.

There was unearthed in an old garden in Jedburgh the other day sculptured stones which had been carried off from Jedburgh Abbey in the days when its loose masonry was frequently "looted" by needy burghers.

Young Folks

HOW DAVID WON.

"Fourteen, fifteen, sixteen strokes! Good boy, Roger!" David generously applauded as, dripping and shivering, Roger climbed over the slippery edge of the float.

"How many?" chattered Roger.

"Sixteen. Two more than yesterday."

"Goody! How many strokes can you take?"

"Oh, six or seven. I didn't count."

"I wish you'd try again, David. We cannot have that little skiff for our own until we can both swim twenty-five strokes. You know what father said."

"Huh! I can swim all right, but I go to the bottom, and you stay on top, where folks can see you. I'm a crab, I guess." David splashed his legs up and down in the water with a fine show of indifference. "Anyhow, it's more fun to dive. It's fine way down under the water. You can see all sorts of queer things, kelp and sea-moss and lobsters."

"My! It must be lots of fun! But how do you stay down so long?"

"Ho! That's easy! I take a good long breath, and then I just hold on."

Father, who stood some distance away, smiled when he overheard this conversation. He knew David's ability to "hold on," and he hoped the plucky little fellow would win. He knew that in spite of his "don't-care" air, David did try hard to learn to swim. "He's younger than Roger," thought father, "so it may take him longer, but I believe that he will stick to it until he learns how."

The days passed, and before long Roger could swim his twenty-five strokes, but David, although the better diver of the two, still swam "like a crab."

At this time the much-coveted little skiff lay at the steamboat wharf, a mile away. The boys visited it often. They adjusted the rowlocks, handled the tiny oars, and took imaginary trips in the little boat.

Father watched them, somewhat puzzled. If David could only learn to swim!

Then one day something happened. How it happened neither Roger nor David could tell very clearly, but mother at the door, and father in the motor-boat, heard a cry, and saw two struggling little forms in the water near the float; then the bobbing heads disappeared beneath the surface. Mother could see one sturdy brown hand clinging to the ring in the corner of the float. "Can he hold on?" she whispered, as she hurried down over the rocks.

Father was there first. He caught the clinging little hand and drew up on the float not one boy, but two. David was holding fast in his left hand a corner of Roger's bathing-suit. Mother clasped them both in her arms without a word.

"Well, how did it all happen?" asked father, a little later, when the boys sat toasting themselves before the open fire.

"Oh, I caught my foot in a rope when I was trying to dive," said Roger. "I pretty nearly went under the float, but David dived and caught me."

Father stroked David's curly head. "I'm proud of my son," he said.

"Oh, I didn't do anything," protested David, much embarrassed. "I just held on."

That evening, after the boys were fast asleep, father took a trip to the village, and came home towing something behind the motor-boat.

When the boys looked out the next morning, the dear little skiff lay at the moorings. A big sign that stood upright in the stern read, "For Roger and David."

"But I can't really swim, father," said David, trying to conceal his delight.

"That's all right, my son!" returned father, heartily. "You will soon learn. I have no fear for a little lad who can 'just hold on'!"—Youth's Companion.

To make lettuces crisp, put a pinch of powdered borax into the water in which you wash them. Let them soak for half an hour or so in this, then shake them from water, wipe each leaf separately after well rinsing, and you will be delighted at their crispness. Salted water softens them, but borax cleans and freshens them up.

When putting down straw matting care should be taken to stuff up the crevices between the boards of the flooring with putty. If this is not done, dust will rise through the cracks and, penetrating the straw-work, bring a great deal of extra dust into the room. It is also a good plan to cover new matting with a thin coating of varnish, both of these precautions doing much towards preserving it.

It is well known that new curtains are difficult to wash. A lot of soap powder, etc., as well as labor, is required to extract the lime. Now all this can be avoided by steeping the curtains overnight in water in which a lump of salt has been dissolved. By this means the soap and labor are saved, for the salt draws out every bit of the lime.

Exeter Advocate,

Sanders & Creech, Props.

THURSDAY, JUNE 6, '12

Everybody who has occasion to travel on the L. H. & B. line will agree with the following from one of the Clinton papers,—"That we have a very poor and slow service from Clinton to London goes without saying. When a person desiring to go to London is compelled to spend two hours and twenty minutes going forty-eight miles, in an old, light coach, bumped over light rails on an uneven roadbed, he is not inclined to have a very high opinion of the consideration shown by the G.T.R. to their patrons on this particular line. If the Boards of Trade in the town's from Wingham to London would take the matter up probably the service would be improved."

VERY TRUE—The Tweed News says—Our staid old business men and much moneyed citizens go about their duties here in a very methodic way, and they are almost as quiet as the proverbial clam, but let one of them land himself out in Saskatchewan or Alberta or British Columbia and he begins to jump in the air and holler loud enough to be heard all over America, and they shell out their money in any game that comes along. Ontario men make great boosters when they become Westerners. The mystery is why they can't do as much in Ontario. If we all began to boost Ontario as much as we are boosting outside places, Ontario would be the greatest spot on the upper side of the earth. And this old province is worth boosting.

REASONS FOR STAYING ON THE FARM

It is the safest real estate investment.

It is the best place to avoid doctor bills.

There is no place like it for bringing up a family.

It affords the greatest opportunity to cultivate the bump of optimism.

It is the foundation of all national prosperity.

It produces the eatables and wearables for the nation's people.

It offers the best chance to live in peace with God and man, than which nothing better can be desired.

It gives a man room to build his own home. In town another is likely to build the home for you—and in the end own it.—

READING IN BED.

The old theory used to be that the practice of reading in bed was very injurious to the eyes. To those addicted to the habit the remarks of Dr. Carl Seller will be of interest. He states that there is no valid reason to be urged against using the eyes in a proper manner in a recumbent position—such use is the least tiresome and can be persisted in for longer periods without damage than any other position. Three easily avoided errors cause all the harm possible from reading lying down, the first often leading to the other two. They are insufficient or wrongly directed light, short reading distance, and tipping the book out of right angles to the line of vision. If however, everyone who reads lying down will so arrange his bed or lounge so that the light comes over the head without striking the eye, and falls well upon the page, if he will hold his book at a long reading distance and take care that the line of letters shall be at right angles to the line of vision he can be sure of doing his eyes no more harm than if sitting up. More than this, there is much positively in favor of reading lying down. Dr Seller concludes,—"The recumbent posture allows more rest of the bodily structures than the sitting posture, and there is greater possibility of resting and repair in that position."

THE WESTERN FAIR LONDON ONTARIO.

The management of the Western Fair, London, Ont., are sending out this week their Prize List, Entry Forms and other kinds of advertising matter, announcing the coming Exhibition in September The dates are September 8th to 14th This is the oldest Exhibition in Canada and it is becoming more and more popular each year. The prize list contains some very valuable information for intending Exhibitors. From the breeder's standpoint this is one of the best Exhibitions held, as a large number of buyers always attend to secure the best animals that can be obtained. The parade of the Live Stock daily is something of great interest and attracts large crowds. Stockmen should include this Exhibition in their list. Write the Secretary, A. M. Hunt, London, for prize lists and all information.

AFTER MORE RECORDS

Prize List of Canadian National Exhibition now being distributed.

The Prize List of the Canadian National Exhibition, Toronto, August 24th to September 9th, has been issued. It shows the usual liberal prizes in all departments of live stock, agriculture and home work, amounting to a total of $55,000. It is also evident that the list has been carefully revised to have it in keeping with up-to-date conditions.

A few of the innovations that might be noticed are provision for competition in breeding classes for strings of five horses; a number of sections added to provide for the newer breeds of poultry; $100 in prizes for onions, tomatoes and celery in baskets. The last named is a government suggestion meant to encourage export of these commodities.

On the whole, the list shows a distinct advance on its predecessors, and as the attractions will include a review of cadets from all the overseas dominions of the empire, the Scots Guards Band and a brilliant historical spectacle the Siege of Delhi, it is safe to predict another record year for the Canadian National.

Dashwood

The celebration, a report of which will be found in another column, held on June 3rd, was a great success. The parade and sports were enjoyed by everyone.—Mr. Willie Gossman and Mrs. W. Sandercock and children of London spent the holidays with their parents here.—Mrs. Herman Bidt and children of Forest are visiting with friends in town for a few days.—Miss Dora Kraft of Exeter spent Sunday under the parental roof.—Mr. Kennedy of London was the guest of Miss Long over Sunday.—Mr. Gordon Goetz of Sarnia spent the holidays with his parents here.—Mrs. Dan. Hartleib and children of Exeter visited her parents, Mr. and Mrs. Fred Gossman, over Sunday.—Mrs. Ted Harness and daughter, Greeta, of Exeter spent Sunday and Monday with her parents, Mr. and Mrs. Fred Genttner, Sr.—Miss Katie Stire of Hensall spent the holidays at her home here.—Mr. and Mrs. Sylvanus Wismer and family visited at the home of the latter's mother Mrs. Miller, on Sunday.—Mr and Mrs. Dan McIsaac of Crediton spent Sunday and Monday with friends in the village.—Miss Bertha Guenther of Centralia spent the holiday with her parents here. Miss Bertha Brenner who has been in Parkhill for the past four months, returned to her home Monday.

Crediton

Rev. Beese of Hespeler occupied the pulpit in the Evangelical church last Sunday morning and evening. The reverend gentleman preached excellent sermons which proved very interesting.

Will Knetchel, wife and family and Miss Mildred Braun of Berlin came here for the week end in their auto and spent the time the guests of Mr. and Mrs. Sam Brown.

Herb Ember and wife visited Mr. and Mrs. Wm. Reid of Bayfield on Saturday and Sunday.

Chas Zuefle of Hensall visited his mother, Mrs. Chas. Brown on Tuesday.

A large number from here spent the King's Birthday in Dashwood. Our boys put it all over Fullerton at the ball-game and came out with a score of 18—5 in their favor. The first part of the game was close until the Fullerton pitcher blew up and then our lads commenced to slug the ball all over the field. King made a three base hit and Hugo Shenk as a Brownie graduate, is certainly making a name for himself. He made two splendid hits which came in just right and helped to swell the score.

The Greysteadsa of Denfield play our boys here on Friday night. This team usually makes ours hustle and our people are assured good value for their money if they attend.

Tuesday was circus day in Exeter. Quite a number went over to see the elephant and drink the pink lemonade.

Rev. Robert Hicks is attending the Methodist Conference in St. Thomas this week. Next Sunday morning the service will be in charge of Miss G. Hill, who has been attending the Deaconess Home in Toronto, while in the evening there will be no service.

The many friends of Rev. E. Burn will regret to hear that his father died in Hespler on Monday, at an advanced age. Rev. Burn and family attended the funeral on Tuesday.

August Ewald has completed the reroofing of his dwelling, which will be a decided improvement.

Wedding bells will ring in our midst next week. More particulars to follow.

Sam Brown expects his new Reo touring car this week.

John T. Hirtzel is remodeling his barn and making a hip-roof out of it. Jack believes in having things right and convenient.

How would it be if our business people got together and had the street sprinkled with oil. Other places have tried it and it proved a decided success Now is the time to take it in consideration before the hot dusty weather is at hand.

The Evangelical Sunday School has decided to run an excursion to Goderich some time the last of this month. Arrangements will be made to give all an opportunity to see the soldiers while in camp. This is an opportunity which none should miss. The date will be given out as soon as final arrangements have been made with the G.T.R.

LUMLEY.

A few from here attended the funeral of the late Mrs. Dew of Hurondale on Sunday afternoon.—Miss Nan Horton is in Seaforth visiting her parents.—The daily papers of Saturday contained a list of the graduates at the General Hospital for 1912, among them we notice the name of Miss Anna Ellerington, who ranks among the top. We extend our heartiest congratulations to her, as this vicinity was her old home.—We are pleased to see Stewart McQueen able to take frequent drives.—Master Jas. Broadfoot is visiting relatives in Brucefield and Seaforth.—Miss Jennie Horton's many friends in this section will be pleased to hear of her marriage in Moose Jaw, Sask., on May 28th, to Mr. George McDonald of Mortlack, Sask.—Mrs. Horton and daughter Mrs. Horney of Exeter visited relatives here first of the week.

GRAND BEND.

Mrs. Carriere is at present laid up with rheumatism.—Quite a number from here went to Dashwood Monday.—Mr. J. Southcott met with an accident last Saturday. While standing on the seat of his wagon to drive a post he accidently fell to the ground breaking his collar bone.—Mr. Campbell of Winnipeg is visiting his sister, Mrs. Carriere.—Cyrus Green was in Port Frank Monday.—Mr. Campbell of Kincardine is visiting his aunt, Mrs. Carriere.—A number from here attended the circus in Exeter on Tuesday.

WINCHELSEA

Miss Hamilton, teacher, spent Sunday at her home in Cromarty.—Mrs. Eli Heywood has returned from a visit in London.—Messrs. John Skinner and L. Robinson spent a day in London, last week.—Mrs. Wm. Delbridge is still ill and under the doctor's care.—A large number of our people took in the circus at Exeter on Tuesday.—

THE "EROICA" SYMPHONY.

Beethoven's Passion When Napoleon Became Emperor.

Even when political capital was not to be made of it, the favor of kings and courtiers was, prior to the middle of the nineteenth century, sought by the artists in various fields of activity, who were generally dependent for their position upon those high in political life, and even the most uncompromising among them found it expedient to play polite politics in the interest of their art by dedicating the choicest of their works to noble patrons.

The most notable example of a masterwork with a political origin is Beethoven's "Eroica" symphony. General Bernadotte during his residence in Vienna in 1798 as ambassador from the French nation suggested to Beethoven the composition of a symphony in honor of Napoleon. At that time Napoleon was looked upon as the champion of freedom, the savior of his country, the embodiment of republican ideals, with which Beethoven was in thorough sympathy, and he willingly accepted the proposal. Before the symphony was published Napoleon became emperor, and when the news reached Vienna Beethoven was violently angered. "After all, then, he is nothing but an ordinary mortal! He will trample all the rights of men under foot to indulge his ambition and become a greater tyrant than any one!"

With these words he seized the music, tore the title page in half and threw it on the ground. He never again referred to the connection between his work and Napoleon until news of the latter's death reached him. Then he said, "I have already composed the proper music for that catastrophe," meaning, of course, the funeral march. But the whole symphony, with its essentially revolutionary character, is a musical portrait of Napoleon as Beethoven idealized him. —Bookman.

IRON TONIC FOR TREES.

Plant Nails Among the Roots and a Vigorous Growth Results.

A dozen large nails planted among the roots of a tree assure the tree of health, because the vegetable saps cause the oxidation of the iron and the sap carries ferruginous salts through all the living cells and circulation vessels.

Not many years ago one of the sights of a certain French cemetery was a tree, half green, half rust-colored, luxuriantly leaved upon both sides and in flourishing condition. When the tree died and preparations were made for an examination of its roots it was almost impossible to exhume it. When all the ground around it was loosened and the roots were exposed it was found that the tree when a sappling had clasped its young roots around the baste of an iron balustrade encircling a tomb. The roots of the tree had run in and out between the iron bars of the fence. Exactly half of the tree had come in contact with the iron, and that half put forth a growth luxuriantly leaved in rusty brown. The half that had not touched the iron developed a growth of normal coloring. The tree as a whole was a fine specimen of healthy vegetable growth, but the side impregnated by iron far exceeded the green side in its output of vigorous leafage.

Sulphate of iron is of little value when sprinkled on the leaves of a sick tree, but powdered iron has a marvelous effect when introduced into the tissues by means of holes bored in the trunk. The holes must be filled with the powder and then corked with wooden plugs and well puttied over and around the plugs, so that none of the tonic can escape. To do its work the iron must be carried through the tree in the circulation of the sap.—Harper's.

TWO HURT IN RUNAWAY

Mitchell, June 4,—Two well-known farmers, Oliver Harris and S. C. Mallson of Munroe postoffice, were driving towards Mitchell and met a steam engine. The horse took fright, and both were thrown from the rig. Mr. Harris was severely injured, receiving a broken leg while Mr. Mallson sustained internal injuries, which it is hoped will not have serious results.

It is easier to leave the farm than it is to get back to it after you once in the city working as carpenter, bricklayer, carman, bookkeeper or clerk.

Beware of Ointments for Catarrh that Contain Mercury,

as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten-fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly on the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. CHENEY & CO. Testimonials free.

Sold by all Druggists, Price 75c. per bottle.
Take Hall's Family Pills for constipation.

MOUNT CARMEL.

A quite wedding took place in the R. C. Church here on Tuesday morning at nine o'clock when Miss Katherine Mary Carroll was united in marriage to Mr. J. Joseph O'Mara of Lucan.—Rev. Dr. Forster purchased a auto last week.—Mr. Timothy Coughlin has returned to his home from St. Joseph Hospital and is improving nicely.—Mr. Henry Doyle of Mecheche, Alta., is at present visiting his home here.—Quite a number from here attended the Circus at Exeter on Tuesday.—Mr. and Mrs. Meyers of Toronto, formerly Miss Mary Ryan of this place, are visiting her uncle Mr. Thos. Ryan this week.—Regan Bros. shipped a carload of cattle to Toronto last week.—Miss Brown of London is visiting her sister, Mrs. T. J. Hall.—Carroll Bros. are building a new house, and when completed will be one of the finest in the township.—Mr. John Rowland purchased a new rubber tire buggy last week.—Mrs. R. Walsh of London visited her sister Mrs. D. O'Connell for a few days last week.—A large number passed through here, on their way to Dashwood to attend the races there.—Mr. Thos Rowland is building an addition to his barn which will make a great improvement.

Positions For Girls

We have a uumber of vacancies in each of several departments of our knitting mill. The work is light and clean and the factory new and entirely up to date, light and airy. A splendid opportunity for girls to earn for themselves. Highest wages.

Father, Mother, Sister, Brother
All Should Use Parisian Sage.
PREVENTS BALDNESS—BANISHES DANDRUFF—STOPS FALLING HAIR AND ITCHING SCALP
PARISIAN SAGE is a family hair tonic and dressing that will do much good in every home.
The man who uses PARISIAN SAGE if only occasionally will never grow bald. Baldness is caused by dandruff germs which dig down into the roots of the hair, devour its nourishment and cause the root to die and the hair to fall and thin out.
PARISIAN is a scientific hair remedy that not only kills dandruff germs but gives the hair root just the same nourishment that nature gives it.
PARISIAN SAGE first kills the germs, then nourishes the weakened hair root and causes a growth of healthy hair.
This same nourishment (PARISIAN SAGE) causes the hair to grow vigorous which means that the hair becomes full of life and lustre, and grows radiant and beautiful.
Thousands are wasting time, losing hair and growing bald because they are using superficial tonics. While they may clean the scalp and make it feel refreshed, they do not get to the root of the hair where the real destroyer of hair, the pernicious dandruff germs, thrives and multiplies.
MONEY BACK DANDRUFF REMOVER
Get a 50 cent bottle to-day, and if you are not satisfied that it is just as good as claimed, your money back at W. S. COLE and druggists everywhere.
Girl with Auburn hair on every carton and bottle.

O-Pee-Chee Chewing Gum
"I wonder if Daddy has any O-Pee-Chee Gum in his pocket?"
That's what mamma and the little ones say every night when Daddy gets home from work. And Daddy never disappoints them. He *knows* that O-Pee-Chee Gum is good for them, and no matter how busy he is, he always finds time to get a package of O-Pee-Chee before going home.

O-Pee-Chee Gum Co. Limited
LONDON CANADA

BRUSSELS—The officers of the East Huron Liberals elected recently are—President, Alex. McLaughlin, Fordwich; 1st vice-president, Wm. Elston, Wingham; 2nd vice-pres., John Gillespie, Whitechurch; sec'y-treas., M. Black, Brussels; auditor, W. M. Sinclair, Brussels.

HENSALL

Chas. Grassick, medical student, is home for his holidays.—Miss Carrie Macarthur has returned after spending some months in Toronto.—Margaret Drysdale left to visit her brother, Ralph in Dubic, Sask.—Rev. Mr. Hibbert of Gorrie preached in the Methodist church Sunday, while on his way to conference.—Mrs. T. Kelly and son left last week to join her husband at Edmonton, Alta. She was accompanied by her brother, Harold Stoneman, who will join his father at Saskatoon.—The annual Union Sunday School excursion from Hensall, goes to London this year, with Springbank as its objective point, on Tuesday, July 9th.—While a mare belonging to George Ricker was standing in the blacksmith shop of Brown & Clark, it pulling back on the rope which caught under its jaw in such a way as to throw its head up, breaking its neck, causing instant death. The animal was valued at $200.—On May 28th, at 3 o'clock, a happy event took place at the home of the bride, London Road, Hensall, when Mrs. James McArthur was united in marriage with Mr. Fairbairn, who for some years has resided in the West. Rev. E. McL. Smith performed the ceremony in the presence of a few members of the families of the contracting parties. The happy couple were tendered a reception at the home of the groom's sister Mrs. James A. Bell, London Road.

BIDDULPH.

Mr. Edward Maharr, a farmer about 35 years of age, residing with his sister on the Roman Line, two miles west of Whalen, was found by his sister in an unconscious condition in his barn. Dr. Lang of Granton was immediately summoned, but Mr. Maharr was dead before he arrived. Mr. Maharr was in comparatively good health, and was preparing to go to Lucan. It was thought at first that he had fallen from the scaffold, but the doctor found no bruises and pronounced death due to heart failure. Deceased leaves one brother and one sister.—Patrick Toohey of the Roman line died recently from a complication of diseases, caused first by the bursting of a blood vessel. He leaves a wife and one child. He had been married two years. Mrs. Toohey's maiden name was Miss Rider.—The heavy and continuous rains have spoiled a large percentage of spring grain on the low ground. Some people have sown it over again.—Mr. John Hooper, who had his buildings completely destroyed by lightning two years ago, has now erected one of the finest barns in Western Ontario. It is 102 feet long and 40 feet wide, and is equipped with iron stanchions for ties, a silo 14x45, a splendid hog pen, and a six horsepower gasoline engine.

WHALEN.

(Too late for last week.)

Mr. Frank Squires and sisters attended the re-opening of the Elimville church on Sunday.—Mr and Mrs. Chas. Duffield of Kirkton spent part of this week visiting friends around here.—Mr. Newton Millson returned to his home at Windsor after spending a week with his parents and friends around here.—Under the medical attendance of Drs. Lang of Granton and Stevenson of London, and the careful nursing of Miss Ida Hobbs, graduate of the St. Joseph Hospital, Mrs. J. Wright is improving nicely, and it is expected will be up around very soon.—The 24th holiday was enjoyed by our young people to the limit. Messrs. Hector and Clarence Millson took in the picnic at Devizes in London Town ship. Others went to Woodham and several took in the festival at Saintsbury.—The electrical storm last week did little damage around here. Mr. Dennis Heenan had his house struck and slightly damaged; also Mr. Geo. Haskett had a horse struck and is not expected to get better.

GOOD GRACIOUS

It was the first vaudeville performance the old colored lady had ever seen, and she was particularly excited over the marvellous feats of the magician. But when he covered a newspaper with a heavy flannel cloth, and read the print through it, she grew a little nervous. He then doubled the cloth again and read the letters accurately.

This was more than she could stand, and rising in her seat she said:

"I'm goin' home. This aint no place for a lady in a thin calico dress."

Biddulph—A. K. Hodgins, reeve of Biddulph, who has been confined to his home for the past three months with rheumatism, is able to be around again with the help of a cane.

ST. MARYS—The voting on the $42,000 public school by-law to build a new Central School building took place Saturday, and was defeated the third time by the property owners by a majority of ten.

CLINTON—The Ontario street parsonage was the scene of a happy event on May 23rd, when Miss Delie Hazel Finch, daughter of Mr. and Mrs. Jas. Finch, was united in marriage to Mr. John F. Dixon.

PARKHILL—The Hastings House site here has been sold to the National Trust Company, it is understood, for $2,300. This is for 125 feet of the property. Keen interest attaches to the sale, because it is believed the deal has to do with the building here of a substation of the electric line from Stratford to Grand Bend, being undertaken by the Canadian Northern Railway.

LUCAN—H. A. McEwen, for five years was manager of the Merchants Bank here, has been moved to Montreal and left on Tuesday. Mr. Lewis of the Lancaster branch, is his successor. Mr. McEwen's departure is regretted by the entire village, not only in a business way, but socially and otherwise. His genial and affable manner won him a host of friends, who presented him on Friday evening with a farewell address accompanied by by a club bag and an umbrella.

Semi-ready Suits
To Special Order
IF THERE is no Semi-ready store in your town you may have a Semi-ready suit made to your special order from patterns. Send for "King's Own" serge suits at $20, with style book and self-measuring forms. Guaranteed. Sold at the same price everywhere in Canada. Have you seen the style book, "Sir!" One for you at Semi-ready Limited, Montreal.

T. G. Creech

ZURICH.

Rev. C. C. J. Maass attended the annual Synod of the Lutheran church at New Hamburg last week.—Mrs. Harry Weber visited friends in Berlin and St. Jacobs last week.—The trustees have started laying side-walk. Mr. Louis Weber is foreman and finisher. The work is done by day labor.—It is reported that Mrs. Nicholson of Blake, intends moving the Blake hotel building to Zurich and convert it into a boarding house.—Word was received last week, announcing the death of Mrs. Joseph Smith, at Crosswell, Mich. The deceased was formerly a resident of this Township and was highly respected by all her acquaintances. Mrs. Wm. O'Brien, her daughter, left to attend the funeral.—Mrs. Jacob Howald is very poorley at present. She was operated on by Dr. Gunn of Clinton. And while the operation was successfully performed, her vitality is so impaired that her recovery is doubtful.—Mr. Gideon Koehler had the misfortune of having his leg broken, on Saturday, while assisting Mr. Wm. Calfas in doing some repairs on his traction engine. The accident was caused by one of the large cog wheels falling over, and catching Koehler before he had a chance to get out of the way.—Mr. Conrad Stemon met with a bad accident on Wednesday evening on the Zurich road. He was driving one of Mr. Wurm's livery horses and leading another he had bought, when Mr. Dechert's dog ran out. Stemon was dragged out of the rig and landed on his head. The horses got away from the buggy.—Miss Alvada Weselch of London, arrived here on Wednesday for a visit with her parents.—J. J. Mesner, M. P., has returned from a three weeks trip to Western Canada.—Mrs. Gumbelton of Detroit, is visiting her parents Mr. and Mrs. John Laporte, of the Sauble Line.—The marriage of Miss F. Laporte to Mr. Louis Beneteau, of Canrad River, will take place place on June 11th.

BETTER THAN SPANKING

Spanking does not cure children of bed wetting. There is a constitutional cause for this trouble, Mrs. M. Summers, Box W. 840, Windsor, Ont., will send free to any mother her successful home treatment, with full instructions. Send no money but write her to-day if your children trouble you in this way. Don't blame the child, the chances are it can't help it. This treatment also cures adults and aged people troubled with urine difficulties by day or night.

YOUR capacity for mental effort is limited by your physical condition. Keep in good trim physically, and you'll never be troubled with "Brain Fag."
Labatt's Stout is a perfect tonic—mildly stimulating, nourishing and sustaining. It will keep your physical being in tune and give the proper balance of body and mind.
JOHN LABATT, LIMITED
LONDON, CANADA. 47

FOR WOMEN ONLY.
That is the nature of Dr. Pierce's Favorite Prescription—the one remedy for women which contains no alcohol and no habit-forming drugs. Made from native medicinal forest roots. Dr. Pierce tells its every ingredient on the bottle-wrapper. Prominent physicians and some of the best medical authorities endorse these ingredients as being the very best known remedies for ailments and weaknesses peculiar to women.

MRS. COFFEY.
This is what MRS. GENETTI E. COFFEY, of Longstreet, Ky., says: "I feel it my duty to write and tell you what your medicines have done for me. I was a great sufferer for six years from a trouble peculiar to women, but I am thankful to say, after taking four bottles of your 'Favorite Prescription' I am not bothered with that dreadful disease any more. I feel like a new woman. When I first wrote you for advice I only weighed 115 pounds—now I weigh 135.
"I thank you very much for your kindness. You have been as a father to me in advising me what to do, so may God bless you in every effort you put forth for good.
"I hope this testimonial will be the means of some poor suffering woman seeking health."
Dr. Pierce's Medical Adviser, newly revised up-to-date edition, answers hosts of delicate questions about which every woman, single or married ought to know.

NERVOUS DEBILITY
OUR NEW METHOD TREATMENT will cure you and make a man of you. Under its influence the brain becomes active, the blood purified so that all pimples, blotches and ulcers heal up; the nerves become strong as steel, so that nervousness, bashfulness and despondency disappear; the eyes become bright, the face full and clear, energy returns to the body, and the moral, physical and mental systems are invigorated; all drains cease—no more vital waste from the system. You feel yourself a man and know marriage cannot be a failure. Don't let quacks and fakirs rob you of your hard earned dollars.
NO NAMES USED WITHOUT WRITTEN CONSENT
THREATENED WITH PARALYSIS

BEFORE TREATMENT
Peter E. Summers relates his experience: "I was troubled with Nervous Debility for many years. I lay it to indiscretion and excesses in youth. I became very despondent and didn't care whether I worked or not. I imagined everybody who looked at me guessed my secret. Imaginative dreams at night weakened me—my back ached, had pains in the back of my head, hands and feet were cold, tired in the morning, poor appetite, fingers were shaky, eyes blurred, hair loose, memory poor, etc. Numbness in the fingers set in and the doctor told me he feared paralysis. I took all kinds of medicines and tried many first-class physicians, wore an electric belt for three months, but received little benefit. I was induced to consult Drs. Kennedy & Kennedy, though I had lost all faith in doctors. Like a drowning man I commenced the NEW METHOD TREATMENT and it saved my life. The improvement was like magic—I could feel the vigor going through the nerves. I was cured mentally and physically. I have sent them many patients and continue to do so.

AFTER TREATMENT
CURES GUARANTEED OR NO PAY
We treat and cure VARICOSE VEINS, NERVOUS DEBILITY, BLOOD AND URINARY COMPLAINTS, KIDNEY AND BLADDER DISEASES and all Diseases peculiar to Men.
CONSULTATION FREE. BOOKS FREE. If unable to call write for a Question Blank for Home Treatment.
DRS. KENNEDY & KENNEDY
Cor. Michigan Ave. and Griswold St., Detroit, Mich.

If you desire to see us personally call at our Medical Institute in Detroit as we see and treat no patients in our Windsor offices which are for Correspondence and Laboratory for Canadian business only. Address all letters as follows:
DRS. KENNEDY & KENNEDY, Windsor, Ont.
Write for our private address.

TORONTO CORRESPONDENCE

University of Toronto Convocation—The Navy Question—Toronto Spreading Out—The Weather.

The annual University of Toronto convocation, recurring each year in the early days of leafy June, marks the close of college activities for the academic year, and sends the last contingent of the student brigade, numbering many thousands, to their homes for the summer. The ceremony of convocation, as now carried out, brings a touch of old-world picturesqueness to this very material and commercialized city. A procession of professors and such students as remain in the city, consisting chiefly of the graduating class, all clad in mortar-board caps and gowns, forms at the main university building in Queen's Park and marches across the lawn to the new Convocation Hall where the proceedings are held. The chief function of the day is the conferring of the new degrees. The proceedings are enlivened by the students' exuberant interruptions, their feelings thus finding a free outlet after being pent up through the long examination grind of the last few mouths. Afterwards there is a garden party, when good-byes are said and student life for the year is at an end.

ONE OF THE BIG UNIVERSITIES.

The University of Toronto, with its many allied colleges, is now in point of attendance, one of the largest universities in the world. Judged from this point of view it has outdistanced such famous and time-honored institutions as Oxford and Cambridge. But there is a question in some minds as to whether it is yet influencing the life of the nation to the extent that it ought, in view of the number of its graduates and the money that is being spent on it. There is a disposition in some quarters to criticise the method by which it is managed. Its affairs are controlled almost entirely by a Board of Governors appointed by the Provincial Government, this Board consisting of eminent business men. There seems to be a tendency on the part of this Board to run the institution after the fashion of a private business and it may be that a little more publicity and a greater effort to bring the university into touch with the lives of the people would be a good thing.

President R. A. Falconer, after a five-year tenure of office, commands general respect. It is generally believed that he is looking after the details of the administration with wisdom. The students like him, though he is hardly the heroic figure to his flock that some university leaders in other centres have been.

A NAVY CONTROVERSY LOOMS UP.

Activity in the local Over-seas Club, occasioned by a visit of Honorary Organiser, Mr. Evelyn Wrench, of London, Eng., calls attention to various activities which have already been launched, or are under way, with a view to demonstrating to Canadians their duty of assuming a substantial share in the maintenance of the British Navy. There are many signs which point to the conclusion that we are soon to have an important discussion on this question. There have recently been a number of significant editorials in the Toronto News, edited by Mr. J. S. Willison, who is generally understood to have fairly intimate relations with Premier Borden. These pronouncements advocate the immediate contribution by Canada of two Dreadnoughts, to be followed by a permanent organization. Whether this represents the opinion of the Government it is impossible at this time to say. The politicians on both sides have shown some diffidence in grappling with the question, doubtless being unwilling to hazard making a mistake in gauging public opinion. And meantime it is being left to such organisations as the Over-seas Club to cultivate sentiment on the question.

The Over-seas Club hitherto has consisted largely of recent arrivals from Britain, but an effort is being made to bring native Canadians more prominently into the organization. Mr. Wrench is a young Englishman of very pleasing qualities and marked ability. It is generally understood that the chief personality behind the movement is Lord Northcliffe, the famous London newspaper publisher, who is an ardent Imperialist. Earl Grey, recently Governor General, is also much interested.

ANNEXATION AN ISSUE.

The chief issue in local politics at the moment is annexation—whether Toronto with its 425,000 population shall annex North Toronto with its 5,000 souls. The proposition was voted down by the ratepayers of the city last January, but a new situation has been created by the attempt of the Mackenzie and Mann interests to get an extension of franchise for their Metropolitan railway within the limits of North Toronto. If they succeed it may complicate matters when Toronto takes over and runs its own street railway, as it expects to do nine years hence. Probably both municipalities will vote on the annexation question in the near future.

North Toronto is the last independent suburb of the city to be annexed. Toronto Junction, five miles west of the corner of King and Yonge streets, East Toronto to the east, Wychwood to the northwest and other areas, all have been taken in, while North Toronto, beginning scarcely more than two miles straight up Yonge street, has remained out. Opposition to the inclusion of this district has come in part from owners of vacant land in the city limits who don't want more competition. The statement is made that Toronto has room for 250,000 more people without enlarging its area. This statement has never been clearly demonstrated, and it is doubtful if there is room for such a growth without serious overcrowding. Certainly there is to the casual observer very little vacant space in Toronto to-day. All the choice building territories have been filled up with amazing rapidity and large sections, which a few years ago were market gardens, are to-day centres of a dense population. North Toronto, with its scant 5,000 population, has 2,500 acres of land and would furnish some means of expansion, within easy access of the city. It would be much more convenient than some of the other outside properties which are being divided up and put on the market by energetic real estate agents.

GRUMBLING AT THE WEATHER.

Following the "hottest summer" of 1911 and the coldest winter we have just passed through the wettest spring and people are wondering what our weather is coming to. The effect on trade has been depressing. The soda fountain men are in the dumps. So are the storekeepers with summer goods. Straw hats furnish a striking illustration. Last year straw hat stocks were half sold out by the middle of May. This year, the last of the month saw only an odd man here and there on the street wearing a straw hat and the stores in desperation putting on "Backward Straw Hat Season" sales at greatly reduced prices.

FOR HUSBAND-BEATING.

Binghampton Woman Goes Down for Latest Suffrage Tactic.

A despatch from Binghampton, N.Y., says: Mrs. Mary Dubal is believed to be the first suffragist in the United States to be given a penitentiary sentence for husband beating. Dubal complained that, in a fit of rage, she gave him a sound beating. City Judge Hotchkiss declared that if women desired men's prerogatives they should also have men's punishment when found guilty of violation of the law. He always dealt severely with wife-beaters, he said, and, accordingly, he sentenced her to three months in the penitentiary.

$1,000 MEDAL FOR ROSTRON.

Captain of Carpathia to be Rewarded by Congress.

A despatch from Washington, D. C., says: The Senate on Tuesday passed a joint resolution extending the thanks of Congress, and appropriating $1,000 for a medal to Captain Arthur H. Rostron, of the Carpathia, and also a vote of thanks to the Carpathia's crew.

CANDY AS A FOOD.

But Medical Folk Says Children Shouldn't Eat Too Much.

A despatch from New York says: The increasing consumption of candy in this country has been the subject of considerable comment at medical meetings here recently. According to the New York Medical Journal, it is generally agreed that the food value of candy is beyond dispute, and that it has a therapeutic use in certain forms of heart disease. The absence of fat, it seems, is an indication that children should not partake of it in unlimited quantities, although the only danger from eating it lies in the fact that it is often adulterated.

FRENCH ARE DYING OFF.

An Increase in Mortality of 34,869 for Last Year Recorded.

A despatch from Paris says: The French Minister of Labor, in the report of the vital statistics of France for 1911, says the number of deaths was 34,869 more than the total of the year previous, thus continuing the unfavorable situation of France as compared with that of growing nations.

MAKING SAFE INVESTMENTS

"Never Put All Your Eggs In One Basket"—This Should be the Investor's Motto—What Happened to Several Prominent Investors Who Overlooked This Idea.

If a farmer had $1,000 with which to buy stock for his farm would he spend it all for a pedigreed bull if he could buy no more? If you had $10,000 to invest would you put it all into one security? If you and the farmer were wise equally the answer would be an unhesitating negative. Yet, when it comes to investment many people place all their money in one security. The farmer's bull might die; your security might fall on evil days. Two bulls would be less risk. Twenty head of cattle would be little risk.

A few years ago a bank invested all its available funds in one security. It bought all it could with its own and its depositors' money and borrowed more. Something went wrong—things seldom go smoothly at first—and the bank had to borrow still more. Finally the crash came and the Farmers' Bank failed with practically all its assets locked up in the Keeley mine. The crash was inevitable, of course, but the ghastly folly of the directors putting all their shareholders' money into one security—and that a mine—was an error which no intelligent investor would ever be guilty of when buying for himself.

The good old rule, "Never put all your eggs in one basket," is one of the most important that the investor can follow, and then even if his judgment is at fault his average over say ten securities—unless they are all mines—will be much better than if he only purchased one.

Even when buying bonds, this distribution of risk, as it is called, is a very important matter. If you look over the investments of the insurance companies you will find this followed closely. In the Insurance Blue Book issued by the finance department at Ottawa all the investments of the insurance companies are given in detail. One of the smaller life companies fills three pages with its municipal investments alone. Then it has sound corporation bonds, such as those of electric light, power and tramway companies, some industrial bonds and a small but select list of bank stocks, and a few of those like C. P. R., but not many. Then they have mortgages and loans secured by collateral—chiefly bonds. Then one can find the securities of foreign governments, including such high-grade stuff as British consols. In short, the distribution of risk theory is followed to a commendable extreme.

The benefit of this is obvious. A few years ago the Sovereign bank found it had too many Chicago and Milwaukee bonds for the good of its health and incontinently was wound up. At the same time several insurance companies had to write off seventy-five per cent. of the par value of these bonds. Did they fail? Why, no. The advance in the price of their other investments more than offset this relatively small loss. But had they not followed the old advice about their eggs there might have been trouble. The Sovereign bank forgot it, however, and there was trouble.

The moral is obvious.

"INVESTOR."

PRICES OF FARM PRODUCTS

REPORTS FROM THE LEADING TRADE CENTRES OF AMERICA.

Prices of Cattle, Grain, Cheese and Other Produce at Home and Abroad.

Montreal, June 4.—Choice steers sold at $7.75 to $8.00; good at $7.25 to $7.50, and the lower grades from that down to $6.50 per cwt. Choice butchers' cows sold as high as $6.75 to $7.00, and good at $6.25 to $6.50, while the common sold down as low as $4.25 per cwt. Choice bulls sold at 6.7b to $7.00, good at $6.25 to $6.50, and common from $4.25 to $5.50 per cwt. Sheep sold at $5.00 to $5.50, and Spring lambs at $3.00 to $4.50 each. The demand for calves was good at prices ranging from $3.00 to $10.00 each as to size and quality. A weak feeling developed in the market for hogs owing to the increased supplies and prices declined 25 to 50c per cwt., with sales of selected lots at $9.25 to $9.50 per cwt., weighed off cars.

Toronto, June 4.—Cattle—Extra choice heavy steers for butcher and export, $7.60 to $8; good medium to choice butcher loads, $7.15 to $7.80; common, $5 to $6; canners, $3; choice butcher cows, fruz. at $6 to $6.50; bulls, $5 to $6.25. Stockers—Steady demand at $5.25 to $6 for good quality; extra choice heavy feeders, $6.25 to $6.50. Calves—Good veal, $4 to $7.90; bobs, $1.50 to $2.50. Sheep—Market lower; choice ewes, $5 to $6.25; bucks and culls, $4 to $5; spring lambs, $3.50 to $6.25 each. Hogs—at $8.40 f.o.b., $8.75 fed and watered, and $9.10 weighed off cars.

DIFFERENT NOW.

Since the Slugger, Coffee, Was Abandoned.

Coffee probably causes more biliousness and so-called malaria than any one other thing—even bad climate. (Tea is just as harmful as coffee because it contains caffeine, the drug in coffee).

A Ft. Worth man says:

"I have always been of a bilious temperament, subject to malaria and up to one year ago a perfect slave to coffee. At times I would be covered with boils and full of malarial poison, was very nervous and had swimming in the head.

"I don't know how it happened, but I finally became convinced that my sickness was due to the use of coffee, and a little less than a year ago I stopped coffee and began drinking Postum.

"From that time I have not had a boil, not had malaria at all, have gained 15 pounds good solid weight and know beyond all doubt this is due to the use of Postum in place of coffee as I have taken no medicine at all.

"Postum has certainly made healthy, red blood for me in place of the blood that coffee drinking impoverished and made unhealthy." Name given by Canadian Postum Co., Windsor, Ont.

Postum makes red blood.

"There's a reason," and it is explained in the little book, "The Road to Wellville" in pkgs.

Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human interest.

THE NEWS IN A PARAGRAPH

HAPPENINGS FROM ALL OVER THE GLOBE IN A NUTSHELL.

Canada, the Empire and the World in General Before Your Eyes.

CANADA.

Simcoe has passed a $36,000 sewage by-law.

Calgary's police census gives a population of 61,340.

All grades of sugar have been reduced ten cents per hundred lbs.

D. F. McMillan, a Regina city assessor, dropped dead in the city hall.

Two Toronto stenographers became heirs to an estate between $75,000 and $100,000.

Ross, convicted of manslaughter at Montreal, is dying in prison of tuberculosis.

The Toronto police believe they have arrested the leader of a gang of cocaine smugglers.

Complaint has been laid at Quebec against the C.N.R. for not posting time tables in French.

Forty million dollars will be spent by the railways in Montreal within the next two or three years.

Those who subscribed to the Y.M.C.A fund in Ottawa and have neglected to pay up, will be sued.

Alex. Blondin was shot and killed on the Algoma Central Railway line by his partner, Joseph Bond, who mistook him for a deer.

Conditions at Hamilton General Hospital are so discouraging that Mayor Lees has suggested that a new building be erected.

There are 23 ocean steamers now using the St. Lawrence route for which there is no drydock large enough in case of necessity.

The Militia Department reports its inability to get horses for camp purposes. Eastern breeders are sending their horses to the west.

Parents of Hamilton school children have been asked to express an opinion on the advisability of the keeping of two schools open during the summer.

John Macpherson, postmaster at Tracadie Road, N.S., died four years ago, but his death was never reported to Ottawa, his widow maintaining the office.

May will establish a customs record, and will reach about $9,000,000, an increase of two and a half millions. Twenty-four new customs ports have been opened by the Government.

The Dominion Mining and Exploration Company, with a paid-up capital of $2,500,000, is being formed by a number of leading Canadian and American financiers, to investigate mining and other propositions in Canada.

GREAT BRITAIN.

General Booth has been declared totally blind by the doctors in attendance.

The will of the Duke of Fife disposes of an estate of over $1,000,000.

London shipowners have declined to confer with the transport workers toward a settlement of the strike.

Mr. Asquith and Mr. Winston Churchill visited the Mediterranean to consult with Viscount Kitchener and others as to defences.

UNITED STATES.

The United States Senate passed the bill for an eight-hour day on Government work.

U. S. emigration returns show an exodus of 175,329 to Canada the past year, an increase of about 22,000.

John Maley, a Boston chauffeur, who ran down and killed two men while joy-riding, was sentenced to five years.

The Housewives' League of New York have taken up the fight against the increased price of anthracite coal through Mrs. Julian Heath, the president.

The New York excursion season opened with all vessels fully supplied with life-saving equipment, as a result of the lesson given by the Titanic disaster.

The United States House steel and iron tariff bill passed the Senate, repealing the Canadian reciprocity act and putting a universal duty of $2 a ton on print-paper.

More than a thousand waiters at the Waldorf, Gotham, Breslin, and Rector's hotels, New York, joined the strike already in force at the Holland and Knickerbocker.

GENERAL.

The London Welsh Male Choir won the President's prize of $2,000 at the Paris musical festival.

Postoffice clerks in Paris have been found who have trained snails to race as an office pastime.

The Powers have notified Turkey that they will not tolerate the closing of the Dardanelles Straits.

Prof. Wilhelm Grugel, Dean of the Hygienic Institute of the University of Rostock, Germany, announces that he has found the bacillus which causes foot-and-mouth disease, and a serum for rendering cattle immune against the malady. The serum is preventive and can be administered only to healthy animals.

Conforms to the high standard of Gillett's goods. Useful for five hundred purposes.

GILLETT'S PERFUMED LYE

MONTREAL HARBOR PRAISED.

Engineer Cowie Says It is Not Equalled in the World.

A despatch from Montreal says: Mr. F. W. Cowie, chief engineer of the Harbor Commission, who has just returned from the twelfth International Navigation Congress at Philadelphia, said on Friday:—"There is not a harbor in the world that equals ours in the economical handling of freight. Our most up-to-date freight handling facilities give us the most economical port handling in the world." Mr. Cowie continued: "My own personal impression of the Congress is, after listening to discussions by learned representatives from every civilized country in the world, that we, here in Montreal, have an initiative equal to that of any other port on the earth."

SIX PERSONS DROWNED.

Terrible Accident on Lac le Grand, Quebec.

A despatch from Chenneville, Quebec, says: Six people were drowned in a boating accident on Friday while crossing Lac le Grand Poisson Blanc. There were thirteen in the boat when it was upset in a squall, and seven managed to save their lives.

HOMELESS FROM FIRES.

Several Lumber Mills Destroyed in Newfoundland.

A despatch from St. John's, Nfld., says: Several lumber mills have been destroyed by fire and 175 persons are homeless as a result of the forest fires raging in the north of this island. The fire has been raging for the past two days.

BONDS PAYING 6% INTEREST

¶ The First Mortgage Bonds of Price Bros. & Company at their present price pay 6 per cent interest. The security they offer is first mortgage on 6,000 square miles of pulp and timber lands scattered throughout the Province of Quebec. The timber is insured with Lloyds of England against loss from fire. The earnings at present are sufficient to pay bond interest twice over, and when the mill now in course of construction is in operation, earnings will be enormously increased. These bonds can be quickly converted into cash, as there is a ready market for them.

¶ From standpoints of interest return and security, these bonds constitute an investment of exceptionally high order. There is every reason to believe these bonds will considerably increase in value.

We will be glad to send you literature further describing these bonds.

ROYAL SECURITIES CORPORATION LIMITED

BANK OF MONTREAL BUILDING — YONGE AND QUEEN STREETS TORONTO

R. M. WHITE, Manager

MONTREAL-QUEBEC-HALIFAX-OTTAWA-LONDON (ENG.)

THE CANADA BRICK CO., LIMITED

$100,000 7 per Cent. Preference Stock with 40 per Cent. Bonus of Common

THE Montreal Bond Company, Limited, are making a public offering of $100,000 of 7 per cent. cumulative preference stock of the Canada Brick Company, Limited, at 95 (par value $100.00 per share) with a bonus of 40 per cent. of common. The capitalization of the company is $1,000,000, divided into 7 per cent. preference, of which $200,000 will be issued and $600,000 common, of which $300,000 will be issued. Of the issue of preference stock $100,000 has been taken firm, leaving but $100,000 to be offered to the public. The great amount of building activity which is going on in Montreal at the present time has created a tremendous demand for all kinds of building material, and it is to supply a portion of the demand for brick that the Canada Brick Company, Limited, has been incorporated. The company are erecting two plants, one at Mile End and the other at St. Lambert, the combined capacity of the two being 15,000,000 bricks per year. As there are 325,000,000 bricks used in Montreal every year, and as the National Brick Company can supply but 135,000,000, it means that nearly 200,000,000 bricks are required to be brought in from other sources.

THE Canada Brick Company propose manufacturing their bricks by what is known as the sand-lime process, which is regarded as an improvement on the ordinary bricks made from clay. According to tests made by Milton Hersey & Company it is shown that sand-lime bricks are equal in strength and quality to the best kind of pressed brick, and at the same time possess greater regularity of form and uniformity of dimensions than the ordinary brick. In addition, the brick is impervious to climatic changes, which makes it invaluable in a climate such as we have in Canada. It is especially suitable for the better grades of buildings which are being erected in the city of Montreal at the present time. While in a measure the process is a new one it has been rapidly coming into favor with architects and builders. In Germany where it was first discovered in 1880 there are 220 plants in operation at the present time, while in the United States, where it was introduced in 1901, there are 74 plants manufacturing this class of brick. Canada has 10 companies engaged in its manufacture.

IN Montreal at the present time high class brick, such as will be on a par with that being manufactured by the Canada Brick Company, are selling at $18 per thousand, but the new company expect to manufacture brick at $7 per thousand, and have put their net selling price in the prospectus at $12 per thousand, which gives them a good margin of profit. As a matter of fact, they have already sold over half of their first year's estimated output at a figure considerably higher than the $12 mentioned in their prospectus. Placing their output at only two-thirds of full capacity, the company shows in profits, after payment of dividends and of manufacturing expenses, $36,000, which is equivalent to 12 per cent. on the common stock. As Montreal is situated at the present time, there are no available supplies of clay-making brick and other materials must be substituted. Everything, therefore, points to the likelihood of the new company securing an ample market and a good price for their output from the very start.

THE Company are fortunate in securing as members of the board of directors men prominent in the business affairs of the country. Among these are C. H. Cahan, K.C., F. Loomis, H. A. Lovett, K.C., G. F. Gyles, K.C., and A. G. Cameron. The prosperity which has attended other brick concerns in Montreal is likely to be duplicated to an even greater extent by the Canada Brick Company. Manufacturing will commence at the St. Lambert plant early in June.

APPLICATIONS for Prospectus or Subscriptions may be mailed direct to Montreal Bond Co., Limited, Montreal, or to any branch of the Bank of Toronto.

GOOD HEALTH FOR YOUNG GIRL

They Need the New Blood Dr. William's Pink Pills Actually Make.

Perhaps you have noticed that your daughter in her "teens" has developed a fitful temper, is restless and excitable. That she complains of weakness and depression, feels tired out after a little exertion, appetite variable, complains of hadaches and is growing pale. In that case remember that the march of time is leading her on to womanhood, and that at this period a great responsibility rests upon mothers. These are symptoms of anaemia—that is, bloodlessness, and no time should be lost in increasing and enriching the blood supply. Unhealthy girlhood almost always leads to unhealthy womanhood. All young girls in their teens need the help of Dr. Williams' Pink Pills, which enrich and increase the blood supply, and give sickly drooping girls the brightness and charm of perfect health. In proof of this Miss Zola Gordier, Morrisburg, Ont., says: "I was pale and bloodless and suffered from many of the symptoms of anaemia. I would tire easily and suffered from frequent headaches. My appetite was poor and I was very pale and easily discouraged. The medicine I was taking did not seem to help me, and then one day I read the story of a young girl who suffered similarly and was cured through the use of Dr. Williams' Pink Pills. I got three boxes of the pills and started to take them. Before they were done I began to feel better and look better. Then I got half a dozen more boxes, and before they were all used I was enjoying the best of health, and have continued to do so since. My young brother was troubled with rheumatism, and they completely cured him."

Dr. Williams' Pink Pills are sold by all medicine dealers or can be had by mail at 50 cents a box or six boxes for $2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

A HANGMAN'S ROPE.

Official Sues to Recover It After An Execution.

A curious dispute about a hangman's rope, which will have to be settled by the law courts, has arisen between the Hungarian hangman, Bali, and the public prosecutor at Temesavr, in Hungary. A murderer had just been hanged, and the hangman untied the rope and began to cut it into small pieces in order to sell these at an impromptu auction to the crowd waiting outside the prison—a bit of a hangman's rope being believed in Hungary to be the best of all possible charms for bringing good luck. The public prosecutor, however, who has to be present to witness an execution, ordered Bali to hand over the rope to him, because scandalous scenes amounting to a riot had occurred after a recent execution at Miskolcz, when the crowd fought among themselves for the grisly mementoes. The hangman refused to give up the rope on the ground that it was not only his perquisite, but actually his own property, as he had to supply ropes at his own expense. The public prosecutor thereupon ordered a policeman to take it from him by force, which was done. Bali gave notice that he would bring an action for its recovery.

Girl Cured of Disfiguring Pimples

By Cuticura Ointment. Broke Out on Face when Twelve or Thirteen. Were Most Embarrassing. Had Tried Everything.

A Nova Scotia girl, Miss Mabel Morash, of Dover West, writes: "When I was about twelve or thirteen years of age, my face broke out with pimples, and I tried everything to get rid of them, but failed. The pimples were the worst on my forehead and chin. They came out in groups and developed later into sores. Being on my face they caused great disfigurement, and were most embarrassing.

"After trying so many remedies without success, I saw the Cuticura Ointment advertised, and I sent for a box. I then applied it to the pimples, and in a week I saw a great change in my face. I kept using it, and in a few months it rendered a complete cure. Now you cannot tell I ever had pimples, thanks to the Cuticura Ointment." (Signed) Miss Mabel Morash, Mar. 31, 1911.

Baby's Face Like Raw Beef

"My baby boy had a large pimple come on his forehead. It burst and spread all over his face which soon looked like a piece of raw beef, all smothered with bad pimples. It was awful to look at. The poor little thing used to scratch it and cry terribly. I took him to a doctor but he only got worse until I was quite frightened that he would always be disfigured. Then I got two tins of Cuticura Ointment, together with Cuticura Soap, and in two months had quite cured him. Now of course I use Cuticura Soap for all my children. (Signed) Mrs. S. Perry, 99, Waterloo Rd., Aldershot, England, May 21, 1910.

Cuticura Soap and Ointment are sold throughout the world, but to those who have suffered much, lost hope and are without faith in any treatment, a liberal sample of each with a 32-p. booklet on the skin and scalp will be mailed free, on application. Address Potter Drug & Chem. Corp., 50 Columbus Ave., Boston, U. S. A.

FRENCH'S ADVICE.

When Sir John French was in command of the cavalry at Canterbury, he chanced one day to meet a rather slouching young recruit.

"Tell me, my lad," said the new

General French.

Chief of the General Staff, "does this city belong to you?"

The military fledgling saluted and blushingly replied:

"No, sir."

"Never mind," said French, genially, "straighten yourself up, pull yourself together, and look as though it did."

BABY'S OWN TABLETS A MOTHER'S STANDBY

Mrs. Wm. Kernaghan, Cartwright, Man., says: "I always use Baby's Own Tablets and find them an excellent remedy for little ones." Thousands of other mothers say the same thing, simply because they have found the Tablets the best medicine to give their little ones to make teething easy; to expel worms; relieve constipation and to make baby plump, healthy and strong. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

CLEVER.

Mrs. Muggins—"I hear your husband is quite versatile."

Mrs. Buggins—"Why, he can actually stay out late every night in the week and not give the same excuse twice."

Cucumbers and melons are "forbidden fruit" to many persons so constituted that the least indulgence is followed by attacks of cholera, dysentery, griping, etc. These persons are not aware that they can indulge to their heart's content if they have on hand a bottle of Dr. J. D. Kellogg's Dysentery Cordial, a medicine that will give immediate relief, and is a sure cure for all summer complaints.

Counting both steamships and sailing vessels of one hundred tons and upwards, their total in the world's mercantile marine exceeds 30,000.

Keep Minard's Liniment in the house.

Russia's Army has a peace establishment of over 1,200,000 men; its approximate war strength exceeds 5,000,000 men.

Worms in children, if they be not attended to, cause convulsions, and often death. Mother Graves' Worm Exterminator will protect the children from these distressing afflictions.

It is the strong "I will" that wins the day. "I will do my part in this great work! If others fail I will succeed!" Such a spirit as this has won victories.

Minard's Liniment Lumberman's Friend.

A prisoner was being tried in an English court for murder; evidence against him purely circumstantial; part of it a hat found near the scene of the crime—an ordinary, round, black hat, but sworn to as the prisoner's. Counsel for the defence, of course, made much of the commonness of the hat. "You, gentlemen, no doubt each of you possess such a hat, of the most ordinary make and shape. Beware how you condemn a fellow-creature to a shameful death on such a piece of evidence," and so on. So the man was acquitted. Just as he was leaving the dock, with the most touching humility and simplicity, he said: "If you please, my Lord, may I 'ave my 'at?"

In the reign of Edward III. only three taverns were allowed in London.

RINGING THROUGH QUEBEC PROVINCE

ANOTHER MARVELLOUS CURE BY DODD'S KIDNEY PILLS

Ludger Cote's Backache had developed into Bright's Disease, and pains and aches were his portion —Dodd's Kidney Pills cured him.

St. Yvon, Gaspe Co., Que., May 27 (Special)—Once more a wonderful cure has sent the name of the old Canadian Kidney Remedy ringing through the Province of Quebec. Mr. Ludger Cote, a well known resident of this place, is the man cured and the story of his cure in his own words is as follows:

"For four years I suffered from Backache, stiffness of the joints and finally Bright's Disease. I could not bend my right leg on account of the pain in my hip and knee. I had terrible pains in the region of the bladder. My eyes were swollen. I was always tired and nervous and took no pleasure in life.

"Finally, I decided to try Dodd's Kidney Pills and the effect was marvellous. Six boxes cured me completely."

Backache, neglected, develops into Bright's Disease. The one sure way to escape its tortures is to cure the Backache when it first starts with Dodd's Kidney Pills.

DECLINE OF DRUNKENNESS.

The statistics published by the City of Paris, France, during the last ten years since the suppression of the octroi tax on beer and wine, and the increase of the same tax on strong alcoholic liquors such as brandies, eau de vie, cognac, and pure alcohol generally, have shown that the consumption of beer and wine, described as hygienic drinks, has considerably increased, while that of pure alcohol has diminished almost by one-half. Before the octroi tax was removed the average quantity of alcohol consumed by Parisians was nearly eight litres per head per annum, and now the amount has fallen to only four litres per head. Drunkenness, it is assumed, has declined in equal proportion among the working population.

WAS A SHAME.

He—"So you lost that handsome little dog you had?"

She—"Yes, in a railroad accident. I was saved, but the dog was killed."

He—"What a pity!"

CURE FOR CONSUMPTION.

Such is the recuperative power contained in Copeland's Cure for Consumption that even the most advanced cases have been cured by its beneficial action. It can be taken by the weakest patient, to whom it gives a fighting strength as nothing else will. The appetite comes back. That weakening perspiration is stopped. The lungs and respiratory organs are healed at the same time. Its efficacy to fight consumption, weak or bleeding lungs, lingering coughs and bronchitis is proven beyond doubt not by what I state, but by what is stated by those who have taken it for those ailments and have been cured. Copies of testimonials of those who, after being given up by doctors and specialists, as only having a few days to live, and are alive and well to-day, are sent on request. Price $1 per bottle at your druggist, or direct from Wm. Copeland, 511 Pape Ave., Toronto, Canada.

She—"I did not think much of the close of the sermon." He—"Probably you were thinking more of the clothes of the congregation."

Sores Heal Quickly.—Have you a persistent sore that refuses to heal? Then, try Dr. Thomas' Eclectric Oil in the dressing. It will stop sloughing, carry away the proud flesh, draw out the pus and prepare a clean way for the new skin. It is the recognized healer among oils and myriads of people can certify that it healed where other oils failed utterly.

Nearly one hundred million acres of land in Alberta are suitable for cultivation.

Minard's Liniment used by Physicians.

EXCITEMENT.

Husband (cheerfully)—Well, love, have you had a pleasant day?

Wife—Oh, splendid! After I dressed the children and got them off, washed the dishes and made some pies, cleared away the luncheon table and answered some letters, I still had time enough left to darn my stockings.

DIVER'S REMARKABLE FEAT.

Patched Crippled Ship in Heavy Sea with Sharks Near.

One of the most remarkable feats ever performed by a diver is related by the officers and crew of the British sloop-of-war Shearwater. J. P. Lingane, a young Irish shipwright, boarded up the propeller well while the vessel was rolling in heavy seas and so enabled her to make the voyage to port.

The Shearwater was cruising off the Coast of Mexico, when in a storm she lost her propeller. Resort was immediately had to her sails, but it was found that steering was almost impossible because the big arch or well under the stern in which the propeller had revolved, made the rudder's work ineffectual. The officers decided that if they were to bring the ship to port this well must be boarded up.

Lingane was sent down to do the work. Thou hampered by his heavy diving suit and by the weight of the water, he was able to adjust himself to the bad rolling of the ship and to handle the heavy timbers that were passed to him. He fastened the boards so securely that they had only shifted in one place when the Shearwater reached port, even though she had been battered by heavy seas on the way. Naval men have given high praise to the young man for what he did, and a special report on it has been sent to the British Admiralty.

A trial to the nerves of the young diver while he was at work was the presence of several sharks, which at times swam close to him. Armed men on the warship, however, kept them from attacking him.

HAVE YOU A BAD SORE?

If so, remember these facts—Zam-Buk is by far the most widely used balm in Canada! Why has it become so popular? Because it heals sores, cures skin diseases, and does what is claimed for it. Why not let it heal your sore?

Remember that Zam-Buk is altogether different to the ordinary ointments. Most of these consist of animal fats. Zam-Buk contains no trace of any animal fat, or any mineral matter. It is absolutely herbal.

Test how different and superior Zam-Buk really is. All druggists and stores at 50c. box. Use also Zam-Buk Soap. Relieves sunburn and prevents freckles. Best for baby's bath. 25c. tablet.

ECONOMICAL SUGGESTION.

"We must begin to economize, my dear."

"All right. Suppose you learn to shave yourself."

The Beauty of a Clear Skin.—The condition of the liver regulates the condition of the blood. A disordered liver causes impurities in the blood and these show themselves in blemishes on the skin. Parmelee's Vegetable Pills in acting upon the liver act upon the blood and a clear, healthy skin will follow intelligent use of this standard medicine. Ladies, who will fully appreciate this prime quality of these pills, can use them with the certainty that the effect will be most gratifying.

SORRY HE ASKED.

Mate—"When he fired the pistol at you what did you do, captain?"

Captain—"I moved to one side and the bullet sped harmlessly by and buried itself in the thick part of the mate's head."

At the Yarmouth Y. M. C. A. Boys' Camp, held at Tusket Falls in August, I found MINARD'S LINIMENT most beneficial for sun burn, an immediate relief for colic and toothache.

ALFRED STOKES.
General Secretary.

WIFELY SARCASM.

Mrs. Gadder—"I saw your husband to-day coming out of a saloon."

Mrs. Gayburrd—"Probably going out to get shaved!"

Countless have been the cures worked by Holloway's Corn Cure. It has a power of its own not found in other preparations.

Pigeon-shooting has been prohibited throughout Swiss territory.

Ask for Minard's and take no other.

A SKILLED WORKMAN.

The foreman of a large ironworks was short of laborers one morning, and as a last resort, went to an ald tramp who was lying asleep beside one of the furnaces, and roused him with the question:

"I say, my man, are you wanting work?"

"What kind of work?" asked the tramp.

"Can you do anything with a shovel?"

"Yes," replied the tramp, rubbing his eyes. "I could fry a piece of ham on it."

MINOR IMPERFECTIONS.

Wifey—What do you think of my new hat?

Hubby—Very pretty. I hope it'll satisfy you for a while.

Wifey—Of course it will. The color is not quite what I like and the trimming doesn't come up to my expectations, and the shape is not as good as it ought to be, but otherwise the hat is a splendid bargain, and I like it awfully well.

Dr. Morse's Indian Root Pills

exactly meet the need which so often arises in every family for a medicine to open up and regulate the bowels. Not only are they effective in all cases of Constipation, but they help greatly in breaking up a Cold or La Grippe by cleaning out the system and purifying the blood. In the same way they relieve or cure Biliousness, Indigestion, Sick Headaches, Rheumatism and other common ailments. In the fullest sense of the words Dr. Morse's Indian Root Pills are 47

A Household Remedy

G. E. ANDERSON R.S.

MAID WANTED—Apply to Mrs. W. G. Waugh, Exeter.

LOST—A pearl broach, on Sunday, May 19th, between the Power House and James Street church. Reward to finder who will confer a favor by returning same to Dr. Rouleston.

To intended June brides, who have not already ordered their invitations and announcements from the ADVOCATE, we would like to say, that we have an excellent assortment of wedding stationery in cabinets, etc., printed to your liking at a very reasonable cost.

HICKS' FORECASTS FOR JUNE. — A reactionary storm period falls on the 11th, 12th and 13th, precisely at the crisis of electric and magnetic excitement. On the 11th the north magnetic pole of the Earth makes its least angle to the Sun's equator, thereby intensifying the electric and magnetic forces throughout the earth and its atmosphere. Hence many phenomena of this character will mark this period. Afternoon rains and thunder storms will be frequent and violent, continuing for days partly obliterating the interval between the storm periods. New Moon the 15th will keep up the temperature, depress the barometer and help to prolong the threatening conditions. The 12th to the 18th is a seismic and volcanic period, central on the 15th.

Getting into the Home

Women buy more than two-thirds the merchandise sold in retail stores and every woman reads the Classified Want Ads. Our paper goes into the homes and the Want Ads. will reach the Spenders.

LOCAL DOINGS.

Mr. Caleb Heywood had a valuable cow die on Friday last.

A man may praise a woman's pie, but that is not often he will eat it.

He is a poor friend who will not stand by you until your last dollar is gone.

No man seems to think it's up to him to be as good as he thinks others ought to be.

A large number of Exeter people attended the celebration in Dashwood on Monday.

The council sits in Court of Revision on Friday night. There are very few appeals in.

We are pleased to see Mr. B Follick again able to take his morning walk to the post office.

The King's Birthday, June 3rd, was not observed as a public holiday in Exeter, except the banks.

Mr. N. D. Hurdon did not forget his usual salute of twenty-one guns in the early morning of the King's Birthday.

Mrs. Mary Sanders, William Street, has been quite ill for several days, but we are pleased to note that she is recovering.

The Methodist ministers are this week attending the sessions of the London Conference which is meeting in St. Thomas.

It is a sorry day for a young man who cannot see any opportunities where he is, but who only sees chances somewhere else.

The band gave a pleasing open-air concert on Friday evening, and on Monday went to Dashwood to furnish music for the big celebration.

If you would securely seal an envelope use a little white of egg. An envelope fastened thus cannot be opened without tearing, even if it is steamed.

At the present time there is no legitimate excuse for any strong healthy man being out of work. Employers of labor are advertising broadcast for help, and offering better wages than have ever been offered before in this part of the province.

Last week mention was made in the Advocate that Miss Ethel Florence, daughter of Mr. Joseph Cobbledick of Calgary, formerly of Exeter, is to be married this month. We have since learned that her sister, Miss Vera, will also be married at the same time.

The Middlesex Light Infantry with headquarters at Strathroy, will march from London to Goderich on foot, starting June 17. The distance is 60 miles and, as the regiment will carry practically all its stores and provisions, it will take 5 days.

Mrs. McTavish of Shakespeare, who has been visiting with her parents, Mr. and Mrs. John W. Taylor, and who has been threatened with an attack of appendicitis, has nearly recovered and the nurse, Miss Barter, returned to her home in London Tuesday.

A strange clergyman preaching in a country church on a recent Sunday, noticing the choir seats were unoccupied when the time of beginning the service arrived, rose and remarked:—I see all the singers are absent this morning. Let the congregation rise and sing "Praise God from Whom all Blessings Flow."

Mr. Sam. J. Latta, editor of the Govan, Sask., Prairie News is against the Liberal candidate in Last Mountain, for the coming elections in Saskatchewan. "Sam" is a native of Huron County and was formerly a teacher in Stephen and in Zurich and for a number of years clerk of Hay Township He was defeated in the 1908 election.

Mr. Will Bissett visited Waskada recently and has now accepted arrangements whereby he is entering the firm of Lawrence Bros., General Merchants in that town. He expects to move as soon as possible, and feels that his business prospects are good in that thriving little burgh.—Crystal City Courier.

The sale of liquor of any kind is prohibited in military camps, and it is said that during this season's camp a strict watch will be kept for any "private supplies" being brought into the lines. Canteens were abolished last year, and although it is stated that drunkenness in camps adjacent to cities increased, they will not be permitted this year.

It would be well if those operating and speeding automobiles would remember their speed is limited by law If they remembered this when passing through town it might be satisfactory. The speed limit in towns is 15 miles an hour, which is going some. It is better to take precautions before an accident occurs.

Mr. Wm. Cornish, London Road South on Saturday bought the John Salter property on the same road. Mr. and Mrs. Salter also had a sale of their household effects and left Tuesday for Toronto where they will reside. They have the best wishes of their many friends in Exeter. Mr. Wm. Salter of Toronto and Alf. Salter of London were up on Saturday for the sale.

The Assistant Receiver General, Toronto, announces that drilled, marked or bent coins are only worth 75 per cent. of their face value. Don't accept them in payment of bills or in making change. If you get them don't put them on your church collection plate. Coins worn smooth in circulation are worth full value. Dominion one and two dollar bills if mutilated, and still have three-fifths remaining, are accepted at full value. If two-fifths remain one-half face value will be paid.

The sole object of advertising is to draw custom and it was designed for no other purpose, so when the dull season comes along and there is no trade it is the level headed merchant who schemes to put in a better advertisement than ever to scoop in all the trade while his neighbors are making mortgages to pay the electric light bill. The merchant who waits until his store is full of customers before he thinks he can afford to advertise will not attain the best results. Write this down where you will fall over it every day. The time to draw business is when you want business and not when you already have more than you can attend to.

Miss Sarah Sweet was in London on Monday.

Miss Annie Seldon of Ingersoll is visiting relatives here.

He is a successful farmer who is able to raise a mortgage.

Miss Ethel Armstrong of Lucknow visited her parents here this week.

Mr. Willis Powell was in Sarnia Sunday to see Mrs. Powell who is ill.

Mrs. Speed and little Miss Dinges of Berlin spent the holidays with Mrs. Marchand.

Miss Clara Davis has accepted a position in Ingersoll and left for that place on Monday.

Mr. and Mrs. B. Follick left yesterday to visit their daughter at West Lorne, Miss Follick left the same morning to visit in London.

Dr. Sellery of Hensall was here Friday with his new auto. Mrs. Sellery and her mother, Mrs. Wm. Moir, came down with him and visited Mrs. T. Kernick.

Mrs. E. J. Spackman and her daughter, Mrs. Johnson and little son, Murray of Toronto are spending a few days with Mr. and Mrs. John Spackman.

Mrs. James Singular, who is residing here with Mrs. Wm. Bagshaw, passed her 91st birthday on May 24th, and was kindly remembered by her friends, who sent her twenty-four birthday postal cards.

Mr. and Mrs. J. Croden and daughter, Miss Gladys, of London were guests of Mr. and Mrs. T. W. Hawkshaw Friday last, having motored up. Miss Myrta Hawkshaw accompanied them on their return and will visit for a few days. Mr. and Mrs. Hawkshaw are now sojourning at Grand Bend.

Mrs. Smale returned last week from a several weeks' visit with relatives and friends at Marlette and Oxford, Mich., While visiting at the former place she spent a few days at the home of Mr. Thos. Dunsford, a former and well-known resident of Hay Township, who a few weeks ago was appointed to the responsible position of Highway Commissioner for the town of Marlette. That the duties of the office will be well and faithfully looked after goes without saying, and the citizens of Marlette may congratulate themselves on securing such a trustworthy and faithful servant.

R. G. SELDON

Exeter, — Ontario

Mr. W. D. Clarke holidayed in London this week.

Mr. Walter Winter of London was in town over Sunday.

Mrs. D. Johns left Friday morning to visit her daughter in Sarnia.

Miss Delight Hobbs is visiting her sister, Mrs. Snell, in Essex.

Mr. Harry Statham, wife and child of Acton are visiting relatives here.

Mrs. Wm. Davis and Mrs. Art Belback of London visited here this week.

Mrs. Tatt of Parkhill spent a few days of this week with her brother, Mr. C. Lindenfelt.

Mrs. W. Westaway and child of Montreal are the guest of Mr. and Mrs. A. J. Ford.

Mrs. Ed. Jones left Saturday for London where she intends making her future home.

Mrs. Cotter and child of Cleveland are here visiting the former's mother, Mrs. T. Gregory.

Mr. Wm. Dew of Wales, N.D., was here attending the funeral of Mrs. John Dew on Sunday.

Mrs. Chas. Gilbert of Talbotville visited her sister, Mrs. John Spackman, over the holiday.

Mr. Kerns of the Bank of Commerce was in Toronto for the week end, and Stanley Fisher was in Dundas.

Messrs. I. R. Carling, Tom Carling, W. H. Levett and A. Q Bobier autoed to London Monday with S. G. Bawden.

Mrs. Geo. Crawley attended the funeral of her aunt, Mrs. Hansford, at Strathroy on Friday, she having died rather suddenly.

Mr. Earl Spackman is visiting in Ottawa, We understand that Earl will resume his old position in the Molsons Bank in Ottawa.

Mr. and Mrs. James Swinerton of Kingsville, former residents of Exeter, have just returned from a sojourn at their winter home in California.

Willie Birney returned Saturday from Chatham where he has been attending the business college. He has accepted a position with Messrs. Harvey Bros. to take charge of the office duties.

Local Items

Mrs. Frank Boyle is visiting in Toronto this week.

Mr. Harold Swan visited in town on Tuesday evening.

Mr. Reg. Elliott of Norwich is visiting his mother here.

Mrs. Wm. Dearing has improved her house by building a new verandah.

Harry Fuke is in Toronto this week trying an examination to enter a bank.

A son and daughter of Mr. Ed. Hunt of Seaforth spent Sunday at Mr. I. Armstrong's.

Mr. Garnet Heywood is confined to his bed, suffering from an attack of kidney trouble.

Mrs. T. E. Handford and daughter, Labelle, visited Mrs. E. A. Follick over Tuesday night.

Mr. Silas Stanlake, Sr., of the Lake Road, we regret to say, is very ill and confined to his bed.

The Junior baseball team drove to Dashwood Tuesday evening and played a game, resulting in a tie, 9—9.

Mr. John Walker of Whitechurch, spent a day or two with his parents here on his way home from the conference.

A case between the Canning Factory and W. J. Bissett is being tried in Goderich this week, and half the town has gone up as witnesses.

Rev. R. Hobbs, although unable to preach, will give a short talk to the James Street congregation on Sunday next, that being his last appearance in that pulpit as pastor.

Rev. Fear of Blyth, who goes to Highgate, visited his daughter, Mrs. Howey, here this week, on his way to home from conference. Mrs Fear visited here during the week.

Mr. and Mrs. Austin Essery of Palmerston and Mr. Chombs of Blyth, and a large number of relatives and friends of Centralia attended the funeral of the late Thos. Essery on Tuesday.

Mr. Walter Westcott showed us the root of a raspberry bush this week, which measured eleven feet three inches, even after several inches and probably feet had been lost in taking it up.

A number of girls out driving Saturday afternoon had the misfortune to turn too short, tipping the rig over. Outside of a few bruises and scratches they were uninjured. After a short run the horse was captured.

The Mail, Munson, Alberta, in its news items from Morrin on May 30th, had the following to say of an Exeter Old Boy.—"A. Barstow met with a painful accident on Sunday. He was endeavoring to start a gasoline engine at F. Dodd's well, when his hand slipped and was caught by some of the machinery and badly lacerated."

The bowlers had a good start off on Monday night when President Clarke's three rinks played Vice-President Carling's three rinks, with the following result,—

President		Vice President	
W D Clarke, sk.	16	I R Carling, sk	6
W W Taman, sk.	15	R. N Creech, sk.	12
W J Heaman, sk.	8	R G Seldon, sk.	19
	34		39

DEATH.—After several months illness of cancer the wife of Mr. Wm. O'Brien of Hay Township, passed away on Wednesday morning, June 12th. She is survived by a husband and grown up family. Particulars later.

ST. MARYS BY-LAWS WERE ALL DEFEATED.

St. Marys, June 8.—Three by-laws were voted on by the ratepayers here yesterday and all were defeated. The first one, to abolish the water, light and heat commission of three men, fell short by 70 votes; the second, to name a commission of three, was bowled out by 36 majority, and the third, to guarantee the bonds of the St. Marys Knitting Company to the extent of $10,000 lost out by only 20 votes.

ESTRAYED COLTS

Four yearling colts, on about May 31, from Klondike. One cream colored, one black pacer, and two bays (one bob-tailed). Suitable reward on notifying the owner of their whereabouts—George Defore, Thedford, Ont.

SEALED TENDERS addressed to the undersigned, and endorsed "Tender for Interior Fittings, Post Office, Customs and Inland Revenue, Seaforth, Ont.," will be received at this office until 4.00 p. m., on Wednesday, June 19, 1912, for the work mentioned.

Tenders will not be considered unless made upon forms supplied by Department, and in accordance with conditions contained therein.

Plans and specification to be seen on application to Mr. R. Wright, Clerk of Works, Seaforth, Ont., Mr. T. A. Hastings, Clerk of Works, Postal Station F., Toronto, and at the Department of Public Works, Ottawa.

Each tender must be accompanied by an accepted cheque on a chartered bank payable to the order of the Honourable the Minister of Public Works, equal to ten per cent. (10 p. c.) of the amount of the tender.

By order
R. C. DESROCHERS,
Secretary.

Department of Public Works,
Ottawa, June 5, 1912.

Newspapers will not be paid for this advertisement if they insert it without authority from the Department.—28211.

EXETER COUNCIL AND COURT OF REVISION

The first sittings of the court of Revision to hear and correct appeals re Assessment Roll, was held in Town Hall, Friday, June 7, at 7 p.m. The members were all present with the exception of the reeve. Those present took and subscribed to necessary oath of office. Scott—Ford—That W. H. Levett take the chair The following appeals were dealt with.—

W. A. Gibbs Co. to have assessment reduced. Scott—Ford—That appeal be not sustained.—Carried

J. N. Howard to reduce assessment of his dwelling.— Rivers—Scott That appeal be not sustained.—Carried.

S. Powell to have business assessment struck off, although he acknowledged that he had done business to the extent of $85. Scott—Ford—That appeal be not sustained.—Carried

Dickson, Carling & McDonell to have business assessment of hall in their block struck off. Ford—Rivers—That appeal be not sustained.—Carried.

Dr. C. A. Houze to have female dog struck off, as he had none. Ford—Rivers —That appeal be sustained.—Carried.

Ford—Rivers—That the assessment of Dr. Houze be changed from Mrs. Pickard's property as tenant to Mrs. Williams' property as owner.—Carried.

Scott—Ford—That lots 91 to 96, assessed to Mark Maloney be changed to Chas. Harvey as owner.—Carried.

Rivers—Scott—That the assessment of R. Gould as owner, be changed to Chas. Cann and Cora Campbell as owners.—C'd

Rivers—Ford—That the assessment of Chas. Hooper as owner be changed to William Russell as owner, and Dr. Bright as owner to Chas. Hooper as owner.—Carried.

Adjourned to Friday, June 14.

The council met after adjourning the Court of Revision, with all members present. The minutes of the meetings held on the 17th and 27th May were confirmed. Levett—Scott—That the accounts be paid as read,—T Sanders labor, 4.37; Sid. Sanders 4.92; G Cudmore 1.50; R Robins 2.63; J Norry, 3.75; J Bell 3.75; T Webster 1.75; F Mallett 1.75; G Atkinson 1.75; R.Davis 9.00; J Gill, constable 2.00; W. Gillespie, freight, 75c.; W. J. Bissett, part salary 37.50; J Ford 31.25; T. B. Carling 25.00; T Houlden, street watering 11.50; T Creech 1.00; R. Seldon, A. McPherson, H Huston, A. G. Dyer, W. Murray, R. N. Creech, Jas. Beer, T. Carling, D.R.O. and poll clerks, each, 2.50; John Mitchell and Silas Handford, polling booths, 2.00 each; A. G. Dyer, assessor, truant book and postage, $77 J. Knight, duty on tapping machine 23.88; Ross Taylor Co. 4.00; Electric Light Co 118.16; total 371.21.

By-law No. [illegible] to borrow $5000 for the construction of sewer on west side of Main street was read the third time and finally passed, the same to be sealed and registered on motion of Levett and Rivers.—Carried.

Adjourned to Friday, June 14.
T B. Carling, Clerk.

HENSALL STATION BURNED.

Hensall, June 7.—The G.T.R. station here was completely destroyed by fire which broke out shortly before midnight. About six o'clock last evening the fire department was called to extinguish a blaze which had broken out in the rear of the building. A number of persons were around the station during the evening, and up to 10.30 no sign of any fire was noticed. A few minutes before midnight the structure was a mass of flames and nothing could be done to save it. About $500 worth of freight was burned and all the telegraph equipment. Only a few days ago the G. T. R. engineers were here and marked out a site for a new station, and work will be rushed now on the new building. A G. T. R. detective put in some time on the case last week and he believes that the fire s the result of an incendiary.

LONDON CONFERENCE

Rev. James E. Ford, of Clinton, was elected president of London Methodist Conference on the second ballot, Rev. W. G. H. McAllister, of Blenheim, as was expected, being his nearest competitor.

On the first ballot there were 269 votes cast, 158 being necessary to an election. Rev. J. E. Ford received 96; Rev. W. G. M. McAllister 75; Rev. G. N. Hazen, 42; and Rev. Dr. Manning 32.

The second ballot showed Ford, 137; McAllister, 92; Hazen 27; and Manning, 10.

Rev. James Elford, of Corinth, was elected secretary on the first ballot, and named as he assistants Rev. R. Fulton Irwin of Harrow, and Rev. E. Powell, of Exeter.

Nine young men were ordained and appointed to circuits,—Thomas A. Allen, Dover; Herbert F. Ball, Salem; Arthur W. Brown, Benmiller; Edward R. Colwill, B.A., Rutherford; Samuel J. T. Fortner, Cairngorm; G. Clifton Gifford, Maidan; Fred L. Harburn, Walton; Burton Halliday Robinson, M.A., Bervie; Melvin M. Whiting, B.A., Japan.

After an all night session Monday the final draft of stations has been made and the changes from the first draft are as follows,—

Staffa, C. L. C. Cousens.
Fullarton, Thos. M Fothergill, and E. Rolston.
Dungannon, James E. Hunter.
Nile, Harold Williams.
Bayfield, J. Young.
Alma Craig, A. H. Brown.
Woodham, C. Baker.
Arkona, W. J. Fair.
Merlin, W. R Vance.
Jeanette's Creek, E. R. Colwill;
Harwich, C. C. Cousens.
Highgate, E. A. Fear.
Wardsville, Byron Snell.

Rev. Richard Hobbs superannuates for one year, his name remaining attached to Askin Street Church, London.

As by the first draft the new James Street pastor will be Rev. W. G. H. McAllister, who is highly spoken of by his brethren in the ministry.

Rev. W. G. H. McAllister was elected chairman of Exeter District; Rev. E. G. Powell, financial secretary; and H. J. Wren Sunday School Secretary.

Mr. H. E. Huston was elected to the district and circuit boundaries commission.

Rev. Wm. Godwin of Parkhill was granted superannuation.

MARRIAGES

Aldworth—Wilson—At Centralia, on June 12, Miss Allie, daughter of Mr. and Mrs. John Wilson, to Mr. J. T. Aldworth of Waterloo.

Kingsbury—McCallum—In Exeter, June 8, Edwin Kingsbury of Toronto, to Miss Edna E., daughter of Mr. and Mrs. T. H. McCallum, of Exeter.

Schrader—Weber—At the residence of the bride's parents, on Tuesday, June 11th, by Rev. G. Thun, Mr. Jacob Henry Schrader of Osnabrock, N. Dakota, to Miss Laura May, eldest daughter of Mr. and Mrs. Jacob Weber, Con. 12, Hay.

Hayes—Wiltse—On London Road, near Clinton, on June 5th, Lulu F., daughter of Mr. and Mrs. Levi Wiltse, to John L. Hayes of Saskatoon.

Knott—Drinkwater—On June 1st, by the Rev. J. Gibson Inkster, Charlotte H. Drinkwater formerly of Exeter, to Frank V. Knott, both of London.

