The "bicycle skate" is being used in Brooklyn with very fast results. It consists of an ordinary bicycle with a skate runner fixed to the front wheel. Prof. Murphy has made the extraordinary rapid time of 1:33 for a mile on it. He attained terrific speed before going 100 yards, and at the end of a half mile the stop watches registered 45 seconds. At the mile post they showed 1 minute and 33 seconds, beating all records by 23 seconds.

PEDESTRIANISM.

EIGHT HOURS LATE.

SAN FRANCISCO, Jan. 5.—Dovale Fountain, who left New York on Sept. 20 to walk across the continent in 95 days on a wager of $5,000, arrived here Christmas Eve at 8 o'clock. Mr. Fountain reached this city eight hours behind time, and consequently loses the wager. The terms of the walk were that the railroad track was to be used throughout and that the 95 days should count from 12 o'clock, noon, Sept. 20, in New York, to 12 o'clock, Dec. 24, in San Francisco. He reached Sacramento Dec. 22, and it was between the latter place and this city that the loss in time was made. It was occasioned by a severe bilious attack, which continued for seven hours, and the severe wind storm which the pedestrian encountered, and which was so violent that he could make little more than three miles an hour against it. Mr. Fountain feels very sore over the failure of his attempt, but is consoled by the knowledge that he has broken the record of any cross-continent walk made so far. The best previous record was 133 days.

LABOR NOTES.

Rumors of a Tieup on the Erie Railway.

The K. of L. Will Sell Their Headquarters Building—Demands of Organized Labor in Ohio.

A Lima, Ohio, dispatch says there are rumors of a tieup on the Erie Railway system. General Manager Tucker says the New York, Pennsylvania and Ohio lost over $1,000,000 during the past year, and that therefore a reduction in expenses is possible.

A bill has been introduced in the New York State Senate providing that in New York city the wages of day laborers employed by the city shall not be less than $2 a day, and of other employes not less than 25 cents per hour.

The Knights of Labor officials announce that their headquarters building in Philadelphia will be sold on Jan. 26 at auction. It is generally understood that this means the withdrawal of the headquarters from the city and their probable establishment in Pittsburg or some city further west. Some opponents of the order declare that it is an indication of weakness and the coming disintegration prophesied by the Federation of Labor officials.

The Ohio State Trades and Labor Assembly on Wednesday adopted a resolution asking the abolishment of the State militia by repealing the law providing annual appropriations and annual encampments. The abolishment of detective agencies is also suggested in the same connection, the claim being made that both are inimical to labor. A resolution was adopted asking a change in the law so that schoolhouses may be used for labor meetings where there are no other accommodations.

THE OPEN FORUM.

A Legal Query.

To the Editor of the ADVERTISER:

It is desired to open a street through private property. In case the owners refuse to sell, or ask what may be deemed an exorbitant sum for the property cut off, by what process can the street be lawfully pushed through? Would it be costly? Would the fact that one of the owners lives in the States complicate matters to any considerable extent? FIDELITY.

Ridgetown, Jan. 4.

[NOTE—The process is set forth in section 546 of the Municipal Act, 1892. Notice of the intended bylaw for establishing or opening the street must be posted up for one month in six of the most public places in its neighborhood and published for four successive weeks in a newspaper. The council must hear anyone who petitions to be heard, and the clerk must give the notices on payment of expenses by the applicant when the council does not take the initiative in the matter. If the council and parties agree as to compensations, publication in the newspaper is dispensed with and a deed may be taken and registered. If they cannot agree the compensation is fixed as directed by sections 483 to 488 of the act by arbitration, as to which see sections 383 to 404. The county judge may on application of the council appoint a person to represent an owner of land absent from the Province. The council may tender what they consider proper compensation, and if no greater amount is awarded the owner must pay the costs of the corporation. The compensation awarded may be paid into court in certain cases. The nature of the proceedings is such as to make them expensive, and the costs depend upon the particular circumstances and skillful conduct of them. The residence of one of the owners in the States would not necessarily cause any complication. You had better employ a competent lawyer to conduct the proceedings or get the council to instruct the solicitor for the corporation to do so.—EDITOR ADVERTISER.]

