FIELD MARSHAL WAS WASHED OVERBOARD

Sir Henry Hughes Wilson Has Narrow Escape From Drowning.

COWES, Isle of Wight, Aug. 3.—Field Marshall Sir Henry Hughes Wilson, chief of the British Imperial general staff, had a narrow escape from drowning today while following the races for small craft in the Cowes regatta. The field marshal was in a little yawl, and a heavy sea washed him overboard. Two yachts competing in the race, sailed by Sir Arthur S. Cope and Col. Hobart, went to the rescue of the field marshal, who had managed to keep afloat. When they had rescued him and placed him in a dinghy, which had put off from his yawl, Sir Arthur and Col. Hobart resumed the race, in which their boats finished respectively second and third.

PAINFUL DIARRHOEA

CRAMPS IN STOMACH

Mr. Fred Funston, Craik, Sask., writes: "A year ago last harvest I was taken with a sudden attack of diarrhoea which completely laid me out, and in a few hours I had to quit work. The cramps in my stomach were dreadful, the beads of perspiration would stand out on my face at times, I was in such great distress. At last I got a chance to send to town for a couple of bottles of Dr. Fowler's Extract of Wild Strawberry. I used it according to the way I felt and soon obtained a great change for the better, for which I was very thankful. I don't know what the cause of my sickness was except the extremely hot weather and the active work of stooking the wheat.

"Several of my neighbors were taken the same as myself and had the doctor attend them, but they didn't get any great relief until I advised them to use 'Dr. Fowler's,' when they soon experienced a great change."

Dr. Fowler's Extract of Wild Strawberry has been on the market for the past 76 years and many cheap imitations are being offered to the public.

Be sure and get the genuine, put up only by The T. Milburn Company, Limited, Toronto, Ont. Price, 50c a bottle.

MOVE TO CUT FREIGHT RATES

Railway Commissioners To Take Action Shortly, Carvell Declares.

MONTREAL, Aug. 3.—That the board of railway commissioners of Canada will in the near future take steps to reduce the freight rates on Canadian railways was the announcement contained in a letter received by the local board of trade today from Hon. F. B. Carvell, the chief commissioner. The Montreal Board of Trade recently addressed a resolution to the railway commission, asking railway freight rates commensurate with the twelve per cent cut in wages now in effect.

FOREST FIRE LOSS MAY TOTAL $3,000,000

More Than One Hundred Are Homeless in New Brunswick.

ST. JOHN, N. B., Aug. 3.—Over 100 people have lost their homes and general property damage estimated at $3,000,000 has been caused by a series of big fires in various parts of New Brunswick during the past week.

TO PLAN RECEPTION FOR PRIME MINISTER

HALIFAX, N. S., Aug. 3.—Plans for a civic reception to Hon. A. Meighen, premier of Canada, when he arrives in Halifax on Friday or Saturday next on the Carmania, will be discussed by the city council at a special meeting tomorrow. Following a gathering of Liberal-Conservatives here tonight it was intimated that the premier will receive an invitation to make a tour of Nova Scotia in the near future.

TAKING RISK TO STOP MAD SHIP PROGRAM

Britain Willing To Have Smaller Fleet To Help Disarmament Move.

CHURCHILL IS DOUBTFUL

Fears Trouble If England Becomes Third Naval Power.

LONDON, Aug. 3.—The House of Commons today voted in favor of the Government's program to build four warships to take the place of obsolete vessels.

LONDON, Aug. 3.—Discussing the naval estimates in the House of Commons today, Lieutenant-Colonel L. C. S. Amery, parliamentary secretary for the admiralty announced that the four replacement ships the Government proposed to build would be battle cruisers of the Hood type, armed with 16-inch guns and designed to obviate the need of larger dockyards than at present exist. He declined to say how many guns they would carry on the ground that it was not customary to give such information in advance. Contending that there was no element of challenge or provocation in the policy of replacing obsolete ships he declared it was only a policy circumscribed within the narrowest limits and postponed to the very latest date consistent with the empire's safety.

Facing the Risk.

Alluding to the building program of the United States and Japan, Colonel Amery argued that the admiralty by proposing the completion of only these four ships by 1926, was laying itself open to the charge of accepting the risk that the British navy would temporarily be inferior in strength to the navies of other nations, but the Government was facing this risk in order to avoid any step tending to invite fresh competition on the eve of the conference for disarmament.