DEATHS

O'Brien—In Hay, on June 12th, Mrs. Wm. O'Brien.

Flintoff.—In Woodstock, on June 10, George Flintoff, formerly of Exeter, aged 21 years.

Essery—In Exeter, on June 9th, Thos. Essery, aged 74 years, 10 months and 12 days.

Ferguson—In Clinton, on June 2nd, Catharine McRae, wife of Mr. James Ferguson, aged 69 years.

Butchart—In Stanley township, on May 29th, Christina Scott, relict of the late John Butchart, aged 78 years.

Andrews—In Clinton, on June 5th, Orilla Ann Wand, wife of Mr. Homer F. Andrews, in her 53rd year.

Sadlier—On Friday, June 7, on Concession 4, Biddulph, William E., second son of Mr. and Mrs. Wellington Sadlier, aged 13 years and 8 months.

Down—nI Napanee, on June 11, Harry Wilfred, youngest son of Rev. Wesley and Mrs. Down, aged 9 years

Excursion to Port Stanley

Hurrah for Port Stanley on Friday, June 14th. Woodham Council, No. 97. C. O. C. F., has made arrangements for an excursion along the L. H. & B. from Clinton and points south, to Port Stanley on Friday, June 14th, at very reasonable rates. Good to return next day For particulars see big bills and dodgers. There is no better place than Port Stanley to spend the day.

Half Holiday in July and August

We, the undersigned merchants of Exeter, agree to close our places of business at HALF-PAST TWELVE on THURSDAY AFTERNOONS during the months of JULY and AUGUST.

Pointers

We just want to suggest in a modest way, that if, when the New Suit Problem begins to weighheavily on your mind, you will find your way directly to this, "Home of good Clothes," you'll have the problem solved, by finding here just the sort of clothes you'll take pleasure in wearing

Ready-to-wear Clothing

Our Cheaper Suits

will dress you neatly and well, with stylish, well tailored good looking garments.

Our Better Suits

will dress you with suit elegance and luxury to the limit of suit elegance. In either class you'll be a well dressed man.

May We Show You ?

Men's Furnishings

A FEW OF THE LINES ARE AS FOLLOW,—

COMBINATION UNDERCLOTHING.
TWO-PIECE UNDERCLOTHING.
SOCKS AND HOSE IN SILKS, CASHMERE AND LISLE.
WINDSOR OVERALLS IN BLUE, KHAKI, BLACK, ETC.
NEGLIGE SHIRTS.
LOW COOL COLLARS.
SOFT COLORED COLLARS.
SOFT FELT HATS.
STRAW HATS.
PANAMA HATS.
RAIN COATS.
LIGHT SUITS.

We Are Tailors

We understand tailoring and we know that we are doing when we measure you. The "Taman" Made-to-Measure Clothing is all that can be desired in clothing. The prices range from $18 up to $28.

Tailor and Furnisher—Exeter

ONLY A MONTH;

OR, A CURIOUS MYSTERY EXPLAINED.

CHAPTER V.—(Continued).

"I came to ask you, sir," said Frithiof, his heart beating quickly, though he spoke with his usual directness. "I came to ask your consent to my betrothal with your daughter!"

"With my daughter!" exclaimed Mr. Morgan. "Betrothal! What, in Heaven's name, can you be thinking of!"

"I do not, of course, mean that there was a definite engagement between us," said Frithiof, speaking all the more steadily because of this repulse. "Of course we could not have thought of that until we had asked your consent. We agreed that I should come over this autumn and speak to you about it; nothing passed at Balholm but just the assurance that we loved each other."

"Loved each other!" ejaculated Mr. Morgan, beginning to pace the room with a look of perplexity and annoyance. "What folly will the girl commit next!"

At this Frithiof also rose to his feet, the angry color rising to his face. "I should never have spoken of my love to your daughter had I not been in a position to support her," he said hotly. "By your English standards I may not, perhaps, be very rich, but our firm is one of the leading firms in Bergen. We come of a good old Norwegian family. Why should it be a folly for your daughter to love me?"

"You misunderstand me," said Mr. Morgan. "I don't wish to say one word against yourself. However, as you have alluded to the matter, I must tell you plainly that I expect my daughter to make a very different marriage. Money I can provide her with. Her husband will supply her with a title."

"What!" cried Frithiof, furiously, "you will force her to marry some wretched aristocrat whom she can't possibly love? For the sake of a mere title you will ruin her happiness."

"I shall certainly do nothing of the kind," said the Englishman with a touch of dignity. "Sit down, Herr Falck, and listen to me. I would have spared you this had it been possible. You are very young, and you have taken things for granted too much. You believed that the first pretty girl that flirted with you was your future wife. I can quite fancy that Blanche was well pleased to have you dancing attendance on her in Norway, but it was on her part nothing but a flirtation; she doesn't care for you in the least."

"I do not believe it," said Frithiof, hotly.

"Don't think that I wish to excuse her," said Mr. Morgan. "She is very much to be blamed. But she is pretty and winsome, she knows her own power, and it pleases her to use it; women are all of them vain and selfish. What do they care for the suffering they cause?"

"You shall not say such things of her," cried Frithiof, desperately. "It is not true. It can't be true!"

His face had grown deathly pale, and he was trembling with excitement. Mr. Morgan felt sorry for him.

"My poor fellow," he said kindly, "don't take it so hard. You are not the first man who has been deceived. I am heartily sorry that my child's foolish thoughtlessness should have given you this to bear. But after all, it's a lesson every one has to learn; you were inexperienced and young."

"It is not possible!" repeated Frithiof, in terrible agitation, remembering vividly her promises, her words of love, her kisses, the expression of her eyes, as she had yielded to his eager declaration of love. "I will never believe it possible till I hear it from her own lips."

With a gesture of annoyance, Mr. Morgan crossed the room and rang the bell. "Well, let it be so, then," he said, coldly. "Blanche has treated you ill; I don't doubt it for a moment, and you have every right to hear the explanation from herself." Then, as the servant appeared, "Tell Miss Morgan that I want her in the drawing-room. Desire her to come at once."

The minutes of waiting which followed were the worst Frithiof had ever lived through. Doubt, fear, indignation, and passionate love strove together in his heart, while mingled with all was the oppressive consciousness of his host's presence, and of the aggressive superiority of the room and its contents.

Perhaps the waiting was not altogether pleasant to Mr. Morgan; he poked the fire and moved about restlessly. When, at last, light footsteps were heard on the stairs, and Blanche entered the room, he turned toward her with evident displeasure in his face.

She wore a dress of reddish brown with a great deal of plush about it, and something in the way it was made suggested the greatest possible contrast to the little simple travelling-dress she had worn in Norway. Her eyes were bright and eager, her loveliness as great as ever.

"You wanted me, papa?" she began; then, as she came forward and recognized Frithiof, she gave a little start of dismay and the color burned in her cheeks.

"Yes, I wanted you," said Mr. Morgan, gravely. "Herr Falck's son has just arrived."

"I am very glad to see you again," she said, forcing up a little artificial laugh and holding out her hand.

But Frithiof had seen her first expression of dismay and it had turned him into ice; he would not take her proffered hand, but only bowed formally. There was a painful silence.

"This is not the first time, Blanche, that you have learned what comes of playing with edged tools," said Mr. Morgan, sternly. "I heard from others that you had flirted with Herr Falck's son in Norway; I now learn that it was by your own suggestion that he came to England to ask my consent to an engagement, and that you allowed him to believe that you loved him. What have you to say for yourself?"

While her father spoke, Blanche stood by with bent head and downcast eyes; at this direct question she looked up for a moment.

"I thought I did care for him just at the time," she faltered. "It—it was a mistake."

"Why, then, did you not write and tell him so? It was the least you could have done," said her father.

"It was such a difficult letter to write," she faltered. "I kept on putting it off, and hoping that he, too, would find out his mistake. And then sometimes I thought I could explain it all better to him if he came."

Frithiof made a step or two forward; his face was pale and rigid; the blue seemed to have died out of his eyes; they looked like steel. "I wait for your explanation," he said, in a voice which, in spite of its firmness, betrayed intense agitation.

Mr. Morgan, without a word, quitted the room, and the two were left alone. Again there was a long, oppressive silence. Then, with a sob, Blanche turned away, sinking down on an ottoman and covering her face with her hands. Her tears instantly melted Frithiof; his indignation and wounded pride gave place to love and tenderness; a sort of wild hope rose in his mind.

"Blanche! Blanche!" he cried. "It isn't true! It can't be all over! Others have been urging you to make some grand marriage—to be the wife perhaps of some rich nobleman. But he can not love you as I love you. Oh! have you forgotten how you told me I might trust to you? There is not a moment since then that you have not been in my thoughts."

"I hoped so you would forget," she sobbed.

"How could I forget? What man could help remembering you day and night? Oh! Blanche, don't you understand that I love you? I love you!"

"I understand only too well," she said, glancing at him, her dark eyes brimming over with tears.

He drew nearer.

"And you will love me once more," he said, passionately. "You will not choose rank and wealth; you will—"

"Oh, hush, hush!" she cried. "It has all been a dreadful mistake. I never really loved you. Oh, don't look like that! I was very dull in Norway; there was no one else but you. I am sorry, very sorry."

He started back from her as if she had dealt him some mortal blow, but Blanche went on, speaking quickly and incoherently, never looking in his face.

"After we went away I began to see all the difficulties so plainly—our belonging to different countries and being accustomed to different things; but still I did really think I liked you till we got to Christiana. There, on the steamer coming home, I found that it had all been a mistake."

She paused. All this time she had carefully kept the fingers of her left hand out of view; the position was too constrained not to attract Frithiof's notice.

He remembered that, in the wearing of betrothal or wedding rings, English custom reversed the Norwegian, and turned upon her almost fiercely.

"Why do you try to hide that from me?" he cried. "Are you already betrothed to this other man?"

"It was only last Sunday," she sobbed. "And I meant to write to you; I did, indeed."

Once more she covered her face with her hands, this time not attempting to hide from Frithiof the beautiful circlet of brilliants on her third finger.

It seemed to him that giant hands seized on him then, and crushed out of him his very life. Yet the pain of living went on remorselessly, and as if from a very great distance he heard Blanche's voice.

"I am engaged to Lord Romiaux," she said. "He had been in Norway on a fishing-tour, but it was on the steamer that we first met. And then almost directly I knew that at Munkeggen it had all been quite a mistake, and that I had never really loved you. We met again at one of the watering-places in September; but it was only settled the day before yesterday. I wish—oh, how I wish—that I had written to tell you!"

She stood up impulsively and drew nearer to him.

"Is there nothing I can do to make up for my mistake?" she said, lifting pathetic eyes to his.

"Nothing," he said, bitterly.

"Oh, don't think badly of me for it," she pleaded. "Don't hate me."

"Hate you!" he exclaimed. "It will be the curse of my life that I love you—that you have made me love you."

He turned as though to go away.

"Don't go without saying goodbye," she exclaimed; and her eyes said more plainly than words, "I do not mind if you kiss me just once more."

He paused, ice one minute, fire the next, yet through it all aware that his conscience was urging him to go without delay.

Blanche watched him tremulously; she drew yet nearer.

"Could we not still be friends?" she said, with a pathetic little quiver in her voice.

"No," he cried, vehemently, yet with a certain dignity in his manner; "no, we could not."

Then, before Blanche could recover enough from her sense of humiliation at this rebuff to speak, he bowed to her and left the room.

She threw herself down on the sofa and buried her face in the cushions. "Oh, what must he think of me? what must he think of me?" she sobbed. "How I wish I had written to him at once and saved myself this dreadful scene! How could I have been so silly! so dreadfully silly! To be afraid of writing a few words in a letter! My poor Viking! he looked so grand as he turned away. I wish we could have been friends still; it used to be so pleasant in Norway; he was so unlike other people; he interested me. And now it is all over, and I shall never be able to meet him again. Oh, I have managed very badly. If I had not been so imprudent on Munkeggen he might have been my cavalier all his life, and I should have liked to show him over her to people. I should have liked to initiate him in everything."

The clock on the mantel-piece struck five. She started up and ran across to one of the mirrors, looking anxiously at her eyes. "Oh, dear! oh, dear! what shall I do?" she thought. "Algernon will be here directly, and I have made a perfect object of myself with crying." Then, as the door bell rang, she caught up a couvrette, sunk down on the sofa, and covered herself up picturesquely. "There is nothing for it but a bad headache," she said to herself.

(To be continued).

Are you one of those to whom every meal is another source of suffering?

Na-Dru-Co Dyspepsia Tablets will help your disordered stomach to digest any reasonable meals, and will soon restore it to such perfect condition that you'll never feel that you have a stomach. Take one after each meal. 50c. a Box at your Druggist's. Made by the National Drug and Chemical Co. of Canada, Limited. 150

OLD INNS AT ST. ALBANS.

St. Albans, which claims the oldest inhabited house in England, now an inn, is rich in old hostelries. The Peahen there dates back to the 15th century, though the present building is modern, save for some old woodwork in the coffee room. The Priory, too, in Holywell Hill, was once the Bull Inn, and as such was visited by Queen Elizabeth; while off the High Street is the George Inn, dating from 1446, which at one time had its private chapel for the use of its guests.—London Chronicle.

"Mamma," said little Ethel, with a discouraged look on her face, "I ain't going to school any more." "Why, my dearie, "what's the matter?" the mother gently inquired. "'Cause it ain't no use at all. I can never learn to spell. The teacher keeps changing the words on me all the time."

On the Farm

WHY BAD EGGS?

During the warm weather there are many bad eggs placed on the market. These bad eggs may be dirty, incubated, shrunken or held, rotten or moldy and bad flavored.

Some of the causes of dirty eggs are unsanitary conditions about the poultry house; lack of litter in the house; an insufficient number of nests; small nests; poor nesting material; allowing hens to roost on nests, and not gathering eggs often enough. The few dirty eggs that are produced should be consumed at home and not washed and sold.

With these faults corrected the number of broken eggs would be lowered, for some of the above conditions result in both dirty and broken eggs. The cause of some of the breakage, however, is the lack of mineral matter for the eggshell. Oyster shells or bone will furnish this mineral matter for the production of thicker shelled eggs.

Egg producers should take sufficient pride in their product to give it proper care from the time it is laid until it is marketed. Subsequent handlers should exercise a similar precaution. Careful attention to these important points would materially lessen the losses enumerated above and would add to the pleasure of producing and of consuming this important food. Eggs may be a delicacy or only an ordinary, or even inferior, material for food purposes, depending very largely upon the way they are handled by producer, middleman and consumer.

KNELL OF OLD MILK PAIL.

A wonderful system of ventilation has been devised for dairies, and its general adoption by all farmers who apply intelligence and scientific methods to their ventures proves its merit. But pure air alone is not sufficient for the cow barn. No dust must be permitted to accumulate, the barns should be kept in perfect sanitary form and the animal must be subjected to frequent cleaning operations. Scientists have sounded the knell of the old-fashioned milk pail with its flaring edges. The small-topped pail is in favor. It offers less of an opening for bacteria that may fall into the milk during the process of milking.

Some bacteria invariably are found in milk. The laboratory shows, however, that these germs are beneficial rather than injurious to the human consumers. But the presence of bacteria directly traceable to filth and unsanitary conditions is at once a source of danger and a signal for medical warfare on the undesirable dairy.

"Keep the cow stable as neat and as clean as the kitchen," is the slogan of the most progressive dairymen. They are in the ascendency. The careless, old-fashioned dairyman sees plainly the handwriting on the wall.

TREATMENT OF LIVE STOCK.

Horses and, in fact, all domestic animals are very much more impressionable than they are generally supposed to be. Cattle which have had a kind master, a man of gentle but firm nature, show the effect of their associations as a breed or strain. Years of good treatment not only make an impression on the individuals, but are impressed with such force as to become a breed characteristic. In short, a keen judge can tell pretty nearly what sort of association a horse has had by his temperament.

The importance of creating a good temperament in a trotting or pacing horse should not be underrated. The horse with a good temperament will do more work and do it better than one which has not a well balanced temperament.

HINTS FOR THE FARMER.

Treat the herd boar with kindness and also with considerable caution.

Don't change the collar from one horse to another.

Do not allow the cows to dry up during the latter part of summer, as this necessitates keeping them through winter giving a smaller flow of milk than they should.

A little oil of pennyroyal or oil of cloves will drive flies away from the stable.

At any season, when the horse has become excessively warm he should be cooled off gradually.

Cultivate a cheerful tone in speaking to your horse.

A cow's value is determined by the solids in her milk.

It does not pay to feed and care for inferior horses on the farm.

Warm skim milk for feeding purposes soon pays the cost of a farm separator.

Jinks—"Tired of living on mutton and beef? Why don't you have a bit o' fowl occasionally?" Binks (absently)—"Can't very well; none of my neighbors keep poultry."

Whenever you feel a headache coming on take

NA-DRU-CO Headache Wafers

They stop headaches promptly and surely. Do not contain opium, morphine, phenacetin, acetanilid or other dangerous drugs. 25c. a box at your Druggist's. 135

GERMANS DREAD 1913.

Will Empire Fall Next Year As Prophesied By a Sorceress.

The recent Socialist victories in Germany have revived the singular story of Emperor William I. and the fortune teller, which at the time of the old Kaiser's death was whispered with awe by the superstitious. There is now only one part of the prophecy left unfulfilled, and the date for that is set for next year.

The story goes that in 1849 the Crown Prince who was later to become the first Emperor, found himself in Baden, and heard so many stories of an old fortune teller that he was induced to go to see her. The sorceress was seated at a table, on which were spread various bits of wood bearing figures. Her custom was to touch these pieces of wood with a pencil, guided, as she assured her clients, entirely by inspiration. Combined in some way these figures gave you the most exact information as to the future.

"In what year will the German Empire be founded?" first asked the Prince, whose head was already full of his great ambition.

The old woman took up the figures 1, 8, 4, and 9, and formed the number of the current year. Then she touched various other figures and placed them one by one in a column under this first line. The Prince said when she had finished that the date 1849 appeared twice in different form, thus:

1849
1
8
4
9

"Add them," said the fortune-teller, "and you will find the year in which the German Empire will be founded."

The prince did as he was told and found the total to be 1871.

"When will I die?" he asked next.

The sorceress made the date 1871, and then began touching figures again. She touched four and arranged them as she had done in the first instance. Prince William saw that she had again repeated the date:

1871
1
8
7
1

"Add them," she said; "they give the year in which you will die."

They came to 1888.

The Prince put his third and last question:

"When will the German Empire fall?"

A third time the woman fixed the last date and added four figures. When she had finished the Prince saw:

1888
1
8
8
8

"Add them and you have the date of the fall of the German Empire."

The figures came to 1913.

This odd story was told when William I. died in 1888, after being crowned Emperor in 1871. Twice have the old witch's figures told the truth. Superstitious folk look at the election returns and wonder what will be the empire's fortunes in 1913.

SARDINES AND SPRATS.

Few Know Difference When Little Fish Get In Tins.

Though they are totally different species of fish, sprats are sometimes sold as sardines, and few people know of the distinctions between them. Briefly, a sardine is a young pilchard. In its immature state it lives in the warm waters off the shores of France, Italy, and Spain, though occasionally it is found not far from the coast of Devon and Cornwall, England. The mature pilchard is, however, a well-known Cornish fish.

On the other hand, a sprat is a sprat, and the small specimens one sees in the shops are fully-grown fish. Sprats are caught in enormous quantities off the coasts of the British Isles and in Norwegian waters.

In France there are no fewer than 170 factories engaged in the trade of preparing and tinning sardines. Towards the middle of the eighteenth century, at Nantes, sardines were first prepared in olive-oil and packed in barrels, and there are no fewer than one hundred and sixty-one different methods of cooking this delectable dish. Enormous exportations of sardines are made annually to Australia and South Africa.

Bacon—"That sounds like a master hand at the piano?" Egbert—"It is. It's my wife!"

Canada's finest sugar at its best

Your love of cleanliness and purity will be gratified by this 5-Pound Sealed Package of

Redpath Extra Granulated Sugar

It's Canada's finest sugar, fresh from the Refinery, untouched by human hands. Each Package contains 5 full pounds of sugar Your Grocer can supply you.

Canada Sugar Refining Company, Limited, Montreal.

NOTES AND COMMENTS

Peter Pan, whom the little children who frequent Kensington Gardens in London have so long seen in imagination, has actually come, at last, to live there. He no longer has to be conjured into existence in the teeming little brains. Cast in bronze, and piping from the summit of a bronze mound to a group of fairies below, and with squirrels and "bunnies" peeping from their holes to listen to his music, he stands there, the lucky, lucky boy who never will grow up, to enchant his innumerable little friends. Sir George Frampton fashioned him and Mr. Barrie himself paid for him, making a loving gift of him to the children who have so sweetly taken his immortal fancy into their lives and made it a part of their happiness.

No one who has not seen and heard the little ones as they come—those adorable, rosy children of England—scampering to the round pond in the gardens of a shining mid-summer day, calling, "Is this where Peter lives?" "Is this Peter Pan's place?" can have any idea of the blithe actuality of that emanation of Mr. Barrie's delicate and kindly imagination. It may be added, moreover, that the loving devotion with which he is treasured is not the result solely of Mr. Barrie's undeniable and winning genius. In part it is a question of audiences. And the children of England, unsophisticated, respectful, nursery kept, with their infancy treasured as something unspeakably precious, are the very ones to nourish such a happy dream as that of Peter Pan.

Not but what there are thousands of little ones in this country who could do the same, but, alas, taking them as a whole, they know too much too soon. They are "wise" not with the soft wisdom of sheltered childhood, but with the keen and suspicious understanding of children who are reared in an atmosphere of more or less acrid mirth. They are too lucid, too literal, too knowing. They lose too soon the fluid condition of mind and begin to "set" in the hard encasement of our realistic environments. Still, even here, there is an army of ardent followers of merry Peter Pan, and they will envy the little English children to whom Mr. Barrie made a gift of the veritable form and semblance of Wendy's vanished friend.

Recently a loan of $60,000,000 to French Government railroads was opened in France to the people, who responded by oversubscribing the amount thirty-three times. In other words, the Franch authorities asked for $60,000,000, and were tendered nearly $2,000,000,000, by all classes and conditions of men, women and children. Only in a country where saving is universal could such a thing happen. Only 3 per cent. of the subscription offered could be accepted. Now the City of Paris wants to borrow $41,000,000 for the extension of the municipal gas supply, and there is still more eager demand for this loan, which bears interest at the rate of 3 per cent., and is issued at a small discount. A bond may be secured by a first payment of $2, and subsequent small installments for a series of years.

Though they have this immense reserve financial strength it does not appear that the French people get less out of life than other races, or suffer in cheerfulness or agreeable surroundings. Their government, more than any other, is active in popularizing official loans. The latest bonds subscribed for are based on the credit of the nation or its chief city. Improvement of the railroads owned by the state and of an important city utility will result from an efficient expenditure of the money borrowed. Citizens in general receive the interest paid and are also benefitted by the public utility expansion. The population of France is stationary in numbers, but Frenchmen are not worrying about that. They are not at a standstill in other respects. In the science of government loans and promotion of personal economy they are decidedly at the head of the whole list.

Mrs. Hoyle—My husband loved me at first sight. Mrs. Doyle—I understand that you met at a masquerade ball.

Fashion Hints

STYLE TIPS HERE AND THERE.

That the deep-belted skirt has practically had its day is proved by a brief study of the new suits. In nearly every instance the breadths are hung from a narrow belt fitted about the normal waist-line, and whatever fullness there is, is gathered over the hips, leaving the front and backs perfectly plain. In spite of ranting and prognostications, wide skirts, which were so shortly to appear on the fashionable horizon, are still conspicuous by their absence.

Some of the chic little taffeta frocks are draped with fichus made of old-fashioned swiss, some dotted and some plain, but all finished with a narrow frill of swiss or fine lace. Sleeves are being trimmed with little frills falling over the hand and sometimes running up the under seam of the sleeve. All kinds of shirrings, cordings and fine tuckings are used on taffeta dresses, but the skirts show very little indication of widening to the extent of the original frocks.

Up to the present time there is practically little change in skirts, waists or sleeves. To be sure a few innovations have been introduced, but they are by no means arbitrary. The kimono and the sewed-in sleeve share about equal favor with the dressmakers. Skirts are still very narrow—one or two noticed this week have not measured much over a yard, but these were in the most extreme styles. One such skirt was made or Oriental embroidery, perfectly plain and apparently about as wide at the top as the bottom. Rather deep slashes at each side of the skirt gave the wearer a chance to take a fairly reasonable step; unfortunately we did not see her attempt to sit down, but the chances are that this would have been impossible. In all probability this model had been used to show the possibilities of oriental stripes and kindred fabrics.

Women who are fastidious about trimness and daintiness of appearance cling to the face veil, discarding it only with the informal summer hat of white brim and flexible character. New veilings in white shadow mesh have outlined patterns done with threads of black and the Russian effects hold their own in popularity since no face veils have been proved more becoming to all complexions than these soft, greyish Russian effects.

Scarfs being supplanted by the gay little silk coats ready for wear with lingerie frocks. These coats are cut on simple lines, but the trimming of crystal and pearl buttons and yards of extravagantly fashionable bouillonne make them very elaborate.

Lovely flowered stuffs are being shown in the shops for evening wear, and it looks as though another era of figured and flowered summer fabrics was imminent.

Feather boas are again in great favor in Paris. Two yards is the modish length, a very short boa tied around the neck with ribbons not being considered chic. The woman who has been in despair because her handsome willow plumes are completely out of style may now take heart of grace and have them made into a boa for wear with summer frocks.

ABOUT KILLING FLIES.

Get Rid of the House Fly Before It Starts to Spread Disease.

Chas. M. Bice, Denver, Col.

As the fly-season is again with us, and eternal vigilance is the price of health, I send you the following questions and answers, which were prepared by the Indiana State Board of Health, and which have been widely copied and published throughout this country. I hope it may arouse the good people of Canada and prompt them to make extra efforts to rid the world of this ever-present menace to our lives.

"1. Where is the fly born? In manure and filth.

"2. Where does the fly live? In every kind of filth.

"3. Is anything too filthy for the fly to eat? No.

"4. Where does he go when he leaves the surface closet and the manure pile and spittoon? Into the kitchen and dining-room.

"5. What does he do there? He walks on the bread, fruit and vegetables. He wipes his feet on the butter and bathes in the milk.

"6. Does the fly visit the patient sick with typhoid fever, consumption and cholera infantum? He does—and he may call on you next.

"7. Is the fly dangerous? He is man's worst pest, and more dangerous than wild beasts or rattlesnakes.

"8. What disease does the fly carry? He carries typhoid fever, consumption and summer complaint. How? On his wings and hairy feet. What is his correct name? Typhoid fly.

"9. Did he ever kill anyone? He killed more American soldiers during the Spanish-American war than did the bullets of the Spaniards.

"10. Where are the greatest number of cases of typhoid fever, consumption and summer complaint? Where there are most flies.

"11. Where are the most flies? Where there is the most filth.

"12. Why should we kill the fly? Because he will kill us.

"13. When shall we kill the fly? Kill him before he gets wings—kill him when he is a maggot in the manure pile—kill him while he is in the egg state.

"14. How? Keep the stables dry and clean, and don't allow any manure to stay on the premises longer than one week. Have all other filth and trash removed or burned at least once a week.

"15. If your neighbor fails to comply with these rules and allows flies to breed on his premises to visit you, screen your doors and windows and keep them out, and kill all that enter."

EFFECTIVE FLY POISONS.

A cheap and reliable fly poison which is not dangerous to human life, is bichromate of potash in solution. Dissolve one dram in two ounces of water; add a little sugar, and place about the house in shallow dishes.

To clear rooms of flies, use carbolic acid, heating a shovel and pouring on it 20 drops of the poison. The vapor will kill the flies. Another method: Burn pyrethrum powder in the room. The flies will fall to the floor stupefied, and may be swept up and burned. The powder should be moistened and moulded into small cones, and after drying, each cone should be placed upon a dish and lighted at the top. It will burn slowly, and the odor is not disagreeable.

Flies pass the winter hidden in cracks and holes in attics and cellars. Many of these may be killed in the spring by the two methods above described. Be sure that all drugs and chemicals used are fresh and pure, otherwise results may not be satisfactory. Do not allow flies to remain in your house or permit them near your food, especially milk. Refuse to buy foodstuff where flies are tolerated, and above all, do not harbor feeding places where flies can load themselves with dejections from typhoid or dysenteric patients. "Swat the fly" anywhere and everywhere. In Washington City alone 7,000,000 flies were killed last year by the "swat"—the trap, drowning, sulphur fumes, and even by electrocution. But when it is remembered that seven generations of flies may be produced in a single summer, we can get some idea of the enormous task before us. One female fly will lay 120 eggs on an average, and if all these eggs should hatch, and, in turn, reproduce their kind in like manner, there would be by autumn, from a single female fly, a progeny of nearly 6,000,000,000,000. These figures stagger the imagination and show that to "swat" the fly by the millions means very little so long as those that survive have unchecked opportunity for breeding.

Better than swatting the fly is the prevention of its breeding by cleaning up the places where it thrives. One filthy place in a neighborhood will do more in multiplying the fly pest than a hundred clean and thrifty fly expert killers can extinguish, work as diligently as they may. Every town and city should pass strict ordinances, punishing those who carelessly permit filth to remain exposed or otherwise afford breeding places for flies.

Denver, Colo, May 29, '12.

CHAS. M. BICE.

Coal to the amount of 750 tons has been transferred from lighters to a man-o-war in one hour and a half.

"I say, old man, did I ever tell you about the awful fright I got on my wedding day?" "S-s-s-h, no man should speak that way about his wife."

THE SUNDAY SCHOOL LESSON

INTERNATIONAL LESSON, JUNE 16.

Lesson XI. Christ's Witness to John the Baptist. Matt. 11. 2-19.

Golden Text, Luke 7. 28.

Verse 2. Verse 1, which is not a part of our lesson passage, reads, "And it came to pass when Jesus had finished comanding his twelve disciples, he departed thence to teach and preach in their cities." Following the best harmonies of the Gospels we must insert at this point in the narrative the incidents of the healing of the centurion's servant and the raising of the widow's son at Nain (Luke 7. 1-17). Both incidents belong to the preaching tour referred to in the verse just quoted.

News of the marvelous works of the Christ reached John the Baptist in his prison at Machaerus, on the upper end of the Dead Sea, where an imposing castle served the double purpose of palace and dungeon.

3. Art thou he?—The uncertainty in the mind of the Baptist was real, not affected. Still it was not an evidence of disbelief, but rather of a troubled uncertainty born of disappointment and prison hardships.

4. The things which ye hear and see—The marvelous authoritative teaching concerning the kingdom and the words of healing and beneficence performed.

5. The poor have good tidings preached to them—Jesus everywhere lays as much stress upon his teachings as upon his miracles.

6. No occasion of stumbling—No cause for the faltering of faith.

7, 8. What went ye out in the wilderness to behold?—We are permitted in the passage which follows to see John through the eyes of Jesus. To him the great forerunner of the Kingdom was no mere reed shaken with the wind, nor yet an ordinary herald of royalty clothed in soft raiment, but a prophet of righteousness.

9. Some translations of this verse read, But what went ye out to see? a prophet?

10. He, of whom it is written—In Mal. 3. 1, which reads: "Behold, I send my messenger, and he shall prepare the way before me; and the Lord, whom ye seek, will suddenly come to his temple; and the messenger of the covenant, whom ye desire, behold, he cometh, saith Jehovah of hosts." In Malachi it is thus Jehovah himself who speaks of his own coming. This direct speech in the first person all of the evangelists change into an address of Jehovah to the Messiah (compare Mark 1. 2; Luke 1. 76; 7. 27), which suggests that perhaps they are quoting not directly from Malachi, but from some common paraphrase in which the change had already been made.

11. There hath not arisen a greater than John the Baptist—None greater under the old dispensation, a representative of which the Baptist must be considered.

Greater than he—Greater in privilege, because a member of the Kingdom, and as such under the new dispensation.

12. From the days of John—Since he began to preach repentance.

Suffereth violence — The eager crowding of repentant sinners into the Kingdom. Jesus gives John full credit for the remarkable influence of his preaching.

13. And all the prophets and the law—Those of the Old Testament.

14. This is Elijah, that is to come The prophecy referred to is that of Mal. 4. 5, "Behold I will send you Elijah the prophet before the great and terrible day of Jehovah come." Jesus hints that his hearers may be unwilling to believe his statement concerning John. Their unbelief would be natural in view of John's present imprisonment and humiliation, and more particularly in view of the fact that they expected a personal return of Elijah and not the coming of another prophet of similar authority.

15. Ears to hear—Power to comprehend.

16. This generation—The Pharisees and scribes who are pleased with neither John nor himself. These are compared with children in the streets playing at weddings and funerals, and quarreling with each other as they play.

19. Eating and drinking—Not subjecting himself to the asceticism which John had practised.

Wisdom is justified by her works—The superiority of the religion of John and Jesus is proved by the lives of their disciples.

THE PRINCE OF WALES.

THE TRIUMPH OF FAILURE

Unhesitatingly We Are Directed to Lift Our Eyes Beyond This World's Limits

Why is my pain perpetual, and my wound desperate?—Jeremias xv., 18.

Like winds through wintering trees disappointments moan through the pages of Jeremias. He is the inspired Voice of Failure. His querimonies echo all our own sad summings up. His history has a power all its own in bringing home to us the fact that the reaping time is not yet, nor the place here. Yet, in spite of the insistence life itself gives to that lesson man is slow to learn it.

With failure dogging the many and success proving such a disappointment to the few, would it not be a better thing than success itself to learn the wherefore of our disappointments and the where of the blessedness of them that mourn?

In the white light of revelation which God lets in upon us from the Holy Book there is no need to grope for a solution of the mystery of human sorrow. In the wider range which embraces another world we are shown the answers to our plaintive questionings, the compensation for our trials, the gratification of our clamoring desires. The perspective cut off by the tomb is a false one. For the vantage point which takes in the whole scheme of things we must climb to the

MOUNT OF THE BEAUTITUDES.

Revelation thus explains this world by a better one. Up and out of this world she leads desire. Reason, victimized so often by the shifting lights of fancy, has a harder time picking her way; yet, unerringly too, she leads to the same point. "My heart was made for Thee," exclaims St. Augustine, "and nothing less than Thee can satisfy it." This is the cry of a human heart that has sounded every depth and found, not the satiety that hushes desire, but the truth that God awakened, and God alone can still, the aching of our desire. For our very disappointments evince a supremely good God. Follow these unfilled desires back to their source or forward to their adequate object and they will bring you up face to face with God—God who implanted them in our hearts; God who alone can fill them.

Nature cannot rise above her own level. From out of the soil of Nature, then, these upleading desires of ours cannot have grown. Were they of Nature's prompting she would answer them as she answers hunger with nourishment. But they reach above her. They know of better things than Nature can give—the better things of a better land. And this higher gratification that they seek connotes their higher origin—the supernatural—God. They are the invisible cords which He has attached to our hearts to draw them to himself. Nature, which cannot answer them,

CANNOT EXPLAIN THEM.

From the inadequacy, therefore, of everything else we must conclude that God alone can fill them with that fulness which brings rest—unless we would contradict that cannon of philosophy which says that no such desire, steady, real, enduring, can be vain. Somehow, somewhere, such a tendency must have its adequate object—its gratification. And that such gratification is really God man's very error in seeking it elsewhere tends convincingly to prove. For why do we pursue with such confidence of full and final gratification wealth, pleasure, science, glory, love? Precisely because we lend these objects the very qualities of the Divine. We fancy them infinite, eternal. We crave for them as such. We idealize, we apothesize them; that is, we make gods of them. "We cannot love anything," wrote Fichte, "unless we consider it eternal."

Why, then, let disappointment dismay us, since by excluding all else as inadequate it leads us into the very arms of God, our true Ideal?

This is the very triumph of failure, the keystone truth of the whole gospel of cheerfulness:—All that is not God must disappoint us; God alone is good enough for us.—Rev. Eusebius Schilingmann.

MONSTER WHITE STAR LINER.

Steamer Gigantic Will Have New Double Shell.

Though nothing official has been announced in regard to the 54,000-ton liner "Gigantic" that is to replace the "Titanic" on the Atlantic service of the White Star Line, it is understood that the great disaster has decided the Belfast builders to make an alteration in her plans.

The keel was laid in the Harland and Wolff yards some weeks ago. In view of recent events it has been decided to equip her with double cellular sides and bottom like those of the Mauretania and Lusitania. Lord Pirrie, the head of the firm, is credited with the statement that he never witnessed a launch without feeling he could produce a better boat if he began again. No doubt the "Titanic's" experience has confirmed that view.

Before the White Star and Cunard Atlantic giants came into being, England built her first leviathan and called her the "Great Eastern." She was a failure, and early in her career ran on a rock that tore her shell for one-seventh of her length. But she had this double form of bottom and sides, so she was towed in safety into port.

Both British and German owners have been badly shaken by the "Titanic" loss. Though Germany is building three 50,000-ton leviathans for the Hamburg-Amerika Line, there is no German dry-dock big enough yet to accommodate them. If an accident happened to them today while afloat, they would have to make for Belfast. At Southampton and Belfast drydock provision is being made for vessels of nearly 900 feet, while on the Mersey and the Clyde 1,000-feet drydocks are being built.

The beaten yolk of an egg added to any cream soup just before it is served, will improve its flavor.

Young Folks

THE ALPHABET MAN.

Audrey had been showing Mary the A B C book until they both were tired of it. There would be at least half an hour longer before mother would come home, and Audrey tried hard to think of some other amusement to fill the time. Suddenly she clapped her hands.

"I know what we'll do!" she said. "We'll make an alphabet man!"

She took paper and pencil, and the two heads bobbed together over the picture she drew.

"First we'll make a big O for his body," Audrey said, "and a smaller one for his head. We'll join them with a wide letter H for a neck, and the crosspiece will look like his collar. Two long capital I's will do for his legs, and two big L's will make his arms."

"Now two little o's for his eyes," suggested Mary.

"Yes, that would do nicely; but first let's try two broad, flat D's. That would make him roll his eyes to one side in such a funny way. Now what shall we have for a nose? I guess we shall have to use an I."

"Wouldn't a V made upside down be better?" asked Mary.

"Of course! Why didn't I think of that?" cried Audrey, as proud of the suggestion as Mary herself. "Now for his mouth! A broad, low U will give him just the happiest kind of a smile."

"What shall we have for his ear?"

"Only one shows, and a C will be just the shape for that. And some straggling S's and J's will make his hair."

"Let's put some O's down the front for buttons, and then he'll be all done," suggested Mary.

After making the buttons, they gazed at the alphabet man with great satisfaction.

Then Mary drew one.

"Now," said Audrey, after a moment's study, "I believe we can make him a chair out of a small h, a bed out of a wide, very low capital H, and a table out of a capital T. Oh, yes, and a house out of a big capital H for the main part and a capital A for the gable. We can let the lower part come down for the eaves, and we can make a fence out of little m's set close together, and a gate out of a capital Z with a capital N drawn across it, and—"

But just as that moment mother came in, and in the excitement of showing her their funny pictures, Audrey forgot to add anything more to the alphabet man's property. I wonder if you can?—Youth's Companion.

Exeter Advocate,

Sanders & Cresch, Props.

THURSDAY, JUNE 13, '12

BACHELORS

A bachelor is a man who comes home late on a cold, dark night and gets a warm and effusive welcome from the hatrack. When a man has arrived at the age of thirty without evincing the slighest interest in the cost of living at the increasing outrageousness of millinery, he may probably be called a bachelor. Bachelors are of two kinds —self made and girl-made. The first kind is a man who is too foolish to marry. The second kind is produced by women who are too wise to marry. Owing to the inconceivable tender heartedness and headedness of women, the first variety is far the most numerous. Bachelors live as a rule, but are kept in a passable state of repair by their landladies. They are very handy, and will eat almost anything. If you are in doubt as to whether a man is a bachelor or not invite him to dinner. If he accepts with a hungry look in his eyes he is either a bachelor or a man with a perpatetic wife. Then set before him a piece of fried shoe upper. If he eats it without remark and grabs his coffee cup about the waist instead of by the handle you can safely bet that he is a bachelor from the lightning lunch belt. Bachelors are most attractive between the ages of 30 and 40, during which time they are in an excellent state of preservation, and are able to dodge heiresses and chorus girls, matrimonially speaking with ease and skill. Between 40 and 50 the bachelor becomes more pensive and cannot imagine why young girls of 18 are so unanimously elsewhere when he calls. From 50 onward bachelors are objects of pity, who live alone, pursued by many terrors. It is a sad sight to see a trembling old bachelor holding a ferocious baby which has been loaned to him by some heartless father for the amusement of a large room full of company. At this age, too, many bachelors who have successfully avoided dozens of happy marriages earlier in life are caught helpless and feeble by some designing widow and meet a terrible fate. Bachelors are useful when young for, wearing down bathroom floors, supporting theatres candy stores and florists and seating guests at weddings. Later on they become useful for paying taxes and as horrible example. Bachelors have done some good in the world, but as forefathers and ancestors they are a dismal failure.

Many of our readers may be interested in the plans of the Department of Education for introducing the subject of Agriculture into our rural and village schools in a practical way. It is now very generally considered that the work in the schools might very well be adapted to the work-a-day interests of the neighborhood and the employments that will likely be followed by the boys and girls after they leave school. A list sent to us by the department indicates where an attempt in this direction is being made in our district through the growing of plants and carrying out of simple experiments at school. Other schools might become interested in the work if they knew it was actually being undertaken in other nearby schools and so lay plans for making a commencement next year. As the agricultural interest is the chief interest in this province, it is fitting that schools that actively promote this interest in a practical way should be encouraged in the work. Among the schools taking this work are Exeter, No. 1 and 5, Biddulph, No. 4, 5 and 12, McGillivray.

A C. P. R. engineer near Montreal saw a dog on the track, and not wishing to even kill a dog he applied the brakes, and brought the train to a stop. Still the dog did not move, and on examination there was found crouching down behind the dog, a little child, all unconscious of the danger. The dog had refused to leave the child, and the engineer in saving the dog had also saved a child's life.

The Presbyterian Church in General Assembly at Edmonton has adopted the basis of union of the three bodies, Presbyterian, Methodist and Congregational, which was voted on by the congregations during the winter. Although this is not legally binding it is a solemn pledge to test the plan by actual experiment.

CLANDEBOYE

A large aeroplane passed over this vicinity about 2 p. m. Friday. It was going about the rate of 50 miles an hour and was up a considerable distance. It could not be seen very easily. It was taking a southeasterly course and was witnessed by a large number in this vicinity.

Women's Hair

HERE'S A PREPARATION THAT MAKES HAIR FASCINATING

PARISIAN SAGE is the ideal hair tonic and beautifier of the present time. It is compounded on the most advanced scientific principles, and nothing on the market to-day can compare with it.

It accomplishes so much more than the ordinary tonics, and does it so quickly that users are astonished.

PARISIAN SAGE kills the dandruff germs and eradicates dandruff in two weeks, or money back.

PARISIAN SAGE stops falling hair; itching of the scalp and splitting hairs; or money back.

Since its introduction into America it has become a prime favorite with women of refinement.

PARISIAN SAGE gives a fascinating lustre to women's hair and makes it beautiful. It makes the hair grow luxuriantly; it is the daintiest and most refreshing hair dressing that science has produced, and has not a particle of grease or stickiness in it.

A large bottle of PARISIAN SAGE costs but 50c. at W. S. COLE'S and dealers everywhere. The girl with the Auburn hair is on every package.

Dashwood

Schnader—Weber—The home of Mr. and Mrs. Jacob Weber of the 12th con. of Hay, was the scene of a very pleasant event on Tuesday, June 11th, when their eldest daughter, Laura May, was united in marriage to Mr. Jacob Weber, a prosperous young farmer of Cavalier County, North Dakota. The ceremony was performed by Rev. G. Thun of Dashwood in the presence of only a few of the immediate relatives. The ceremony over and congratulations extended to the happy couple all sat down to a sumptuous wedding feast. The bride was the recipient of many useful and costly presents. The young couple will spend a few weeks with friends and relatives here, after which they will leave for Dakota and settle down on the groom's fine farm. They will have the best wishes of a host of friends for their future happiness and prosperity.

Crediton

Henry Sweitzer bought a Ford Automobile last Friday from Cook Bros. of Hensall.

Godfrey Nicholson is having material drawn to erect a slaughter house on a lot owned by Thos. Trevethick, situated west of the village.

John G. Young spent last Sunday in London with his family.

Chas. Zwicker is all smiles these days. Its a boy.

Albert Morlock has sold his Flanders auto to his brother Will. He went to Walkerville on Monday to bring another car from the factory.

The dust of our streets is simply so thick that you can taste it, feel it and breathe it in the air. We rather stand our city fathers are seriously thinking of oiling the main street. Let it be soon.

James Lawson has opened up his ice cream parlor for the summer season.

The pulpit in the Evangelical church was occupied on Sunday evening by Rev. Kaepke who has been appointed by the conference to take charge of the work in Regina, Sask. As there was no service in the Methodist Church, there were a large number in attendance. The reverend gentleman is a very fluent speaker and his discourse was listened to with great attention. A collection in aid of western Canada missions was taken up at the close of the service.

William Hedden, who moved to Brantford last fall, has moved back to town and is now occupying the house recently vacated by Frank Snell. We welcome them back to town.

Mrs. Walter Dumart and babe of Berlin is visiting Mr. and Mrs. August Hill this week.

The base-ball game with the Greysteads was well attended last Friday evening. Something went wrong with these old-time rivals and they soon blew up. Teddy was steady throughout the game and had splendid support. Our boys are playing snappy game this season and can make it interesting for any team which would like to meet them. The score stood 14—2 in our favor when the game was called on account of darkness. The following are the runs made.—

Crediton	2	1	0	3	0	0	2	x	—14
Greysteads	0	0	0	1	0	0	0	1	—2

Another game is called for on Friday evening with Atlas Craig. This team defeated the Greystead a few weeks ago So look out for fun.

Word has been received here that Oscar Wolf who is now in Saskatoon, Sask., is suffering from pneumonia. We trust his illness will not prove serious and that he will soon recover.

Herb. Halst returned here on Tuesday from Pigeon, Mich., where he spent a few days with his parents.

Dr. & Mrs. Orme spent a few days in London this week.

Harry F. Eilber has made a good job of trimming the hedge on the school grounds.

Miss Brown of the Crediton public school staff narrowly escaped having a nasty fall in the school room on Friday. The floor register had in some way been removed and not noticing it, she stepped in and almost went through the ceiling into the room beneath. Fortunately there have been no serious results.

MOUNT CARMEL.

Dr. and Mrs. Tillmann of London called on friends here on Sunday.— Mrs. Biggar of Niagara was called to the sick bed of her mother (Mrs. Lennon on Saturday.—Mr. and Mrs. John Hall of Stratford are visiting the former's brothers, Messrs. Ed. and T. J. Hall. —Miss Margaret Rowland's many friends here are pleased to know that she is improving nicely.—Miss Josephine Glavin left last week for Belton to visit her brother for a few weeks.— Mr. T. J. Hall is enlarging his house, which will make a great improvement.— Miss Long of Dashwood was the guest of Miss Marie Guihan on Sunday.— Mr. and Mrs. Joseph Zeller of Zurich visited friends here on Sunday —Quite a number from here intend taking in the circus in London next week. —The choir intend holding there annual picnic at Grand Bend Thursday June 20th.

A SQUARE PEG in a Round Hole

You may be alright, but if you are in the wrong position you are like a square peg in a round hole. You want a position where you fit.

This paper is read by intelligent business men, and a Want Ad. in our classified columns will reach them.

CENTRALIA.

Wedding—A very pretty wedding took place on Wednesday June, 12th, at the home of Mr. and Mrs. John Wilson, at high noon, when their daughter, Miss Allie, was united in marriage to J. T. Aldworth of Waterloo. The bride entered the beautifully decorated parlor leaning upon the arm of her father while the wedding march was being played by Miss Margaret Quinton. Rev. Blatchford performed the ceremony in the presence of about seventy-five guests. The couple were unattended and the bride wore a lovely gown of white lace, with trimmings of Mexican lace, and satin ribbons, and carried a boquet of bridal roses tied with satin ribbon, strewn with Lily of the Valley. After the ceremony was performed and congratulations over, all repaired to the dining room where a bounteous wedding breakfast was served. The bride was the recipient of many beautiful and costly souvenirs. Among them was a good substantial cheque from her father and mother. The brides travelling suit was a beautiful tan serge, with hat to match. The bride and groom left by auto on a trip to Pt. Huron and Detroit. Guests were present from Toronto, Detroit, Goderich, London, Strathroy, Wingham and Bayfield. After the honeymoon trip they will settle down in Waterloo, where the groom is foreman of a large trunk and grip factory.

Mr. Jas. Abbott of Manjatou, Man., arrived in town on Monday evening, and will spend a few days visiting relatives an dfriends. Jim looks as if the west agreed with him pretty well.

A large number from here attended the funeral of Mr. Thos. Essery at Exeter on Tuesday.

Mr. Will Colwill took a very fine car-load of his cattle to Toronto on Saturday last, for which he received a good high price.

(Too late for last week.)

Our baseball boys, or Daly's nine, as they are called, feel quite elated over their games the past week. On Thursday last they played with the Exeter boys and won out by a score of 12-11, and on Saturday evening the Brinsley and Atlas Craig boys came over and were defeated by a score of 14-1, and Monday they went to Dashwood and won out again by a score of 4-3. Keep at it boys.—Mr. Will Moulton of London spent a few days with relatives around the village.—The Ice Cream event given by the League was quite a success, the proceeds being about $17.—Miss Lillian Sutton returned to London Monday after spending several weeks with her sister, Mrs. E. Colwill.— Rev. T Blatchford and J. Colwill attended the Methodist conference at St. Thomas during the week.—Mr. Thos Mitchell visited at Lansdowne the past week, having gone to attend the funeral of Mr. Wm. Moulton.—Miss C. Faithall and lady friend Miss Goodrow of Chatham were guests of Mr. and Mrs. Faithall over the holiday.—Quite a number from the village and vicinity attended the circus at Exeter on Tuesday.—Mr. and Mrs. Nelson Hicks of Detroit spent a few days the guests of the former's brother, Mr. Andrew Hicks. Mr. Hicks took his old place in the choir and sang three beautiful solos, which were much appreciated —Mr. A. J Robins of Detroit spent a few days the guest of Mr. F. Hicks.— Miss Della Marshall of Blyth spent a few days the guest of her sister at the home of Mrs. S. Andrews.—Mr. Russell Colwill of Toronto visited his brothers here the past week.

GRAND BEND.

Mr. and Mrs. Millman from Thedford visited at Asaph, Gravellers Sunday.— Mrs. Campbell, who has been with Mrs. Carrier, returned to her home in St. Joseph Sunday.—Mr A. Desjardine, who is adding a piece to his barn, had it raised Monday.—Mr. R. Sanders and Mr. Moncur of Exeter were in our burg Thursday.—Mrs. Carrier is able to be out again.—Wm. Marks and S. Bossenberry of Parkhill were in our burg Tuesday.—The Methodist and Presbyterian churches hold the annual picnics Friday the 14 of June.—Mr. P. Baker is having his house painted.—Mrs. Wm. Patterson and sons, Russel and Warren, are visiting near St Thomas for a week.—Mr. Bruce Bossenberry was in Thedford Monday.

KIRKTON.

Rev. B. Snell attended conference at St. Thomas last week.—Miss Orr of St. Joseph Hospital London is visiting friends in this vicinity.—Mr. Sutherland has been seriously ill. But we are glad to know that he is improving.—Kirkton bids fair to have the railroad at last It may be the C.P.R. perhaps the C. N.R. and the Electric Line sure.— Mrs. Geo. Mills, Mrs. Jas. Kemp and Sara Kemp attended the South Perth District convention of the Women's Institute held in Fullarton on Tuesday June fourth.—Mr. Randolph Davis has been re-engaged as teacher for the Kirkton Public School for another year at a handsome increase in salary. Mr. Davis is without a doubt One of the best teachers Kirkton School has ever had.

Beware of Ointments for Catarrh that Contain Mercury,

as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten-fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly on the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. CHENEY & CO. Testimonials free.

Sold by all Druggists, Price 75c. per bottle.

Take Hall's Family Pills for constipation.

HAY.

A pretty wedding took place at the home of the bride's parents, when Melissa, daughter of Mr. and Mrs. Benjamin Pfile, 14th con., Hay, was married to Mr. Roland Geiger, son of Mr. and Mrs Moses Geiger, Bronson Line, Hay. The ceremony was performed by their pastor, Rev. G. F. Brown of Zurich, under an arch of evergreen, draped with snow balls and a bell artistically arranged. The bride was beautifully gowned in white suesine silk, with bugle trimming and baby Irish insertion, wearing a beautiful veil and wreath of orange blossoms, and carrying a boquet of white roses and maidens fern. Her ornament was a necklace of pearls, the gift of the groom. She was attended by her sister, Miss Pearl Pfile, who was becomingly gowned in cream voile, with bugle trimmings and applique insertion. She wore an initial brooch, the gift of the groom, and carried white and pink carnations. The groom was supported by his brother, Mr. Roy Geiger, teacher in the public school, con. 14, who wore a stickpin, the gift of the groom. Miss Enloine Geiger, niece of the groom, was flower girl and ring bearer, while Mrs. Alf Geiger, sister-in-law of the groom, played the wedding march, both wearing brooches, the gifts of the groom. After the ceremony was solemnized and the usual congratulations offered, they surrounded the well laden tables and did ample justice to the many and varied edibles. The evening was spent in a social way and a short program was rendered in which Roy Geiger, Miss Ella Link, Miss Ethel Carr, Henry Pfile and G. F. Brown participated. The following day Mr. and Mrs. Geiger left for Detroit and other points. The bride's going away suit was of Alice Blue Pallette silk, and fawn coat, trimmed with cream satin, and hat to match. They will be at home to their many friends on the Bronson Line the latter part of this month. The many valuable and varied gifts show the popularity of the young couple and all unite in wishing them a happy and prosperous future. Following are the gifts presented,— a parlor and two mantle clocks, china dinner set, two rockers, oak centre table, two table linen bed spread, doz. silver spoons, silver butter knife, silver sugar spoon, doz. silver knives and forks, parlor lamp, two silver butter dishes, silver cake plate, broom and dust pans, pair lace curtains, pair embroidered towels, silver fruit dish, centre piece, and $57 in cash.

TUCKERSMITH—Levi Storey of the West End, has sold his 100 acre farm, known as the "Ridgecrest farm" to Mr. Thos. Coleman, of the same line. Mr. Coleman now owns 200 acres, which are well situated This line seems to be holding the record of farms changing hands, this being the 5th one sold with in the distance of a mile.

CLINTON—Provincial Inspector Morrison was in town Friday conducting a case against the hotelkeeper at Kintail for selling liquor without a license in the local option Township of Ashfield. One hundred dollars and costs were recorded by Police Magistrate Andrews.

Old Laws of Scotland.

On the statute book of Scotland is still an act passed in 1825 ordering that "na man play futeball," because it is "esteemed to be unprofitable sport for the common gude of the realme and defense thereof." There is also a statute against alien immigration, passed in 1426, and authorizing "all his majesty's subjects" to "take, apprehend, imprison and execute to death the said Egiptians (gypsies), either men or women."

His Experience.

"They say Cashit, who has become the social magnate of the town, was once an elevator boy."

"Ah, that accounts for it."

"Accounts for what?"

"His faculty for taking some people up and for taking others down."—Chicago News.

A Picture Hint.

Use two pieces of glass and two pictures when passepartouting. Fasten the hangers to the cardboard between the two pictures. When tired of one picture turn its face to the wall and enjoy the other.

It Is Up To You

To protect your family from the ravages of disease and infection; and the rigors of winter; to make your home the abode of Health and Happiness.

Statistics tell us that there were over 250,000 deaths in North America last year from fever and Pneumonia; Over 90 per cent. of these cases were traceable to out-door closets, and all were the result of insanitary conditions.

Are you going to allow this terrible death rate to continue.

Why not insure Health by installing a "PARKYTE" SANITARY CHEMICAL CLOSET.

Absolutely Sanitary and Odorless carries the endorsement of Physicians and Health Officials, and our own Iron-clad guarantee, Requires no expensive water-system; no plumbing; no sewage can be installed in any part of your home at the cost of a few minutes of your spare time; lasts a lifetime and cost less than a CENT a day.

"PARKYTE" Chemical has been proven by Bacteriological test to be the most powerful Disinfectant, Deodorant and Germicide, known to Science.

The "PARKYTE" SANITARY CHEMICAL CLOSET is sold by

FREE TO YOU—MY SISTER

FREE TO YOU AND EVERY SISTER SUFFERING FROM WOMEN'S AILMENTS.

I am a woman.
I know woman's sufferings.
I have found the cure.

I will mail, free of any charge, my home treatment with full instructions to any sufferer from women's ailments. I want to tell all women about this cure—yes, my reader, for yourself, your daughter, your mother, or your sister. I want to tell you how to cure yourself at home without the help of a doctor. Men cannot understand women's sufferings. What we women know from experience, we know better than any doctor. I know that my home treatment is a safe and sure cure for Leucorrhœa or Whitish discharge, Ulceration, Displacement or Falling of the Womb, Profuse, Scanty or Painful Periods, Uterine or Ovarian Tumors or Growths, also pains in the head, back and bowels, bearing down feelings, nervousness, creeping feeling up the spine, melancholy, desire to cry, hot flashes, weariness, kidney and bladder troubles where caused by weakness peculiar to our sex.

I want to send you a complete 10 days' treatment entirely free to prove to you that you can cure yourself at home, easily, quickly and surely. Remember, that it will cost you nothing to give the treatment a complete trial; and if you should wish to continue, it will cost you only about 12 cents a week, or less than two cents a day. It will not interfere with your work or occupation. Just send me your name and address, tell me how you suffer, if you wish, and I will send you the treatment for your case, entirely free, in plain wrapper, by return mail. I will also send you free of cost, my book—"WOMAN'S OWN MEDICAL ADVISER" with explanatory illustrations showing why women suffer, and how they can easily cure themselves at home. Every woman should have it and learn to think for herself. Then when the doctor says—"You must have an operation," you can decide for yourself. Thousands of women have cured themselves with my home remedy. It cures all, old or young. To Mothers of Daughters, I will explain a simple home treatment which speedily and effectually cures Leucorrhœa, Green Sickness, and Painful or Irregular Menstruation in Young Ladies. Plumpness and health always result from its use.

Wherever you live, I can refer you to ladies of your own locality who know and will gladly tell any sufferer that this Home Treatment really cures all women's diseases and makes women well, strong, plump and robust. Just send me your address, and the free ten days' treatment is yours, also the book. Write to-day, as you may not see this offer again. Address:

MRS. M. SUMMERS, Box 840 H - WINDSOR, ONT.

Mother, please give us some O-Pee-Chee Gum

Mothers! Give your little ones lots of O-Pee-Chee gum. They'll like its delicious flavor, and it's good for them too—far better than candy and sweets.

O-Pee-Chee Gum aids digestion, keeps the teeth in good condition and leaves a delightful feeling of purity and freshness in the mouth.

SUNSHINE FURNACE

McClary's

Sold by T. Hawkins & Son

ST. MARYS.—A blow from a brass coupling on a piece of hose caused a slight abrasion of the skin on the forehead and chin of Wm. Thomas, a few days ago. Blood poisoning set in and resulted in his death on Friday.

HENSALL

Mrs. Jas. Bonthron is visiting her parents in Waterloo.—Mrs. Barnett, formerly Miss Lou Thompson, is at the home of her mother here, seriously ill. —Mrs. R. Beck of London is spending a few days the guest of Mrs. A. Whiteside.—Al. Fairbairn and bride left for the west last week. They will remain there sometime visiting relatives.—Wm Kirk and wife of Fairgrove, Mich., left home last week, after visiting with R. Drysdale and other relatives in this section.—Our station burned down last week —see account in another column.— Last week John Stewart, while at work in his barn, had an attack of hemorrhage on the brain, which, although it confined him to his bed, was not at first considered serious. A couple of days ago, however, he became unconscious and has remained so, and it is feared that but little hopes of recovery can be entertained.—Last Sunday the Methodists and Presbyterians of Hensall worshiped together. In the morning the service was held in Carmel Church and in the evening in the Methodist Church. Rev. E. Mc L. Smith preached on both occasions.

A young lady from Scotland who came out to this country to be married arrived here Thursday evening, and left her trunk, containing her wedding outfit and several valuable presents, in the station over night, was greatly horrified to find that they had been destroyed by the fire.—Mrs. Barnett of Chatham who has been visiting with her mother, Mrs. Thompson, for a few days, has been attacked by a severe illness which causes her relatives much anxiety.—Fred. McDonell, who has had charge of the central Bell and rural telephone office for the past few years, has resigned and linemen are here moving the outfit into George Scott's grocery.

ZURICH.

Miss Idella Fisher of Berlin is visiting her parents, Mr. and Mrs. Oswald Fisher.—Miss Laura Steinbach returned from Detroit to spend the summer at the home of her mother, Mrs. J. C. Kalbfleisch.—Mr. Albert Schnell of the West is visiting with his father, Mr. John H. Schnell.—Mrs. Henry Greb had the misfortune on Tuesday morning of breaking her leg by falling against the stove in her kitchen. The break is a serious one near the hip joint. She is over seventy years of age.—Edward Ducharme of the Bronson Line, son of Peter Ducharme and Miss Florence Foster, daughter of Joseph Foster, were married in St. Boniface church Tuesday of last week by Father Stroeder. The young couple took a wedding trip to Detroit.—There is a prospect of having a branch of the Jackson Manufacturing Company of Clinton started in town.—Rev. C. K. Koepke, the newly appointed missionary to Regina, Sask., by the Evangelical church, preached here Sunday morning and at 14th con. in the afternoon.

IN MEMORIAN

In memory of John Cunningham, son of Mr. and Mrs. B. Cunningham, who died on May 8th, 1912, aged 14 years 5 months and 24 days.

Jesus has called our John away,
No more in this dark sinful world to stay,
He has gone to dwell in mansions above,
Where all is blessedness and love.
He was indeed a sweet precious flower
More fit to bloom in Eden's bower,
The father had plucked him with his hand,
To bloom and grow in a fairer land.
Truly you'll miss his prattle and song
But father and mother 'twill not be long
I feel very sure that John will wait
Till you both enter the pearly gate.
Just think how his eyes will sparkle with glee
When with his glorified vision he will see
That papa and mamma walk hand in hand
And will surely meet in that Heavenly land.
Dear father and mother do not repine
Your little jewel in Heaven doth shine
And stricken with rapture his harp of gold
His loving Saviour he doth behold.
And On the friends that loved him so,
God bless them, one and all,
And may they ever ready be
When Christ for them shall call.

WOODHAM

On May 28 a very pretty wedding was solemnized at the home of the bride's parents, Mr. and Mrs. George F. Morphy, Woodham, when their daughter, Katie, was united in marriage to Mr. T. H. Doubs of Omemee, Ont., Rev. C. Fletcher of the Kirkton Presbyterian church officiated. After congratulations all repaired to the dining-room, where the wedding luncheon was daintily served by the sisters of the bride. The many costly and handsome presents showed the esteem in which the bride is held. The groom's gift was a gold watch and chain.

CLINTON—A quiet marriage was celebrated at the home of Mr. and Mrs. Charles Heyler on Friday at 6 o'clock when Miss Emily Hall, of Toronto, became the bride of Mr. Howard Porter. The happy couple expect to reside in Toronto.

SEAFORTH—James L. Killoran, barrister of this town, and Miss Violet Cameron of Victoria, B.C., were married in the church of the Holy Rosary in Toronto June 5. They will reside in Goderich.

ST. MARYS—One of the most highly respected and best known men and a pioneer of the district in the person of Mr. Wm. Flesher Sanderson, passed away on Thursday morning, in Blanshard, at the age of 76 years seven months and fourteen days. Mr. Sanderson held many important positions during his residence in Blanshard as councillor, reeve and climbed the ladder to the warden of the County of Perth.

SEAFORTH—Mr and Mrs. M. Williams, Seaforth, Ont., announce the engagement of their daughter May to Mr. John Dorsey, of Duluth, Minn.. The marriage will take place the latter part of June.

MITCHELL—On Tuesday, at high noon, a very pretty marriage took place at the home of Mr. and Mrs. J. H. Dore, at the G. T. R. station, when their charming daughter, Miss Maud Dore, was married to Mr. Harry Robertson, a G. T. R. conductor, who runs out of Stratford.

CLINTON—The town was again alarmed early Tuesday morning by the loud clanging of the fire alarm and on investigation it was found that an unoccupied house at the south end of Victoria street was in flames. The building being of frame, the fire had gotten too much headway before the brigade appeared and it was almost completely destroyed. The building belonged to Mr. Thos. Marshall and there was a small insurance on it.

GRANTON—A large congregation assembled Wednesday evening in the Anglican Church, the occasion being the induction of the new rector, Rev. W. J. Eccleston. Evening prayer was said by Rev. G. W. Racey, of Kirkton Rev. Archdeacon Richardson officiated at the induction service and preached a special sermon.

SEAFORTH—Word was received here on Thursday of the death in Detroit of Miss Charlotte Shaw, daughter of the late Wm. Shaw, of Seaforth. The remains were brought to Seaforth for interment in Maitland Bank cemetery.

CLINTON—A very pretty wedding was solemnized at the home of Mr. and Mrs. Charles Heyler, on Thursday evening at 6 o'clock, when Miss Emily Hall, of Toronto, became the wife of Mr. Howard Porter. The ceremony was performed by Rev. T. Wesley Cosens in the presence of the immediate relatives.

NATURE'S ESSENCE...Extracted From Forest Plants.

Nature's laws are perfect, but disease follows if these laws are not obeyed. Go straight to nature for the cure, to the forest; there are mysteries here that we can fathom for you. Take the bark of the wild-cherry tree, the root of mandrake, stone, Oregon grape root, queen's root, bloodroot and golden seal, make a scientific, non-alcoholic extract of them with just the right proportions and you have

Doctor Pierce's Golden Medical Discovery.

It took Dr. Pierce, with the assistance of two learned chemists, eight years of hard work experimenting to make this pure glyceric extract and alterative of the greatest efficiency and without the use of a particle of alcohol.

E. WILLIAMS, ESQ.

Just the sort of remedy you need to make rich, red blood, and cure that lassitude and feeling of nerve exhaustion. Dr. Pierce's Golden Medical Discovery bears the stamp of PUBLIC APPROVAL and has sold more largely in the past forty years than any other blood purifier and stomach tonic.

"Some time ago I got out of health—my stomach seemed to be the seat of the trouble," writes MR. EZRA WILLIAMS, of Belleville, Kans. "I commenced to doctor with all the doctors at home as well as with other specialists on stomach and digestive organs. None seemed to do any good—in fact, most of the medicines did me harm. Finally, I wrote to Dr. Pierce, Buffalo, N. Y., who replied, stating that I had liver complaint with indigestion and constipation, and advised Dr. Pierce's Golden Medical Discovery and 'Pleasant Pellets.' "The 'Discovery' and 'Pellets,' have 'put me on my feet again'—seemed to be just what I needed. I could not have recovered without them."

Dr. Pierce's Pleasant Pellets are for liver ills.

VARICOSE VEINS CURED

NO NAMES USED WITHOUT WRITTEN CONSENT.

Confined to His Home for Weeks.

"Heavy work, severe straining and evil habits in youth brought on Varicose Veins. When I worked hard the aching would become severe and I was often laid up for a week at a time. My family physician told me an operation was my only hope—but I dreaded it. I tried several specialists, but soon found out all they wanted was my money. I commenced to look upon all doctors as little better than rogues. One day my boss asked me why I was off work so much and I told him my condition. He advised me to consult Drs. Kennedy & Kennedy, as he had taken treatment from them himself and knew they were square and skillful. I wrote them and got THE NEW METHOD TREATMENT. My progress was somewhat slow and during the first month's treatment I was somewhat discouraged. However, I continued treatment for three months longer and was rewarded with a complete cure. I could only earn $12 a week in a machine shop before treatment, now I am earning $21 and never loose a day. I wish all sufferers knew of your valuable treatment.
HENRY C. LOCUST.

HAS YOUR BLOOD BEEN DISEASED?

BLOOD POISONS are the most prevalent and most serious diseases. They sap the very life blood of the victim and unless entirely eradicated from the system will cause serious complications. Beware of Mercury. It may suppress the symptoms—our NEW METHOD cures all blood diseases.

YOUNG OR MIDDLE AGED MEN.—Imprudent acts or later excesses have broken down your system. You feel the symptoms stealing over you. Mentally, physically and vitally you are not the man you used to be or should be. Will you heed the danger signals?

READER Are you a victim? Have you lost hope? Are you intending to marry? Has your blood been diseased? Have you any weakness? Our NEW METHOD TREATMENT will cure you. What it has done for others it will do for you. Consultation Free. No matter who has treated you, write for an honest opinion Free of Charge. Books Free—"Boyhood, Manhood, Fatherhood." (Illustrated) on Diseases of Men.

NO NAMES USED WITHOUT WRITTEN CONSENT. PRIVATE. No names on boxes or envelopes. Everything Confidential. Question List and Cost of Treatment FREE FOR HOME TREATMENT.

MAKING SAFE INVESTMENTS

Canadians Not Yet a Nation of Investors, But Opportunity for Purchasing Bonds of Small Denominations Will Bring About the Habit. Purchasing Securities on the Instalment Plan.

The articles contributed by "Investor" are for the sole purpose of guiding prospective investors, and, if possible, of saving them from losing money through placing it in "wild-cat" enterprises. The impartial and reliable character of the information may be relied upon. The writer of these articles and the publisher of this paper have no interests to serve in connection with this matter other than those of the reader.

The French are generally known as a nation of savers. They are, however, more than this, they are a nation of investors. Every French man and woman have an inherent ambition to lay by a small amount from each year's earnings to keep them in their old age, and most of them do so. For investment they purchase the "rentes"—which is the Government bond of the French nation, and which may be had in small denominations. However, it isn't about the French that I want to talk.

Canadians have in some measure followed the lead of the French. The amount of savings bank deposits per capita is very high—about $95 for each inhabitant, or taking an average of four to the family, about $380 for each family. On this sum, however, the income is not great—$16.40 a year. A Chinaman, it is said, can subsist on about $10 a year—in China—but no white person would care to try. However, this sum only represents a part of the savings of Canadians. Many of those who build up a reserve against a rainy day invest the money in securities, and some, unfortunately, in mining stocks. The amount of the former, if they could be compiled, would certainly more than double the per capita amount of savings.

However, the point is that Canadians as yet are not an investing nation. The number of Canadians who hold Dominion of Canada bonds are so few that one might almost say they could be counted on one's fingers. Very few Canadians own any of our Provincial bonds, and scarcely fifteen per cent. of our municipal debentures were placed here during 1911. When it comes to other classes of bonds there is a different story, for the greater part of 1911's output of Canadian industrial bonds went into the hands of Canadian investors.

This shows a distinct distaste on the part of Canadians for conservatism. Industrial bonds, as a class, are by no means the highest type of investment, although there are several issues on the market that one can purchase without misgiving. However, this shows something more. Practically no bonds but industrials are, as yet, issued in denominations less than $500. I say as yet because there is an unmistakable tendency on the part of all corporations to issue "baby bonds," as they are often called. The fact that one may invest so small a sum as $100 in a bond which is certainly, in the majority of cases, is far safer than even most investment stocks has induced many careful people of small means to invest in the more stable security. This, no doubt, accounts in no small measure for the popularity of industrial bonds, though, of course, the higher rate that they bear is a contributing factor of unquestionable importance.

The inexperienced investor, however, is prone to overlook the fact that even where bonds are issued in denominations greater than he can afford at the moment he may still purchase them. A number of Canadian investment houses are prepared to sell bonds on the instalment plan so that one may buy a sound $500 or $1,000 municipal debenture, pay down one or two hundred dollars and pay up the rest when convenient. Of course, the house charges interest on the unpaid balance, but at the same time this is offset by the interest which the bond itself bears. Many investors like to purchase bonds in this way, as it gives them an incentive for saving, as they are naturally eager to pay off the balance due and receive their security.

By laying up a reserve of this sort and as a result of the forced saving, investing becomes a habit. Undoubtedly, not only saving, but investing, becomes second nature to most people who have gone in for it seriously, and like all habits, it is hard to break. Unlike most other habits, however, it is one which no thoughtful person would discourage.

The French have the investment habit and it is time for Canadians generally to acquire it. A little practice is all that is required for a large number of people who make so attempt at saving, for, until one makes a determined effort, it is not fair to say that one's income is too small to admit of putting any of it by. When Canadians acquire this habit—and our savings bank deposits show that no small proportion have it in an encouraging measure—our prosperity will no longer depend, as it does now, on the willingness of the British investors to take our securities.

EXTERMINATION OF RATS AND MICE.

If it were generally known that there is no trouble to rid a house, barn or any building of rats and mice by the use of Gillett's Lye, it is doubtful if the article could be made as fast as it would be used for this purpose alone. The process connected with using it is very simple, the plan being to sprinkle a little of the article in and around the holes made by these pests in floors, partitions, etc. In addition to this it is well to use a thin piece of board about a foot square, or even smaller, and make a complete circle of the lye on the board about a quarter of an inch deep, and inside of the circle place some meat or cheese. In endeavoring to get at the bait the feet of the rats and mice will be burned, and the whole colony, whether large or small, will immediately disappear from the premises.

The plan is worth trying, but the good kind—Gillett's Lye—should be procured. Refuse the many cheap imitations and substitutes.

W. A. Found told the fisheries conservation commission that the Canadian lobster fishing is the greatest in the world, and yields 50,000,000 lobsters yearly.

ENGINEER KILLED.

Three Hurt and Cattle Killed When Trains Came Together.

A despatch from Vancouver says: One killed and three injured is the result of a head-on collision between an east-bound Canadian Pacific freight train and a west-bound stock extra early on Thursday morning east of Tappen, a small station about fifty-eight miles east of Kamloops. Engineer Joliffe, who lived in Revelstoke, was killed, and the head-end brakesmen of both trains, Wright and Eskridge, were seriously injured. The cause of the accident is ascribed to the failure of a telegraph operator at Notch Hill to deliver the east-bound train orders. Many cattle were killed on the stock train.

FOUND NO MORE BODIES.

Search for the Titanic Dead Has Been Finally Abandoned.

A despatch from St. John's, Nfld., says: The steamer Algerine, which was sent out by the White Star Line to search for bodies of the Titanic victims, reported at Cape Race on Wednesday that she had found no bodies and seen no signs of wreckage. She was ordered to abandon the search and return to this port.

LOST WEALTH.

Sir Thomas Lipton tells a humorous story of a Scotchman who went to a race meeting for the first time in his life. The old man's

Sir Thomas Lipton.

friends persuaded him to risk sixpence on a horse—a 40 to 1 chance.

With much trepidation, the Scotchman handed out the sixpence, and, strange to relate, the horse won. When the bookmaker handed out a sovereign and sixpence to Sandy, the latter could not believe his own eyes.

"Do you mean to tell me I get all this for my saxpence?" he asked.

"You do," replied the bookmaker.

"Ma conscience!" exclaimed Sandy. "Tell me, mon, how long has this thing been going on?"

SWEPT BY FIRE.

Upper Fraser Country Overrun and Hundreds of Moose Burned.

A despatch from Vancouver says: Reports of a serious forest fire that has devastated the Upper Fraser country for a distance of 110 miles between Fort George and Tete Juane Cache have been received here. Four railway construction camps and four engineers' camps have been completely destroyed by the flames, which have also done damage to two unnamed townsites. The men from the railway construction camps were all turned out to help fight the flames. The terrific heat from the burning forests as the flames worked their way back toward the mountain passes was so great that a vast quantity of snow on the mountains and from the forests was melted, with the result that the Fraser rose three feet in two days. The floods helped in quenching the fires. Hundreds of moose were burned.

SCENE IN HUNGARIAN DIET.

Deputy Fires at President and Then Commits Suicide.

A despatch from Budapest says: Count Tisza, the Government leader in Parliament, on Friday, was shot at but not injured, in the Chamber of Deputies by M. Kovacs, an Opposition deputy, who then turned the revolver upon himself and fired two bullets into his head, dying instantly. Kovacs was one of the Oposition deputies excluded from the Chamber on May 31, following a near riot, in which the Emperor and the Government officials were bitterly assailed by the Opposition.

WELL POSTED.

A California Doctor With 40 Years' Experience.

"In my 40 years' experience as a teacher and practitioner along hygienic lines," says a Los Angeles physician, "I have never found a food to compare with Grape-Nuts for the benefit of the general health of all classes of people.

"I have recommended Grape-Nuts for a number of years to patients with the greatest success and every year's experience makes me more enthusiastic regarding its use.

"I make it a rule to always recommend Grape-Nuts, and Postum in place of coffee, when giving my patients instructions as to diet, for I know both Grape-Nuts and Postum can be digested by anyone.

"As for myself, when engaged in much mental work my diet twice a day consists of Grape-Nuts and rich cream. I find it just the thing to build up gray matter and keep the brain in good working order.

"In addition to its wonderful effects as a brain and nerve food Grape-Nuts always keeps the digestive organs in perfect, healthy tone. I carry it with me when I travel, otherwise I am almost certain to have trouble with my stomach." Name given by mail by Canadian Postum Co., Windsor, Ont.

Strong endorsements like the above from physicians all over the country have stamped Grape-Nuts the most scientific food in the world. "There's a reason."

Look in pkgs. for the famous little book, "The Road to Wellville."

Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human interest.

PRICES OF FARM PRODUCTS

REPORTS FROM THE LEADING TRADE CENTRES OF AMERICA.

Prices of Cattle, Grain, Cheese and Other Produce at Home and Abroad.

BREADSTUFFS.

Toronto, June 11.—Flour—Winter wheat, 90 per cent. patents, $4.10 to $4.15 at seaboard, and $4.15 to $4.25 for home consumption. Manitoba flours—First patents, $5.70; second patents, $5.20, and strong bakers', $5, on track, Toronto.

Manitoba wheat—No. 1 Northern, $1.18, Bay ports; No. 2, at $1.07, and No. 3 at $1.05, Bay ports. Feed wheat 67 1-2c, Bay ports.

Ontario Wheat—No. 2 white, red and mixed, $1.05 to $1.07, outside.

Peas—No. 2 shipping peas, $1.25, outside.

Oats—Car lots of No. 2 Ontario, 48 to 48 1-2c, and No. 3 at 47c, outside. No. 2 Ontario, 51c, on track, Toronto. No. 1 extra W. O. feed, 48 1-2c, Bay ports, and No. 1 at 47 1-2c, Bay ports.

Barley—No business, with prices nominal.

Corn—No. 3 American yellow, 79c, on track, Bay ports, and at 83c, Toronto.

Rye—Prices nominal.

Buckwheat—Market dull, with prices nominal.

Bran—Manitoba bran, $24 in bags, Toronto freight. Shorts, $26.00.

COUNTRY PRODUCE.

Beans—Small lots of hand-picked, $3 per bushel; primes, $2.65 to $2.75.

Honey—Extracted, in tins, 11 to 12c per lb. Combs, $2.50 to $2.75 per dozen.

Baled Hay—No. 2, $18 to $19 a ton. Clover, mixed, $14 to $15.50, on track.

Baled Straw—$11 to $11.50, on track, Toronto.

Maple Syrup—$1.25 per gallon.

Buffalo, June 11.—Spring wheat—No. 1 Northern, carloads store, $1.21 3-8; Winter, No. 2 red, $1.19; No. 3 red, $1.17; No. 2 white, $1.18. Corn—Firm. Oats—Steady.

LIVE STOCK MARKETS.

Montreal, June 11.—Sales of choice steers were made at $8.00 to $8.25, good at $7.50 to $7.75, and the lower grades from that down to $6.50 per hundred pounds. Cows brought from $4.25 to $7.00, and bulls from $4.25 to $6.75 per hundred pounds as to quality. Old sheep sold at from $5.00 to $5.50, and spring lambs at $3.00 to $5.00 each as to size and quality. Calves ruled steady at from $3.00 to $10.00 each, as to size and quality. Selected lots of hogs at $9.10 per cwt., weighed off cars, and in some instances as low as $8.60 was accepted with sows and stags included.

Toronto, June 11.—Cattle—Extra choice heavy steers for butcher and export, $7.60 to $8; good medium to choice butcher loads, $7.50 to $8; common, $5 to $6; canners, $3; choice butcher cows, firm, at $5 to $6.50; bulls, $5 to $6.25. Stockers—$5.25 to $6 for good quality; extra choice heavy feeders, $6.25 to $6.50. Calves—Good veal, $4 to $8; bobs, $1.50 to $2.50. Sheep—Choice ewes, $5 to $6; bucks and culls, $3.50 to $4.50; spring lambs, $3.50 to $6.25 each. Hogs—$8.25 to $8.35 f.o.b., $8.50 to $8.60 fed and watered, and $8.85 weighed off cars.

MAY BRINGS AN INCREASE.

Succession Duties for Last Month Amounted to $110,617.

A despatch from Toronto says: During the month of May the Ontario Government received in succession duties the sum of $110,617, as against the sum of $86,349 for the same month last year, according to the figures given by the Provincial Treasurer on Tuesday. The increase is a very satisfactory one, owing to the fact that heretofore the receipts of this year have not been equal to those of 1911. Up to the end of May the aggregate received since January 1 is $467,292, as against $614,557 received during the first five months of last year.

CABLES AT REDUCED RATES.

Sir Henniker Heaton Hopes for 12 Words at 25 Cents Soon.

A despatch from London says: Sir Henniker Heaton, the veteran postal reformer, speaking at a West Indian meeting, on Friday, said: "Very soon I shall expect Imperial cable messages at twelve words for a shilling. The Government ought to subsidize a cable service as it did the early mail service. The American cable companies are able to carry 325 million words annually, yet only carry twenty million. It is absurd to speak of deferred messages under such circumstances."

UNION JACK OFFICIAL FLAG

A Lot of Old Bunting in Canada Will Have to Be Replaced.

A despatch from Ottawa says: The decision of the Colonial Secretary that the Union Jack is the only flag entitled to be floated in Canada as the official flag will cause the expenditure of a lot of money in the purchase of Union Jacks by those whose flag equipment consists of chiefly the red ensign with the Dominion arms in the corner. While no official order will issue as to the use of the Jack, it is taken for granted that the various Governments, Federal, Provincial, and municipal, will obey the order and provide themselves with Jacks forthwith for use on all ceremonial occasions. It will be interesting to note what will become of all the red ensigns, hundreds of thousands of which are scattered all over the country. They cannot be used on ships because there are not enough ships to go around. They cannot be used on public buildings without disregarding the express wishes of the British Government, but they can still be used for decoration purposes.

ICEBERGS GONE.

Only One Sighted by Ships Within the Past Fortnight.

A despatch from New York says: Few icebergs are now menacing navigation along the ocean lanes, according to reports from the scout cruiser Birmingham, which is patrolling the Atlantic in the neighborhood of the spot where the Titanic disaster occurred. Word from the Birmingham was brought by the steamer Oceanic, which arrived on Wednesday night from Southampton. The Oceanic was in wireless communication with the scout cruiser on June 3 in latitude 38 north, longitude 46.12 west, and was informed that the Birmingham had sighted no icebergs whatever. She was in communication with various ships during nearly a fortnight's time before the Oceanic heard from her, only one of which had seen bergs in the vicinity of latitude 37.50, longitude 37.16.

THIRTEEN MONTHS IN YEAR.

Plan of Royal Society to Revise the Calendar.

A despatch from Ottawa says: The Royal Society of Canada wants the calendar revised. The delegation waited upon Premier Borden on Friday afternoon and urged that he exercise his authority in Canada and exert his influence with the British Government to have the number of months in the year increased from twelve to thirteen, and that each month shall consist of twenty-eight days. This, it is urged, would make them all the same, and would also result in each day of the week coming every year on the same day of the month. Premier Borden promised the learned delegation that their request would receive the serious attention of his Government. The deputation consisted of Sir Sanford Fleming, Sir James Grant, Mr. Benjamin Sulte, Mr. R. O. Boucher and Mr. W. D. Lesueur.

FIRE LOSSES FOR MONTH.

Large Fires Were More Numerous Than Usual.

A despatch from Toronto says: Figures compiled by the Monetary Times show that fire losses during May in Canada reach $2,251,815, as compared with $1,355,055 in April. Large fires were more numerous than usual, those exceeding $10,000 each aggregated $1,904,700 in damage done. The losses of the month, however, did not reach those of March or January. The municipal bond sales for May amounted to $1,928,748, as compared with $927,160 in April and $3,946,047 in the same month last year. The issues of Saskatchewan reached $1,140,200. Ontario $505,048, Alberta $180,500, Quebec $70,000 and Manitoba $33,000.

Hon. Col. Hughes, Minister of Militia, has issued regulations forbidding the use of liquor in the officers' mess in camps.

Monthly Review of Bond Market

In addition to a general review of the Securities Market our monthly publication, issued on the 15th, contains reports from Toronto, Montreal, and London, Eng., and a special article on some prominent Canadian industry.