Three Tax Questions

To the Editor of the ADVERTISER:

What amount of wages is exempt from a tax, and what is the present rate of taxation? Are members of the Seventh Fusiliers exempt from statute labor tax? By answering these questions you will oblige.

Jan. 3. M. S.

[NOTE—Wages to $700 are exempt from assessment. The rate of taxation in this city for the current year is 20 mills on the dollar. A non-commissioned officer or private of the volunteer force certified by the officer commanding his company is exempt from statute labor tax or commutation therefor.—EDITOR ADVERTISER.]

TEN YEARS IN CANADA.

What the Salvation Army Has Accomplished in That Time.

Tenth Anniversary Celebrated in This City—Marriage of Two Captains—A Banquet and Address by Commandant Booth.

Salvation Army officers from different parts of Ontario have been conspicuous on the streets of London during the last few days. They are here to celebrate the tenth anniversary of the birth of the army in Canada. The council of war was held in the Methodist Mission Church in London West, and religious meetings were also held at the jail, on the market and in the barracks on Dundas street. About eighty visiting officers assisted, and the the brass bands from Woodstock and Ingersoll have also aided. The sessions have been of great interest to those taking part.

Yesterday afternoon an army wedding attracted a large crowd to King Street Methodist Church. Commandant Booth united Capt. E. Andrews, of Toronto, and Capt. Caraher, of Campbellford. The ceremony of a Salvation Army wedding is lengthy but interesting. Although a solemn occurrence, the audience was several times provoked to laughter. Capt. Stark, of Chatham, was groomsman, and Capt. Tovell, of Chesley, assisted the bride. When the knot had been securely tied an adjournment was made to the barracks, where a banquet was in waiting. Many sumptuously spread tables were soon surrounded. The repast was thoroughly enjoyed by all the army officers and many of the local corps. Seated at tables on the platform were Mayor Spencer, Commandant and Mrs. Booth, Rev. Walter Rigsby, Rev. S. McVitty, Mr. Samuel Grigg, Mr. C. R. Sayer and Mr. Marshall. During the course of the banquet these gentlemen made short but interesting addresses. This session concluded about 7:30 p.m., and afterwards a grand procession was engaged in until 8 o'clock, when the anniversary meeting opened.

Commandant Booth presided, and on the platform with him were Mrs. Booth and a large number of officers from various places. The commandant delivered the anniversary address. He briefly reviewed the past, glanced at the present and spoke of the plans for the future. Ten years ago the first officers of the army arrived in Canada and started, friendless and unknown, a grand revival among all sections of the church. Out of that revival had grown a mighty organization, which, after ten years, had spread its ramifications throughout the country from the Atlantic to the Pacific, for the glory of God and the salvation of souls. There were now in Canada 270 corps of the army, 100 outposts, 900 officers, from 12,000 to 15,000 soldiers, 2 prison gate homes (one in Toronto and one in Kingston), 6 rescue homes (in London, Victoria, Winnipeg, Toronto, Montreal and St. John). There was also a "shelter" for children in Toronto. There were soon to be "shelters" in Montreal and Toronto, at which supper, breakfast and a night's lodging would be provided for 10 cents. A rescue home was being built in Halifax. Scattered throughout the whole universe (in 37 countries) were 3,500 stations, 11,500 officers, 45 rescue homes, 12 prison gate homes, 10 shelters for children and homes for inebriates. The plans for the future included a new and universal scheme of oversight, the circle corps scheme, a league of mercy, the opening of a splendid new rescue home, establishment of a social chicken farm and other industries, cheap food and shelter depots for Toronto and Montreal, new and enlarged prison gate home and a Salvation labor bureau for the poor and for emigrants. The commandant's address was most interesting and showed that his whole heart and soul were in the work.

Mrs. Booth sang a couple of solos and the meeting broke up at 10 o'clock.
