L. E. NORDYKE.

L. E. Nordyke, whose cut appears herewith, is a wonder at second. He stands 5 ft. 11 in.; is a rattling good batter, a good base runner and one of those hair-raising players on hot grounders and liners. He has an enviable record, leading the intermediate league in batting and second in fielding. This is the man who Rochester tried so hard to secure but failed.

PLAYERS COMING.

The following players will report for duty this afternoon and will at once proceed to work out. The first general practice will be held to-morrow afternoon: A. B. Royce 1st base, L. E. Nordyke 2nd base, J. W. Reid R. F., M. S. Conklin C. F., Jno. Withers P., J. Sanders C., C. Zeizler SS., L. Snyder, 3rd base.

ON THE SIDEWALK

Doctors Alone Cannot Have the Privilege of Ridin .

The Law Forbids Class Legislation—A Bicycle By-law for Sidewalk Navigation can be Drawn.

"It will be impossible to give the doctors the privilege of riding on the sidewalks in the way they ask," said City Solicitor Wilson to the Planet this morning. "The statute of this Canada of ours forbids discrimination in favor of classes. Unless there are exceptions made in the statutes, the council must make laws for the citizens and not for any class. The legislature has given express power to the municipal councils whereby they can regulate the auctioneers, hucksters, butchers, but no such power to regulate or give privileges to physicians exists and therefore whatever by-law the council may see fit to pass to enable the doctors to ride upon the sidewalks, must apply to all citizens who desire to avail themselves of the privilege. If the council should desire it, however, there will be no difficulty in framing a law regulating bicycling so that the liability of the city will not be increased beyond what it now is. Any person riding upon the sidewalks may be so circumscribed as to prevent the possibility of injury to anyone so long as he complies with the provisions in the by-law. If, however, he, contrary to the by-law, rides into, the only punishment that can be inflicted is the penalty of imprisonment under the by-law, unless the cyclist should be a person of means, when the individual injured might recover damages from him. The same state of affairs now exists. If bicyclists without means, and contrary to law, ride upon the sidewalk and injure anyone, the person injured can get no relief except through the punishment of the rider by fine or otherwise. If a by-law permitting riding is properly prepared there will be no difficulty in protecting the city.

"In Brantford there is a by-law against against permitting people to ride on the walks, but it is only enforced against those who scorch or who ride into passengers. This is found, I am told, to work all right there."

WATERWORKS AFFAIRS.

A short special meeting of the water commissioners was held last evening, Dr. Bray and the Mayor being present. A petition from Thos. E. Fielder asking for water service to his brickyard, below St. Joseph's hospital, was granted conditional upon a rental of $17 per season. Kenneth Urquhart was present and complained that a leak had caused his meter record to err. The matter was laid over till the end of the quarter. The tender of Geo. Stephens & Co., $32, for the erection of a fence between the sedimentation basin and the Abram property was accepted; the commission to supply the posts and put them in and the contractors to put up fence and furnish all the remaining material.

NOTICE.

Sealed tenders will be received by the undersigned up to May 1st, 1899, for the erection of a brick tank for gas holder 50 feet diameter, by 16 feet deep, including necessary excavation, etc., plans and specifications for which may be seen at the office of the undersigned.

Proper security will be required for the satisfactory completion of the contract. Lowest or any tender not necessarily accepted.

HE HAS RESIGNED.

Engineer Topp Decides to go Out To British Columbia.

Has Been Offered And Has Accepted The Position of City Engineer Of Victoria.

A special meeting of the city council will be held on Monday evening to consider the resignation of C. H. Topp, City Engineer.

Yesterday Mr. Topp received a telegram from the Mayor of Victoria, B. B., offering him the position of city engineer of that city at a salary of $2,500 per annum. Mr. Topp interviewed the members of the council, explaining that his duty to himself demanded an acceptance of the offer. He wired an acceptance last evening.

M. Topp commenced his duties here on April 13th, of last year, and has done considerable valuable work for the corporation. His resignation will be a sourse of surprise and regret.

Victoria has had a good deal of trouble with its engineer. The council scalped one. Then they engaged another in Toronto, when he got out there the Mayor declared he was not an engineer at all and refused to instal him in office. Another Toronto engineer when approached refused to go unless they gave him a three year contract. He intimated that we knew the kind of taskmasters the Victoria council was. In Mr. Topp, however, they have secured a good, capable official, who does his work thoroughly though quietly and whose services the Victorians will no doubt soon learn to appreciate.

MAY BE TROUBLE.

What Will Emperor Bill Say When he Hears This.

The Captain of a German Warsh'p Arrested by the British.

Winnipeg, Man., April 21.—A special despatch from Victoria, B. C., says:—The steamer Aorangie, from Australia, brings news of the arrest of the commander of the German warship Falke, at Asia, for supplying arms to Mataafa. The arrest was made by the British commander.

According to Huava papers, the commander of the German warship was arrested by the British at Apia and taken on board H. M. S. Porpoise. He is charged with furnishing arms to the rebels under Mataafa. The Mahetoa and Mataafa forces are still engaged in bush fighting and business is at a standstill. The rebels show no disposition to surrender, and the representatives of the three powers are anxiously awaiting instructions. The natives of New Guinea captured a trading vessel, on which were two Germans. One of them suicided, and the other made his escape after a long captivity, during which he was brutally treated as a slave. He told his story to a German commander, who ordered a warship to investigate.