Every investor should have a copy of this monthly review. It will be mailed free on request.

DOMINION BOND COMPANY, Limited

TORONTO MONTREAL
OTTAWA LONDON, ENG.

Secure & Profitable Bonds Paying 6%

¶ Price Bros. & Company have been in business in Quebec over 100 years. It is the largest industry in Quebec Province. Their holdings of pulp and timber lands are 6,000 miles in extent, and have been valued by experts at over $13,000,000. The net earnings in 1910 were $448,000,000. The new pulp mill now under construction will double these earnings. Timber limits are insured with Lloyds of England against fire.

¶ Price Bros. & Company First Mortgage Bonds pay 6 per cent. interest on their present price. They will assuredly appreciate in value. Considering interest return, security, and future increase in value, they are an unusually attractive investment.

On application we will send you literature fully describing these bonds.

THE NEW HEALTH DISTRICTS

Seven Depots to be Created to Safeguard the Province.

A despatch from Toronto says: The Province of Ontario, for the purpose of safeguarding the public health, has been divided into seven districts. The decisive action, based upon legislation passed last session, was taken by the Government on Thursday. The older portion of the province is given five of the districts, and Northern Ontario the other two. The exact boundaries of the various divisions have not been announced, nor the names of the seven district health officers who will be placed in charge, but the headquarters for each district have been made known.

London is the central point for the western district, which, of course, will include Middlesex, and presumably the rest of the counties running down the peninsula to Essex. Huron Bruce and Grey and the surrounding counties will likely form the district for which Palmerston has been selected as headquarters. Hamilton will be headquarters for the third district, which presumably takes in the Niagara peninsula in addition to Wentworth and other counties. The fourth health centre will be at Peterboro', and the eastern one at Kingston, these two serving as operating points for the eastern half of the province.

North Bay and Fort William will be the points from which the district health officers will work in the north, indicating the dividing line there. Temiskaming, with its epidemic-producing mining camps, will be carefully watched from North Bay.

The university has at the request of the Government arranged a special course for the district officers. It will include chemistry, bacteriology, water and sewage, epidemiology, and general public health and sanitary matters.

But this will not be all. Before they are placed in charge of their respective districts the men will be given a thorough schooling in practical work. They will during the term of study be attached to the Health Department, and will be sent out from time to time to get a first-hand knowledge of epidemics, sewage problems, and similar matters which will come within their province later on.

The district officers will receive a salary of $2,500 a year and expenses, and they will not be permitted to engage in private practice.

Their duties will not be light. The success of the somewhat radical changes made in the Public Health Act last session will largely depend upon the work of these men. To leave them free to do this the Government has removed them entirely from local control. They will act under the supervision and control of the Provincial Board and report daily to the department.

INDIGESTION RIGHTLY CURED

By Toning Up the Stomach to do the Work Nature Intends It Should.

Indigestion should not be neglected for a moment, for by depriving the body of its proper nourishment through the food, the trouble grows steadily worse. Neither should stimulating medicines, which ruin the already weak stomach by making it work beyond its strength, be used; nor pre-digested foods, which do not excite a flow of the digestive fluids, and by disuse cause the stomach to grow weaker. Nowhere is the tonic treatment by Dr. Williams' Pink Pills more clearly useful. The principle of this treatment is to enable the stomach to do its own work by building up the blood and giving tone to the nerves. When these are once restored to their normal health and indigestion disappears and the cure is permanent. Here is an experience with this treatment. Mr. John Brenenstal, Calgary, Alta., says: "For years I was an almost constant sufferer from indigestion, and naturally because there was much nutritious food which I could not eat owing to the pain and discomfort which followed, I was becoming much run down. I tried many medicines, but none of them helped me until I began the use of Dr. Williams' Pink Pills. After taking a few boxes I was much better and has since made that his home. His remains have been interred at Ch[illegible] He is survived by three sons and [illegible] daughters—John, James and Art[illegible] Mrs. Bridget of Winnipeg, and M[illegible] Shirray of California.

DEATH OF JOHN A. NEWEL[illegible] The death occurred about three o'cl[illegible] Monday morning of John A. New[illegible] proprietor of the Commercial Hotel, [illegible]eter, after an illness of only a[illegible] days of an acute attack of Brig[illegible] disease, from which his life has b[illegible] threatened on several occasions. [illegible]late the disease had given him m[illegible] than usual trouble and he was con[illegible]ous of the fact that another att[illegible] might prove fatal. He was 37 ye[illegible] 10 months old. Born in South E[illegible]hope, Perth County, he was the eld[illegible] of a family of twelve, and his de[illegible] was the first break in the family [illegible]cle. The father, David Newell, Can[illegible] Company agent, and the mother a[illegible] survive, as well as his wife, who [illegible] Mary Jane Coxon of Milverton, [illegible] whom he married seven years ago. T[illegible] brothers and sisters are Thos. H. [illegible] Exeter; Mrs. J. Taylor of Guelph; D[illegible]d of Flint, Mich.; Mrs. Lowe of H[illegible]mony Rich. of Stratford and Jenn[illegible] Annie, Olive, Arthur, William and [illegible]tred at home in South Easthope. T[illegible] late Mr. Newell had been in Exeter ju[illegible] a year, and previous to that had co[illegible]ducted a livery and stage [illegible] He replied, "May the Czar be ill so long as I serve him."

The policeman immediately informed the authorities, and as a result Schiren was sentenced to two years' imprisonment. He had been in prison two weeks, when he made the warders drunk, and so managed to escape.

The Chairman—"Supposing you were sent back to Russia, would you return to your parents?"

The lad replied that he would not return, but would commit suicide.

He was allowed to remain in Britain.

WHY HE LIKED CHESS.

"You play chess a great deal?" "Yes," replied the profound student. "Chess is a great game." "But does it rest the mind?" "Of course; that's the beauty of it. You can take a nice nap while you are waiting for your opponent to figure out his next move."

In the Growth of Corn

there's a period when the kernels are plumped out with a vegetable milk, most nutritious.

As the corn ripens the "milk" hardens, and finally becomes almost flinty.

Post Toasties

are made from this hard part of choice selected corn.

It is carefully cooked; treated with sugar and salt; rolled into thin bits; then toasted to an appetizing brown—without a hand touching the food.

It has been said that Post Toasties are the most deliciously flavoured particles of cereal food yet produced.

One can render an opinion upon trial.

"The Memory Lingers"

TO MARRY CLAUDE GRAHAM-WHITE.

Mr. Claude Graham-White will be married quietly on June 27 at the little parish Church of Widford, Essex, England, to Miss Dorothy Taylor, daughter of Mrs. Leroy Taylor, of New York. The wedding will be the culmination of an ocean romance. The aviator met his

Miss Dorothy Taylor.

bride-to-be last December in mid-Atlantic aboard the Olympic. Miss Taylor has taken many flights at Hendon, England, with her fiance, who, the day before the wedding, will fly to Hyland, to give an exhibition in aid of a local charity.

NO MORE CASTOR OIL.

Mrs. Effie Russell, Granum, Alta., says: "I have used Baby's Own Tablets in place of castor oil and now it is no more oil. I could not do without the Tablets; they are wonderful. Whenever baby is feverish I give him the Tablets and the fever soon disappears. I always keep them in the house and recommend them to my friends." Baby's Own Tablets do not gripe. They are easy to take and absolutely safe. They are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

GOING UP.

The packers buy beef on the hoof.

And the rest of us buy beef on the roof.

Dr. J. D. Kellogg's Dysentery Cordial is prepared from drugs known to the profession as thoroughly reliable for the cure of cholera, dysentery, diarrhoea, griping pains and summer complaints. It has been used successfully by medical practitioners for a number of years with gratifying results. If suffering from any summer complaint it is just the medicine that will cure you. Try a bottle. It sells for 25 cents.

Since 1900 the price of bacon has increased by nearly forty per cent.

Keep Minard's Liniment in the house.

LOFTS TO LET.

Instances of the Stupidity of Natives of Africa.

The natives of Central Africa are described by the late Sir Henry M. Stanley in his "Autobiography" as being incredibly stupid. He tells, for example, of one native who, with another man, was sent in a canoe across a river to fetch a company of men to camp. After waiting an hour, Stanley went to the river, where he found the two paddling each in an opposite direction, and blaming the other for his stupidity. They were in a passion of excitement, and quite unable to hear the advice of the men, across the river, who were bawling directions to them how to manage their canoe.

Another stupid fellow was generally saved from punishment because his mistakes were so absurd. One day we were floating down the Congo. Near camping-time, as he happened to be bowman, I bade him stand by, and when I called out, seize the grass on the bank to stop the boat. In a little while we came to a fit place, and I cried, "Hold hard, Kirango!"

"Please God, master," he replied, and forthwith sprang on shore and seized the grass with both hands, while we, of course, were rapidly swept on down-stream.

The boat's crew roared at the ridiculous sight. Nevertheless, his stupidity cost the tired men a hard pull up-river, for not every place was available for a camp.

A field-marshal in the British Army is equivalent to an admiral of the fleet in the Royal Navy.

SKIN SUFFERERS

Do you realize that to go through life tortured and disfigured by itching, burning, scaly and crusted eczemas, or other skin and scalp humors is unnecessary? For more than a generation, warm baths with

Cuticura Soap

And gentle applications of Cuticura Ointment have proved successful in the most distressing cases, of infants, children and adults, when all else had failed.

Although Cuticura Soap and Ointment are sold by druggists and dealers everywhere, a liberal sample of each, with 32-page booklet on treatment of skin and hair, will be sent, post-free, on application to "Cuticura," Dept. 9M, Boston, U. S. A.

THRILLING RACING DRAMA.

Act I.—Five men break a horse.

Act II.—They enter the horse in a race.

Act. III.—The horse breaks five men.

A Cure for Rheumatism.—A painful and persistent form of rheumatism is caused by impurities in the blood, the result of defective action of the liver and kidneys. The blood becomes tainted by the introduction of uric acid, which causes much pain in the tissues and in the joints. Parmelee's Vegetable Pills are known to have effected many remarkable cures, and their use is strongly recommended. A trial of them will convince anyone of their value.

NEVER MIND WHAT PA SAYS.

Teacher—Willie, give three proofs that the world actually is round.

Willie—The book says so, you say so, and ma says so.

When Your Eyes Need Care

Try Murine Eye Remedy. No Smarting—Feels Fine—Acts Quickly. Try it for Red, Weak, Watery Eyes and Granulated Eyelids. Illustrated Book in each Package. Murine is compounded by our Oculists—not a "Patent Medicine"—but used in successful Physicians' Practice for many years. Now dedicated to the Public and sold by Druggists at 25c and 50c per Bottle. Murine Eye Salve in Aseptic Tubes, 25c and 50c. **Murine Eye Remedy Co., Chicago**

Green—"That fellow who plays the cornet is ill." Jones—"Do you think he will recover?" Green—"I'm afraid not. The doctor who is attending lives next door.

To have the children sound and healthy is the first care of a mother. They cannot be healthy if troubled with worms. Use Mother Graves' Worm Exterminator.

"I have a terrible cold," he complained. "My head feels all stopped up." "Have you tried a vacuum cleaner?" she queried, sweetly.

Minard's Liniment Lumberman's Friend.

Minister's Wife — "Wake up! There are burglars in the house, John." Minister—"Well, what of it? Let them find out their mistake themselves."

Holloway's Corn Cure takes the corn out by the roots. Try it and prove it.

"Exceeding the limit?" cried Dawson. "Why, Judge, your roads around here are so rotten a man couldn't go faster than ten miles an hour without endangering his life." "That's the p'int," said the Justice of the Peace. "You was exceedin' the limit o' safety and we find ye guilty of attempted suicide. Ten dollars, if you please."

Every person has four characters—the one he shows, the one he thinks he has, the one others think he has, and the one he actually has.

LUXURIES FOR PRISONERS.

Electric Lights, Books and Bells in Case of Sickness.

A retreat rather than a prison is the new institution which has been raised at Evreux, on the road from Paris to Trouville. It is ovoid in form, much in appearance to that of a large castle, and is surrounded by a wall over 30 feet in height.

It is situated on high ground overlooking the town, and to say the least prisoners should have a very comfortable time.

Each has his own cell with hammock bed, washing utensils and a table for books. The cells are lighted by electricity and heated by radiators. The authorities have not forgotten the spiritual needs of their hostages.

The consideration of the Ministry of Justice for the welfare of the prisoners is seen by an electric bell at the head of each hammock, so that the detained, if he be taken suddenly ill, can communicate with his guard.—London Globe.

A Pill that Proves its Value. — Those of weak stomach will find strength in Parmelee's Vegetable Pills, because they serve to maintain the healthful action of the stomach and the liver, irregularities in which are most distressing. Dyspeptics are well acquainted with them and value them at their proper worth. They have afforded relief when other preparations have failed, and have effected cures in ailments of long standing where other medicines were found unavailing.

HAPPY MAN.

Binks—"Where does Perkins get so much money to blow? He isn't wealthy, is he?"

Jinks—"No, but his wife makes her own hats."

MINARD'S LINIMENT is the only Liniment asked for at my store and the only one we keep for sale.
All the people use it.
HARLIN FULTON.
Pleasant Bay, C. B.

Naybor—"I say, Subbubs, have you a foot-rule over there?" Subbubs—"Yes; one my wife made. It is: 'Use the doormat before entering.'" Naybor—"Oh, that won't do! That's a two-foot rule!"

Minard's Liniment used by Physicians.

BARS.

Gabe—How did Jones get behind the bars?

Steve—Spent too much time in front of them.

For Sprains and Bruises.—There is nothing better for sprains and contusions than Dr. Thomas' Eclectric Oil. It will reduce the swelling that follows a sprain, will cool the inflamed flesh and draw the pain as if by magic. It will take the ache out of a bruise and prevent the flesh from discoloring. It seems as if there was magic in it, so speedily does the injury disappear under treatment.

JUST HIS LUCK.

Howell—Why don't you run for office?

Powell—If I did I would have to walk back.

Ask for Minard's and take no other.

A CAREFUL STATEMENT.

"Only a couple of months ago you said you'd share your last dollar with me," said Jones, who was unsuccessfully attempting to negotiate a loan.

"I know I did old man," replied the one who was doing the dodge act; "but I haven't got down to my last dollar!"

PAT AT SEA.

Pat was strolling along the quayside as a big ship was about to sail. "Sure," said Pat to the captain, "could you find me a job?" "Just the man I want," said the Captain, and so Pat joined the ship for the first time in his life. It was a fine night and they were in mid-ocean. The captain all at once noticed a man fall overboard and shouted to Pat: "Throw a buoy overboard." Pat seized a bright-eyed youngster standing by and threw him into the sea. "I did not mean that boy; I meant a cork buoy." "Sure," said Pat, "how do I know whether he comes from Cork or Tipperary?"

Dancing was originally a mode of expressing religious feeling.

If you contemplate buying a home in London it will pay you to call on W. J. Fanson, real estate agent, 284½ Dundas street. We have a large list of properties in all parts of the city. We invite correspondence.

An exchange says; Have you heard your neighbor going around with the complaint that his Panama hat is too small for his head this spring. If such is the case, you may be sure that it was a genuine Panama. If he denies the charge, and says that his Panama fits as well as ever, then he has been deceived, for his alleged Panama is only a fine straw. Panama hats have a habit of shrinking, if stored away over the winter, and it is necessary to have them stretched out before they will fit the wearer's head again. One citizen vowed that someone had stolen his hat. When he put it away last fall it was size 7 1-8 and this spring it measured only 6 7-8.

HICKS' FORECASTS FOR JUNE. — A regular storm period is central on the 10th, embracing new moon on the 15th. A very low reading of the barometer, any where from the 16th to the 21st, must be taken as a danger signal. As long as the barometer remains normal, don't fear for tornadoes, even if the heavens are ablaze with lightning and resounding with peals of thunder. These solstice storms are erratic in their movement—coming from unusual directions, turning backward from the east after having passed your locality, and drenching you from unlooked for quarters with violent equalls of wind and rain. This is caused by confused and unstable atmospheric currents and conditions, arising from the fact that the earth is at her turning solstice position, where she begins her movement toward the autumnal equinox, and the sun begins to retrace its course southward in the heavens.

Getting into the Home

Women buy more than two-thirds the merchandise sold in retail stores and every woman reads the Classified Want Ads. Our paper goes into the homes and the Want Ads. will reach the Spenders.

LOCAL DOINGS.

What a smart world this would be if all the pupils were students.

Many a man would have a bigger bank balance if he had fewer friends.

These are the mornings you should get up early to take a constitutional.

A person who has accomplished a little can make others very uncomfortable.

Probably there is nothing more expensive than the things we get for nothing.

When you are disposed to be liberal nearly every one will take advantage of you.

An unhappy wretch who has been caught preaches an eloquent sermon for morality.

Make a list of the things you should do and the chances are you will not do two-thirds of them.

Gold can be beaten so thin that it would take 282,000 gold leaves to produce the thickness of a single inch.

Mr. Claude K. Bluett of London, formerly of Credition, has been awarded a Permanent First-Class Public School Teaching Certificate.

Leap year will soon be half gone, and we have reason to fear that the young ladies of Exeter are not living up to their privilege, that is judging from the small number of weddings reported so far.

No farmer needs to carry a monkey wrench these days to make the pocket of his overalls bulge out. His roll of tens will do that. The Government is now minting gold five, ten and twenty dollar pieces so as to reduce the size and expense of storage for the farmer's profits. The cotton mills which have been kept busy making strong pockets for overalls will be glad of a little respite.

An advertisement may not be able to operate wonders in a day or a week. Seed sown in the spring does not mature for several months. The advertiser may not know how much good his ad. is doing him. Buyers go to him, as a rule, say nothing as to the ad. They may not think the ad. had anything to do with their going to him. But they saw his name in the paper week after week and it suggested their destination unconsciously perhaps to them.

A lot of cleaning and tidying up has been done during the past week, but there is yet some that should be attended to at once. There are three reasons for cleaning up the back yard just as soon as it can be done. The first is aesthetic, it will help to to convert the unsightly into beautiful The second is sanitary; some of the garbage which has accumulated during the winter is disease breeding. The third is monetary; vegetables or grass can be grown upon the ground where now rests that which is unsightly and unsanitary.

There are events occuring in every community which if reported in a local paper, would create a commotion little dreamed of. What to report and what not to report often perplexes an editor. He is often justly accused of cowardice and favoritism, when all the time he is looking towards the good reputation of the town where his lot is cast. The local editor from necessity almost constantly finds himself between two fires, and whichever way he turns he is sure to be unjustly treated. This is one of the pleasures of the newspaper business.

DIED.—Word was received here on Monday of the death in Woodstock, Epileptic Hospital, of George Flintoff, aged 21 years. Deceased was afflicted with epileptic fits and was taken to the hospital three years ago, after a residence in Exeter of about a year. The end came gradually but surely and he slept away. The funeral took place to Clinton cemetery on Wednesday. Deceased is survived by his mother, Mrs. George Etherington of Usborne, three sisters and three brothers, Mrs. J. C. Snell of Usborne, Mrs. John Newcombe of Stratford, Mrs. John Welsh of Alberta, Fred of Goderich, Frank of Stratford and Glenn with his mother.

MARRIED.—A quiet wedding took place at the home of Mr. and Mrs. T.H. McCallum, Exeter, on Saturday morning last at 8 o'clock, when their daughter, Miss Edna E., became the bride of Mr. Edwin Kingsbury of Toronto. The ceremony was performed by Rev. Powell in the presence of the immediate relatives and a few friends. After two weeks at the summer home of Mr. McCallum at Grand Bend the young couple will reside at Toronto. The many friends will wish them every success. Among the guests from a distance were Mrs. Kingsbury of Toronto, Mr and Mrs. Chas. R. McCallum of Toronto, Mr. P. Hart of Toronto, Mr. and Mrs. Geo. Wilks and Miss Elsie McCallum of London.

DEATH OF THOMAS ESSERY.—After a prolonged illness of several months duration Mr. Thomas Essery passed away on Sunday last, at the age of 74 years, 10 months and 12 days. The deceased was attacked with la grippe a little over six months ago and other complications setting in he was compelled to take his bed and with the exception of short intervals was confined to it till death released him of his sufferings. Mr. Essery was born near Centralia on the farm on which he lived nearly all his life. About four years ago he retired from the farm and came to live with his daughter, Mrs. A. Hastings, who, during his long and tedious illness, cared for him most assiduously till the end came. In the year 1861 Mr. Essery married Susan Hogg, and to the happy union six children were born, five of whom survive—George of Centralia; Austin of Palmerston; Mrs. Hastings of Exeter, and Mrs. James Oke on the homestead near Centralia. Mrs. Essery predeceased her husband about fifteen years. Mr. Essery was a member of the Methodist church for over 55 years and was noted for his christian character and sterling qualities, and the example of his consistent daily life and the memory of his many kindly deeds will live long in the hearts of those who knew him best. The funeral took place to the Exeter Cemetery on Tuesday.

Mr. M. M. Doyle purchased a "Regal" auto in Detroit last week.

Mr. S. G. Bawden has rented Mr. R. N. Rowe's house on Huron street.

Mr. and Mrs. J. D. Atkinson moved their household effects to Clinton this week.

Mr. Wm. Russell and family are now comfortably settled in their home on Gidley street.

Several of the Oddfellows of Exeter drove to Hensall Tuesday to take the Rebecca Degree.

The baseball boys have had the diamond at the school put in excellent shape for play.

The annual Garden Party of the Trivitt Memorial church will be held on the rectory lawn Friday evening, June 28.

Miss Gladys Dearing and Mr. Preston Dearing, Stephen, have recovered from their recent attack of measles, while Master Cecil is still quite ill of pleurisy.

Christopher Shanoti, an emigrant from London, England, arrived here Monday to the Canadian Government Employment agent, C. H. Sanders, and was at once assigned to a position with Mr. Jas. Atkinson of Biddulph.

Mr. Russell May occupied the James Street pulpit Sunday morning and preached very interestingly. Dr. Rouleston and J. M. Southcott took charge of the evening service. Miss Nina Carling and Miss Edmunds sang pleasing solos.

Mr. W. H. Dearing of Stephen brought a very large hen egg into the Advocate Tuesday. It measured 9½x7, and weighed over 6 ounces—equal to three good sized eggs. The hen that laid it still lives too, so the owner informs us. On breaking this large egg it was found to contain an ordinary egg with a perfect shell on it.

A meeting of the Executive Committee of the West Huron Teachers' Association was held in the Model school, Clinton, on Saturday last for the purpose of making arrangements for the next Institute meeting to be held in Goderich in October. The following members were present, Miss I E. Shapman president, Goderich.; Miss H. Kinsman Exeter; G. S Howard, Blake; H Horton, Hensall and W. H Johnston Kippen.

FIRE LOSSES FOR MONTH.

Large Fires Were More Numerous Than Usual.

A despatch from Toronto says: Figures compiled by the Monetary Times show that fire losses during May in Canada reach $2,251,815, as compared with $1,355,055 in April. Large fires were more numerous than usual, those exceeding $10,000 each aggregated $1,904,700 in damage done. The losses of the month, however, did not reach those of March or January. The municipal bond sales for May amounted to $1,928,748, as compared with $927,160 in April and $3,946,047 in the same month last year. The issues of Saskatchewan reached $1,140,- Alberta

SPOONED—A pleasant evening was spent Monday at the home of Mr. and Mrs. W. J. Carling when a number of the young lady friends of Miss Laura Hobbs met to do her honor on the eve of the family's departure from Exeter. During the evening a half-dozen spoons were presented to Miss Hobbs as a token of the esteem in which she is held by her many friends.

DEATH OF A FORMER RESIDENT.—Word was received here Sunday of the death of Mr. John Balkwill, a former well-known resident of Exeter, who died in Chicago on Saturday, June 15, in the 80th year of his age. The deceased was a native of Usborne, having been born on the London Road, a little south of town, and the greater part of his life was spent in this neighborhood. He being amoung the earliest settlers of this community shared in the turmoils and hardships incident to pioneer life, and he was never happier than when relating some episode of the early days. About twentyfive years ago the deceased left Exeter to reside with his son, Mr. John Balkwill, who is interested in a large furniture manufacturing concern in that city, and has since made that his home. His remains have been interned at Chicago. He is survived by three sons and two daughters—John, James and Arthur, Mrs. Bridget of Winnipeg, and Mrs. Shirray of California.

DEATH OF JOHN A. NEWELL.—The death occurred about three o'clock Monday morning of John A. Newell, proprietor of the Commercial Hotel, Exeter, after an illness of only a few days of an accute attack of Bright's disease, from which his life has been threatened on several occasions. Of late the disease had given him more than usual trouble and he was conscious of the fact that another attack might prove fatal. He was 37 years, 10 months old. Born in South Easthope, Perth County, he was the eldest of a family of twelve, and his death was the first break in the family circle. The father, David Newell, Canada Company agent, and the mother also survive, as well as his wife, who was Mary Jane Coxon of Milverton, and whom he married seven years ago. The brothers and sisters are Thos. H. of Exeter; Mrs. J. Taylor of Guelph; David of Flint, Mich.; Mrs. Lowe of Harmony Rich. of Stratford and Jennie, Annie, Olive, Arthur, William and Alfred at home in South Easthope. The late Mr. Newell had been in Exeter just a year, and previous to that had conducted a livery and hotel business in Parkhill. He was well and favorably known to the travelling public, and his demise is much regretted.

SEVERELY INJURED.—When about to go for a drive on Wednesday afternoon last Mrs. T. B. Carling met with a very unfortunate accident, which will confine her to her room for sometime. Before they were ready the horse started off and Mrs. Carling jumped out, and, landing on her feet, sprained her ankle and injured her knee. She was taken to the house and a doctor immediately summoned. Although suffering much pain she is doing as well as can be expected. Her daughter, Miss Nina, who was also in the rig, suffered no harm, and succeeded in bringing the horse under control.

DEATH OF SILAS STANLAKE.—Another of the oldest native residents of the Township of Stephen, in the person of Mr. Silas Stanlake, passed away at his home in that township on Friday last, at the age of 71 years, 4 months and 4 days. Mr. Stanlake had enjoyed his usual health until about two weeks previous to his demise, when he fell a victim to pneumonia and despite all that could be done in the way of medical attendance and careful nursing his once rugged constitution gave away and death claimed him. The deceased was born on the 2nd concession of Stephen in the year 1841, at the time when that township was a dense wilderness. He was a son of the late James Stanlake, who was among the first settlers of the district, and he experienced all the hardships incident to the clearing up of a new country, and converting it into the fine farms that are now being enjoyed by the younger generation. His life has been a busy and an eventful one, he having been engaged in the occupation of farming, framing and sawmilling, consequently he was one of the best and most widely known men of the township. For many years he and his twin brother, Mr. Samuel Stanlake, of town, conducted the saw mill on the Lake Road at Sodom. In the sixties he was married to Elizabeth Parsons and to the union was born two sons—Chester of Alberta and Nelson of Stephen. Besides the two sons and sorrowing wife he is survived by three brothers and two sisters—Samuel of town, John & Credic, Stephen, Mrs. Stacey of Usborne, and Mrs. Greenwood of North Dakota. Mr. Stanlake was a man who numbered his friends as many, having a nature that attracted friendships and retained them. The qualities of his character that commanded respect and inspired real affection in a wide circle were those of a kind heart and a true friendship, and he was full of good will and human sympathy. The funeral took place to the Exeter Cemetery on Sunday and was largely attended.

I. O. F. ATTEND CHURCH.

The members of the Independent Order of Foresters met in their Lodge room on Sunday morning last, and after forming in line paraded to the Trivitt Memorial Church, marshalled by Mr. Geo. Anderson, there being about sixty in attendance.

The rector, Rev. D. W. Collins, occupied the pulpit and from the text, Matt. 11, 2-5, preached a strong and impressive discourse. The passage contained our Lord's reply to the disciples of John the Baptist, respecting the Messiaship of Jesus Christ, in which John was in doubt. He prefaced his remarks with a cordial and hearty welcome to the Order, after which he showed the application of the text to modern methods of humanitarian and philanthropic work. The spirit of the Bible was of greater importance than the latter, showing that Bible could not be reduced to a mathematical precision, containing the bare literalism and nothing more. Rather, the Bible was spirit and truth. The relationship of man to the worth of Jesus Christ was entirely a question of spiritual appreciation. In the scene of the great judgment the division of mankind into two sections was not an arbitrary dispensation of divine judgment, but a natural distinction of temperament and thought, "Inasmuch as ye did it not to the least of these my brethren ye did it not to me; and inasmuch as ye did it to the least of these my brethren ye did it unto me." Speaking of the methods the preacher believed there was a spirit of charity in every normally constituted man. The failure of charitable work was not a lack of sympathy or willingness, but rather a lack of knowledge.

For centuries the church was the foremost place in all charitable work; but the church was limited to the knowledge of her day and generation.

At one time man looked upon the plague, or slavery as something to endure, but not attempt to remedy, and poverty was given much the same place.

Modern scientific methods disproved the former and modern ideas would disprove the latter.

Care must be observed in discriminating between deserving and undeserving cases. Organized charities are always the best. Fraternal Homes for aged members and County Homes for the unfortunate. The latter should be upheld and protected. Refuse to speak of these Christian institutions as "Poor Houses."

With the great wealth of Canada, savings banks, life insurance, scientific agriculture, etc., Canadians should solve many questions the old world were unable to solve.

In conclusion the speaker showed that the three great principles of Forestry, Liberty, Benevolence and Concord, were divine attributes and would be efficacious in so far as they reflected the mind and teaching of Jesus Christ.

The choir rendered special music and the selections were beautifully sung, with Mr. Markham presiding at the organ in his usually efficient style.

The Lodge re-formed and returned to their hall where a hearty vote of thanks was passed to be extended to Rev. Mr. Collins for his able and interesting address; and also to the officials of the church for the courtesy and privilege extended the Order on this occasion.

COUNTY COUNCIL DOINGS.

The council accepted an invitation to visit the military camp.

It was decided to ask the minister of agriculture to appoint an expert to Huron County.

No action was taken re. reforestation, nor re. the extending of the boundaries of Zurich Village.

The matter of making a grant toward a publicity campaign was deferred to the January session.

The usual grants to societies, hospitals, etc., were made.

The minister of education by letter called attention to the necessity of forming another school inspectorate. After discussion it was decided to form a committee to act with a committee from Bruce re. a joint inspectorate, leaving Inspectors Tom and Field with parts of their present inspectorates.

The county will ask for tenders for building a bridge between Hay and Stephen at the Eleven Mile Creek.

EXETER COURT OF REVISION AND COUNCIL MEETINGS.

The adjourned meeting of the Court of Revision met in the Town Hall, Exeter, on Friday evening, June 14, Members present, W. J. Heaman, W. H. Levett, John Scott, and A. J. Ford; Mr. Rivers being absent. Mr Levett took the chair. Mr. Heaman having been absent at the first meeting of the Court he subscribed his name to the necessary oath of office. As there were no further changes to be made in the assessment roll it was moved by W. J. Heaman and seconded by A. J. Ford, that the Court of Revision be closed and that we accept the assessment roll of 1912, as revised.—Carried.

The council met after the Court of Revision. Members present, Messrs. Heaman, Levett, Scott and Ford.

Levett—Ford—That Mr. John Leckie tender for plumbers oakum as per quotation of 2½ per lb. be accepted and that the clerk order ten bales.—Carried

The reeve appointed Mr. John Scott as acting reeve during his absence of two weeks at camp.

Ford—Scott—That the following accounts be passed as read,—J. N. Howard refund of deposit, $90.00; Mutual Life of Canada, railway debenture, 765.12; Chas. Wilson, labor at cemetery 12.75 Wm. Walper, do., 2.50; Jas. Murray, acct. cemetery signs, 11.00; Imperial Oil Co., acct. 2.95; Harvey Bros. cinders, 1.50; T Houlden, two weeks street watering $3.00.

Levett—adjournment.

T B. Carling, Clerk.

BANQUET AND PRESENTATION TO REV. AND MRS. HOBBS.

On Wednesday evening of last week a banquet and presentation were given at the home of Mr. and Mrs. S. Fitton in honor of Rev. R. Hobbs, wife and family. It will be remembered that Rev. Hobbs came to Exeter three years ago, and during his pastorate here he has laboured fearlessly, courageously and triumphantly in the vineyard of the Lord. He counted his own life not dear to him, but has gone forth conquering and to conquer, thrusting forth the two-edged sword, cutting right and left, and as a result sin and satan have been wounded unto death. Rev. Hobbs has been one of the mightiest men in the Methodist Conference and his name will go down through history as one of the mightiest sin slayers that ever crossed the continent.

The banquet was marked with noteable success. At eight-thirty a well-worded address was given to Mr. and Mrs. Hobbs, together with the presentation of a magnificient quarter-cut oak cabinet filled with heavy sterling silver spoons, forks and sundry pieces of tableware. Mr. Hobbs suitably replied in behalf of himself, wife and family, after which Mr. Esk Heywood sang that beautiful selection, "We'll meet again up yonder face to face," which was greatly appreciated. Sometime was then spent in pleasant conversation, music and singing. The evening was concluded with a sumptuous repast, which was served by the ladies of the gathering, and which was thoroughlyt enjoyed by all present.

Following is the address,—

To our much esteemed pastor and his wife.

Dear Bro. and Mrs Hobbs,—

We cannot let you depart from our midst without expressing in some manner our appreciation of your services while with us during the past year.

In the pulpit your sermons have been masterly, edifying, interesting, helpful and convincing, and while you have repeatedly shown forth the depth of His love, the wideness of His mercy and the greatness of His forgiving grace, yet sinners and wicked men have found no hiding place, and like Nehemiah on the wall you have sent the message forth with no uncertain sound. We believe you have done your duty and will some day reap your reward; you have borne your cross and you will some day wear the Crown.

Your citizenship while in Exeter has been one of loyalty and integrity.

The people of Exeter and surrounding country have felt the impulse of the hour and nearly the entire community have been moved with love and compassion toward one who has been so kind and noble and true.

Your pastoral calls and visitations among the sick have been most comforting and satisfying, and in the hour of death loved ones have waited patiently for your coming which to them was as the Great Comforter, and the needy found in you a friend.

We will miss you when you are gone—just how much we will miss you God only knows. As our acquaintance has lengthened our fondness has deepened. Our love for you and your family, as yet is immeasurable, unuttered and unexpressed. Your excellent wife and other members of the family have begotten themselves a memory place in the hearts of the Exeter people which will not soon fade away or die. In view of these things we ask you and yours to accept these few remarks and this cabinet of tableware as a token of regard for your excellent services and your untiring efforts to do good and to minister to the wants of the sick and needy, and for the proclamation of the full gospel without reserve, whatever might be the consequences. We pray God's greatest blessing may rest richly upon you, and may you lean hard upon the everlasting arm which is able to hold you up under the most trying circumstances. And wherever you may go may He choose out the path for you. We bid you God speed and say good-bye. But not forever, for we will cherish within our hearts the brightest hopes that we will some glad day all meet again as an unbroken family on that shining shore in the happy realm above where we'll meet to part no more.

Signed by T. B. Carling in behalf of the friends of Mr. and Mrs. Hobbs.

Mr. Hobbs was so completely taken by surprise that he knew not what to say. He assured the friends who had been the means of composing such a lovely address and of securing such a beautiful and costly present as that cabinet of silver just presented that while he had it in his heart to say a good deal he was too full indeed. He said, "I am simply melted down in the presence of such tokens of love and respect for myself and family." He went on to say that had it not been for the noble work of this committee neither himself nor family could have remained in charge of James Street church to the end of this conference year.

CLINTON HOTELMAN GOT SENTENCE OF TEN MONTHS.

Goderich, June 14.—S S. Cooper, proprietor of the Hotel Normandie, Clinton, was sentenced to-day by His Honor Judge Doyle to a term of ten months in central prison with hard labor. On Wednesday he was found guilty by a jury of a charge preferred against him of attempted criminal assault on a young married woman in his employ. The offence was alleged to have been committed about two months ago. In passing sentence his honor stated that the safety of the public and the morals of the whole community depended upon how well the county judge discharged his duties. He said he also had to consider the interests of the whole community at large. The jury made a strong recommendation for mercy, which the judge took into consideration

EXETER CANNING CO. VS. BISSETT

Canning Company given Damages, Costs and a Perpetual Injunction.

This case was tried before His Honour Judge Doyle and a jury at Goderich last week, occupying the time of the Court for three days. Seven witnesses gave evidence on behalf of the Company while seventeen gave evidence on behalf of the defendant, Mr. W. J. Bissett. The evidence developed some very interesting facts, not the least interesting of which was that when the parties met in court and in open warfare much of the foolish dissension which had been engendered by the "hole and corner" proceedings of a faction opposed to our Canning Factory during the past year or more, evaporated like mist before the summer sun, and by the time the decision was reached all concerned agreed that it had been better for our town if the pea straw in question had not been interfered with. The judge in a strong charge to the jury, supporting the contention and claims of the Canning Company, severely centured the Board of Health(?) and the defendant for their precipitate conduct and their farcical interference with an industry, which from the evidence appeared to him to be one the citizens should encourage, rather than try, as in this case they had tried, to hinder and hamper. The evidence disclosed another very interesting fact, which was that some of the witnesses, who appeared in Court against the Canning Company, had to admit that they, including the Chairman of the Board of Health, had themselves committed the most flagrant violations of the Public Health Act. The fact became quite evident before the trial was concluded that the whole trouble arose, not so much from any ill odor from the pea straw, as from some factional differences that unfortunately exist in Exeter. Under the present management the Canning factory has enjoyed some prosperity and has become an industry the town should be proud of. We, of course, are pleased that the Canning Company has succeeded in the litigation, and as our readers will be interested in the result we append the endorsement of the judge upon the Record.

Exeter Canning Co. vs. Bissett

ELIMVILLE

Death—The death occurred on June 11 of John B. Greason at the age of 32 years. On May 24th, while operating a buzz-saw at the home of Thomas Hern he got the back of his hand cut, severing an artery. Blood poisoning immediately set in, and although everything was done to save his life it was in vain. Deceased came here nearly five years ago from Missouri, near St. Marys, and shortly afterwards married Miss Muir, who, with two small children, survives. The funeral took place on Thursday last to St. Marys. cemetery.

BIRTHS

Dearing—In Stephen, on June 18, to Mr. and Mrs. W. H. Dearing, a daughter.

Zwicker—At St. Joseph's Hospital, London, on June 11, to Mr. and Mrs. Chas Zwicker of Crediton, a son.

Pickering—In Shipka, on June 12th, to Mr. and Mrs. Wm. Pickering, twin daughters.

Kipper—At Zurich, on the 10th inst., to Mr. and Mrs. Solomon Kipper, a son.

MARRIAGES

Southcott—Rannie—In Zurich, on June 19, Mr. Fred. Southcott, of Toronto to Miss Rannie of Zurich.

Niergarth—Hafet—In Crediton, on June 12, Wm. R. Niergarth of Boyne City, Mich., to Miss Clara, daughter of Mr. and Mrs. Joseph Hafet.

DEATHS

Stanlake—In Stephen, on June 14th, Silas Stanlake, aged 71 years, 4 months and 4 days.

Newell—In Exeter, on June 17, John A. Newell, aged 37 years, 10 months.

Balkwill—In Chicago, on June 16, John Balkwill, in his 80th year.

Patrick—At Lucan, June 14, Alecia Hobbs, wife of George B. Patrick, aged 66 years, 6 months.

Brunner—In Egmondville on June 7, John Brunner, aged 68 years, 2 months.

Greason—In Usborne, on June 11th. J. B. Greason, aged 32 years, 5 months and 11 days.

Foster—Greenway, on June 6th, Joseph Foster aged 71 years, 11 months.

ONLY A MONTH;

OR, A CURIOUS MYSTERY EXPLAINED.

CHAPTER VI.

On the stairs Frithiof was waylaid by Mr. Morgan; it was with a sort of surprise that he heard his own calm replies to the Englishman's polite speeches, and regrets, and inquiries as to when he returned to Norway, for all the time his head was swimming, and it was astonishing that he could frame a correct English phrase.

His heart was so utterly dead that he could not even think of his home; neither his father nor Sigrid rose before him as he looked down that long, dreary vista of life that lay beyond. He could see only that Blanche was no longer his; that the Blanche he had loved and believed in had never really existed; that he had been utterly deceived, defrauded; and that something had been taken from him which could never return.

"I will not live a day longer," he said to himself; "not an hour longer." And in the relief of having some attainable thing to desire ardently, were it only death and annihilation, he quickened his pace and felt a sort of renewal of energy and life within him, urging him on, holding before him the one aim which he thought was worth pursuing.

He was alone again, and the twilight for which he had longed was fast closing in upon him; a sort of blue haze seemed gathering over the park; night was coming on. What was this horrible new struggle which was beginning within him? "Evil," "sin," could he not at least do what he would with his own life? Where was the harm in ending that which was hopelessly spoiled and ruined? Was not suicide a perfect legitimate ending to a life?

A voice within him answered his question plainly:

"To the man with a diseased brain—the man who doesn't know what he is about—it is no worse an end than to die in bed of a fever. But to you—you who are afraid of the suffering of life, you who know quite well what you are doing—to you it is sin."

Fight against it as he would, he could not stifle this new consciousness which had arisen within him. Only women or children could hold such a creed; only those who led sheltered innocent, ignorant lives.

Looking back afterward on the frightful struggle, it seemed to him that for ages he had tossed to and fro in that horrible hesitation. In reality all must have been over within a quarter of an hour. There rose before him the recollection of his father as he had last seen him standing on the deck of the steamer, and he remembered the tone of his voice as he had said:

"I look to you, Frithiof, to carry out the aims in which I myself have failed, to live the life that I could wish to have lived."

He saw once again the wistful look in his father's eyes, the mingled love, pride, and anxiety with which he had turned to him, loath to let him go, and yet eager to speed him on his way. Should he now disappoint all his hopes? Should he, deliberately and in the full possession of all his faculties, take a step which must bring terrible suffering to his home people? And then he remembered for the first time that already trouble and vexation and loss had overtaken his father; he knew well how greatly he would regret the connection with the English firm, and he pictured to himself the familiar house in Kalvedalen with a new and unfamiliar cloud upon it, till instead of the longing for death there came to him a nobler longing—a longing to go back and help, a longing to make up to his father for the loss and vexation and the slight which had been put upon him. He began to feel ashamed of the other wish, he began to realize that there was still something to be lived for, though indeed life looked to him as dim and uninviting as the twilight park with its wreaths of gray mist, and its unpeopled solitude.

Emerging once more into the busy world of traffic at Hyde Park Corner, the perception of his forlorn desolateness came to him with far more force than in the quiet path by the Serpentine. For the first time he felt keenly that he was in an unknown city, and there came over him a sick longing for Norway, for dear old Bergen, for the familiam mountains, the familiar faces, the friendly greetings of passers-by. For a few minutes he stood still, uncertain which road to take, wondering how in the world he should get through the weary hours of his solitary evening. Close by him a young man stood talking to the occupants of a brougham which had drawn up by the pavement; he heard a word or two of their talk, dimly, almost unconsciously.

"Is the result of the trial known yet?"

"Yes, five years' penal servitude, and no more than he deserves."

"The poor children! what will become of them?"

"Shall you be home by ten? we won't hinder you, then."

"Quite by ten. Tell father that Sardoni is free for the night he wanted him; I met him just now. Good-bye." Then to the coachman, "Home!"

The word startled Frithiof back to the recollection of his own affairs; he had utterly lost his bearings and must ask for direction. He would accost this man who seemed a little less in a hurry than the rest of the world.

"Will you kindly tell me the way to the Arundel Hotel?" he asked.

The young man turned at the sound of his voice, looked keenly at him for an instant, then held out his hand in cordial welcome.

"How are you?" he exclaimed. "What a lucky chance that we should have run across each other in the dark like this! Have you been long in England?"

Frithiof, at the first word of hearty greeting, looked up with startled eyes, and in the dim gas-light he saw the honest English face and kindly eyes of Roy Boniface.

CHAPTER VII.

Meantime the brougham had bowled swiftly away and its two occupants had settled themselves down comfortably as though they were preparing for a long drive.

"Are you warm enough, my child? Better let me have this window down, and you put yours up," said Mrs. Boniface, glancing with motherly anxiety at the fair face beside her.

"You spoil me, mother, dear," said Cecil. "And indeed I do want you not to worry about me. I am quite strong, if you would only believe it."

"Well, well, I hope you are," said Mrs. Boniface, with a sigh. "But any way it's more than you look, child."

And the mother thought wistfully of two graves in a distant cemetery where Cecil's sisters lay; and she remembered with a cruel pang that only a few days ago some friend had remarked to her, with the thoughtless frankness of a rapid talker, about Cecil's dfelicate appearance.

"I am glad we have seen Doctor Royson," said Cecil, "because now we shall feel quite comfortable, and you won't be anxious any more, mother. It would be dreadful, I think, to have to be a sort of semi-invalid all one's life, though I suppose some people must enjoy it, since Doctor Royston said that half the girls in London were invalided just for want of sensible work. I rather believe, mother, that is what has been the matter with me," and she laughed.

"You, my dear!" said Mrs. Boniface; "I am sure you are not at all idle at home. No one could say such a thing of you."

"But I am always having to invent things to do to keep myself busy," said Cecil. "Mother, I have got a plan in my head now that would settle my work for five whole years, and I do so want you to say 'yes' to it."

"It isn't that you want to go into some sisterhood?" asked Mrs. Boniface, her gentle gray eyes filling with tears.

"Oh, no, no," said Cecil, emphatically. "Why, how could I ever go away from home and leave you, darling, just as I am getting old enough to be of use to you? It's nothing of that kind, and the worst of it is that it would mean a good deal of expense to father, which seems hardly fair."

"He won't grudge that," said Mrs. Boniface. "Your father would do anything to please you, dear. What is this plan? Let me hear about it."

"Well, the other night when I was hearing all about those poor Grantleys opposite to us—how the mother had left her husband and children and gone off no one knows where, and then how the father had forged that check and would certainly be imprisoned, I began to wonder what sort of a chance the children had in the world. And no one seemed to know or to care what would become of them, except father, and he said we must try to get them into some asylum or school."

"It isn't many asylums that would care to take them, I expect," said Mrs. Boniface. "Poor little things, there's a hard fight before them! But what was your plan?"

"Why, mother, it was just to persuade father to let them come to us for the five years. Of course it would be an expense to him, but I would teach them, and help to take care of them; and oh, it would be so nice to have children about the house! One can never be dull where there are children."

"I knew she was dull at home," thought the mother to herself. "It was too much of a change for her to come back from school, from so many educated people and young friends, to an ignorant old woman like me and a silent house. Not that the child would ever allow it."

"But of course, darling," said Cecil, "I won't say a word more about it if you think it would trouble you or make the house too noisy."

"There is plenty of room for them, poor little mites," said Mrs. Boniface. "And the plan is just like you, dear. There's only one objection I have to it. I don't like your binding yourself to work for so many years—not just now while you are so young. I should have liked you to marry, dear."

"But I don't think that is likely," said Cecil. "And it does seem so stupid to let the time pass on and do nothing for years and years just because there is a chance that some man whom you could accept may propose to you. The chances are quite equal that it may not be so, and then you have wasted a great part of your life."

"I wish you could have fancied Herbert White," said Mrs. Baniface, wistfully. "He would have made such a good husband."

"I hope he will to some one else. But that would have been impossible, mother, quite, quite impossible."

"Cecil, dearie, is there—is there any one else?"

"No one, mother," said Cecil, quietly, and the color in her cheeks did not deepen, and Mrs. Boniface felt satisfied. Yet, nevertheless, at that very moment there flashed into Cecil's mind the perception of the real reason which had made it impossible for her to accept the offer of marriage that a week or two ago she had refused. She saw that Frithiof Falck would always be to her a sort of standard by which to measure the rest of mankind, and she faced the thought quietly, for there had never been any question of love between them; he would probably marry the pretty Miss Morgan, and it was very unlikely that she should ever meet him again.

"The man whom I could accept must be that sort of man," she thought to herself. "And there is something degrading in the idea of standing and waiting for the doubtful chance that such a one may some day appear. Surely we girls were not born into the world just to stand in rows waiting to get married?"

(To be continued.)

BOVRIL

promotes appetite, assists digestion and builds up sound health.

For 26 years we have recommended Bovril for these reasons and they have now been established by strict physiological tests made by W. H. Thompson, M. D., D. Sc., of Trinity College, Dublin.

ONTARIO'S PRIZE FAT BABY.

This youngster is only two months past two years old. He weighs 127 pounds. His name is John Bres, and he lives 18 miles from Ottawa.

On the Farm

MORE AND BETTER POTATOES.

It is common belief that if we purchase a variety of potatoes from a seedsman that we have secured just one variety. This is true in a measure. If the seedsman is reliable, he will send potatoes that are uniform in color, depth of eyes, earliness of maturing, and other qualities. But unless these particular potatoes have been pedigreed, then we have not received one thing, but many, writes Professor L. R. Waldron.

The farmer can demonstrate this fact to his own satisfaction. At digging time let him lay off a portion of a row containing 100 hills. In order to show this each hill must have come from only one piece of seed.

The 100 hills are dug and the tubers of each hill are kept by themselves on top of the hill. The products of the 100 hills are now ready to be studied.

At first glance the hills may appear to run very uniformly. A little closer view will reveal the fact that about the only thing that is uniform is that they are all potatoes. The first hill has one large one, two medium-sized ones and half-a-dozen small ones. The next hill has one medium-sized one and several small ones. Perhaps the next hill has three or four good-sized ones. Another hill has a solitary tuber, but of good size. Perhaps another hill has nothing but little runts. Thus it goes through the 100 hills. The ordinary farmer will pick up the tubers from all of the hills and put them all together. He does this complacently and with satisfaction. His fathers did it before him and all of his neighbors do it. Why should not he?

Late in winter, when he begins to read the seed catalogues, he wonders why on earth, or under it, he cannot raise such splendid crops of potatoes as he sees pictured. Now, that is the point I am getting at; our variety is not a unit.

In our 100 hills that we have dug, close study might reveal the presence of at least ten strains or varieties, instead of the one that we thought we had.

The hill that bore the little runts has the runt character as a habit. It is going to persist for years, and every time we plant seed of that strain we will know to a certainty that we will harvest little potatoes.

The hill that produced one or two large and several small ones, is a common feature of potato fields.

The hill that bore three or four good-sized tubers is the one to fasten our eyes on. That is the hill that has ability and the one that we should get next to.

We will assume that we have three tubers to every hill and that the total weight of the three tubers is 1½ pounds. There is nothing absurd in this, for often an individual tuber will weigh more.

We will further assume that our rows are 3½ feet apart and that our hills are two feet apart in the row. This is open planting, probably more open than is commonly practised.

At this rate of planting there will be 6,200 hills per acre, assuming nearly a perfect stand. With 1½ pounds per hill, we would have a yield of 155 bushels per acre, a yield worth striving for by the majority of farmers.

Now it may be that the hill with the three or four good tubers will not breed true, but the chances are that it will. The offspring of the hill is almost certain to produce a certain percentage of small tubers, but we may count upon it that it will produce a lesser percentage of small tubers than the average hill.

What a farmer should do at potato-digging time is to dig a fair-sized patch, leaving each hill by itself. After the patch is dug he should carefully go over the patch and select out those hills that have few tubers of good size.

The tubers from those hills should be sacked by themselves and laid away for seed for the year following. If he is particular he may not be able to find more than ten hills to his liking.

In the springtime these should be treated by themselves and planted in a separate patch. The second year's product from the ten hills will be sufficient to plant quite a piece of ground, perhaps as much as the farmer desires.

If the farmer wants to follow a method even better and more accurate than this, he should plant each of the ten hills in a little plot by itself.

This requires that each hill will be sacked separately at planting time. If the ten plats show up of about equal value and all good, it is not necessary to keep them longer separate, but the product of the ten plats may be sacked together and saved to plant the main patch the year fallowing.

It two or three of the ten plats are off, these should be discarded and the good plats saved.

If an occasional farmer follows the method here laid out, he will soon find that his neighbors will be after him for seed and they will be willing to pay him a bonus for them.

OFF THE SAME PIG.

A young wife recently went into a provision shop and addressed the shopman thus:

"I bought three or four hams here a month or so ago, and they were fine. Have you any more of them?"

"Yes, ma'am," replied the man. "There are ten of those hams hanging up there now."

"Well, if you're sure they're off the same pig, I'll take three of them," replied the young wife, meekly.

SHE ADORED THE RING.

Maud—When you broke the engagement, of course you returned the diamond ring he gave you.

Ethel—Certainly not! I don't care for Jack any more, but my feelings have not changed towards the ring.

Weary William—"You condemn us tramps, but there's one thing we must get credit for." Mrs. Stingey—"What's that?" Weary William—"You don't hear us indulgin' in labor disputes."

NOTES AND COMMENTS

Sixteen British leaders of thought and political action have, upon invitation, contributed to a leading Berlin magazine, North und Sud, candid articles on Anglo-German relations. This discussion is part of the welcome propaganda of peace and understanding which has been carried on since the visit of Lord Haldane to Germany. The contributors—who are to be answered by Germans of like rank and importance next month—endeavor to show that the British suspicion complained of in the kaiser's dominions is natural in view of the aggressive programme of the Navy League, the pan-Germans, the expansionists, etc. They suggest that this programme be repudiated officially and that the imperial government should satisfy Europe that no territorial aggradizement is contemplated, and that the army and navy are maintained for defense solely.

Every tourist soon discovers that suspicion of England is as universal in Germany as suspicion of Germany is in England. "England is in our way," says the average German resentfully. The popular belief is that some day Germany will have to fight England in order to protect her rights and interests—"her place in the sun." But in England the tourist finds that the average Briton charges Germany with designs of an offensive character and fears that England will have to fight Teutonic encroachment and aggression.

Thus Germany is arming herself against England and England against Germany. An understanding between these two great nations would clear the whole European atmosphere. It would put an end to futile and insane rivalry in naval expansion. It might even permit limitation of armaments by agreement. The key to great economies and improvements is the Anglo-German situation. May the efforts to reach an understanding and settle existing differences, if any really exist, prove entirely successful!

The hands can be cleansed better with warm water than with cold, but they should always be rinsed afterwards with cold water, as this keeps them in better condition.

To strach black lawns boil two quarts of wheat bran in six quarts of water for thirty-five minutes. Let it cool and then strain. No soap is necessary where this is used, as it both cleanses and stiffens.

A good way to wash bottles or vinegar cruets is to put crushed egg shells and warm soapy water together in them and shake well. This will clean the glass well and will not scratch it.

HEALTH

IVY-POISONING.

Poisoning the skin by poison-ivy (Rhus Toxicodendron) is frequent in the summer and the early autumn. Some fortunate persons are not susceptible, but most are poisoned if they come into direct contact with the plant.

The disorder causes discomfort always, and sometimes suffering. It shows itself within a few hours, with redness, heat, and irritation of the skin, swelling and the formation of small vesicles. These vesicles may occur in great numbers. Often many of them coalesce to form blisters, and they also break and exude a sticky, yellowish serum. It is this fluid that, by its escape, spreads the disease to the adjacent skin, or to the face and other parts of the body.

The swelling may be so considerable as completely to close the eyes. As a rule, the acute symptoms continue several days, at the end of which time the vesicles either discharge or crust over; and the swelling and redness slowly disappear. In this stage the itching may be intense, and is likely to provoke repeated scratching, which may in turn bring about eczema.

The best way to treat ivy-poisoning is simple. The inflamed skin should be copiously washed with lukewarm water and a soap that does not irritate. The parts affected should then be bathed with a watery solution of permanganate of potash, as hot as can be borne. If the skin is broken, a one per cent. solution should be used; if the skin is not broken, however, the strength of the solution may be increased up to two or three per cent. Treatment should begin the instant symptoms are observed.

In mild cases, one treatment is enough. Occasionally the poison is more deeply seated, and the permanganate must be applied for some time. In these cases, and in the extremely rare instances of systemic infection due to the entrance of the poison into the circulation, a physician must be called.

The patient must avoid scratching, of course. Bandages are undesirable, because they tend to spread the poison over the surrounding skin. If any protector is needed, let it be a loosely applied dressing of absorbent cotton and gauze, changed frequently, and kept moist at all times with warm water containing a little bicarbonate of soda.

Permanganate of potash discolors everything with which it comes into contact, and stains the skin a deep brown color, but that is a small price to pay for the relief it affords. The stain will wear off in a few days, or it can be removed by vigorous applications of soap and water. In the healing stages of the disorder soothing ointments may be used.—Youth's Companion.

Rice to be a useful article of food should be stewed with milk, butter or stock, which will supply the want of natural fat.

THE SUNDAY SCHOOL LESSON

INTERNATIONAL LESSON, JUNE 23.

Lesson XII.—Temperance lesson, Eph. 5. 11-21. Golden text, Prov. 20. 1.

Verse 11. Our lesson contains parts of two passages in the connected discourse of the apostle. The first of these comprises verses 1-14, which deal with the larger theme of the imitation of God in Christian conduct. The conduct of the Christian is to be governed by the revealed purpose of God and the example of Jesus Christ. This means that the life of the Christian is to be lived upon a high moral and ethical plane, where gratitude toward God and love and charity toward men fill the whole life. Such a life must be separated from all forms of unrighteousness. Its nobility and high purpose must be a constant reproof to the deeds of selfishness and of shame which characterize the life lived in the darkness of ignorance and ignoble motive. It is this necessity of separation from evil that is emphasized in the first verse of our lesson.

Have no fellowship—Association, knowledge of, close communion with.

Unfruitful works of darkness—An evil life is without profit as well as without light.

Reprove them—The separation from evil shall not be carried to the extent of ignoring altogether the existence of evil. It is as much the duty of the Christian to oppose wrong as to do right. The word translated reproof may be rendered also convict, or bring to light, the literal sense being that of exposure by means of publicity.

12. By them—Those who do evil. The antecedent of the pronoun is unexpressed.

In secret—Secrecy is the natural protection which wrongdoers seek.

13. All things . . . are made manifest by the light—Exposure throws the light into dark places and reveals what is there.

Everything that is made manifest is light—Some Greek scholars insist that the sentence may also be translated whatever makes manifest is light. This rendering, if permissible, would make the passage clearer, since exposure to light does not actually change evil into good, but simply reveals its essential character.

14. Wherefore he saith—Or, it saith, that is, it is said. It has been suggested that the quotation which follows may be taken from an early Christian hymn based on Isaiah 60. 1, "Arise, shine, for thy light is come, and the glory of Jehovah is risen upon thee."

15. With this verse we enter upon a new theme, which has been worded as "the art of thankfulness," and to which the remainder of our lesson passage is devoted. A scrupulous carefulness in conduct marks an appreciation of the sacred opportunities which life affords for spiritual development.

16. Redeeming the time—Taking advantage of every opportunity.

The days are evil—Fraught with temptation to disregard the serious responsibilities of life.

17. Be ye not foolish—Be not ye imprudent.

18. Be not drunken with wine—For similar exhortations see Prov. 20. 1; 23. 30, 31; Luke 21. 34; Rom. 13. 13; 1 Cor. 5. 11; 6. 10; 1 Tim. 3. 2.

Riot—Disorder, confusion, and injury.

With the Spirit—Or, in spirit. The desires and aspirations of the Christian are to be spiritual rather than carnal. Some of the fruits of such spiritual-mindedness are indicated in the next two verses.

21. Subjecting yourselves — This phrase introduces a new thought which the apostle amplifies in the remaining verses of the chapter. The attitude of the Christian toward others should be that of modesty and an appreciation of their worth rather than of his own.

A SIMPLE GOWN OF FLOWERED SILK MUSLIN.

The flowered silk muslin and shadow lace are particularly effective when used in combination, as shown in the illustration. The gown is quite simply made, the trimming consisting of puffings of the material shirred on a narrow cord. A rose-colored velvet girdle encircles the high waist line.

APPLES FOR INSOMNIA.

People ought to know that the very best thing they can do is to eat apples just before retiring for the night. Persons uninitiated in the mysteries of the fruit are liable to throw up their hands in horror at the visions of dyspepsia which such a suggestion may summon up, but no harm can come even to a delicate system by the eating of ripe and juicy apples before going to bed.

The apple, proceeds this authority, is excellent brain food because it has more phosphoric acid in easily digested shape than any other fruits. It excites the action of the liver, promotes sound and healthy sleep and thoroughly disinfects the mouth. This is not all: the apple prevents indigestion and throat diseases.

TWO KINDS OF HOPE EXTANT

Every Person Has a Cemetery in Which are Buried Youthful Expectations

A living Hope.—I. Peter, i., 3.

A dead hope is a hope which uses expectant words, but which nourishes at its heart no eager anticipation. A living hope vitalizes and vivifies, stimulates, and energizes, quickens and invigorates. It pours new life into the mind and heart. It makes the whole world glow. It burns in one like a fire. It throbs in one like a dynamo.

Every one starts life with a capacity for hope. Children are all hopeful. They love the future. They have a genius for expectation. They are sure that good things are coming—Christmas, for instance, and vacation and other things. As we grow older the most of us lose this power of looking forward. The years bring disillusionment. Things do not turn out as we planned. Expectations are disappointed.

DREAMS COME TO NOTHING.

We attend the funerals not only of our friends but of our ambitions. The result is that many of us become despondent and sometimes despairful. We lose hope for ourselves and also for the world.

It becomes, therefore, one of the most important of all questions how to keep burning the flame of hope, and if hope dies down how to kindle it again. The Christian religion gives this answer:—"See God in Christ! Keep hope alive by keeping close to God!"

John Addington Symonds, at the age of twenty, wrote home from Oxford to his sister this fine bit of praise about one of his teachers:—"Jowett gave me hope, blowing a trumped blast of determination. Such a man was never found, so great to inspire confidence and to rouse to efforts."

But another man has been found far greater than the famous English teacher to blow a trumpet blast of determination. His name is Jesus. He was no superficial optimist.

HE KNEW WHAT WAS IN MAN.

But he never despaired of man. He knew the power and malignity of sin, but He had hope for all mankind. Because the outlook was gloomy He did not sit down and cry.

Even in Samaria, where all seemed barren and blasted, He said to His dejected disciples:—"Lift up your eyes and look on the fields, that they are white already unto harvest." He had everything to discourage Him, but He never gave up. Men tried their best to break down His faith, but they did not succeed. They did all they could do to make Him bitter, but His heart remained sweet to the end. Under the shadow of the cross the light of the morning was still in His eyes. Face to face with death He still had in His mouth the shout of victory. He would not believe that hate is mightier than love, or that death can ever master life.

Behold the man! If you are despondent draw nigh onto Him. Let Him impart to you His spirit. In His face see God. "If God be for us who can be against us?"

REV. C. E. JEFFERSON, D.D.

The Home

Notes of Particular Interest to Women Folks

DAINTY DISHES.

Chocolate Whipped Cream.—One-half square of chocolate, one-half cup of heavy cream, three tablespoons sugar, one-half teaspoon vanilla, one-eighth cup boiling water. Melt chocolate over boiling water, add sugar and hot water. Cook till smooth, add vanilla. Whip cream; when partly thickened gradually whip in chocolate mixture and continue till stiff to bottom of bowl.

Chocolate Cream Cake.—One egg white, two tablespoons butter, four tablespoons milk, one-half cup sugar, three-quarters cup flour, one egg yoke, one and one-quarter teaspoons baking powder, one-half teaspoon vanilla. Cream butter, add sugar gradually and egg yolk well beaten. Mix and sift together flour and baking powder and add alternately to first mixture with milk. Add egg whites beaten stiff and bake in layer-cake pan in a moderate oven. Put together with jam and pile chocolate whipped cream on top.

French Fried Potatoes. — Wash and pare small potatoes, cut in eighths lengthwise and soak one hour in cold water. Take from water, dry between towels and fry in deep fat hot enough to brown a bit of bread in three minutes. Drain on plenty of crumbled brown paper, dust with salt and serve at once.

Macedoine of Chops.—Four English chops, one tablespoon mushrooms (if desired), one cup stock, one-quarter cup peas, one-quarter cup carrot balls, one tablespoon butter, one-half cup potato balls, two tablespoons flour, three button onions, salt and pepper to taste. Saute chops slightly in butter, remove to low casserole, and add flour to fat in frying pan. Gradually stir in stock, and add the onion, carrot and potato balls, which should be previously cooked in salted water. Stir in peas, add mushrooms and seasonings and pour over chops. Set in hot oven seven minutes. Serve from casserole.

Lettuce Salad—Wash and drain lettuce leaves, dry to remove the water. Rub salad bowl with a clove or garlic. Sprinkle with oil, a few drops at a time, tossing gently after each addition. When each leaf glistens with oil, shake over a few drops of vinegar, then dust with salt and pepper and a sprig or two of chopped chives, parsley and fresh tarragon, if convenient.

Spanish Cream—Two sticks gelatin or one teaspoon granulated gelatin, one egg yolk, one tablespoon cold water, two tablespoons sugar, three tablespoons boiling water, few grains salt, two-thirds cup milk, one egg white, one-fourth teaspoon flavoring. Soften gelatin in cold water, add boiling water and dissolve. Heat milk in a double boiler. Beat egg yolks, add sugar and salt, and add gradually the hot milk. Return to double boiler and cook until it coats the spoon, stirring constantly. Add gelatin and flavoring and fold in egg whites. Pour into cold, wet molds to harden. Serve with soft custard or whipped cream.

Asparagus Eggs, to Serve Six — Two cups rich milk or light cream, few grains pepper, two tablespoons pastry flour, one cup asparagus cut in inch lengths, two tablespoons butter, one-half teaspoon salt, six fresh eggs, two tablespoons grated Parmesan cheese. Make a sauce of the first five ingredients. Add asparagus and when hot slip in the eggs very gently and poach till set over hot water. Sprinkle with salt, pepper, grated cheese and serve on buttered toast.

Pineapple Charlotte Russe, for Six—One cup of heavy cream, three tablespoons powdered sugar, one egg white, one-half teaspoon vanilla or orange extract, one and one-half dozen ladyfingers, one and one-half cups rich cooked pineapple. Beat cream till stiff, beat egg till dry, gradually whipping in the sugar. Add extract, then combine with cream, folding mixtures together. Line glass cups with ladyfingers, place four tablespoons of the pineapple in the bottom of cup and fill with the charlotte mixture. Garnish with candied violets or rose leaves and serve very cold.

PREPARING VEGETABLES.

Cucumbers a la Poulette.—Take three large cucumbers, pare off the rind and cut them into slices of an equal thickness. Pick out the seeds, and boil the cucumbers tender in boiling water with a teaspoonful of salt, and a tablespoonful of vinegar. When done, take them carefully out with a slice, and when drained, put them into a stewpan with a half of a pint of broth, a piece of butter rolled in flour, and two teaspoonfuls of cream. Skim off any fat which may rise, and boil it gently for a quarter of an hour, taking care that the slices of cucumber are not broken. When ready to serve, stir in the yolks of two eggs, beaten with a spoonful of vinegar.

Making Kidney Soup.—Bring two quarts of stock or water to the boil, add two stalks of celery, two onions, one carrot and one turnip cut into small pieces, add one blade of mace and cook very slowly for two and a half hours, when it must be strained. Wash and dry a fresh ox kidney. Remove all the fat from the middle and cut up the kidney into half-inch pieces. Put one heaping tablespoonful of butter into a saucepan, when brown fry the kidney in it. Stir in one tablespoonful of flour and mix well, add one teaspoonful of salt, half a teaspoonful of mustard, half a teaspoonful of pepper and one teaspoonful of sugar. Now add three cupfuls of water, stir over the fire till they boil. Cook very slowly for two hours, stirring frequently. Return the strained stock to the pot and add the kidney to it. Moisten two tablespoonfuls of cornstarch with three tablespoonfuls of cold water, pour it into the soup, stirring till boils. When the soup is ready, if not brown enough add a few drops of kitchen bouquet.

Fried Eggplant.—Peel a good-sized eggplant; cut it into slices of a quarter of an inch. Dust with salt and pepper; dip in beaten egg; roll in bread crumbs and saute in very hot fat. When they are brown on one side, turn and brown on the other. Dry on brown paper. Eggplant may be fried in deep fat, providing the slices are cut thin, then into halves, and well covered with egg and bread crumbs.

Okra with Rice.—Wash and cut one quart of okra into thin slices, peel five tomatoes and cut into halves, or use one can of tomatoes. Put the tomatoes with the okra into a saucepan, add two cupfuls of boiling water, one level teaspoonful of salt, seasoning of pepper and one sliced onion, cover the saucepan, and simmer very gently for one hour. Wash and boil one cupful of rice, then drain and dry it well. When ready to serve, arrange the rice in pyramid on a hot platter, pour round the okra.

A QUAINT DUTCH CUSTOM.

Boys Sing and Beat Drums on Floor of Exchange.

Of the many quaint and curious customs, traditions and privileges prevailing in Holland none is more extraordinary than a certain privilege that has been enjoyed by the boys of Amsterdam for nearly three hundred years.

At a fixed time each summer these boys gather by the hundreds in the great square called the Dam, situated in the centre of the city. Each boy has a drum slung over his shoulder.

Facing this square is the Stock Exchange, and, on the occasion in question, just as soon as the day's business is over, as many of the boys as can crowd into the building. They proceed to the floor of the exchange, where pursuant to this odd custom they are permitted to march about, singing and beating upon their drums.

The origin of this custom, it is said, is as follows:

One afternoon in the year 1622 a crowd of boys playing in the Dam lost a ball in the canal that in those days skirted one side of the square. One of the lads, while climbing in among the piles on which the building stood, found instead of his ball a boat moored in a dark corner and loaded with boxes of gunpowder. This showed clearly enough what was afterward ascertained with certainty, the intention of the Spanish conspirators to blow up the Stock Exchange while it was crowded, as it was every day, with the leading citizens of the city.

The boy who stumbled upon the gunpowder at once hurried to the town authorities with his news. The boatload of explosives was quietly sunk in the canal and the Spanish plot thus frustrated.

When the burgesses asked the boy what reward he desired for the service he had rendered the town he replied that so long as there was a Stock Exchange in Amsterdam the boys of the town would like to be permitted to make the floor of the exchange their playground during a certain part of the year. The request was granted and so the custom survives.

Fried rice is a pleasing change from the more conventional fried mush. The rice should be boiled in milk instead of water, and seasoned with sugar, salt and a few drops of lemon juice. Mold as you would ordinary mush. When cold, cut into slices about three-quarters of an inch thick, roll in beaten egg to which a little water has been added, and then in crumbs. Saute in bacon fat or butter, or brown in deep fat.

ABOUT ASBESTOS

Asbestos is a physical paradox, yet one of nature's most marvellous productions. It has been called a mineralogical vegetable; it is both fibrous and crystalline; elastic, yet brittle; a floating stone which can be readily carded, spun and woven into tissue. In Germany it is known as stemflachs (stone-flax) and the miners of Quebec give it quite an expressive name—pierre cotton (cotton stone). The asbestos mines in in Quebec are the most famous in the world yielding 85 per cent of the entire output, Italy being the only competing country, and there the industry is declining. Although Charlemange is said to have had a tablecloth of asbestos, which he cleaned by throwing it into the fire, it was practically unknown of in 1850. The Italian mineral was then experimented with, and some years later put on the market. Asbestos is flexible, non-combustible, and a non-conductor of heat and electricity, and on these properties its increasing use depends. It is spun into yarn from which cloth is woven for drop curtains in theatres, clothing for firemen, acid workers, etc. It is made into lamp wicks and gloves for stokers, and ropes for fire-escapes. It is felted into mill-board, to be used as an insulator in dynamos, and as fireproof lining for floors. It is used to insulate electric wires and as a covering to prevent loss of heat from steam pipes. Mixed with rubber it is used to pack joints.—Farmer's Advocate.

GOVERNMENT AID TO COUNTIES IN PUBLICITY CAMPAIGN

The Ontario Government is prepared to bear one-third of the expense incurred by the counties of the province in giving publicity to their particular agricultural resources and advantages At the last session of the Legislature the estimates contained an appropriation of $3,000 for assisting the counties, and the Government has now fixed the terms upon which this sum shall be distributed. One third of the money expended by the counties will be refunded by the Provincial Treasury, providing that the total expenditure in any one year does not exceed $1,000. The publication put forth by those placed in charge of the work must be submitted for approval to the County Council and to the Minister of Agriculture.

The publicity scheme for counties grows out of the step taken by the county of Lambton last year in issuing a booklet advertising its many advantages and circulating widely. The Department of Agriculture, appreciating the importance of such publications in supplementing in the Old Land, took steps to dispose of a great many of them through their agents abroad, and followed this up by extending an invitation to other counties to follow suit by providing financial assistance.

AMENDING THE CALENDER

Dear Sirs,—

I see that the Royal Society of Canada recently waited on Mr. Borden, the Premier of Canada, urging international action on amending the Calendar. The proposal of the Royal Society is,—to have the year divided into thirteen months of 28 days each, with one unallotted day thrown in to fill up the year.

For several reasons the suggestion would be an improvement on the present system. But it is by no means perfect.

In the computation of time why reckon on the moon at all? It has nothing to do with the axial or orbital motions, which make days, seasons and years.

By all means let a month be 28 days to correspond with the moon's phases. But it is altogether unnecessary to have the month and the year to begin or end at the same time.

To prevent all future necessity for the correction of time why not have the shortest day in the Northern Hemisphere in the year the last day of said year and the succeeding day the beginning of a new one. Astronomers could always determine that for us. We would usually have 365 days as now, but, when necessary astronomically add another which would simply be the 366th day of that year. All data to be dated by the day of the year, such as the 171st day of the year 1912 A.D. or the 64th year Anno Kosmon.

Make the 17th day after New Year's Day the Sabbath, and every 7th day thereafter. Or a very appropriate day for Sabbath would be the days on which the quarterly moon changes occur.

The Moon's time and our revolution around the sun do not correspond and cannot be made to. Therein lies eternal conflict. Why perpetuate conflict that is wholly unnecessary?

This is the method of computation suggested in "Oahspe" which as a book is certainly the most remarkable, iconoclastic and interesting of any book ever published on this green old earth of ours.

I disclaim originality.

Yours truly,

MODERNITY.

A DOUBLE WEDDING

An unusually pretty and unique wedding took place June 5th at the home of Mr. and Mrs. Jos. Cobbledick, Fourth avenue, Calgary, formerly of Exeter, when their eldest daughter, Vera Mary, was united in marriage to Arthur Graham Austin of Calgary, and their second daughter, Ethel Florence, to Thomas B Stevenson, M.D., of Wetaskiwin. The impressive marriage ceremony was conducted by Rev. S E. Marshall, assisted by Rev. G.W. Kerby, in the spacious and handsomely decorated drawing room Both brides looked very charming in handsome gowns of Romaine ivory satin with silk guipure lace and pearl trimmings, and with court trains. Their bridal veils were caught up with lily of the valley, and each bride carried a magnificent shower of white roses and lilies of the valley. After the signing of the register Mrs. Cobbledick in an elegant gown of Copenhagen blue satin with rich overdress of silk embroidered lace, received, with her daughters, the congratulations of the friends present. The gift room gave ample evidence of the more than ordinary popularity of both brides and the esteem in which they are held by friends both far and near. Mr. Austin's gift to his bride was a handsome necklace of pearls and peridots, and Dr. Stevenson's gift to his bride an elegant necklace of pearls. In similar suits of navy blue broadcloth these two charming and popular brides left with their husbands amid showers of good wishes and confetti, Mr. and Mrs. Austin spending their honeymoon in the Okanagan Valley and Yellowstone Park, while Dr. and Mrs. Stevenson go on to the coast cities and north to Alaska. On their return Mr. and Mrs. Austin will reside in Calgary and Dr. and Mrs. Stevenson in Wetaskiwin.

Dashwood

Mrs. A. Birk and children have returned to Dashwood after visiting the former's sister, Mrs. J. Twitchen, London.

Mr. Chas. Guenther took a large load of people from here to Stratford yesterday.—Quite a number from the surrounding schools are trying their exams. here this week.—Dr. McLaughlin autoed to London this week.

Died in Naperville.—The sad news was received here last week of the death of Mrs. John Winkenwader, a former resident of here, who died at Naperville, Ill., on Friday night last after a prolonged illness of diabetes. Shortly after the demise of so many many of her family, a little over four years ago, Mrs. Winkenwader left for Naperville, where she has since resided. The deceased was possessed of many good qualities and highly esteemed by a large circle friends, who will deeply regret to learn of her demise. The remains were brought here for interment, the funeral taking place yesterday.

Crediton

Are you going to Goderich on the 24? Bills are out giving all particulars and rates. The City Fathers have declared the day a Civic Holiday and arrangements have been made for our ball team to go along and play Goderich. No one should stay at home but take the day off and have a good time.

Entrance examinations commenced in our public school on Wednesday. Quite a number are writing.

The many friends of Mr. C. L. Bluett B.A., of London, former principal of our school here, will be pleased to learn that the Board of Education of the city has recommended him to be placed on the staff of the Collegiate Institute. We extend our hearty congratulations.

On Thursday, when Rev. and Mrs. Hicks of the Methodist church arrived home after having been in London attending the conference, they found their parsonage in possession of the Ladies Aid, and other members of the church. A splendid supper had been prepared and after all did justice to the many good things, Mrs. Hicks was presented with a Limoges Tea set by the Ladies as a token of their appreciation of Mrs. Hicks' services as a member of the Aid. Mrs. Hicks made a brief address thanking those present for their kindness. A very pleasant evening was spent by all.

Word was received here on Monday from Naperville, Ill., of the death of Mrs. Winkenwetter, an aunt of Mr. August Hill, who at one time lived in Dashwood. Her remains will be brought to Dashwood for interment.

A number of delegates from the Evangelical church are attending the Sunday School Convention in Colborne Tp.

A decided improvement has been made to the grounds of the Evangelical church the past week. The fence has been removed an decement walks laid from the street to the shed entrance.

Jacob Schwartz has returned home after taking treatment in the Mt. Clemens baths. He has been considerably benefited.

A very exciting game of ball was played here on Friday night between the Allsa Craig nine and our Stars. The result was 8-6 in favor of the visitors. In the middle of the game our boys weakened and although there was a big rally in the last, they couldn't regain themselves. The game was the best of the season and all were well pleased. The following is the score in runs,—

Crediton	1	0	1	0	1	0	0	1	2	—6
Allsa Craig	1	0	0	3	2	1	1	0	0	—8

The Methodist S. School will hold their annual picnic at Grand Bend on Saturday next, June 22nd. Buses will be supplied to convey those who have no other way of going. All those who wish to go with busses to leave their names by Friday morning with T. Trevethick, Art Amy, Geo. Hertzel, Garnet Hill, or Charles Mawhinney. We invite all to be with us. Come and have a day off and encourage the Sunday School.

Miss Clara, daughter of Mr. Jos Halset became the bride of Mr. Wm. R. Nergarth, a prosperous merchant of Boyne City, Mich., on Wednesday of last week. In the presence of over 100 guests the ceremony was performed at the home of the bride's parents by Rev. J. R. Nergarth, brother of the groom, assisted by Rev. Burn. The bride was gowned in Swiss embroidered voile, with sash of Duchess satin, and carried bridal roses. Her sister, Miss Pearl, in pink voile and carrying pink carnations, acted as bridesmaid, while Mr. Simon Sweitzer, cousin of the bride, was best man. The ring bearer was little Miss Eldonna Nergarth, and the march was played by Miss Weta Nergarth, cousin of the groom. The house was tastily decorated with ferns and flowers. The wedding dinner was served on the lawn, it being also nicely decorated. Mrs. Albert Morlock was matron of honor. The going away dress was of navy blue with large tuscan hat trimmed with flowers. The bride was a valued member of the Evangelical choir and will be much missed. The young couple left Thursday evening on a trip to Toledo, Washington and other cities, with the best of good wishes.

FARQUHAR.

The annual School picnic will be held in Mr. Jas. Cotter's bush on Friday, 28. The usual good time is expected. Everybody welcome.—The Entrance class are attending the exams. at Exeter this week.

LUMLEY

W. W. Cooper and family, Kippen, were visitors at Geo. Hoblock's Sunday.—Mrs. John Glenn is in London visiting her sister.—Mr. and Mrs. Grant Ryckman and sons, Roy and Mervin, were in Hillsgreen Sunday last, the guests of Mrs. Ryckman's parents.—Mr. R. R. Glenn and mother, accompanied by Mr. Thos. Cameron, Farquhar, motored to Listowell Wednesday of last week.—W. Armstrong is around taking fall orders for the Beamsville nursery.—Mr. and Mrs. Sam'l Crawford of Brussels, accompanied by their daughter, Mrs Simmons of Brussels and son, Will J., of Superior, Wis., were visitors at John and Wm. Glenn's for a few days the first of the week.—Mr. and Mrs. T. J. Berry of Hensall were Sunday visitors at Gordon Bolton's.—Mr. Jas. Horton is building a fine verandah to his home.—Mr. Gordon Bolton has erected a heat fence across the front of his farm—Mr. Innis and his bride are nicely settled on the Dairy farm.—The boundary baseball team practice two nights a week, and no doubt they will give a good account of themselves before the season is over. Mr. A. McDougall spent Sunday with friends at Chiselhurst.—Miss "Leddie" Horton visited her aunt Miss Ellen Horton for a few days the first of the week.—Bert, the five-year old son of Noah Horton had a narrow escape from death on Monday afternoon. The little fellow was riding in the field on a roller which had a set of harrows on top. In some way the team started off at a lively pace with the little fellow at their mercy. After running some distance the harrows were thrown off and little Bert falling on top of them, sustaining a nasty wound in his hip and side. The doctor lost no time in coming and at the time of writing the little fellow is doing nicely.

GRAND BEND.

Master Joe Follick of Exeter visited his mother here Sunday.—Robt. Sanders and W. Beer of Exeter spent Thursday here fishing.—Mr. Laurance Carriere has gone to Seaforth.—Mr. and Mrs. Joe Brenner and Mr. and Mrs. E. Brenner spent a day in Seaforth last week.—Mr. and Mrs. H. Bossenberry visited in Zurich Sunday.—Mr. Tiedeman, who has been in Port Huron for a few days, returned home Saturday.—The Isaak Walton Fishing Club of Exeter took an outing here Saturday.—Mr. C. Fritz of Zurich was here Sunday.—Mr. Russell Patterson returned home Saturday from his visit in St. Thomas.—Mr. Frank Germette has the contract to put down cement steps to the river and the lake on the Parkhill grounds.—Quite a number of summer cottages have been erected here during the winter and spring—Mr. and Mrs. Jos. Gill visited at Arkona Saturday and Sunday.—Mr. Cyrus Green was in Port Huron a few days last week.—The fishermen are now having good lifts.

WINCHELSEA

Winchelsea correspondent has been sleeping the last few weeks on account of so much wet weather, but since the sun has been shining he has made an appearance.—Miss Lila Heywood of London is spending a few days visiting his mother.—Our creamery is doing a rushing business these days. 3000 lbs of butter made daily.—All the children in the neighborhood have had the measles.—Wedding bells will soon be ringing, by the way the little gray is roaming around.—Mrs. Taylor of New York is still with her sister Mrs. Wm. Delbridge, who we are pleased to say is recovering. Mrs. Delbridge has been very ill for a few months, and with good care and the skilful attention paid by Dr. McGillicuddy will soon be able to be out.—A few from Winchelsea took in the excursion to Port Stanley last Friday.—.

(An unknown correspondent sent us something in the line of poetry this week which of course we cannot publish as we do not know the name of the writer. —Editor.)

ST. MARYS—The adjourned meeting of the Collegiate Institute board was held on Friday evening to decide on a choice of applicants for the position of principal for St. Marys Collegiate Institute. Out of 13 applications C. McKinnon of Kincardine was engaged as principal at the initial salary of $1,600 per annum.

Beware of Ointments for Catarrh that Contain Mercury,

as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten-fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly on the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. CHENEY & CO. Testimonials free.

Sold by all Druggists, Price 75c. per bottle.

Take Hall's Family Pills for constipation.

CENTRALIA

The Ladies' Aid of the Centralia Methodist Church purpose holding a first-class concert on the evening of July 1st. Mr. Owen A. Smiley, the celebrated entertainer of Toronto, and Mrs. McGuire of Seaforth will assist in the program. Hear what Toronto Saturday Night says;—"Mr. Owen A. Smiley, with his recitations, poems, stories and musical monologues, either selected or written by himself, provided the very ingredients necessary to make a perfect evening. His success was undoubted."

A splendid game of baseball was played here on Monday evening with the Kirkton team. The umpire was a little off in some of his decisions which resulted in the game going to Kirkton boys, 6-4.

Mr. Percy Simpson of Detroit is spending a few days renewing acquaintances in the village.

Quite a number of public school students left for Exeter Wednesday to write on the Entrance exams.

Rev. Salton of St. Johns spent the past few days at the home of Mr. and Mrs. E. Colwill

Mr. and Mrs Eli Coutts were the guests of Mr. and Mrs S Andrews on Sunday.

Mrs. McCoy and daughter of London spent the past week visiting relatives and friends.

Mr. Wilbur Luker spent a few days with relatives in Kirkton.

