LAUNCH.—A noble looking vessel, of over 1400 tons Register, named the "*David G. Fleming*," was launched on Saturday last from the Yard of the Builders, Messrs. W. & R. Wright. She is built of hackmatack, oak and pitch pine, is thoroughly copper fastened, and finished in Messrs. Wrights' usual superior style. The "D. G. Fleming" is altogether one of the best specimens of our naval architecture, and has been specially surveyed for Messrs. Sumerville, for a seven years charter. She is owned by the builders and Messrs. J. & R. Reed, and is to run in their line of Packets between this Port and Liverpool, under the command of Capt. Nichols.—*Obs.*

CARLETON.—At a Public Meeting of the Freemen and inhabitants of Carleton, held at the Temperance Hall, in that place, on Friday evening, the 30th ult.:—Joseph R. Whipple, Esq., having been called to the chair, and Peter Stubs, Esq., having been appointed Secretary, the following resolution, (after remarks had been made by several members of the meeting, pertinent to the question before it,) was unanimously adopted:

On motion of Mr. David Allen, *Resolved*,—in the opinion of this meeting, that the time has now arrived for considering the expediency of separating that portion of the City lying on the Western side of the Harbour, and erecting the same into a separate City; and that a Committee be appointed for ascertaining upon what basis such a separation can be effected.

The following gentlemen were then nominated by the Meeting, to be a Committee to carry out the object of the above resolution, namely-Messrs. John C. Littlehale, Thomas Coram, Oliver B. Coughle, Stephen P. Wetmore, and William Colwell, together with the Aldermen and Councillors representing the Western Wards.

The thanks of the meeting having been voted to the Chairman, the meeting adjourned.

CARLETON FIRE ENGINE COMPANY, No. 9.—BOYS.—On Monday evening last a deputation of this very efficient organization, clothed in the Company uniform, waited upon William Olive, Esq., at his residence in Carleton, and presented him, through their engineer, with the following address:

SIR,—We, the officers and members of RISING SUN, Engine Company number 9, publicly acknowledge our deep obligations to you. Our excellent Engine and efficient Hose were purchased at your expense, and accompanied by an expression of confidence in your integrity, you entrusted them to our care. Accept our grateful thanks for your munificent kindness.

May the day be far distant, when our services as a fire company shall be required; but should the occasion unhappily arise, rest assured, Sir, that we shall then endeavour to show by our conduct, that the trust reposed in us is not unmerited.

Many of our number are the descendants of the Loyalists of '83; we shall strive to prove our just appreciation of the memory of our sturdy ancestors, by emulating their conduct,—by strict obedience to "the powers that be," and by our firm attachment to our Queen, and to "the glorious old flag," the sight of which makes rebels and annexationists to quail and tremble. We have been faithfully instructed in these noble principles, and we are not the boys who can readily forget our daily lessons.

Respected Sir,—We tender to you the compliments of the season, with our earnest wishes that you may enjoy many prospering years, and that the evening of your exemplary and well spent life, may be one of unclouded happiness.

By order of Engine Company, No. 9.
GEO. W. OLIVE, *Engineer.*

Mr. Olive, in presence of a number of persons invited to present on this interesting occasion, then read the following reply:

Officers and Members of Engine Company No. 9.—I thank you, my young friends, for your kind address, and can assure you that this mark of regard is highly appreciated.

My services on your behalf, and to which you have alluded in so flattering a manner, have been well compensated by the satisfaction I have realized in observing your efficiency, and your commendable promptitude of action, when an alarm of fire has occurred.

The Loyalists of '83 formed an almost unparalleled body of sound and truly faithful British subjects. They left to us all an example worthy of our highest regard. It is gratifying to me to perceive that you can justly appreciate the character of those men. The delineation of it will form the brightest page of our Provincial history. Cherish their memories, revere their integrity, and ever strive to emulate their good example, by a due obedience to the laws of God and man.

For the wishes so kindly expressed at the conclusion of your address, accept my best acknowledgements. It is ever gratifying to one who is advanced in years to be assured that he merits the affectionate regards of worthy young people.

WM. OLIVE.