The object of the disarmament conference, he said, was to endeavor to secure by agreement no further expansion of the navies of the three greatest naval powers, but as it was quite unlikely that the other powers participating in the conference would offer to scrap the ships already built or under construction, it was obvious that the building of these four ships, or even twice their number, could not in any way affect the problem before the conference.

A Warm Discussion.

The secretary's statement was followed by an animated discussion involving many occurrences to the relative positions of Great Britain, the United States and Japan, and revealing the intense interest taken in the proposed Washington conference.

Winston Spencer Churchill, secretary of state for the colonies, replying in the debate for the Government, made reference to the big building program in both the United States and Japan. He contended that there could be no conceivable cause for a quarrel with either of those countries. Still, the fact remained that if Britain delayed another year the construction of necessary vital units she would have to face a position of definite and perhaps final naval inferiority; she would sink to third naval power, and, having sunk there, might never be able to recover.

SENDING FOOD BY AEROPLANE.

MADRID, Aug. 3.—Advices from Melilla, where Spanish troops have been fighting against Moroccan tribesmen, today asserted that the military situation there was unchanged. Food supplies and ammunition were still being transported by aeroplanes to isolated troops, the dispatch said.

Hot Summer Sun Trying On the Complexion

How to Protect Your Skin and Bring Roses to Your Cheeks.

A Free Oatmeal Prescription Does Its Work Overnight—You Can Prepare It At Home.

New York—Exposure to sun, dust and wind has a very bad effect upon the skin and complexion. There is a way to overcome this. "It is my own discovery and takes just one night to get such marvelous results," says Mae Edna Wilder when her friends ask her about her wonderful complexion and the improved appearance of her hands and arms. "You can do the same thing if you follow my advice," she says. "I feel it my duty to tell every girl and woman what this wonderful prescription did for me. Just think of it. All this change in a single night. I never tire of telling others just what brought about such remarkable results. Here is the identical formula that removed every defect from my face, neck, hands and arms. Until you try it you form no idea of the marvelous change it will make in just one application. The prescription, which you can prepare at your own home, is as follows:

"Go to any grocery store and get ten cents' worth of ordinary oatmeal, and from any department or drug store a bottle of Derwillo. Prepare the oatmeal as directed in every package of Derwillo. Before applying Derwillo cleanse the skin thoroughly with a good cleansing cream. (Liska cold cream I have found to be the best). The first application will astonish you. It makes the skin appear transparent, smooth and velvety. I especially recommend this method for dark, sallow skin, shiny nose, freckles, tan, sun spots, coarse pores, rough skin, ruddiness, wrinkles, and, in fact, every blemish the face, hands and arms are heir to. If your neck or chest is discolored from exposure, apply this combination there and the objectionable defect will disappear as if my magic. It is absolutely harmless and will not produce or stimulate a growth of hair. Since short sleeves are in vogue it is necessary to have beautiful hands and arms and no matter how rough and ungainly the hands and arms or what abuses they have had through hard work and exposure to sun and wind, this combination will work a wonderful transformation. Thousands who are using it report the same results I have had."

Miss O. C. says: "My complexion was poor and my skin rough. My neck, chest, hands and arms were dark from exposure. The very first application of this wonderful Derwillo-oatmeal combination convinced me that my poor complexion and skin blemishes would soon be a thing of the past. In a few weeks all these unsightly defects had entirely disappeared, and I shall always use it to keep my complexion at its best all the time. I have recommended it to my girl friends, and they are just as enthusiastic over it as I am. We all use it before going to the theatre, dances or parties and it's wonderful what a difference it makes in our appearance."

Mrs. G. V. writes: "Oatmeal and Derwillo have worked miracles with my complexion. I had many despised wrinkles and a sallow, rough skin. My hands and arms were covered with freckles. After eight weeks' use of Mae Edna Wilder's wonderful complexion prescription these objectionable defects have entirely vanished. I look ten years younger, and advise every girl and woman to try it and feel confident after one or two applications they will use it continually and be just as favorably impressed with it as I am. I recommend it to all of my friends."

NOTE—To get the best effect be sure to follow the complete directions contained in every package of Derwillo, and it is so simple that anyone can use it, and so inexpensive that any girl or woman can afford it. Department stores and druggists guarantee that there will be a noticeable improvement after the first application or they will refund the money. It is sold in this city at all toilet counters under a money refund guarantee, including the Standard Drug Stores, Strong's Drug Store, and Taylor Drug Store, who will be glad to fill orders by mail.