The Middlesex regiment of volunteers passed through the village on Tuesday morning on their way to Goderich camp

KIRKTON.

Centralia and our boys played a game of baseball here Thursday night, the home team winning.

Positions For Girls

We have a uumber of vacancies in each of several departments of our knitting mill. The work is light and clean and the factory new and entirely up to date, light and airy. A splendid opportunity for girls to earn for themselves. Highest wages.

The Watson Mfg. Co. LIMITED

Brantford — Ontario

Death to Dandruff Germs
Life to All Hair

NO MORE DANDRUFF, FALLING HAIR, SCALP ITCH, BALD HEADS OR DULL FADED HAIR.

This is a free country. It's your right, your privilege to use any hair tonic you desire.

But why continue to use a hair tonic that doesn't do what it should do—kill the germs and banish all dandruff and hair troubles?

If you have dandruff, if your hair is getting thin and falling out. If your scalp itches and your hair isn't bright and lustrous bear in mind this fact; that America, is guaranteed by W. S. Cole to PARISIAN SAGE, now sold all over give the limit of satisfaction if used for any of the above hair or scalp troubles, or money back.

PARISIAN SAGE is the most delightful and refreshing hair dressing for men, women and children, and is particularly in demand by refined women who desire to increase their beauty by acquiring an abundance of fascinating hair, full of life and lustre.

A large bottle of PARISIAN SAGE costs but 50 cents. at W. S. COLE'S and druggists everywhere. The girl with the Auburn hair is on every carton and bottle.

GREENWAY.

The death occurred on June 6th, of the earlier settlers on the 24th con. McGillivray, half a mile south of Greenway, in the person of Joseph Foster. The deceased was born in Cumberlandshire, England, and with his parents Mr. and Mrs. Joseph Foster, came to Canada in 1848 at the age of 8 years They settled beside Mud Creek on the 7th Con. of McGillivray. The deceased and his elder brother. William took up the bush Lot No. three con. 24, to which he and his wife, Susannah Kennedy moved after their marriage 45 years ago. He had earned a competency to keep himself, but just when he was able to relieve himself of the worry and strain of a strenuous life, death intervenes and calls him away from this world of suffering.

It was only lately physicians said his case one of the cancer of the bowels of a malignant type with no hope of recovery. He is survived by his widow four sons, Joseph, of Bayfield, David, of Moray, and John at home and Rev. James of Orwell, and six daughters Mrs. Austin Hayter, Stephen, Mrs. J. Daley and Mrs. Edward Mason of McGillivray, Mrs. John Gill, Grand Bend Mrs. W. A. Thompson, Winnipeg, and Miss Mabel at home. His brother, James of McGillivray and Thomas of Minnesota also survive.

HAY.

The late Mrs. O'Brien of whose death brief mention was made last week, was 57 years of age. She had suffered from an internal growth for about six weeks. Her maiden name was Emmaline Cann. Born north of Toronto she came to this district with her parents and married Mr. Wm O'Brien, since which time they have resided on the 3rd con. of Hay. Besides the husband she is survived by one son Bert on the homestead, and one daughter, Mrs. Jno. Northcott, jr. A sister and two brothers also survive, Mrs. Jas. O'Brien of Hay, Samuel Cann of Usborne and a brother in Port Elgin. The funeral to Exeter cemetery on Friday was largely attended.

HENSALL

Chas. Chapman, wife and children of Berlin, spent a few day with friends in town.—John McQueen who was laid up for two months with blood poisoning and pleurisy was in town for the first tim since his recovery.— Miss Annie Wren who has completed her course of one year at the McDonald Institute Guelph, has been here for about a week visiting relatives.—The union Sunday School picnic of the English Church, Presbyterian and Methodist Churches of Hensall will be held to London on July 10th instead of the 9th.—John D. Stewart who has been confined to his bed for a couple of weeks, from an attack of hemorrhage of the brain, is steadily improving, and good hopes of final recovery are entertained.

ZURICH.

Mr. Alvin Surerus has passed in the first year's University examinations.—Mrs. Morrow of Beaton is visiting her parents, Mr. and Mrs. J. F. Rickbell. —Mr. Orville Ehnes of Clarksholm Alberta, is spending a short holiday with his parents, Mr. and Mrs. A. G. Ehnes, —Miss Mary Wurm daughter of Mrs. Henry Wurm was married in Chicago, to Mr. Jacobs, a resident of that city. —Mrs. John Hartman of the 14th Con., died on June 12th after a short illness from brain fever. She was about 32 years of age and leaves to mourn her loss a family of four sons. The funeral took place on Saturday.—A good game of baseball was played here on Friday last between Jilinton and Zurich, when the latter won, 7—4.

WHALEN

The anniversary of our church takes place next Sunday, Rev. Blatchford to take the morning service at 10.30, and Rev. Kaine the evening service at 7.00

The farmers around here are through with the corn and root seeding. The dry weather has been rather against the spring crops, and the wire worm has stripped some places completely bare. Some farmers are hoeing their mangles Road work is being done this week around here.—A number from here went to Zion on Sunday to hear Rev. H. J. Fair, a former and highly esteemed pastor.—What might have proven a serious accident happened last week, when a team, driven by John Morley on a roller, ran away, while rolling his root land. Luckily Mr. Morley was not hurt and very slight damage was done.—Mrs. B. Buttler, who has been here for the past month nursing her sister, left Tuesday for her home at Ingersoll.—Rev. Mr. Fair visited some old friends around here on Monday.

Cut flowers will last well if a piece of saltpeter be added to the water in which they stand.

We echo the words of an exchange—"Don't have the nerve to send items to this office announcing doings got up for profit unless you want to pay for them. We sell our space and papers for a living. If advertising is worth doing it is worth paying for.

The meanest man on the face of this earth is the one who buys on credit from his local merchants for goods he sees and criticizes, and sends cash to the mail order houses for goods he doesn't see until he takes them out of the express office. Such a man is a poor excuse and the patriotism for his town and merchants who trust him is equal only to his nerve.

When you get a splinter in you fingers it is sometimes possible to get at it by pressing the point of a needle under it, and unless you have draft fingers or a pair of tweezers you may not be able to pull out even them. A new pen nib is a good substitute for tweezers Lay the nib over the splinter so as to hide it. Then press down hard enough to seperate the nibs. If you now let the pen down level with the splinter and allow the nibs to close again they will take hold, and you can draw the splinter out. Remember that any metal thing that is to be applied to a wound such as a needle, penknife or pen, should be passed lightly through a flame first, so as to disinfect it. A gas jet or a match will do.

CLANDEBOYE

A large number from this village attended the C.O.C.F. excursion to Port Stanley on Friday. Everyone had a most enjoyable time while at Port. The music was furnished by the Exeter Band.—Mrs. M. J. McKernan of Windsor is visiting her mother Mrs. Geo. Carter of this village.—Mrs. N. McKenzie of Clandeboye, who was rushed to Victoria hospital, London, where she underwent an operation for appendicitis is improving nicely.—A large crowd from here and vicinity witnessed the volunteers as they marched through the village about 5 o'clock Monday afternoon.—The Ladies' Aid held a very successful meeting at the Methodist church here Sunday evening last.—The Women's Institute held their regular meeting at the home of Mrs. R. Grundy on Tuesday, A large number of members were present and were greatly pleased with the long programme that had been prepared. After the meeting a dainty tea was served by Miss Grundy.

D. N. McKenzie, of Goderich possesses an interesting heirloom in the shape of an old-fashioned spinning wheel. It was made in 1760 at Lochalsh, Scotland, by Roderick MacRae, and was in use there for a number of years. In the year 1800 it was brought to Cape Breton by John McKenzie, who had it in use for over forty years. The wheel was brought to Ontario by Isabella Mac Rae, grand-daughter of John McKenzie and it came into possession of D. N. McKenzie after his aunt's death in 1906.

A boy shouldn't get the idea he can score in the game of life through the errors of his opponents.. To win he must be able to make a hit.

KIPPEN—Mr. A. W. Johnston, son of Mr. W. H. Johnston, teacher, in the recent examination at Toronto University tied with Mr. Strachan of Brussels for the Fulton Scholarship in Mathematics and Physics.

Word has been received of the appointment of Miss Mary E. Johnston, Kippen, now a teacher near Weyburn, Sask., as an examiner to read answer papers in the Education Department examinations for teachers' certificates, her duties to begin July 15th in Regina. This is surely quite an honor for so young a teacher.

ST. MARYS.—The Dominion board of railway commissioners will be in St. Marys on Friday, June 21, to adjust all matters of street crossings across the C. P. R. to the river, and other matters relating to the closing of a portion of James street by the G.T.R. and any complaints against either railway.

BRUCEFIELD.—Thomas Carr, met with a very serious accident at the mill when he had the end of the third finger of his right hand torn so that it required several stitches to bring together. Mr. Carr is rather unfortunate as it was only this spring that the same kind of an accident happened to him.

A WINDSOR LADY'S APPEAL

To All Women—I will send free with full instructions, my home treatment which positively cures Leucorrhoea, Ulceration, Displacements, Falling of the womb, Painfull or Irregular Periods, Uterine and Ovarian Tumors or growths also Hot Flushes, Nervousness, Melancholy, Pains in the Head, Back or Bowels, and Bladder troubles, where caused by weakness peculiar to our sex You can continue treatment at home at a cost of only about 12 cents a week My book, "Woman's Own Medical Adviser," also sent free on request. Write to-day. Address, Mrs. M. Summers Box. H. 840 Windsor, Ont.

CLINTON—On Tuesday morning of last week James Kerr, a well-known citizen of Clinton passed away at his home on Victoria street after being confined to his bed only a week. Mr. Kerr was born in Ireland and came to Canada when but a boy and first lived a round Toronto. About 60 years ago he came up to Huron County, walking from Brampton.

MITCHELL—Valentine Paulen got out of bed at five o'clock Friday morning last to blow out a lamp which had been left burning and when he looked at Mrs. Paulen he saw she was dead. Heart failure was the cause of death. She was aged 78. She was born in Fullarton and lived in that township till she came to Mitchell, a few years ago.

STAFFA—The Strawberry Festival of Grace Church to be held in the Hibbert Town Hall, Staffa, promises to be the best program ever presented. It will be on Tuesday next, 25th June.

DRYSDALE—St. Peter's Church was the scene of a very pretty wedding on June 11, when Florence, daughter of Mr. and Mrs. John Laporte, was married to Mr. L. Benteau, of Canard River Miss Blanche Laporte, sister of the bride, was bridesmaid, while the groom's brother acted as best man. Solemn high mass was sung by Father Brisson, with Fathers Schroeder, of Zurich and Loiselle, of Canard River, acting in the capacity of deacon and sub-deacon, respectively.

Deserve the good opinion of those who think well of you.

Semi-ready Suits
To Special Order
IF THERE is no Semi-ready store in your town you may have a Semi-ready suit made to your special order from patterns. Send for "King's Own" range suits at $20, with style book and self-measuring forms. Guaranteed. Sold at the same price everywhere in Canada. Have you seen the style book. "Girl" One for you at Semi-ready Limited, Montreal.

LONDON, CANADA. 42

A WOMAN'S WISDOM.

The worried mother wakes up to hear her baby's heavy breathing—a little cough—perhaps the croup or whooping cough. She does not want to send for the doctor when perhaps the trouble does not amount to much. Finally she thinks of that medical book her father gave her, The Common Sense Medical Adviser, by R. V. Pierce, M. D. She says "just the thing to find out what is the matter with the little dear." Two million households in this country own one,—and it's to be had for only 31c. in stamps—1,000 pages in splendid cloth binding. A good family adviser in any emergency. It is for *either sex*. This is what many women write Dr. Pierce—in respect to his "Favorite Prescription," a remedy which has made thousands of melancholy and miserable women cheerful and happy, by curing the painful womanly diseases which undermine a woman's health and strength.

MRS. ZUEBERT AND BABE.

"My desire is to write a few lines to let you know what your valuable medicine has done for me," writes MRS. MARGARET ZUEBERT, of 323 S. Bentalon Street, Baltimore, Md. "Before the storck came to our house I was a very sick woman. I wrote you for advice which was kindly given and which made me a different woman in a short time. After taking the first bottle of 'Favorite Prescription' I began improving so that I hardly knew I was in such a condition. I did my own housework—washing and ironing, cooking, sewing, and the worst of all nursed three children who had whooping cough. I hardly knew of the advent ten minutes before—so easy was it. The baby is as fat as a butter-ball. Dr. Pierce's Favorite Prescription is the best medicine for any woman to take when in this condition. I recommend it to all my friends."

SOWING HIS WILD OATS
REAPING A HARVEST OF SORROW

How many young men can look back on their early life and regret their misdeeds. "Sowing their wild oats" in various ways. Excesses, violation of nature's laws, "wine, women and song"—all have their victims. You have reformed but what about the seed you have sown—what about the harvest? Don't trust to luck. If you are at present within the clutches of any secret habit which is sapping your life by degrees; if you are suffering from the results of past indiscretions; if your blood has been tainted from any private disease and you dare not marry; if you are married and live in dread of symptoms breaking out and exposing your past; if you are suffering as the result of a misspent life—DRS. K. & K. ARE YOUR REFUGE. Lay your case before them confidentially and they will tell you honestly if you are curable.

YOU CAN PAY WHEN CURED

TORONTO CORRESPONDENCE

The Deadly Automobile—Congestion of Population —Premier on a Wheel—The June Brides

Eight automobile accidents on the streets of Toronto since the first of the season, resulting in the deaths of eight children, reveal the serious proportion to which the traffic problem has suddenly grown. The truth of the matter is, the people on the streets have not yet realised that Toronto has become a big city. They are not taking any more precautions than when it was half the size, and the traffic was less than half as heavy. The children play on the pavements, or dash suddenly from one sidewalk to the other regardless of the fact that every time they do so they take their lives in their hands.

It is not the increase in automobiles alone that has caused the new conditions. Every type of vehicular traffic has increased enormously. Down town, and even on many outlying streets, there is now serious traffic congestion. It is now no uncommon sight to see eight or ten lorries, automobiles and delivery waggons lined up waiting to get across a street intersection. At dozens of busy corners traffic policemen have now been installed. These officers have nothing to do but stand at the center of the intersection and by uplifted hand or beckoning gesture say whether the four streams of traffic seeking to get past the intersection may move or stand still. This is one of the outward ways in which the city is beginning to show a similarity to New York or London.

As yet traffic regulations are woefully inadequate to meet the changing conditions. The Police Commissioners who have charge of the matter seem too supine to make and enforce proper regulations and traffic continues to move with an irregularity that foreshadows many fatalities.

TORONTO GARDENS DISAPPEARING.

Apartment houses springing up all over the city are another evidence of increasing congestion of population. "The city of homes" may not much longer deserve the title. The "back garden," even a little one, which most Toronto householders have in the past demanded, is becoming harder and harder to secure. A leading architect the other day declared that he would not again advise even well-to-do clients to attempt to get garden plots in Toronto. He would simply tell them to get enough ground to build the house on, and what little bit of space was left he would have covered with pavement. This would make for cleanliness at least. But a lawnless city of paved courtyards is not pleasant to contemplate.

SIR JAMES ON A WHEEL.

A familiar figure on the streets these cool June evenings is Sir James Whitney, the Premier of Ontario. His is not a costly equipage with prancing steeds and footman and coachman, nor a luxurious motor car, nor is he numbered among the pedestrians. He travels on a bicycle of doubtful age. He is always unaccompanied. And he is never warned for breaking the speed limit, his pace never exceeding six or seven miles an hour.

While nearly everyone else has deserted the bicycle as a pleasure giver, Sir James remains true to his friend of bygone days, a trait which, it is said, he carries into his treatment of people as well. And every evening, if possible, he takes a sedate spin around the well-paved residential streets. If the weather is cool enough and he can get away from his office he takes his ride before dinner. Most people pass him without recognition, and, no doubt, in his quiet solitary rides he has opportunity to make many mental comments on human nature, as seen on Toronto streets.

DR. McKAY MAKES GOOD.

That Dr. A. C. McKay, who, a little over a year ago, resigned the Chancellorship of McMaster University to enter the city's employ as Principal of the Technical High School, has made good is evidenced by the strong support accorded his name for the new position of Director of Education in Toronto.

The ex-Chancellor is, of course, one of the most prominent educationists in the Province. Many of the text books in mathematics in use in the schools bear his name, but his mental activities are by no means confined to this subject. He has always been a great student in a variety of departments; in fact so close has been his attention to books that recently he was obliged to take a long trip abroad to recuperate in health. But he has, in addition, shown a capacity for administration that is standing him in good stead in the city's service.

Born in Beamsville in 1861, he is another Ontario boy who has made abundantly good in the city. His educational experience was derived in Port Hope, Upper Canada College and Jamieson Avenue Collegiate, Toronto. He was appointed Chancellor of McMaster in 1905, and seemed to have discovered his life work there, but the great practical problems of education in the elementary schools of the city attracted him. His salary as Principal of the Technical School was $5,000 a year. The new position of Director of Education will doubtless carry a considerably higher salary. The duties will be many and heavy, because it is not at all certain that Toronto's system of education is as thorough and efficient as it might be.

THE JUNE CROP OF BRIDES.

Any afternoon this month of June the Union Station is one of the most interesting places in town. Incipient honeymooners are the explanation. Some days there are as many as a dozen bridal parties on the platform at the same time, many of them leaving by the same train. They are always very gay and very happy and even the station officials, hardened and gray in the service, step a little more lightly and are a little less brusque under the influence. The dingy station, with its cumbersome trundling baggage trucks, makes a not ineffective setting for the summery wedding gowns of the attendants, and fifteen minutes around five o'clock spent in the vicinity any afternoon is enjoyed by the most unromantic. Rice and old boots have long since been barred, but the platforms are almost constantly covered with confetti.

PROF. RAMSAY WRIGHT RETIRES.

After 28 years continuous work as a teacher of biology in the University of Toronto, Prof. Ramsay Wright has delivered his last lecture, and has retired to carry out private research. He is not yet an old man, being only 50, and has many years of usefulness ahead of him yet. While Prof. Ramsay Wright's name has not been associated with any great discoveries in the field of biology to which he has devoted his life he was regarded as an efficient instructor. His gentlemanly presence and rich full vowels will be missed in university halls.

LONDON IN BETTER HEALTH.

Health Crusade Saves 28,000 Lives Each Year.

A despatch from London says: In the past six years the death rate in London has fallen by 19 per cent., according to statistics printed on Thursday. The mortality from tuberculosis has increased from 26 to 33 per cent. and infantile mortality has increased 30 per cent. Typhus, however, has been completely banished, smallpox has been practically exterminated and the mortality from typhoid fever is declining. It is computed that the health crusade in the last 20 years has resulted in saving the lives of 28,000 Londoners each year.

SMASH WINDOWS IN DUBLIN.

Irish Suffragettes Adopting Military Tactics.

A despatch from Dublin says: A campaign of window-smashing was opened on Thursday by the Irish Suffragettes who came into vigorous conflict with the authorities. After the women had made an energetic attack on most of the public buildings, eight of them, who were armed with bags of stones, were arrested. The women, before the police came on the scene, had set siege to and succeeded in shattering 42 windows of the Customs House, the post-office, the land commission office and the police and military barracks.

MAKING SAFE INVESTMENTS

Municipal Debentures May Sometimes Show a Substantial Advance

Securities of Towns Contiguous to Large Cities Usually Show Good Profit When Finally Absorbed by Larger Neighbor — Several Instances of Where this has Happened.

The articles contributed by "Investor" are for the sole purpose of guiding prospective investors, and, if possible, of saving them from losing money through placing it in "wild-cat" enterprises. The impartial and reliable character of the information may be relied upon. The writer of these articles and the publisher of this paper have no interests to serve in connection with this matter other than those of the reader.

In speaking of municipal bonds in this column some months ago it was remarked that they stood a very small chance of appreciating in value. There have been cases, however, where a very fair amount of profit has been made by advances in price, so this rule is not invariable. Six or seven years ago Fort William 4 1-2 per cent. thirty-year bonds sold at a price to yield 5 per cent. or about 92 1-4. At the present time these same bonds on a 5 per cent. basis would sell at about 93. But in the past five years Fort William has grown in population and importance, with the result that these debentures now sell at a price to yield 4 1-2 per cent.; that is par. So, as happened in the case of an estate I know of, there is a nice profit of 7 points in these bonds after making due allowance for that proportion of the advance in price, which goes to make up the "yield" of 5 per cent.

For the benefit of those who have not followed this column closely, the yield of a bond is figured somewhat as follows: A five-year bond bearing interest at five per cent. will yield 5 per cent at 95.73. That is, a man buying such a bond of a $1,000 par value for $957.30 would receive 5 per cent. on his money. Now the average man would figure this way: "I payed $957.30 for this bond and get $50 a year income. Now $50 on $957.30 is interest at the rate of 5.22 per cent. But the man who thus figured would be wrong. He gets not only his 5 per cent., but at the end of five years his bonds are redeemed at 100. He makes a profit in that time of 4.27 points, or $42.70 on his $957.30 bond. Divide this by five and he gets an addition to his income at the end of five years equal to $8.54 a year, so that to get the return he should divide the price of his bond, $957.30 into $50 plus $8.54, which shows the rate to be 5.11 per cent. The slight difference shown is due to the fact that the actual figuring is done with due allowance made for compound interest on the $8.54, which the investor doesn't get until the bond is paid.

So, after making due allowance for the amount coming to the investor at the present time on account of "yield," his profit, if he sold now instead of waiting for maturity, would be 7 points, or $70 on each $1,000 bond.

But buying bonds in this way is a by-no-means-certain method of making a profit. What many far-sighted investors do now-a-days is to buy the bonds of some such municipality as East Toronto or St. Louis du Mile End. A few years ago East Toronto debentures could be bought to yield as much as 5 per cent., but since it has been absorbed by the city of Toronto the bonds have advanced, and—as they are now direct obligations of the City of Toronto, they are selling on the same bases as city of Toronto bonds. The village of St. Louis du Mile End had a similar experience with the city of Montreal. Investors who took advantage of the obvious fact that East Toronto, West Toronto, Parkdale, etc., would eventually be absorbed by the city have made quite a satisfactory profit on their holdings, or at least, are in a position to sell at a profit should they wish to dispose of their bonds.

There are at the present time several towns in like position relative to several other Canadian cities. One that most people know about is "North Toronto," which those who read Toronto papers must realize will be soon absorbed. As a matter of fact, so much is this a foregone conclusion that the village of North Toronto debentures are at the present time selling at a rate very slightly better than the East Toronto debentures before mentioned. In the case of several other places, however, there is still a chance of a good turn, for the investor wants something not only safe, but with a good income and an excellent prospect of appreciating in value.

High Court Canadian Order of Foresters.

The thirty-third annual Convention of the Canadian Order of Foresters was called to order by the High Chief Ranger, Mr. J. A Stewart, of Perth, Ont., a few days ago, in the City of Hamilton, Ont., over 500 delegates being present.

The Annual Reports of the High Court Officers were submitted by the following:—Mr. J. A. Stewart, High Chief Ranger; Mr. Alf. P. van Someren, High Secretary; Mr. Robert Elliott, High Treasurer; Dr. U. M. Stanley, Chairman of the Medical Board; Messrs. W. L. Roberts and J. P. Hoag, High Auditors, and Mr. W. G. Strong, Superintendent of Organization.

Other officers present besides those just referred to above, are: Mr. J. A. A. Brodeur, Montreal, Que., High Vice-Chief Ranger; Messrs. W. M. Couper, Montreal, Que.; N. J. Stevenson, Toronto; R. T. Kemp, Listowel, Ont.; A. R. Galpin, London, Ont.; F. H. Davidson, Winnipeg, Man.; Dict. H. Chief R. Members of the Executive Committee of High Court: Mr. William Walker, Montreal, Que., High Registrar; Rev. W. J. West, Bluevale, Ont., High Chaplain; Mr. D. E. McKinnon, Winnipeg, Man., District High Secretary for Manitoba; Lyman Lee, Hamilton, Ont., H. Ct., Solicitor, and Mr. J. B. O'Regan, Quebec, Que., Chief Agent for the Province of Quebec.

Many matters of interest to the membership generally were dealt with in these various reports, and they cover a great deal of detail, all of which indicate marked and steady progress in the affairs of this National Fraternal Insurance Association. The officers of this Order have been able from year to year to indicate conclusively, by their reports, satisfactory progress in certain directions, but those of 1911 indicate progress in every department of this Order's operations. The Canadian Order of Foresters confine their business entirely to the Dominion of Canada, and if one may judge by the results attained, the policy adopted in this regard, at the inception of the Order, in 1879, would appear to have been a wise one from a prudential, as well as a patriotic, point of view.

To deal with a few of the points brought out by the reports of the various officers, first might be mentioned the fact that during 1911 9,333 new members were initiated into the Order, a larger number than has been admitted in any previous year of the Order's experience. The net increase in the membership for the year under review was 5,022, being 903 in excess of the previous year's net additions to the Order. The total membership at the end of 1911 was 83,126.

In respect to the Insurance Fund, 495 Death Claims were paid during the year, amounting to $500,570.68. When it is considered that in 1910 three more Death Claims were paid, amounting to a slightly larger gross total than that paid in 1911, such a favorable showing reflects creditably on the physical selection made of business taken by the Order. After paying this sum of over half a million for Death Claims out of the Insurance Fund the Order was able to add the very substantial sum of $330,754.64 to its Insurance Fund on hand, being a larger addition to this Fund than that made in any previous year. The total amount standing at the Credit of this Fund on the 1st of June, 1912, was $3,740,359.97.

In respect to the Sick and Funeral Benefit Branch, this department, also, has shown satisfactory progress. There was a net increase in membership in this department for the year of 4,120, showing a total membership on the 31st of December, 1911, enrolled in this department of 53,448. The net amount added to the funds of this department, after paying 6,638 claims, amounting to $161,485.95, was $38,460.23, the position of this fund on the 1st day of June, 1912, showing a credit balance of $251,769.36. Interest earned by this Department on its funds in 1911 amounted to $9,716.16. It will be seen from this fact that interest earned is becoming an important factor in this department of the Order's work.

The General Fund of the Order is also in a good position, and on the 1st of June, 1912, showed a credit balance on hand of $24,127.28. The funds of the Order are all invested in the best securities procurable, being almost entirely in Municipal and School Debentures of the Dominion of Canada. The average rate of interest realized from the Investments in 1911 was 4.69 per cent., a rate which, taking into consideration the gilt-edge nature of the investments, is a very advantageous one, and it is interesting to note that interest earned on the Insurance Funds of the Order, for the year 1911, amounted to $149,755.60, and paid 29.9 per cent. of the Death Claims on the Order. This is also the largest return, in respect to interest, in the Order's experience, and the largest percentage of Death Claims that it was able to pay from this source of income. The important bearing this revenue has on the stability of the Order may be illustrated by the fact that ten years ago the amount realized from interest on investments was $38,983.34, showing an increase in those ten years in revenue from this source of $111,472.26.

A feature of general interest to the insuring public, indicating as it does the careful selection of risks, is the death rate of this Order. For the year 1911 it was 9.95 per thousand, and in this regard the Order shows, for their experience of nearly thirty-three years, the very low average death rate of 5.24 per thousand of their membership.

The above facts will indicate that the Canadian Order of Foresters, during the time of Canada's prosperity, has been obtaining their full share of material progress. It is gratifying to note that in this Society, which has never attempted to enlarge its scope of operations outside the Dominion, such splendid and encouraging results have been attained from the conduct of its business, and at no time in its history would it appear to have been in as strong a position as it is today.

GET ACQUAINTTD WITH YOUR NEIGHBORS.

If you are genteel in appearance and courteous in your manner, you will be welcomed in every home in your locality, when you are showing samples of our superior toilet goods, household necessities, and reliable remedies. The satisfaction which our goods give, places the users under an obligation to you, which wins for you the same respect, esteem, and intimate friendship given the priest, physician, or pastor, and you will make more money from your spare time than you dream of, besides a host of friends.

Maurice West, of Toronto, says: "The first day I showed your samples I made three dollars. I have since made as high as ten, and have averaged five dollars daily for the year. Your goods give perfect satisfaction, and I receive repeat orders in every home."

This is your opportunity for a pleasant, profitable and permanent business. Address, The Home Supply Co., Dept 20, Merrill Building, Toronto, Ont.

GOLD IN FAR NORTH-WEST.

Geological Survey Has Thirty Parties Checking Up Stories.

A despatch from Ottawa says: News that gold has been found in the North-West Territories, at the head of the Liard River above Fort Liard, has been received at the Geological Survey here, but nothing official has yet been ascertained regarding the authenticity of the reports. "The reports," declared Prof. R. W. Brock, director of the survey, "simply come from prospectors who have come down from the country, and state that they have found gold. There has been no rush to the country as yet, and should not be until something more official is known." Mr. Brock also stated that thirty parties from the Geological Survey had already gone out to different parts of the country for survey work. Ten more will be sent out within the next few weeks.

EXTERMINATION OF RATS AND MICE.

If it were generally known that there is no trouble to rid a house, barn or any building of rats and mice by the use of Gillett's Lye, it is doubtful if the article could be made as fast as it would be used for this purpose alone. The process connected with using it is very simple, the plan being to sprinkle a little of the article in and around the holes made by these pests in floors, partitions, etc. In addition to this it is well to use a thin piece of board about a foot square, or even smaller, and make a complete circle of the lye on the board about a quarter of an inch deep, and inside of the circle place some meat or cheese. In endeavoring to get at the bait the feet of the rats and mice will be burned, and the whole colony, whether large or small, will immediately disappear from the premises.

The plan is worth trying, but the good kind—Gillett's Lye—should be procured. Refuse the many cheap imitations and substitutes.

IMMIGRATION FROM STATES.

Over Twenty-one Thousand Arrivals in May.

A despatch from Ottawa says: An analysis of the figures of immigration from the United States into Canada for last month shows that about thirty-eight out of the forty-eight States of the Union contributed to the swelling tide of American citizens pouring into the Dominion. Of the 21,494 arrivals from across the border during May over 13,000 took up homesteads, while hundreds of the others purchased land outright. Each arrival brought an average of over $1,000, either in cash or effects, the aggregate wealth actually represented being estimated at over twenty-five million dollars. The border States were most largely represented. North Dakota sent 366 new settlers to Canada, Minnesota 257, South Dakota 79, Wisconsin 58, Michigan 49, Illinois 45, Washington 44, and New York 31.

PRICES OF FARM PRODUCTS

REPORTS FROM THE LEADING TRADE CENTRES OF AMERICA.

Prices of Cattle, Grain, Cheese and Other Produce at Home and Abroad.

BREADSTUFFS.

Toronto, June 18.—Flour—Winter wheat, 90 per cent. patents, $4.10 to $4.15 at seaboard, and $4.15 to $4.25 for home consumption. Manitoba flours—First patents, $5.70; second patents, $5.20, and strong bakers', $5, on track, Toronto.

Manitoba wheat—No. 1 Northern, $1.12, Bay ports; No. 2 at $1.09, and No. 3 at $1.05, Bay ports. Feed wheat, 67 1-2c, Bay ports.

Ontario Wheat—No. 2 white, red and mixed, $1.06, outside.

Peas—No. 2 shipping peas, $1.25, outside.

Oats—Car lots of No. 2 Ontario, 48 to 49c, and No. 3 at 47c, outside. No. 2 Ontario, 51 to 52c, on track, Toronto. No. 1 extra W. C. feed, 50c, Bay ports, and No. 1 at 49c, Bay ports.

Barley—Prices nominal.

Corn—No. 3 American yellow, 78 to 79c, on track, Bay ports, and at 83c, Toronto.

Rye—Prices nominal.

Buckwheat—$1, outside.

Bran—Manitoba bran, $23, in bags, Toronto freight. Shorts, $25 to $26.

COUNTRY PRODUCE.

Beans—Small lots of hand-picked, $3 per bushel; primes, $2.65 to $2.75.

Honey—Extracted, in tins, 11 to 12c per lb. Combs, $2.50 to $2.75 per dozen.

Baled hay—No. 1 at $18 to $19, on track, Toronto; No. 2 at $15 to $16, and mixed at $11 to $13.

Baled straw—$11 to $11.50, on track, Toronto.

Potatoes—Car lots of Ontarios, in bags, $1.60 to $1.65, and Delawares at $1.70 to $1.75.

FOUR TRAINMEN KILLED.

Light Engine and Freight Come Together.

A despatch from Fort William says: Four trainmen are reported fatally injured in a head-on collision of two freights on the Canadian Pacific Railway at Nipegon, fifty miles east of here, at 7 o'clock on Friday morning. Late at night a report came over the wires saying that the wreck resulted from a head-on collision between a light engine and a freight. The names of the dead are given as follows: A. Ross, engineer of light engine; — Burke, fireman of westbound freight; Alex. McQuaig, engineer of westbound freight; — Allen, brakeman. The injured: D. Deegan.

KING'S BIRTHDAY HONORS.

Two Provincial Premiers Receive the Honor of Knighthood.

A despatch from London says: The King's birthday honors were issued on Thursday night. Rodmond Palen Roblin, Premier of Manitoba, and Richard McBride, Premier of British Columbia, are made Knight Commanders of the Order of St. Michael and St. George, and Hon. Joseph Dubuc, Winnipeg, a Knight Bachelor. John McDougald, of the Department of Customs, and Prof. James Melville Macoun, of the Department of Mines, Ottawa, are appointed Companions of the Order of St. Michael and St. George, and William Henry Walker, of the Department of External Affairs, Ottawa, is made a member of the Imperial Service Order. The Earl of Carrick, Field Marshal Sir Wm. Gustavus Nicholson, Sir Francis Alliston Channing, who was born in the United States, and Sir Thos. Borthwick are created Barons of the United Kingdom. Lord Carrick's Earldom is Irish, and the English Peerage gives him a seat in the House of Lords.

T. & N. O. REVENUE REDUCED.

Large Amount Written Off for Depreciation.

A despatch from Toronto says: The returns from the T. & N. O. Railway for the month of March, as reported to the Provincial Treasurer, show that while there was an increase of $6,562 in the gross revenue of the road, there was a decrease of $24,857 in the net revenue. This is accounted for in the maintenance of way, equipment and transportation charges, from the fact that considerable sums have been written off for depreciation of equipment. The net revenue for the month was $35,143, compared with $60,000 for the same month last year, and the gross revenue was $149,859, compared with $143,297 a year ago. The net revenue for the past five months up to May 1 was $227,824, compared with $232,081 for the same period a year ago.

WHEAT FREE INTO FRANCE.

Chamber of Deputies Meets Scarcity with Special Bill.

A despatch from Paris says: The Chamber of Deputies on Thursday passed a bill admitting wheat free on condition that an equivalent weight of flour is exported from France by the importer within three months, or an equivalent weight of biscuits within four months. The high price of wheat and its scarcity have been causing considerable apprehension in France, and it is believed that this action will temporarily relieve the market.

6% INTEREST AND SAFETY

¶ Price Bros. and Company Bonds pay 6 per cent on the investment. They offer the strong security of first mortgage on 6,000 square miles of pulp and timber lands—which are insured at Lloyds against fire. The earnings of the Company at present approximate twice the bond interest. The new pulp mill in course of construction will double this earning power. Purchased at their present price they pay interest at the rate of 6 per cent. The best posted investors in Canada and England have purchased these bonds. Owing to the security and increasing demand of the products of the Company, these bonds will unquestionably increase in value.

If you have money to invest write us for complete information.

ST. VITUS DANCE IN YOUNG CHILDREN

A Striking Example of its Cure By the Tonic Treatment

St. Vitus dance is the commonest form of nervous trouble that afflicts young children, because of the great demand made on the body by growth and development, and there is an added strain caused by study. It is when these demands become so great that they impoverish the blood, and the nerves fail to receive their full supply of nourishment, that the nervous debility which leads to St. Vitus dance begins.

The remarkable success of Dr. Williams' Pink Pills in curing St. Vitus dance should lead parents to give this great blood-building medicine to their children at the first signs of the approach of the disease. Pallor, listlessness, inattention, restlessness and irritability are all symptoms which early show that the blood and nerves are failing to meet the demand upon them. Here is proof of the power of Dr. Williams' Pink Pills to cure this trouble. Mrs. J. W. Towns, Oshawa, Ont., says:—"At the age of eleven my daughter was attacked with St. Vitus dance, and despite all we did for her the trouble grew rapidly worse. Soon she was scarcely able to walk, her body and limbs jerked and trembled so, and she was quite unable to feed herself. When she would lie down she would be unable to rise without assistance. As nothing was helping her I wrote a friend whose daughter had been similarly affected, and she advised the use of Dr. Williams' Pink Pills, which had cured her child. I at once got a supply of the Pills, and even the use of the first box seemed to show an improvement. By the time five boxes were used she was completely cured and has had no return of the trouble since." Sold by all medicine dealers or by mail at 50 cents a box or six boxes for $2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

WHALE BOAT CATCHES SHARK

Monster Harpooned Off Vancouver Coast.

While scouring the ocean for whales one of the little steamers working from the Kyuquot station landed a thirty-foot shark, says the Vancouver Sun.

The "wolf of the sea" is claimed to be one of the largest ever seen in northern waters and weighed approximately eight tons.

The whaling steamer had been searching vainly for whales for several days and the look out had grown tired of scanning the surface of the ocean. He was suddenly aroused to action by observing the dorsal fin of a monster shark cutting the water about 200 yards on the port bow. As the big sharks yield considerable oil, the ship's officers decided to try for this one in view of the lack of whales.

Running to within thirty yards of the shark with the boat, the gunner fired the harpoon from the gun and struck the monster at the first shot. After a terrific fight to hold the struggling sea animal it was hauled aboard and cut up, the steamer resuming her search for the larger mammals.

Officers of the Tees declare that the shark was the largest they had ever seen. It was of the species common to the Pacific coast, but not quite so far north.

Baby's Rash Became a Mass of Humor

Parents Decided He Could Not Be Cured. "Cuticura" Soon Made His Skin Perfectly Clear.

A Toronto man, Mr. Robert Mann, of 758½ Queen St. East, says: "Our boy was born in Toronto on Oct. 13, 1908, and when three months old a slight rash appeared on his cheek. What appeared to be a water blister would form. When it broke, matter would run out, starting new blisters until his entire face, head and shoulders were a mass of scabs and you could not see a particle of clear skin. We did not know what to do for him and tried about every advertised remedy without avail, indeed some of them only added to his suffering and one in particular, the —— Remedy, almost put the infant into convulsions. The family doctor prescribed for him. This did not do any good, so we took him to a hospital.

He was treated as an out-patient twice a week and he got worse, if anything. We then called in another doctor and inside of a week the boy was, to all appearances, cured and the doctor said his work was done. But the very next day it broke out as bad as ever.

"We decided that it could not be cured and must run its course and so we just kept his arms bandaged to his side to prevent his tearing his flesh. The Cuticura Remedies were recommended. We started using them in May, 1909, and soon the cure was complete. Cuticura made his skin perfectly clear and he is entirely free from the skin disease." (Signed) Robert Mann, May 3, 1910.

In another letter, dated June 29, 1911, he adds: "My boy has never had any more trouble since using Cuticura."

For more than a generation Cuticura Soap and Ointment have afforded the most successful treatment for skin and scalp troubles of infants, children and adults. A single set is often sufficient. Although sold by druggists and dealers throughout the world, a liberal sample of each, with 32-p. book on the skin, will be sent free, on application to Potter Drug & Chem. Corp., 58 Columbus Ave., Boston, U. S. A.

A MASTER OF FICTION.

Mr. Thomas Hardy is the grand old man of literature. Though he is no longer able to do much creative work he maintains a very keen interest in current problems, and is alive to the literary tendencies of the age. He is undoubtedly England's greatest living novelist, and at least one of his novels is likely to endure as long as the English language.

Originally intended for an architect, he devoted his attention to literature, and soon created a great impression by his wonderful delineations of Dorset life. Such books as "Tess of the D'Urbervilles," "Far From the Madding Crowd," and "The Return of the Native," are treasured by lovers of literature throughout the civilized world, and Thomas Hardy enjoys an international reputation.

King George is a very great admirer of Mr. Hardy's works, and it

Mr. Thomas Hardy.

was largely owing to his influence, when Prince of Wales, that the novelist was enabled to obtain the Crown lands near Dorset upon which he erected his house. Every spot of the surrounding country has been rendered famous by his novels, and enthusiastic admirers come from all parts of the globe to view the original sites which are depicted with such masterly skill in the novels.

OUTDOOR LIFE

Will Not Offset the Ill Effects of Coffee and Tea When One Cannot Digest Them.

A farmer says:

"For ten years or more I suffered from dyspepsia and stomach trouble, caused by the use of coffee, (Tea contains caffeine, the same drug found in coffee) until I got so bad I had to give up coffee entirely and almost give up eating. There were times when I could eat only boiled milk and bread; and when I went to the field to work I had to take some bread and butter along to give me strength.

"I doctored steady and took almost everything I could get for my stomach in the way of medicine, but if I got any better it only lasted a little while. I was almost a walking skeleton.

"One day I read an ad for Postum and told my wife I would try it, and as to the following facts I will make affidavit before any judge:

"I quit coffee entirely and used Postum in its place. I have regained my health entirely and can eat anything that is cooked to eat. I have increased in weight until now I weigh more than I ever did. I have not taken any medicine for my stomach since I began using Postum.

"My family would stick to coffee at first, but they saw the effects it had on me and when they were feeling bad they began to use Postum, one at a time, until now we all use Postum." Name given by Canadian Postum Co., Windsor, Ont.

Ten days' trial of Postum in place of tea or coffee proves the truth, an easy and pleasant way.

Read the little book, "The Road to Wellville," in pkgs. "There's a reason."

Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human interest.

OUR LITTLE ONES' TEETH.

Why and How We Should Take Care of Them.

In these days children's teeth are not given quite that amount of attention they ought to receive.

It is a common idea that the first teeth—the milk-teeth—are of no importance. You will hear a mother say: "We will have to watch Jack's second teeth. They're the one's that count." Very true; but unless the first teeth be properly tended, the second set won't be of great service to the owner.

The first teeth are often no sooner through than a child is given something hard to bite at or gnaw. No greater mistake could be made. Certainly give a child something hard to bite so long as the teeth are beneath the level of the gums—that only soothes; but once the teeth are in view, no hard substance should be given to a child. The enamel is very easily broken, and once that is done the tooth is liable to decay quickly. It is then, so to speak, deprived of its natural protection.

The seeds of indigestion are usually sown quite early in life. We who are adults know very well how faulty teeth affect our digestion. ery well; bad teeth in children do the very same thing, and if the milk-teeth are allowed to go bad through neglect and so forth, indigestion lays its horrible hand on a child, and the grip is never released throughout life.

It sometimes happens that the second set of teeth make their appearance before the first set are out. In a case of the kind there is but one thing to do—take the child to a good dentist, and get him to open up the way for the second set. Unless this is done the second teeth have no chance, and must push their way out as best they can, with the result that in the end they are quite irregular, sometimes positively horrible-looking.

But granted the first set—the milk-teeth—are through, and in good condition, still that is not enough. They must be attended to carefully. A mother should procure a brush with quite soft bristles, and with this and a nice tooth-paste the child's teeth should be cleaned morning and evening—especially evening. Before a child is put to bed at night the teeth should be cleaned with care; that removes any particles of food that may be adhering to them, and that is an important point.

If a mother does this regularly, it becomes a habit, and the child later on will just as soon think of going out without his face being washed as without his teeth being brushed. The practice has become a fixed habit; and it is a good habit.

What parents ought to remember is this—if teeth are attended to during childhood, they are liable to cause very little trouble later on, and carefully attended to teeth in childhood often stand sound throughout a lifetime.

It is often asked: Why do teeth begin to go so soon nowadays? Our food is chiefly to blame. We do not eat a sufficiency of bone-forming foodstuffs. We take too little of those materials that are body building. Teeth reared on Scottish oatmeal bannocks are usually good teeth, and for two excellent reasons: bannocks are made of oatmeal—that grand bone-maker and body-builder—and oatmeal, well masticated, is one of the best-known teeth-cleaners and polishers.

Safeguarding Investors

It is only the wealthy investor who can afford to jeopardize his principal in the hope of securing unusually large returns. To the man whose investment represents all or most of his available capital, security of principal is a prime necessity.

The value of a Bond depends upon several conditions, including: safety, which can be ascertained only after an investigation of the properties which are security for the Bond—rate of interest—readiness with which the Bond can be sold—probable stability or appreciation of market price. These and other facts should be ascertained before investing.

We maintain in the interests of investors a statistical department which contains complete information regarding all reputable Canadian and the leading British and American securities. A request to any one of our offices in person, by mail or wire, will secure any desired information. Such a request carries no obligation whatever.

SUMMER SKIN TROUBLES.

Sunburn, blistering, and irritation are the commonest form of summer skin troubles, and Zam-Buk ends these very quickly. It works in two ways. As soon as applied, its antiseptic powers get to work and kill all the poison in a wound, a sting or a sore. This generally ends the smarting and the pain. Then Zam-Buk begins the healing process, and fresh healthy tissue is built up. For sore, blistered feet, sore hands, heat rashes, baby's heat spots, sore places due to perspiration, etc., you can't equal Zam-Buk. Druggists and stores everywhere sell Zam-Buk, 50c. box. Use Zam-Buk Soap also, 25c. per tablet. All stores, or Zam-Buk Co., Toronto.

The man who paddles his own canoe to-day may own a steam yacht to-morrow.

SOLDIERS DRINK LESS.

Generals Agree That Best Fighting Is Done by Sober Army.

The changes that a century has wrought in respect to the use of strong liquor were illustrated during the recent meeting in London, England, of the Royal Army Temperance Association, which now has 67,433 members, of whom 38,405 are in the Indian army.

According to the figures presented there are now 28,380 total abstainers in the British army and 2,795 in the temperance section. Earl Roberts said a great change had come over the morality of the army in India since the days when it was the custom to provide every soldier with "a tot of arrack" every morning.

Earl Curzon recalled that in 1812, when the Peninsula war was in progress, the Duke of Wellington's force was "a drinking if not a drunken army." The idea then was that the hard drinking man was the best fighting man and there was a direct ratio between whiskey consumed and courage displayed. The Duke himself while extolling the bravery of his men deplored their drunkenness and social vices.

Nowadays all recognize that the old idea was a ludicrous fallacy. Every general who had commanded troops in the last quarter of a century would say that the best marching army and the best fighting army was a sober army.

ABSOLUTELY SAFE FOR LITTLE ONES

Mrs. Nelle Steeves, Hill Grove, N.B., writes:—"I know Baby's Own Tablets are an absolutely safe medicine for little ones and they are the only medicine I would give a child without first consulting a doctor." The Tablets are guaranteed by a government analyst to be absolutely safe and free from opiates and narcotics and cannot possibly do harm—but always good. They are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

NOT WORTH IT.

"I hear Cholly has lost his mind."

"Has he? Then don't offer a reward to anybody to find it."

It is a Liver Pill.—Many of the ailments that man has to contend with have their origin in a disordered liver, which is a delicate organ, peculiarly susceptible to the disturbances that come from irregular habits or lack of care in eating and drinking. This accounts for the great many liver regulators now pressed on the attention of sufferers. Of these there is none superior to Parmelee's Vegetable Pills. Their operation though gentle is effective, and the most delicate can use them.

A girl isn't half as humiliated to make her own dresses as she is to wear them.

Keep Minard's Liniment in the house.

EASILY REMEDIED.

Cashier—"I cannot cash this check, madam. You have overdrawn your account."

Haughty Lady—"Oh, that is all right! Just make me out a new account."

For years Mother Graves' Worm Exterminator has ranked as the most effective preparation manufactured, and it always maintains its reputation.

Most people count the chicks not only before they are hatched, but before the eggs are laid.

Ask for Minard's and take no other.

ARTISTIC STYLE.

"That girl's face is a chromo."

"I beg your pardon—it's hand-painted."

If attacked with cholera or summer complaint of any kind send at once for a bottle of Dr. J. D. Kellogg's Dysentery Cordial and use it according to directions. It acts with wonderful rapidity in subduing that dreadful disease that weakens the strongest man and that destroys the young and delicate. Those who have used this cholera medicine say it acts promptly, and never fails to effect a thorough cure.

"A multi-millionaire in a fashionable restaurant," she said, "pointed to a line on the menu and said to the waiter: 'I'll have some of that, please.' 'I'm sorry, sir,' the waiter answered, 'but the band is playing that.'"

The ease with which corns and warts can be removed by Holloway's Corn Cure is its strongest recommendation. It seldom fails.

But a bird in the hand doesn't annoy the early worm.

Think this over!
Is there any beverage that costs you less per cup than
LIPTON'S TEA
GOES FARTHEST FOR THE MONEY

STOPS SHOES CREAKING.

Every woman knows how annoying it is when her shoes begin to creak. Probably she has hardly noticed it in her usual walking, but just as soon as she would walk quietly they set up a most distressing squeak. To remedy this soak the sole in linseed oil, using a plate or shallow pan, allowing the sole only to come in contact with the oil. The creak will disappear after a few hours and the shoe will last much longer on account of this treatment.

CURE FOR CONSUMPTION.

Such is the recuperative power contained in Copeland's Cure for Consumption that even the most advanced cases have been cured by its beneficial action. It can be taken by the weakest patient, to whom it gives a fighting strength as nothing else will. The appetite comes back. That weakening perspiration is stopped. The lungs and respiratory organs are healed at the same time. Its efficacy to fight consumption, weak or bleeding lungs, lingering coughs and bronchitis is proven beyond doubt not by what I state, but by what is stated by those who have taken it for those ailments and have been cured. Copies of testimonials of those who, after being given up by doctors and specialists, as only having a few days to live, and are alive and well to-day, are sent on request. Price $1 per bottle at your druggist, or direct from Wm. Copeland, 511 Pape Ave., Toronto, Canada.

VACATION.

Vacation is a term of woe—
We should be glad to end it;
For, till it's over, none can know
How, when or where to spend it.

A Cure for Fever and Ague.—Disturbance of the stomach and liver always precede attacks of fever and ague, showing derangement of the digestive organs and deterioration in the quality of the blood. In these ailments Parmelee's Vegetable Pills have been found most effective, abating the fever and subduing the ague in a few days. There are many who are subject to these distressing disturbances and to these there is no better preparation procurable as a means of relief.

NOT ON HAND.

Student—"I told you last night to wake me at 7 this morning. Why the dickens didn't you do so?"

Landlady—"Well, sir, at 7 o'clock you hadn't come home."

I was cured of Bronchitis and Asthma by MINARD'S LINIMENT.

MURINE is compounded by our Oculists—not a "Patent Medicine" but used in successful Physicians' Practice for many years. Now dedicated to the Public and sold by Druggists at 25c-50c per bottle. Murine Eye Salve in Aseptic Tubes, 25c-50c. Murine Eye Remedy Co., Chicago

A FACT.

About the hardest man in the world to control is the man who is too easily led.

For Burns and Scalds. — Dr. Thomas' Eclectric Oil will take the fire out of a burn or scald more rapidly than any other preparation. It should be at hand in every kitchen so that it may be available at any time. There is no preparation required. Just apply the oil to the burn or scald and the pain will abate and in a short time cease altogether.

Bad advice is the only kind heeded.

Minard's Liniment used by Physicians.

ITS ONLY PURPOSE.

"O, Willie, Willie," cried a teacher to a hopelessly dull pupil, "whatever do you think your head is for?"

Willie, who evidently thought this another of the troublesome questions that teachers were always asking, pondered it deeply. "Please, Miss," he replied at length, "to keep my collar on!"

Of the States, New York is the most densely populated; its population exceeds nine millions. The population of Pennsylvania exceeds seven millions.

VACATION NOTICE.—Dr. Roulston desires to announce that his dental office will be closed from July 15th to August 15th.

HICKS' FORECASTS FOR JUNE.—A Reactionary Storm Period falling on the 22nd, 23rd and 24th, will most likely take up and prolong the tendency to afternoon and evening thunder showers, coming over from the preceding period. While an excess of rain will not reach generally over the country haymakers and others should figure on frequent showers. A Barometer would save you endless worry and great loss. A regular storm period is in progress the last four days in June, central on the 28th. Look for falling barometer, growing cloudiness, and areas of rain, wind and thunder on the 28th, 29th and 30th. The Moon is full and at its extreme southern point in the heavens on the 29th. At these solstice full Moons there is greater probability of volcanic outbreaks and violent seismic disturbances. A seismic period covers the 26th to July 4th, central June 29th. Careful readers of the world's telegraphic news will see that general volcanic unrest will prevail from about the middle, to the end of June with frequent earthquake shocks in wide extremes of the globe.

LOCAL DOINGS.

The Entrance examinations commenced in the school here yesterday.

Miss Gladys Blewett tries her graduation examinations in music at London this week.

A couple of foreigners and a dancing bear made their way through Exeter on Saturday.

Mr. Chas. Birney, G.T.R. sectionman has been off duty for several days owing to illness.

Many a girl makes a mistake of marrying out of a happy home into a boarding house.

The Thames Road Public School picnic will be held in Jas. Cottle's grove on June 28th.

The annual meeting of the Farmers Institute takes place on Friday at 1.30 p.m. at Hensall.

The last few weeks has shown a remarkable improvement in crop condition in this neighborhood.

The Exeter Volunteers, to the number of thirty, left for Goderich Monday under the command of Capt. Heaman.

A baby yells because something worries it, but a college youth yells because he hasn't any better sense.

The Exeter Band played at the Strawberry Festival of the Fraiser Presbyterian church, Biddulph, last night.

Rev. Peter Nichol of Simcoe is taking Rev. Sharp's work in Caven Presbyterian church, Mr. Sharp being on a holiday in Ottawa.

Councillor Wm. Rivers, who has been quite ill of kidney trouble, is now on a fair way to recovery, but is still confined to his bed.

Mr. Fred Wells is nursing a sore hand these days, the result of blood poisoning, caused by the removal of a wart by caustic burning.

Quite a number of Exeter people attended the Seaforth Races last week. It has been suggested frequently of late that Exeter get in the circuit next year.

More railways for Huron County seem to be the great need in the minds of most people, and all kinds of schemes are being formed to help in securing the roads.

Harry Fuke passed his bank examination last week in good style and was immediately placed with the Bank of Commerce here, commencing his duties Monday.

Miss May Westland, sister of Miss Mellie Westland of Wyoming, was married on Tuesday of last week to Mr. Leslie Travis of Calgary. They will reside in Calgary.

We were in error last week when we stated that Dr. A. R. Kineman was in possession of his brother's auto for a while. The Dr has purchased the car from his brother.

Mr. A. H. Musgrove, M.P.P., and Mrs. Musgrove, Wingham, announce the engagement of their daughter Ethel to Mr. William J. Greer, Wingham. The marriage will take place on June 27th.

The second and third degree teams of the Oddfellows of Exeter Lodge went to Zurich Tuesday evening, and put several candidates through the two degrees, after which they were treated to a lunch.

Lebanon Forest Lodge, No. 133, A. F. & A. M., will attend divine service in the Trivitt Memorial Church on Sunday next, when Wor. Bro. Rev. D. W. Collins will preach a special sermon.

Cultivate kindness of heart; think well of your fellow-men; look with charity upon shortcomings in their lives. Do a good turn for them as opportunity offers, and, finally, don't forget the kind word at the right time.

London Free Press.—The Exeter Band which was with the Chosen Friends excursion took advantage of the opportunity to go over to Hotel Cecil and serenade Mr. Thos. Oke, the proprietor, a former Exeter resident and band player.

The excursion to Port Stanley on Friday last was not as well attended as was expected, probably due to the fact of the cool weather. The day proved to be an ideal one at the lake, however, and all who went thoroughly enjoyed themselves.

Norman, the eldest son of Mr. John Norry, left home Tuesday morning and at the time of going to press his whereabouts is a mystery. He was supposed to be at school Tuesday but did not go. Diligent search has been made at every likely place but his parents can find no trace whatever of him.

Four gypsy women visited St. Marys one day last week, and did a profitable trade in selling lace from door to door. The lace was said to be handmade and was offered very cheaply. A number of ladies fancied they saw a real bargain and purchased amounts varying from five and ten dollars up to forty dollars worth. The lace turned out to be very inferior stuff and machine made.

MARCHED TO CAMP.—The 26th Regiment of Middlesex after detraining at Lucan Crossing on Monday afternoon marched through Exeter on Tuesday morning to the number of about 250, on their way to the Goderich camp. The townspeople were out in large numbers to witness the soldiers on the march. The "boys" were comfortably dressed in Khaki uniform, with straw hats, and the weather was such that the march was no hardship. There were eight companies, the four Indian companies in the lead, and several transport wagons bringing up the rear. The band played a lively air as they marched along, and the regiment seemed to enjoy the march to the camp grounds.

FAREWELL.—On Sunday evening last a large congregation attended the James Street church, when Rev. R. Hobbs gave his farewell talk, closing a three years' pastorate. In the course of the sermon he took occasion to again state his position on the tobacco habit, and stated that the action of the late conferences showed that other ministers were fast falling into line on this question. Although improving fast Mr. Hobbs is not yet able to take up active work, and he and his family will take a lengthy holiday in Muskoka, leaving this week. Rev Mr Yelland will have pastoral charge of the church until Rev. Mr. McAllister arrives during the first week in July.

Mrs. A. Hastings spent a couple of days in London this week.

Mrs. W. D. Clarke and son Gale have returned from a visit in London.

License Inspector Torrance of Clinton was in town on official duty Tuesday.

Will. Snell and Gordon Sanders have returned from Chatham Business College.

Mr. an dMrs. Wm. Dignan and child of Lucan spent Sunday with relatives here.

Mr. J. C. Dignan and son Gerald of Parkhill were visitors with Mr. M. M. Doyle over Sunday.

Mrs. Londesbury of Hamilton and Mrs Ingleby of Brantford are visiting their sister Mrs. Jas. Dignan.

Miss Campbell, whose room in the school has been closed for the examinations, left Tuesday for her home in Goderich.

Miss Lena Glanville leaves to-morrow (Friday) for Vancouver, where she intends making her future home with her father, Mr. H. J. Glanville.

Mrs. McQueen, who has been here with her daughter, Mrs. McGillicuddy for several weeks, left Wednesday for St. Thomas. Mrs. McGillicuddy accompanied her as far as London.

Mr. and Mrs. Ed. Spackman and daughter, Miss Gertrude, while on their way to Zurich to attend the Southcott-Rannie wedding, dropped off here and spent a couple days with the former's parents, Mr. and Mrs. John Spackman.

Miss Stella Gregory returns home this week from Chatham, where she has been re-engaged in the Collegiate Institute at an increase in salary of $50, thus making it $1050. We are in receipt of a neat little booklet called the "Annual Announcement of the Commercial Department of Chatham Collegiate Institute 1912-13" which gives an interesting account of this department, in the work of of which Miss Gregory is engaged.

The James Street League enjoyed a pleasant ice cream social on Tuesday evening.

Hear the Harpers at the Garden Party Rectory Lawn, Trivitt Memorial Church, Friday evening, June 28. Admission 15 and 10 cents.

TWENTY-FIFTH YEAR | EXETER, ONTARIO, THURSDAY, JUNE 27 1912. | SANDERS & CREECH

Local Items

Hear the Harpers at the Garden Party Rectory Lawn, Trivitt Memorial Church, Friday evening, June 28. Admission 15 and 10 cents.

The Conservative government of New Brunswick was returned to power by an overwhelming majority on June 20; 40 Conservatives, 2 independent Conservatives and 2 Liberals were elected. The tide certainly is running strongly in favor of the Conservatives in Canada, and from the present outlook it seems probable that the Liberal Government of Saskatoon will go down to defeat on the 11th of July.

Perhaps a little more than ordinary dissatisfaction exists with regard to the arithmetic and literature papers submitted to Entrance candidates at the recent examinations. The arithmetic paper particularly is condemned as being tricky and not a fair test. Of all examinations that should be fair and practical the Entrance is the most important, as the further education of the boy or girl depends to a large extent on the Entrance results. A fairly stiff paper is alright but a tricky paper is all wrong, and examiners should allow for such in marking.

A rink of bowlers consisting of I. T. Carling, J. W. Bawden, R. N. Creech and S. G. Bawden autoed to Dashwood Friday and won out in a good game against Messrs Siebert, H. Zimmer, E. Tieman and G. Edighoffer, 17-10.

A rink of bowlers consisting of Reg. Elliot, Dr. Moles, and Messrs. Dennis and Hulet autoed up from Norwich on Thursday of last week and played morning and afternoon games. They lost in the first game to Messrs. N. D. Hurndon, S. G. Bawden, R. N. Creech, and I. R. Carling, skip; and won in the second from Messrs. J. W. Bawden, C. B. Snell, W. W. Taman, and Rev. D.W. Collins, skip. The locals were a few up on the two games.

USBORNE'S RURAL MAIL.—J. J. Merner, M. P., of Zurich was in town Friday making arrangements for the carrying out of the proposed new mail route for the Township of Usborne. The matter is now in the hands of a committee, who will endeavor to lay out the various routes so as to be satisfactory to all concerned. Mr. Merner informed the Advocate that the delay in establishing this service has been caused by the incomplete plans of the proposed routes, which, if carried out, would not have given entire satisfaction. The delay, however, will ultimately result in a better and more complete service and give greater benefits to a greater number.

Over 100 tickets were sold at this station for Ringling's circus at London Friday.

I. O. O. F. DISTRICT MEETING.—The annual meeting of Huron District I. O. O. F. was held in Clinton Thursday, June 20, in the Oddfellows Hall, District Deputy Murray of Exeter in the chair. Delegates were present from Hensall, Clinton, Seaforth, Lucan, Exeter and Blyth. The reports were given from the different lodges, all showing an increase in both membership and finance. D. D. G. M. Murray gave a splendid address on the success of his year of office and was glad that the order was so progressive. Mr. G. E. McTaggart of Blyth was then elected D. D. G. M. for the coming term. A resolution was passed, ordering that a letter of condolence should be sent to the widow and son of the late Harry Reid, first Goderich district deputy, of Huron Lodge. The matter of holding a lodge of instruction for this district and the next place of holding the district meeting was left in the hands of the new district deputy. W. J. Murray and T. Boyle were delegates from Exeter Lodge.

NORTHCOTT—SNELL.—A delightful and pretty June wedding was solemnized on Wednesday evening at the home of Mr. and Mrs. Eli Snell, Huron street, when their daughter, Miss Martha L. became the bride of Mr. Joseph Northcott of Hay Township. About fifty guests were present to witness the ceremony, which was performed at five o'clock by the Rev. Mr. Powell, pastor of Main street Methodist church. The bride, accompanied by her father, entered the parlor to the strains of the wedding march played by Miss Gladys Ford, cousin of the bride, and the bridal party took their places before a bank of tastily arranged ferns and flowers, which formed a pleasing background. The bride's gown was particularly beautiful, being made of grey silk mohair, artistically adorned with lace and pearl trimmings. The usual bridal veil completed the costume and she carried a beautiful bouquet of flowers. Both bride and groom were unattended, save little Dorothy Snell, niece of the bride, who acted as flower girl. The ceremony over and congratulations extended to the happy couple a dainty repast was served in the dining room. The bride's travelling gown was of black silk, with black lace hat to match. The presents formed a magnificent array, comprising articles of beauty, value and use. The young couple will take up housekeeping on a farm in Hay township, and in establishing their new home they will have the best wishes of a host of friends for their future happiness and prosperity.

W. J. CARLING

Do not forget the Thursday half-holiday, commencing in July.

The migration to the lake shore is now well on.

Next Monday is Dominion Day, and a public holiday.

The soldiers return from camp on Friday of this week.

Mrs. Thos. White is confined to her room through illness.

We are getting a spell of hot and dry weather just now!

The band furnished music at Clandeboye on Wednesday evening.

Mr. C. Birney has recovered from his recent illness and is again on duty.

Mrs. W. W. Taman entertained a number of lady friends on Monday evening.

The Thursday half-holidays commence next week, and extend over a period of two months.

The James Street choir furnished the musical program at Anderson church Tuesday evening. They do similar service at Clandeboye Thursday night.

The following has reference to the coming pastor of James street church,—Prior to his departure from Blenheim Rev. W. G. H. McAllister was the guest at a farewell dinner of Hum Lee, a young Chinaman, who conducts a local laundry. Hum Lee made all arrangements and invited a number of friends to be present. Both Hum and his brother Yim were a few days ago baptized in his church. Both Mr. and Mrs. McAllister have given the young men much attention and instruction.

Miss Ella Link, who is well-known here, being a sister of Mrs. Fred Bawden, and who left her home near Dashwood about two weeks ago for Saginaw, Mich., entered the hospital in that city and about a week ago had an operation performed on her knee, which she has not had the use for several months, the result of an accident. The operation was a complete success and the patient is expected to return home in the course of a few weeks, much improved, and with bright prospects of a complete recovery. This will be good news to Miss Link's many friends.

GODERICH CAMP.—The shooting contest in which the cup presented in 1911 by The Daughters of the Empire of Goderich for competition among companies of the 33rd Regiment, was won by "E" Company, Exeter, last year, it looks as if "F" Company will again retain the trophy. The "F" and "H" companies have tied this year, with a score of 404 out of a possible 420, but everything points favorable to the Exeter boys winning out.

GRADUATE IN MUSIC.—We congratulate Miss Gladys Blesett, daughter of Mr. and Mrs. W. J. Blesett, on her success this week in graduating at the London Conservatory of Music. Miss Blesett is a musician of rare ability and is deserving of her success. On Monday she took part in a musical program in London, given by the graduating class, and was on the same occasion presented with her associate diploma of the Western University.

Mr. George Armstrong visited in London and neighborhood last week.

Mrs. Roulston and son Verne left on Tuesday for Regina, Sask., to spend a month or so.

Miss Hazel Dignan, milliner, of Kingsville, and Miss Yelland, milliner, of Brantford, and Miss Winnie Huston, milliner, of Hamilton, are home for the vacation.

Misses Ida Marchand and Alma McPherson have returned from Stratford Normal, and Miss Anna Dow from London Normal, each having recently tried their final examinations.

CHILD KILLED ON FARM

A fatal accident happened on the farm of Edward Robinson, Stanley Township, when the seven-year-old son of his daughter, Mrs. Erratt, accidently fell in front of a disc harrow and was killed. The horses and disc were left standing in the field for a few minutes when the little lad climbed to the seat and started the horses with the sad result stated above.

EXETER SCHOOL BOARD

Meeting of the Board held in the Town Hall on Monday, June 17th. Absent F. Wood and J. Armstrong.

The following is the order of business duly submitted and approved.

Per chair—Minutes of previous meeting. Reports of committees,—Supplies—Typewriter ribbon, per Miss Campbell, $1.50; Agricultural Com.—County council petitioning for agricultural instructor for district. Principal's report,—Attendance in H. S. Dept. good, work considerably improving. Examinations held, 17 passing; senior division 3.

Per Gladman and Creech—That principal's report be received.

Per Creech and Gladman—That the following payments be approved. Times, certificates and blanks, 12.55; T. Crews special labor, 6.00; F. W. Gladman, typewriter ribbon 1.50.

Per Gladman and Fuke—That the following refunds be made,—Howard Quackenbush, fees, 3.00; Ethel Case, fees, 1.00.

Per Fuke and Creech—That a special warning be given the boys by the principal against throwing stones on the grounds of the Agricultural Society.

Per Gladman—Adjournment to Friday June 21, at 9 o'clock.

A special meeting was held on Friday June 21st for the purpose of fixing the salaries of teachers for the coming year.

Per Armstrong and Creech—That the salaries of the H. S. Department teachers be increased $25 each.—Carried.

Per Gladman and Creech—That the salaries of the P. S. Department teachers be increased $25 each.—Carried

Adjournment.

J. GRIGG, Sec'y

MASONIC BRETHREN AT CHURCH.

The Masonic Brethren of Lebanon Forest Lodge attended divine service in Trivitt Memorial Church on Sunday morning last when Rev. D. W. Collins, rector of the church, and chaplain of the lodge, preached a very interesting and impressive sermon. The attendance was not as large as usual, owing to the fact that many of the brethren were out of town.

Mr. Collins took for his text the 16th verse of the 5th chapter of St Matthew, "Let your light so shine before men, that they may see your good works, and glorify your Father which is in Heaven"

The preacher stated that he was very pleased to have the privilege and joy of welcoming to the church service the brethren of Lebanon Forest Lodge for the third time during his rectorship here.

The text he had chosen contains certain fundamental principles in connection with humanity. At this time the Lord was just commencing His great work in the world and had gathered a few fishermen about him. Despite the fact that the Roman Empire was at its supremacy and Greek culture was at its height, Christ addressed the fishermen with the words,—"Ye are the light of the World". The statement appears odd when addressed to these uncultured fishermen, but Christ came to the earth to form a society. He gave it a constitution, a life, and intended that it should have perpetuation. The Sermon on the Mount is the basis, constitution and the framework of the new society, and the words of the text indicate this. I wish, he said, to show how these words apply to the Society of the Church and our Masonic Society. By many methods we reveal the light that is within us, and fulfil the injunction of the text. The pyramids in their greatness and exactness of measurements were expressions of the light within the men of those days. King Solomon's Temple expressed King Solomon's conception of beauty. The great mounds, built by the Mound Builders, gave an idea of their notions of God. All through science, literature and art is seen the same idea of letting the light shine.

The growth of civilization is a matter of organization. Thus we have the ancient guilds, and the various parties. The great reason for organization was the danger of dissolution. Men became associated into societies by identity of taste. Thus we have Literary Societies, Fraternal and Benevolent Societies.

The church of Jesus Christ is a family, not by taste, but a family by affinity of nature. You do not choose who will be members. They become united according to the great eternal law of God Himself. The ordinary societies are not intended nor can they take the place of the church.

There is a Masonic light, a Masonic spirit and a Masonic life. There are three great Masonic principles. 1st. The conception of God and the realization of Light. Before a man can be admitted he must profess his belief and faith in God. If there is one thought that we have to fight to maintain to-day it is to keep green the conception and thought of God. 2nd. The world of Nature. God has made many revelations—in works, in words and in Jesus Christ. Nature is intended to reveal God to the world. The mind of God is expressed in the beauty of the flower, the symmetry of a tree, and the music of the noises of nature. Understand God by understanding Nature, and you know we masons are asked to made nature and science our study. To get in touch with God and nature we need quiet, thought and prayer. 3rd. Man. Man know thyself. God himself took the form of a man. When we study ourselves we can understand man in his relation to God.

We can let our light shine in Masonry. Make it strong by quiet, unassuming godliness, good works, good lives, and by glorifying our Father which is in Heaven. The best way we can glorify God is in our lives and our natures. Otherwise our Order is but a painted ship on a painted ocean.

On their return to the lodge room a vote of thanks was tendered the rector, the wardens, and the choir.

DOMINION DAY AT CENTRALIA

The Clinton Stars and Daly's nine,
Two games of baseball are to play
On Centralia park and diamond
While we celebrate Dominion Day.

It is for many years a Gala Day
In Centralia Epworth Park,
With its evergreens an dfoliage—
The grandest—I must remark.

A sumptuous feast of cream and berries
Will be served that afternoon
By the willing hands of ladies
With a dish and brightened spoon.

The tables will be ladened
With the richest of repast,
And each a dish of fresh strawberries
As long as they will last.

There will be races for the children—
Boys and girls with hearts aglow,
Ready, watching, waiting,
For the word to let them go.

The hoosier race, it will be funny,
As we always find it so;
When the birds begin to flutter,
And the drivers holler, "Whoa"

There will be races for the young men
Of two hundred yards and more;
And races for the ladies
Such as never were before.

The Ladies A'd already made
Arrangements for a tent
To serve ice cream and lempnade
If they never make a cent.

Now the tent we have just mentioned
Will be manned by two or three,
Who are very well acquainted
And as genial as can be.

Right welcome to all visitors,
Who they'll be we cannot say.
We assure a pleasant outing
If its not a rainy day.

Don't forget the Ladies A'd Concert
In the evening after eight;
There'll be lots of fun and laughter—
But don't keep "Tootsie" out too late

DEATH OF REV. W. H. BUTT

Rev. W. H. Butt, pastor of Ridout-st. Methodist church, London, died at his home in that city on June 20th. Rev. Mr. Butt, who was in his 64th year, had been confined to his bed for the last four months, but during that time his condition had been such as to warrant hopes of complete recovery, and as late as last Saturday he was progressing as well as could be expected. On Sunday, however, he took a turn for the worse and gradually sank until his death occurred Thursday morning.

Rev. Mr. Butt was born in Bowmanville Sept. 14, 1848, shortly after his parents had moved there from Cornwall. He was educated at Clinton Grammar School, and entered the ministry in 1871. Four years later he was ordained in the Bible Christian Conference at Bowmanville. Since that time he has been stationed in Palmerston, Port Hope London, St. Johns, Glencoe, Chatham, Centralia twice, Wallaceburg, Walkerville, Comber and Springfield, and last year he went to London as pastor of High Street Mission. He just completed his second term at Centralia last year and he was esteemed and respected in this district, and particularly by his congregation at Centralia and Whalen.

The late Mr. Butt is survived by his wife, two daughters, Mrs. J. McLaren of Galt and Miss Laura at home, and six sons—Ethelbert in Detroit; Dr. Butt of Toronto; Andrew, who is preaching on the Byron circuit; John at Springfield; Gordon and Luther at home.

SEIZED THE KEGS.

Goderich, June 21.—An official inspection of canteens on Wednesday evening found everything apparently in proper shape, but License Inspector Johnston and the chief of Police of Goderich undertook a scouting expedition of their own on Thursday evening and nearly caused a riot by seizing six kegs, alleged to contain intoxicants, in the infantry lines. The suspected barrels were hustled on a wagon and the two officers attempted to make off with the wet goods. About 600 militiamen surrounded them and were about to rescue the captured beverages, when the chief of police drew his revolver. Taking advantage of the confusion this caused, the driver whipped up the horses and made for the road. The wagon was pursued by over 200 angry soldiers, and the license inspector was almost torn from his vantage point on it. One of the kegs burst and added to the excitement. The caterers and men are indignant over the affair, and claim that the kegs contained only local option beer, but the license inspector maintains that the liquor runs far over the limit of alcohol, and is preparing to prosecute.

BIRTHS

Hern—In Usborne, on June 23, to Mr. and Mrs. John Hern, Jr., a son.
Copper—In Usborne, on June 20, to Mr. and Mrs Bruce Copper, a daughter
Overholt.—At St. Joseph, on June 17, to Mr. and Mrs. James Overholt, a son.

MARRIAGES

Northcott—Snell—In Exeter, at the residence of the bride's parents, on June 26, Mr. Joseph Northcott to Miss Martha L., daughter of Mr. and Mrs. Eli Snell.
Hughes—Green—In Stephen, on June 19 Miss Nellie, daughter of Mr. and Mrs. Fred Green, to Mr. Edward Hughes of St. Thomas.
Whiting—Holtzmann—In the Evangelical church, Crediton, on June 26th, Rev. Melville Whiting of Parkhill to Miss Olivia, daughter of Mr. and Mrs. J. H. Holtzmann.
Freeman—McGregor—In Seaforth, at the home of the bride's parents, on June 14, Wm. A. Freeman to Miss Jean McGregor of Seaforth.

DEATHS

Butt—In London, June 20, Rev. W. H. Butt, in his 64th year.
Sanders—At Gilbert Plains, Man., on June 17, Carl Elmer, son of Mr. and Mrs. Charles Sanders, aged 16 months and four days.
Bezzo—In Clinton, on June 16, Charles Messias Bezzo, aged 81 years.
Weber—In Mitchell, on June 16, Frederick Weber, aged 76 years and 8 months.
Rutherford—In Mitchell, on June 18th, Margaret Rutherford, aged 75 years.
Smith—In Mitchell, on June 19, Rebecca Smith, aged 75 years, 6 months and 11 days.

PROPERTY FOR SALE

We have for sale the north half of the brick block immediately north of the Town Hall, Exeter, together with the other buildings used in connection with said property, and being at present occupied as a laundry. This property can be bought at a snap. For terms and particulars apply to

DICKSON & CARLING,
Solicitors.

Half Holiday in July and August

We, the undersigned merchants of Exeter, agree to close our places of business at HALF-PAST TWELVE on THURSDAY AFTERNOONS during the months of JULY and AUGUST.

MAKING SAFE INVESTMENTS

HOW ONE MAY INVEST WITH GREATEST PROPORTION OF SAFETY.

There Is No Absolutely Safe Investment Except Relatively Careful Distribution to Place Investor Where Even a Foreign Invasion Cannot Ruin Him.

The articles contributed by "Investor" are for the sole purpose of guiding prospective investors, and, if possible, of saving them from losing money through placing it in "wild-cat" enterprises. The impartial and reliable character of the information may be relied upon. The writer of these articles and the publisher of this paper have no interests to serve in connection with this matter other than those of the reader.

Is there any investment absolutely without risk?

To answer this question one must know exactly what is meant by risk.

I think it is safe to say that for the man who may want to realize on his investments in a hurry there is no absolutely safe investment. Suppose, at the present time, he bought British Consols—a gilt edged investment if there ever was one. Their price is the lowest it has ever been. The yield, however, is only 3.53 per cent.—by no means excessive—for they bear only 2 1-2 per cent. on their par value. Formerly, when they have carried a higher rate they have sold at a price approximately as low, taking yield into consideration. But suppose a man bought these securities and Great Britain was involved in a war with Germany. Why, there would be a sharp drop at once, and if he wanted to, or had to, sell the investor would experience a severe loss.

Or suppose he bought City of Montreal Bonds. A German fleet might sail up the St. Lawrence, and all the combined efforts of the Niobe and Rainbow would not prevent a bombardment of Montreal and a consequent drop in Montreal bonds.

Is an investor never safe? you say. Has he no means of avoiding such a catastrophe?

Of course he has, and the means moreover are in his own hands.

Those who have read this column during the past year will remember the oft-repeated admonition against keeping all one's eggs in the same basket, lest the basket be overturned and all the eggs broken. The wise farmer avoids such a loss by putting his eggs in different crates, each egg in a compartment by itself, so that one might be broken, but the rest escape. Now, that is exactly what the wise investor does. He buys a small amount of Montreal bonds to yield him 4 1-2 per cent. To offset the chance (very remote to be sure) of an invasion of a hostile fleet up the St. Lawrence River, he buys some City of Toronto debentures, yielding 4 1-4 per cent. But as Toronto may, at some future time, be affected by just such an industrial crisis as London, England, is now threatened by, he buys the bonds of Victoria, B.C., and so he spreads his risk. He buys Winnipeg bonds, which is the centre of the grain trade, and those of Yorkton, the centre of a farming district. Then he shifts back to Ontario cities and towns, and so he spreads his risk over a multitude of different and divergent interests. Perhaps, to offset his bonds he buys a few mortgages, and to increase his income he takes on some industrial bonds. But the wise investor is careful to distribute his investments not only over a number of different securities, but geographically over a wide stretch of territory, avoiding too heavy bonds of one class. Then, no matter what happens, he cannot lose everything.

A few years ago the town of Campbellton, N. B., was completely wiped out by fire. An investor whose whole fortune was tied up in the debentures of that town might have been ruined had not the Provincial Government of New Brunswick come to its aid and guaranteed the investors against loss. But if he had had only a tenth, or a twentieth, of his holdings in the debentures of that place he wouldn't have needed to be very uneasy. Although unpleasant, the loss would not have been crippling.

Perhaps another man had some of the Black Lake Asbestos Company bonds, as about 250 Canadian investors had. If he had been wise his loss would not have been severe enough to have caused him the loss of more than a year's interest on all his investments.

But, you say, I have only a few thousand dollars, and I cannot spread that very much. In these days of hundred dollar bonds no one need make that excuse. True, municipalities do not, as a rule, issue such small denominations, but they can be purchased in very small amounts. But, in the case of most municipalities, such a catastrophe as overtook Campbellton is so very remote as to be negligible—a chance of one in fine hundred at the very least. And almost all industrial companies of any account issue debentures of $100 now-a-days, although unfortunately few public service companies have done so as yet. But they all are coming to it.

To anyone who cares to take the trouble, may, with the advice of his investment banker, arrange a distribution of his investments so as always to keep him from apprehension of any unexpected loss of a large part of his savings.

Buying Bonds on the Instalment Plan

You may become a bondholder under our Periodical Payment Plan in precisely the same manner that you become a savings bank depositor—by putting aside money as you can spare it.

Under this plan you may purchase from us the Bond or Bonds that most strongly appeal to you as an investment suited to your purposes, by making a small initial payment and paying the remainder in monthly instalments to suit your income.

In this manner you become a bondholder at once without having to save the face value of the Bonds you want to purchase—and you receive the interest on the Bonds while paying for them.

We should be glad to submit a list of leading Canadian investment securities which yield from 5% to over 6%, which may be purchased on this Periodical Payment Plan.

$645,000,000 FOR A NAVY.

Russian Parliament Passes Bill Providing for Big Expenditure.

A despatch from St. Petersburg says: The Duma on Thursday passed the Navy Bill which involves an expenditure of $645,000,000 in the next five years. This would place Russia second to Great Britain in naval expenditure.

WIRELESS WEATHER SERVICE

All Ships to Take and Relay Weather Observations.

A despatch from London, England, says: The plan of Prof. Willis L. Moore, Chief of the United States Weather Bureau, for the establishment of an international North Atlantic weather service, has been agreed to by the committee of the Radio Telegraph Congress, to which it was referred. This insures its adoption by the Congress. According to the plan as outlined by Prof. Moore, a meridian line will be established through the North Atlantic. All ships on either side of the line must take a daily weather observation, which will be sent by wireless telegraphy to other vessels, and this relayed to the American or European land stations. From these reports weather charts will be constructed and forwarded to the shipping at sea.

TORONTO CORRESPONDENCE

New Head of the Works Department—City Pays Big Salaries—Simcoe's New Member—An Interesting Move.

It is only a few short years since there appeared in the Toronto City Solicitor's office at the City Hall a new office boy. He was so round and well fed that he was immediately nicknamed the 'fat boy from Pickwick." When it was found that his first name was Roland it was immediately cut down to "Roly," and Roly it remains to this day.

The boy's mother was a widow, and had been caretaker of the old city hall for many years. She was very proud of her son, and when it came time for him to be in to do something for himself she had no trouble in getting him a position in one of the offices at the Hall, which she looked after.

NOW GETS $8,000 A YEAR.

To-day that boy is known officially as Mr. R. C. Harris, head of the Works Department of the City of Toronto, and the salary he is to draw is $8,000 a year. He has never held any position outside of the municipal administration of the city. He has never run for office. He has just attended to the business that lay at his hand in his civic service job, and he has got on. Each year has seen a new administration installed, but the good-natured fat boy, and the man he developed into, quarrelled with none of them. At the same time he had initiative to formulate plans and the force to carry them into effect. He was some years getting to be a chief clerk, but from that point his progress has been rapid. The control of one department after another has been put under his control until now he has the management of the chief spending offices of Toronto, which spends more money in a year than does the Government of Ontario.

MANY OTHER GOOD SALARIES.

Mr. Harris' example demonstrates that a successful career is possible in municipal service. And he is not the only Toronto official getting a good salary. The City Treasurer, Mr. R. T. Coady, who is shortly to sail for England to sell more City of Toronto bonds, gets $8,000 a year. The salary of the Mayor is now $7,500; until last year it was $5,000. The Assessment Commissioner gets $5,500. The Medical Health Officer gets $5,000. The City Solicitor gets $4,500. So does the City Architect. The City Clerk and the Chief of the Fire Brigade each receive $4,000. Police Magistrate Denison's salary is $5,000 a year. But the highest priced man in the city's employ is the City Counsel, Mr. H. L. Drayton, K.C., a comparatively young man, who gets $10,000 a year as City Counsel, and draws another $4,000 as the Provincial Government's representative on the Toronto Hydro-Electric Commission, making $14,000 a year in all. This figure, no doubt, explains, in part, why he declined the Chairmanship of the Dominion Railway Board, which, according to report, was offered to him.

TENNIS CHAMPION NOW M. P.

Some local interest has been aroused by the announcement that the vacancy in the Dominion House in South Simcoe, caused by the elevation of Mr. Haughton Lennox to the bench, has been filled by Mr. W. A. Boys. It is recalled that he was for many years one of the leading athletes of Canada, being an expert hockey player and holding for several seasons the tennis championship of Ontario. Mr. Boys is still young—he is only 43—but he has given up tennis and hockey. He has now taken to golf and curling and politics.

MINISTER OF EDUCATION MOVES.

As soon as the new wing of the Parliament Buildings is completed there will be a more than usually interesting moving. The Education Department, which for half a century has occupied quarters in the Normal School building, occupying an entire block between Gould, Gerrard, Church and Victoria streets, will at last make its headquarters with the other departments of the Government in Queen's Park. This will, no doubt, be some convenience to the Minister and the staff, who have been obliged to make a half-hour's journey every time they wished to consult the Premier or the other departments; but it is safe to say that the old Normal School building will be left, with many regrets. The chief educational associations of the Province cluster around the building. The Minister's quarters there have long been famous for their spaciousness and elegance, and it is doubtful if the department will find as much comfort in their new quarters as they are leaving in the old.

The final disposition of the museum and art gallery, which has long been one of the show places of Toronto, has not yet been finally decided. It may remain where it is, or it may be divided between the Art Museum, that now finds a beautiful home in the late Goldwin Smith's old residence, the Grange, and the Provincial University Museum in Queen's Park.

DOMINION DAY.

Canada's own holiday, year after year, passes in Toronto without the slightest celebration of the day as a real national holiday. As many people as can get out of town, and when the day falls on a Monday, as this year, the number is unusually large. Those who remain amuse themselves as best they can. It is safe to say that every canoe, rowboat, bowling green, tennis court, or picnicking site within reach of the city is fully occupied all day. For the owners of the amusement franchises the day is one of the biggest harvests of the year. A fine day will take from 15,000 to 18,000 people to the afternoon ball game alone. Even lacrosse, which is making desperate efforts to get off the down grade to popular favor, may get as high as 10,000 spectators.

But as for a real national celebration there is nothing. No one wants the spread-eagleism of the American Fourth, but many people regret that some effort should not be made to make the day in Canada's second city in a way that would be distinctively Canadian.

THE NEWS IN A PARAGRAPH

HAPPENINGS FROM ALL OVER THE GLOBE IN A NUTSHELL.

Canada, the Empire and the World in General Before Your Eyes.

CANADA.

The silver output in Ontario continues to grow.

J. J. Hill has sent $1,000 to the Guelph Y.M.C.A.

Several kegs of beer were seized in canteens at the Goderich militia camp.

Mr. L. G. Coleman has been made superintendent of the Ottawa Division of the G.T.R.

An outbreak of rabies has occurred in Goderich township, one young man being badly bitten.

Oliver Buckingham, twelve years of age, was instantly killed in a warehouse elevator at Brandon.

Joseph Fortin, aged eleven, was killed by an auto in Ottawa. He jumped off an ice-wagon in front of it.

Inland revenue returns indicate that the consumption of liquor and tobacco in Canada is rapidly increasing.

Mrs. Charles Ewart took a fatal choking spell on a B. of Q. train while going home to Tweed from Kingston.

Premier Gouin of Quebec, has been named Grand Officer of the Order of Leopold II. by the King of Belgium.

Mr. Justice Greenshields awarded $3,000 damages to Mrs. Morin, daughter of the late Father Charles Chiniquy, in her libel action against Joseph Begin, editor of La Croix.

Frederick Seybold, found guilty of beating Margaret Burney to death with a curtain pole, while in a drunken fight, got off with a six months' sentence in the Montreal jail.

The Canadian Pacific, Grand Trunk, Canadian Northern and Great Northern railways have on order, to be delivered before October 1, an aggregate of over 18,000 box cars, 200 locomotives, 1,000 refrigerator cars, and 1,400 coal cars. Manufacturers of railway rolling stock in Canada and the United States can't guarantee to fill other large orders this year.

GREAT BRITAIN.

The dock strike at Southampton has ended.

The Prince of Wales attained his majority on Sunday, being then eighteen years of age.

During the removal of the plaster ceiling and oak panelling of the Jacobean room in the famous Reindeer Inn at Banbury, workmen discovered a double flint lock horse pistol, inlaid with gold, inscribed: "Presented to Dick Turpin at the White Bear Inn, Drury Lane, Feb. 17, 1735."

UNITED STATES.

Hugh Sargeant, an aviator apprentice, was killed at Hamstead, N.Y. He came from New Zealand and was wealthy.

SAVED FROM DROWNING.

Ship's Steward at Montreal Did Good Work.

A despatch from Montreal says: What would have proven a triple drowning was prevented on Wednesday by the pluck of Albert V. Marsh, a steward of the Allan liner Victorian. While walking along by the river front at Dominion Park, he, with several others, noticed that a small motor launch had capsized some distance from the shore, and two men were hanging on to her. A man ran to the water, jumped in, and started swimming out to them, but before he got half way he collapsed and began to sink. Marsh, seeing this, went down to the water and swam out to him, bringing him back. Taking to the water again, Marsh went to the capsized boat, took one of the men off and brought him to shore. By this time the other man had become exhausted and dropped off the boat, so Marsh again went to his assistance, and brought him ashore. Marsh has already received three medals from the Royal Humane Society of England. He has now saved a total of nine lives in one way or another.

EXTERMINATION OF RATS AND MICE.

If it were generally known that there is no trouble to rid a house, barn or any building of rats and mice by the use of Gillett's Lye, it is doubtful if the article could be made as fast as it would be used for this purpose alone. The process connected with using it is very simple, the plan being to sprinkle a little of the article in and around the holes made by these pests in floors, partitions, etc. In addition to this it is well to use a thin piece of board about a foot square, or even smaller, and make a complete circle of the lye on the board about a quarter of an inch deep, and inside of the circle place some meat or cheese. In endeavoring to get at the bait the feet of the rats and mice will be burned, and the whole colony, whether large or small, will immediately disappear from the premises.

The plan is worth trying, but the good kind—Gillett's Lye—should be procured. Refuse the many cheap imitations and substitutes.

AERIAL COLLISION LATEST.

Two French Birdmen Meet in Flight and Both Are Killed.

A despatch from Douai, France, says: Captain Dubois and Lieut. Albert Peignan, both officers in the French army, and trained airmen, met tragic deaths on Wednesday morning when the biplanes they were piloting round the military flying grounds collided with terrific force in midair. The officers, who were close friends, were unable to perceive each other while flying through the early morning haze.

THIRTY MILLION BUSHELS.

What Mr. Chamberlin Expects G. T. P. to Haul This Year.

A despatch from Montreal says: Mr. E. J. Chamberlin, President of the Grand Trunk Pacific and Grand Trunk Railways, made an estimate on Wednesday of the amount of grain the Grand Trunk Pacific would probably haul out of the prairie country this year. Against 18,000,000 bushels brought out last year, he believed that the figure this year would be nearer 30,000,000.

MANSION FOR PICKERING.

Lord Somers to Have a Big Home Erected.

A despatch from Cobourg says: Martin Jex & Co., contractors, of this town, have sent a large force of men and part of their plant to Pickering, where the firm will erect a large residence for Lord Somers, who recently purchased a fruit farm there.

BOAT BREAKS CANAL LOCK

Vessel Runs Amuck at Thorold and Three Children Drowned

A despatch from St. Catharines says: Three young lives were lost and thousands of dollars' worth of damage done at Lock 22 on the new Welland Canal on Thursday afternoon, when the Government survey steamer La Canadienne crashed into the head gates of the lock, which were carried away. In the onrush of water from the level above the steamer was thrown back against the rear gates, smashing and pulling them out with her, thus giving the water in the entire level above free scope to rush through to the short level below. The mighty rush of water carried the vessel back with it more than a hundred yards, landing it on the easterly bank of the canal, where the rough, stiff bottom severely punctured the hull, causing the expensive vessel to settle to the bottom of the canal. At the time of the accident five young lads from Merritton were playing near the west weir of lock 21. With hardly a moment's warning the water from lock 22 level was hurled down upon them, carrying three of the boys as it would so many weeds over the embankment and into the waters of the waste weir, fifteen feet below. The unfortunate lads who lost their lives were Willie Jacke, aged five years; Willie Wallace, sometimes called Tiffany, about the same age, and Leonard Bretherick, aged four. Dave Bouck, a few years older, was rescued by Hugh Maguire of the Government Survey staff, who was with his gang working on the Welland ship canal route in that vicinity. George Bretherick, an elder brother of one of the lads drowned, managed to save himself by running towards and gaining shelter in the lockhouse of lock 21. Water from the upper lock tore away the bank along the waste weir and did damage to the roadway along the side of the canal and surrounding the country as far as lock 18. The Grand Trunk tunnel near lock 17 was flooded and entirely filled up. This alone will cost the Government thousands of dollars.

PRICES OF FARM PRODUCTS

REPORTS FROM THE LEADING TRADE CENTRES OF AMERICA.

Prices of Cattle, Grain, Cheese and Other Produce at Home and Abroad.

BREADSTUFFS.

Toronto, June, 25.—Flour—Winter wheat, 90 per cent. patents, $4.20 to $4.25, at seaboard, and $4.25 to $4.30 for home consumption. Manitoba flours—First patents, $5.70; second patents, $5.20, and strong bakers', $5, on track, Toronto.

Hogs—Market steady at $8.25 to $8.30 f.o.b., $8.60 to $8.65 fed and watered, and $8.85 weighed off cars.

SUFFRAGETTES AND GEORGE.

Chancellor of Exchequer Victim of a Demonstration.

A despatch from London says: A savage attack on David Lloyd George, Chancellor of the Exchequer, was made on Wednesday by a small band of Suffragettes outside of Caxton Hall in the Westminster district, but beyond knocking off the Chancellor's silk hat, the women did no damage. A number of detectives, who were following the Minister, seized and held the militant Suffragettes while Mr. Lloyd George jumped into a taxi-cab and drove off. The women were then released.

An Absolutely Safe 6% Investment

¶ The First Mortgage Bonds of Price Bros. & Company 6 per cent. on the investment—secured by first mortgage on one of the finest paper mills and over four million acres of the best pulp and timber land in America—insured with Lloyds, of London, England, against fire—offer a most attractive investment. The present net earnings of the Company are sufficient to pay the bond interest twice over. The growing demand for pulpwood is yearly increasing the value of the Company's properties. These bonds have been purchased by the best informed financiers in both Canada and England. At their present price they yield 6 per cent interest. Considering security, earnings, assets, and the likelihood of appreciation in value, Price Bros. & Company bonds constitute an exceptional investment.

SEVERE NEURALGIA

Cured Through the Use of Dr. Williams' Pink Pills

There is an excellent reason why Dr. Williams' Pink Pills have cured the most severe cases of neuralgia, sciatica and other complaints in the group known as disorders of the nerves. This group also includes St. Vitus dance, partial paralysis and the common state of extreme nervousness and excitability. Each of these complaints exists because there is something the matter with the nervous system. If the nerves have tone and are strong and healthy you will not have any of these complaints. The reason why Dr. Williams' Pink Pills cure nervous disorders is, that they restore weak, run down nerves to their proper state of tone. They act both directly upon the blood supply and the nerves. The highest medical authorities have noted that nervous troubles generally attack people who are bloodless and that the nerves are toned when the blood is renewed. It is thus seen that Dr. Williams' Pink Pills cure nervous disorders by curing the cause of the trouble. The following is an instance. Miss Annie Jones, London, Ont., says:—"For over a year I was an intense sufferer from neuralgia, which located in my face and head. The pain at times was so intense that I could scarcely keep from screaming, and nothing I was doing for the trouble seemed to help me. As time went on my whole nervous system was affected. At last when I felt that my case was almost hopeless I was advised to try Dr. Williams' Pink Pills. The result of this treatment was that I am now enjoying such comfort as I had not known for years, and only those who have suffered from neuralgic pains can realize what a blessing the Pills have been to me."

If you are suffering from any blood or nervous disorder begin to cure yourself to-day with Dr. Williams' Pink Pills, which you can get from any medicine dealer or by mail at 50 cents a box or six boxes for $2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

DIDN'T WANT TO ARGUE.

Saxon—It's a fine morning, Sandy. (Sandy grunts.) Saxon—I said it was a fine morning, Sandy. Sandy—Verra weel, verra weel. I dinna want tae argue.

As a vermifuge there is nothing so potent as Mother Graves' Worm Exterminator, and it can be given to the most delicate child without fear of injury to the constitution.

Nearly 100,000 women in New York City consume no fewer than 35,000,000 cigarettes a year.

Keep Minard's Liniment in the house.

HIS BOOK.

"Now here is a book," exclaimed the seedy man as he dashed into the banker's private office. "Don't want any books," grunted the banker. "But this one you can't help being interested in." "Haven't time to read books, and—" "But I am sure you will take this book," persisted the seedy man. "Look here, sir, do you intend to leave this room, or must I—" "Don't need to call the porter; I'll go. This is your book, though." "My book!" "Yes; your pocketbook. I found it in the hall." Then he vanished.

Eczema Always Burning and Itching

Mr. N. Ostiguy.

Used Box of Cuticura Ointment and It Completely Disappeared.

"I have suffered from eczema for two years. The trouble began on one arm where there appeared a red spot of about a five-cent size, and it always widened, all the time itching and burning. The first days I didn't care, but seeing that it gained in size, I tried —— Ointment and —— Ointment, but both without success. It was always burning and itching. Having seen in the newspaper the advertisement of the Cuticura Remedies, I tried a little, and seeing that it improved, I bought a box of the Cuticura Ointment. After having used one box, my eczema completely disappeared. The Cuticura Ointment should be kept in every home." (Signed) N. Ostiguy, Marieville, Que., Jan. 14, 1911.

A Generation of Success

For more than a generation Cuticura Soap and Cuticura Ointment have afforded the speediest and most economical treatment for itching, burning, scaly and bleeding skin and scalp humors, of young and old. A single set is often sufficient. Sold by druggists and dealers everywhere. For a liberal sample of Cuticura Soap and Ointment, post-free with 32-p. book on skin eruptions, send to Potter Drug & Chem. Corp., sole props., 27 Columbus Ave., Boston, U. S. A.

NEW DISCOVERY IN AVIATION

French Military Believe They Can Prevent Many Accidents.

What promises to be a scientific discovery of the highest importance in aviation is now being investigated by the French military authorities. It will be remembered that Lieut. Seville lost his life while flying at Pau a few weeks ago. Examination of the wrecked machine, proved that the wing of Seville's monoplane broke downward instead of upward, showing that the pressure of air came from above instead of from underneath, as has been hitherto supposed was the case in fatal accidents. Experiments have now corroborated the theory that a downward dip of a monoplane throws a greatly increased air pressure upon the surface of the wing. Heretofore the main strength of the wire stays has been devoted to preventing the wing buckling from pressure on the under surface, while no stays have been thought necessary to counteract pressure from above. The official commission believes many accidents have been due to insufficient protections from air pressure on the upper surface of the wings, and this is now being remedied in all French army aeroplanes.

ENGLAND WARRING ON FLIES.

Campaign Started Now in Hope of Preventing Plague.

War, determined and grim, is being waged in England against the house fly. This is the time of year, it is said, that war, if it is to be successful at all, may prevent a plague in the autumn.

The house fly, it has been urged by "experts," carries more disease from house to house than any other living thing in existence. The fly, they say, serves no useful purpose whatever; it is a pest, and nothing more. Its breeding powers are enormous. The fly to-day may yield millions by the autumn, and so everybody is asked to help in its extermination.

In schools the pupils are being taught all about the dangers of the fly and how to kill it, and householders are warned by the sanitary authorities that no labor expended upon its extermination will be thrown away.

DOCTOR'S SHIFT.

Now Gets Along Without It.

A physician says: "Until last fall I used to eat meat for my breakfast and suffered with indigestion until the meat had passed from the stomach.

"Last fall I began the use of Grape-Nuts for breakfast and very soon found I could do without meat, for my body got all the nourishment necessary from the Grape-Nuts and since then I have not had any indigestion and am feeling better and have increased in weight.

"Since finding the benefit I derived from Grape-Nuts I have prescribed the food for all my patients suffering from indigestion or overfeeding and also for those recovering from disease where I want a food easy to take and certain to digest and which will not overtax the stomach.

"I always find the results I look for when I prescribe Grape-Nuts. For ethical reasons please omit my name." Name given by Canadian Postum Co., Windsor, Ont.

The reason for the wonderful amount of nutriment, and the easy digestion of Grape-Nuts is not hard to find.

In the first place, the starchy part of the wheat and barley goes through various processes of cooking, to perfectly change the starch into dextrose or grape-sugar, in which state it is ready to be easily absorbed by the blood.

The parts in the wheat and barley which Nature can make use of for rebuilding brain and nerve centres are retained in this remarkable food, and thus the human body is supplied with the powerful strength producers, so easily noticed after one has eaten Grape-Nuts each day for a week or 10 days.

"There's a reason," and it is explained in the little book, "The Road to Wellville," in pkgs.

Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human interest.

BANKS REPLACE SALOONS.

We are abolishing public houses, but we are increasing banks. A writer has put a question as to the number of banks between the Euston Road and St. Albans, and on the south side between the Elephant and Croydon. Half a century ago there was not one. It was the London and Westminster that first set up a bank for the small man. And now you can hardly pass a street corner without the appeal of the bank. The change of the street corner site is suggestive of other changes.—London Chronicle.

"You must take exercise," said the physician, "and, by all means, worry less. Play golf." "Doctor," replied the patient, "you mean well, but a man who plays any kind of a golf game can't help worrying."

Minard's Liniment Lumberman's Friend.

AN EXCELLENT REMEDY FOR LITTLE ONES

Mrs. John C. Lepage, Rimouski, Que., writes:—"Your Baby's Own Tablets are an excellent remedy for little ones and I always keep them in the house." Thousands of other mothers say the same thing. The Tablets always do good—they cannot possibly do harm. They are the only medicine for children sold under the absolute guarantee of a government analyst to contain no opiates or harmful drugs. They sweeten the stomach; regulate the bowels; break up colds; expel worms; cure indigestion and promote healthful sleep. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

THE CIVILIZING RAILWAY.

In Senegal and Southern Nigeria, and the other French and English colonies of West Africa that lie between them, there are now 11 railways either running or building. Nearly all lead into the hinterland from some port on the coast. In every instance the introduction of the railway has not only increased the trade of the colony, but has exercised a beneficial effect upon the West African natives. Those who formerly were often engaged in intertribal warfare have become peaceful traders or farmers, and many of the natives are filling subordinate positions upon the various lines. The railways have accomplished the complete pacification of colonies that were once warlike and quarrelsome.

Pills of Attested Value.—Parmelee's Vegetable Pills are the result of careful study of the properties of certain roots and herbs, and the action of such as sedatives and laxatives on the digestive apparatus. The success the compounders have met with attests the value of their work. These pills have been recognized for many years as the best cleansers of the system that can be got. Their excellence was recognized from the first and they grow more popular daily.

ORIGIN OF CHIMNEYS.

Earliest Mention of Their Existence Made in 1347.

In the excavations at Pompeii and Herculaneum no discovery appears to have been made of anything approaching the nature of the modern chimney.

The earliest mention of the chimney seems to be in an ancient Venetian inscription over a doorway, where it is written that in 1347 certain chimneys in that location were demolished by earthquakes. It is by conjecture only that we are able to say that the chimney was known in ancient Italy. Seneca, who lived during the first century of our era, invented a species of tube which he affixed to the length of the wall, and it seems to have run through floors.

Through this the heat passed from subterranean ovens called "hypocausts," of which remains were found in buried cellars of houses built on the Bay of Naples. But in this there is no evidence of any chimney in the modern sense or even of any kind of stove. Before the invention of the chimney fires were made in excavations or pits opened beneath the floor of habitations in about the centre of the room, as the Eskimos do to-day. The hearth of the ancient Romans was in the porch, but the fires lighted there were not designed to make houses habitable, seemingly, but were merely an indication of hospitality to friends. The houses, which occasion called for heat, were furnished with firing-pan and bellows, carried from room to room by slaves. This was in more or less constant operation day and night in very cold weather. In the early centuries of the middle ages there seems to have been an attempt made to perfect the very elementary fashion of house-warming.

Before the seventeenth century there is no direct evidence available that a satisfactory method had been found to evacuate gases liberated by combustion.—Harper's Weekly.

"My dear," said Mrs. Henpeck, "I'm positive that our George is thinking seriously of matrimony." "Well, I only hope so," returned Henpeck with unusual spirit. "I wouldn't want any boy of mine to be so unfortunate as to regard it as a joke."

A GREAT WAR SHIP.

Britain's Fastest, Largest and Costliest Named The Lion.

Great Britain's largest, fastest and costliest armored war ship has just been placed in commission. The monster battle cruiser has been named the Lion. Her length is 660 feet, her displacement 26,350 tons, her speed, designed for twenty-eight knots, is likely to reach thirty-two knots. Her turbines are of 70,000 horse power. As for her cost it reaches the enormous sum of $10,000,000.

For such a sum twenty years ago could have been built a first-class battleship, four good-sized cruisers and a dozen torpedo craft.

For such a sum to-day could be built some 2,000 aeroplanes, any one of which could with impunity drop bombs upon the Lion and put her out of action.

ZAM-BUK AND OUTDOOR LIFE.

Every tennis or ball player, every swimmer, every canoeist, every man or woman who loves outdoor life and exercise, should keep a box of Zam-Buk handy.

Zam-Buk is a purely herbal preparation, which, as soon as applied to cuts, bruises, burns, sprains, blisters, etc., sets up highly beneficial operations. First, its antiseptic properties render the wound free from all danger from blood poisoning. Next, its soothing properties relieve and ease the pain. Barbed wire scratches, insect stings, skin diseases, such as eczema, heat rashes, ringworm, babies' heat sores, chafed places, sore feet—are all quickly cured by Zam-Buk. All druggists and stores. Use Zam-Buk Soap also; 25c. per tablet.

THE DREAD OF OBSCURITY.

"Do you think it possible to love your enemies?"

"Not exactly," replied Miss Cayenne. "Yet many of us ought to feel rather grateful to our enemies as the only people who take a real interest in us."

They Cleanse While They Cure.—The vegetable compounds of which Parmelee's Vegetable Pills are composed, mainly dandelion and mandrake, clear the stomach and intestines of deleterious matter and restore the deranged organs to healthful action. Hence they are the best remedy for indigestion available to-day. A trial of them will establish the truth of this assertion and do more to convince the ailing than anything that can be written of these pills

INDEPENDENT.

Chief Clerk (to office boy)—Why on earth don't you laugh when the boss tells a joke?

Office Boy—I don't have to; I quit on Saturday.

When Your Eyes Need Care

Try Murine Eye Remedy. No Smarting—Feels Fine—Acts Quickly. Try it for Red, Weak, Watery Eyes and Granulated Eyelids. Illustrated Book in each Package. Murine is compounded by our Oculists—not a "Patent Medicine"—but used in successful Physicians' Practice for many years. Now dedicated to the Public and sold by Druggists at 25c and 50c per Bottle. Murine Eye Salve in Aseptic Tubes, 25c and 50c.
Murine Eye Remedy Co., Chicago

Lots of people stir up strife by preaching harmony.

Ask for Minard's and take no other.

HE KNEW.

"Can you tell me, my boy," said the prim teacher, "why the race is not always to the swift?"

"Yes'm," said the little boy, promptly, "it's because sometimes their tires bust."

For Frost Bites and Chilblains.—Chilblains come from undue exposure to slush and cold and frost-bite from the icy winds of winter. In the treatment of either there is no better preparation than Dr. Thomas' Eclectric Oil, as it counteracts the inflammation and relieves the pain. The action of the oil is instantaneous and its application is extremely simple.

GETTING BACK.

"What is a counter-irritant?" asked Mrs. Smithers.

"A counter-irritant," replied Smithers, "is a woman who makes the shopman pull down everything from the shelves for two hours and then buys a penny-worth of hairpins."

In area the United States exceeds 3,000,000 square miles.

THURSDAY, JUNE 27, '12

The people of the United States should be able to take a proper measurement of Roosevelt now. His overwhelming confidence in himself must also have celved a good jolt.

And now it will be the Democratic National convention that will occupy the front pages of the newspapers. Although there are many candidates William Jennings Bryan stands a good chance of receiving a fourth nomination.

Roosevelt got just what every "butter-in" should get. After a dirty, mud-slinging campaign for the Republican nomination and failing to beat Taft he now threatens to disrupt the party. When a man goes to that extreme it simply shows that the delegates did right to turn him down, although he has a large following. Roosevelt always did look like a "four-flusher" from this side of the line.

NEWS OF THE WEEK

Word has been received that Rev. Geo. W. Sparling and family are coming home on furlough from the Chinese Mission field and sail on June 25th from Shanghai. It is expected that they will arrive in St. Marys about a month later.

A petition is being circulated in the interests of S. S. Cooper of Clinton, who was sentenced by the County judge recently at the Sessions of the Peace. The petition sets forth that the evidence presented at the trial did not justify the verdict of the jury, and, further, that Mr. Cooper has been severely punished already by the taking away of the license of his hotel and in other ways.

The hero of Ladysmith, Sir. George White, died Monday at his home in Chelsea, Eng. He went through the Indian Mutiny in 1857. In the Afghan War in 1879-80 he won the Victoria Cross. It was in this war that when his men halted through exhaustion he advanced alone and shot the opposing general dead. He single-handed road straight up to the muzzles of the Afghan cannon at Kandahar and captured one with his own hands. He defended Ladysmith in the Boer War for 119 days.

The four circus youths, who pleaded guilty two weeks ago to a charge of burglary at Seaforth, were let go on suspended sentence by His Honor Judge Doyle at Goderich. Through the instrumentality of Sheriff Reynolds work has been secured in town for three of them, while the fourth, at the request of his mother, will remain in custody until money is forwarded to pay his railway fare home. From inquiries made by Crown Attorney Seager, it was learned that the offence they committed at Seaforth was the first time they had gone wrong.

ALLEGED BURGLAR IS COMMITTED AT CLINTON

Clinton, June 25.—The young man, who it is suspected made an entry into several stores here on Friday night last and was captured by Provincial Constable Whitesides of Hensall on Saturday night while trying to change small silver for bills, was committed for trial last evening before Magistrate Andrews. The evidence was overwhelmingly against the prisoner, he having in his possession, such articles as opera glasses, postage stamps, etc., which W. D. Fair & Co., handle, and into whose store the burglar entered. The police of Goderich think the prisoner is the man they want for a burglary at Goderich a week ago.

CHISELHURST

Mr. William Kinaman left for Elbow, Sask., on Tuesday morning to visit his sons and daughters there.—Mr. and Miss Regan of Constance spent the week end with Mr. F. O'Brien and family.—Miss Mills Allen of Cromarty and Miss Annie Wren of Guelph are visitors at Geo. T. Wren's.—Mr. Driver has leased the Leach farm for a term of years.—Sunday next the Rev. J. E. J. Millyard will preach his farewell sermon. We regret very much his leaving us. But we extend a hearty welcome to our new minister, Rev. Hicks of Crediton.—There is also service in the Presbyterian church here, the Rev. Shaw of Egmondville having charge of the services.

SAINTSBURY

Mrs. John Brownlee of Watford is visiting friends around here.—Leverne Alexander and sister, Eva, of Wanstead are the guests of friends here.—Mr and Mrs. Jos. Atkinson of Wheatley are visiting the latter's parents, Mr. and Mrs. Jas. Isaac.—Mrs. Garfield Needham of Bryanston is the guest of her parents, Mr. and Mrs. Rich. Hodgins.—Mr and Mrs. Alex. McDonald spent a few days of last week in London, where they attended the marriage of Miss Annie McDonald, the former's sister.—Mr. Francis Davis had a horse badly cut about the hind leg by a wire fence on Tuesday. It will be some time before the horse will be of service to the owner.—Mr. Phin. Dickins has raised his barn and placed a foundation under it.

WHALEN

Among those who visited here Sunday were the following.—Mr. and Mrs. Chas. Hooper of Exeter, Mr. and Mrs. Arthur Gunning of Kirkton, Mr. and Mrs. Harvey Sutherby of London, Ernest Hobbs and sister, Maggie, of Devizes, Mr. and Mrs. Russell Skinner and her mother, Mrs. Hodgson of Elimville, Mrs. David Parkinson of St. Marys.—Mrs. Wm. Gunning, who has been very ill of late, is somewhat improved this week.—The farmers around here have started cutting their clover hay and it is a splendid crop this year.—The anniversary services held here on Sunday were largely attended at both services. Rev. Blatchford preached in the morning and at the close of the sermon referred to the sad death of Rev. W. H. Batt. Mr. Butt, while pastor here, won a place in the affections of all this congregation and the sincerest sympathy is extended to the family.—Miss Nettie McNaughton was the guest of Miss Bessie Morley over Sunday.

Dashwood

John Schroeder was rushed to Victoria Hospital, London, on Saturday evening as a result of having burst a blood vessel. Mr Schroeder was on his way home, when a blood vessel in his head suddenly burst. He lost considerable of blood before he could get the wound tied up and as soon as possible went to the hospital. He is at present doing nicely and will, it is expected, be able to come home in a few days.

A rink of Exeter bowlers gave a rink of Dashwood men a friendly game on the local green last Friday, resulting in the visitors being a few shots up.

Our auto bus took a large load to the Ringling circus in London Friday.

Mr. Owen of London, agent for Bawden & Bawden, real estate dealers of Exeter and London, was in town on business Monday.

Quite a number of our people took in the Crediton excursion to Goderich Monday and report having a good time.

Crediton

Monday was Civic Holiday in town. Things were quiet during the day.

Mrs. Harry Wind and family and Mrs Perry of Detroit, Mich., are visiting their parents in town for a few weeks.

The Annual Children's Day Festival was given in the Evangelical church on Sunday evening. A large number were in attendance. The altar in the church was beautifully decorated with flowers, palms and drapery for the occasion. All enjoyed the program which was well rendered and a treat to hear. Receipts amounted to $36.

Art. Holtzmann of the Northwestern College, Naperville, Ill., and Miss Pearl Holtzmann of the Deaconess Hospital, Chicago, are home visiting their parents, Mr. and Mrs. J. H. Holtzmann.

Mr. and Mrs. Geo Banks of Detroit, Mich., returned to the city on Saturday.

Samuel Brown has received his Reo auto. It is a large roomy car, big enough for the whole family and a dandy machine.

Mr. Beaton of the Zurich school presided over the entrance examinations in our school during the latter part of last week.

The Misses Muriel Nicholson, Myrtle Lawson and Pearl Halst were in London on Tuesday trying their musical examinations in connection with the conservatory of music.

Ira S. Brown spent last Sunday in Toronto with friends.

Mr. and Mrs. Harry Rapley and daughter of Marietta, Ohio, are visiting Mr. and Mrs. Wm. Lewis.

Mr Ben Winkenwetter of Naperville, Ill., visited Mr. and Mrs. August Hill on Sunday.

Last Saturday the Methodist church Sunday school picnicked at Grand Bend. A good crowd was in attendance and all had a very enjoyable time.

We are pleased to see Fred Young at the store again. Although not strong enough to do much business, his friends are indeed glad to know he is making rapid progress.

The Sunday School excursion which was run to Goderich on Monday under cas turned out a decided success. Over 280 people from here and places up the line went to see the sights in the county town. The day was ideal, plenty of room in the train and everything passed off without a hitch. The train arrived and all went to the Harbor picnic grounds where lunch was had. Soon thereafter the excursionists went down the break-neck steps, crossed the temporary bridge and climbed the steep bank to the top of Airgill's property. To see some of our stiff-jointed people climb that bank was a funny sight but they got up. Our people were in time to see the different companies assemble and march, headed by different bands. Quite a number of acquaintances were seen in the 33rd Regiment and many felt proud of their soldier friend. After a pleasant time at the camp the crowd crossed the river again and went to the Agricultural Grounds, where our base ball boys played a good game of ball with the Goderich team, winning out with a score of 9-7. Unfortunately the Goderich pitcher was hit in the eye by the ball glancing off the bat when striking. Otherwise the game passed off splendidly. It was soon 8 o'clock when the special train pulled out for home. This is the first time an excursion has been undertaken by the Sunday School for a distant point, and we feel it will not be the last.

A number from here attended the Masonic service in the Trivitt Memorial Church, Exeter, on Sunday.

Last Friday was circus day and a large number from here went to London to enjoy the sights.

On Friday evening a number of young ladies met at the home of Miss Olivia Holtzmann and presented her with a linen shower, on the occasion of her approaching marriage. An address was read by Mrs. Herb. Eilber, after which Miss Della Brown presented her with some beautiful pieces of linen. The evening was then very pleasantly spent by all.

FARQUHAR

Mr. David Cottle of Usborne has purchased Mr. R. D. Roy's farm near Russeldale.

Mr. and Mrs. Jos. Vance of Brinton spent the past few days visiting in this vicinity.—Mr. and Mrs. Arthur Campbell spent last Saturday and Sunday with friends in Stratford.—Mr. Fred Borland is spending his vacation under the parental roof.—Mr. Henry and Miss Annie Passmore are visiting friends at Sault Ste Marie, Ont.—Mrs. John Allison, Sr., and daughter, Mrs. Charles Harris have engaged a cottage at Grand Bend for a time.—Mrs. Sailor nee Jennie Armstrong, visited on Thames Road last week.—Mr. S. Lamport visited his father at Denfield Saturday and Sunday.—Quite an interesting game of baseball was played on Saturday evening between the Boundary and Plugtown teams, resulting in favor of the Boundary—9 to 6. The return match is to be played at the picnic on Friday 28th. A game is also expected between the married and single men of the neighborhood.—Mr. Wm. Polen is improving his premises by the construction of a cement veranda and steps in front of the Temperance House.

Beware of Ointments for Catarrh that Contain Mercury,

as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten-fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly on the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. CHENEY & CO. Testimonials free.

Sold by all Druggists. Price 75c. per bottle.

Take Hall's Family Pills for constipation.

CENTRALIA

Sale Register—On Thursday, July 4—House and lots and household effects, the property of Wilbert Luker, jr., Centralia. Sale at one o'clock.

The Ladies' Aid of the Centralia Methodist Church purpose holding a first-class concert on the evening of July 1st. Mr. Owen A. Smiley, the celebrated entertainer of Toronto, and Mrs. McGuire of Seaforth will assist in the program. Hear what Toronto Saturday Night says:—"Mr. Owen A. Smiley, with his recitations, poems, stories and musical monologues, either selected or written by himself, provided the very ingredients necessary to make a perfect evening. His success was undoubted."

Messrs John Dempsey and R. Quinton had an unpleasant experience Friday of last week. While driving their horse became frightened of an auto and turning sharply on the road broke a shaft, and after running some distance collided with a tree. Mr. Quinton jumped when the shaft broke but Mr. Dempsey kept his place until they struck the tree, when he was thrown out and sustained two broken ribs.

Quite a large number took in the excursion to Goderich on Monday and report having a good time.—Quite a large number took a drive to the Bend on Sunday.—Mr. John Wilson visited in Bayfield and Goderich on Sunday and Monday.—Mr. Frank Colwill and S. Andrew left Tuesday on a trip to the West.—Mr. John Mitchell is spending this week with friends at Arkona and Thedford.—Mr. George Stanley of Lucan occupied the pulpit of the Methodist church on Sunday evening and preached a very acceptable sermon.—Special arrangements are being made for the 1st of July, and a first-class time is assured.—Mr. Aldworth and wife left on Sunday for their home in Waterloo.—The Misses Wilson spent Sunday with relatives near Atwa Craig.

Little Miss Jean Spencer of St. Thomas is the guest of her aunt Mrs. W. H. Mills.

ELIMVILLE

Rev. and Mrs. Steadman and family returned home last Thursday, after spending a couple weeks with Mr. Steadman's father at Petrolea.—The Hunter family held their annual picnic on Tuesday in Mr. Geo. Hunter's bush. The weather was ideal and a large crowd gathered to enjoy themselves.—Mr. and Mrs. Tyndal of Seaforth visited Mr. and Mrs. Jas. Earl for a couple of days last week.—The trustees have completed the fence around the graveyard and parsonage, and have put up new gates at the church, which adds greatly to the appearance of the property. Elimville can now boast of one of the finest country churches in Western Ontario.—A large crowd of young people took in the circus at London on Friday last and report a good time.—Mrs. Henry Coultice left on Tuesday morning for Harwell, Sask. Mrs. Coultice has been in poor health for a long time and she has gone west to see if a change of climate will do her any good.—Bruce Cooper wears a broad smile now—its a girl.—Jutes Mills and Miss Knott of Woodham spent Sunday with Mr. and Mrs. John Simpson.—Mr. John Miners is putting up a large silo this week.—The masons have completed Charles Johns' house and it is now ready for the carpenters.—The Elimville "Neversweats" are practicing for a game of ball on the 1st of July. They are undecided who to challenge, London or Detroit.

SODOM

The marriage took place in Stephen on June 19th, of Miss Nellie, daughter of Mr. and Mrs. Fred Green, to Mr. Edward Hughes of St. Thomas. At four o'clock the bride entered the parlor on the arm of her father to the strains of the wedding march played by Mr. Silas Stanlake. The bride was gowned in navy blue trimmed with Irish crochet lace, and carried white roses. Miss Annie Green, sister of the bride, was bridesmaid, while Mr. Jos. Edwards was groomsman. The ceremony was performed by Rev. E. G. Powell under an arch of curtains, roses and ferns, in the presence of about one hundred and thirty guests. After the ceremony a dainty wedding supper was served on the lawn. Many beautiful gifts were received. The young couple will reside in St. Thomas.

LUMLEY.

A new line of telephone has been put up at the head of the line. The new subscribers are as follows,—Frank Ryckman, J. L. Mitchell, John Pepper, John Traquhair, Geo. Dalrample, Enoch Parker.—Mrs. John Glenn returned from London Saturday.—Miss Maggie Hobkirk, a music pupil of Miss Grace Horton, is this week writing on her first examination. We wish her success.—Miss Ellen Ford is the guest of her sister, Mrs. Bolton.—Mr. Geo. Glenn spent Sunday with friends near Clinton.—The Misses Saddler of Staffa were visitors at Mrs. W. L. Kerplake's Wednesday afternoon.—The Boundary baseball team defeated the Plugtown team on Saturday evening on the latter's ground, the score being 9-6. The return match will be played at Thames Road picnic to-morrow (Friday).—Mrs. McMordie of London is here on a visit to her daughter, Mrs. W. W. Glenn.

BRUSSELS—Miss Eva May Cooper of Brussels died very unexpectedly on Saturday afternoon at the home of her brother-in-law, Mr. H. J. Marshall, Wingham. Deceased was 18 years old and only two weeks ago was taken ill with anaemia. She went to Wingham about a year ago, and has been employed in Pringle's glove factory. Besides her father and mother in Brussels, she is survived by three brothers and six sisters.

WINDOWS IN MANILA.

Translucent Shells Are Used in Place of Ordinary Glass.

Perhaps in no other country but the Philippines are conchas used as a substitute for window glass. These shells are flat, nearly round, and average four inches in diameter. The edges are trimmed off so as to leave panes about three inches square, and these are set in narrow strips of wood.

The shells are, of course, translucent rather than transparent, and the result is a soft, opalescent light, very agreeable in a country where the glare of the sky would be intolerable if ordinary glass were used.

To obtain the maximum window openings the sashes are made to slide horizontally on wide sills of hard wood in a manner similar to that adopted by the Japanese. By this means openings as wide as twelve feet are obtained.

To realize the splendid resources of the Philippines, says a writer in the Century, one has only to see the hardwood floorings in the public buildings and the residences of the better class. These consist of large slabs of mahogany, or, to use the local names, molave, narra, tindalo and acle, these being of various colors and graining. Frequently the pieces, occasionally as much as forty inches in width and forty feet in length, are laid alternately in dark and light shades. Polished by the household muchachos (house boys) till they reflect like mirrors, they produce a magnificent effect.

DODGED THE ROUNDSMAN.

The Tired Policeman Cleverly Got Himself Out of a Hole.

A police sergeant was going the rounds when he saw a policeman, whom we'll call Mullaney, go into an undertaker's shop where there is generally a pinochle game in the back room. He knew there was no back way out for Mullaney, so "rounds" planted himself by the door and waited.

After a time he sent in word by one of the men working in the shop that he knew Mullaney was in there and that he had better come back on post because the longer he waited the worse the complaint against him would read. There was much commotion in the back room, and as there were a number of coffins being loaded into a wagon outside they put Mullaney in a coffin and loaded him on the wagon. Then they drove him down the street a couple of blocks, and Mullaney climbed out. He strolled back up to where the sergeant was doggedly watching the door and saluted.

"Hello, rounds! Pleasant evening, isn't it?" he said. And the sergeant stared for a moment and then stamped away too mad to speak.—New York Sun.

An Iconoclast.

"All over Europe my wife made enemies by boldly doubting cherished traditions," said the traveler, "but her skepticism respecting Alfred the Great embroiled her in the most serious difficulty. An old gentleman who sat with thin, blue fingers spread above the feeble blaze from which my wife, red nosed and shivering, endeavored to extract a little warmth, expatiated on the cake burning episode. Said my wife abruptly: 'Don't tell me that old yarn again, please. I don't believe a word of it.'

"'Why not?' he demanded.

"'Because,' said she, 'there never was a fire in England hot enough to burn cakes.'

"Her retort did for the old gentleman what the fire had failed to do—it made him hot—but, even so, he never forgave her."—New York Press.

Queer Looking Worms.

New Zealand, Australia, the Samoan and the Solomon islands, as well as portions of the Hawaiian group, are the homes of various species of worms with thick, heavy bodies and with a well defined neck connecting the body with a head that is a startling reminder of that of the monkey. In the Sandwich islands they are called "me-ta-lu-ki," which means "creeper with a child's head." An old New Zealand legend says that at one time they were of immense proportions and threatened the extinction of all human life on the islands.

Principles of Action.

There are five good principles of action to be adopted—to benefit others without being lavish, to encourage labor without being harsh, to add to your resources without being covetous, to be dignified without being superfluous and to inspire awe without being austere.—Confucius.

Just the Other Way.

"I understand you have just done Europe?"

"Then you misunderstand."

"Haven't you just returned from abroad?"

"Yes, but I didn't do; I was done."—Houston Post.

A Good Cause.

All the schoolteachers at Lugano have gone on strike owing to a difference with the educational authorities. With splendid loyalty the little pupils are standing by the teachers and urging them not to give way.—London Punch.

The Natural Trend.

"I know of one place which should be a paradise for real estate men, the ground rents show such activity."

"Where is that?"

"In the earthquake region."—Baltimore American.

Humility, a rare thing among the earned, is rarer still with the ignorant.—Anatole France.

THE CANADIAN BANK OF COMMERCE

SIR EDMUND WALKER, C.V.O., LL.D., D.C.L., President

ALEXANDER LAIRD, General Manager — JOHN AIRD, Assistant General Manager

It is wise to say a good word for yourself or your business, whether your stock in trade be merchandise or labor, Want Ads. are the most direct line of communication to the best buyers.

THE LOST SPECTACLES.

What Happened When the Old Gentleman Tried to Find Them.

A man from "up state" who was in New York city on business was taken by a nephew whom he was visiting to dine at a Broadway restaurant the evening of his arrival. The next day he said to the younger man:

"Where is that restaurant we dined at last night? I left my gold spectacles there, I'm pretty sure. I've got another pair with me, but I don't want to lose the others."

"I'll stop in and get them for you on my way down town," replied the nephew.

He went to the restaurant, explained the circumstances and received a pair of gold rimmed spectacles that had been left on a table the previous evening. On his return home in the afternoon he handed them to his uncle.

"Where in thunder did you get those?" inquired the elder man. "I was going down Broadway today and recognized the place we dined at—at least I thought I did. Anyway I went in and asked if I left my spectacles last night, and they gave me this pair." He produced another pair of gold rimmed spectacles.

Upon the uncle describing the restaurant whence he had retrieved the glasses the nephew assured him it was several blocks from the one they had patronized the day before. While the two were discussing the situation the postman delivered a package for the uncle. It contained a pair of gold rimmed spectacles, with a note from his wife saying that she had found them on his writing desk at home and was sending them to New York in the event that he might need them.—New York Herald

MOROCCO CITY.

Magnificent in Its Site and in Its Historic Ruins.

Morocco city, the capital of the southern half of the Moroccan kingdom, is a far more interesting city than Fez. Architecturally its monuments, including the famous Kutubia tower, the counterpart of the Giralda in Seville; the famous mosque of Muley Abdallah and a hundred other ruined or semiruined edifices surviving from the days when the city had 700,000 inhabitants and was one of the great capitals of Islam, are the most considerable and magnificent in Morocco. Equally beautiful is the site of this city in the upper valley of the Tenesift river, surrounded in a half circle by the great wall of the grand Atlas mountains, whose snowclad peaks are seen beyond a foreground of large farms and fertile fields.

A city far less given over to war, with a population less ferocious, less fanatical than that of Fez or Mekinez, Morocco city has been much more frequently visited by Europeans than its northern rivals. Geographically Morocco city is the real gateway to the Sahara. By the Glawi pass one road climbs over the Atlas mountains to Tafilet, and the caravan route continues to Timbuktu. A second road descends to the Draa, crossing the Atlas chain, while a third leads to Tarudant and the Sus country. Close communication with the south has left its mark upon the people, who are darker and show more patently the infusion of African blood than the Berbers and Arabs of the north.—London Standard.

Queen Ants.

The queen ant has apparently not had justice done to her by naturalists. Dr. W. M. Wheeler's view is that by comparison with the queen bee the queen ant is by far the more admirable creature. In many important respects they are diametrically opposite. The queen bee is, it is pointed out, a degenerate creature, unable to nourish either herself or her young, to visit flowers, to build combs or to store them with honey. With the queen ant quite the reverse is the case. She is held to be a perfect exemplar and embodiment of her species, and the worker ants suffer from incomplete and retarded development. The queen ant is a very industrious and intelligent worker. She forms an exceedingly interesting subject for study.—London Globe.

Odd Signs.

Placard at a moving picture show: "Young children must have parents."

In a barber's shop window: "During alterations patrons will be shaved in the back."

In a tailor's shop: "We dye for others. Why not let us dye for you?"

In a clothing store: "These pants will look better on your legs than on our hands."

A silversmith has a place next door to a restaurant. The former having put up a placard, "Jewelry of all kinds plated," the restaurant keeper followed with this: "Oysters and little neck clams plated."—Boston Transcript.

Dodging the Dun.

"Why did you come way downtown to buy this when you could have bought it from your neighbor?"

"I've exhausted my credit with him, and if I went in there and paid cash for something he'd think I have money and start to dun me."—Detroit Free Press.

Just to Cheer.

Young Hub—There's no need of further parley. The next war that comes along finds me joining— Young Wife—Oh, George, George, don't! Young Hub—In the cheers of victory.—London Tit-Bits.

People who never have any time are the people who do the least.—Lichtenberg.

ZURICH.

Miss Margaret Steick of Guelph is visiting at her home here.—Mr. and Mrs. Theodore McAdams and Mr. Harry Bassow visited in Detroit last week.—Mr. and Mrs. J. F. Rickbell and two daughters took a trip to Beeton in their automobile.—Mr. John H. Melick of Edmonton is paying a visit to his parents, Mr. and Mrs. Melick and other relatives.—Mrs. King and her son, Louis of Chicago are visiting relatives in this section and at the Sauble Line. Mrs. King is a daughter of Mr. Cyprian Jeffrey.—Mr. R. F. Steick of Edmonton, formerly principal of our public school, is in town renewing acquaintances.—Wendel Smith is the possessor of a new born calf, which weighs 111 pounds. Wedded.—A quiet, but very pretty wedding was solemnized at the home of Mrs. S. Rannie, June 18th, when her daughter, Helen, was united in marriage to Mr. Fred Southcott of Santa Monica, Cal. Promptly at high-noon, to the strains of the wedding march, played by the bride's sister, Mrs. A. Geiger, the contracting parties took their places before a bank of ferns and roses. The bride, who was given away by her brother, Mr. E. Rannie, was becomingly attired in a gown of messaline silk trimmed with point de venise lace, and carried a bouquet of cream roses. Miss Elizabeth Rannie was her sister's bride's maid and wore pale pink silk striped voile and carried pink roses, while Mr. Milne Rannie, brother of the bride, supported the groom. The ceremony was performed by the Rev. G. F. Brown, in the presence of the immediate relatives of the contracting parties.

Thursday, June 27, has been selected as our Civic Holiday when nearly everybody will go to Grand Bend.

One of the pioneers of Huron County passed away at his home here on Wednesday in the person of Henry Ortwein at an advanced age.

CLINTON—Several stores were broken into early Saturday morning. At Fair's book store about $5 was taken from the till, also some knives. In the other stores nothing seems to have been taken. Those broken into were Cook's novelty store; J. B. Hoovey, druggist; Beacom & Smyth, grocers, and the laundry. The windows in the backs of all the stores were forced open.

BRUCEFIELD—The many friends of Mr. George Forest will regret that he is almost entirely confined to bed owing to physical infirmities. Mr. Forest is now 91 years of age and a once robust constitution is giving away rapidly under the weight of years.

GODERICH—Three pretty weddings were celebrated here Thursday. Mr. H. G. Hilker, druggist, of Toronto was married to Miss Jessie Blake of Goderich; Cornelius Moore, C. P. R. trainman, was married to Miss Spetran of Goderich; Miss Lulu Smith of Goderich became the bride of Hilton Schuler of New Hamburg.

MITCHELL.—Mrs. Charles Smith, for 40 years a resident of Mitchell, is dead at her home here. She was in her 76 year, and had been in failing health since the death of her husband, a little over a year ago, who died in Woodstock through the effects of a fall. Since then deceased had lived with her daughter, Mrs. George Cadger. She is survived by four daughters.

BRUSSELS.—Councillor Dames had the thumb and two fingers of his left hand blown off by a dynamite cartridge. The fuse attached had been lighted, but was thought to have gone out, and was being examined when the explosion took place. Cartridges were being used to uproot some stumps.

Labatt's Lager is the ideal warm weather drink—invigorating, refreshing, satisfying.
Try a glass when you feel fatigued. You will appreciate its beneficial, health-giving properties.
Keep a case of Labatt's in your home. It will prove a source of constant satisfaction.
JOHN LABATT, LIMITED

"The Complexion of a FAIRY"

You owe it to your skin to give FAIRY SOAP a test—it keeps the complexion fresh, clear, bright and healthful. FAIRY SOAP is white; and, being made from edible products, it is just as pure and good as it looks.
FAIRY SOAP
comes in a handy oval cake; it floats. It is dainty, refined, delicate in perfume. It has the appearance, odor and performance of a high class product.
The price—5c—is the only cheap thing about FAIRY SOAP.
Made by THE N. K. FAIRBANK COMPANY Montreal
"Have you a little 'Fairy' in your home?"

Wonderful Cures Reported in Germany.
The use of simple herbs as remedies instead of the more concentrated and usually more dangerous inorganic substances, has been revived very widely of late. In Germany a new school of physicians has arisen which throws out almost a whole of the pharmacopeia and relies on an adaptation of the method of wild animals in curing themselves. . . . . N. Y. World.
It was Dr. R. V. Pierce, chief consulting physician to the Invalids' Hotel and Surgical Institute of Buffalo, N. Y., who first advocated the extended use of some of our native roots, such as: Golden seal and Oregon grape root, mandrake and queen's root, black cherrybark. These are the chief ingredients in Doctor Pierce's Golden Medical Discovery, which has been so well and favorably known for nearly half a century. A harmless cleanser and stomach tonic that nature has provided.

J. D. MATHESON, ESQ.
J. DONALD MATHESON of Ossining, N. Y. says: "I suffered for over five years with what the doctors told me was dilated condition of the stomach, associated with a catarrhal condition of same, and nervous heart. I had tried enough nux, bismuth, gentian, rhubarb, etc., to float a ship and naturally thought there was no cure for me, but after reading what eminent doctors said of the curative qualities of the ingredients of 'Golden Medical Discovery,' I gave it a fair trial. Took the 'Discovery' and also the Pleasant Pellets' and can truthfully say I am feeling better now than I have in years. I cheerfully give permission to print this testimonial, and if any 'doubting Thomas' writes me I will 'put him wise' to the best all-around medicine in the country to-day."

Why doesn't she take

NA-DRU-CO Headache Wafers

They stop a headache promptly, yet do not contain any of the dangerous drugs common in headache tablets. Ask your Druggist about them. 25c. a box.

ONLY A MONTH;

OR, A CURIOUS MYSTERY EXPLAINED.

CHAPTER VII.—(Cont'd)

"And I'm sure I don't know what I should do without you if you did get married," said Mrs. Boniface, driving back the tears which had started to her eyes, "so I don't know why I am so anxious that it should come about, except that I should so like to see you happy."

"And so I am happy, perfectly happy," said Cecil, and as she spoke she suddenly bent forward and kissed her mother. "A girl would have to be very wicked not to be happy with you and father and Roy to live with."

Mrs. Boniface was a Devonshire woman, and, notwithstanding her five-and-twenty years of London life, she still preserved something of her western accent and intonation; she had also the gentle manner and the quiet consideration and courtesy which seem innate in most west-country people. As to education, she had received the best that was to be had for tradesmen's daughters in the days of her youth, but she was well aware that it did not come up to modern requirements, and had taken good care that Cecil should be brought up very differently.

The opportunity for suggesting Cecil's plan to Mr. Boniface came soon after they reached home.

Cecil was in the drawing-room, playing one of Chopin's Ballades, when her father came into the room. He stood by the fire till she had finished, watching her thoughtfully. He was an elderly man, tall and spare, with a small, shapely head, white hair and trim, white beard. His gray eyes were honest and kindly, like his son's, and the face was a good as well as refined face.

"It is not to be supposed that every one should see from one point of view," he said to his wife. "We are all of us looking to the same sun, and that is the great thing."

Such divisions must always be a little sad, but mutual love and mutual respect made them in this case a positive gain. There were no arguments, but each learned to see and admire what was good in the other's view, to hold stanchly to what was deemed right, and to live in that love which practically nullifies all petty divisions and differences.

"And so I hear that you want to be mothering those little children over the way," said Mr. Boniface when the piece was ended.

Cecil crossed the room and stood beside him.

"What do you think about it, father?" she asked.

"I think that before you decide you must realize that it will be a great responsibility."

"I have thought of that," she said. "And of course there is the expense to be thought of."

"Never mind about the expense; I will undertake that part of the matter if you will undertake the responsibility. Do you quite realize that even pretty little children are sometimes cross and naughty and ill?"

She laughed.

"Yes, yes; I have seen those children in all aspects, and they are rather spoiled. But I can't bear to think that they will be sent to some great institution, with no one to care for them properly."

"Then you are willing to undertake your share of the bargain?"

"Quite."

"Very well, then that is settled. Let us come across and see if any one has stepped in before us."

Cecil, in great excitement, flew upstairs to tell her mother, and reappeared in a minute or two in her hat and jacket. Then the father and daughter crossed the quiet suburban road to the opposite house, where such a different life-story had been lived. The door was opened to them by the nurse; she had evidently been crying, and even as they entered the passage they seemed conscious of the desolation of the whole atmosphere.

"Oh, miss, have you heard the verdict?" said the servant, who knew Cecil slightly, and was eager for sympathy. "And what's to become of my little ones no one seems to know."

"That is just what we came to inquire about," said Mr. Boniface. "We heard there were no relations to take charge of them. Is that true?"

"There's not a creature in the world to care for them, sir," said the nurse. "There's the lawyer looking through master's papers now, sir, and he says we must be out of this by next week; and that he must look up some sort of school where they'll take them cheap. A school for them little bits of things, sir, isn't it enough to break one's heart? And little Miss Gwen so delicate, and only a lawyer to choose it, as knows nothing but about parchments and red tape, sir, and hasn't so much as handled a child in his life, I'll be bound."

"If Mr. Grantley's solicitor is here I should like to speak to him for a minute," said Mr. Boniface. "I'll be with you again before long, Cecil; perhaps you could see the children."

He was shown to the study which had belonged to the master of the house, and unfolded Cecil's suggestion to the lawyer, which proved to be a much more fatherly sort of man than the nurse had represented.

"Things have gone hardly with poor Grantley," he remarked. "And such an offer will be the greatest possible surprise to him. I shall be seeing him once more to-morrow, and will let you know what he says. But of course there can be but one answer; he will thankfully accept your help."

Meanwhile Cecil had been taken upstairs to the nursery. The nurse had gone into the adjoining room, but she quickly returned.

"There are asleep, miss, but you'll come in and see them, won't you?"

Cecil had wished for this, and followed her guide into the dimly lighted night-nursery, where in two little cribs lay her future charges.

Lancelot, the elder of the two, was just four years old; he had a sweet, rosy, determined little face with a slightly Jewish look about it, his curly brown hair was long enough to fall back over the pillow, and in his fat little hand he grasped a toy horse, which was his inseparable companion night and day. The little girl was much smaller and much more fragile-looking, though in some respects the two were alike. They were still talking about the matter when Mr. Boniface rejoined them, the lawyer also came in, and, to the nurse's surprise, even looked at the sleeping children, "Quite humanlike," as she remarked afterward to the cook.

"Don't you distress yourself about the children," he said, kindly. "It will be all right for them. We shall know definitely about it to-morrow; but this gentleman has very generously offered to take care of them."

The nurse's tearful gratitude was interrupted by a sound from one of the cribs. Lance, disturbed perhaps by the voices, was talking in his sleep.

"Gee-up!" he shouted in exact imitation of a carter, as he waved the toy horse in the air.

Mr. Boniface and Cecil, after a few parting words with the happy servant, recrossed the road to Rowan Tree House.

"Oh, father, it is so very good of you," said Cecil, slipping her arm into his; "I haven's been so happy for an age!"

"And I am happy," he replied, "that it is such a thing as this which pleases my daughter."

After that there followed a delightful evening of anticipation, and Mrs. Boniface entered into the plan with her whole heart and talked of nursery furniture put away in the loft, and arranged the new nursery in imagination fifty times over—always with improvements.

"I believe," said the gentle old lady, laughing, "that it was due to that old nurse of mine that I never could bear theological arguments. She began them when we were so young that we took a fatal dislike to them. I can well remember, as a little thing of four years old, sitting on the punishment chair in the nursery when all the others were out at play, and wishing that Adam and Eve hadn't sinned."

"You all sound very merry," said Roy, opening the door before the laugh which greeted this story had died away.

"Why, how nice and early you are, Roy!" exclaimed Cecil. "Oh! mother has been telling us no end of stories, you ought to have been here to listen to them. And, Roy, we are most likely going to have those little children over the way to live with us till their father is out of prison again."

Roy seemed grave and preoccupied, but Cecil was too happy to notice that, and chattered on contentedly.

"You are tired to-night, Roy," she said, when Cecil's story had come to an end.

"Just a little," he owned. "Such a curious thing happened to me. It was a good thing you caught sight of me at Hyde Park Corner and stopped to ask about the trial, Cecil, for otherwise it would never have come about. Who do you think I met just as you drove on?"

"I can't guess," said Cecil, rising from her place on the hearth-rug as the gong sounded for supper.

"One of our Norwegian friends," said Roy, "Frithiof Flack."

"What! is he actually in England?" said Cecil.

"Yes, poor fellow!" said Roy.

Something in his tone made Cecil's heart beat quickly.

"Why do you say poor fellow?" she asked. "Oh, Roy! what is the matter?—what—what has happened to him?"

CHAPTER VIII.

"The house seems quiet without Frithiof," remarked Herr Falck on the Monday after his son's departure.

Frithiof at that very moment was walking through the streets of Hull, feeling lonely and desolate enough.

The dining-room looked very pleasant on that October morning. Sigrid was looking forward eagerly to his return, and was so much cheered by the improvement in her father's health and spirits that she felt more at rest than she had done for some time. Little Swanhild knew quite well that the general expectation was that Frithiof would be betrothed to her ideal. As for Herr Flack he looked eager and hopeful, and it seemed as if some cloud of care had been lifted off him. He talked more than he had done of late, teased Swanhild merrily about her lessons, and kept both girls laughing and chattering at the table till Swanhild had to run off in a hurry, declaring that she should be late for school.

"You should not tell such funny stories in the morning, little father!" she said laughingly.

"Ah, but to laugh is so good for the digestion," said Herr Falck. "You will read English all the better in consequence. See if you don't."

"Are you busy to-day, father?" asked Sigrid.

(To be continued.)

The One Best Sugar for Preserving is Redpath Extra Granulated Sugar

When you pay a good price for your strawberries, and spend a lot of time preparing, cooking and bottling them, isn't it too bad only to get after all, preserves that "might have been better"?

Yet that is what you do get, unless you use the **very best sugar** as well as the finest fruit.

Every trace of impurity in the sugar has a bad effect on the flavor and the keeping qualities of the preserves.

Redpath Extra Granulated Sugar is refined to absolute purity, and put up, without being touched by human hand, in 2 and 5 pound Sealed Cartons and in 20 and 100 pound bags.

Buy Redpath Sugar in these original packages and you get Canada's finest sugar, at its best. Make your preserves, jellies and jams with Redpath Extra Granulated and you'll get the most gratifying returns from your time, skill and money.

Try this way of preserving Strawberries —it works splendidly.

Hull and clean the strawberries and put them into jars which have been sterilized with boiling water. Fill each jar, but do not pack the fruit down.

Make a thin syrup by boiling for ten minutes 3 parts of REDPATH Extra Granulated Sugar in 5 parts of water. You will need nearly as many pints of syrup as of fruit.

Pour the syrup over the fruit, filling the jars. Screw on the covers, **without the rubbers**, stand the jars on strips of wood in a wash-boiler, and cover them to within an inch of the tops with cold water. Bring this water to a boil and cook for from 15 to 20 minutes, according to the ripeness of the berries. Watch closely after they have boiled 15 minutes, and when cooked remove at once.

Have the syrup, which was left over, very hot. With a fork gently stir the fruit so as to get out all the air bubbles, then fill each jar up with the hot syrup and seal, being careful no leave no air inside.

Strawberries, raspberries or any other fruit preserved in this way keep their shape and size, and retain much more of the fresh fruit flavor than if they are cooked up in the ordinary way.

The Canada Sugar Refining Co. Limited, Montreal.

$50 Bank No. 52941 Montreal

Payable to the Order of Farmers

108 Cheques Will be Distributed Among Canadian Farmers. Will You Get One of Them?

In addition to the twenty-seven first prizes of $50 each, there will be eighty-one other cash prizes, ranging from $10 to $25 in our

1912 PRIZE CONTEST FOR FARMERS

This contest is along the same lines as the one which was so successful last year, except that there are three times as many prizes, and therefore three times as many chances for each contestant to win. Every farmer in Canada who uses "Canada" Cement is eligible to compete. The conditions are such that large and small users of cement have equal opportunities to win a $50 prize.

The contest is divided into three classes, and there are first, second, third and fourth prizes ($50, $25, $15 and $10) in each class.

CLASS "A"—Prizes to be awarded to the four farmers in each province who use most "Canada" Cement on their farms in 1912.

CLASS "B"—Prizes to be awarded to the four farmers in each province who send photographs of the *best concrete work* done with "Canada" Cement on their farms in 1912.

CLASS "C"—Prizes to be awarded to the four farmers in each province who send the best *description*, telling how any piece of concrete work was done with "Canada" Cement. (Entries for this prize must be accompanied by photographs of the work.)

In addition to thus being divided into classes, so as to give small users of cement an equal chance with those who use more, the Contest is also divided into nine divisions, one for each province. So you see you need only to compete with the other farmers of your own province, and not with those all over Canada.

Don't think that because you have never used cement, you cannot win a prize. Many of last year's prize winners had never used cement before they entered the Contest. We will send you a free book, "What the Farmer Can Do With Concrete," that will not only help you in the Contest, but will tell you everything you could want to know about the use of cement on the farm.

Don't delay, but send us your name and address to-day and get this free book and full particulars of the Prize Contest right away.

Use a letter, postal or coupon.

Send me particulars of your 1912 Prize Contest.

Address Publicity Manager

Canada Cement Company

Limited

30-35 Herald Bldg. - Montreal

A free book, "What the Farmer can do with Concrete" will be sent to all who request details of the Prize Contest.

NOTES AND COMMENTS

There are households where, every day, the same endless bickerings over the same recognized point of disagreement go on. At some time during the twenty-four hours—it may be at the breakfast table or around the evening lamp, but it is infallibly arrives just the same—the sensitive spot is touched and the trouble begins. One would think that the least intelligent would know enough to avoid such a recurring clash of arms. Yet men and women of quite unusual intelligence often keep up this destructive warfare until the last hope of household harmony ceases, and home becomes a trampled battlefield. The thirty years war lives again under many a modern roof.

Yet any sore spot will heal if left severely alone. A little consideration, a little sympathy, and there is nothing left, not even a scar. The rift within the lute is usually widened by poking one's fingers into it every day. Otherwise the music would hardly suffer at all. When a sore spot is once recognized the first family duty is to salve, and then to avoid touching it thereafter. It is wonderful how many provocative points can be determinedly forgotten, and how promptly the dove of peace settles down. There are almost enough occasions of offense in every household to upset its happiness, if they are taken and dwelt upon. But isn't it a lot better to ignore them?

Amid matters of greater importance it will interest garden lovers to learn that the year 1912 is the centenary of the pansy as a cultivated flower. In 1812 the daughter of the Earl of Tankerville took up from the hedgerows of England a number of plants of the wild heartsease. These she carefully cultivated, and from year to year she selected the seeds of the finest specimens for reproduction. By this means she made the pansy a recognized garden flower.

The finest pansies to-day are three to four inches in diameter, whereas the wild heartsease is a small and inconspicuous flower. A true red pansy has been developed. Red pansies will be something of a novelty, and it remains to be seen whether the public will take kindly to them. The red pansy means much as an evidence of man's ability to mould Nature to his fancies. When some genius of the horticultural world shall develop the sweet-scented pansy—already there are some kinds with a faint perfume—that flower may rival the rose and the sweet pea in popular esteem.

TURN DESERT INTO GARDEN.

Planning to Reclaim First Field of Wheat.

The plans for turning the desert regions of Mesopotamia into an agricultural paradise are being pushed by the Turkish government in spite of its external troubles. The irrigation scheme, which originated in the brain of Sir William Willcocks, will involve the expenditure of $150,000,000 before it is complete.

The dam which is to control the flood waters of the River Euphrates is under construction by a British company, and the Turkish government is now anxious to proceed with the initial stages of the irrigation works.

The success of the plan will enable enough grain to be grown to affect the cereal markets of the world. In ancient times the whole of the Euphrates delta was irrigated, and the rank growth of grain excited the wonder of Greek travelers.

According to the sometimes veracious Herodotus, the land yielded three hundred-fold, and there is no doubt that at the time of the Greek historian's visit the delta was the chief granary of the world. But if tradition can be relied upon, its fertility was of even greater antiquity, for it was here that popular belief located the Garden of Eden.

It is a matter of history, moreover, that, from the delta, wheat, found here in its wild and uncultivated state, was taken and gradually transplanted all over the world.

The land which gave birth to the world's staff of life is now a barren waste threaded with the ruins of the great dikes and ditches bulit by the Chaldeans. The ruin of the greatest of ancient irrigation works was accomplished in the eleventh century by the forebears of the Turks, who are now seeking their restoration.

Fashion Hints

SOME NEW MODELS.

The fashion of having the two sides of a bodice unlike holds its own and is occasionally very picturesque. One of these has a trained skirt in black satin, with the bodice of filmy cream-colered silk muslin on one side, the other side, with short sleeve, composed of thickly embroidered opalescent thin silk. The sleeves are of the kimono order, and are edged with opalescent beads. In this case the bodice completely covers the shoulders, and ends in a neckband of embroidery similar to that on the bodiec.

A very lovely gown has the two sides of the bodice dissimilar, one being in orange silk crepe, extremely fine and supple, draped from the right shoulder across to the left side of the waist, while the other sleeve and half of the bodice are in finest pale gray crepe, sewn with very small pearls. In this instance the skirt is in crepe de chine, in the exact tone of gray with that on the bodice.

ELBOW GLOVES IN FAVOR.

On the best authority it is said that in the wholesale houses not only in Canada, but in France and England as well, there has been this season a bigger demand for elbow length silk gloves than there has been for at least five years. At the same time the manufacturers at home and abroad have scarcely been able to supply the demand for long gloves of glace kid.

These are facts that certainly contradict the rumor that we are going to wear long sleeves, and while there can be no doubt that many of the smartest houses are making long-sleeved models, it seems certain that they will have to wait at least until autumn to find them taken up with anything like enthusiasm.

FADS AND FASHIONS.

The mesh bag is still very popular.

Ruchings of gold taffeta trim many of the new gowns.

The dead-white hat is unlikely to be seen again this summer.

Cotton corduroys are among the favorite washing fabrics.

Little black taffeta coats appear with gowns of contrasting color.

The curiass effect on evening gowns is seen in many new designs.

The Byron cascade of soft lace is all-conquering and is finished at the neck with a bow of wide velvet ribbons.

Many of the smart leather bags in seal and morocco show geometrical figures in gold leaf applied in inlaid effects.

Accordion pleating is among the possibilities of the summer's coming fashions.

Taffeta wraps, trimmed with ruchings of the same material, are very popular.

THE SUNDAY SCHOOL LESSON

INTERNATIONAL LESSON, JUNE 30.

Lesson XIII.—Review. Golden Text, Matt. 5. 17.

Lesson I.—The Appearances of the Risen Lord.—What did Paul call the central fact of the Christian faith? What disciples did he name as witnesses of the resurrection? What did he say about his own unworthiness to be a witness? When did Paul see Jesus after the resurrection? What change did this revelation make in Paul's life?

Lesson II.—The Use of the Sabbath.—What did the disciples do as they walked through the fields one Sabbath morning? Who saw what the disciples were doing? What complaint did the Pharisees make? What statement did Jesus make concerning man and the Sabbath? What kind of a man did Jesus meet in the synagogue on another Sabbath? What did he do for the man with the withered hand? With whom did the Pharisees then take counsel against Jesus?

Lesson III.—The Appointment of the Twelve.—What was the open attitude of the Pharisees toward Jesus? What decision did this lead Jesus to make? How did the common people regard Jesus? How did he at times seek to escape from them for a while? Where did he go on one occasion? How did he spend the night? What did he do the next morning? How many did he choose to be his disciples? What was to be the business of these disciples?

Lesson IV.—The Beautitudes.—What is the meaning of the word "blessed"? What reward is promised to the poor in spirit? What blessing did Jesus pronounce on the What happened when Dives died? What was Lazarus's reward when he died? What vain petition did Dives make?

Lesson VI.—The Law of Love.—Upon what principle are all laws founded? Upon what additional principle did Jesus found the laws of his kingdom? How does love differ from liking? How can we love our enemies? What did Paul write to the Romans about love? In what commandment did he say the whole law was summed up?

Lesson VII.—The Old Law and the New Life.—Who was the lawgiver of the Jews? How did the Jews feel when Jesus spoke of a higher law than the law of Moses? What did Jesus say of those who broke the law of Moses? What did he say of the fulfilment of that law? How did he illustrate the way in which the new life surpasses the old law? What is necessary before we can worship God aright?

Lesson VIII.—Truthfulness.—What kind of speech did Jesus urge upon his followers? What did he say about the use of oaths? What are some of the dangers of profanity? What did James say about the control of the tongue? To what did he compare the tongue? What did he say about good and evil speech coming from the some mouth?

Lesson IX.—Hypocrisy and Sincerity.—How did Jesus say we should give our alms? Where should we go for our prayers? What model prayer did Jesus give? What are some of the characteristics of the Lord's Prayer? What is fasting? What did Jesus say of those who did their righteousness to be seen of men? What of those who give and pray and fast in simple sincerity?

Lesson X.—Hearing and Doing.—How should we bear with the faults of others? Why is merely hearing and assenting to Jesus's teachings not enough? What more is necessary before we can really be Christians? To what did Jesus compare the man who hears his teachings but does not obey them? To what does he compare the man who does obey his commandments?

Lesson XI.—Christ's Witness to John the Baptist.—Where had King Herod put John the Baptist? What doubt troubled John while he was in prison? How did he seek to rid himself of this doubt? Whom did he send to Jesus? How did Jesus answer John? What did he say about John's greatness? What did he say of the members of his kingdom?

Lesson XII.—Temperance Lesson. How must we regard all forms of sin if we are successfully to live the Christian life? What is the best test of right and wrong? What is the danger of idleness? What kind of a disposition must we cultivate? How does the use of intoxicants affect our judgment and our disposition? How does it affect our power to work? What is the only safe attitude toward intemperance?

merciful? Who did he say should see God? What did he say the peacemakers should be called? Of what reward may those who are persecuted for righteousness' sake be assured?

Lesson V.—Poverty and Riches—What trials did the followers of Jesus often have to endure on earth? In what, then, does their vlessedness consist? Upon whom did Jesus pronounce woes? What kind of a life did Dives live? How did Lazarus's life differ from it?

THE BUNKER HILL CANNON AT QUEBEC

It is not probable that the Militia Department will comply with the request of the Massachusetts Historical Association for the return of the cannon.

FROM THE ACORN TO THE OAK

This Is God's Order, This Is Human History the World Over and the Ages Through

Matthew v., 17.—I came not to destroy but to fulfil.

To acquire something more out of what we already have is the great principle enforced by evolution. Out of the chaos of the fire-mist is evolved the structure of the globe. In matter, in brute life, in social institutions, in government, in religion, the same method obtains. Here is the principle of continuity. The oak develops from the acorn, the harvest from the planted grain.

Jesus the great Teacher wrought by this method. He developed His new kingdom out of the old. He did not destroy the Decalogue, but fulfilled it. He took the Samaritan woman's crude idea of worship at Mount Gerizim, and out of that evolved the larger thought of spiritual worship in every place. The larger acquisitions of truth and character must always come from what we already have. This is God's order, never destroying the Past, but out of it evolving the greater Present,

THE MORE GLORIOUS NOW.

All progress in truth must be in accord with this principle. The idea of human liberty slowly but continuously unfolds in the political history of the world.

So it is with spiritual truth. All truths, including the truths of religion, are germinal. A truth is not a diamond, but a seed. All we ever know of God and the kingdoms of spritual truth must come from what we already have. A man should never destroy the faith of his childhood, but out of it evolve a larger faith. A new theology is safe only as it is evolved from the old.

The same applies to character. A man is disgusted with himself—wants to get away from himself. He cannot. He must carry up what he is to be a better manhood. His follies, mistakes and sins remain a part of his historic character. Out of the acorn comes the oak. Jesus Christ stands before each of us saying:—"I came not to destroy you, but to fulfil you." To a man hopeless, discouraged, who would fain get away from his past and begin life all over again,

JESUS CHRIST COMES,

and taking his poor, bruised, broken, sin cursed nature as it is, reconstructs it, renews it, redeems it, always making the new manhood out of the old.

An eloquent preacher said:—"If Christ had spoken to farmers instead of shepherds, I think, instead of picturing the love that sought the wandering sheep and brought it into the fold, He would have wonderfully pictured the love that found the trampled grain, with all its power of life, and buried it in the rich ground."

So in Christian work God uses men as they are, and uses what they have. The faithful man brings his little gift, utters his feeble word, breathes his earnest prayer, and God takes it as the prophet took the woman's cruse of oil, and multiplies it and augments it infinitely.

God give us grace more and more to come to Him as we are that He may take us, and by His infinite power and love "fulfil" us and make us just what we ought to be.—Rev. Jacob E. Price.

The Home

Notes of Particular Interest to Women Folks

DAINTY DISHES.

Poor Man's Gingerbread.—One cup of molasses, not syrup, one scant cup of melted butter and of lard, half and half, two-thirds cup of boiling water, one teaspoonful of soda, one teaspoonful of ginger, two level cups of flour.

Mexican Rarebit.—Melt one tablespoon butter; cook in it one tablespoon of finely minced onion; add one cup of cheese broken in small bits; stir until melted; then add one cup strained tomato, half teaspoon salt, a few grains cayenne and one egg slightly beaten. Serve on saltines. This is best made in a chafing dish, but can be made in a double boiler.

Chocolate Rice Pudding.—Cook in the double boiler one-quarter cup of rice, and one pint of milk until the rice is soft. Add one tablespoon butter, half cup of seeded raisins, one square of chocolate broken in small pieces, one-third cup sugar and a few grains of salt. Cook five minutes. Remove from the fire and add one egg slightly beaten. Pour into a buttered baking dish and bake twenty minutes. Serve with cream and sugar.

Irish Stew.—Cut two pounds of lean beef from the round into squares of uniform size, cover with cold water, and stew gently for an hour. At the end of that time season to taste and add four peeled and sliced onions, four peeled and sliced carrots, and three stalks of celery cut small. A half hour before serving the dish add to the stew four potatoes cut into dice and boil until these are tender. If you wish the gravy thickened add to it a heaping tablespoonful of browned flour wet with a little cold water and stir until the gravy is smooth and brown. Serve meat, vegetables and gravy on a large and deep platter.

Aubergines au Gratin.—To translate this into kitchen English and Canadian market terms we would call this perhaps baked eggplant. The aubergine is smaller and more delicate than our eggplant, but much like it in appearance and flavor. The eggplant makes an excellent substitute. Slice and peel this, after you have parboiled the eggplant. Lay the slices in a pudding dish, stew crumbs and grated cheese on each layer, pour a white sauce over all, sprinkle more grated cheese on top and bake covered for twenty minutes. Uncover and brown, eat and be thankful!

Parisian Stuffed Tomatoes.—Select half a dozen firm tomatoes, of uniform size, slice the top from each and scoop out the seeds, taking pains not to break the sides of the tomato. Mix a cupful of fine breadcrumbs with a half teaspoonful of sweet herbs minced fine, a teaspoonful of grated lemon peel and salt and pepper at discretion. To this add a heaping tablespoonful of butter, melted, and a beaten egg, fill the tomatoes with this forcemeat, lay the tops on again and fasten in place with a toothpick or a piece of thread. Roll the tomatoes first in raw egg beaten up with a little water, then in fine breadcrumbs arrange in a pan and bake fifteen minutes in a steady oven. Take off the threads or draw out the toothpicks before sending the tomatoes to table.

Strawberry Roll Pudding — Two cups bread flour, two teaspoons sugar, two tablespoons butter, three teaspoons baking powder, one-half teaspoon salt, about three-quarters cup of milk, one box of strawberries, sugar. Make a baking powder biscuit mixture of the flour, salt, sugar, baking powder, butter and milk. Roll into an oblong one-quarter inch thick and sprinkle thickly with one-half a box of berries quartered. Then dredge with sugar. Roll like jelly roll, cut across in slices one-half inch thick, lay in pan and bake about twenty minutes in moderate oven. Serve with strawberry sauce made from remainder of berries. To make this, crush fruit; boil together one-half cup sugar, and three-quarters cup water five minutes; add berries and juice and pour on to a well-beaten egg white, whipping constantly. Add one teaspoon of lemon juice and serve at once.

USEFUL HINTS.

If mutton chops simmer in just a little water on the back of the stove before being broiled or fried, the flavor will be quite like lamb chops.

Fasten a wire hook to the handle of a grape basket. Hang over line when hanging out clothes, and push along before you, thus saving much time.

To thicken gravies for pot roasts or stews, put a piece of brown bread in with the meat. When you go to make the gravey rub it up for thickening.

If your cellar is damp, as it is apt to be in the early spring, put a piece of unslaked lime in it. It absorbs the moisture and keeps the place sweet.

Scratches on polished wood, if not too deep, can be removed by rubbing gently with fine sandpaper and then with a mixture of olive oil and vinegar.

To simmer is to boil slowly, if the liquor throws up bubbles above its surface it is boiling at a gallop, and will harden any meat that is cooking in it.

If it seems difficult to clean the seams or stitching on white gloves, try rubbing with a soft brush dipped in the gasoline; this usually works like a charm.

Pain stains that are dry and old may be removed from cotton or woollen goods with chloroform. It is a good plan to first cover the spot with olive oil or butter.

One woman who has a reputation for her cooking always adds just a pinch of baking powder to the cracker—not bread—crumbs, in which she rolls the oysters before frying.

One of the low stools, substantially made and costing about twenty-five cents is a great help in the kitchen or closet where there are high shelves just out of arm's reach.

If she has not access to the stove, she will find one of the alcohol irons of great help. By means of this it is possible to keep skirts pressed and jabots free from wrinkles.

Make two incisions on the top of all meat pies to allow the steam to escape. Pies treated in this manner will keep good for several days, and so avoid ptomaine poisoning.

To prevent potatoes becoming black when cooked put them into cold water, and when brought to the boil squeeze lemon and juice in. They will then keep a good color and be of good flavor.

The zinc top to the kitchen table or the piece under the kitchen stove will always be bright if it is wiped off frequently with a cloth dampened with kerosene, and then rubbed dry with another soft cloth.

There is nothing better for cleaning the line from the laundry tubs than a button hook; it is well to keep one with a long handle hanging near the tubs for just such emergency, thereby saving plumbing bills.

To remove grease or oil spots from clothing, mix a little fuller's earth into a paste, spread it over the affected part, and allow same to dry thoroughly. In doing so it draws and absorbs the grease. Then take a stiff brush, which will quickly remove the dried earth, and the result will be pleasing, and far more satisfactory than most other methods.

No amount of culture will make a man stop snoring in his sleep.

Stored in large strong-rooms at Woolwich Dockyard are nearly 50,000 unclaimed South African War medals.

With the lingerie dresses the handbags of lace or linen will be largely used.

One of the unpardonable political sins is the acceptance of a small bribe.

HOUSE FOR SALE

On William Street, Exeter.

Any person desiring a new cream separator will do well to call at the Exeter Bargain Store and see the Premier. This is one of the best and easiest running separators on the market. Come in and let us talk it over with you.

W. M. BLATCHFORD, Exeter.

LADIES' REPP COATS, 52 INCHES LONG, VERY STYLISH, AND NICELY TRIMMED. A SPLENDID RANGE TO CHOOSE FROM.—STEWART'S.

Hear the Harpers at the Garden Party Rectory Lawn, Trivitt Memorial Church, Friday evening, June 28. Admission 15 and 10 cents.

LEATHER SANDALS FOR BOYS & GIRLS, COOL AND COMFORTABLE for HOT WEATHER, 75c. to $1.00 AT STEWART'S.

STRAWBERRIES.—Get your strawberries fresh from the field. All orders left at J. W. Taylor's house, Victoria street, will be promptly and satisfactorily filled. Get your orders in early.

NEW HANGING LAMPS, READING LAMPS AND HALL LAMPS. A BIG SHIPMENT TO HAND, DIRECT FROM THE FACTORIES.—STEWART'S.

Parties having Saskatoon property would do well to communicate with Box 968, Saskatoon, Sask. We would be glad to give you a price on same, or if you wish to dispose of property, will be glad to sell it for you.

If you contemplate buying a home in London it will pay you to call on W. J. Fanson, real estate agent, 284½ Dundas street. We have a large list of properties in all parts of the city. We invite correspondence.

MIDDY BLOUSES FOR GIRLS AND WOMEN, TRIMMED WITH RED, BLUE AND TAN COLLARS, $1.25, $1.50 AT STEWART'S.

VACATION NOTICE.—Dr. Roulston desires to announce that his dental office will be closed from July 15th to August 15th.

BUS TO CENTRALIA—I will run a bus to Centralia Sports on July 1st. First bus leaves the Central Hotel at 9.30. Afternoon trips at 1 and 2.30. —G. CRAWLEY.

Mr. Jas. Creech brought a rather rare specimen of a snake into our office yesterday, it being a young milk snake about 10 inches long, which was captured in front of Mr. Creech's premises. Mr. Creech thinks the rest of the family of snakes are still in that locality, as the one captured was rather young to be far away from the nest.

HICKS' FORECASTS FOR JULY.—A reactionary storm period centers on the 3rd, 4th and 5th. The last stages of a regular storm period, starting the closing days of June, will barely have subsided before the barometer will again fall, the temperature rise, cloudiness ensue and showers will pass eastwardly across the country. These conditions will be prolonged, culminating in excessively high temperature, with thunder storms in many sections, on the 6th on which date the moon crosses the celestial equator. A brief change to cooler, with moderate rise of the barometer, will follow these disturbances.

Dollar Doublers

Our Classified Want Ads. are real dollar doublers. In shoe leather and nervous energy they will save you many times their small cost by bringing to your door what you require, whether it be efficient help, a desirable borrower for surplus cash, a position or a domestic.

A most convincing and inexpensive proof would be to try a Want Ad.

LOCAL DOINGS.

Mr. John Wood shipped a car cattle to Toronto Friday.

Two trains loaded with volunteers passed through here for Goderich on Sunday.

Messrs. James Gould and J. G. Stanbury are erecting verandahs in front of their residences.

Many people autoed from Exeter and points south to Goderich Sunday to see the military camp.

Councillor Rivers, we are pleased to state, is improving and expects to be able to attend to his business shortly.

Hear the Harpers at the Garden Party Rectory Lawn, Trivitt Memorial Church, Friday evening, June 28. Admission 15 and 10 cents.

Quite a number from this district took in the Excursion to Goderich on Monday under the auspices of the Evangelical Sunday School, Crediton.

A number of invitations have been received here to attend the Kincardine Old Boys' and Old Girls' re-union in that town from July 15th to 20th.

Mrs. Ann Snell is the first to report new potatoes, she having had sufficient for a meal on June 20th. They were grown in her own garden and were of fair size.

The Angler's Association of Alisa Craig have received several shipments of pickerel fry, amounting to 300,000, which have been placed in their new home in the Aux Sauble.

Mr. John Kenslake of London Road south has purchased Mr. T. Keistle's house on Main St., opposite the Ross Taylor factory, for a price, we understand, in the neighborhood of $2900.

Rev. Powell preached in the Methodist church, Mitchell, on Sunday last. Mr. Powell's pulpit here was filled in the morning by Mr. Geo. Tufts of Woodham and in the evening by Mr. Whitlock of Usborne.

Mr. Nelson Hill, son of Mr. and Mrs. Jas. Hill, who has been with the Dale Furniture Co., Toronto, as book-keeper has received the appointment to a position with the Bank of Commerce at Montreal.