THE FIGHT FOR THE SMYRNA RUG

—Kladderadatsch, Berlin.

President's Special Made 101 Miles in 93 Minutes

Record Run Between St. Thomas and Welland With Engineer Fulton At the Throttle—Problems of Railroaders Discussed by Officials.

ST. THOMAS, Aug. 3.—Delegates by the score are still reaching the city, and all are either participating in the deliberations of the sessions of the B. of L. F. and E. or enjoying the hospitality provided by the sister associations.

Maine, Michigan and North Carolina reached headquarters today with many Eastern States representatives on the inward journey. Nearly 1,000 of the visitors were taken around to the beauty spots of the city today in seven dozen autos under the direction of Dr. F. E. Bennett, and they enjoyed the excursion immensely.

The ladies' auxiliary held in Charity Helpmate lodgeroom was addressed by Mrs. Shoenail, Huntingdon, Ind., grand president, and Mrs. Maud Moore, Stratford, past grand president.

Much Appreciated.

The M. C. R. officials did a much appreciated honor to W. S. Carter, grand president of the Brotherhood of L. F. and E., when leaving for New York. The fastest locomotive in the service of the company was attached to his train, and a record was made of the run between St. Thomas and Welland. The distance is 101 miles, and it was done in 93 minutes. The engineer was George Fulton, and the fireman, H. Gosnell.

At the session this forenoon A. D. Laughlin, Saginaw, Mich., general chairman of the association of chairmen of the B. of L. F. and E., spoke on the wage situation, and advised the brotherhood to vote for teh non-acceptance of the wage reduction.

To accept the proposed schedule at a time when the influence and strength of the brotherhood was never so potent would show a weakness from which the members might never recover. It would mean the disorganization of labor so far as the brotherhood was concerned.

Pinafore Park Crowded.

The entertaining features of today's convention were provided by the sister associations, the B. of L. E., the O. R. C., and B. of R. T., and the events on the program were kept moving from early in the afternoon until midnight. There was music in abundance, a baseball match in comic costume, candidates put through the degrees in a newly-organized railway lodge, and the fun was fast and furious before Old Sol was draped in his pajamas. A dance at the pavilion, in which hundreds of visitors enjoyed themselves finished the day's doings. The park held a crowd reaching into many thousands of home folk and guests from all corners of Canada and the United States.

At the opening of the exercises in the park W. B. Prenter, grand secretary and reasurer of the B. of L. E., and vice-president and cashier of the Co-operative Bank of the B. of L. E., Cleveland, O., the first of its kind instituted in America, told the railwaymen, in an interesting address, of the benefit which the institution brought to its patrons and the wonderful advance that it had made in financial circles since its incorporation nine months ago. Then it had on deposit $650,000, and today the sum had reached $9,572,000, representing a growth of about one million dollars a month.

A Big Undertaking.

The movement for the creation of such a financial establishment was, said Mr. Prenter, the greatest ever undertaken in behalf of labor. A few years ago an advisory board was formed to investigate such a financial proposition, and the report favored the formation of a bank under the tutelage of the Brotherhood of Locomotive Engineers. The business transacted and the patronage which followed from the railwaymen and others akin to the brotherhood far exceeded the expectations of its promoters. The need of labor men having a banking system of their own and freeing themselves, declared the speaker, from capitalistic influence on Wall Street, appealed to the men behind the proposition, and the bank became a possibility.

The B. of L. E. Bank means, said its cashier, so much to the labor man and farmer.

Where It Goes.

Over 50 per cent of the money placed in banks by farmers, said Mr. Prenter, and 20 per cent of that put in by the workingmen goes to Wall Street. by means of which Wall Street controls the credit of the country. Only 14 per cent could be borrowed by the farmers.

The brotherhood bank was organized to be controlled by the depositors, and they control its credit. It brings the farmer and laborman closer together. Being a national bank it is handicapped in as much that in cannot establish branches. But banking laws, if the brotherhood can do it, will be amended and in time branches may be stablished in Canada.

The chief object of the institution, intimated its vice-president, was the rendering of a service to the railwaymen, the labormen and others, and on account of its success reactionary bankers are following in the wake of the policy and aims of the brotherhood institution.

A Happy Feature.