The Ladies' Aid of Main Street Methodist Church will hold a strawberry Festival on the Church Lawn on Thursday Evening, July 4th. The band will furnish music. A good programme will be given. Admission 25 and 15 cents. All are invited. 2t

Mr. Geo. H. Windsor of Lucan, formerly of McGillivray, has moved with his family into the house recently vacated by Mr. Herb. Ford on Mill street. We welcome Mr. Windsor and family to our midst as residents.

The South Huron Liberals met in Brucefield on Tuesday last and elected the following officers,—Pres., H. Smith of Hay; Sec., J.G. Stanbury of Exeter; Treas., John Murdock of Stanley; Vice-Presidents, Dr. Sellery, M. Murdie and R. G. Seldon.

A former Exeter boy, Mr. Herman Heaman of Toronto, son of Mr. and Mrs. George K. Heaman of Toronto, was married on June 12th to Isabell Stevenson, daughter of Mr. and Mrs. John S. McCutcheon of Regina. Herman and his bride will have the best wishes of his many old friends here.

If you have a dog, and if your dog has fleas beyond a reasonable amount do not make yourself and dog all up with flea powders and other dope. Take your vacuum carpet cleaner if you have one, to your dog—otherwise, take the dog to the cleaner and go over him well with the suction end of the cleaner. If his hair is not too long and curly the fleas will be removed to the bag of the vacuum cleaner, much to their surprise and much to the dog's relief.

Mrs. Richard Davis, one of our oldest and most highly esteemed residents, celebrated another milestone on Monday last, it being her 86th birthday. The occasion was marked by the presence at her home of her children, grand-children, and other relatives. Mrs Davis was born in Devonshire, England, in the year 1812, and was among the early pioneer settlers of this district. A most pleasing feature of the event was that Mrs. Davis is enjoying the best of health, and is in possession of all her faculties. Mrs. Davis will have the best wishes of her many friends for many happy returns of the day, and that she may be spared to celebrate many more such events.

The railway commission has issued a circular to the railways throughout Canada, calling attention to the fact that section 274 of the Railway act is not being lived up to by some of the locomotive engineers. The section provides that when a train is approaching a highway crossing at rail level, the engine shall be sounded at least 80 rods before reaching such crossing, and that the bell shall be rung continuously from the time of the sounding of the whistle until the engine has crossed the highway. This section does not apply to crossings in cities and towns where municipal by-laws are in force prohibiting the sounding of whistles, or ringing of bells.—Severe penalties are laid down for violation of this rule and companies are liable for damages sustained by reason of neglect to observe it.

Ontario has well been named "The Garden of Canada." It contains some of the loveliest fruit farms in the world. Fruit that in England that will only grow under glass and with the tenderest care is produced in the most lavish abundance, notably peaches, grapes, melons and tomatoes. Last year in her 338,258 acres of orchards, she produced 75 per cent. of all the fruit grown in Canada, the value of the same being three million pounds. Although four times as large as England and the thickest populated province of Canada, Ontario contains only twice the number of people that there are in Glasgow. She has an area of 140 millions of acres and only one-third of these has yet been surveyed. There are still 116 million acres belonging to the Crown, and containing every form of agricultural land and mineral wealth known to man, only awaiting his advent, to yield it to him with bounteous hands.

Mrs. Piper is visiting in London.

Mr. Al. Camm left Tuesday on a trip West.

Mr. Clarence Heywood is home from Chatham.

Mrs. Waugh left Thursday to visit in Toronto for a few days.

Mrs. Beebe of Ridgetown is visiting her mother, Mrs. T. Pifor.

Mrs. R. H. Collins of Toronto is the guest of Mrs. J. A. Stewart.

Mrs. Chas. Dale of Toledo is visiting her sisters at the Central Hotel.

Mr. Owen of London was here this week with Messrs. Bawden & Bawden.

Miss Polly Fisher left Friday for New York, where she will visit for a time.

Mr. Cotter of Cleveland is in town visiting Mrs. Cotter at the home of Mrs. T. Gregory.

Mr. Arthur Stapleton of Wingham is spending a few days in town this week with friends.

Mrs. Geo. Mantle and Miss Mary A. Tom spent Monday in Goderich, the guests of Mrs. J. E. Tom.

Mr. Thos. Harvey and two children left Tuesday morning on a visit to relatives in Harwell, Man., and other points.

Mr. and Mrs. John Pedler and Mr. and Mrs. Thos. Kestle of town left Monday on a pleasure trip to the coast. They will be absent several weeks.

Mrs. Frank Boyle returned Monday from a visit in Brantford and Berlin.

Mr. Harry Cundy has moved to Victoria street, from Huron street.

Mrs. Samuel Rowe and two daughters left Monday for Saskatoon, where they will spend several weeks with Mr. Rowe, who has been there for some time.

Miss Rose Manning of Detroit is visiting here at the home of Mrs. Harrison. She, in company with Dr. and Mrs. Harrison, is now rusticating at Grand Bend.

Rev. D. W. Collins was in Stratford Tuesday night attending the installation services of a joint meeting of the two Masonic Lodges of that place, following which was a banquet.

Miss Lois Birney of Windsor is holidaying at her home here.

Mrs. G. L. Waugh is visiting relatives and friends in Toronto.

Mr. Bennett of Toronto is visiting his daughter, Mrs. J. A. Stewart.

Mrs. (Rev.) D. W. Collins visited with her parents at Hirst over Sunday.

Mrs. P. Pollard of Windsor is visiting her parents, Mr. and Mrs. T. Hawkins.

Miss Katie Collins of Toronto is visiting with friends in town for a few weeks.

Miss Vina Fisher of Hamilton is spending a few weeks with friends in and around Exeter.

Mr. Bert Luxton of the Bank of Commerce, Montreal, is visiting his parents, Mr. and Mrs. Fred Luxton.

Mrs. Yager and daughter, Miss Tillie, are again settled in their home, after a prolonged sojourn in the West.

Miss Martha Carling, nurse of New York, arrived here Thursday to visit her parents, Mr. and Mrs. T. B. Carling.

Mr Chas. Mason and daughter and Mr and Mrs. Harry Stoddart of Forest visited at the home of Mrs. G. Sanders on Sunday.

Mrs. Frank Sweet spent a couple of weeks in Forest, returning home Saturday. Mr. Sweet returned with her and spent Sunday here.

Mrs. Joseph Bawden of North Battleford, Sask., after spending a few days with relatives here, left Friday to complete her visit in London.

Miss Laura Jeckell, London Road North, and her sister, Mrs. P. Howe of Toronto, left Monday for a few weeks' outing at Vancouver, B.C.

Miss Fanny Bawden, who has been on an extended trip around the world returned to Exeter Thursday night, reporting a most enjoyable outing.

Mr. John Webster of Flint, Mich., is visiting with friends and relatives here. Mr. Webster is an old Exeter boy, but left these parts about 32 years ago. John notes many changes in the old town and scenes of his boyhood days.

THE HOUSEHOLD FLOUR

isn't always the "flower" of the household. It's the rule the world over.

THERE ARE "FLOWERS" and "FLOURS", BUT NO FLOUR EQUALS OURS.

It's straight goods we're giving you. There's plenty "inferiors" but no "superiors". Our flour makes light bread and light hearts. It's wrong to gamble—buy flour here. It's sure.

A good supply of FEED on hand.

WHEAT WANTED.

Local Items

Trouble never attempts to dodge those who are looking for it.

It's not the early closing movement that bothers us. It's the early rising movement.

The oiling of the streets of Parkhill has been finished. The cost is in the neighborhood of $250. This includes the scraping of the dust or loose dirt and carting it away.

Mr. A. Cottle met with a painful accident at Mr. D. Russell's black-smith shop. He happened to accidentally step on a piece of round iron and in so doing he was thrown forcibly against the anvil, with the result that several of his ribs were broken. He is now confined to his home.

Flies have an abhorence for the scent of coal oil, and during the warm weather if the screen doors and windows are brushed over twice a day on the outside with a cloth saturated with coal oil it will do much towards keeping the flies from holding meetings on your screens.

Miss Gearing of Toronto is the guest of Mrs. Gladman.

Mr. Jas. Sparks of Ingersoll visited with friends here during the week.

Dr. and Mrs. Weldenhammer of Waterloo visited with the former's brother over the holiday.

Mr. and Mrs. John Walper of Harrow spent a few days with the latter's parents, Mr. and Mrs. N. Keath.

Dominion Day was a quiet one in town, most of our people spending the day at Centralia, Elimville, or Grand Bend.

Miss Anne Case of London Road north, who underwent an operation in Toronto recently, returned home Tuesday night, the operation being a complete success.

If you have an item of news concerning yourself or your friends here or elsewhere let the editor know. We want to make the paper interesting and we want your help.

Dr. and Mrs. Thos. A. Amos of Burford, formerly of Exeter, announce the engagement of their only daughter Lillian Isabel, to Mr. George Edwin Ewing, Taber, Alta., formerly of Richmond, Que. The marriage is to take place quietly in Burford early in September.

Mrs. Alex. Stewart was in London this week.

Miss Hustus of Hamilton is the guest of Miss Hettie Sweet.

Mr. Lyman Palmer of London visited in town this week.

Miss Millie Hyndman of Toronto is visiting at her home here.

Miss Katie Meakins of London is visiting at her home here.

Mr. Wm. White, of London, visited his parents near Rodgerville over Sunday.

Mr. Jas. Walker, London Road, South lost a mare by death on Tuesday, valued at $300.

Mr. Chas. Dyer, who has been engaged on the Molsons Bank staff, Montreal, is again in charge of his old position at the Bank here.

Miss Lottie Hyndman of Toronto who visited here the week end, left Saturday for Sarnia to visit, after which she will return to her home here.

J. M. Broderick of Regina, son of Mr. John Broderick of town, has telegraphed that he and his wife were not injured in the terrible cyclone of Sunday afternoon.

Mr. G. L. Waugh was in Toronto, over the holiday. Mrs. Waugh who has been visiting in the city, returned home with him.

A rink of bowlers, J. W. Bawden, S. G. Bawden, N. D. Hurdon and R. N. Creech attended the Ridgetown tournament this week but did not bring home any of the silverware. Three rinks skipped by R. G. Seldon, C. B. Snell and S. G. Bawden are in Seaforth at the tournament.

Our Method of Testing your sight

Looking into the eye with the Retnioscope. We are able to see all defects and measure them accurately. It is then an easy matter to supply you with the "Glasses that Suit." This is what we have been doing and are doing and going to do, that is fit you with glasses that are satisfactory When you come to us we undertake to do this and back it up with our guarantee to do it.

Do not forget the Thursday half-holiday, commencing in July.

MOUNT CARMEL.

Died—The death occurred here on Friday evening, June 28th, of Mrs. Lennon, aged 78 years, widow of the late Robert Lennon, who predeceased her six years. She is survived by three daughters—Sister St. Ann of Mt. Hope, London; Mrs. Biggar of Niagara; Mrs. Stiles of Detroit, and two sons in the West. Requiem Mass was sung Monday morning at 6.30 o'clock after which the remains were conveyed to Centralia thence on Huron and Bruce to Goderich, where she was laid to rest beside her late husband.

Mr. Dinnis A. Quarry of London is visiting his parents here.—Mrs. Walsh of London is visiting her father, Mr. Henry Doyle, who is seriously ill at his home.—Mr. Arthur O'Neil of Centralia called on Friends here Sunday.—A number from here attended the funeral of the late Mrs. Lennon at Goderich on Monday.—Miss Heaney of Parkhill called on friends here Sunday.—Mr. A. Mollhargey and son Mathew of Detroit were here one day last week on business.—Mr. Thebold Dederich had a successful shed raising Saturday afternoon.

ANXIETY FELT.—The Regina disaster caused no little uneasiness and anxiety to many Exeter people who have friends and relatives living in that city. According to the latest reports, reports, however, there are none from this vicinity who have suffered death, or even lost property as a result of the cyclone.

MCGILLIVRAY COUNCIL

Council met pursuant to adjourment in Town Hall, McGillivray, on June 24th, All members present. Minutes of last meeting were read and signed. Accounts amounting in all to $1516.54 were passed and orders issued in payment.

Rosses—Nickles—That a grant of $25.00 be giving towards gravelling East Williams town line, provided the East Williams Council grant a similar amount and Jas O'Neil be appointed commissioner to expect the same. Carried.

Murdy—Robinson—That six months extension of time be granted to Alex. Baird, C. E., to make his report on the Mud Creek and Pollock drains.—Carried.

The council then adjourned to meet in the Town Hall on Monday, August 5th, at one o'clock p. m.

J. D. Drummond, Clerk.

HAY FOR SALE

The undersigned will offer for sale by public auction on LOT 5, CON. 5, USBORNE, on FRIDAY, JULY 5th, '12 at 2 o'clock p.m. about 45 acres of standing Timothy Hay to be offered in Five Acre Lots. TERMS.—3 months' credit will be given on furnishing approved joint notes, A discount of 5 per cent. per annum off for cash.

JAS. STANLEY, Auctioneer. QUINTON BROS. Props.

TENDER FOR SEWER EXETER ONTARIO

Tenders will be received up to Friday evening, July 12th, 1912, 7 o'clock p. m., for the construction of about 2000 feet of sewer, from the north side of Wellington street to the Post Office. Plans and specifications and forms of tender may be seen at the office of the Reeve, W. J. Heaman, or the undersigned. The lowest or any tender not necessarily accepted.

T. B. Carling, Clerk.

Debentures For Sale

The Corporation of the Village of Exeter will receive tenders up to 7 o'clock p. m., Friday, July 19th, 1912, for the purchase of Sewer Debentures, running 20 years, bearing 5 per cent. interest per annum, from the issue thereof, payable in annual sums of $401.22 at the Canadian Bank of Commerce, Exeter.

T. B. CARLING, Clerk.

Cyclone Strikes Regina

40 DEAD AND HUNDREDS HURT—PROPERTY LOSS SEVERAL MILLIONS.

Regina, June 30.—A terrific windstorm accompanied by hail and rain struck this city from the south at ten minutes to five this afternoon, cutting through the heart of the business centre, causing a loss of 40 lives and the injury of two or three hundred. The hospitals are full, and temporary hospitals are being created. The damage will total millions, two churches and several public buildings being destroyed. The chief loss of life took place in the Saskatchewan Government telephone exchange, which was blown down. Relief gangs are searching the ruins, and bringing out the dead and injured, but the number of telephone operators in the building is not known.

Two hundred private residences were carried down in the blast. Substantial brick buildings also went, including the Canadian Pacific Railway's roundhouse.

At the present time no idea can be obtained of the actual number of deaths. Every ambulance in the city has been working since six o'clock carrying injured to the hospitals, which were filled early in the evening, and to a number of improvised hospitals in some of the larger buildings left standing. Crowds of volunteers all over the city are assisting in the work of tearing up the wreckage, and bodies of the killed and injured are being uncovered every minute. The streets are full of hurrying men and women speeding on their errands of mercy.

EXETER OLD BOYS MARRIED IN LONDON

Evans—Gould—A very pretty wedding was solemnized at 4 o'clock on June 26th, when Miss Meda Gould, daughter of Mr. and Mrs. Joseph Gould, 558 Colborne street, London, was united in marriage to Mr. Alderyn Evans, son of Mr. and Mrs. John Evans, of 907 Queens avenue. The ceremony was performed by Rev. Humphrey Graham, of the Wellingham Street Methodist Church, in the presence of guests from London, Berlin, Guelph, Cobourg and Detroit. The bride looked charming in a gown of cream charmeuse satin, with veil and orange blossoms, whilst the bridesmaid, Miss Daisy Gould, wore a becoming dress of pale blue silk. Mr. Joe Manning attended the groom. After the ceremony Mr. and Mrs. Evans left on a wedding trip to Toronto, Ottawa and Montreal, and upon their return will reside at 439 Woodman avenue, London. The bride's going-away costume was of dark blue serge, with hat to match.

Thomas—Calcott—A quiet wedding took place on June 26th, at 3 o'clock at the residence of the bride's mother, when Miss Alice Calcott of Brisco street, London, became the bride of Dr. Samuel Thomas, of Byron avenue, Rev. Mr. Harvey, of Askin Street Methodist Church performed the ceremony in the presence of a few intimate friends. After a short wedding trip Dr. and Mrs. Thomas will reside on Cynthia street Among many handsome gifts received by the happy couple was a silver tea service from the Askin Street Methodist church choir, of which both have been members for some time.

FIRE AT CLINTON.

Clinton, June 28.—The Hotel Normandy owned by S. S. Cooper, and now being conducted by his father-in-law, Mr. Hanna, was discovered to be on fire at 2.30 this morning, and but for the prompt action of the fire brigade, which had water on within less than five minutes after the alarm sounded, the place would have been a total loss. As it is, a great deal of damage was done by smoke and water, owing to the nature of the building. The boarders and travellers escaped. The loss is covered by insurance. The Centre Huron License commissioners met since the fire regarding the Normandie license which expired in June, and to consider the giving of the license to John Hanna, a farmer, living near Milverton, and father-in-law of Mr. Cooper. The bar was ordered to be closed and the hotel put in condition before the license would be granted.

DROPPED DEAD IN BIDDULPH.

This community was sadly shocked when it became known that Mrs. William Lewis of the 3rd concession of Biddulph had dropped dead on Sunday night last about 11 o'clock. The deceased had been a sufferer from rheumatism, but was up and around as usual up to the time of her sudden death and no one ever dreamed the end was so near at hand. It is supposed that death was due to the rheumatism going to her heart. Mr. Lewis was absent from home at the time, he being in Utah, but who is expected home for the funeral, which takes place to-day (Thursday.) Besides the husband she is survived by four sons and one daughter.

DEATHS

Lennon—In Mt. Carmel, on June 28th, widow of the late Robt. Lennon, aged 78 years.

BIRTHS

Stookes—At Greenway, on June 26th, to Mr. and Mrs. John Stookes, a daughter.

Box—In Stephen, on July 2, to Mr. and Mrs. Chas. Box, a son.

MARRIAGES

Evans—Gould—In London, on June 26, Aldewin Evans, son of Mr. and Mrs. John Evans, formerly of Exeter, to Miss Meda Gould, of London.

Thomas—Calcott—In London, on June 26 Dr. Samuel Thomas, formerly of Exeter, to Miss Alice Calcott of London.

McKay—Scott—At Cromarty on June 26 Miss B. Scott, daughter of Mr. and Mrs. Jas. Scott, to Rev. R.G. McKay of Kintore.

MAKING SAFE INVESTMENTS

WHAT THE SAO PAULO AND RIO SHAREHOLDERS WILL GET

Details of the Generous Plum—Danger of Being Carried Away by Good Fortune of Others—How to Speculate if You are Bound to Take a Chance—Avoid Marginal Speculations and Buy Outright.

The articles contributed by "Investor" are for the sole purpose of guiding prospective investors and, if possible, of saving them from losing money through placing it in "wild-cat" enterprises. The impartial and reliable character of the information may be relied upon. The writer of these articles and the publisher of this paper have no interests to serve in connection with this matter other than those of the reader.

(By "Investor.")

The one topic of conversation in the market during the past few weeks has been, "What will happen to Rio and Sao Paulo." Now that this question has been answered and the excitement incidental thereto somewhat lessened, investors and speculators are asking themselves and everybody they meet just what the new order of things will bring about.

A new company with a modest capital of $150,000,000 has been formed to be known as the Brazilian Tramways Company, or some similar name. This company is to take over the shares of the Rio de Janeiro Tramway Light and Power Company, giving in exchange its stock in the ratio of four shares of Brazilian preference shares and four shares of common for each five Rio shares. The preferred shares will bear dividends at the rate of six per cent., and the directors state that probably six per cent. will be paid on the common stock. That will mean that Rio shareholders will come out with a nice substantial profit. For example, the new preference shares should sell at around 103 or 104. The common shares should also sell around par, for although not so high class a security as the preference, the common stock has a great chance to take advantage of the future earnings of the company, which cannot fail to be great. So, the holder of ten shares of Rio will get stock worth at least $1,625—that is eight shares of preferred worth 103, or $824, and eight shares of common worth 100, or $800. In point of dividends the present holder of ten shares gets $50 a year. In future he will get $96, and of course more when the dividends are increased.

In the case of Sao Paulo the shareholders, of course, get a larger proportionate slice of the new company. For each share of Sao Paulo a share and a half of the new preferred and an equal amount of common are to be given. Thus, the holder of ten shares of Sao Paulo will come out as follows, figuring on the probable market prices cited above:

15 Shares, preferred	$1,545
15 Shares, common	1,500
	$3,045

Or an equivalent of 304 for his stock in the present company, while his dividends will be $180 a year instead of $100, as they are at present.

That, in brief, is the situation, and there is no question of the very good fortune of the shareholders. Unfortunately, there is one great drawback. Many people who know little or nothing about local and general financial conditions will jump into the stock market in the vain hope of making a similar "killing." And in 90 per cent. of the cases they won't.

Now, I have no quarrel with people who invest in stocks. Investing in shares may be done wisely, so as to make a tidy profit, and at the same time take no more than an ordinary business risk, but those who do invest in this fashion invest. They do not speculate. No man who buys on margin can be said to invest; he speculates, and too often speculation is just another term for gambling.

A man may look around the market at the present time, and after carefully looking at all sides of the question, decide that a certain company is in good shape, its earnings showing regular increases over a series of years and a good and growing market for its product—it may be gas, electric light, or ploughs. All companies, industrial, public service or financial, should be considered along almost identical lines, with the few variations pointed out at various times in this column. After deciding that the company's future is bright the next step is to decide whether or not the company's shares have not already discounted this future as far as the market is concerned. If the stock is returning about 6 1-2 or 7 per cent. on the market value, and earnings appear to justify an increase in dividends before long, it is a good buy. Pay for it outright and put it away until your judgment has been justified. Then, if you want to take a profit sell. At all events your income will show a very handsome rate of interest on your investment.

On the other hand, a few years ago a man decided just these points about Sao Paulo. He bought it at 156 and put up a 20 point margin. Then the hard times of 1907 came and Sao Paulo went down to 140. He had only four points of margin left, so his brokers called him for more. He put up another 20 points. Still the stock declined, and at 120 in desperation he sold out. Later the stock sold at 98. At that price another man who had also studied conditions, bought it and paid for it in full. This year, only four years afterwards, he sold his stock at 254, and would have made more if he had had patience.

These two men had exactly the same idea. They were both right, but one took the wrong way of obtaining his end. He took a chance and the market went against him. If he had bought outright he wouldn't have made as much as number 2, but he would have made 100 points and got 16 per cent. dividends—6 66 per cent. on his investment—during the four years. But he was a speculator and lost.

There is a very obvious moral.

TORONTO CORRESPONDENCE

Chairman Dominion Railway Board—Poverty in the City—Housing the Poor—Echoes of Bygone Days.

Hon. W. J. Hanna, Provincial Secretary, is again in the lime light in connection with the Chairmanship of the Dominion Railway Board. It is curious to note how many positions Mr. Hanna's name has been associated with during the past five years. For a long time there was a rumor recurring about once a month that he was going into Dominion politics. Then September, 1911, came and passed, and it was Mr. Cochrane who went. In connection with this incident there is an interesting story, that Mr. Hanna could have been the campaign organizer for Ontario just as he was in 1908, and probably subsequently a Dominion Cabinet Minister, but that he guessed wrong as to the probable result. But that may be just a yarn. Then, there have been persistent rumors that Mr. Foy would resign and that Mr. Hanna would be the next Attorney-General. And it has been generally understood that as matters stood he was the logical successor of Sir James Whitney. At one time he was offered the position of Corporation Counsel of Toronto at a fat salary, a position which afterwards went to Mr. Drayton, and in this connection it was interesting to see the other day an interview with Mr. Drayton, in which he told of having declined the Railway Board Chairmanship. But meantime, Mr. Hanna has stayed on year after year as Provincial Secretary.

PLAYED WITH THE WAIFS.

Mr. Hanna's heartiness and good humor are infectious. He loves children. One day a group of little waifs were waiting at the Parliament buildings to see some official. Mr. Hanna corralled them, took them into his luxurious private office, to which millionaires sometimes impatiently wait admittance, and had a half-hour's good play with them.

As to his mental capacity, it is doubtful if his present position has revealed his real worth to the public. The continuous linking up of his name with some new position has no doubt reflected a popular notion that he was too big a man for the position of Provincial Secretary.

POVERTY IN TORONTO.

In the midst of bounding prosperity, and of increasing luxury for the classes there is probably more acute poverty in Toronto than ever before. This is merely the history of large cities everywhere, but it is discouraging to those who hoped that we in Canada might avoid some of the evils which have grown up in the old world.

A "Fresh Air Fund," collecting money to give picnics to children "who would not otherwise be able to have a single half-day's outing on the beach or in the country during the summer," announces that last summer it was necessary to accommodate not less than 5,000 Toronto children. The testimony of other funds and charities is to the same effect. From which it may be deduced that there are upwards of 5,000 families in the city whose condition is one approaching, if not already arrived at, abject poverty.

There is no lack of work for both men and women who will work. The trouble in most cases is a result of sheer shiftlessness and vice, chiefly drunkenness. We are developing our proportion of "unemployables," the same as old-world cities. Despite immigration laws, which are supposed to exclude all such, they sometimes get in. But the saddest fact is that many of them are Canadian born and bred. The lure of the city attracts the dross as well as the gold.

NEW FAD FOR "HOUSING."

In connection with charitable work, the latest fad is schemes for housing the poor, the "housing problem" it is called. Perhaps "fad" is a too derogatory word to apply to an enterprise that is altogether commendable. In England housing schemes are no new scheme, and while they have no doubt done good in their way, it is doubtful if they have accomplished the end they have been aimed at. Instead of abolishing slums they have simply shifted their location.

Now a company of public-spirited citizens has been organized to lay out a few acres of moderate-priced Toronto land in small homes of model design and construction for poor people. It is to be hoped they will achieve their purpose.

Certainly there is need of some relief for overcrowding. Within the last few days almost indiscribable conditions have been discovered in several sections of the city. In one house of ten rooms ten families were found to be living. In another house of moderate size 77 lodgers were found. And, of course, overcrowding is nearly always accompanied by social vices; for example, in one small house one woman was found living with twenty men. In nearly all these and similar cases the men are foreigners, who left conditions in Europe probably worse than those in which they are now.

PASSING OF GOVERNMENT HOUSE.

The beautiful old grounds of Government House at the corner of Simcoe and King streets are no more, and the last vestige of the house itself will soon have disappeared. A building-wrecker paid $2,800 for the privilege of tearing the place down. The grounds have been ploughed up and levelled; a beautiful ravine, where a creek rippled in the old days before all Toronto's creeks were turned into sewers, has disappeared. The beautiful old elms have been turned into cordwood, and the whole scene varies not at all from that which may be seen anywhere that a railway is putting in new sidings. The building dated only from 1874; before that its site was a favorite picnicking ground "out in the country," for the city of that date lay to the east. When it was constructed the adjoining streets, Bay, Simcoe and Wellington, became the fashionable district, just as Chorley Park, five miles away, is now having its boom.

MORE ECHOES OF BYGONE DAYS.

Nearby was the residence of Sir Mortimer Clark, one of the finest of its day, which now also makes way for the C. P. R. freight yards. For the last twenty years Sir Mortimer refused to follow the procession to the outskirts, but braved the smoke and noise of shunting trains and factories. The residence of William Cawthra, landed proprietor, the richest Torontonian of his day, and founder of the Cawthra estate, who during the Crimean war used to take his deposits—in silver—to the bank in a wheelbarrow, has been turned into a bank. It stands at the north-east corner of Bay and King.

The late Goldwin Smith's "Grange" has been turned into an Art Gallery. The house built in 1822 by Sir William Campbell, then Chief Justice, at the corner of Frederick and Duke, survives as part of a horse-nail factory.

GET ACQUAINTED WITH YOUR NEIGHBORS.

If you are genteel in appearance and courteous in your manner, you will be welcomed in every home in your locality, when you are showing samples of our superior toilet goods, household necessities, and reliable remedies. The satisfaction which our goods give, places the users under an obligation to you, which wins for you the same respect, esteem, and intimate friendship given the priest, physician, or pastor, and you will make more money from your spare time than you dream of, besides a host of friends.

This is your opportunity for a pleasant, profitable and permanent business. Address, The Home Supply Co., Dept 20, Merrill Building, Toronto, Ont.

PRICES OF FARM PRODUCTS

REPORTS FROM THE LEADING TRADE CENTRES OF AMERICA.

Prices of Cattle, Grain, Cheese and Other Produce at Home and Abroad.

LIVE STOCK MARKETS.

Montreal, July 2.—A few top quality steers sold at $8 to $8.25, while the lower grades sold at from $4.00 to $5.50 per cwt. Inferior butchers' cattle ranged from $2.50 to $3.50, while the better grades sold at from $4.50 to $6.50 per cwt. The top price realized for the best bulls offered was $5.50, and the common sold from that down to $3.50 per cwt. Sheep declined 50c to $1.00 per cwt., on account of the increased supply, and sales were made at $4.00 to $4.50 per cwt. The demand for lambs was good at $8.00 per cwt., and calves sold at from $3 00 to $8.00 each, as to size and quality. Hog prices declined 15 to 25c per cwt., with sales of selected lots at $8.85 to $9.00, and mixed lots at $8.50 per cwt., weighed off cars.

AN AGE LIMIT.

Civil Service Commission's Announcement.

A despatch from Ottawa says: Consternation has been created in the civil service here by the action of the Civil Service Commission, which has ruled that pending a denite regulation of the Cabinet, to which the matter has been referred, no official of 65 years or upwards shall be eligible for promotion. In the meantime the promotion of nearly a dozen capable men has been held up and many others who have reached the age limit are on the anxious seat. The statutes of 1870 contain a minute laying down an age limit of 60 years, but this has been a dead letter for years. Commissioner Shortt, however, says the present action of the Commission is not based on this, but on the practice in Great Britain and the United States. The Commission has wide discretionary powers in a matter of this kind. Officials throughout the country are affected.

BACILLUS TO CURE CHOLERA.

Pasteur Doctors Think They May Have Found Solution.

A despatch from Paris says: The Matin says that the physicians at the Pasteur Institute at Tunis claim to have achieved a success with the new prophylactic method of treating Asiatic cholera. Briefly, it consists of injection of the comma bacilli found in the intestines of cholera patients. It is said that the blood thereby becomes extremely rich and renders people immune from the contagion. Three physicians, Nicolle, Coner and Conseil, experimented on themselves, and also swallowed the bacilli. Dr. Reux, in reporting the matter to the Academy of Sciences, said that even if the efficacy of the experiments were not proved, they were interesting and deserved to be followed up.

THE NEWS IN A PARAGRAPH

HAPPENINGS FROM ALL OVER THE GLOBE IN A NUTSHELL.

Canada, the Empire and the World in General Before Your Eyes.

CANADA.

The fire loss at Chicoutimi, Que., is now placed at $1,250,000.

A Norwegian lumber vessel is on the rocks off the Labrador coast.

Peter Blue, a surveyor, was drowned while swimming in Porcupine Lake.

The garment manufacturers in Montreal refused the strikers' request for a conference.

W. H. Walsh, famed as a detective in the early Yukon days, is dead at Vancouver, aged 47.

It is believed that Major G. H. Baker, M.P. for Brome, will be appointed Solicitor-General of Canada.

The 13th Royal Regiment, Hamilton, is planning to celebrate its semi-centennial in September.

The Mackenzie interests are said to have acquired control of the Dominion Power & Transmission Company, Hamilton.

Owing to the dockers' strike an Atlantic liner returned to Montreal with the same cargo she carried from this side.

John Cummings, sentenced to hang at Montreal for wife murder, has been granted a stay of execution until October.

Ray Williams was drowned and the freighter Bothnia sank when it collided with the steamer Currie in St. Clair River.

Census returns show the urban population of Canada is increasing much faster than the rural.

GREAT BRITAIN.

Three suffragettes were arrested in the precincts of the British House of Commons, after smashing door panels.

There were disorderly scenes in the British House of Commons when a Socialist member made an attack on Premier Asquith.

The picture known as "Rembrandt's Father," purchased as a copy, but declared to be the original, has been sold for $112,500.

UNITED STATES.

Edward Skae of Detroit, a native of Canada, was killed in an auto accident.

Detroit police believe they have the two men who held up the Royal Bank in Vancouver in January. One had nearly $4,000 in Canadian currency.

GENERAL.

A German airship with twelve passengers made a nine-hours' flight over the North Sea.

Col. Jose Ramerez, formerly director-general of telegraphs and telephones, Nicaragua, was assassinated.

British troops were despatched from Hong Kong to guard the frontier. The city of Canton is in a ferment.

"HEARING" THE LIGHT.

The Optophone Is the Invention of Fournier D'Albe.

A despatch from London says: A blind man stood in the middle of a large room at the Optical Conference Exhibition in London on Wednesday and told, without using the sense of touch, how many windows were in the room, and how many persons were between himself and the wall. He did it by "hearing," light and shade. The medium of the seeming miracle was the optophone, a wonderful invention of Mr. Fournier D'Albe, the well-known scientist and Celtic scholar. The optophone makes light and darkness audible. The invention is based on the metal selenium's well-known property of being affected by light. Mr. Fournier D'Albe contrives to make the effect of light on the passage of electric currents through selenium appreciable in a telephone receiver, and clock work mechanism can be adjusted so that darkness is audible and bright light silent, or vice versa. The apparatus is contained in an oblong box about 26 inches long and eight inches deep.

HUNDREDS PERISH.

Cloudburst Destroys a Mexican City.

A despatch from Los Angeles, California, says: The city of Guanajuato, Mexico, was destroyed and severeal hundred lives lost as the result of a flood following a cloudburst a few days ago. Despatches received from the Mexican capital on Thursday give out details. The water rose so quickly that hundreds of poens living along the river were overwhelmed. Few houses in the lower part of the city were left intact, and the Jardin del Cantador, or singing garden, said to have been one of the most beautiful in the world, was entirely washed away, together with more than fifty private parks situated along the banks of the river at the foot of Mount San Nicholas.

AN ORCHARD COMPETITION

Arranged by Department of Agriculture and Fruit Growers' Association

A despatch from Toronto says: The Department of Agriculture and the Ontario Fruit Growers' Association have arranged to conduct an orchard competition in the Province this year. For the purpose the Province has been divided into six districts, in each of which prizes will be given, ranging from $15 to $75, according to the acreage. The districts are:

No. 1, Eastern Ontario, comprising Lennox, Addington, Frontenac, Renfrew, Leeds, Lanark, Grenville, Carleton, Dundas, Russell, Stormont, Glengarry, and Prescott.

No. 2, Lake Ontario, comprising Halton, Peel, York, Ontario, Durham, Northumberland, Hastings, and Prince Edward.

No. 3, Niagara, comprising Lincoln and Wentworth.

No. 4, Lake Erie, comprising Essex, Kent, Elgin, Norfolk, Haldimand, Welland, Brant, Oxford, Middlesex.

No. 5, Lake Huron and Georgian Bay, comprising Lambton, Huron, Bruce, Grey, Simcoe.

No. 6, Centre Ontario, comprising Victoria, Peterboro, Dufferin, Waterloo, Wellington, Perth.

In District No. 3 all the fruits and grapes will be included in the competition, but in other districts the competition will be limited to apples.

SEA SALMON LANDLOCKED.

Interesting Capture Made in Algonquin Park.

A despatch from Ottawa says: A remarkable fact has just come to light in the capture of a specimen of landlocked salmon in Algonquin Park. The fish was sent to Ottawa to be examined by Prof. Prince, Dominion Commissioner of Fisheries, as many sportsmen at the park contended that it was not a salmon but a hybrid specimen. Prof. Prince pronounces the fish a true salmon and one of the finest he has seen. Its weight was nearly two pounds. The discovery is an important one for sportsmen in the Province.

SIXTEEN DEAD OF PLAGUE.

U. S. Authorities Take Charge of Situation in Porto Rico.

A despatch from San Juan, Porto Rico, says: American medical officers will take charge of the situation here in an endeavor to stamp out speedily the bubonic plague. Sixteen deaths have occurred from bubonic in Porto Rico. Certificates of health are now made compulsory for persons leaving San Juan, on account of protests received from residents of interior towns.

EMBARGO ON LIVE STOCK.

Guelph Sheep Importer's Trip to Scotland May Be Fruitless.

A despatch from Guelph says: Mr. George Whitelaw has received word that the Canadian Government has put an embargo on the importation of live stock from the old lands, on account of the outbreak of the foot-and-mouth disease there. This will mean that the trip of his brother, who is at present in Scotland after Leicester sheep, will be fruitless, unless he had the sheep on the water at the time that the embargo was placed on.

FRENCH GUN EXPLOSION.

Twenty-three Officers and Men Were Injured.

A despatch from Toulon, France, says: During the practice aboard the French armored cruiser Jules Michelet on Wednesday off Hyeres Islands a premature explosion of a sixteen centimetre gun occurred. Three officers and twenty seamen were injured. One of the latter died in the hospital, and four others are in a critical condition. The charge was fired as it was being pushed into the gun.

1,530 DIVORCEES IN CANADA

A Blue Book Gives Some Added Information Covering Population.

A despatch from Ottawa says: Some additional details respecting the census are set forth in a blue book just issued.

The largest gain in the period of forty years was made by Montreal, being 355,489; the second largest by Toronto, being 317,538; the third largest by Winnipeg, being 135,794. Vancouver's growth was 100,401 in less than 30 years.

Males totalled 3,821,067, and females 3,383,771.

Males, single, numbered 2,369,160, and females, single, 1,941,514.

Males, married, were 1,331,564, and females married, 1,251,182.

Widowers totalled 89,121, and widows 179,598.

Divorcees numbered 1,530.

Comparing the four first classes by percentages of population in 1871 and 1911, males increased during the 40 years by 2,056,756, and females by 1,662,321; single males by 1,185,373 and single females by 842,138; married males by 788,527 and married females by 708,843; widowed males by 51,634 and widowed females by 99,703.

The number of occupied dwellings in the sub-districts of the Dominion in 1911, was 1,413,913, and the number of families, 1,488,353, compared with 1,028,892 dwellings and 1,070,747 families in 1901.

The average number of persons per dwelling in 1911 was 5.096, and per family, 4.841, compared with averages of 5.220 per dwelling and 5.016 per family in 1901.

BONDS PAYING 6% INTEREST

¶ The First Mortgage Bonds of Price Bros. & Company at their present price pay 6 per cent interest. The security they offer is first mortgage on 6,000 square miles of pulp and timber lands scattered throughout the Province of Quebec. The timber is insured with Lloyds of England against loss from fire. The earnings at present are sufficient to pay bond interest twice over, and when the mill now in course of construction is in operation, earnings will be enormously increased. These bonds can be quickly converted into cash, as there is a ready market for them.

¶ From standpoints of interest return and security, these bonds constitute an investment of exceptionally high order. There is every reason to believe these bonds will considerably increase in value.

We will be glad to send you literature further describing these bonds.

NEW STRENGTH FOR NURSING MOTHERS

Aching Backs and Tired Limbs Need Not be Endured

Aching backs, tired limbs, attacks of faintness, headaches and backaches, need not be a part of woman's life. There are times when her blood needs special attention, and these times are indicated by one or more of the above symptoms. It is at such times that Dr. Williams' Pink Pills are worth their weight in gold to women, for they actually make the rich, red health-giving blood which makes weak, tired, despondent women, active and strong, and feeling equal to all their household duties. Such a sufferer was Mrs. William Sullivan, Main River, N. B., who says: "I am writing to acknowledge the great good I received through Dr. Williams' Pink Pills. After my baby was born last summer I was so run down that life was really a burden. I had to drag myself about to do my housework, and every moment was one of trial. If I went upstairs I would be breathless and tired out, and my heart would palpitate violently, and I would have a feeling as though I was smothering. My appetite was poor, and my baby was suffering from my weakness. I was advised to try Dr. Willims' Pink Pills and got six boxes, and before they were all quite used I was like a different woman. My appetite returned; I regained my strength, and the work about the house no longer bothered me. As the result of my experience I would strongly urge all weak women and nursing mothers to use Dr. Williams' Pink Pills."

There is no woman, no matter what her station in life, who will not enjoy better health if she occasionally fortifies her blood through the use of Dr. Williams' Pink Pills. The Pills are sold by all medicine dealers or may be had by mail at 50 cents a box or six boxes for $2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

WOMAN TO HARPOON WHALES

Whaler's Daughter Will Accompany Him on Expedition.

When the pioneers of women's freedom started out to win sex equality they did not reckon whale hunting among the pursuits suitable for feminine aspirants to independence. That is why Miss Hjordis Jugebrigtsen, of Christiania, Norway, is ahead of the feminist game.

She was born by the sea and her father has been a whale hunter since 1866. His record of capture runs close on 15,000 whales and his name is known among hunting men from the North Cape to Portuguese South Africa.

In the latter section of the earth his son has been domiciled for three years. Now Miss Jugebrigtsen is going with her father on a whaling expedition in that region as a regular member of the hunting party.

She has passed her apprenticeship, for several times she has accompanied the boats and has become an expert shot. Up to now she has merely assisted the men, but her skill has now matured so that she herself will fire the deadly harpoon against the monsters of the deep. She is only 20 years old, and despite her daring pursuits, she remains a tender-hearted and gentle girl.

Why Should I Use Cuticura Soap?

"There is nothing the matter with my skin, and I thought Cuticura Soap was only for skin troubles." True, it *is* for skin troubles, but its great mission is to *prevent* skin troubles. For more than a generation its delicate emollient and prophylactic properties have rendered it the standard for this purpose, while its extreme purity and refreshing fragrance give to it all the advantages of the best of toilet soaps. It is also invaluable in keeping the hands soft and white, the hair live and glossy, and the scalp free from dandruff and irritation.

While its first cost is a few cents more than that of ordinary toilet soaps, it is prepared with such care and of such materials, that it wears to a wafer, often outlasting several cakes of other soap, and making its use, in practice, most economical. Cuticura Soap is sold by druggists and dealers everywhere, but the truth of these claims may be demonstrated without cost by sending to "Cuticura," Dept. 7M, Boston, U. S. A., for a liberal sample cake, together with a thirty-two page book on the skin and hair.

FREDERIC HARRISON.

Mr. Frederic Harrison, the famous leader of the Positivists, friend of Ruskin and Carlyle, was eighty years of age last October, and he came in from an eight-mile walk at tea-time with springy step and alert bearing. It was his ordinary daily exercise, and not at all in the nature of a birthday celebration.

Mr. Harrison is spending the evening of his days near Hawkhurst, in Kent, where he delights in his garden and grounds, which he has made very beautiful. He rose on his birthday at 7.30, breakfasted at 8.30, and was engaged from 9.30 till luncheon-time with the morning

Frederic Harrison.

newspapers, his correspondence, and his new book, "Autobiographic Memoirs." His mornings work included the writing of twelve letters. Arriving home at five o'clock after his walk, he spent half an hour in showing visitors round his garden. Then there was a little rest before dinner. At eleven it was bedtime. An unbroken sleep of eight hours every night and an interest in every waking hour, that is Mr. Harrison's happy lot at eighty.

He is engaged on another work, "Among My Books." He writes about 1,500 words a day.

DUBIOUS

About What Her Husband Would Say.

A Mich. woman tried Postum because coffee disagreed with her and her husband. Tea is just as harmful as coffee because it contains caffeine—the same drug found in coffee. She writes:

"My husband was sick for three years with catarrh of the bladder, and palpitation of the heart, caused by coffee. Was unable to work at all and in bed part of the time.

"I had stomach trouble, was weak and fretful so I could not attend to my housework—both of us using coffee all the time and not realizing it was harmful.

"One morning the grocer's wife said she believed coffee was the cause of our trouble and advised Postum. I took it home rather dubious what my husband would say—he was fond of coffee.

"But I took coffee right off the table and we haven't used a cup of it since. You should have seen the change in us, and now my husband never complains of heart palpitation any more. My stomach trouble went away in two weeks after I began Postum. My children love it and it does them good, which can't be said of coffee.

"A lady visited us who was usually half sick. I told her I'd make her a cup of Postum. She said it was tasteless stuff, but she watched me make it, boiling it thoroughly for 15 minutes, and when done she said it was splendid. Long boiling brings out the flavor and food quality." Name given by Canadian Postum Co., Windsor, Ont.

Look in pkgs. for the famous little book, "The Road to Wellville."

Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human interest.

MY EYE!

In common with peasants, princes often suffer the annoyance caused by having something in the eye. Indeed, there is no section of the community that escapes the irritation. Sometimes, it is true, a person may not be aware that there is actually anything in the eye; but when there are the slightest indications of such a thing it is always well to make an examination. The most frequent site of the foreign body, according to a well-known doctor, is on the cornea, but it may lodge in the conjunctiva, which lines the inner surface of the lids, or may lie beneath the upper lid. The latter situation is frequently forgotten, and the person examining the eye may make a most thorough search of the cornea, etc., but omit to turn up the upper lid. To delay having the eye attended to is dangerous, and a small, apparently inoffensive, foreign body is often the starting-point of some grave ocular trouble.

The largest railway station in the world, so far as acreage goes, is the Southern Railway Station, Vienna, which covers close upon 100 acres.

CHILDHOOD DANGERS.

No symptoms that indicate any of the ailments of childhood should be allowed to pass without prompt attention. The little ailment may soon become a serious one and perhaps a little life passes out. If Baby's Own Tablets are kept in the house minor troubles can be promptly cured and serious ones averted. The Tablets are guaranteed absolutely safe and can be given to the newborn babe as well as the growing child. Mrs. Arthur Drapeau, Mont Carmel, Que., says: "I can give Baby's Own Tablets to my little one without fear, well knowing the beneficial results that will follow their use." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

NAGGING WIVES.

The Husband Is Frequently a Very Good Man.

The woman who nags usually takes for her subject such trivial matters. It needs so little to upset her, and set her tongue wagging. Woe betide her household during a spell of wet, dirty weather! She is constantly on the alert for those offenders who disregard doormats.

A scratch on any of the household furniture will make her fretful for a day, and an accident with the gravy on the clean tablecloth will rankle in her mind for a week.

Annoyances come to the nagger which no other woman has to bear—or so she thinks. She looks for trouble, so trouble comes to her. She is always nagging at someone for sins of omission or commission.

By some strange freak of Fate, it often happens that men who deserve good wives get those which come under another heading, and the scoundrels and the undeserving males get the model women. The husband of the nagger is frequently a very good fellow, who makes a model husband—or would, if his wife would let him. Can it be his fault if his wife degenerates into a nagger?

There are some women who make better wives under the rule of a martinet that they would under the regime of the man who puts up with anything for the sake of peace. The fear of their task-master keeps them from sliding into the grooves which end in domestic misery. If a woman is inclined to nag, she should marry the man who is autocratic.

So many women stunt themselves, and allow the weaker points of their characters to predominate, when they have settled down for life. They are apt to magnify their domestic worries—of which they always have a goodly share—until these shut out the wider interests of the outer world.

When once domestic matters fill the whole horizon of a certain type of woman, she is liable to degenerate into one who is careful and troubled about the little things, and to become eventually a nagger. She may be a good housekeeper, but she makes a worrying wife.

If the man the nagger has married should happen to be careless over manners and appearance, she has a continual subject for nagging. If he should sit at table in a negligent manner he must look out for storms, or a stony, disgusted silence.

"Do take your elbows off the table, John! How can I hope for the children to have even an apology for manners if you persist in setting such a bad example?"

"I wish you could manage to eat your food in a more Christian-like manner, John!"

"Really, I do think it hard that you cannot eat your breakfast in my company without a newspaper stuck before you!"

These and many other plaints poor John hears daily.

The children of a nagging mother have very little happiness in their childhood, and rarely carry happy memories of home life with them when they fare forth into the world.

The miximum depth of the Atlantic is over five miles, and of the Pacific just under six miles. The greatest abysses are all found to be not far from the land.

Norway's coast line, which measures 1,700 miles in a straight line, becomes 12,000 miles if followed round the fjords. In these are over 150,000 islands.

In New South Wales, Australia, any person taking part in a strike is liable to a penalty of £1,000, or to be imprisoned for two months.

Dr. Morse's Indian Root Pills

are made according to a formula in use nearly a century ago among the Indians, and learned from them by Dr. Morse. Though repeated attempts have been made, by physicians and chemists, it has been found impossible to improve the formula or the pills. Dr. Morse's Indian Root Pills are a household remedy throughout the world for Constipation and all Kidney and Liver troubles. They act promptly and effectively, and so

Cleanse the System

NOW'S THE TIME.

Now's the time to be a-doing,
If there's work that must be done,
While the earth itself is wooing
Favors from the shining sun.
Not to-morrow; you may never
Hear the bells of morrow chime,
But for every brave endeavor
Now's the time!

Now's the time to be a-moving,
If in life you've any aim;
If you're anxious to be proving
What in merit is your claim.
Don't—ah, don't to-day postpone it!
Is not idleness a crime?
If you have not overthrown it,
Now's the time!

Say not even, "I will do it
Without failure by-and-by."
That's a time with no date to it—
In the shadows let it lie!
Seize the present! It is flying
Ever from you as you climb.
Now, if you are bent on trying—
Now's the time!

Not long ago Lord Kinnaird, who is always actively interested in religious work, paid a surprise visit to a mission school in the east end of London and told a class of boys the story of Samson. In concluding his narrative his Lordship added, "He was strong, became weak, and then regained his strength, enabling him to destroy his enemies. Now, boys, if I had an enemy, what would you advise me to do?" A little boy after meditating on the secret of that great giant's strength shot up his hand and exclaimed, "Get a bottle of 'air-restorer.'"

A Boon for the Bilious.—The liver is a very sensative organ and easily deranged. When this occurs there is undue secretion of bile and the acrid flows into the stomach and sours it. It is a most distressing ailment, and many are prone to it. In this condition a man finds the best remedy in Parmelee's Vegetable Pills, which are warranted to speedily correct the disorder. There is no better medicine in the entire list of pill preparations.

Paris, as all the world knows, leads in fashions, and it is estimated that in France 940,000 women and 75,000 men earn their living by supplying the latest modes.

Minard's Liniment Cures Garget in Cows.

True religion never speaks of what it has done or is doing, neither has it any pomps or vanities, but does its work silently and without hope of reward, at least in this life.

Warts are disfigurements that disappear when treated with Holloway's Corn Cure.

A mere good impulse that does not result in good works is rather worse than useless, for if not carried out in deed it has a reaction instead of an action as its outcome.

Minard's Liniment Cures Diphtheria.

"Money, you know, is man's worst enemy." "I suppose that's why some folk like him for the enemies he has made."

Nearly all infants are more or less subject to diarrhoea and such complaints while teething and as this period of their lives is the most critical, mothers should not be without a bottle of Dr. J. D. Kellogg's Dysentery Cordial. This medicine is a specific for such complaints and is highly spoken of by those who have used it. The proprietors claim it will cure any case of cholera or summer complaint.

THE INEVITABLE RESULT.

"I am surprised to hear that Dubbleigh has broken down," said Stubbs. "He used to have a splendid constitution."

"Yes," said Wigglethorpe, "but he began amending it."

For Asthma and Catarrh.—It is one of the chief recommendations of Dr. Thomas' Eclectric Oil that it can be used internally with as much success as it can outwardly. Sufferers from asthma and catarrh will find that the Oil when used according to directions will give immediate relief. Many sufferers from these ailments have found relief in the Oil and have sent testimonials.

Heck—"If I ever marry I'll rule the roost or know why." Peck—"You'll know why all right."

Minard's Liniment Cures Colds, Etc.

KEEPING AN EYE ON THE FEE

The prisoner was charged with so trivial an offense that the judge told him that if he would plead guilty he would let him off with a fine.

"Before we plead guilty," replied the man's lawyer, "we'd like to know what the fine will be."

"Isn't it rather unusual to attempt to bargain with the court?" asked the judge.

"Perhaps it is, your honor," replied the lawyer, "but in this case it is important. You see, the prisoner has only twelve dollars, and as my fee is ten dollars, we can't afford to plead guilty if you intend to fine him more than two dollars."

EITHER WAY.

The Optimist—After all, marriage is a lottery. If you marry the right woman, there is nothing like it.

The Pessimist—And if you marry the wrong woman, there is nothing like it!

An Always Ready Pill.—To those of regular habit medicine is of little concern, but the great majority of men are not of regular habit. The worry and cares of business prevent it, and out of the irregularity of life comes dyspepsia, indigestion, liver and kidney troubles as a protest. The run-down system demands a corrective and there is none better than Parmelee's Vegetable Pills. They are simple in their composition and can be taken by the most delicately constituted.

WHEN HE DID BEGIN.

Father (to his son whom he has reproved for lying)—I never told a lie when I was small.

Hans—Well, how old were you, father, when you began?

Minard's Liniment Co., Limited.

Dear Sirs,—This fall I got thrown on a fence and hurt my chest very bad, so I could not work and it hurt me to breathe. I tried all kinds of Liniments and they did me no good.

One bottle of MINARD'S LINIMENT, warmed on flannels and applied on my breast, cured me completely.

Exeter Advocate,

Sanders & Creech, Props.

THURSDAY, JULY 4, '12

Cold, wet springs and backward growing weather never seem to have any injurious effect upon weed growth. Weeds grow and thrive under the most unfavorable growing conditions. And the fact that the grain crop is backward seems to give weeds more room to make rank growth and to spread over the fields. In a well-tilled field, where the seed has been sown in good season and there is strong rapid growth from the start, weeds have no opportunity to spread themselves. The grain crop has the start and will keep it, other things being equal. On poorly tilled land and where the season is backward weeds have every chance to spread themselves and soon take the place of the grain. Excepting in the hoe crops there is little that can be done to combat the weeds till after harvest, though in the case of annuals much can be accomplished by preventing them ripening and reseeding the field for next season. It used to be necessary, when grain was bound by hand, to go over the fields and cut thistles. To-day the self-binder is in use and the thistle is not looked upon with so much fear as formerly. This may account for the spread of this weed in many parts of the country. No good farmer, however should allow weeds of any kind to gain the ascendancy. Big crop yields and weeds cannot be secured from the same field. If weeds are prevalent in large numbers the yield of grain will be lessened. In the case of hoe crops every effort should be made by the use of the cultivator to keep the weeds in check. Cultivation will not only keep the weeds down, but help the growing crop as well.

The anti treating bill which will be introduced by the Government at next session of the Ontario Legislature will be, it is understood, of a drastic nature and will thoroughly eliminate the treating system. The hotel-keeper, the bar tender, the man who buys the drink and the man who is treated will be prosecuted under the new law. A heavy fine will be imposed upon hotel-keepers who violate the law for the first time and second time, and on the third occasion the license will be cancelled. The bar tender likely will be fined to the amount of $100 or $200, and the "treater" and "treated" will be dealt with in a similar way.

During the Farmers' Bank investigation it has been revealed that the Dashwood branch of the Bank showed the greatest amount of deposits of any of the branches, having $113,021. Then came Toronto with $87,772; Embro, $74,626; Camden East 72,309; Kerwood 67,903; Millbank 66,630; Zephyr 55,749; Bethany $55,842; Sharbot Lake $52,797; Pontypool $47,992; Arkona $43,023; Burgessville $41,773. None of the other branches—15 in number—had as much as $40,000 deposits.

CENTRALIA

Sale Register—On Thursday, July 4—House and lots and household effects, the property of Wilbert Luker, jr., Centralia. Sale at one o'clock.

Mr. Wes. Hodgins met with a painful accident, while playing ball here, on the morning of July 1st. He was running to one of the bases when in some manner he went over on one of his ankles spraining the joint and tendon badly. It will be some time before he will have use of the injured member.

The annual strawberry festival and program of sports in connection with the Methodist church, held on July 1st, were attended with a marked degree of success. The weather man was particularly favorable to the occasion, old Sol shining out in splendor all day long and a moderate breeze tempering the atmosphere made it ideal weather for such an event.

The attendance was fully up to former years, the proceeds of the festival being about $160. The good ladies in charge fully maintained the enviable reputation they have enjoyed for so many years past in catering to the wants of the inner man, and everybody seemed in a happy mood. As usual there was an abundance of strawberries and cream and an equal supply of other delicacies.

The program of sports opened in the morning with a baseball game between the home team and Clinton. The game was not one which could be called good exhibition of ball, owing to the many errors of Centralia, which proved costly and an overwhelming defeat for the home bunch, and at the end of a seven inning game Clinton had them trimmed by a score of 23 to 3.

The afternoon game between the same teams, however, was probably more evenly contested, notwithstanding that there were numerous errors made by both teams and the score was put away up on both sides, the result being 19-17 in favor of Centralia, at the end of a seven inning game.

The other sports resulted as follows:—Boys race under 8—Walter Hyslop, Louis Davey; Girls' race under 8—Mabel Cronyn, Annie Fisher; Boys' race under 12—Gerald Hanlon, Leo. Glavin; Girls under 12—Ruth Hedden, Leona O'Neil; Boys under 16—Leo. Abbott, Geo. Glavin; Girls under 16—Ruth Hedden, Mabel Cronyn; Wheelbarrow race—Willis and Willis, Crowyn and Glavin, Potato race—R. Sims, Simon Sweitzer; Rooster race—Leo. Abbott, Harry Elston; Needle and thread race—Wm. Essery, C. Glavin; Ladies race—Myrtle Squire, B. Morley; Three-legged race—Essery and Morley, Cronyn and Glavin. Boot and shoe race—Leo. Abbott, Gerald Hannon; Sack race—Leo. Glavin, H. Hanlon; 100 yard race—A. Coughlin, Gordon Morley; 220 yard race—G. Morley, Wm. Essery; Ladies throwing base ball—Miss L. Elliott, Mrs. Milton Mitchell.

The entertainment in the evening was a fitting conclusion to the day's program, a large number being in attendance and the affair was in every way a complete success. Owen Smillie of Toronto gave entire satisfaction and than pleased his audience. He is probably the most versatile and satisfying entertainer that has ever appeared in Centralia. Mrs. Maguire of Seaforth sang delightfully and left a very decided impression on her hearers. The proceeds amounted to about $95.00.

Crediton

add crediton

Owing to the lack of rain, our gardens are drying up and doing damage to the crops. The business people have been watering the streets with pails and the dust has been settled to some extent. A meeting was held the other evening in the printing office to discuss the dust problem. It has been finally decided to oil the street, from Brown's store to the butcher shop. Although some are against it, all that is required is a fair trial. Those who were in Alisa Craig on Monday saw the decided advantage it was to have oiled streets.

Mrs. Daumbra and two sons, Frank Finkbeiner and Chris. Finkbeiner of London spent Dominion Day in town.

Mrs. Dr. Ormsby went with Mrs. Brown and Miss Brown to London on Monday.

Dominion Day passed off quietly in town. The crowd divided between Centralia, Alisa Craig and the Bend. Our Stars played a double header in Alisa. A load of fans accompanied the team. The games were exciting throughout and we are to be congratulated on the success the boys had as it is usually conceded that the Craig team is one of the best in the circuit. Teddy pitched the first game and King the second. Both threw the ball in excellent form. The Craig pitcher in the second game considered it better to hit the strikers or put them on bases on balls instead of giving them strikes. Eight of our fellows were hit with pitched ball but being made of good mettle no noticable effect resulted. The following are the scores of the two games.

1st game 9-4, 2nd game 14-15.

It is expected that Strathroy team will play our boys some night this week. They are reported as being an exceedingly fast team so there is some fight in sight.

Albert Morlock has been on the sick list for a few days. We hope to see him back in the shop in a short time.

Sam Brown is at present confined to the house with an attack of tonsilitis. His many friends will be pleased to see him out again before long.

Next Sunday Rev. S. R. Knetchel of Berlin, the new presiding elder of this district will occupy the pulpit in the Evangelical Church both morning and evening. A service will be held in the church on Saturday after-noon.

Rev. Robert Hicks of the Methodist Church preached his farewell sermon on Sunday evening to a packed house. His discourse was exceptionally interesting and affecting. While Mr. Hicks has resided here he has won many friends who join in wishing him and Mrs. Hicks every success in their new circuit in Hensall. His successor Rev. Jefferson of Lucknow is expected here this week. We extend to him and family a hearty welcome.

A pleasing event took place in the Evangelical church on June 26th, when Miss Olivia Holtzmann, eldest daughter of Mr. and Mrs. J. Holtzmann, became the bride of Rev. M. M. Whiting of Parkhill, missionary under appointment to Japan. At noon the bride, leaning on the arm of her father, entered the auditorium of the church as Mr. Herb Elliott played Lohengrin's wedding march, closing with Mendelsohn's march. Miss Elva Rogers of London, a cousin of the groom, sweetly rendered "Because." The ceremony was performed by Rev. E. Burn, pastor of the church, assisted by Rev. Miller of Auburn, in the presence of a large number of assembled guests and friends. The bride, carrying a bouquet of bridal roses, looked charming in a dainty gown of liberty satin, with pearl trimmings and bridal veil adorned with orange blossoms. The little Misses Laura Foster and Hilda Burn made pretty little flower girls. Messrs. A. M. Holtzmann and Roy Whiting acted as ushers. After the ceremony was performed a dainty dinner was served at the home of the bride, after which Rev. Mr. and Mrs. Whiting left for Niagara Falls and other eastern points. The bride's going away gown was of royal blue ladies' costume cloth, with hat to match. The bride was the recipient of many costly and valuable gifts.

BRINSLEY.

Two of our popular young men, Gordon Trevethick and Wesley Hodgson left for Alberta on Tuesday, June 25th.—A few of the old school mates called on Miss Irene Dixon one evening recently and spent a very social time ere she leaves for her new home in Girvin, Sask.—Garnet Trevethick is getting along splendidly since his accident of a week ago.

CANTEEN KEEPERS WILL EACH PAY $100

Clinton, June 27.—The four men whose military canteens were raided by License Inspector Johnston of Centre Huron at Goderich last week, appeared to-day before Magistrate Reid and were fined $100 and costs. The convicted are Reuben Graham and Norman Fitzsimons, Clinton; Geo. Atkinson, Shiloh, and A. R. Smith, of Sarnia.

A WINDSOR LADY'S APPEAL

To All Women—I will send free with full instructions, my home treatment which positively cures Leucorrhoea, Ulceration, Displacements, Falling of the womb, Painfull or Irregular Periods, Uterine and Ovarian Tumors or growths also Hot Flushes, Nervousness, Melancholy, Pains in the Head, Back or Bowels, and Bladder troubles, where caused by weakness peculiar to our sex. You can continue treatment at home at a cost of only about 12 cents a week. My book, "Woman's Own Medical Adviser," also sent free on request. Write to-day. Address, Mrs. M. Summers, Box. H. 840 Windsor, Ont.

We the undersigned have known F. J. Cheney for the last 15 years, and believe him perfectly honorable in all business transactions and financially able to carry out any obligations made by his firm.

WALDING, KINNAN & MARVIN.
Wholesale Druggists, Toledo, O.

Hall's Catarrh Cure is taken internally, acting directly on the blood and mucous surfaces of the system. Testimonials sent free. Price 75c. per bottle. Sold by all Druggists.

Take Hall's Family Pills for constipation.

FARQUHAR

Rev. Powell conducted union services in the Presbyterian church on Sunday in the absence of Rev. Fletcher, who is attending the meeting of the Assembly in Edmonton.—Mr. Foster Bray was home for the week end.—The picnic held last Thursday was a splendid sucess the weather being all that could be desired. The baseball game between all the married and single men resulted in a tie, the score standing 13—13. Mr. T. Allen referred the games in a very satisfactory manner.

The children's races are as follows there being a first prize awarded and after that all in the various classes shared alike, the name given being winner of first prize;—Boys over 12—L. Kay; Boys over 10—C. Cottle; Girls over 10—N. Stewart; Boys over 8—C. Jeffery; Girls over 8—R. Pollen. Boys over 6—W. Turnbull; Girls over 6—A. Jeffery; :—Esquimanx jump, boys—J. Hodgert, Girls— M. Doupe; Leap Frog—H. Turnbull and John Hodgert; Three-legged race, bigger girls—G. Duncan and L. Kay; Middle girls—V. Stewart and W. Knight; little girls— G. Stewart and D. Armstrong; little boys,—C. Stewart and C. Doupe; Horse Race—H. Turnbull and John Hodgert; Sack race, girls—E. McDonald; Thread and needle race—G. Duncan and J. Hodgert; couple race—V. Stewart and E. Pallen. Biscuit race, little tots—Anna Jeffrey; Biscuit race, boys and girls— boys won J. Hodgert.

ZURICH.

David Suratus, one of the aged residents of Hay Township died at his home on June 27th.—Mr. J. J. Mernes is on a trip to the West.—Wm. Wagner, who has been laid up since early spring, is not making any progress towards recovery and has been decidedly worse past week.—Last week we made brief mention of the death of Henry Ortwein. He had been ill only two weeks. The deceased was always of a very robust constitution and in his prime was one of the strongest men in this section. He formerly lived on the Bronson line, where he was one of the pioneer settlers, and it is only about ten years ago that he retired from active farm life. He leaves an aged widow, four daughters and one son, besides a large number of other near relatives and friends.—Sol. Martin, Sr., was injured on Tuesday afternoon, while hauling gravel. He was driving to the pit, when his son's team dashed into the rear of his wagon and in some manner one horse got right into the wagon and struck Mr. Martin on the side of the head, inflicting a gash that required five stitches to close. Mr. Martin is over 80 years old and though losing a lot of blood it is not expected that any serious results will follow.

As a result of complaints received from all parts of the Province, the Toronto Police Department will take drastic steps in dealing with fake portrait agents who have been reaping a goodly harvest during the past three months. For sometime the local authorities have been advised by the chiefs of police of outlying towns that representatives of a Toronto firm have been soliciting orders for enlargement of photographs and collecting deposits ranging from $2 to $20 with each order. The agent explains that the firm is introducing a new line of work and that the order will be filled shortly to the entire satisfaction of his customer. There is one stipulation, however, and that is that a deposit must be paid. That is the last seen of the agent, who departs to pastures new.

At the recent meeting of the Farmers' Insititute of South Huron the following officers were elected.—Pres., J. T. Allison; vice., John Elder; Sec.-Treas., B. S. Phillips; auditors, W. D. Sanders, J. W. Ortwein. Directors for the various municipalities were also appointed, as follow,—Usborne—Robert Gardiner, J. T. Allison, W. Monteith, J. Johns. B. Williams, F. Ellerington, J. Delbridge. Exeter—R. Delbridge, T. B. Carling, E. Christie. Stephen—G. Penhale, W. D. Sanders, W. Turnbull, John Love, S. Hoggarth, J. Kellermann, Hay—H. Smith, J. Elder, F. Willert, E. Gies, L. Kalsfleisch, W. Caldwell, J. Green. Hensall—J. W. Ortwein, O. Geiger, and Alex. Murdock. Stanley—W. M. Forest, Alex. Mustard, D. McNaughton, T. Fraser, W. W. Cooper, John McEwen, R. B. McLean. Tuckersmith—John Varley, P. McKay, Wm. Black, Alex. Broadfoot, A. Buchanan. Seaforth—Geo. Turnbull, W. Murdock, M. Y. McLean. A special effort is to be made to increase the membership during the coming year. Every farmer, at least, should belong to the Institute.

TRIBULATIONS OF AN EDITOR.

The trials and tribulations of a country editor are manifold, but are borne with fortitude because the country editor has a sense of humor. The recompenses of his life are many, however, and one of these came to us the other day in the shape of the following letter from an old friend and subscriber,—

"I've stopped my paper, yes I have,
I don't like to do it,
But the editor, he's got too smart,
And I'll allow he'll rue it.
I am a man as pays his debts
And will not be insulted.
So when the editor gets smart,
I want to be consulted.
I took the paper 'leven years
And helped him all I could, sir,
But when it came to dunnin' me,
I didn't think he would, sir,
But that he did and you can bet
It made me hot as thunder.
Says I, 'I'll stop that sheet, I will
If the dongone thing goes under.'
I hunted up the editor,
And, for his cussin' caper,
I paid him 'leven years and quit.
Yes, sir, I've stopped the paper."

Dashwood

George, Charlie, Samuel Winkenwader of Montana, and Jack of Saskatchewan, who were here attending the funeral of their mother, visited with friends before leaving for their homes in the West.—V. Winkenweder and B. Hedden were in Niagara Falls for a few days before returning to Naperville, Ill.—Mrs P. Kraft has returned from Detroit.

Mrs. Stacey and Miss Fannie Preeten attended the funeral of a relative in Walkerton last week.

Mr. F. Genthner Sr. left Monday to spend a few days with his daughter Katie at Courtwright.

Miss Heavett, trained nurse, who has been taking care of Mr. George Schroeder, Sr., left for her home in London Tuesday. Mr. Schroeder is improving nicely.

Mrs. J. Hopkins and son, of St. Thomas are spending a few weeks with her parents Mr. and Mrs. J. Geiger.

Mr. and Mrs. Geo. Shore and family accompanied by the latter's mother Mr Miller spent the holidays with the former's mother in Park Hill.

Miss Addie Ehlers left Monday for Grand Bend, where she has taken a position in the Hotel Imperial.

Mr. Herman Eldt and son, Lloyd of Forest spent the holidays at his home here.

Mr. Chas. Gossman of Port Huron and Mr. Wm. Gossman of London holidayed at their home here.

Rev. Emil Schroeder of Alice spent the holiday with his parents, Mr. and Mrs. George Schroeder.

Mr. Louis Preeter of Stratford visited his family here during the holidays.—Rev. Rudolph Eltert of Tavistock spent the holidays at the home of Mr. Joseph Eltt.

Among other visitors we noticed.—Mr. Edwin Schroeder of Mitchell, Louis Zeiler of Stratford, Rudolph Stade, Zurich, Arnold Stephan, Mitchell; Jos. Davis and daughter Lillie, Exeter; Miss Clara and Ida Willert, London; Mr. White, London, who visited his uncle, Dr. McLaughlin.

Miss Ethel Kellerman, who has been in Toronto for the past six months, is spending her vacation under the parental roof.

Miss Martha Oestreicher of Naperville arrived home last week for the vacation.

The annual Sunday School picnic of the Lutheran church which was held last week proved a great success, and everybody enjoyed themselves very much.—Mrs. Wm. Breland and children of Sarnia are visiting a few weeks with the formers mother Mrs. Fisher.

HARPLEY

Monday was Dominion Day and several found their way to Grand Bend.—Miss Durr of Moray spent a few days with Mrs. Thos. Love last week.—A lady's suit coat of grey wool cloth, trimmed on the collar and cuffs with silk of same color was found hanging on John Love's gate post. Owner can have same by calling at Harpley post office.—The Love re-union picnic was held at Bayfield on Thursday, June 27th. All report a good time.—Auto owners and chaffeurs must have their own trials. One day recently an auto came into contact with the ditch on the 21st con. The auto receiving the worst of it but the occupants all survive.—Miss Annie Warner spent Thursday at the Post Office.

WHALEN.

A number of our young people spent the holiday at Grand Bend.—Mr. Albert Millson of London was the guest of his brother Jabez Sunday and Monday.—Mr. and Mrs. A. B. Gilbert of Parkhill spent July 1st with Mrs. J. V. Millson.—Mr. and Mrs. John Tales of London spent the holiday with her mother, Mrs. Sutherby.—Martin Ryan spent the past week with his sister in London.—Hector Millson took part in the program at Welburn on July 1st.—The Biddulph Council has purchased purchased 70 carloads of crushed stone from St. Marys and are having it hauled on the roads around Granton.—The spring crops in this district are suffering seriously for want of rain.

CLANDEBOYE

Mr. Fred. Ramsay, while visiting at his sister's at Arkona, was taken ill with heart trouble while at church on Sunday and died instantly. Mr. Ramsey had lived in this part of the country for 55 years, and was widely known. He is survived by one son and three daughters, all away. Interment will take place at Arkona cemetery.

When Butter Was Scarce.

Butter, which is almost indispensable nowadays, was almost unknown to the ancients. Herodotus is the earliest writer to mention it. The Spartans used butter, but as an ointment, and Plutarch tells how the wife of Delotorous once received a visit from a Spartan lady whose presence was intolerable because she was smeared with butter. The Greeks learned of butter from the Scythians, and the Germans showed the Romans how it was made. The Romans, however, did not use it for food, but for anointing their bodies.—St. Louis Globe-Democrat.

Right In His Line.

"Why don't you have a sponge to moisten your stamps?" queried the man from across the street who had dropped in to use the lawyer's telephone.

"Good idea," answered the disciple of Blackstone. "Do you want the job?"—Chicago News.

During the Spat.

Wife (complainingly)—You're not like Mr. Knagg. They've been married twenty years and Mrs. Knagg says her husband is so tender. Hub—Tender! Well, he ought to be after being in hot water that long.—Boston Transcript.

A Matter of Policy.

"There's only one thing I ever do for policy's sake."

"What's that?"

"Pay my premiums."—Smart Set.

TWO FAMOUS BANDS

Are Coming From England for the Canadian National Exhibition.

Two famous bands from England will make the musical attractions at the Canadian National Exhibition this year something long to be remembered. The Scots Guards Band from Buckingham Palace, the third of the famous brigade of bands brought across the ocean by the Exhibition people, will alternate on the main band stand with the Besses O'Th' Barn, which all lovers of band music recognize as Britain's best brass band. Two such musical attractions have never before been brought together on the continent.

THE JULY ROD AND GUN.

"Reminiscences of a Sojourn at a Hudson Bay Post" by Frank Houghton, the opening number in the July issue of Rod and Gun in Canada (W. J. Taylor, Limited, Publisher, Woodstock,) contains an interesting comparison between the characters of he white man and the Indian, illustrated in the almost quixotic honesty displayed by "Wabun Annung" when temptation, in the guise of imminent starvation, might well have proved overpowering. A profusely illustrated chapter of this popular continued article, "The Culture of Black and Silver Foxes" is another feature of this issue which contains many stories and articles of outdoor life in the various Canadian Provinces.

GRAND TRUNK RAILWAY SYSTEM — Canada's Double Track Line

Remember our motto,—"Fresh Groceries all the time."

All kinds of produce taken in exchange.

JAS. GOULD

Lost His Hair, Beard and Mustache

TERRIBLE PLIGHT OF A PENNSYLVANIA MAN REPORTED BY A PROMINENT CITIZEN.

"About two years ago my hair, beard and mustache started to come out in spots. These spots were entirely bare of hair.

Seeing PARISIAN SAGE advertised, I purchased 4 bottles and after using two of the bottles, the hair came in until now I have as good a head of hair as I had before this trouble started.

I can truthfully recommend this preparation to any one for what it is recommended for. Sam Galder, Jamison City, Col. Co., Pa. Oct. 11, 1911."

Please bear in mind that PARISIAN SAGE is not guaranteed to grow hair on bald heads.

In Mr. Galder's case the hair root was not dead and there is no good reason why PARISIAN SAGE should not do just what he writes it did.

"The next time Mr. Galder came into my store after purchasing the PARISIAN SAGE," writes the druggists who sold him, "his appearance was so changed I did not know him."

PARISIAN SAGE is without doubt the most efficient hair grower, beautifier and dandruff cure in the world, and people who are wasting time with ordinary commercial tonics should wake up.

PARISIAN SAGE will banish dandruff, stop falling hair and itching scalp, will put gloss, lustre and beauty into faded hair or money back. It is a most delightful and refreshing tonic for men, women and children. Large bottle 50cts. at W. H. COLLIS'S and druggists the country over.

DENTAL

Dr. G. F. ROULSTON, L.D.S., D.D.S.

Say a GOOD Word

It is wise to say a good word for yourself or your business, whether your stock in trade be merchandise or labor, Want Ads. are the most direct line of communication to the best buyers.

"FIGHTING BOB" EVANS.

His Meeting With His Confederate Brother and the Result.

Tradition has it that after young Robley D. Evans went to Annapolis he wasn't long in showing his mettle. The story of his first assertion of his personality runs after this fashion: When he left for the Naval academy his mother gave him a framed copy of the Lord's Prayer and instructed him to hang it over his bed. He complied, notwithstanding the fact that the rules of the academy forbade the placing of decorations in the rooms. An inspector remonstrated with him and ordered him to remove the prayer. Evans swore that he would smash the face of the first man who touched it. The inspector referred the act of insubordination to the commandant, who took it up with the secretary of the navy. Evans wrote home about the episode. It got into the papers. An indignation meeting was held in his home town and a protest made to the president. In the end a special dispensation was granted, allowing the cadet to keep his "decoration."

Being a Virginian, young Evans was urged by his mother to throw in his lot with the south when the civil war came. This he declined to do, so it fell out that he and his brother fought on opposite sides during the civil war. On one occasion Robley Evans entered a restaurant in Washington and observed his brother eating.

"An exchange of glances between us was quite enough," said Evans afterward. "Not a word was spoken by either of us. He paid his bill and hastily left the place, knowing very well that I would report his presence in the city. I ordered more oysters than I wanted and took plenty of time to eat them. He had come across the Potomac in a skiff, I was sure, and had tied it to an old sycamore tree near the spot where we used to swim. I wanted to give him a brotherly chance to get back to Virginia soil. He gained his boat and escaped, though a soldier fired at him in the darkness. On leaving the restaurant I met an officer of the provost guard and informed him that there was a Confederate soldier in Washington.

"'How do you know?' he asked.

"'That,' I replied, 'is none of your business.'

"I was arrested and taken to the provost marshal, who, on hearing my story, let me go."—Chicago Record Herald.

Why 1881 Was Chosen.

In 1881 a so called prophecy of Mother Shipton's was in every one's mouth:

The world then to an end shall come
In eighteen hundred and eighty-one.

A traveling tailor denied inspiration to this prognostic, nor, as now appears, was it remarkable for accuracy. But he went further. He demonstrated in the dust of the road why that exact date was chosen. Not only was it cabalistic, a multiple of nine, etc., but it was the only date available to Mother Shipton which in Arabic numerals was the same backward, forward and upside down. Eleven hundred and eleven was past, and not till 1881 would the coincidence recur. The next Mother Shipton will select 8008, which is not tomorrow or next day.—London Saturday Review.

Translation.

Schubert's well known "Lied des gefangenen Jagers" is a setting of Herder's German translation of Scott's lyric, "My hawk is tired of perch and hood," the second line of which—

My idle greyhound loathes his food—

runs in the German as follows:

Mein mussiger Windhorn sein Futter verschmaht.

In by far the largest collection of Schubert's songs published with English words this line appears with the following English text:

My musical woodhorn its flutter hath stilled.

Which could only have been perpetrated by some one to whom English and German were equally unknown.—London National Review.

Easy to Keep Afloat.

If every person knew that it is impossible to sink if one keeps his arms under water and moves his legs as if he were going upstairs and that one may keep this motion up for hours before fatigue ends it there would be few casualties. Such is the fact. Except where cramp renders motion impossible the man who gets in involuntary ducking has small chance of drowning. He can generally keep afloat until rescuers appear. The people who drown are those who frantically wave their arms out of water and lose their self possession.

Mathematical Snakes.

Gazing at a collection of serpents at the zoo, the rural visitor observed, "My gracious, those snakes must multiply rapidly!"

With a twinkle in his eye the keeper replied, "Some kinds do, but these particular ones are adders."—Judge's Library.

The Proper Caper.

Ascum—Tell me which is proper. Would you say "It is possible for two to live on $10 a week" or "on $10 weekly?" Wise—Well, I'd say "It is possible for two to live on $10 a week weakly." — Catholic Standard and Times.

Very Mean.

He—I believe that every man should do something to advance scientific knowledge. When I die I shall leave my brain to science. She—Stingy thing.—Judge.

We should be surprised not at our good deeds, but our bad ones.—Phillips Brooks.

GODERICH—A dividend of 15 per cent. has been paid to creditors of the Doty Engine Works, at Goderich. The failure followed the death of Frederick Doty.

MITCHELL—A quiet but pretty wedding was celebrated at the home of Dr. and Mrs. Walter Shillington on June 27th, when their daughter, Florence was married to Mr. John P. McGuire, of Toronto.

WINGHAM—The wedding took place June 27th, at high noon of Miss Ethel eldest daughter of A. H. Musgrove, M. PP., and W. J. Grier, one of Wingham's leading merchants. The wedding was one of the swellest seen in Wingham for some time, and took place at the home of the bride, in the presence of a number of relatives and intimate

BLANSHARD—David McKay, a farmer on the Mitchell Road met with a painful accident Thursday while fixing a hay fork track in his barn. The ladder he was on slipped and he fell to the barn floor, striking a cross-beam in his descent, sustaining several fractured ribs and he was severely injured on the head.

MITCHELL—Peter Campbell, in his 100th year died at his homestead in Logan on June 28. Up to two years ago he was able to do considerable work about the farm. He never was sick a day in his life until he took a paralytic stroke a week ago.

BRUCEFIELD—A pretty wedding took place at Woodslee Farm, near Bluevale at the home of Mr. and Mrs. John McNaughton, on Saturday, when Nettie, their eldest daughter, became the bride of Malcolm S. Aikenhead, London, formerly of Brucefield.

KIPPEN.—At two o'clock on Wednesday a June wedding of much interest was solemnized at the home of Mrs. Bell, Kippen, when her daughter, Mary Alice Cameron, was united in marriage with Rev. John Richardson, B. A., pastor of St. Andrew's Presbyterian church.

CLINTON—A very pretty event took place on June 26 at high noon at the residence of Mr. and Mrs. Thomas Judd, when their eldest daughter, Miss Hattie, and Mr Arthur Lawson, were united in holy bonds of matrimony. The officiating clergyman was Rev. T. Wesley Cosens. The bride was dressed in a beautiful white swiss embroidery gown.

PARKHILL—The Steamer S. S. Perry, of the Hawgood line, collided with the steamer Bothnia, in the St. Clair Flats, near Star Island, on June 26th. The Bothnia sank and Ralph Williams, a deck hand of Parkhill, Ont. was drowned.

MITCHELL—On June 26th, a marriage took place at the home of Mr. and Mrs. J. Bell, when their daughter, Mabel was united in marriage to Mr. Herbert M. Irvine, of Toronto. The ceremony was performed by Elder W. H. Grey, of the Latter Day Saints and only near relatives were present.

HIBBERT—An important social event took place at the home of Mr. and Mrs James Scott, jr., Hibbert, on June 26 when their daughter, Miss Bessie was joined in wedlock to Rev. R. G. McKay. The officiating clergyman was Rev D. Ritchie, pastor of the Cromarty Church and the number of guests present were eighty.

CLINTON—John Taylor passed away at the hospital here Sunday morning at the age of 54 years and 9 months A week or so ago he had been badly hurt near Brucefield while driving the Bayfield stage, as he had been thrown out and the wheels passed over his chest.

Dare You Marry?

SECRETS OF HOME LIFE

Statements made by patients taking the New Method Treatment. They know it Cures

☞ No Names or Testimonials used without written consent

CONSTITUTIONAL BLOOD DISEASE.

Patient No. 16474. "The spots are all gone from my legs and arms and I feel good now. I am very grateful to you and shall never forget the favor your medicines have done for me. You can use my name in recommending it to any sufferer. I am going to get married soon. Thanking you once more, etc."

SAYS TWO MONTHS CURED HIM.

Patient No. 16765. Age 27. Single. Indulged in immoral habits 4 years. Deposit in urine and drains at night. Varicose Veins on both sides, pains in back, weak sexually. He writes:—"I received your letter of recent date and in reply I am pleased to say that after taking two months' treatment I would consider myself completely cured, as I have seen no signs of them coming back (one year).

THE WORLD SEEMS DIFFERENT.

Patient No. 15923. "I have not had a regular Emission I don't know when and am feeling fine. The world seems altogether different to me and I thank God for directing me to you. You have been an honest doctor with me."

VARICOSE VEINS CURED.

Case No. 16868. Symptoms when he started treatment:—Age 21, single, indulged in immoral habits several years. Varicose Veins on both sides—pimples on the face, etc. After two months' treatment he writes as follows:—"Your welcome letter to hand and am very glad to say that I think myself cured. My Varicose Veins have completely disappeared for quite a while and it seems a cure. I work harder and feel less tired. I have no desire for that habit whatever and if I stay like this, which I have every reason to believe I will. Thanking you for your kind attention," etc.

GAINED 14 POUNDS IN ONE MONTH.

Patient No. 13302. This patient (aged 23) had a chronic case of Nervous Debility and Sexual Weakness and was run down in vigor and vitality. After one month's treatment he reports as follows:—"I am feeling very well. I have gained 14 pounds in one month, so that I will have to congratulate you." Later report:—"I am beginning to feel more like a man. I feel my condition is getting better every week." His last report:—"Dear Doctors—As I feel this is the last month's treatment that I will have to get, I thought at one time I would never be cured but I put confidence in you from the start and you have cured me."

CURES GUARANTEED OR NO PAY

Housework Drudgery!

Housework is drudgery for the weak woman. She brushes, dusts and scrubs, or is on her feet all day attending to the many details of the household, her back aching, her temples throbbing, nerves quivering under the stress of pain, possibly dizzy feelings. Sometimes rest in bed is not refreshing, because the poor tired nerves do not permit of refreshing sleep. The real need of weak, nervous women is satisfied by Dr Pierce's Favorite Prescription, and as Mrs. Briggs and others testify:

It Makes Weak Women Strong and Sick Women Well.

This "Prescription" removes the cause of women's weaknesses, heals inflammation and ulceration. It tranquilizes the nerves, encourages the appetite and induces restful sleep.

Mrs. Briggs.

Dr. Pierce is perfectly willing to let every one know what his "Favorite Prescription" contains, a complete list of ingredients on the bottle-wrapper. Do not let any druggist persuade you that his unknown composition is "*just as good*" in order that he may make a bigger profit.

MRS. BRAZILL BRIGGS, of 539 N. Washington St., Delphos, Ohio, writes: "Having taken your 'Favorite Prescription' for a bad case of intestinal disease and constipation with woman's ills, for which I was almost unable to do anything, I think I am safe in saying that there are no remedies in the world like Dr. Pierce's Favorite Prescription and 'Purifying Lotion Tablets.' I am now enjoying the best of health, and thank Dr. Pierce for his wonderful medicines which have done me a world of good."

Dr. Pierce's Pleasant Pellets regulate liver and bowels.

NOTES AND COMMENTS

In his interesting brief discussion of the Lloyd-George national insurance bill Dr. Evans recalls John Burns' statement that 30 per cent. of the poverty in England is due to sickness. British statesmen of this generation have been compelled to face the problem of poverty more definitely and sincerely than their predecessors. Under pressure of the tremendous competition for world trade and expansion, and of exigent social pressure from within, it has become apparent to British statesmanship that not only for the sake of domestic peace, but for that of international success, the poverty of a huge proportion of the British people must be studied and relieved. In consequence, the present enlightened government is proposing measures, like the insurance bill, that from our point of view seem sweepingly radical.

Just as modern military science studies to perfect the efficiency of the individual soldier, so modern statecraft must study to strengthen, equip, and keep fit the individual citizen. Neither an army nor a nation engaged in the peaceful warfare of trade may hope for victory solely by the larger strategy. Both must have its personnel at a high state of individual efficiency. Poverty makes an economic and social army of weaklings. Unquestionably health is a prerequisite of fitness, and any social investigator will testify to the part sickness plays in dragging under the normally self-supporting, self-respecting, industrious class below the level of efficiency. Where the margin of earning over subsistence is narrow, as it is with a large class of the population, sickness wipes it out. John Burns' estimate is probably not too high, and this should be especially brought home to the smug conservative of the older type who likes to dismiss poverty as the result of willful unthrift or vice.

The problem of national health is, therefore, one of the most important. Sanitation, enforced by public regulations, must be supplemented by sanitary education by municipal agencies by school instruction, and by health discussion in the press and magazines.

According to an article by T. Thorne Baker in the London Times, chicken raising by means of electricity is highly successful. Experiments with electrical currents applied to the growing of farm and garden crops have been in progress for several years; the good results obtained therefrom led Mr. Baker to try the application of a current to his poultry yard.

The chickens subjected to this abnormal treatment, he writes, grow to the same weight with two-thirds the normal amount of food; fed with the normal amount of food, they gain nearly 40 per cent more weight in three months. The electrically treated chickens are far stronger, and weakly chicks, which ordinarily would have died, thrive under the treatment. Most extraordinary result of all, the chief trouble of foster-mother chicken raising, a high death rate during the first few days, is avoided. The treatment is said to be inexpensive.

Chicken farming has long had attractiveness for many who seek a "back to the land" life. Now comes a new hope, that electricity may be the means through which the chickens will survive and thrive. Fowls that are hatched in an incubator and raised by means of electric currents may be far removed from nature, but they ought to be just as good eating as those produced by old-fashioned methods. If what Mr. Baker says proves true in general practice, the electric chicken yard will be a great success.

SWEDISH WOMEN IN COUNCIL

In Sweden there are about fifty women serving on Town Councils in the various municipalities. The Town Council of Stockholm boasts seven women members, some of whom have served in that capacity for many years, and have been re-elected time and again. The Minister of Sweden is using his influence to secure the extension of suffrage to women on the same terms as men during the present session of Parliament. The King has publicly declared in favor of the bill.

Young Folks

LITTLE RED FEATHER.

The shoemaker sat at his bench singing:

"A rat, a tat, a rat, a tat, too,
O-ho, it is fun to be making a shoe!"

Just then Red Feather came along. He said, "Can you make a pair of shoes for the Beautiful Princess?"

The Shoemaker said, "I will do my best."

Red Feather said, "When they are done, place them in the window, and the King's Messenger will call."

He bowed low and went away.

The Shoemaker made the shoes, and put six buttons upon them. Then he set them in the window, and went to bed. The next morning they were gone, and there on the window-sill was a piece of silver as big as his hat.

The Shoemaker laughed and said, "I am glad I can make good shoes."

The Dressmaker was working and singing:

"Hum, hum, hum, thread so strong
We'll sing to help the work along."

Just then Red Feather came in. He said, "Can you make a silk dress for the Princess?"

The Dressmaker nodded.

Red Feather said, "It must measure so and so, and when it is done, put it on the window-sill, and the King's Messenger will call."

The dress was done and laid on the window-sill. In the morning it was gone, and there lay a golden egg. The Dressmaker said, "I am glad I know how to make a dress fit for a Princess."

The Tailor sat cross-legged on his table. He sang:

"A Tailor is a jolly fellow,
Making coats of red and yellow."

Red Feather came in. He said, "Can you make a coat for the Beautiful Princess?"

The Tailor said, "I can try."

Red Feather said, "Trim it with one hundred stars, and put it in a basket in the fireplace, and the King's Messenger will call."

The Tailor made the coat. It shone with silver stars. He put it in the basket in the fireplace. The next morning the coat was gone, but in the basket were one hundred pieces of silver. The Tailor said, "I am glad I made a coat good enough for a Princess."

The Milliner sang:

"I should be happy and free from care
If I made hats for a Princess fair."

Red Feather stood in the door. "Will you make a hat for the Beautiful Princess?" he said.

The Milliner nodded.

Red Feather said, "It must be a white hat with a white feather on it. Leave it in a white box, and the King's Messenger will call."

By and by the hat was done. The next morning the Milliner looked in the white box. In the box was a white cake. She cut the cake. Out rolled a gold watch, and she said:

"I am happy with gifts untold,
At last I have a watch of gold."

An old woman sat knitting. She sang:

"Click! click! click! to and fro,
A Princess has small feet, I know."

Just then Red Feather came along. "Will you knit a pair of white stockings for the Beautiful Princess?" he asked.

"I will," said the old woman, "if you will not pay me in gold or silver, but will bring me something to love."

The old woman went on knitting, and Red Feather said, "Put them on the window-sill, and the King's Messenger will call for them." By and by the stockings were done and lay on the window-sill. The next day the old woman saw a Jersey cow looking in the window, and she said, "Ah! I have something to love!"

Pale Face worked in a glove factory. She sewed buttons on gloves. She sang:

"Into the country I want to go,
Where violets grow, where violets grow."

Just then Red Feather came in. He said, "Can you spare time to make a pair of white gloves for the Beautiful Princess?"

He gave the size of the gloves. They would fit a big doll.

Pale Face said she would try, and Red Feather said, "Then you may put them in this envelope and mail them when they are done."

Soon the white gloves were done. Pale Face put them in the envelope and mailed them. The next day she received an envelope. Out from it dropped ten one-dollar bills. She sang again, and she soon went to the country, where violets grow.

Invitations were sent out for the Princess's Ball. The Princess was so pleased with her clothes that she invited the Shoemaker and the Dressmaker and the Tailor and all the rest.

When the Shoemaker saw the Beautiful Princess, he said, in a whisper, "I made the white shoes she wears!" And the Dressmaker said, "I made her white dress!" And the Tailor said, "I made the coat with silver stars!"

Then they danced at the Ball.

A certain Prince danced most with the Beautiful Princess. He wore a Red Feather! — Youth's Companion.

TWENTY-FIVE CENT MEALS.

British M.P.'s Enjoy Cheapest Dinners.

Economical members of the British Parliament have not been long in undisturbed enjoyment of their much-advertised twenty-five-cent dinner. It was started for the labor members, and consisted of joint, two vegetables, sweets, bread, butter and cheese. But even rich M.P.'s found it attractive, for such a meal cannot be obtained at the price anywhere outside the dining-room of the House of Commons, and as the number of cheap Parliamentary diners grow, it at first surprised, and then alarmed, the kitchen committee.

A special meeting was called to discuss the delicate matter, when interested members learned that the twenty-five-cent meal could not be carried on. Good dollars were being lost over the transaction, and the kitchen committee were liable to public criticism. So it was boldly suggested that the price of the dinner should be raised to thirty-six cents, but the Nationalist and Labor members stoutly objected to any increase. They can get a good dinner elsewhere for that figure, so the spirit of rebellion once more raised its head.

Then a compromise was arrived at. The sweet was knocked out of the menu, and the figure allowed to stand at the old price, an arrangement which gives general satisfaction. The House of Commons remains "the best club in Europe," and rich as well as poor legislators escape the soaring cost of living by dining there.

Smythe—"Were you ever in a railway disaster?" Browne—"Yes. I once kissed the wrong girl in a tunnel."

She—"Who rocks the cradle rules the world. Remember that." He—"Then you come and rule the world. I'm tired."

AN EXCEEDINGLY PRETTY HAIR ORNAMENT.

The butterfly bow is made of pink crepe. It is a pretty accessory for an evening toilette. It is transparent and is very pretty when a light strikes it, giving off a flashing brilliancy.

SOUND AND GENUINE COUNTS

Triumphing Before Battle or Discounting Victory Before Battle

"Let not him that girdeth on the armor boast himself as he that taketh it off."—I. Kings xx. 11.

Once in ancient days an invading conqueror sent a sword to his enemy with the inscription, "I thirst," and the enemy returned answer, "Haste, the vultures hunger." Savage warriors were ever given to brutal badinage before battle, and this extravagant banter between the kings of Israel and Syria stands as one of the famous replies from the field or on the eve of conflict. As it appears to have been the only thing worth noting that Ahab ever said, it is probable that this laconic answer was framed by the counsel of elders or one of the prophets at Samaria who were in the guidance of Jehovah.

In the stress of life's warfare bluff and trickery may serve an end, but they also carry a risk. Vain boasting argues a bad cause — an empty hand—whose gamble is apt to be called disastrously. An evil cause ought to spell defeat. In the end we are bound to play the game and show our hand, and then it is the sound and genuine that counts.

LIKE BENHADAD OF OLD,

we may vainly depend upon mere trappings, plan and force for success. These are all good if they are well used, but when unworthily employed or bungled they may serve to hamper, entangle or confuse us, proving again that the "race is not to the swift nor the battle to the strong." In the end, it will be the manhood behind these that will win out.

This old braggart was resting on his laurels. Had he not subjugated these thirty and two kings who were here with armies to fight for and drink with him? And he was discounting his prospects, too. How many who have won diplomas this year will, like him, rest on their laurels, forgetting that a commencement argues a campaign, a start should indicate a finish, that success is ever in the making and is never assured till accomplished? In the end it will not be what your fathers did, nor what you did once upon a time, but what you are and what you do then.

How distressingly large is the number of temporary people who are in to-day and out to-morrow, who make a flash in the pan and

THEN GO OUT FOREVER.

Mark Antony dined with thirteen kings the day before Actium, and Benhadad feasted and drank with thirty and two kings an hour before the disaster at Mount Gerizim. If we follow the high calling of God in our work in the world it should be distinguished for stability, and if our life rests on sound principles and our warfare upon a good cause, then failure is shameful, wrong, and success is right, victory logical and necessary.

But in the end life's triumphs depend upon God! It was God that Benhadad left out of his life, plans and equipment—a fatal omission which seems to have been made by many now-a-days. Being without faith in the love and care and purpose of God, they are empty, weak.

When certain desperate pirates sought to bribe the way into a Grecian city the guards answered, "The king keeps the gates." And so does God the Almighty keep the gates of life—He holds the golden key which opens the doors of victory—His the hand also that unbars the everlasting portals of Paradise. Then, with all thy getting, get God first, and you may be sure of happiness at last.—Rev. C. Q. Wright.

THE SUNDAY SCHOOL LESSON

INTERNATIONAL LESSON, JULY 7.

Lesson I.—Malignant unbelief, Mark 3. 20-35. Golden text, John 3. 19.

Verse 20. The last short sentence of verse 19 belongs with our lesson passage as an introductory sentence.

Into a house—Probably the home of Simon Peter in Capernaum. The incident with which our lesson begins follows immediately upon the return of Jesus with his newly appointed apostles from the mountain retreat.

The multitude cometh together again—It was during the period of our Lord's greatest popularity in Galilee. In their eagerness to hear his words and to see the works which he performed the multitudes followed him even into the privacy of the home in which he was entertained, crowding about him and his disciples so that they could not so much as eat bread.

21. His friends—Probably his mother and brothers, mentioned again in verse 31. These apparently had come from Nazareth in search of him and anxious for his safety.

Lay hold on him — So absorbed was he in his work that it was necessary to touch him and take him by the hand to gain his attention.

Beside himself—Actually unconscious of his own need of rest and food.

22. The scribes—Really the sopherim, or "men of book learning." They were the editors and interpreters as well as the scribes and copyists of ancient and current writings. In the time of Jesus they were among the recognized teachers of the law, and therefore also among the recognized religious leaders of the people.

Came down from Jerusalem — For the purpose of watching the public activity of Jesus and seeking occasion for public accusation against his life and teachings.

Beelzebub — Greek, Beelzebul. Beelzebub is the name given to the god of Ekron (2 Kings 1. 6), and means probably the god of flies. The derivation and meaning of Beelzebul are both uncertain. From its use in this passage the name is supposed to signify the lord of the underworld, who is at the same time the prince of demons. (For a note on demon possession, compare Introduction to Lesson Text Studies for March 10.)

23. Called them—Instead of driving the multitude from him and insisting on an opportunity for rest and refreshment, Jesus invites them to stay and bids them draw near unto him.

Parables—The word is here used in the general sense of an illustrative or analogical statement. Among the various meanings of the word are the following: As synonymous with proverbs (1 Sam. 10. 12; Prov. 1. 1); in the sense of dark enigmatical utterances Psa. 78. 2; Prov. 1. 6); for mystical, prophetical intimations (Num. 23. 7, 18); in the sense of a figurative narrative (Ezek. 17. 1-10); for illustrative statements or comparisons (Matt. 15. 15; Luke 6. 39); for institutions, persons, or events of a typical suggestive character (Heb. 9. 9; 11. 19).

Satan—Literally, adversary.

24. If a kingdom be divided against itself—The argument beginning with the preceding verse is developed in three particular and parallel cases—a divided kingdom a divided house, and a divided adversary (Satan). In each case the result of division is the same. It leads not to conquest, but to disruption. "If Satan were in collusion with Jesus and lent him his power, he would be his own destroyer."

27. The strong man—Another concise parable, emphasizing another aspect of the incongruity in the accusation of his enemies. Jesus is not only not in league with Satan, but is actually his destroying foe (compare Isa. 49. 24, 25).

28, 29. All their sins . . . . and their blasphemies—All their wrongdoings and their impious and irreverent language in speaking against God or sacred things. The point seems to be that all manner of transgressions, including even the kind of class which might seem worse than others, are, under certain conditions, such as that of sincere penitence and a discontinuance of the offense, pardonable. Yet to this general rule there is a single outstanding exception, that of blasphemy against the Holy Spirit. Such blasphemy consists essentially in the conscious and persistent evil speaking against the most sacred and hallowed influences making for righteousness and holiness of life. When a man reaches that point of moral delinquency and intellectual insincerity at which it becomes possible for him knowingly to call good evil and to call the recognized workings and influences of higher spiritual forces vicious, the trend of his moral and spiritual development is beyond recall downward. The impossibility of forgiveness grows out of the condition of heart and mind which underlies the offense, rather than out of an unwillingness on the part of God himself to forgive. Such an attitude constitutes the essence of eternal sin, because the fixed trend of such a life is in opposition to all the forces which make for truth and righteousness.

31, 32. His brethren—For their names compare Mark 6 3 and Matt. 13. 55.

Standing without—The crowd prevented their entering the house.

Sent unto him—Passing the message by word of mouth from one to another until it reached those nearest to him, and they say unto him, Behold, thy mother and thy brethren without seek for thee.

34. Looking round on them . . . . he saith—A dramatic way of announcing the new spiritual relationship existing between himself and his followers.

35. The will of God—This is central in the message of Jesus.

Fashion Hints

SEEN IN PARIS SHOPS.

Bunches of grass are popular as hat trimmings.

Plaits are appearing in the skirts of cloth and linen.

Knife kilted frills are seen on taffeta gowns and coats.

Copper color is frequently combined with dark blue.

The apache collar has a rival in the modified Medici collar.

Many ribbon trimmed hats are being shown in the smart shops.

Parasols of white linen are more popular than ever this season.

Parasols of odd shapes, such as square, are adopted this season.

Tiny flowers of satin are dotted over some dressy skirt panels.

Touches of brilliant coloring appear upon the majority of coat suits.

Many of the lingerie gowns have broad girdles of bright colored silk.

Most of the really long sleeves on evening dresses are transparent.

Velvet bows with metallic tassels finish many pieces of frilled neckwear.

Embroidered lawn for collars and the square bib effects are growing in favor.

Buttons of all kinds share honors with ruchings and plaitings as trimmings.

Afternoon frocks of striped silk are shown with trimmings of plain taffeta.

The plaited frills are used to trim frocks, hats, negligees, and separate blouses.

Long gloves of kid and suede are elaborately embroidered and sometimes set with jewels.

Exertmely pretty is a parasol of cerise taffeta embroidered with large white coin spots.

The ornamental fichu, in its various guises, plays a prominent part in the summer wardrobe.

In a blue silk dress are often seen rows of crystal buttons, sewn on with colored silk.

A green satin collar is often given as a finish to a waistcoat of white with crystal buttons.

Green as well as cherry red makes an attractive trimming for a black satin or taffeta frock.

Ball fringe of white crochet is effective upon frocks of white lawn, organdie, mull, or linen.

Tiny serge frocks as well as those of soft summer silk show gathered fullness around the waist.

Long separate coats of white ratine have collars and cuffs of black and white striped whipcord.

Charming hair ornaments have aigrettes of spun glass. Others are of ostrich or sprays of osprey.

Crystal buttons sewn with colored silk are a popular trimming for the coat suit or one piece dress.

Although belts are much more worn, the corselet skirt is still the favorite for smart tailor mades.

Belts of black or white patent leather trimmed with black are worn with many of the linen dresses.

Large buttons in sets of three and five are the usual fastenings for the cross-over fronts of tailored suits.

Little changes are noted in the shape of lace jabots, though the majority cling to the one sided effect.

As a hat trimming, white kid flowers are sometimes seen on smart hats, large camellias being most usual.

Slipper buckles of colored brilliants, cut steel, jet silver, gilt crystal, and rhinestones may be had in endless variety for the colonial slipper.

"There is a crisis coming in China." "I told my wife so as soon as I saw the new cook handle the dishes."

"Did you ever see a Jew wearin' a kilt?" asked a man of another last night. "Wance, was the reply; "on a whisky label—Roderick Dhu!"

ONLY A MONTH;

OR, A CURIOUS MYSTERY EXPLAINED.

CHAPTER VIII.—(Cont'd.)

"Not at all. I shall take a walk before going to the office. I tell you what, Sigrid, you shall come with me and get a new English story at Beyer's, to cheer you in Frithiof's absence. What was the novel some one told you gave the best description of English home life?"

"'Wives and Daughters,'" said Sigrid.

"Well, let us get it, then, and afterward we will take a turn above Walkendorf's Tower, and see if there is any sign of our vessels from Iceland."

"You heard good news of them last month, did you not?" asked Sigrid.

"No definite news, but everything was very hopeful. They sent word by the steamer to Granton, and telegraphed from there to our station in Oifjord."

"What did they say?"

"That as yet there had been no catch of herrings, but that everything was most promising, as plenty of whales were seen every day at the mouth of the fjord. Oh, I am perfectly satisfied. I have had no anxiety about the expedition since then." So father and daughter set out together. Beyer's shop had fascinations for them both; she lingered long in the neighborhood of the Tauchintz shelves, while Herr Falck discussed the news with some one behind the counter, and admired the pictures temptingly displayed.

"Look here, Sigrid!" he exclaimed. "Did you ever see a prettier little water-color than that? Bergin in winter, from the harbor. What is the price of it? A hundred kroner? I must really have it. It shall be a present to you in memory of our walk."

Sigrid was delighted with the picture. They walked away together, planning where it should hang at home, and saying how it was just the sort of thing Frithiof would like.

"It is quite a pity we did not see it when he was away in Germany, he would have liked to have it when he was suffering from heimweh," said Sigrid.

"Well, all that sort of thing is over for him, I hope," said Herr Falck. "No need that he should be away from Bergen any more, except now and then for a holiday. And if ever you marry a foreigner, Sigrid, you will be able to take Bergen with you as a consolation."

They made their way up to a little wooded hill above the fortress, which commanded a wide and beautiful view.

"Ah!" cried Herr Falck. "Look there, Sigrid! Look, look! there is surely a vessel coming."

She gazed out seaward.

"You have better eyes than I have, father. Whereabouts? Oh, yes, now I see, ever so far away. Do you think it is one of yours?"

"I can't tell yet," said Herr Falck; and glancing at him she saw that he was in an agony of impatience, and that the old, troubled look had come back to his face.

Again the nameless fear which had seized her in the summer took possession of her.

"Yes, yes," cried Herr Falck at length, "I am almost sure it is one of our Oifjord vessels. Yes; I am certain it is the 'Solid.' Now the great question is this; is she loaded or only ballasted?"

"I think she is rather low in the water, father, don't you?"

"I hope so; I hope so," said Herr Falck.

The ship was drawing nearer and nearer, and every moment Sigrid realized more that it was not as she had first hoped. She glanced apprehensively at her father.

"I can't bear this any longer, Sigrid," he exclaimed. "We will do down to Tydskebryggen, and take a boat and row out to her."

They hurried away, speaking never a word. As they threaded their way through the busy harbor, she began to feel a little more cheerful.

"We must hope for the best," said Herr Falck.

Just as they neared the "Solid" the anchor dropped.

"You had better wait here," said Herr Falck, "while I go on board. I'll not keep you long, dear."

Nevertheless, anxious waiting always does seem long, and Sigrid, spite of her sealskin jacket, shivered as she sat in the little boat.

When her father rejoined her, her worst fears were realized. He neither looked at her nor spoke to her, but, just giving a word of direction to the boatman, sat down in his place with folded arms and bent head. She knew instantly that some terrible disaster must have happened, but she did not dare to ask what it was, she just sat still listening to the monotonous stroke of the oars, and with an uneasy wonder in her mind as to what would happen next. They were nearing the shore, and at last her father spoke.

"Pay the man, Sigrid," he said, and with an unsteady hand he gave her his purse. They walked away together in the direction of the office.

"You must not be too anxious, dear child," he said. "I will explain all to you this evening. I have had a heavy loss."

"But, little father, you look so ill," pleaded Sigrid. "Must you indeed go to the office? Why not come home and rest?"

"Rest?" said Herr Falck, dreamily. "Rest? Not, not just yet—not just yet. Send the carriage for me this afternoon, and say nothing about it to any one; I'll explain it to you later on."

So the father and daughter parted, and Sigrid went home to bear as best she could her day of suspense. Herr Falck returned later on, looking very ill and complaining of headache. She persuaded him to lie down in his study, and would not ask him the question which was trembling on her lips. But in the evening he spoke to her.

"You are a good child, Sigrid, a good child," he said, caressing her hand. "And now you must hear all, though I would give much to keep it from you. The Iceland expedition has failed, dear; the vessels have come back empty."

"Does it mean such a very great loss to you, father?" she asked.

"I will explain to you," he said more eagerly; "I should like you to understand how it has come about. For some time trade has been very bad, and last year and the year before I had some heavy losses connected with the Lofoten part of the business."

He seemed to take almost a pleasure in giving her all sorts of details which she could not half understand; she heard in a confused way of the three steamers sent to Nordland in the summer with empty barrels and salt for the herrings; she heard about buying at the Bourse of Bergen large quantities, so that Herr Falck had ten thousand barrels at a time, and had been obliged to realize them at ruinous prices.

"You do not understand all this, my Sigrid," he said, smiling at her puzzled face. "Well, I'll tell you the rest more simply. Things were looking as bad as possible, and when in the summer I heard that Haugesund had caught thousands of barrels of herrings in the fjords of Iceland, I made up my mind to try the same plan, and to stake all on that last throw. I chartered sailing vessels, hired hands, bought nets, and the expedition set off; I knew that if it came back with full barrels I should be a rich man, and that if it failed, there was no help for it; my business must go to pieces."

Sigrid gave a little cry. "You will be bankrupt!" she exclaimed. "Oh, surely not that, father — not that!"

"There is yet one hope," said Herr Falck. "If the rumor I heard in the summer is false, and if I can still keep the connection with Morgans, that guarantees me 7,200 kroner a year, in that case I have no doubt we could avoid open bankruptcy."

"But how?" said Sigrid. "I don't understand."

"The Morgans would never keep me as their agent if I were declared a bankrupt, and, to avoid that, I think my creditors would accept as payment the outcome of all my property, and would give me what we call voluntary agreement; it is a form of winding up a failing concern which is very often employed. They would be the gainers in the long run, because of course they would not allow me to keep my 7,200 kroner untouched, so in any case, my child, I have brought you to poverty."

He covered his face with his hands. Sigrid put her arm about him, kissing his hair, his hands, his forehead.

"I do not mind poverty, little father; I mind only that you are so troubled," she said. "And surely, surely they will not take the agency from you after all these years! Oh, poverty will be nothing, if only we can keep from disgrace—if only others need not be dragged down too!"

They were interrupted by a tap at the door, and Swanhild stole in, making the pretty little courtesy without which no well-bred Norwegian child enters or leaves a room.

"Mayn't I come and say good-night to you, little father?" she asked. "I got on ever so well at school, just as you said, after our merry breakfast."

The sight of the child's unconscious happiness was more than he could endure; he closed his eyes that she might not see the scalding tears which filled them.

"How dreadfully ill father looks," said Swanhild, uneasily.

"His head is very bad," said Sigrid. "Kiss him, dear, and then run to bed."

But Herr Falck roused himself.

"I too will go up," he said. "Bed is the best place, eh, Swanhild? God bless you, little one; good-night. What, are you going to be my walking-stick?"

And thus, steadying himself by the child, he went up to his room.

At breakfast the next morning he was in his place as usual, but he seemed very poorly. About eleven o'clock there was a ring at the door-bell; the servant brought in a telegram for Herr Falck. A sort of wild hope seized her that it might be from Frithiof. He rose from the sofa as she entered.

"I am better, Sigrid," he said. "I think I could go to the office. Ah! a telegram for me?"

"It has come this minute," she said, watching him as he sat down before his desk.

"How extravagant that boy is!" she thought to herself. "Why, it would have been enough if he had just put 'All right.'"

Then a sudden cry broke from her, for her father had bowed his head on his desk like a man who is overwhelmed.

"Father, father!" she cried, "oh! what is the matter?"

For a minute or two he neither spoke nor moved. At last, with an effort, he raised himself. He looked up at her with a face of fixed despair, with eyes whose anguish wrung her heart.

"Sigrid," he said, in a voice unlike his own, "they have taken the agency from me. I am bankrupt!"

She put her hand in his, too much stunned to speak.

"Poor children!" he moaned. "Ah! my God! my God! Why—"

The sentence was never ended. He fell heavily forward; whether he was dead or only fainting she could not tell.

She rushed to the door calling for help, and the servants came hurrying to the study. They helped to move their master to the sofa, and Sigrid found a sort of comfort in the assurances of her old nurse that it was nothing but a paralytic seizure, that he would soon revive.

"I will send Olga for the doctor," she said, breathlessly.

"Ay, and for your uncle, too," said the nurse. "He's your own mother's brother, and ought to be here."

"Perhaps," said Sigrid, hesitatingly. "Yes, Olga, go to Herr Gronvold's house and just tell them of my father's illness. But first for the doctor—as quick as you can."

Thus they waited till the doctor came. He was an old friend, and Sigrid felt almost at rest when she had told him all he wanted to know as to the beginning of the attack and the cause.

(To be continued.)

WOULD KNOW HIM ANYWHERE.

Visitor—"And so this is little Willie, whom I haven't seen since the night he was born. But I'd know you anywhere, my dear, by your voice."—Judge.

AT A COURT PRESENTATION

A SOCIETY LADY DESCRIBES THE CEREMONY.

How It Was Conducted in the Latter Days of Queen Victoria's Reign.

A visit to a relative who was busy with preparations for the forthcoming Court to which she is commanded, reminded me vividly of my early impressions of a Drawing Room.

I first made my bow to Royalty during the latter days of Queen Victoria's reign, when Courts were held at the unbecoming hour of three o'clock.

On my first appearance at Court I dressed very simply in a white satin gown and train, and wore no jewels. I had the advantage of the private entry. The fortunate few entitled to this privilege are members of the Corps Diplomatique, foreigners of distinction and members of the Household.

They have the right to drive into the courtyard by a separate entrance reserved exclusively for their benefit, and, once inside the Palace, they meet in a room adjoining the Throne Room, where all crush is avoided, and pass first the Royal presence, while their less fortunate friends wait their turn behind a roped-off barrier.

MY FRIEND THE PAGE.

Judging from personal experience, if a girl has any natural grace she had far better trust to that to carry her successfully through the ordeal of presentation than to take lessons from one of the many professors of deportment, who advertise their ability to instruct in matters of Court etiquette.

A little relative of mine, aged fourteen, who was acting as Page of Honor to Queen Victoria at the time, standing erect behind her Majesty, smiled encouragingly at me as I curtseyed, and I could scarcely refrain from laughing, as we had so often rehearsed this scene in private.

My little friend the Page fully appreciated the importance of his position, as his attendance at Court, for which he received—as do the four Pages-in-Waiting—£230 a year, entitled him to a whole day's leave from school on the State occasions to which he was commanded.

Formerly a post of Page of Honor meant a nomination to one of the regiments of Guards, then a costly affair. In the present day this distinction is given to the sons of parents personally known to the King and Queen, at a stipend of £230 a year, and no other privilege is granted. A boy's duty ends when he attains the age of sixteen and a half years, and he is free to choose his own profession.

Presentation at Court in the days of Queen Victoria generally concluded by five o'clock in the afternoon, when the debutante and her mother returned home to receive friends and show off their finery.

WHAT A STATE BALL IS LIKE.

A command to a State ball followed my presentation at Court, and to this I looked forward with the greatest pleasure. When the great night arrived, I dressed myself with more than customary care, and, when my toilette was complete, left home to call for my mother, who was dining out, and accompany her to Buckingham Palace.

The ball begins at eleven o'clock, but guests arrive before that hour and stand in line to watch the Royal procession enter the ball-room, preceded by the Gold Stick, who walks backwards.

To be invited and dance in a Royal quadrille is considered a much-coveted honor, but to me it was a doubtful pleasure, as, although I did not disgrace myself, my whole thoughts were so busily employed in remembering my steps, and in endeavoring to copy others, that I had no time to enjoy myself or converse with my partner.

The latter, I think, must have found me a dull companion, for, as soon as the dance was over he hurried off to my mother, in whose charge he left me.

At one o'clock supper is served in one of the magnificent apartments adjoining the long corridor.

Supper over, the Royal hosts retire in procession as they came, and the guests leisurely take their departure.—London Answers.

Good Meals at Camp Comfort

The boys at Camp Comfort are using the same stove that they had last year. It was the best they could get. It was a

New Perfection Oil Cook-stove

WICK BLUE FLAME

This year they got a New Perfection Oven
Also a New Perfection Toaster
Also a New Perfection Broiler

"Gee, what a difference in the meals a good stove makes," said one of the boys. So they called their shack "Camp Comfort." And they will tell their mothers and wives about the stove, too. For the New Perfection Oil Cook-stove is as convenient for the home as for the camp. It will bake, broil, roast and toast as well as a regular coal range.

The New Perfection Stove

is handsomely finished in nickel, with cabinet top, drop shelves, towel racks, etc. Long chimneys, enamelled turquoise-blue. Made with 1, 2 or 3 burners. All dealers. Free Cook-Book with every stove. Cook-Book also given to anyone sending 5 cents to cover mailing cost.

THE IMPERIAL OIL COMPANY, Limited
Winnipeg, Montreal, St. John, Halifax and Queen City Division, Toronto

Will you be one of the 108 farmers who will receive our Prize Contest checks?

THERE will be twelve cash prizes in each of the nine provinces (108 in all) in the 1912 Prize Contest for Canadian Farmers. The 1911 Contest was so successful in awakening interest in the use of Concrete on the farm, that a second contest, in which three times as many prizes are offered, was decided upon for this year.

The Contest this year is divided into three classes, "A," "B" and "C," and there will be four prizes in each class. (First prize, $50; Second prize, $25; Third prize, $15; Fourth prize, $10.)

Thus there are three $50 Prizes, three $25 Prizes, three $15 prizes, and three $10 Prizes, *for each province.*

DESCRIPTION OF CLASSES

In Each Class there will be First, Second, Third and Fourth Prizes ($50, $25, $15, and $10) for Each Province.

CLASS "A"—Prizes to be awarded to the four farmers in each province who use most "Canada" Cement on their farms in the year 1912.

CLASS "B"—Prizes to be awarded to the four farmers in each province who send photographs of the *best concrete work* done with "Canada" Cement on their farms in 1912.

CLASS "C"—Prizes to be awarded to the four farmers in each province who send in the best *description*, telling how any piece of concrete work was done with "Canada" Cement. (Entries for this prize must be accompanied by photographs of the work.)

Don't think that you must use a large quantity of cement in order to win a prize. The quantity of cement used does not count in Classes "B" and "C." Many of last year's prize winners used very little cement.

When you enter the Contest, you have a chance to win a cash prize of $50 as well as the certainty that you will add a *permanent improvement* to your farm. If you haven't a copy, be sure and ask for our book, "What the Farmer Can Do With Concrete." It will not only suggest many improvements that you can use in entering the Contest, but will tell you all about the use of concrete on the farm.

Just write your name and address on the attached coupon, or use a postal card, and we will send full particulars of the Prize Contest and a copy of "What the Farmer Can Do With Concrete" to you absolutely free.

BATHING SUITS FOR BOYS AND MEN—DON'T FAIL TO BUY ONE BEFORE GOING ON YOUR HOLIDAYS, AT 50c. to $1.50.—STEWART'S.

VACATION NOTICE.—Dr. Rouleston desires to announce that his dental office will be closed from July 15th to August 15th.

The Ladies' Aid of Main Street Methodist Church will hold a strawberry Festival on the Church Lawn on Thursday Evening, July 4th. The band will furnish music. A good programme will be given. Admission 25 and 15 cents. All are invited. 2t

MONEY LOST—On June 29th, between Jeff. Fisher's, Usborne, and Arthur Sanders', Exeter, a small purse containing a ten dollar bill and some small change. Finder will be suitably rewarded by leaving same at this office.

HICKS' FORECASTS FOR JULY.—A regular storm period is central on the 9th, involving the 8th to 12th, inclusive. The centre of a Mercury period falls on the 12th, extending from about the 5th to the 19th, and this fact will increase probabilities of rainfall during this period. On and about the 10th, 11th and 12th, a series of sharp thundergusts, with black, blustering clouds, will be general over most parts of the country. Some localities will get heavy downpours, but we figure that moisture will fall short of the general necessities of growing crops. A very low reading of the barometer during this period should be regarded and heeded as a danger signal. The barometer will react to higher, and change to cooler will follow behind these storms.

Dollar Doublers

Our Classified Want Ads. are real dollar doublers. In view Mother and nervous energy they will save you many times their small cost by bringing to your door what you require, whether it be efficient help, a desirable borrower for surplus cash, a position or a domestic.

A most convincing and inexpensive proof would be to try a Want Ad.

LOCAL DOINGS.

Many a man will do privately what he will denounce in a crowd.

Some men are bashful when it comes to meeting their obligations.

What is known as nervous prostration in the human family is known as fits in cats.

Many a doting father has paid hundreds of dollars to learn that his daughter couldn't sing or play.

The band gave a delightful open-air concert on the bowling green on Thursday evening while play was in progress

A wagon passing over Mr. Adolphus Hooper last week broke several of his ribs. He fell off the wagon when the spring broke.

Two rinks of bowlers of the west side of Main Street defeated two rinks from the east side on Thursday night by a wide margin.

Mrs. Miller, Mrs. Cotter and Miss Stella Gregory entertained a number of lady friends at the home of their mother, Mrs. Thos. Gregory, on Wednesday evening of last week.

Miss Eileen Farmer, daughter of Mr. and Mrs. John Farmer of London, formerly old Exeter, has graduated with honors from Loretto Abbey, Toronto, also in Senior Music from Toronto University.

The Peterborough Review reminds the topers of that town that, under a recent enactment,—"Any habitual drunkard who is arrested for intoxication twice within three months may be sent to the Industrial farm, and there detained on an indeterminate sentence for a maximum period of two years.

The present outlook for fall poultry this year is rather dismal. Reports to the merchants are to the effect that cold and wet weather have seriously damaged the young chicken crop, and this fact with the high price of eggs, will make the available supply of chickens and ducks this fall very small.

"Mr. Jacob Taylor last week sold the Brickenden homestead on Rattenbury-st. to Mr. John May of Exeter, who recently sold his farm and intends making Clinton his future home. Mr. May secures an ideal and valuable property at a reasonable price, and expects to occupy the same in the near future. We extend to Mr. May and family a hearty welcome to our beautiful town."—Clinton New Era.

The soldier boys of Exeter company arrived home Friday morning, well-tanned and well pleased with the days at the camp. The weather was ideal all the time. As we anticipated in last week's issue the Exeter boys have again won the cup for best shooting. The following are the scores made by six of the best shots in the Exeter company, out of a possible 70,—E. Snell 66, R. Honr 66, E. Harness 67, J. Kydd 68, E. Wein 68, E. Taylor 69. These scores show remarkable efficiency.

The Jarvis Record says,—"C. Wendland, who has been conducting the Commercial Hotel here for the past four years, has sold out his entire stock and goodwill to M. F. Hewson, and he with his wife and family left last week for Stratford where they intend making their future home. Mr. Wendland having decided to retire from hotel business. Miss Margaret Wendland was a valued member of the English church choir, and she, as all the family, will be much missed by the people of Jarvis." Mr. Wendland conducted the Metropolitan Hotel in Exeter before going to Jarvis.

Circulars are being sent around to the newspaper offices throughout the country by the big paper dealers to the effect that it is found necessary to advance the price of all papers owing to the increased cost of raw material and the paper mills being obliged to put on three shifts, where formerly two sufficed. The circular tells the story that the price of paper is going up. The papers affected the most are the kinds used in job printing, such as flats, bonds, linens and ledgers. On these papers there has been a big increase in cost and all former price lists have been cancelled. Naturally this means that the general cost of job printing must be increased to take care of this advance in paper values. Owing to the existing conditions in the paper market it is difficult at this time to say how high prices on paper may climb.

FLOUR MILLS MERGE.—An effort is again being made in Ontario to form a merger of flour mills, including from fifty to sixty mills. Promoters are at present engaged in touring the different towns and cities of Northern and Western Ontario, and valuing the mills and explaining the proposed consolidation. The idea is to minimize a number of abuses which are said to now exist in the trade. Some millers, however, have decided not to enter the proposed merger, but the greater number will.

SUCCESSFUL GARDEN PARTY.—The garden party given on the Trivitt Memorial church rectory grounds by the Ladies' Guild, on Friday night was a complete success, both financially and otherwise. The weather was perfect for such an event, and with the good things provided, in the way of entertainment and otherwise, all enjoyed themselves to the full. The grounds were beautifully decorated and illuminated with electric lights and Chinese lanterns. The London Harpers furnished the music and they were not only liberal in the number of selections, but the music was particularly bright and pleasing. The proceeds were in the neighborhood of $80.

NEW FIVE-DOLLAR BILL.—On Dominion Day there was issued the new five-dollar Dominion bill. It is a particularly fine piece of workmanship. On obverse side it has an extremely well executed Canadian scene—the Wentworth Valley in Nova Scotia, with an Intercolonial train coming down the famous grade on the Folleigh Mountain. On the reverse side the numeral represented by the bill is repeated over and over again. It is a remarkably good specimen of paper money, the denomination being evident at a glance, and the scene depicted being at once beautiful, artistic and thoroughly Canadian.

Miss Effie Treble was in London over the holiday.

Miss Annie Easterbrook is visiting friends in Seaforth.

Mr. Herb Mitchell of London was here over the holiday.

Mr Frank Bawden spent the holidays at his home here.

Mrs. Dale, who has been visiting here returned to Toledo Tuesday.

R. G. Seldon's rink of bowlers, consisting of Clarke, Stewart, Taman, and Seldon, took second place in the Seaforth tournament, being runners-up in the first event, and winning four salad bowls with forks and spoons, which are now on exhibition in W. W. Taman's window. The boys were beaten in their fourth game by J. B. Hooven of Clinton. C. B. Snell's and S. G. Bawden's rinks had a good time but did not get in the money.

STRAWBERRY FESTIVAL—The anual Strawberry Festival, under the auspices of the Ladies Aid of Main Street Methodist Church, held on the church lawn, Thursday evening last was attended with good success. The weather was ideal for such an occasion and the affair was well patronized. The good ladies in charge had a most liberal supply of strawberries and cream and other choice edibles and a most enjoyable time was spent by all. The Exeter band dispersed excellent music throughout which was much appreciated The proceeds amounted to about $85.

Mr. T. E. Handford and his young men of Exeter will take charge of the church services on the Grand Bend Park on Sunday the 14th inst at 11 a.m. and 7 p.m.

TORONTO HURON OLD BOYS.— The annual excursion of the Huron Old Boys of Toronto took place to the old County on Saturday last, returning Monday The objective point was Goderich. Here a number of them took an auto-bus for a trip around the county, going to Bayfield, Zurich, Hensall, Exeter, Seaforth Brussells, Wingham and Clinton. They arrived in Exeter about 8 p.m. Saturday, and were serenaded by the Exeter brass bend and by the fife and drum band. A large crowd was in town to witness the arrival, hear the bands and the playing of the bagpipes by one of the visitors Thomas Ross of Toronto. After a pleasant evening with friends the Old Boys left Sunday morning at 9.30 for Seaforth. Among the visitors were W. W. Sloan, M. W. Heron, R. S. Sheppard, John Roberton, Ed. Floody Jos. Brock, Henry Clucus, T. Ross, G. M. Elliott, T. J. W. Hooper R. Crocker, N. Cobbledick, Messrs J. Galt of Goderich and J. J. Merner, M. P., of Zurich, were with the party.

The Canning factory started their pea pack on Monday last.

The man with a clear conscience and patches on his trousers gets more out of the world than the man who goes beyond his means to be fashionable.

C. H. Sanders is having his house on Huron street veneered with brick and will have a large verandah erected in front and on the west side, and will also have a new kitchen erected and the premises otherwise improved.

The Government has established a Dairy Car Service on this line of the Grand Trunk for those desiring to ship dairy products which leaves here every Monday. The service affords excellent accommodation for dairy shipments.

Rev. Colin Fletcher of the Thames Road had a narrow escape at Regina during the cyclone. He had been at the home of Mr. Melville Martin ten minutes before the storm, and leaving walked through the district and entered the only house in the area that was not storm swept a few moments after ward. Mr. Martin's house was also partially destroyed.

The debt of the Sovereign Bank, which for the last ten months has been in control of the International Assets Company, has been reduced from $3,988,977.77 to $3,723,874.76. This statement was made at the annual meeting of the International Assets Company held in the Traders' Bank Building. The total assets are $8,408,916.79. The report spoke of the reorganization of the Chicago and Milaukwee Electric Railway, and said that some favorable news might be expected from that quarter in the near future. It also spoke favorably of the future of the Alaska Railway.

DECORATION DAY.—The Members of Exeter Lodge, No. 67, L. O. O. F. are hereby requested to attend a special meeting on Sunday afternoon, July 14, at 2 o'clock, for the purpose of decorating the graves of departed brethren.— R. N Creech, Rec.-Sec.

GOOD BALL GAME—Centralia and Exeter played a fast ball game on the local diamond on Tuesday evening, going seven innings in three-quarters of an hour, to a score of 2-0 in favor of Exeter. T. Carling pitched a star game for the locals, and Austin Dupian did the same for the visitors. Features of the game were a catch at second by Farmer, and Hoskins' throwing to second. Tom Boyle umpired satisfactorily.

Mr. A. McDonell was in London yesterday.

Miss McLean of Hensall is the guest of Lois Birney.

Hugh McKay of Detroit is here spending his vacation.

Jos Craig has taken a position as a tailor in London.

Miss Carried Dyer, Milliner, is home from Stratford.

Mrs. H. N. Anderson of the Soo is visiting relatives here.

Miss Gerta Stewart is visiting friends at Toronto and London.

Mr. Wright of Toronto is visiting with Mr. Wm. Stewart of town.

Mrs. Howard and Miss Winona Howard are visiting in Oshawa.

Willie Crocker of Toronto is here visiting his grandparents.

Mrs. Gourley and son of Toronto are guests of Mrs. J. G. Stanbury.

Mrs. Davis of Detroit was the guest of Mrs. Houze over Sunday.

Mr. J. D. Atkinson of Clinton was in town this week for a day or two.

Mr. Walter Connor left Tuesday for Yorkton, Sask., where he will spend a few weeks.

Mrs. T. Kerrick and Mrs. R. Alexander of Lumley visited in Hensall Wednesday.

Mr. L. H. Dickson was in London Saturday, and Allan Craig, yesterday on business.

Mr. Melville Hoskins has accepted a situation in Crystal City, and leaves for the West next Monday.

Miss McDougal, who has been teaching school at Folden's Corners, returned to her home in Usborne Tuesday.

Mrs. W. W. Taman returned from a visit to Woodstock Tuesday accompanied by little Miss Jean Thornton, who will visit here for a month.

Mrs. Marshall and daughter Vera and the former's parents, Mr. and Mrs. Lamport of Crediton, left yesterday morning for Wetaskiwin, Alta.

Messrs. Earl and Percy Browning, after spending a few holidays at their home here, left yesterday for Niagara Falls and Toronto respectively.

Mrs. Passmore and Miss Gearing, after a visit with Mrs. Gladman, returned to Toronto Friday. Mr. Gladman's mother and sister are now guests at his home.

STEPHEN COUNCIL.

The Council of the Township of Stephen met in the Town Hall, Crediton, on Tuesday, the 2nd of July 1912 at 1 p.m. All members were present.

The minutes of the previous meeting were read and adopted.

Elliott — Finkbeiner — That James Shapton be paid $75.00 as a compromise for horse drowned on the 4th Con. —Carried.

Kellerman — Yearley — That Gladman & Stanbury be paid $87.50 as a compromise for William Flynn's horse being drowned on the 2nd Con.—Carried.

Elliott—Kellerman—That the clerk write the Clerk of Middlesex, informing him that if the County Council builds the bridge on the Town Line at Corbett, the Township of Stephen will bear one half the expense —Carried.

Finkbeiner — Yearley — That By-law No. 193 to close and dispose of the original road allowance between lots 15 and 16 in the 21st Con. of the Tp. of Stephen, having been read the third time be passed and signed by the Reeve and Clerk and the seal of the corporation attached thereto. —Carried.

The following orders have been passed.—

John Lawson, Award drain, $10.00; Ed. Dixon, Lumber, 39.00; G. F. Elliber, Concrete tile, S. B., 14.00; Con. Kuhn rep. culvert, 7.00; T. Hawkins and Son, Cement, 9.00; T. Keys, rep. bridge 3.50; Wm. Holt, rep road, 12.00; Geo. Hepburn, rep. culvert 10.00; Geo. Hepburn, rep. culvert, S.B., 15.00; John Weim, Three concrete culverts, 15.00; Lewis Willert, gravel contract 3rd S. rd, 36.00; Ed. Disjardine, Gravel contract, 3rd S rd. 30.00; Geo. Hepburn, Gravel for tile, 17.25; David Richard, Concrete culvert, 3.00; Wm. Morgan, contract for gravel, SB, 45.00; Wesley Jones, Commissioner on SB, 2.50; W. G. Reilly, commissioner on SB, 2.50; Thomas Webb, Statute labor of 1911; 11.00; Thomas Webb, grading, 9.50; H. Gill and others, Temporary bridge on L. R. W., 17.00; H. Gill and others Temporary bridge on L. R. W., 3.75; Jos. Brenner, Temporary bridge, 14.70 Wm. White, Gravel contract, 83.20; Henry Clark, Gravel contract, 96.75; William Hill, commissioner Blk. 4, 10; J. B. Hodgins, commissioner, 5.10; R Davey, commissioner, 1.50; R Baker statute labor and tile, 6.65; P. Flannagan, rep. culvert, 1.00; Samuel Lamport, concrete culvert, 400; John Schroeder, Ditch award, 22.75; Jos. Doyle Ditch on 1st side-road, 58.00; William Nichols, rep. Bridge, 3.50; Newton Clark rep. road and tile, 4.00; F W. Farncomb, CE, five award drains, 95.27; Young Bros. Nails, 48c.; H. L. Kraft gravel contract, 25.00; Chris. Stade, commissioner, 3.00; M. McIntyre, gravel contract, 60.00; Jno. McLellan, Gravel 20.05; Newton Clark, commissioner, 2.50; Jacob Gaiser, commissioner, 2.50; Newton Clark, Rep. culvert, 1.25; Wm. Pickering, commissioner, 2.50; Jacob Gaiser, rep. bridge, 2.00; J. Shapton Compensation for loss of horse, 75.00; Gladman & Stanbury, Compensation for loss of Flynn's horse, 87.50; James Hodgins, filling in approaches to bridge 5.00; Wilfred Lawson, rep. culvert, 5.25; T. Elston, Grading on London road, 8.00; Ed. Ellert, rep. road, 50c. Robert Hutchinson, part payment of bridge contracts, 500.00; Joseph Lawson, part payment of bridge contracts 500.00; Henry Willert, overseeing bridge on L.R.E., 9.00; Mich. Finkbeiner overseeing bridge on 21st con. 9.00; Albert Allister, damage to harness and buggy, 7.00; Wm. Hayter, Statute labor. 8.00; Wm. B. Gaiser, rep culvert, 5.00;

Council adjourned to meet again in the Town Hall, Crediton, on August 5th 1912 at 1 p.m.

Henry Elliber, Clerk.

EXETER COUNCIL

A special meeting of the Council was held in the Town Hall, Tuesday evening July 2nd. Members, were all present. Minutes of the meetings held on June 7th, 10th and 14th were read and approved.

Rivers—Ford—That the following accounts be paid as read, For, labor, Thos Brock, 255 Walter Wescott, 5.25; E. Comb, 1.50; David Russell, Sr., 1.50 Wm. Davis 1.00; Geo. Atkinson 3.93; Nelson Vale, 4.90; Thos. Webster, 3.50 Wm. Brimacombe, 1.55; T. Cookson, 88c.; J. Knorr, 50c. Roy Horn, 1.75 W. J. Bissett, pt salary 37.50; John Ford part salary, 30.00; Electric Light Co. lighting 112.15; Exeter Times Printing Co. 53.58; Alex Purdon, cemetery $100; John Leckrie limited 12.50; London Foundry ac 1.50; Wm. Coats reg. sewer by-law, 2.30 Canadian Express Co., 1.55; T. B. Carling R. O. sewer by-law 5.00; Dr. J. W. Browning Medical Health Officer 5.00; J. Harness bell ringing 25.00.

Scott—Ford—That we advertise the $5,000 debentures ac. sewer for sale and the same be inserted in three issues of the local papers; tenders to be received up to Friday evening, July 19th and in the Clerk's hands by seven o'clock —Carried.

Mr. Thos. Harvey waited on the Council asking to have their water tax remitted owing to loss and inconvenience they have been put to owing to the choke up of the main drain. Councillor Scott expressed himself that if the request was granted that he knew of others who would be wanting the same treatment and however much they would like to assist them it would be establishing a precedent, which they did not like to do.

J. N. Howard interviewed the council re the sewer wanting to know what the council intend as they had stopped him with going on with the work and was anxious to proceed as he had been to a lot of expense and worry and now that the worst of it was done he would make greater headway. Councillors Levett replied that it was no use him delaying the work, the way he had been doing because if he did he would never get through and thought in the interest of all concerned he had better throw the contract up which Mr. Howard agreed to do providing the council would act fair and pay him for what he had already done. Mr. Levett stated that the council would be willing to leave the matter of settlement to Mr. F. Farncombe and the Reeve to which Mr. Howard agreed and a contract confirming same was signed.

Levett—Rivers—That the contract between J. N. Howard and the Corporation being the original contract be cancelled and the clerk be authorized to sign the agreement on behalf of the Village and the corporation seal attached.—Carried.

Scott—Rivers—That we ask for tenders for excavation of sewer on west side Main street from north side of Wellington street to the post office as per specifications in the clerk's hands; tenders to be in the clerk's hands by Friday evening, July 12th, at seven o'clock. Highest or lowest tender not necessarily accepted.

T. B. Carling, Clerk.

WARNING

Those people who are making so free with the Canning Factory peas will do well to remember that they are breaking the law and should not be surprised if they are made pay damages.

BIRTHS

Balkwill—In Exeter on July 2nd, to Mr. and Mrs. W. A. Balkwill, a daughter.

Wexler—In Exeter, on July 7th, to Mr. and Mrs. Morris Wexler, a daughter,—died one day later.

MARRIAGES

Pollock—McPherson—At Townline, McGillivray and Stephen, on June 26th, Miss Minnie Edna, daughter of Mr. and Mrs. Edmund McPherson, to Mr. Wm. R. Pollock, of Corbett.

Gilson—Cubbon—At St. Marys on July 2nd, Miss Ethel Cubbon to Mr. R. L. Gilson, of Toronto.

DEATHS

Horner—Parkhill, June 27th, Mrs. S. Gormely, widow of the late Wm. Horner, of 8th Con. McGillivray, in her 68th year.

James—In Fullarton, June 28, Llewellyn James, aged 17 years.

Balfour—In Hibbert July 2, John Balfour, aged 77 years.

Logan—In Blanshard, on June, 29, Mary Ann Logan, wife of the late Robert Bilyea, aged 77 years.

Hackney—Near Farquhar, July 8, Wm. Hackney, aged 81 years 11 months.

DROPPED DEAD FROM MOWER.

Lucan, July 8.—Thomas Lewis, a farmer living on the second concession of McGillivray, died very suddenly today. He left the house after breakfast, and was out mowing a field, when suddenly he fell from the machine, and before assistance could arrive had passed away. Deceased was 61 years of age, and had resided in the district for a long time. Besides his wife he leaves one daughter.

GODERICH VISITED BY PUBLIC WORKS MINISTER

Goderich, July 8.—Goderich was today visited by the Minister of Public Works, Hon. F. D. Monk, on his tour of inspection of the principal ports between Montreal and Fort William. The Minister arrived on his yacht Speedy, and as he entered the harbor was tendered a salute by the whistles of all the important industries located as the harbor and the steamers in port On landing he was received by a deputation of local officials, the Mayor, President of the Board of Trade, and introduced by the member for West Huron, Mr. E. N. Lewis. He was shown around the harbor, and viewed the extensive engineering works in connection with dredging and breakwater improvements now being carried on. The minister expressed himself as highly appreciative of the geographical advantages of Goderich as a growing lake port, and was particularly desirous of securing permanent breakwater protection, and instituting more extensive dredging operations commensurate with the rapidly increasing grain, flour and lumber trade. He intimated that it was his purpose as well as that of the Government to expedite all necessary improvements as rapidly as possible.

CHARGED WITH THEFT OF A RING.

Emerson A. Brown, a young man who formerly resided in Zurich, but who has been employed as a barber in Toronto and for the past few weeks in London was arrested last week charged with the theft of a diamond ring from Miss Lena Holton of London. He pleaded not guilty before Magistrate Judd and was remanded for a few days.

DEATH FROM POISON

Goderich, July 6.—The sudden death of a young woman named Miss Cook, while visiting friends at Seaforth, has given rise to fears that either suicide or culpable negligence caused the sad event She had apparently been in good health and excellent spirits, and shortly after a conversation with members of the family was found in convulsions with symptoms of strychnine poisoning, death coming quickly.

A coroner's jury was empanelled, a post mortem made and the stomach forwarded to a Government analyst for examinations and on his report action will be taken. Crown Attorney Seager has the matter in hand for the crown and the coroner's jury will meet again on July 15th.

STEER LOST

There strayed from the premises of the undersigned Lot 5, con. 4, Hay a black Poll Angus Steer about 1½ years old, white stripe behind right shoulder punch hole through right ear. Any person returning same or giving information that will lead to its recovery will be suitably rewarded. W. W. WALPER, Hay P.O.

Proclamation Civic Holiday

Whereas the four Sunday Schools are running an excursion to Springbank and in accordance with the petition of a large number of the business men and others, I hereby proclaim Thursday, July 25th, Civic Holiday for the village of Exeter and call upon all good citizens to govern themselves accordingly

ONLY A MONTH;

OR, A CURIOUS MYSTERY EXPLAINED.

CHAPTER VIII.—(Cont'd)

"You had better send for your brother at once," he said. "I suppose he will be at the office?"

"Oh, no!" she said, trembling. "Frithiof is in England. But we will telegraph to him to come home."

"My poor child," said the old doctor, kindly, "if he is in England it would be of no possible use; he could not be in time."

"Oh! is there no hope?" she sobbed. "No hope at all?"

"Remember how much he is spared," said the doctor, gently. "He will not suffer. He will not suffer at all any more."

And so it proved; for while many went and came, and while the bad news of the bankruptcy caused Herr Gronvold to pace the room like one distracted, and while Sigrid and Swanhild kept their sad watch, Herr Falck lay in painless quiet, his face so calm that, had it not been for an occasional tremor passing through the paralyzed limbs, they would almost have thought he was already dead.

The hours passed on. At length little Swanhild, who had crouched down on the floor with her head in Sigrid's lap, became conscious of a sort of stir in the room. She looked up and saw that the doctor was bending over her father.

"It is over," he said, in a hushed voice as he stood up and glanced toward the two girls.

And Swanhild, who had never seen any one die, but had read in books of death struggles and death agonies, was filled with a great wonder.

"It was so quiet," she said afterward to her sister. "I never knew people died like that; I don't think I shall ever feel afraid about dying again. "But oh, Sigrid!" and the child broke into a passion of tears, "we have got to go on living all alone—all alone!"

Sigrid's breast heaved. "We three must love each other very much, darling," she said, folding her arms about Swanhild. "We must try and be everything to each other."

The words made her think of Frithiof, and with a sick longing for his presence she went down-stairs again to speak to her uncle, and to arrange as to how the news should be sent to England. Herr Gronvold had never quite appreciated his brother-in-law, and this had always made a barrier between him and his nephew and nieces. She found him in the sitting-room. He was still pale and agitated.

"What must we do about telling Frithiof, uncle?" she said.

"I have thought of that," said Herr Gronvold. "It is impossible that he could be back in time for the funeral. This is Tuesday afternoon, and he could not catch this week's steamer, which leaves Hull at nine o'clock to-night. The only thing is to telegraph the news to him, poor boy. His best chance now is to stay in England and try to find some opening there, for he has no chance here at all."

Sigrid caught her breath.

"You mean that he had better not even come back?"

"Indeed, I think England is the only hope for him," said Herr Gronvold. "He is absolutely penniless, and over here feeling will be so strong against the very name of Falck that he would never work his way up. I will gladly provide for you and Swanhild until he is able to make a home for you; but he must stay in England, there is no help for that."

She could not dispute the point any further; her uncle's words had shown her only too plainly the true meaning of the word "bankrupt." Why, the very chair she was sitting on was no longer her own! A chill passed over her as she glanced round the familiar room. In a sort of dreadful dream she sat watching her uncle as he wrote the message to Frithiof, hesitating long over the wording of the sad tidings, and ever and anon counting the words carefully with his pen. It would cost a good deal, that telegram to England. Sigrid knew that her uncle would pay for it, and the knowledge kept her lips sealed.

"There, poor fellow," said Herr Gronvold, "that will give him just the facts of the case; and you must write to him, Sigrid, and I, too, will write by the next mail."

"I am afraid he can not get a letter till Monday," said Sigrid.

"No, there is no help for that," said Herr Gronvold. "I shall do all that can be done with regard to the business; that he will know quite well, and his return later on would be a mere waste of time and money. He must seek work in London without delay, and I have told him so. Do you think this is clear?"

He handed her the message he had written, and she read it through, though each word was like a stab.

"Quite clear," she said, returning it to him.

"My dear," he said, kindly, "it has been a terrible day for you; you had better go to bed and rest. Leave everything to me. I promise you all shall be attended to."

"You are very kind," she said, yet with all the time a terrible craving for something more than this sort of kindness, for something which was perhaps beyond Herr Gronvold's power ot give.

"Would you like your aunt or one of your cousins to spend the night here?" he asked.

"No," she said; "I am better alone. They will come tomorrow. I—I will rest now."

"Very well. Good-bye, then, my dear. I will send off the telegram at once."

She heard the door close behind him with a sense of relief, yet before many minutes had passed, the dreadful quiet of the house seemed almost more than she could endure.

"Oh, Frithiof; Frithiof! why did you ever go to England?" she moaned.

And as she sat crouched together in one of the deep easy-chairs, it seemed to her that the physical faintness, the feeling that everything was sliding away from her, was but the shadow of the bitter reality. She was roused by the opening of the door. Her old nurse stole in.

"See here, Sigrid," said the old woman. "The pastor has come. You will see him in here?"

"I don't think I can," she said, wearily.

"He is in the dining-room talking to Swanhild," said the nurse; "you had better just see him a minute."

But still Sigrid did not stir. It was only when little Swanhild stole in, with her wistful, tear-stained face, that she even tried to rouse herself.

"Sigrid," said the child, "Herr Askevold has been out all day with some one who was dying; he is very tired and has had no dinner; he says if he may he will have supper with us."

Sigrid at once started to her feet, her mind was for the moment diverted from her own troubles, it was the thought of the dear old pastor tired and hungry, yet coming to them, nevertheless, which touched her heart. His few words of sympathy as he greeted her had been the first words of comfort which had reached her heart, and now, as he cut the bread and helped the fish, there was something in the very smallness and fineness of his consideration and care for them which filled her with far more gratitude than Herr Gronvold's offer of a home.

Afterward she took him to her father's room, her tears stealing down quietly as she looked once more on the calm, peaceful face, that would never again bear the look of strained anxiety which had of late grown so familiar to her.

And then Herr Askevold knelt by the bedside and prayed. She could never quite remember in after days what it was that he said, perhaps she never very clearly took in the actual words; but something, either in his tone or manner, brought to her the sense of a presence altogether above all the changes that had been or ever could be.

As they rose from their knees and the old pastor took her hand in his to wish her good-bye, he glanced a little anxiously into her eyes. But something he saw there comforted him.

"God bless you, my child," he said.

And again as they opened the front door to him and he stepped out into the dark wintery night, he looked back, and said:

"God comfort you."

Sigrid stood on the threshold, behind her the lighted hall, before her the starless gloom of her outer world, her arm was round little Swanhild, and as she bade him good-night, she smiled, one of those brave, patient smiles that are sadder than tears.

"The light behind her, and the dark before," said the old pastor to himself, as he walked home wearily enough. "It is like her life, poor child. And yet I am somehow not much afraid for her. It is for Frithiof I am afraid."

CHAPTER IX.

When Frithiof found that instead of addressing a stranger at Hyde Park Corner, he had actually spoken to Roy Boniface, his first feeling had been of mere blank astonishment.

"I wish I had seen you a minute or two sooner; my mother and my sister were in that carriage," said Roy, "and they would have liked to meet you. You must come and see us some day, or are you quite too busy to spare time for such an out-of-the-way place as Brixton?"

"Thank you. My plans are very uncertain," said Frithiof. "I shall probably only be over here for a few days."

"Have you come across the Morgans?" asked Roy, "or any of our other companions at Balholm?"

In his heart he felt sure that the young Norwegian's visit was connected with Blanche Morgan. Frithiof knew this, and the question was like a sword-thrust to him. But he had great self-control, and his voice was quite steady, though a little cold and monotonous in tone, as he replied:

"I have just been to call on the Morgans, and have only just learned that their business relations with our firm are at an end. The connection is of so many years' standing that I am afraid it will be a great blow to my father."

Roy began to see daylight, and perceived, what had first escaped his notice, that some great change had passed over his companion since they parted on the Sogne Fjord; very possibly the business relations might affect his hopes, and make the engagement no longer possible.

"That was bad news to greet you," he said with an uneasy consciousness that it was very difficult to know what to say. "Herr Falck would feel a change of that sort keenly, I should think. What induced them to make it?"

"Self-interest," said Frithiof, still in the same tone. "No doubt they came to spy out the land in the summer. As the head of the firm remarked to me just now, it is impossible to sentimentalize over old connections—business is business, and of course they are bound to look out for themselves — what happens to us is, naturally, no affair of theirs."

Roy would not have thought much of the sarcasm of this speech if it had not been spoken by any one else, but from the lips of such a fellow as Frithiof Falck, it startled him.

They were walking along Picadilly, each of them turning over in his mind how he could best get away from the other, yet with an uneasy feeling that they were in some way linked together by that summer holiday, and that if they parted now they would speedily regret it. Roy, with the increasing consciousness of his companion's trouble, only grew more perplexed and ill at ease.

"Do you know many people in London?" he asked, willing to shift his responsibility if possible.

"No," said Frithiof, "I do not know a soul."

"Then you will of course dine with me," he said, "since you have no other engagement."

And Frithiof thanked him and accepted the invitation.

The ice once broken, they got on rather better.

"What next," he said, as they found themselves once more in the street. "Since you go back soon we ought to make the most of the time. Shall we come to the Savoy? You must hear a Gilbert and Sullivan opera before you leave."

"I am not in the mood for it tonight" said Frithiof. "And it has just struck me that possibly my father may telegraph instructions to me—he would have got Morgan's telegram this morning. I will go back to the Arundel and see."

(To be continued.)

It is easy to appreciate the beauties of the simple life—if you are not obliged to live it.

One comfort about general morality is that no human being ever begins to lie before being able to talk.

NUDITY TUBERCULAR CURE

MANY CHILDREN SAVED BY NEW TREATMENT

Lie Without Clothes in Midwinter Sun in Mountains of Switzerland.

By exposing children without clothes to the sun's rays in midwinter at an altitude of 5,000 feet many remarkable cures of surgical tuberculosis have been obtained in the mountains at Leysin, Switzerland. It it a new method of treatment adopted by Dr. Rollier, and Gertrude Austin, formerly of the Children's Hospital, London, who made a trip to Leysin, describes in the Medical Record what has been accomplished.

She pictures the mountains on a cloudless January morning, covered with spotless, sparkling snow. Dr. Rollier gave her every opportunity to study his methods and patients. She says:

"My first visit to the children is an event that I am not likely to forget. It was with no little difficulty that I walked from my hotel down the steep winding road that leads to "Le Chalet," as every one in Leysin calls this diminutive hospital. The sun had not yet appeared above the mountain tops to soften the frozen snow, and progression was difficult, not to say dangerous. The clinic is a picturesque wooden construction,

A REGULAR SWISS CHALET,

faces due south, and stands in a small garden, which in summer time is no doubt green and gay with flowers, but which on this cold January morning was carpeted like everything else with pure white snow.

I had planned to arrive betimes, for I wished to see the exodus of the children from the wards to the galleries. But as I stood upon the doorstep waiting for admission the sun rose above the mountain tops, and already there were sounds of merry laughter in the frosty morning air. Happy voices were greeting the beneficent rays, whose healing powers even the little ones appear to understand. They love this sunshine, which gives them health and takes away their pain, and it is they themselves, when able to do so, who the moment the word is given push down the bedclothes and pull up and over their heads the night dress that is obligatory at other times.

When I was taken by the matron out onto the first gallery my surprise knew no bounds. Who would have supposed that such dark-skinned, healthy-looking, little bodies could be found in a hospital, and above all who would have expected to see tiny children on a winter's day in January basking in the sunshine as naked as when they were born, except for the quaint little calico hats which make such

A STRARTLING CONTRAST

with their brown skin. Most of them are in a recumbent position, some even lying face downwards, which does not seem to worry them at all; the more fortunate ones are able to sit up, roll about in bed, and have a good time while all are revelling in their warm sunbath.

A few are not yet fully exposed, it is true, for they are newcomers and have not completed the necessary training which endows them with this extraordinary power of endurance. The latter have still the pale, weary faces which sickness gives, and it is easy to see that their sojourn at Leysin has been but a short one.

The children—those who are well enough—have morning lessons, as the doctor believes mental occupation absolutely necessary. It is a privilege to take part in these, as it means convalescence has begun. At the head of the bed stands the teacher, as there it is impossible for the shadow of her body to interfere with the action of the sun's rays.

"I think I can safely say," the writer says, "that few people have seen classes of sick children doing their lessons perfectly naked in midwinter out of doors, all gay and happy and looking far stronger and healthier than many children who have no ailments whatever." The children played with toys strewn on their beds while they continued their studies. They enjoyed seeing a visitor, asked questions and listened to stories.

GEN. PASCUAL OROZCO,

Of Mexico, the maker and unmaker of Presidents.

AN IMPORTANT ORDER.

A rural postmaster tells this story of one of the patrons of his office, a boy of thrifty, not to say penurious, stock. When the lad comes into the post-office, he will thrust his wizened face up close to the window and, in his slow, drawl, inquire most earnestly:

"Hev ye got any postal cards?"

"Yes," the postmaster replies.

"Haow much be they t'day?"

"A cent apiece."

Then the boy, screwing up his eyes in the intensity of his thought over the question he has to deside, always stops for a while to weigh the consequences. Finally, he will reply solemnly:

"Wal, I'll take one."

THE newest thing in sugar —and the best—is this 5-Pound Sealed Package of Redpath Extra Granulated. In this carton 5 pounds full weight of Canada's finest sugar comes to you fresh from the Refinery, and absolutely free from any taint or impurity. Ask your Grocer for the Redpath 5-Pound Package.

Useful Hints for the Tiller of the Soil

BUTTERMILK CHEESE.

Buttermilk cheese is a new product obtained by curdling buttermilk with heat, draining the curd and adding salt. Large amounts of buttermilk are wasted every year at creameries. If this were made into buttermilk cheese, it would furnish a large supply of palatable food, equal in food value, pound for pound, to lean beefsteak. It can be sold profitably at half the price meat is.

To make buttermilk cheese the buttermilk is curdled by heating to 80 degrees, and left undisturbed for an hour. It is then heated to 130 degrees and after standing quiet for about an hour, the clear whey is drawn off the curd, and the latter is placed on a draining rack, which is covered with cheesecloth. Here it remains half a day or over night, until as dry as desired, when it is salted with 1½ pounds of salt per 100 pounds of curd, and is ready for use. Buttermilk cheese can be made from buttermilk, from cream which was pasteurized before ripenening, or the buttermilk may be pasteurized during the process of cheesemaking, in either case insuring the absence of disease germs.

Packing and selling the cheese requires special attention since the public is not familiar with the product, and it must be thoroughly advertised to secure a market. It may be shipped in butter tubs and retailed in paper pails or other small packages. It will keep for a week or ten days at 50 to 60 degrees, but can be kept longer if stored at 32 degrees or lower. It may be sold for three to five cents a pound at the factory and retailed at seven to 12½ cents per pound, and prove a profitable product for both the creamery and the retailer. If high color is desired, it may be secured by adding cheese color, the same as used by Cheddar cheesemakers.

Where only a few pounds of buttermilk cheese are made at a time, as on a farm or for home use, the buttermilk can be heated in a pail or in a clean new wash boiler on the stove. After the second heating, i.e., to 130 degrees, if the curd has settled, the whey can be mostly poured off by tipping the pail, and the curd poured into a small cheesecloth bag to drain. If the curd is floating, it can be dipped off the surface of the whey with a dipper or large spoon and put in the bag to drain. A small wooden draining rack a foot square and five or six inches deep, with the bottom made of one-fourth of an inch mesh galvanized or tinned iron wire netting and covered with cheesecloth, is useful for draining small amounts of buttermilk cheese.

Buttermilk from rich cream, containing 50 per cent. or more fat, as well as buttermilk from cream which was pasteurized when very sour, is not suitable for making buttermilk cheese. The curd from such buttermilk is always so fine grained that it runs through the draining cloth and is lost.

A WHITEWASH THAT STICKS.

There are many brick and stone walls, as well as wooden outbuildings, fences and the like, about a suburban place which, lacking paint, detract much from the general appearance of the home. But paint is somewhat expensive and cannot be applied with too lavish a hand by the average citizen. There is, however, whitewash, which is easily made and applied, is inexpensive and which for most outdoor work will answer quite as well as oil paint. For chicken-houses, brick walls and the like it is excellent.

To make the whitewash, slake half a bushel of fresh lime with boiling water, keeping it covered during the process. The lime should not, of course, be confined, but merely covered, as confined it possesses considerable explosive force. Strain it and add a peck of salt dissolved in warm water, three pounds of ground rice put in boiling water and boiled to a thin paste, half a pound of powdered Spanish whiting, and a pound of clear glue dissolved in warm water. Mix these well together and let the mixture stand for seven days in a reasonably cool and shaded place. Keep the wash thus prepared in a kettle, and when it is being used put it on as hot as possible, using a painter's or an ordinary whitewash brush. Always use magnesian lime for whitewash.

All the world loves a cheerful flatterer.

Try it—test it—see for yourself — that "St. Lawrence Granulated" is as choice a sugar as money can buy.

Get a 100 pound bag—or even a 20 pound bag—and compare "St. Lawrence" with any other high-grade granulated sugar.

Note the pure white color of "St. Lawrence"—its uniform grain—its diamond-like sparkle—its matchless sweetness. These are the signs of quality.

And Prof. Hersey's analysis is the proof of purity —"99 99/100 to 100% of pure cane sugar with no impurities whatever". Insist on having "ST. LAWRENCE GRANULATED" at your grocer's.

ST. LAWRENCE SUGAR REFINING CO., LIMITED, MONTREAL. 66

TORONTO CORRESPONDENCE

INTERESTING GOSSIP FROM THE CAPITAL OF ONTARIO.

Toronto's Acting Mayor—The "Twelfth" and th City Hall—Travers vs. Ryan—New Chairman Dominion Railway Board.

Controller "Tommy" Church, President of the Council in the absence of Mayor Geary, is one of the characters of Toronto. Many people refuse to take him seriously, but despite their jeers "Tommy" always turns up with sufficient votes to elect him to whatever position he is running for. Years ago when "Tommy" was a carefree Varsity undergrad (he spent most of his time rooting for the football teams, and it took him several years beyond the allotted four to get his degree) he declared that he proposed some day to be Mayor of Toronto. Well, he is acting Mayor now and going strong.

"Tommy" is probably the champion handshaker in Toronto. He also holds the record for making introductions. He introduces every two men who come together in his presence, generally regardless of whether they are liable to want to know each other, or whether they have ever met before. His method is something like this: "Shake hands with Bill Smith, one of our cleverest lawyers; fine fellow; going to be a judge next year. Bill Smith, Tom Jones; fine fellow. Tom Jones, Cobalt millionaire eh, Tom." All this and much more in the same vein, delivered in a staccato style, maxim gun speed. He is a keen follower of sporting events, and consequently has a strong following among a certain class of the young blood.

Like many another man who looms large in the public eye, "Tommy" has been wise enough to use the newspapers judiciously. He got himself into the favor of one by doing its bidding. It boosts him hard. He is attacked just as bitterly by others, but it's all grist for "Tommy's" mill. Publicity of any kind is the very thing that he thrives best on.

DOINGS ON THE "TWELFTH."

The Twelfth of July is always one of the biggest days in the year in Toronto. The parade is a real parade, participated in by many prominent citizens. A census of the City Hall offices taken during the celebration would reveal the fact that they were all largely deserted, for the civic service in every department is full of Orangemen. It is no uncommon thing to hear city laborers as they go about their work whistling "the Protestant Boys," or some such stirring tune. The officials are Orange because generally a majority of the Council are Orange, as are also the heads of departments. In form, if not in spirit, it is the nearest approach to a "machine," politically, in the city.

TRAVERS AND MR. RYAN.

The last echoes of the Farmers' Bank promise to be as unsavory as were the beginning. In its last days the inquiry has dwindled, as far as public interest is concerned, to the destination of a $3,000 cheque, regardless of what is to be done about the million dollar losses of shareholders and depositors.

It is safe to say that most people would accept Mr. Peter Ryan's words as against the unsupported assertions of Mr. Travers, and the first effect of the latter's testimony was, therefore, to just further befuddle the situation in the public mind. Mr. Ryan was a fellow Registrar with Beattie Nesbitt, but they never pulled together well. The latter seemed to have a "grouch" against his co-laborer. Mr. Ryan has plenty of other enemies, for he has used his influence on many occasions against political candidates within as well as without his own party. He is also disliked by the banking interests, as he has been particularly outspoken in his denunciation of the Canadian system of banking, particularly since a big lawsuit he had some years ago with the Bank of Montreal. There was, therefore, likely some quiet chuckling when the former bank manager gave his evidence.

In the old days Mr. Ryan was one of the most eloquent stump speakers in Ontario, but for many a day he has been a quiet Registrar, though the office has not buried altogether his characteristic Irish wit.

MR. DRAYTON PASSES ON.

Toronto expects great things from Mr. H. L. Drayton in his new position as Chairman of the Dominion Railway Board. As one writer says, he should have been born triplets. For Toronto needs him, the Province needs him, and the Dominion needs him.

The loss to the city is a real one. While he has occupied the post of Corporation Counsel for only about two years, the Council and all the departments of civic government had come to lean on his judgment to on unusual degree. It is difficult to analyze the elements of his character which have made his success so conspicuous. He gives the impression of not being a hard worker. But that is no doubt a false impression. It doubtless arises from the fact that he has an exceedingly equable disposition, by which he never appears to be flurried or hurried or any of the other things which men excuse by saying they are so busy and hard-working.

There is no doubt that his mental capacity is of high order. Fellow-lawyers tell of him coming into court to appear in cases which he could not possibly have known anything about in advance. He would listen to the argument of other counsel, and inside twenty minutes would demonstrate that he had grasped all the salient points at issue and had mastered even the details. This ability is, of course, just the quality that is pre-eminently required in the new position he has gone to.

Mr. Drayton has no hobbies. He likes horses and sometimes rides with the Hunt Club. He enjoys, too, a quiet afternoon at the race track.

His training has been such that his sympathies ought to be with the public as opposed to corporations. It is safe to say that no lawyer has ever given Toronto more efficient service in this regard. In his new field, however, his functions will be judicial rather than partisan.

Mr. Drayton is a son of Mr. P. H. Drayton, also a barrister, and in recent years a member of the Toronto Board of Assessment Revision.

WATERWORK'S GROWING PAINS.

Toronto's waterworks department is having growing pains. Last summer 50,000,000 gallons a day, the pumping plant's capacity, was just enough to supply the city's hot weather needs. This year the town has 30,000 or 40,000 more people and the plant has the same 50,000,000 gallon-a-day capacity. The answer is easy. Something had to suffer. But next summer we are told the plant will be big enough.

MAYOR GEARY IN ENGLAND.

The announcement that Mayor Geary intended to accompany City Treasurer Coady to England for the purpose of participating in a flotation of City of Toronto bonds, aroused more widely-spread criticism than any previous act of his Worship who has, during his two and a half years in office enjoyed unusually general support for all his public acts. There was little of personal feeling against the Mayor; but people were nervous about having Controller Church left to boss the job; they were nervous, too, about the water supply, and about some of the other important public works at present under construction. Under the circumstances the feeling was that the Mayor might have foregone the trip, which, it was thought, could be little else than a summer holiday.

GET ACQUAINTED WITH YOUR NEIGHBORS.

If you are genteel in appearance and courteous in your manner, you will be welcomed in every home in your locality, when you are showing samples of our superior toilet goods, household necessities, and reliable remedies. The satisfaction which our goods give, places the users under an obligation to you, which wins for you the same respect, esteem, and intimate friendship given the priest, physician, or pastor, and you will make more money from your spare time than you dream of, besides a host of friends.

This is your opportunity for a pleasant, profitable and permanent business. Address, The Home Supply Co., Dept 20, Merrill Building, Toronto, Ont.

STOPS TRAIN BY WIRELESS.

Scientist Presses Button and Cars Halt 300 Yards Away.

The "Railophone," a new wireless system for controlling trains, was tested recently at Stratford-on-Avon, England, by Prof. Silvanus Thomson, the well-known scientist.

Standing on the platform of a station on the Midland Junction Railway the professor pressed an electric button just as an empty passenger train was approaching and brought it to a standstill within 300 yards of the station. An electric wire lay imbedded in the ground and the brake van of the train was fitted with a receiving apparatus. The button which Thomson pressed sent a warning along the imbedded wire which was caught by the receiver in the brake van, with the immediate result that the vacuum brake was automatically set.

This remarkable performance was the first demonstration of the Von Kramer wireless inductive system as applied to train signalling.

CHERRIES.

Cherry Sweetmeats.—Hold the cherries by the stems and dip them into the white of an egg and then into powdered sugar. Pile them upon a flat glass dish and ornament the edge of the dish with cherry leaves. Serve for luncheon.

Cherry Pudding.—Line a baking dish with thing slices of buttered toast. Fill the dish with pitted cherries, putting them close together in layers and sprinkle each layer with sugar. Bake one-half hour and let it become perfectly cold before serving it with rich cream. This is a fine fruit dessert.

Cherry Roly Poly.—Make a dough the same as for baking powder biscuit, and roll it into a thin oblong sheet. Drain two cupfuls of pitted cherries, spread them evenly over the top of the dough, leaving an inch wide space along each side. Sprinkle a cupful of sugar over the fruit, sift one tablespoonful of cornstarch or flour over this, and form into a roll, like jelly cake. Wring a muslin cloth a little larger than the dumpling out of hot water, flour the inside, wrap it around the roll, and baste loosely together. Set a plate in a kettle, lay the dumpling on it, and boil steadily for one and one-quarter hours. Serve hot with a sauce made of one heaping cupful of sugar and one-third of a cupful of butter beaten to a light cream. Just before serving, flavor with lemon, and whip in the whites of two eggs beaten to a stiff froth.

A cloth dipped in ammonia will often remove stains from the collar of an overcoat.

Stains on portiers, rugs and carpets should be cleaned with gasoline. Soap and water can be used on an ingrain carpet and on a Brussels of dark shades, but light colored carpets must be cleaned with naphtha or gasoline. Make a circle of the cleaning fluid well outside of the stain and then work toward it in the middle.

THE TRIBUTE OF THE WORLD

IN ENGLISH CROWN JEWELS, WEIGHS 360 CARATS.

Its History Has Been Investigated in Connection With Imperial Tour of India.

Every schoolboy knows that the celebrated diamond known as the Kohinoor (Mountain of Light) has formed part of the British regalia since 1850, but the general public has been unaware that the gem known in the days of the Mogul Empire as the Khiraj-i-Aiam (Tribute of the world) and to European experts as the Timur Ruby, has been included among the crown jewels of England for nearly as many years. Some experts, indeed, have supposed that it had been lost. It is the largest spinel ruby known, weighing just over 352 carats, uncut, but polished, and was probably discovered in one of the old ruby mines of Badakshan, says the London Times.

The earliest historical records show that the jewel was seized along with many other precious stones by the Ameer Timur, commonly called Tamerlane by European historian, when he plundered Delhi in 1398. The great Tartar conqueror stayed in India for a little over a year and returned to Samark and taking all his booty with him. On his death the ruby descended to his son, Mir Shah Rukh, and in due time to his son and successor, Mirza Ulugh Bag. By this time the Tartar Empire was on the wane and in general dislocation during one of the wars between the Tartars and the Persias the ruby came into the possession of

THE KINGS OF IRAN.

Shah Abbas I., the greatest of the Safavi kings of Persia, who, in conjunction with the British forces, took the island of Ormuz from the Portuguese in 1622, was a constant friend and ally of the Mogul Emperor Jehangir, and presented the ruby to him in 1612. At that time the gem was inscribed with the names of Timur's son and grandson and of Shah Abbas himself. These inscriptions no longer exist, and it is uncertain whether they have been obliterated in the course of time or were actually removed by order of Jehangir himself. At any rate, the emperor at once had the names of himself and his father, Akbar the Great, engraved upon it.

Authentic records show that when Jehangir's favorite wife, Nur Jehan, remonstrated with him for spoiling the gem by this inscription, he replied: "This jewel will more certainly hand down my name to posterity than any written history. The house of Timur may fall, but as long as there is a king this jewel will be his"—meaning, of course, that the possession of so valuable a stone would always remain with the suzerain of Hindustan. It is interesting to reflect that throughout all the vicissitudes of Indian history this prediction has been fulfilled to our own days.

The ruby next passed to Shah Jehan, who also had his name inscribed upon it, and finally had it placed in the

FAMOUS PEACOCK THRONE.