A happy feature in the open air proceedings was the presentation of a life membership badge to Hugh Riley, a M. C. R. veteran engineer, who had passed his 84th milestone and had been over 40 years a member of the Brotherhood of Locomotive Engineers.

And in behalf the several divisions in the city Chairman John Jago gave Mr. Prenter a gold-mounted walking cane, and hoped for the recipient a long and prosperous period to carry it.

MIDNIGHT BLAZE IN BORDER BLOCK

Many Occupants of Third Floor Rooms Fled To Street.

[Special to The Advertiser.]

WINDSOR, Aug. 3.—Fire which started in the Medbury Block, Ouellette avenue and Sandwich street, shortly before midnight tonight sent half a score of persons, who occupied rooms on the third floor scurrying into the street in their night clothes as dense smoke filled the building. The most serious damage was done to Fleury's Photograph Studio and one or two law offices located on the second floor. The total damage is estimated at between $5,000 and $8,000. The origin of the fire is as yet undetermined.

FAKE CHECK ARTIST COMMITS SUICIDE

Police Were Hot On Trail of Youth From Pickerel.

SAULT STE. MARIE, Ont., Aug. 3.—W. G. Wells, aged 25, supposed to hail from Pickerel, Ont., shot himself when he suspected the police were after him for passing a worthless check. He engaged a taxi to drive him to a spot outside the town, where he got out and told the chauffeur to return for him later. The chauffeur returned in half an hour and found him dead with a bullet hole in his head. Wells arrived here Monday night and registered at the Windsor Hotel.

GETTING $3,000,000 FROM AUTO OWNERS

TORONTO, Aug. 2.—The Ontario Government has awarded a contract for the manufacture of 166,000 sets of motor car markers for 1922 to the MacDonald Manufacturing Company, Toronto, at a rate of 14 cents per set. The markers will have black figures, five inches high, on a white background. This year's revenue from automobile licenses is about $3,000,000.

FISHERMAN WAS DROWNED.

NORTH BAY, Aug. 3.—The body of R. A. Kahnero, furrier, of this town, was found floating in Lake Nipissing yesterday. He was seen fishing on Monday, and his boat is believed to have capsized. He was 55 years of age and married.

CLEAN GETAWAY WAS MADE BY PRISONER

Pat Kielty Regarded As a Trusty, Fools His Guard.

TORONTO, Aug. 3.—Pat Kielty, alias Pat Conner, escaped from his guard at noon while on the way to serve a thirty-day term at the jail farm. He has not since been apprehended.

The sheriff's officer was in charge of five men on the way up. He had them all safely on the Metropolitan car at North Toronto and was waiting for the car to pull out when Pat was allowed to go to the front of the car for some tobacco someone was offering him. The prisoner then made one dash for liberty, and mixing with the crowd, soon disappeared.

With four other men on his hands, the officer could not give chase, and he dared not fire because of the crowd, It was explained, too, at the jail today, that Pat had never shown any inclination to escape in the twenty-two times he has been a visitor there. He was considered a "trusty."

The escaped prisoner has served in Kingston in addition to the terms up Yonge street, and is well known to the police. He went overseas during the war and belonged to a kiltie regiment. Jail officials say he chose his assumed name because of that association.

Inspector Guthrie said this afternoon that no report of the case had been received, and he knew nothing about it. Inquiry made at the jail farm brought the information from the deputy superintendent that a report had been sent on to the city police.

If you want a good attendance at your meeting let Advertiser readers know when it is going to be. The rate is 2 cents per word or 15 cents per line.

DIED VERY SUDDENLY.

HAMILTON, Aug. 3.—Edward Duffield, aged 57, of the John McPherson Shoe Company, dropped dead in his office this afternoon. Some time ago he had a very serious illness, but appeared to be in his usual health.

Needed At Dances And the Sea Shore

(Aids to Beauty.)

Here is a home treatment for removing hairs that is quick, painless and inexpensive: With some powdered delatone and water make enough paste to thickly cover the objectionable hairs, apply and after 2 or 3 minutes rub off, wash the skin and it will be left soft, clear and hairless. This treatment will not mar the skin, but to avoid disappointment, be careful to get real delatone. Mix fresh as wanted.

GREENFIELD TO TAKE BROWNLEE INTO CABINET

Calgary Solicitor Will Likely Become Attorney-General of Alberta.

EDMONTON, Aug. 3.—Well-grounded reports that H. Greenfield, premier-designate, has completed the selection of his cabinet were current today. Excepting for the treasury portfolio, it is understood that all the new ministers have been decided upon, and will be made known at the beginning of next week. It is likely that a meeting of U. F. A. members will take place here next week, when the cabinet choices will be announced. It is a practical certainty, according to reports, that the attorney-generalship will go to John Brownlee, U. F. A. solicitor of Calgary.

Brownlee is looked upon as the ablest U. F. A. man who could be seriously considered for the portfolio. It is understood that possibly with the exception of Mr. Brownlee the cabinet will be composed of Farmer members victorious in the provincial election. It is also reported that several provincial services will be amalgamated when Mr. Greenfield's selections are made known. This may result in their being even a smaller cabinet than there was in the Stewart administration.

BUILDING PERMITS ONLY TOTAL $5,000

Only Renovations and Garages Are Under Construction Now.

ST. THOMAS, Aug. 3.—The building permits issued during the month do not signify that here will be much doing in the trade during the remainder of the season. The list of operations does not show a single residence under consideration, a condition said to be due to the high prices for both labor and material.

The amount involved is only $5,000 and includes Griffin Coal and Ice Company, garage and ice station on Ross street, $115; G. W. Smith, 59 Elizabeth street, garage, $100; R. W. Hutchison, 101 Erie street, garage, $100; C. McLeod, 31 Fifth avenue, garage, $125; W. J. Hussey, 14 Cruise street, renovation to house, $200; F. Williams, 125 Myrtle street, garage, $75; John Leith, 36 Jackson street, garage, $125; L. D. Marlatt, 66 Wellington street, sleeping porch, $500; H. H. Raynor, Wellington street, repair to house, $200; G. L. Kindree, 56 Locust street, garage, $100; A. W. Howard, 16 Barnes street, garage, $100; A. Pletch, 81 Alma street, garage, $150; D. Cook, 71 Malakoff street, veranda, $200; C. W. Dyer, 57½ Elizabeth street, garage, $100.

POLICE GRAB DOPE IN BORDER JOINTS

More Than $2,000 Worth of Drugs Taken in Raid.

WINDSOR, Aug. 3.—It is estimated that drugs valued at approximately $2,000 were seized in a number of raids made by local authorities on Chinese resorts in different parts of the city late last night and early today. Two Chinamen, Chung Sung and On Lee, were arrested and are held without bail. One of the men has been previously convicted in connection with illicit drug traffic.

At Chung Sung's place, 123 Sandwich street east, a raiding party found a regular opium layout including pipe and a can of "dope." In the shop of On Lee adjoining, five bottles of morphine, a bottle of cocaine and a tin of opium were found hidden in an old stove. Lee told the officers he did not know how the drugs came to be in the stove. He surmised some of his customers must have left them there.

Police say the drug traffic of late has shown an alarming increase and that the "ring" in handling the stuff seems to have its headquarters in this city.

THE INDIANS KNEW

A famous physician stated that more women might find relief from suffering through taking a medicine like Lydia E. Pinkham's Vegetable Compound than through undergoing surgical operations, if they would only take it in time. At the first sign of female weakness, as indicated by backache, dullness, bearing-down pains and nervous exhaustion, take this famous remedy of roots and herbs, and avoid the serious consequences of delay.

The Indians and early settlers knew and benefited by Nature's Allies, the roots and herbs of the field. Because Lydia E. Pinkham knew their medicinal value, thousands of women all over the world have been saved from operations, but only such as have taken it in time.

FLAVOUR —the charm of

"SALADA" TEA

is in its unique flavour of rich delicacy. And It never varies. All grocers sell "Salada" in sealed metal packets only. B836

TO GET TRUE ASPIRIN

Warning! Unless you see name "Bayer" on tablets, you are not getting Aspirin at all. Nothing else is Aspirin.

You must say BAYER

SAFETY FIRST! Accept only an "unbroken package" of genuine "Bayer Tablets of Aspirin," which contains directions worked out by physicians during 21 years and proved safe by millions for Headache, Earache, Toothache, Neuralgia, Colds, Rheumatism, Neuritis, Lumbago, and pain. Made in Canada.

Handy tin boxes of 12 tablets cost but a few cents—Larger packages.

Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Monoaceticacidester of Salicylicacid. While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

Bottled Energy