On his deposition by his son Aurungzeb, or Alamgri Shah, the gem went with the rest of the jewels. Following the example of preceding Mogul owners, Aurungzeb added his name and the dates on which he acquired it. The last of the Delhi emperors to inscribe his name was Mahomed Farukh Siyar. In the reign of his successor Nadir Shah invaded India and sacked Delhi (1739). The loot carried away to his capital, then Ispahan, included the Timur ruby, as is shown by the following inscription engraved in the cryptic style affected by Persian scholars of the day:

"This (is) the ruby from among the 25,000 genuine jewels of the King of Kings the Sultan Sahib Qiran, which in the year 1154 from the (collection of) jewels of Hindustan reached this place."

The date is that of the Hijra era and correspands with 1740 A.D. Sahib Qiran ("the Lord of the Auspicious conjunction") is the name by which Timur has always been known in Asia and the Moslem world.

The latest name on the jewel is that of Ahmad Shah, commonly known as Abhadli or Durani, who, at the time of Nadir Shah's assassination in 1747, held an important command in his victorious army. On hearing of the murder he attempted to seize the throne, but succeeded only in securing

A LARGE AMOUNT OF BOOTY.

which he took with him when he marched south at the head of his Usbeg troops and founded the kingdom of Afghanistan. On his death, in 1772, his son, Timur Shah, succeeded to the throne of Kabul, and the ruby eventually passed to the latter's youngest son, Shah Suja. On his expulsion by Dost Mahomed he took refuge in the Punjab, and Maharaja Ranjit Singh forced him to surrender both the Kohinoor and Timur Ruby.

On the annexation of the Punjab, in 1849, the board of administration took over all the state jewels. The Kohinoor was sent direct by the hands of a special officer to England and at once delivered to the late Queen Victoria. Some of the more valuable gems and articles found in the Toshakhana (treasure house), including the Timur Ruby, were packed up in Lahore and sent via Karachi and Bombay to London. These were all displayed in the great exhibition of 1851, and when this was closed the Court of Directors of the East India Company presented the ruby to Queen Victoria.

BOW WOW.

"You say the man gave a whistle. Well, go on, what followed?"

"His dog."

If the hair is very oily and hard to cleanse, add a tablespoonful of alcohol to a large basin of water.

BRITAIN'S NEW LORD CHANCELLOR.

Lord Haldane, who has been Secretary of State for War since 1905, has succeeded Lord Loreburn on the Woolsack, and this fact leads the London Sphere to remark that the appointment meets universal approval. Readers of Campbell's "Lives of the Lord Chancellors" will know that learned and distinguished men have held that office, but we doubt if since the days of Francis Bacon, Lord Verulam, there has been any Lord Chancellor with so splendid an intellectual equipment as Lord Haldane. Readers of his essays, particularly those in "The Pathway to Realty," will know something of one side of his work. A great and versatile reader as well as a good lawyer, Lord Haldane is at home with every aspect of philosophy and of literature, and he is equally at home with the best literary philosophical achievements in the German and the English languages. His father was a Writer to the Signet. He was born in 1856 and educated at the universities of Edinburgh and Gottingen. He was called to the Chancery Bar in 1879, and made a Q.C. in 1890. He first entered Parliament in 1885 as M. P. for Haddingtonshire.

HOME

RECIPES.

Picnic Eggs — Six hard-boiled eggs, one cup of fine breadcrumbs, one egg, three tablespoons of devilled ham and one-half cup of milk. Soak the crumbs in the milk, add the ham and eggs slightly beaten. Roll the eggs in this mixture. Chill. Fry in deep fat and drain on soft paper.

Tapioca Jelly—Soak one-half cup of pearl tapioca in two cups of cold water for two hours; add one-eighth teaspoon of salt, two tablespoons of sugar and one cup of boiling water. Cook in double boiler until clear. Serve with raspberry sauce. Sauce—Cook one cup of red raspberries in one cup of water for ten minutes. Strain and add one tablespoon of cornstarch thoroughly mixed with one cup of sugar and one cup of water. Boil ten minutes.

An Economy Dish.—Buy a ten-cent soup bone and cook slowly all day; then remove meat and bone and put stock away in a cool place until next morning, when remove all fat. Now boil the stock down to about one quart, then add the juice of one can of tomatoes, thicken with one tablespoonful of flour, season, and strain. The meat can be used in hash or for cold meat. The fat makes good shortening, and the half can of solid tomatoes helps out another meal.

Sardine and Herb Butter for Sandwiches—Six or eight sardines, two tablespoons of butter, one teaspoon of minced tarragon, one teaspoon of lemon juice and a few grains of cayenne. Remove the bones from the sardines and add the other ingredients and rub to a paste.

Sandwich Dressing—One small onion, nine olives, one sweet green pepper, one cup of grated cheese. Chop the onion, olives and pepper very fine, add the cheese and moisten with mayonnaise dressing.

Sailor Cakes—One cup of butter, two cups of sugar, two eggs, two tablespoons of milk, one tablespoon of ginger, one-half teaspoon of soda, three cups of flour. Cream the butter, add the sugar gradually, then the eggs beaten light. Dissolve on a floured board and roll to one-eighth inch in thickness. Sprinkle with granulated sugar; cut in oblongs about three inches long and one and a half inches wide. Place on a baking sheet and bake in a moderately hot oven. These will keep a month or more, provided they are put under lock and key. Keep in a tightly covered tin box. The name sailor cakes was given to them because sailors' wives used to make them for their husbands to take to sea when they went on a voyage.

MAKING SAFE INVESTMENTS

WHY IT IS MORE SATISFACTORY TO INVEST THAN TO LEAVE MONEY IDLE.

Money Compounded at 6 per cent. Doubles Itself in Twelve Years—If You Are Uneasy Over Your Money Leave It in the Bank.

The articles contributed by "Investor" are for the sole purpose of guiding prospective investors, and, if possible, of saving them from losing money through placing it in "wild-cat" enterprises. The impartial and reliable character of the information may be relied upon. The writer of these articles and the publisher of this paper have no interests to serve in connection with this matter other than those of the reader.

"Why, if investing my money is such a difficult task, shouldn't I bury it in the garden or put it in a bank?" is a question asked by some people.

The reason is simple enough, but rather hard to explain in a concise and clear manner.

You know, of course, the parable of the talents, how the man who put his out at interest was commended, while the hapless wight who did his one little talent of silver up in a napkin and buried it got into trouble. Well, in these days anyone with no more sense than to bury their money or keep it in the house, deserves to get into trouble.

If one has money it can be put in a savings bank, and there it will realize 3 per cent. There, if the interest is allowed to compound the money will double itself in twenty-three years. And at the same time if it is required, may be used quite as easily, if not much easier, than if it were buried in a hole in the ground. That is one sound reason why it shouldn't be buried. Moreover, the bank is much safer than a hole, even if carefully concealed.

In a bank, however, the income is not large on money deposited. The man with $10,000 gets only $300 a year. If, however, he invested that sum in safe municipal bonds his income could be at least $475 and with care he might find several bargains which would make the return about $525. Now, at 5 per cent. if he invested his income, his $10,000 would become $20,000 in 15 years, while if he bought industrial bonds to return 6 per cent. his money would double in 12 years and treble itself in 19 years.

That is another good reason why money should not be buried. The latter facts indicate why it is better to put money in securities.

Of course, if a man is going to be uneasy over his money, and would be satisfied to have it in a bank, he would be a fool to take it out and buy bonds with it. On the other hand, he would be more of a fool if he were to withdraw his funds in the hope of getting an abnormal rate of interest, for in that case he will probably end by losing it all, and that of course, is not the prime aim of investing.

Of course, in investing, as in banking, or, in fact, in any business, one must rely on the word of somebody else. No man who is not in the investment business can investigate the conditions surrounding a business or a debenture with any degree of success. That is why you have to buy your bonds from an investment banking house. They have investigated the municipality, or company, and their lawyers have examined into all legal questions involved. After that they buy the bonds. After they have bought the bonds they turn around and sell them to the investor. It is a regular business, just as is the grocery business or any other. The bond dealer buys from the producer and sells to the consumer. If, therefore you want to invest in bonds you have to go to the bond dealer. If you cannot trust him, if you have no confidence in doing business in this way, don't do business—keep your money in the bank. If, however, you are prepared to trust someone, pick out an investment house and stick to it as long as you are satisfied with the way they treat you. Continually changing from one investment house to another is quite as unsatisfactory as changing doctors with each illness, or changing farms each year. At every change there is a lot of ground that has to be gone over again and much time and trouble is saved by not changing.

Some investors have an idea that by moving around they get better treatment—that by offsetting one house against another they may get bonds cheaper. This may be the case occasionally, but as a rule investment houses do not like a client of this sort, and if they have any bargains he is the last man to hear of them, or if he wants to sell his securities he doesn't get the same consideration he would have received if he had been constant in his dealings. This is natural and is human nature. If a bond dealer thinks a client is selling his securities to buy those of another house he is by no means likely to give his best price. If he thinks a man has tried to sell in several other places before coming to him he knows that he will not have to give his best price. If you are satisfied with your investment banker stick to him. It pays in the long run. Of course, this does not mean that you should not buy the issues of any but the house you deal with regularly. Buy others if you wish but, as a rule, you will find it more satisfactory to stick to one house.

Secure & Profitable Bonds Paying 6%

¶ Price Bros. & Company have been in business in Quebec over 100 years. It is the largest industry in Quebec Province. Their holdings of pulp and timber lands are 6,000 miles in extent, and have been valued by experts at over $13,000,000. The net earnings in 1910 were $448,000,000. The new pulp mill now under construction will double these earnings. Timber limits are insured with Lloyds of England against fire.

¶ Price Bros. & Company First Mortgage Bonds pay 6 per cent. interest on their present price. They will assuredly appreciate in value. Considering interest return, security, and future increase in value, they are an unusually attractive investment.

On application we will send you literature fully describing these bonds.

THURSDAY, JULY 11, '12

Many people are asking when the presidential election in the United States is held. It is on the first Tuesday after the first Monday in November falling this year on November 5th. The new president will not be installed in office until March 4th following. There will also be another meeting of Congress before the installation of the newly elected President.

Talk Ontario up. It is worth being talked of. It is one of the best lands that the sun shines on to-day. The newspapers have to a large extent, gone with the tide in favor of the West to the neglect of Ontario. There are signs of awakening on their part. The West does not need booming from the newspapers of Ontario. They have news papers of their own capable of doing it. Ontario is a good province to stay in and a good province for intending new settlers with a little money, intelligence and industry. Try a little booming of Ontario. There are enough for the West now.—Stratford Beacon.

Huron County Councillors are better on expressing good wishes and throwing bouquets at this grand old County that they are at knocking up by a grant to make known our actual possessions. That the half has never been told of Huron's possibilities is no fable but they never will be voiced if the tune has to be pitched by other counties. We are the fellows who will have to cry aloud and spare not. Many a dollar is spent by Huron Co. Council on less important items than a well managed publicity campaign and the 1912 opportunity should not have been allowed to pass by unimproved. At least that's our opinion on the subject.—Clinton New Era. And our opinion, also.

Canada has other resources than those found in the land. Important as our resources in forest, in mines and in fisheries are, this country cannot prosper independently of agriculture. It is the foundation industry, the one that should receive first attention. Once the mine gives up its silver and gold its productive power ends. The very opposite should be the case with agriculture. The well-managed farm will continue to produce for all time. In fact, Britain's experience has shown that land property handled will continue to increase in productive power. There may be a limit but where a well-planned system of intensive farming is followed the power of the land to produce seems to increase as the years go by. If it were not for the possibilities in this direction it will be a sorry day for mankind in the years to come, when all the agricultural lands are taken up and the world's population growing greater every year. Present methods of farming on this continent are extremely wasteful. The immense stretches of fertile lands have been generous to past generations, and the new lands being opened up equally generous to those who settle on them. But the time has arrived in the older parts of the country when man must give back something to the land or it cannot continue any longer to be generous. The average yield of wheat in the United States is about 18 bushels per acre. The yield is higher in Canada, for the reason, perhaps, that we have not been robbing the land for so long a time. Compare the average yield of wheat in the United States with that of Great Britain and we get some conception of the possibilities of agriculture when we get over the idea that the land was intended to give always to man without receiving anything in return. Those settling on new lands should keep this fact in mind and endeavor to keep up fertility to its present proportions.

CROP ROTATION AND SOIL CULTIVATION

There has recently been received from Ottawa a pamphlet on crop rotation and soil cultivation. It embodies an address delivered by J. H. Grisdale, Director of Experimental Farms, during the past Session of Parliament before the Standing Committee of the Senate on Agriculture and Colonization.

At the outset the point is made that crop returns depend on soil and soil management. The pamphlet then goes on to deal with soil functions, requirements of crops, rotation, cultivation, moisture, warmth, plant food, cultural operations and implements. These subdivided until the field of successful crop growing is well covered. Under crop rotations, seven are described and explained. The three year rotation—hoed crop, grain, hay—is highly recommended, more especially for farms that include considerable areas of rough land for pasture, but not available for crop production. Farms that are mostly arable are better served by a four year course which adds one year's pasture to the three year rotation mentioned. Any of the seven rotations, described if carefully followed and the cultural operations therewith performed at the right time and in the right way, are claimed by the author, to increase tremendously the crop production of any given farm and at the same time increase but slightly, if at all, the cost of production. This pamphlet which covers thirteen pages, is available to all who apply for it to the Publications Branch, Department of Agriculture, Ottawa.

GRAND BEND.

Mrs. Knox from Granton is visiting her sister, Mrs. Baker.—Mr and Mrs. Asaph Gravelle visited at Thedford for a few days.—Some of our auto drivers are driving very fast. One said he went to Zurich in 22 minutes. It is high time some one was appointed here to look after those driving too fast.—The remain of John Hayter were brought home here Sunday for burial from London where the young man had gone for treatment some years ago. He never regained his health, so death claimed him. He was 30 years of age and leaves one son, besides his aged parents and several brother and sisters to mourn his loss, who have the sympathy of the community in their sad bereavement.

Crediton

Old Sol has been working over time these days. Our people are sweltering in the heat and all long for a big rain and a drop on the temperature.

Miss Otto of New Hamburg, who has been visiting Mrs. Chas. Zwicker for a few weeks returned to her home on Thursday last.

Chris Finkbeiner of London and John Finkbeiner of Detroit are spending their holidays in town the guests of their parents.

Rev. S. R. Knetchel, the newly appointed Presiding elder of this District, of Berlin, occupied the pulpit in the Evangelical church last Sunday morning and evening.

Mrs. Telfer and family have returned to London after a few weeks' visit here with her parents Mr. and Mrs. August Ewald.

Ira Brown and W. H. Paget autoed to Hensall and Bayfield on Sunday and spent the day with friends.

Mr. and Mrs. Thos Wind of Detroit are visiting in town for a few days.

George Lawson is improving the front of his lot by laying a sod lawn, which will make a decided improvement.

Rev. Selby Jefferson, the new pastor of the Methodist church gave his initial sermons last Sunday to very large audiences. The reverend gentleman has made a favorable impression and we are sure the work of the church will prosper. We welcome Mr. and Mrs. Jefferson and family to our town and wish them every success in the work.

Mrs. Herb. Hilbert is visiting her sister Mrs. Fred Andersson of Lucknow for a few weeks.

Last Thursday evening Arthur Holtzmann, graduate of the Northwestern College in Naperville, Ill., delivered an address at the Y.P.A. meeting of the Evangelical church. This address was given at an Intercollegiate Oratorical contest a few months ago and Art. came out the winner, getting a handsome prize. Those who failed to attend the meeting Thursday evening missed a treat. We congratulate him on his recent successes and we feel certain he will make his mark in the world.

Harry Beaver is wearing a very broad smile these days. A little girl came to stay at his place on Thursday evening.

Swimming appears to be the favorite pastime for the boys these days. It's great sport. Some of the lads had lots of fun on Monday evening. It finally wound up in a mud slinging contest with the result that the majority of them had to return to the water to wash off.

Last Friday evening one of the best games of ball which have ever been played on our diamond took place. Strathroy came here with their team thinking they would have some sport with our country team, but altho they returned home winners they received an eye-opener. At the close of the ninth the score stood 1-0 in favor of the visitors. Ted pitched superb ball and more than once pulled the team out of an awkward hole. Herb Palmer at one time was in good shape to make a score but slipped at third and couldn't recover himself in time. Our outer field hadn't much to do. That inner combination is hard to beat. A feature of the game was the difficult catch made by the visitor's short-stop. It was a dandy. The game throughout was much better than some of the exhibitions made by league teams. When our boys play the return game a bunch of "rooters" will accompany them to help them through the victory.

Mrs. Daniel Sweitzer left for Algonquin Park on Monday to spend the summer with her sister, Mrs. Wm. Lewis.

Dr. Orme is giving his barn a coat of paint and is making a good job of it.

John Sweitzer returned from the Muncey Reserve on Saturday evening, where he engaged a number of Indians to pull this season's crop of flax. There are a few families here now.

Arthur Sambrook is visiting Mr. and Mrs. Fotheringham of London this week.

ZURICH.

At the last Directors' meeting of the Hay Township Farmers' Mutual Fire Insurance Company the manager was instructed to forward the following letter of condolence to Mr. William Lamont, one of the directors:—

To Mr. Wm. Lamont, Hillsgreen, Ont

Dear Sir,—"It is with the deepest sorrow and regret that we refer to your sudden bereavement in the loss of your wife. It is hard to lose our dear ones after a time of anxiety and suspense, but the sorrow is much greater when they are taken as Mrs. Lamont has been in the full vigor of health and strength. Yet it will be a consolation to you to know that she was spared a long and painful suffering.

We believe it will always be a pleasure for you to recall her tender love and perfect devotion, so frank and womanly in its expression.

God alone can comfort such grief as yours and that such consolation may be yours in its fullest measure is the sincere prayer of this Board of Directors."

CENTRALIA

Mr. Thos. Willis, sr., left Monday for South Bend, Ind., where he will visit his daughter, Mrs. Percy Luxton.—Miss Edna Davey returned to Sarnia Monday after visiting with her parents here.—Mr. and Mrs. Thos Hennessey of Biddulph visited with Mr. and Mrs. Wes. Hodgins here.—Mr. Thos McFalls of Lucan called on friends here Sunday.—Mr. Simon Sweitzer visited his parents at Shipka Sunday.—Mr. Wilbert Luker left Monday for the west he having sold his household effects here on Friday.—Mr. R Baker of Hensall has taken a position at the factory of Mr. Thos. Willis, and moved last Saturday into the house owned by Mr. Wilbert Luker.

TUCKERSMITH—Wm. Broadfoot has sold his fifty acres more or less on the Mill Road to Arch. McGregor, Pare Line, Stanley, for $3,600. He is to be congratulated on his purchase. He takes possession in September. Mr. Broadfoot thinks of going west.

How's This?

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure.

F. J. CHENEY & Co., Toledo, O.

We the undersigned have known F. J. Cheney for the last 15 years, and believe him perfectly honorable in all business transactions and financially able to carry out any obligations made by his firm

WALDING, KINNAN & MARVIN,

Wholesale Druggists, Toledo, O

Hall's Catarrh Cure is taken internally, acting directly on the blood and mucous surfaces of the system. Testimonials sent free. Price 75c. per bottle. Sold by all Druggists

Take Hall's Family Pills for constipation.

Dashwood

Mr. Fred Gossman, accompanied by his daughter, Mrs. C. Rinker, is spending a few days with friends in Port Huron.

Mr. and Mrs. Jacob Hartleib, Mrs. Louis Rinker, Mr. and Mrs. Jonas Hartleib and family attended the funeral of a relative at Sebringville on Monday.

Miss Louise Hunter left for Berlin Tuesday to spend her holidays with her sister.

Mrs. Ned Weltin, who spent the holidays with friends in St. Clemens, returned home Wednesday of last week.

Master Wm. Abel of Detroit is spending his vacation with his grandmother, Mrs. McIsaac.

Dr. and Mrs. Geo. Snider of Columbo, Ohio, are visiting with the former's parents here.

Mr. Wilbur Graybiel, who has been attending C. B. C at Chatham, is spending his vacation under the parental roof.

Mr. Herbert Graupner, son of Rev. Graupner, Elmira, is spending a few days at the Lutheran parsonage.

Mr. and Mrs. P. Haberer of Zurich spent Sunday with the latter's parents, Mr. and Mrs. J. Roeder.

Miss Olivia Weltin of Berlin is visiting her parents here for a few weeks.

Mr. Louis Preeter sold his dwelling to his brother, Mr. Fred Preeter and intends removing to Stratford next month. We are sorry to lose Mr. and Mrs. Preeter as they are good citizens, we wish them every success in their new home.

Mrs. Henry Callas left for Port Huron Friday of last week, where she will take treatment in the hospital.

A friendly game of baseball was played between the Zurich team and our junior team on Tuesday evening, the score resulting 3-7 in favor of Zurich.

Mr. and Mrs. I. Diesnich of Bamberg and Mrs. Kuntz and children of Waterloo visiting their sister, Mrs. Ned Weltin.

ELIMVILLE

Mrs. Penwarden of Zion and Mrs. C Prout of Elimville are visiting with Mr. May with Penwarden at Chatham—Mr. Albert Penwarden delivered a very fine grey mare to Mr. M. M Doyle for a handsome sum.—Mr. Wm. Ford lost a valuable colt by death last week.

WOODHAM—Armour Haines has secured a position on the staff of the Chatham Collegiate Institute. He is to teach junior science art and calisthenics at an initial salary of $1000. His many friends wish him every success in the work in which he is about to engage.

FULLARTON—On June 22nd Leo Smith, a young man nearly 18 years of age, who had been in the employ of Mr. Edward Hanson, was kicked in the stomach by a horse, and the injuries proved fatal on Friday last. Deceased was a steady and industrious young man and without relatives in Canada.

CLINTON—The new principal of the Model School is to be T. B. Allingham of Barrie, who succeeds Mr. Joan Hartley, recently appointed by the Provincial Government to the Vankleek training school.

MITCHELL—Mrs. George Anderson has received word from her sister, Mrs Powers, in Regina, stating that their home was among those razed in the recent cyclone. Mrs. Powers was painfully injured, and her daughter had a stick run through her cheek. It entered one side of her face and came out the other.

MITCHELL—Mr. T. H. Race, who acted in the capacity of lecturer on the Made-in-Canada train, which visited one hundred and five different points in Western Canada, has arrived home. The average attendance each day was nearly 7,000, and Mr. Race gave one hundred and ninety-five lectures of 20 minutes each during the tour.

ST. MARYS—Johnson Furness a middle aged married man made an unsuccessful attempt to commit suicide by cutting his throat with an old razor. He was found in a semi-unconscious state leaning over a fence by two delivery boys on Tuesday afternoon. A doctor quickly arrived and tended to his injuries. The gash had been made at the front and required only three stitches to close the wound.

The new law in Ontario provides that in future when Division Court cases are to be tried by jury the jurors must be selected from different municipalities over which the court has jurisdiction. The old law allowed the jurors to be selected from any municipality.

SUDDEN DEATH OF LUCAN GIRL.

Stratford, July 9.—An inquest will be held into the death of Miss Margaret Emma Gibson, formerly of near Lucan, whose death occurred here on Saturday. Deceased, it is alleged, had been living with a teamster named Robert Brazzel for the past six months. A few minutes before 4 o'clock on Saturday afternoon, Mr. Brazzel rushed across the street to phone for a doctor as Miss Gibson was dying. Dr. Deacon was immediately notified, but the woman was dead before he arrived. Miss Gibson was a brother on a farm between Lucan and Alisa Craig, who has been notified of his sister's death. He is the only known relative.

WHALEN.

Miss Brooks of Indian Head, Man., is the guest of Miss Edna Gunning this week.—Miss Ida Hern returned home last Friday after spending two weeks with her sister at Rockwood.—Messrs J. V. Millson and David Johnston, Jr., went to Stratford as a committee from this church and purchased a new Bell Organ which was installed on Friday. Our choir was out in full strength on Sunday and the music and singing was almost beyond the usual, which means something extra.—Albert Gilbert of London is visiting his aunt Mrs. J. Millson.—Miss Maggie Mara of London visited friends around here last week.—Miss Mary McCarthy and her brother James visited friends here on Saturday last.—In the absence of Miss Hern, Miss Bessie Morley very efficiently officiated at the organ, and also played for the anniversary, Sunday.—Haying is in full swing here now and is running about a load to the acre.

FARQUHAR

Mrs. Rich Neil of London is visiting friends around Farquhar.—Miss Vietta Green of Zurich is visiting her sister, Mrs. J. W. Stewart.

Death—The death took place early Monday morning of one of the old residents of the boundary between Usborne and Hibbert, in the person of Mr. William Hackney, at the age of 81 years, 11 months. Deceased had been ailing for some time from the infirmities of old age and death was not unexpected. Born in Scotland he came to Canada in early years and after residing in several places settled in this neighborhood, where he farmed and became highly respected by all who knew him. He never married and during the last few years had lived with his nephew. The funeral on Tuesday to Staffa cemetery was largely attended.

CLANDEBOYE

Mrs. McKenzie arrived home Friday from Victoria hospital, London, where she has been undergoing an operation for appendicitis.—Mr. R. Atkinson, G. T. R., agent, left for Belgrave where he will relieve the agent there for a few weeks. During his absence Mr. J. R. Atkinson will be the acting agent.

Money Back Dandruff Cure

W. S. COLE GUARANTEES PARISIAN SAGE FOR DANDRUFF AND FALLING HAIR

Destroy the Dandruff germs, that's the only known way to eradicate dandruff, and PARISIAN SAGE contains just the ingredients that will destroy germs.

Dandruff causes falling hair and baldness because the little dandruff germs rob the hair roots of the nourishment that should go to supply life, luster, and vigor to the hair.

PARISIAN SAGE costs but 50 cents a bottle at W. S. Cole's, and druggists everywhere. It is guaranteed to banish dandruff, stop falling hair or scalp itch, or money back. The girl with the Auburn hair is on every bottle. It is a most delightful and daintily perfumed dressing that quickly invigorates the scalp.

"My hair was falling out badly until I began to use PARISIAN SAGE, but it looks fine now. My hair was getting very thin, but it is getting thick and wavy."—Eliza Archer, 60 Church St., Hartford, Conn., June 5.

TENDER FOR SEWER EXETER ONTARIO

Tenders will be received up to Friday evening, July 12th, 1912, 7 o'clock p. m., for the construction of about 2000 feet of sewer, from the north side of Wellington street to the Post Office. Plans and specifications and forms of tender may be seen at the office of the Reeve, W. J. Heaman, or the undersigned. The lowest or any tender not necessarily accepted.

T. B. Carling, Clerk.

Debentures For Sale

The Corporation of the Village of Exeter will receive tenders up to 7 o'clock p. m., Friday, July 19th, 1912, for the purchase of Sewer Debentures, running 20 years, bearing 5 per cent. interest per annum, from the issue thereof, payable in annual sums of $401.22 at the Canadian Bank of Commerce, Exeter.

T. B. CARLING, Clerk.

O-Pee-Chee Chewing Gum

CONSIDER the name! It means perfection, the best that can be made — Chewing Gum Satisfaction.

The Gum Tree flourishes in Central America—that's where we get the raw product—from *selected* plantations—where it is *carefully* packed and shipped direct to us.

Then it is cleaned and refined and made by modern processes in our *big sun-lit factory* and flavored to suit *different* tastes.

O-Pee-Chee is the purest and best gum made — It is good for you. It keeps the mouth and throat moist, fresh and clean — Perfumes the breath and aids digestion.

State your flavor when you buy O-Pee-Chee—It is sold by all dealers who sell the best gum.

O-Pee-Chee Gum Co.
Limited
London - Canada

A BLOOD MEDICINE WITHOUT ALCOHOL.

Recently it has been definitely proven by experiments on animals that alcohol lowers the germicidal power of the body and that alcohol paralyzes the white corpuscles of the blood and renders them unable to take up and destroy disease germs. Disease germs cause the death of over one-half of the human race.

A blood medicine, made entirely without alcohol, which is a pure glyceric extract of roots, such as Bloodroot, Queen's root, Golden Seal root, Mandrake and Stone root, has been extensively sold by druggists for the past forty years as Dr. Pierce's Golden Medical Discovery. The refreshing influence of this extract is like Nature's influence—the blood is bathed in the tonic which gives life to the blood—the vital fires of the body burn brighter and their increased activity consumes the tissue rubbish which has accumulated during the winter.

Mrs. Hayes.

Dr. R. V. Pierce, the founder of the Invalids' Hotel and Surgical Institute, and a physician of large experience and practice, was the first to make up an ALTERATIVE EXTRACT of roots, without a particle of alcohol or narcotic.

"It is with the greatest of pleasure, that I write to let you know of the great benefit I received from the use of your medicines and self-treatment at home," writes MRS. WM. HAYES, of Ladysmith, B.C. "I suffered for three years from a running sore. Consulted four doctors but they failed to mend or give relief. Finally I was told I was in consumption and would have to consult a specialist concerning my ear, that the dead bone must be cut out before the wound would heal. A kind friend advised me to write to Dr. Pierce, which I did, and after seven months' use of the treatment the sore is healed, and I enjoy better health than I ever did. I dressed the wound with Dr. Pierce's All-Healing Salve and took the 'Golden Medical Discovery' and 'Pleasant Pellets' for my troubles. I shall always recommend your medicines."

Dr. Pierce's Pleasant Pellets regulate liver and bowels.

MAGNET MARVELS

Modern Giants That Raise Tons of Metal at a Time.

LIFT BILLETS HOT OR COLD.

A Single One of These Monsters With Invisible Magic Fingers Will Do the Work of Half a Hundred Men—The Magnet in Medicine and in Surgery.

Those who have watched a toy magnet lift up pins and needles and marveled not a little at the unseen power that causes the bits of metal to jump might well be excused for standing aghast at the sight of a modern giant magnet picking up several tons of iron and steel from the scrap heap and conveying it with ease and rapidity to the melting furnace beyond.

So great has been the commercial development of the magnet that it can lift five and a half tons. These giant magnets used in iron and steel mills can pick up hot as well as cold billets, and a single one of this character will displace half a hundred workmen

A further improvement may be noted in the combination of skull cracker and magnet. The skull cracker is a huge pear shaped ball of iron suspended by a chain to a hook and steel ropes. This skull cracker is dropped with great force on scrap metal to be broken up for remelting. It breaks the metal into conveniently small pieces and is lifted up and down by the magnet until the scrap is reduced to proper size. Then the invisible fingers of the magnet gather up the small pieces and carry them to the melting furnace. The entire operation is accomplished in one-hundredth of the time formerly required by manual labor

More recently magnets have been employed in the milling industry to pick out small particles of metal that frequently get into flour and cause explosions through friction when they come in contact with the big rollers. Not a particle of metal can escape the powerful magnets suspended over the chute through which the grain passes

In mining and metallurgical work the magnet has become an indispensable labor saving agent. The magnetic separation of ores has saved thousands of dollars to mining companies. When the rocks are crushed and pulverized powerful magnets gather up the infinitesimal parts of metal released from their beds and convey them to the smelting furnace. Quantities of ore can thus be saved from old tailings that were formerly considered pure waste.

Recently commercial magnets were employed for the novel purpose of raising sunken treasures. A big cargo of nails was lost in twenty fathoms of water, and the loss seemed irreparable until some enterprising genius raised them easily and cheaply by means of a magnet suspended from a derrick by steel cables.

In the most improved commercial magnets hollow steel castings are used, in which magnetized coils are placed. The latter are built up of alternate layers of copper and asbestos and insulated from the cast steel frames by thick sheets of mica. A magnet of this construction is proof against heat and cold and free from the danger of short circuiting. There is nothing combustible used in its manufacture, and it can gather up a ton of hot scraps of steel with comparative ease.

But the invisible fingers of the magnet can pick up the most delicate splinter of steel no larger than a sewing needle as easily as it lifts a huge iron or steel beam weighing a ton or two. The small magnets have therefore found as great a field of usefulness as the big ones. In all trades they are employed for handling pieces of metal too small for fingers to pick up easily.

In a medical way they are used successfully for extracting iron or steel cinders from the eye and also for drawing out of the body needles and pieces of metal that have found lodgment there. A dressmaker who had inadvertently swallowed a dozen needles was operated upon in this way with entire success. For several days she was placed under a powerful magnet until every needle had been drawn from her body.

In a therapeutic way magnets have proved of value in destroying ulcerous and cancerous growths, and even blood diseases of some kinds have yielded to their curative effects. A man with the point of a dagger broken off in his body had it removed by a magnet. Another patient had been suffering from a painful ulcer on the chin for many years without finding relief. He was finally cured by treatment with a magnet, which drew from his chin a lot of steel filings that had caused all the trouble. The filings had found lodgment in a cut in his face one day when working before a turning lathe. No immediate trouble had followed, and the man had forgotten the incident until the magnet drew them out and gave the ulcer a chance to heal.—George E. Walsh in Chicago Record-Herald.

A Pertinent Question.

There are great men who cannot spell, and small people who object to them. "Spell 'cat,'" said the teacher to the boy at the tail end of the class. "K-a-t," replied the boy. "Billy," replied the teacher. "Can't you spell cat?" "Well," replied the sensible boy, "what does k-a-t spell?"—London Chronicle.

Idleness is only the refuge of weak minds and the holiday of fools.—Chesterfield.

HENSALL

Miss Florence Reynolds, who has been teaching in Kenora, is home for the summer vacation.—Miss Margaret McTaggart, of Clinton is the guest of Janet Smith.—Miss Dolly Hagan spent Sunday and Monday with her sister in Detroit—Alex Murdock who has conducted a boot and shoe business here for fifteen years, has disposed of his stock to Minie Rannie and stock taking is now in progress. We understand that Mr. Murdock intends taking a trip to the West although he has no notion of locating there.—Joe. Case, wife and daughters of Toronto are visiting W. Moir and other relatives.—Mrs. W. McLean has returned after spending two months in Hamilton Blyth and Seaforth.—The Council has decided to purchase five car loads of stone at St. Marys to be placed on King Street.—Miss Buchanan, trained nurse, is home from the West visiting her parents, Mr. and Mrs. A. Buchanan.—Hal White of the Chicago Dental College, who has passed his second year exams with honors, is here visiting friends.—Miss Maggie Buchanan, who is in training as a nurse at Toronto, is spending her holidays with her parents, Mr. and Mrs. A. Buchanan.—James Johnston, wife and children left on Tuesday morning for Brandon, Man., where they will in future reside.—Rev. J. E. Millyard, wife and children left last week for London. Rev Robert Hicks, wife and little girl have arrived and are busy getting settled in the parsonage.—The sons and daughters of Robert Bonthron, all met together for the first time in several years, last week and held a sort of family reunion.

A man who was much in need of sleep rolled out of bed during the night, the jar did not awake him thoroughly and his hand wandered in exploration It encountered the mesh of some protruding springs and a sturdy iron corner post. "In jail at last," he mumured as he passed away off into a heavy sleep.

E-M-F 1909 Studebaker FLANDERS 20 1909

You Can Trust Studebaker

The Studebaker Flanders "20" is built of the best materials money can buy, and at every vital point duplicates the design of the highest priced cars. It is low in price because we build so many, but in essential it is as good an automobile as can be built.

The name "Studebaker" tells the reason for such big value. For 60 years Studebakers have sold to farmer and townsman the best vehicles in the world, and the same honest Studebaker skill and workmanship go into every Studebaker skill and workmanship go into every Studebaker automobile. Others may be slightly cheaper—but you can always trust your Studebaker car.

Canadian Car for Canadians

Studebaker Flanders "20" Touring Car: $1000 f.o.b. Walkerville
With Top, Windshield and Speedometer, $1110

McGILLIVRAY

The death on July 27th, of Mrs. Sarah Gormley, widow of the late W. Horner, took place at home of his daughter, Mrs. Robt. McIntosh, Parkhill. The deceased had been in failing health for the past several months but was able to be down town about two weeks before her death. After her marriage to Mr. Horner she moved to her late homestead on the 8th Con. of McGillivray over 34 years ago. The age of the deceased was 67 years, 3 months, 8 days. She is survived by six daughters and three sons as follows—Mrs. Robert McIntosh, Parkhill, Mrs. Louis Neil, Clandeboye, Mrs. Henry Belling, Mrs. Wilbert Young and Mrs. Arthur Molland all of McGillivray and Mrs. J. K. Campbell, of Caradoc. Joseph and William at home and Fred, of Waldeck, Sask, all of whom excepting her son, Fred, attended the funeral.

YOUR capacity for mental effort is limited by your physical condition. Keep in good trim physically, and you'll never be troubled with "Brain Fag."

Labatt's Stout is a perfect tonic—mildly stimulating, nourishing and sustaining. It will keep your physical being in tune and give the proper balance of body and mind.

JOHN LABATT, LIMITED
LONDON, CANADA. 47

NERVOUS, LIFELESS DEBILITATED MEN

YOUNG MEN AND MIDDLE-AGED MEN, the victims of early indiscretions and later excesses, who are failures in life—you are the ones we can restore to manhood and revive the spark of energy and vitality. Don't give up in despair because you have treated with other doctors, used electric belts and tried various drug store nostrums.

Our New Method Treatment has snatched hundreds from the brink of despair, has restored happiness to hundreds of homes and has made successful men of those who were "down and out." We prescribe specific remedies for each individual case according to the symptoms and complications—we have no patent medicines. This is one of the secrets of our wonderful success as our treatment cannot fail, for we prescribe remedies adapted to each individual case. Only curable cases accepted. We have done business throughout Canada for over 20 Years.

CURABLE CASES GUARANTEED OR NO PAY

READER Are you a victim? Have you lost hope? Are you intending to marry? Has your blood been diseased? Have you any weakness? Our New Method Treatment will cure you. What it has done for others it will do for you. Consultation Free. No matter who has treated you, write for an honest opinion Free of Charge. Books Free—"Boyhood, Manhood, Fatherhood." (Illustrated) on Diseases of Men.

NO NAMES USED WITHOUT WRITTEN CONSENT. No names on boxes or envelopes. Everything Confidential. Question List and Cost of Treatment FREE FOR HOME TREATMENT.

FORTY-ONE PEOPLE KILLED

And Fifty Were Injured in Passenger Train Wreck Near Corning, N. Y.

A despatch from Corning, N.Y., says: Westbound Lackawanna passenger train No. 9, from New York, due to arrive at Corning at 4.47 a.m., composed of two engines, a baggage car, three Pullmans and two day coaches, in the order named, was demolished at Gibson, three miles east of Corning at 5.25 o'clock on Thursday morning by express train No. 11, due at Corning at 5.10 a.m. Forty-one persons were killed and between fifty and sixty injured. Many of the victims were holiday excursionists bound to Niagara Falls, who had boarded the train at points along the Lackawanna from Hoboken to Buffalo.

The wreck was the worst in the history of the road. Its cause, according to Engineer Schroeder of the express, was his failure to see the signals set against his train. The morning was a foggy one, and he said he could not make them out.

The wrecked train stood on the main track blocked by a crippled freight train. There was no flag out, according to Engineer Schroeder. The signals, which he declared it was too foggy to see, were just around the curve.

Schroeder had taken train No. 11 at Elmira fifteen minutes before. It was a few minutes late. The stretch of track from Elmira to Corning is fitted for fast running, and he was sending his train along at the rate of 65 miles an hour. No. 9 was supposed to be half an hour ahead of him. He never had any warning until he made out the outline of the rear coach of No. 9 through the fog that was crawling up the mountain from the river far below. He saw the lights ahead and threw on the reverse without shutting off the steam.

The jerk threw the train off the track, and the locomotive plunged on a few rods further to splinter the two day coaches filled with excursionists and tear through the last of the Pullmans. Schroeder said that the impact was so great that it threw him from the cab and landed him on his shoulder on the road bed, practically unhurt.

The 100-ton monster continued its plunge through the middle of the train, grinding everything in its path. It seemed as if it would cut through every car. Then when it was finally blocked by a mountain of debris piled in front of it, it remained on the roadbed in the midst of the desolation its plunge had created, while thousands of persons rushed in every kind of vehicle to the scene to lift and pry the dead and injured from the tangled mass of wreckage.

Thirteen of the injured and ten of the dead were taken to Elmira on a special train. The other dead were taken to undertaking rooms in Corning and the remainder of the injured were conveyed to the Corning City Hospital. There a large corps of doctors and nurses worked rapidly and efficiently. All the physicians in the city were summoned, and many ministers and priests were called to administer last sacraments and receive messages for relatives and friends from the dying.

Most of the bodies were badly mangled, their condition testifying to the terrific driving power of Schroeder's engine as it crashed through the fated train. The cars themselves were one heaped-up mass of wreckage, telescoped into each other. The last two cars on No. 11 remained on the track and later were used as hospital coaches.

The people of Corning have opened their homes to the injured who could not find accommodation at the hospital, or whose injuries were too slight to warrant their crowding other persons from the institutions.

DOG SURVIVED TWO MASTERS

Its Barking in Boat Drew Attention to Bodies.

A despatch from Vancouver, B.C., says: Dead from exhaustion and exposure, the bodies of two fishermen were found on Wednesday in a fishing boat off Pender Harbor, 70 miles up the northern coast. The boat was nearly filled with water, but floating sturdily, and a dog, still living, but very thirsty, had strength enough left to bark loudly and attract attention to the boat. To the identity of the two men aboard there is hardly a clue. The elder man was lying in the bottom of the boat. He looked to have been an Englishman of about 45. The other was a lad of 18 or 20, and his body had evidently been lashed by his companion to the mast. The men had not been dead more than a day or two. On the collar of the dog were initials on a brass plate: "G.S.V., D.T.P., 1912, 66."

ANOTHER RAILWAY WRECK.

Twenty-one People Killed on Picnic Excursion.

A despatch from Latrobe, Penn., says: Twenty-one persons were killed and many fatally injured at 4 o'clock on Friday, on the Ligonier Valley Railroad, when a passenger rain carrying picnickers was backing into Wilpen, through a misunderstanding of orders. The accident happened at the Fair grounds. The accident was caused by a double-header freight, which crashed into the rear coach of the passenger train, telescoping several cars. According to latest reports, but one passenger on the train escaped injury.

A colonization road will be built to connect the Frederickhouse and Abitibi Rivers.

100 FAMILIES NEED RELIEF

Regina Is Being Rebuilt---C. P. R. Will Erect 500 Houses

A despatch from Regina, Sask., says: The city officials in various committees have been working ever since the catastrophe with but a few hours' sleep. A complete canvass has been made as to the necessity for relief. Immediate relief is needed for some 100 families, while more will be added to the list later. Many who really need the relief are probably concealing their needs, and will not apply for help unless urged by actual want. Hundreds of other victims of the cyclone are being kept by friends who can ill afford it. A large portion of those whose residences and property were devastated are wealthy or well-to-do people who, while they have received a severe setback, are not in actual want, and while they lack shelter of their own, are being housed by relatives or friends.

Six automobiles are kept busy investigating cases for relief and doling out provisions. The majority of the homeless are being provided for at private houses, but there are still hundreds sleeping in the public schools and various public buildings and in tents on the site of their former residences.

The C.P.R. have established a record in building their freight sheds. The sheds were almost a total wreck and their whole yard was a scene of devastation. The yards are already nearly cleared, and five hundred carpenters have worked with feverish haste so that the sheds are now practically completed. The city has decided to build a corrugated iron warehouse, which will be rented to firms unable to find accommodation.

The railway officials decided to erect a large number of residences, and they settled on plans for two classes of buildings, one a two-story house to cost about $2,500, the other a bungalow costing about $1,800. If necessary they will build five hundred of these houses. Tenders for the houses have been called for, and work will be started at once. It is hoped to have some completed within ten days.

Over a thousand carpenters are now at work, and more are pouring into the city on every train. All are being put to work. Hundreds of bricklayers are also busy and the residences which were slightly damaged or do not have to be torn down are being patched up for immediate occupancy in remarkably fast time.

The board of the Methodist Church have arranged to go ahead at once with the re-construction of their church. They propose occupying a building of similar proportions on the old site, with few changes in detail.

The task of removing the debris will be slow, on account of the heavy stone and timbers, which are wedged in a mass of wreckage from three to twenty feet high. Inspector Falls has not yet gone over the ruins of Knox Presbyterian Church and could not say if portions of it were safe to rebuild upon. It is quite likely it will be torn down. Work of re-construction on the Baptist Church will cost about $10,000, and is being rapidly pushed. New pipe organ remains intact. The Government is working on the new telephone exchange, plans for which had been drawn up some months ago.

CYCLONE'S WORK AT REGINA

Portion of the ruins of Smith Street south. This and Lorne Street were wiped clean from end to end—two miles of ruin.

Houses facing the Presbyterian Church at Regina. Several people had miraculous escapes from these houses, as this view naturally leads one to expect.

PRICES OF FARM PRODUCTS

REPORTS FROM THE LEADING TRADE CENTRES OF AMERICA.

Prices of Cattle, Grain, Cheese and Other Produce at Home and Abroad.

Hogs—Selects, $7.65 f.o.b., and $8 fed and watered.

DOMINIONS AND THE NAVY.

Lewis Harcourt Announces Contributions From Two of Them.

A despatch from London says: Lewis Harcourt, the Secretary of State for the Colonies, speaking in the House of Commons on Wednesday evening, announced that New Zealand's present contribution to the Imperial navy would be £100,000, while South Africa would give £85,000. New Zealand is also contributing a battleship of the value of £2,000,000.

OLD SACKVILLE FORT BURNED

Fire Did $20,000 Damage at Head of Halifax Harbor.

A despatch from Halifax says: Bedford, at the head of the harbor, eight miles from Halifax, was badly damaged by fire on Thursday night. The Halifax fire department were asked for assistance at 11 o'clock and apparatus was sent up. At 1 o'clock the fire was under control. Four houses owned by J. E. Roy, worth $20,000, were totally destroyed and the old Sackville fort is also destroyed.

CAN'T ADULTERATE TURPS.

Must Meet Pharmacopical Requirements as a Medicine.

A despatch from Ottawa says: Notice appears in the Canada Gazette putting turpentine under the operation of the Adulteration Act. When sold for medicinal purposes it must meet pharmacopical requirements. When sold for other purposes it must conform to certain specifications as to purity, which are prescribed in the order-in-Council.

NORTHERN HOTEL BURNED.

Lady Evelyn, on Lake Temagami, Was Destroyed.

A despatch from North Bay says: The Lady Evelyn Hotel, the largest and best of the three houses operated on Lake Temagami by the Temagami Steamboat and Hotel Company, capitalized by Toronto men, was completely destroyed by fire on Thursday afternoon. Loss will be over thirty thousand dollars, partially covered by insurance. A number of guests were at the hotel, but there was no loss of life. No details are available as to whether any personal effects of the guests were destroyed. The Lady Evelyn Hotel was situated thirty-two miles from Temagami station.

FIRED A REVOLVER.

Attempted Murder of Governor of Hong Kong.

A despatch from Hong Kong says: An attempt was made to assassinate Sir Francis Henry May, the Governor of Hong Kong, on Wednesday. A Chinaman rushed at the Governor near the Postoffice and fired a revolver, but the bullet merely perforated the chair in which the Governor was seated without doing further harm. The attack caused intense excitement. Sir Francis Henry May was appointed Governor of Hong Kong on February 16 last, to succeed Brigadier-General Frederick J. D. Lugard.

NINETEEN COWS KILLED.

Lightning Struck Tree Under Which They Were Standing.

A despatch from Belleville says: An electric storm that passed over Madoc township Friday evening was unusually severe. The worst damage reported was on the farm of Alexander McCoy, near Remington postoffice. His fine herd of milch cows, numbering nineteen, collected under a tree during the storm. A bolt of lightning struck the tree, and the entire herd of cattle, wedged tightly together, were instantly killed.

PLAGUE AT LONDON'S DOORS.

Has Reached Surrey, and Metropolitan Market Will be Closed.

A despatch from London says: The cattle plague, which has hitherto been confined to the North of England, has now reached Surrey. This is getting close to London, and the metropolitan cattle market will be closed on July 8.

T. AND N. O. TRAFFIC.

Operating Charges Keep Net Earnings Down.

A despatch from Toronto says: Traffic is still increasing steadily on the T. and N. O. Railway, although heavier operating charges keep net earnings from gaining much on last year's figures. The gross earnings for April amounted to $142,525, compared with $118,181 in May, 1911. Operating charges increased from $78,000 to $107,000, leaving a net revenue of $50,869. In April, 1911, the net earnings for the month was $40,467. From the beginning of the financial year on Nov. 1 to the end of April net earnings amounted to $278,000, compared with $272,000 for the corresponding period last year. A considerable portion of the road's earning revenue this year is represented by ore royalties, the total being $71,900, compared with only $12,391 for the corresponding period of 1910-1911.

PLAGUE NOW IN HAVANA.

One Case Known, But Isolation Has Not Begun.

A despatch from Havana says: The existence of bubonic plague in Havana has been definitely determined. A special board of physicians has pronounced a case at Las Animas hospital true bubonic. The patient is said to be dying and three other patients are reported dead at the same hospital with marked symptoms of the plague. At the present time the question of isolating Havana from the interior is not being considered. The rat-killing corps of the health department has been largely reinforced. All street cars, busses and ferry boats have been ordered to be washed with disinfecting fluid.

CYCLONE AT SASKATOON.

Only in Miniature, However, and No Person Was Injured.

A despatch from Saskatoon says: A miniature cyclone passed over the north end of this city, accompanied by heavy rain, about 9 o'clock on Saturday morning. A number of garages and similar buildings were wrecked, but most of the damage was done in the neighborhood of the Western Canada sawmills, a large portion of the lumber in these yards being whirled up in a vortex to a height of between one and two hundred feet before being thrown to the ground and smashed to kindling wood. No personal injuries were received.

WEAK, TIRED PEOPLE

Are Usually the Victims of Pale, Watery Blood.

Anaemia is the medical term for poor or watery blood. It may arise from a variety of causes, such as lack of exercise, hard study, improperly ventilated rooms or workshops, imperfect assimilation of food, etc. The chief symptoms are extreme pallor of the face, lips and gums; rapid breathing and palpitation of the heart after slight exertion; headaches, dizziness, sometimes fainting spells and a tendency to hysterics, swelling of the feet and limbs, a feeling of constant tiredness and a distaste for food. Dr. Williams' Pink Pills are a certain cure for anaemia, because they make new, rich blood, which stimulates and strengthens every organ and every part of the body. The following is one among thousands of cases of this serious trouble cured by the use of Dr. Williams' Pink Pills. Miss Georgina Raymond, St. Jerome, Que., says: "About a year ago my health began to give out. I suffered from headaches, heart palpitation, dizziness, and appeared to be threatened with a general breakdown. I was at this time employed in the family of a doctor, who, seeing my condition, gave me medicine. I took this faithfully for some time, but with no benefit, and I grew much discouraged. Then a friend advised me to try Dr. Williams' Pink Pills, saying that she had found a cure through them in similar conditions. I took her advice, got a supply of the pills and took them regularly for some time. Gradually I became strong, and in the course of a month or so I was again enjoying the best of health, and have not since had the least return of the old symptoms. I can heartily recommend Dr. Williams' Pink Pills to all weak girls."

Sold by all medicine dealers at 50 cents a box or six boxes for $2.50 or sent by mail, post paid, by The Dr. Williams' Medicine Co.

SEA ISLAND MYSTERY.

A Little Spot in the Wastes of the Great Pacific.

The Mana, a motor auxiliary yacht just launched at Whitstable, England, is to carry an expedition to the South Seas to investigate the origin of the gigantic prehistoric remains on Easter Island. This island, the most easterly of the Polynesian group, is a lonely dot of land, 45 miles in area, 2,000 miles from the South American coast.

Facing the sea on the island are enormous platforms made of uncemented stones, some of which weigh five tons. Some of the sea walls are 30 feet high and 200 feet long. On the land side are broad terraces, also of stone, bearing pedestals on which formerly stood huge figures carved in lava.

Most of these images have been thrown down, but there are 555 of them on the island. One of them is 65 feet high, with a nose eleven feet long. The figures all extend from head to hips, with receding foreheads, broad noses, thin lips and powerful chins.

There is no metal on the island, and the only tool found was a prehistoric chisel, with which it would seem impossible to execute such colossal works. Moreover, the island with its scanty water supply could not have supported enough people to drag the figures from the quarry where they were made to the platforms. Some of the statues weigh 250 tons.

There is every evidence that some great calamity overtook the island and its inhabitants, for most of the figures are unfinished, some of them never even having been removed from the quarry. A popular theory is that Easter Island is the sole remains of a continent which was overwhelmed by the sea after a great seismic disturbance. The designs of the stonework bear out this theory, for they are strikingly like some of the ancient Peruvian ruins.

The Mana expedition, led by W. Scoresby Routledge and accompanied by geologists and other scientists from the British Museum, will make excavations in an effort to solve the mystery.

MACNAMARA'S STORY.

Mr. T. J. Macnamara, the Canadian who is Parliamentary secretary to the British Admiralty, spent his early manhood as a teacher in the board schools, and as a result he is possessed of a budget of humorous stories anent the difficulties that are met with when endeavoring to develop youthful minds.

One relates to a young and enthusiastic teacher who was trying

Dr. T. J. Macnamara.

his utmost to convey his idea of pity to his class. Said the teacher: "Now, supposing a man was working on a river, and suddenly fell into the water. His wife, hearing his screams, and knowing full well his peril, rushed immediately to the bank. Why did she rush to the bank?"

There was a dramatic pause.

Then a small voice piped out: "Please, sir—to draw his insurance money."

GOOD NIGHT'S SLEEP.

No Medicine so Beneficial to Brain and Nerves.

Lying awake nights makes it hard to keep awake and do things in day time. To take "tonics and stimulants" under such circumstances is like setting the house on fire to see if you can put it out.

The right kind of food promotes refreshing sleep at night and a wide awake individual during the day.

A lady changed from her old way of eating, to Grape-Nuts, and says: "For about three years I had been a great sufferer from indigestion. After trying several kinds of medicine, the doctor would ask me to drop off potatoes, then meat, and so on, but in a few days that craving, gnawing would start up, and I would vomit everything I ate and drank.

"When I started on Grape-Nuts, vomiting stopped, and the bloated feeling which was so distressing disappeared entirely.

"My mother was very much bothered with diarrhoea before commencing the Grape-Nuts, because her stomach was so weak she could not digest her food. Since using Grape-Nuts food she is well, and says she don't think she could do without it.

"It is a great brain restorer and nerve builder, for I can sleep as sound and undisturbed after a supper of Grape-Nuts as in the old days when I could not realize what they meant by a "bad stomach." There is no medicine so beneficial to nerves and brain as a good night's sleep, such as you can enjoy after eating Grape-Nuts." Name given by Canadian Postum Co., Windsor, Ont.

Look in pkgs. for the famous little book, "The Road to Wellville."

Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human interest.

MADE HIS OWN COFFIN.

Ernest Feldkirch, a Gottingen carpenter eighty-six years of age, has cheerfully looked death in the face for twenty-six years. His first illness, which came when he was sixty, suggested to him that, having no relatives, he should provide for his burial himself, and as soon as he recovered he set to work and made himself a coffin, which he placed conveniently beside his bed. After a number of years it began to decay, and he was obliged to make another. The second is now in the same condition as the first, and his friends are urging Feldkirch to discard it for a third. The old man, who is hale and happy as ever, declares he will make one more, and if he finds it decaying he will give the business up as a bad job.

Terrible Itching Got Little Sleep

Mr. T. Williams, Winnipeg.

Until Cuticura Remedies Cured Him

Those who have suffered long and hopelessly from torturing skin eruptions will read with interest this letter from Mr. T. Williams, 115 Pacific Ave., Winnipeg (dated Jan. 14, 1911): "The Cuticura Remedies certainly did work finely, and I am thankful that there is such a remedy, and that I tried it. About three months ago a terrible itching commenced on my body. I could not understand it. It gradually grew worse and covered a large portion of my body. There was also a slight eruption of the skin, sort of a rash. I suffered greatly with the itching and at night time I had little sleep. I tried one or two remedies which did no good, and then I tried Cuticura Soap, Ointment and Resolvent. In about ten days I was completely cured."

For more than a generation the Cuticura Remedies have afforded the speediest and most economical treatment for itching, burning, scaly and bleeding skin and scalp humors, of young and old. Sold by druggists and dealers everywhere. For a liberal sample of Cuticura Soap and Ointment, with 32-p. book on the care of the skin and treatment of its affections, send a postal to the Potter Drug & Chem. Corp., sole props., 81 Columbus Ave., Boston, U. S. A.

CAPTURED ELEPHANT.

Wild Animal Roped and Carried Off in an Automobile.

A Swiss residing at Siantar, in the Island of Sumatra, has written home an account of the capture and transportation of a young wild elephant in a motor car by a resident of the town. The elephant, which was well roped, was driven to the nearest path in the forest, and with great difficulty the motor car arrived at the spot, a kind of platform replacing the body. The elephant was induced to mount the platform and was strongly secured to it.

The trip to Siantar started, but difficulties at once arose, because the elephant, whose trunk was free, used his proboscis to examine in turn the chauffeur, the seats in front, the machinery, and finally the guiding wheel, his last manoeuvre nearly upsetting the car, which was brought to a stop, as the journey was becoming dangerous. The elephant's trunk was then strapped to his body, and the car arrived at Siantar without further incident. This is probably the first time that a wild elephant has had a ride on a motor car.

NEW GOVERNMENT BUILDING

Magnificent Structure for Exhibits at Canadian National.

The new Government building at the Canadian National Exhibition is being rushed to completion and will be ready for the year's Fair. It will cost $160,000, of which the Dominion Government pays $100,000, the Ontario Government $25,000 and the City of Toronto the balance. It will be used for Provincial, Dominion and Educational Exhibits.

UNMARRIED GIRLS IN CAGES.

Custom Followed by Some Natives of New Britain.

The Rev. George Brown, D.D., who has passed many years of his life in the South Sea Islands endeavoring to stamp out polygamy and cannibalism among the natives, says in some parts of New Britain the natives have a custom of placing young women in strict seclusion before marriage by imprisoning them in cages for several years until they reach a marriageable age. Dr. Brown, says the London Globe, describes how on one occasion he inspected a number of these human cages.

"The cage was quite clean," he said, "and contained nothing but a few short lengths of bamboo for holding water. There was only room for a girl to sit or lie down in a crouched position on the bamboo platform, and when the doors are shut it must be nearly or quite dark inside. They are never allowed to come out, except once a day to bathe in a dish or wooden bowl placed close to each cage. They are placed in the cages when quite young, and must remain there until their marriage.

JACK'S WAY.

It is a fortunate boy who has an older brother to give him the benefit of his longer experience. "Don't sleep with your mouth open in that way," said Jack to his younger brother, as the daylight began to peer into their bedchamber. "You should breathe through your nose." "Yes, but I don't know when my mouth is open. What do you do when you wake up and find your mouth open?" "What do I do?" answered Jack, derisively. "Why, I get up and shut it, of course."

Hats were first made in the year 1404.

Education under the London County Council represents a gross expenditure of six million pounds.

A GREAT WATERWAY.

$29,000,000 in Tolls Paid to the Suez Canal Last Year.

The Suez Canal took in nearly $29,000,000 in tolls in the last year. This was an increase of $843,656 over 1910. The number of vessels that passed Suez in 1911 was 4,969, representing a net tonnage of 18,324,794, an increase of 436 vessels. There were less than 1,200 tourists.

The royal yacht conveying King George and Queen Mary to their Indian Coronation went through Suez in twelve and a half hours, and came back through in twelve hours. The traffic of Suez has so grown that the tolls have been lowered by ten per cent., and still the profits grow. There will be a further ten per cent. toll reduction on January 1st, 1913.

Suez traffic suffered from the plague in Manchuria, but it gained in other directions, notably in the Japan, India, Dutch, East India, and Oceanic trade.

SUMMER SKIN TROUBLES.

Sunburn, blistering, and irritation are the commonest form of summer skin troubles, and Zam-Buk ends these very quickly. It works in two ways. As soon as applied, its antiseptic powers get to work and kill all the poison in a wound, a sting, or a sore. This generally ends the smarting and the pain. Then Zam-Buk begins the healing process, and fresh healthy tissue is built up. For sore, blistered feet, sore hands, heat rashes, baby's heat spots, sore places due to perspiration, etc., you can't equal Zam-Buk. Druggists and stores everywhere sell Zam-Buk, 50c. box. Use Zam-Buk Soap also, 25c. per tablet. All stores, or Zam-Buk Co., Toronto.

HE FOUND IT.

"Eureka!" exclaimed Mr. Green, who, with a lighted match in his hand, was down in the cellar hunting for a leak in the gas pipe.

A moment later Mrs. Green sadly remarked: "That's just our luck. Now we'll have to pay out more money to get the roof fixed."

Corns cripple the feet and make walking a torture, yet sure relief in the shape of Holloway's Corn Cure is within reach of all.

Little Elsie (after being punished)—"I think papa is dreadful. Was he the only man you could get, mamma?"

Minard's Liniment Cures Garget in Cows.

"What are you going to name the baby?" "We thought of calling her 'Scandal'!" "But why?" "We can't hush her up!"

Mothers can easily know when their children are troubled with worms, and they lose no time in applying the best of remedies—Mother Graves' Worm Exterminator.

GRANDMA KNEW.

"Grandmother, which of my parents do I resemble?"

"Both, child. You have your mother's remarkable capacity for spending money, and your father's genius for not making any."

A Medical Need Supplied.—When a medicine is found that not only acts upon the stomach, but is so composed that certain ingredients of it pass unaltered through the stomach to find action in the bowels, then there is available a purgative and a cleanser of great effectiveness. Parmelee's Vegetable Pills are of this character and are the best of all pills. During the years that they have been in use they have established themselves as no other pill has done.

The modern girl is never satisfied until she gets a hat too large for her head and shoes too small for her feet.

Minard's Liniment Cures Colds, Etc.

To spare the religious susceptibles of the Egyptian peasantry, the 3 per cent. interest paid by savings banks is described as a reward to the depositor for saving his money.

Time Has Tested It.—Dr. Thomas' Eclectric Oil has been on the market upwards of thirty years and in that time it has proved a blessing to thousands. It is in high favor throughout Canada and its excellence has carried its fame beyond the seas. It has no equal in the whole list of liniments. If it were double the price it would be a cheap liniment.

In Iceland bread is made by beating to powder dried codfish.

Minard's Liniment Cures Diphtheria.

A CURE.

"George A. Birmingham" (the pen-name of a well-known Irish clergyman) has just published another book dealing with Irish life. Some of his Irish stories are capital. For instance he tells of an Irish veterinary surgeon who sent in his bill in the following terms—"To curing your honour's mule till it died—10s."

Cider was made in England so long ago as the thirteenth century.

Five cups of this most delicious beverage for one cent

LIPTON'S TEA

GOES FARTHEST FOR THE MONEY

STOP THIS WITH COOPER'S FLY KNOCKER

It pays to keep your stock free of flies—contented cows give 1/4 more milk; horses work harder and on less feed. Costs less than 1/4 cent a head per day. Use Cooper's fly finisher and save money. Easy to use—economical—efficient—use. Quarts (Imperial) 50c; Gallons (Imperial) $1.25. Special circular free—tells what others say about Cooper's. Any dealer or

WM. COOPER & NEPHEWS - - TORONTO

EXPECTED TOO MUCH.

Customer (sarcastically)—"I've managed to cut this steak, but I'm bothered if I can chew it." Waiter—"Yes sir. We guarantee our knives, but our responsibility does not extend to our customers' teeth."

Pills for Nervous Troubles.—The stomach is the centre of the nervous system, and when the stomach suspends healthy action the result is manifest in disturbances of the nerves. If allowed to persist, nervous debility, a dangerous ailment, may ensue. The first consideration is to restore the stomach to proper action, and there is no readier remedy for this than Parmelee's Vegetable Pills. Thousands can attest the virtue of these pills in curing nervous disorders.

SHE COUNTED SHEEP.

"Well, and how did your mother sleep last night? Did she follow my advice and begin counting sheep?"

"Yes, she counted eighteen thousand."

"And then fell asleep?"

"No; then it was time to get up."

Minard's Liniment Co., Limited.

Gents,—I cured a valuable hunting dog of mange with MINARD'S LINIMENT after several veterinaries had treated him without doing him any permanent good.

LOCAL DOINGS.

Look in and not out,
Look forward and not backward,
Look in and not out.
And lend a hand to boost your town.
If you do not like it get out.

Mr. Jos. Davis lost his driver last week.

Mrs. Frank Wright is very ill at her home.

A number from here autoed to the Bend on Sunday.

Councillor Rivers is again confined to his home through illness.

Making excuses takes time that is better spent in "making good."

There is hope for the young graduate who realizes how little he knows.

Seaforth and Blyth are the objective points for the Orangemen on the 12th.

Messrs Wm. Amy and Thos. Keys each sold horses by Voltaire last week at $300.00 each.

It is usually the man who doesn't have to try who tries the hardest to make a fool of himself.

In Miss Howard's school report published last week the name of Dorothy Balkwill was omitted. She passed with 77 per cent.

Mr. Fred Wells is suffering from a sore foot the result of a strain when the horses he was driving became frightened of an auto.

After bowling on other greens it is the general opinion of the Exeter bowlers that they have the best green in Western Ontario.

Again does our sympathy go out to the thousands of school teachers who for two months must join the ranks of the unemployed.

When your business rival says mean things about you, it is a compliment—you are doing better than he is. If you were not he would not abuse you.

A horse belonging to Mr. Gilbert Dow took fright at the band music on Saturday night, and turning suddenly round the harness and shafts of the buggy were considerably damaged.

The nominations for the Provincial elections in Saskatchewan took place on Thursday last. Among those nominated, we notice the name of Mr. S. J. Latta nominee of the Liberal party in that province, for Last Mountain.

There is an understanding among the merchants of town that the closing hour except on Wednesday and Saturday, is 6.30 p.m. This was one of the best moves of the kind ever made in Exeter. It has been suggested to us however that all the merchants are not living up to the mark. This shouldn't be.

Mr. Chas. Birney last week favored us with two nice ripe tomatoes grown in his own garden. Mr. Birney has one of the best gardens in town and he invariable leads in the production of early tomatoes, he having had tomatoes over ten days ago.

It is learned at military headquarters that several officers had been called upon to resign their commissions for violations of the orders respecting the use of liquor in their mess. One officer, who became intoxicated at camp, was summarily sent home and requested to retire.

Yes, it has been hot. And those who make it a point of noticing and recording the heat say that from the 3rd to the 9th were the hottest days recorded in Ontario in 100 years. It may be so, and they ought to know, but we don't believe it was as hot as those four or five days last year.

Our Ontario Legislature has amended the law regarding moving picture shows, and now no children under fifteen years are allowed to attend them unless acccompanied by an adult. The penalty for infractions of this clause is not less than $50 nor more than $200.00 with $25.00 for each day the offence is repeated.

The James Street pulpit was occupied by the new pastor for the first time on Sunday. Rev. McAllister preached interesting and instructive sermons to congregations that were large considering the heat. Mr. and Mrs. McAllister arrived Thursday evening and are now comfortably settled in the parsonage.

There is no plant known to man that gives such a quantity of food to the acre as the banana. It yields 14 times more by weight than the popato and 133 times more than wheat. Another peculiar feature about the banana is that no insect will attack it, and another is that it is absolutely immune to the diseases that fruits are subject to.

The current issue of the Ontario Gazette contains an act passed three years ago, under which the supreme court of adjudicature becomes the supreme court of Ontario. The present court of appeal of five judges, the divisional court for hearing appeals, and the four divisions of the high courts, all disappear. The new court will be composed of two divisions, appellate and high court.

Notwithstanding the extreme wet weather in the spring, followed by the very warm and dry weather, there are reports of some very tall hay and grain in this vicinity. We were shown a stalk of wheat last week grown on the farm of Mr. G. Penhale, Stephen, that measured 5 feet, 11 inches, and a stalk of hay grown by Mr. Samuel Sandere, Huron Street that measured 4 feet, 10 inches.

The Shedden correspondent of The Advertiser says of an Exeter boy,—"Prior to his departure for his home in Exeter A. G. Heywood, who has been junior pastor in the Methodist church here, was the guest of the Young Men's Bible Class at the home of Mr. J. H. Bainard During the evening Mr. Heywood was presented with a handsome volume of Roderick McKay and and address, expressing general regret at his departure was read by Leonard Moore.

The continued fine weather has spurred on the farmers to harvest their hay crop and they have been in the fields early and late. According to reports the hay is a splendid crop. The wet spell early in the spring kept it growing, until later than usual, and with the warm, dry weather of the past couple of weeks it has matured under the most favorable conditions. Considerable hay was cut last week, and most of the farmers are now busy storing it.

Loney Heywood is home for the holidays.

Miss Carrie Knight is visiting in Ilderton.

Miss Margaret Handford is holidaying here.

Mr. and Mrs. A. E. Andrew spent last week in Michigan.

Harry Carling of Brantford is holidaying at home.

Mrs. W. G. Bissett left Saturday on a trip to Western Canada.

Mrs. E. A. Follick attended the funeral of an aunt in Toronto last week.

Mr. Snelgrove of St. Thomas visited at the home of Mrs. Thos. Gregory over Sunday.

Russell May has commenced his probation as junior pastor of the Bervie Methodist church.

Mrs. John W. Taylor was in Shakespeare during the week owing to her daughter's illness.

Miss Stella Gregory and Mrs. W. O. Miller left Tuesday morning to spend several weeks in Brampton and Toronto.

Miss Steinacker of London is visiting relatives in and around Exeter, the guest of Mrs. Daniel Schroeder, Stephen.

Mrs. Percy Humble of Port Huron, Mich., visited over Sunday with her sister, Mrs. Lizzie Finkbeiner, who is in a very low state of health.

Dr. Luther T. Gill and family motored over from Toledo, Ohio, last week and are visiting Mrs. Gill's mother, Mrs. Thos. Gregory, for a few days.

Mr. S. J. Hicks engineer, C.P.R., and friend, Wm. Maddock, fireman C.P.R., of Toronto are visiting witht he former's grandmother, Mrs. John Sanders, Stephen.

Mrs. S. B. Clement, who has been visiting her parents, Mr. and Mrs. James Dennis and other friends in town for several weeks, returned to her home in Vancouver, B. C., on Thursday last.

Mr. and Mrs. Hoffman, who have been visiting with their uncle and Aunt Mr. and Mrs. Frank Triebner, Stephen, returned to their home in Toledo, Ohio, accompanied by Miss Julia Triebner, who will spend a month in that city.

Mr. Russell of Hamilton is visiting relatives in town.

Mr. Fred Mallett visited at Grand Bend, on Sunday.

Miss Sarah Sweet is visiting in London for a few weeks.

Miss Lidy Handford is home from Toronto for the holidays.

Clifford H. McAvoy of Toronto is holidaying at his home here.

Mrs. Murphy of Clinton is visiting with her son, Mr. Richard Murphy.

Mrs. Wes. Balfour of Mitchell is visiting at Mr. Thos. Kernick's.

Miss Martha Carling returned to New York Hospital to resume her duties.

Misses Ethel Sweet and Merril Gould milliners, are home for the holidays.

Mr. and Mrs. Adolphus Evans of London visited relatives here Sunday.

Mrs. G. Anderson and her mother have returned from a visit in Fingal.

Mrs. Linder of Toledo is in Exeter north owing to the illness of her grand mother, Mrs. Herbert.

Harry Bawden of Ridgetown is visiting his grandparents, Mr. and Mrs. Jos. Bawden.

Miss Eva Carling of St. Luke's Hospital, New York, is holidaying at her home here.

Mr. J. A. Sanders of Woodstock is visiting his parents for a few days prior to leaving for the west.

Mrs. (Dr.) Ramsay and child of Hamilton are visiting at the home of Mr. Simon Campbell.

Mr. and Mrs. James Wanless and daughters of Duluth, Minn., are visiting at Mr. L. Hardy's.

Dr. and Mrs. McGillicuddy and Mr. and Mrs. W. J. Heaman visited the doctor's old home near Watford Sunday.

Mr. and Mrs. Percy Verity, Mr. and Mrs. Geo. Southcott and Mr. Fred Southcott and bride spent Monday evening at Mr. T. H. Carling's.

Mr. and Mrs. Richardson, who have been visiting the latter's parents, Mr. and Mrs. S. Smith, London Road, South returned to their home in Toronto Friday.

Mr. H. E. Keddy of Melfort, Sask., is visiting his parents in Usborne.

Mr. John Preszcator lost a horse in the electrical storm on Wednesday of last week.

The Government Judge is in this section this week judging the fall wheat in the Exeter Agricultural Society's Fall wheat competition.

There is some difference of opinion as to which of the Exeter contestants is going to win that Free Press automobile in the book lore contest.

The work of Miss Vosper, the Entrance class teacher, once more shows great success, the result of the examination showing that 16 out of 17 passed.

Great damage and loss of life has taken place in Denver, Colo., from a cloudburst, and Exeter relatives are anxiously awaiting word as to whether former Exeter people were in the danger zone.

The Public School Board held its regular meeting for July on Monday evening last. Beyond fixing the assessment for school purposes for the current year at $2900, no business was done. Mr. I. Armstrong was the only absentee.

Rev. D. W. Collins and Messrs. J. A. Stewart, L. H. Dickson, C. H. Sanders Jos. Davis, W. B. Weidenhammer, W. H. Levett, W. W. Taman and H. Spackman left Tuesday morning in the autos of J. A. Stewart and C. B. Snell for Toronto to attend Masonic Grand Lodge. On the way they will play a few games of bowls in Mitchell, Waterloo, Toronto and St. Marys. A rink, consisting of W. May, Jas. Grieve, Jas. Taylor and W. J. Heaman accompanied them to Mitchell, where they played two games losing in the morning and winning in the afternoon. Rev. Collins' rink lost 28 to 10; and W. W. Taman's rink lost 24 to 12.

GOOD RECORDS.—In the recent examinations of the Chatham Business College two Exeter young men made remarkably clever records for themselves and are to be congratulated on their success. Mr. Thos. Sanders won the general proficiency medal This was a particularly good record as he was only in the department six months. Doubtless Mr. Sanders would have won first honors had he not been compelled to compete in the class with a Mr. Hodgson, who is a teacher of several years experience, and also a teacher in the Chatham Business College. The medal for the best set of books was awarded Mr. Victor J. Sweet, who was placed some months ago with the Ford Motor Co. of Walkerville. Mr. McGregor, the manager of the Ford Company, called at the college and after seeing the excellent manner in which Mr. Sweet had kept his books decided to engage him.

Prior to leaving for Crystal City the baseball boys presented Melville Hoskins with a handsome stickpin.

Dr. W. J. Browning of Caledonia, Minn., and Dr. D. A. Bowerman of Menomonie, Wis., are expected by auto this week.

Mrs. (Rev.) Wesley J. Down and son, Theodore Redvers of Napanee are visiting the former's mother and sister, Mrs. Tom and Mrs. W. D. Yeo.

Dr. E. J. Bacnett, who has been practising medicine at Change Islands, Newfoundland, for four years, is shaking hands with old friends in town. The doctor will go to England this fall to take some special courses in medicine.

THE EXETER COUNCIL

Council met in the Town Hall Friday July 12, for receiving of tenders for the excavating of sewer. Absent W. Rivers owing to illness. Minutes of the last meeting were read and approved.

Tenders received for excavation of the sewer from the north side of Wellington Street to the post office,—John Bell, $1697; Wm. Gillespie $1475. The same were laid over for further consideration

A Deavitt presented a petition signed by fifteen of the residents asking to have Marlboro Street opened up from Victoria north to Wellington. Levett—Ford—That the council meet as a body and look over the ground before taking any action.—Carried.

Owing to the New Medical Health Act there had to be a change made in the formation of the local Board of Health Formerly the Board consisted of the head of the municipality, the medical officer of Health, three ratepayers and the secretary. The new Board of Health will consist of the head of the municipality, the Medical Officer of Health, and one ratepayer; and a secretary of the board. Unless otherwise provided by the council the clerk shall be the secretary.—Levett—Scott— That the old Board of Health be dispensed with and that a new Board of Health be appointed as per New Public Health Act of 1912.—Carried.

Scott—Ford—That Dr. Quackenbush be Medical Officer of Health as per New Health Act of 1912, at a salary of $25 per annum.—Carried.

Levett—Ford—That Mr. H. E. Huston be appointed a member of the Board of Health and by-laws be drawn up confirming appointments.—Carried.

Levett—adjournment.

T. B. Carling, Clerk.

THE TWELFTH AT SEAFORTH

The largest crowd that ever attended a celebration of any kind in Seaforth gathered there on the 12th for the Orange celebration. Twenty-seven lodges were present, representing South, East and West Huron, and North and South Perth. At one o'clock a procession was formed and headed by the citizen's band and automobiles with speakers and officers proceeded to Victoria Park, where speeches were delivered by W. M. Fitzgerald, R. W. G. S., Wm Lee, M. W. G. S., Rev. Canon Walsh, R. W. D. G., and the local clergymen, followed by a short programme of games and sports.

West Huron Entrance Results

There were 320 candidates at the centres in this inspectorate and 205 of these were successful. Many who failed did not obtain 40 per cent. in Arithmetic or in Geography. Few were below the 60 per cent. required on the total. In accordance with the policy of the Education Department the H. S. Entrance standard is being gradually raised. The well prepared pupils made a good mark in every subject, while the weak candidates could not reach the 60 per cent. total. The standing required to pass is 40 per cent. on each subject and a total of 390 marks, and for honors 487 marks.

A card giving the marks in each subject will be sent to every unsuccessful candidate. The certificates of the successful candidates will be sent to the teacher or to the secretary of the School Board.

The following candidates were passed by the Entrance Board and approved by the Minister. The highest marks obtained in each subject are as follows,—

Total—Louis Mackay, 11 years, 540

Composition—Graham Ross 98

Reading—Elsie Dunnadge, Liella Finlayson, Frank McLennon, Bain Stewart, Mina Ehlers, 45.

Letter From The West

My Dear Creech.—

At last we have arrived in this wonderful city of Saskatoon, of which we have all heard so much during the past few years. Thinking some of our friends in Exeter would be interested in a line or two from us I am taking afew minutes to write you. Our party of twelve was fortunate when leaving Toronto to secure berths on the same car, so that we had a most enjoyable trip through to Winnipeg, seeing on the way that vast stretch of rocky, wooded lake-dotted territory of northern Ontario which gradually changes to the level prairie land as we got into Manitoba the first of the prairie provinces. Arriving in Winnipeg about 3 P.M. on Thursday we first secured our berths for Saskatoon, and most of us spent the rest of the day seeing the sights of this big growing city, called the Gate-way City of the West. Our train left Winnipeg at 10.40 Thursday night, and by Friday morning we were well into the great stretches of wheat lands extending on both sides of the line as far as the eye could see. Beautiful fields of dark green wheat waves in the wind nearly a foot high, while the darker greens at long intervals interspersed showed where the Western farmers counted on the millions of bushels of oats to be harvested in the fall. Truly, to those of us accustomed to our small fields of fenced-in crop, it was a most magnificent sight these great extending grain fields, for hundreds of miles, seeing which the eye grows tired. The grain seemed to become much better and farther advanced as we got farther west.

We were all very glad when about five in the afternoon our train steamed into the C. P. R. station at Saskatoon. In the midst of an immense crowd gathered on the station platform, which, by the way extends in length for two city blocks, we found Mr. Sam Rowe waiting to meet his family, and there too Mr. J. H. Holmes with his big touring automobile, in which Mrs. Pedler and I were soon conveyed to his home on the west side, while the others of our party went with Mr. Rowe over to Nutana, on the east side of the city. As we are all pretty tired after our long journey, we were glad to have a good night's rest, before attempting to see very much of this fast growing city. But we did take a fifteen mile auto spin through some of the streets and avenues on Friday evening after dinner.

To say we are astonished at what we have seen here in this new western city of Saskatoon is to put it very mildly. Of course we did expect to see a pretty good sized place. But this town is certainly a hummer. There are several very fine business streets, and miles and miles of built up residential avenues, while in every direction can be seen new buildings in course of erection. In fact I am told that already for this season alone building permits have been issued for considerably over five million dollars. Saskatoon's population is now over twenty thousand, and the people here seem to think they are going to have a big city in a very few years. The city is reported to have more automobiles in proportion to the population than any other place in America. It is said there are about 700 here, and, to see the crowded streets one would certainly believe it.

When we have seen more of the city, we may drop you a few lines. Mrs. Pedler and I, with Mr. and Mrs. Kestle purpose going on from here to the Coast, going around by Edmonton and Calgary, and we are anticipating a very enjoyable trip through the Rocky Mountains.

Mr. Holmes asks me to remember him to you and Mr. Sanders, and says it is a wonder you both have not had the western fever long ago.

With very kind regards, I remain,

Yours sincerely, John Pedler.

BIRTHS

Westcott—In Usborne, on July 8th, to Mr. and Mrs. Geo. Westcott, a daughter.

Thacker—In Woodham, July 8, to Mr. and Mrs. John Thacker, a daughter.

Pepper—In Tuckersmith, July 7th, to Mr. and Mrs. Albert Pepper, a daughter.

Wallace—In Tuckersmith, July 9, to Mr. and Mrs. Wm. Wallace, a daughter

MARRIAGES

Price—Dempsey—On Monday July 8th, by the Rev. George Mitchell, Alma Maria, daughter of Andrew Dempsey, formerly of Exeter to the Rev. Percy G. Price, B. A.

DOMINION IS BUILDING UP

Six Months' Record in Twenty-Seven Cities—Gain of Twenty-Eight Per Cent.

A despatch from Toronto says: According to reports from official sources compiled by The Contract Record the building operations in twenty-seven Canadian cities for the first half of 1912 aggregated $69,583,674, twenty-eight per cent. more than for the same period in 1911. As illustrating the steady growth of the country the journal points to the fact that the buildings erected in 1911 exceeded in value those of 1910 by 20 per cent. The buildings for the month of June alone represented an expenditure of $17,645,709, as compared with $12,346,908 in June, 1911.

Toronto is in the lead with a six-months' record of $13,195,271. Winnipeg's figures are $11,205,600. Vancouver, with an expenditure of $8,132,720, is $65,000 ahead of Montreal, and Edmonton is not far behind with $7,725,622. Edmonton's expenditure shows the remarkable gain of 376 per cent. Stratford showed a gain of 278 per cent., Brantford 133, Fort William 132, Port Arthur 124, Nelson 118.

The building returns for six months of 1912 and the same period of 1911 are as follows:—

	1912	1911
Toronto	$13,195,271	$11,938,963
Winnipeg	11,205,600	9,058,150
Vancouver	8,132,720	9,191,524
Montreal	8,065,993	7,306,136
Edmonton	7,725,622	1,620,431
Saskatoon	4,685,634	2,574,441
Hamilton	3,145,600	2,246,780
Regina	2,549,770	2,936,930
Ottawa	2,120,000	1,397,370
Port William	1,745,425	799,075
Maisonneuve	817,428	748,900
New Westminster	785,578	613,580
Lethbridge	719,343	528,950
Port Arthur	700,994	312,985

MAKING SAFE INVESTMENTS

THE EFFECT OF LONDON INVESTORS ON THE CANADIAN MARKET.

The Present Dullness in London Has Made Quite a Noticeable Change in the Price of Several Canadian Municipal Debentures—What London Took From Us Last Year.

The articles contributed by "Investor" are for the sole purpose of guiding prospective investors, and, if possible, of saving them from losing money through placing it in "wild-cat" enterprises. The impartial and reliable character of the information may be relied upon. The writer of these articles and the publisher of this paper have no interests to serve in connection with this matter other than those of the reader.

(By "Investor.")

"What difference does it make whether London investors are buying our securities or not?" a man asked one day. "The bond houses in Toronto and Montreal alone appear to buy by far the greater part of Canadian bond offerings. This talk of London market affecting prices appears to me to be all humbug."

Of course, this man didn't know anything about the matter. He was quite correct (at least he would have been quite correct) had he said that "Canadian" houses absorbed a large part of the bonds offered here, and left out the rest. He forgot (or never knew) that during 1911 alone our railroads—steam and electric—sold no less than $85,000,000 of bonds and debentures in England without the intervention of Canadian houses.

This one item, then, is a very good and sufficient reason for watching carefully the tendency of prices in London as a barometer of our own. Last year England bought no less than $208,000,000 of our securities, the greater part of which were bonds.

Unfortunately, last year, Canadians didn't take sufficient care in preparing offerings, and as a result some of them disappointed their purchasers. This had the further unfortunate result of making the public cautious until now there is little chance of any Canadian securities being successfully issued in London that have not the backing of some internationally well known Canadian bond house.

Land, and particularly timber companies, have gone a long way to help discredit Canadian securities in London. Perhaps it would be more accurate to say that the British investor has become very skeptical with regard to the extravagant promises of a number of these. More than a few of last year's issues were taken to London, which were in no position to be offered as investments. As a result the underwriters were loaded up with a lot of stuff that they are still vainly trying to unload on the public.

This has, of course, affected the market for high grade Canadian bonds, so that we find very excellent municipal issues falling flat on the market. The effect of this has been marked. A year ago Brandon debentures could be readily sold on a 4 1-2 per cent. basis. Now these may be bought at 4 3-4 or even 4 7-8 per cent. This is just a sample of the effect of the dullness in London on our market here.