SABBATH SCHOOL.—The children of the St. John Presbyterian Church Sabbath School, numbering 325, at the request of their teachers, met in the basement of the above church on Wednesday afternoon, to enjoy their annual feast. The greatest satisfaction was evinced by all the guests present at the well behaved conduct of the motly band of juveniles, who, by the untiring perseverance of their esteemed superintendent, Mr. Robert Kedy, have for seven years enjoyed his invaluable services. In the evening, the teachers sat down to a sumptuous repast, got up in good style by the philanthropic lady teachers. The whole affair was conducted in a most christian like manner, and speaks volumes for the good taste and benevolent characteristics of all concerned.—[Times.

FRATERNAL VISIT.—On Monday evening last, the members of Gurney Division, No. 5, S. of T., made a Fraternal Visit, to Portland Division. A large number of the members of the Order were present. Five persons were initiated under the New Ritual. After the initiation ceremony was gone through with, the Worthy Patriarch of Portland Division, called upon several of the respective Divisions to address the meeting, which was well responded to.—Tem. CHURCH MEETING.—A numerous and highly respectable meeting of the Pewholders in Christ Church, and other members of the Church of England, in this city, was held on Tuesday evening the 3d instant, to take into consideration a proposition made by His Lordship the Bishop to make over to the Corporation of ChristChurch, St. Ann's Chapel, in lieu of the land on which the old Parish Church now stands. We are indebted to a gentleman who was present for a well written sketch of what took place, but as we are informed all difficulties heretofore existing about the Cathedral are now overcome, it would be superfluous to allude to this meeting further than to say that it was characterized by a spirit of christian forbearance honorable to all parties.

The eloquent and nearly prophetic words of His Lordship the Bishop used with reference to the difficulties that arose soon after the foundation stone of the Cathedral was laid, have had their fulfilment almost literally. Although it may be that "little will future generations know how these stones were laid in sorrow and watered with tears," yet the day has, we trust, at last come when His Lordship will be able to look on the fruits of his energy and indomitable perseverance in peace, and enjoy the satisfaction of having accomplished his work, without permanently, as we believe, alienating the affections of a single individual from himself, or from the church of which he is the head in this Province.—*Head Quarters.*

RACE FROM CHINA TO ENGLAND.—The great clipper race for $10,000, between the British ship *Stormeray*, and the American ship *Challenge*, from China to England, has resulted in the defeat of the American vessel. Brother Jonathan has now been fairly beaten by John Bull, in ocean steamers, yachts, and clipper ships, as witness the performance of the steamer Arabia, against the Collins line, of the yacht Arrow against the Sylvia, and lastly, the result of the match above recorded.

SHIP-BUILDING AT BATH, (ME.)—Forty-seven ships, 3 barks, 4 brigs, 11 schooners, 3 boats, and 1 steamer, were built at Bath in the year 1853. Their total tonnage amounts to 49,390. The size of the ships averaged from 2051 tons down to 425; and about one half of them were over one thousand tons burthen.

☞ The Ball and Supper given by the Agricultural Society of the County of St. John, come off on Wednesday evening at the Lake House, Loch Lomond. It is needless to say that the Committee conducted the affair in an admirable manner, having no doubt before given convincing proof that whatever they undertake they "put it through." We regret being unable to comply with the usual kind invitation.

We learn that the number of new ships registered at the port of St. John, during the year 1853 was ninty-seven, having a total tonnage of sixty thousand [illegible] hundred and [illegible] at the port of Miramichi, twenty-one ships, of thirteen thousand two hundred and five tons. The value of the above, at Twelve Pounds per ton, which is within the limit, would amount to nearly Nine Hundred Thousand Pounds!—quite a handsome figure for one branch of industry.

We have reason to believe that during the two first months of the present year at least twenty Thousand Tons of new shipping will leave the Port of St. John, the value of which, with cargo and freight, will exceed £300,000.—*Courier.*

COLD WEATHER.—The *Head Quarters* of Wednesday says the thermometer stood in Fredericton at 30 degrees below zero at sunrise. Fifteen below has been the coldest in St. John.

News of an appalling nature are said to have been received over the wires yesterday from Sydney. Report states that N. H. Martin Esq., of that place walked into some shop, on Friday last, where Archibald O. Dodd,—Judge Dodd's son,—was, at the time, and taking a pistol from his bosom, shot Dodd through the heart, killing him instantly. The cause of this outrage is alleged to be certain conduct of the deceased towards a daughter of Mr. Martin's, and from which the latter had been led to consider the honour of his family as compromised. A Coroner's inquest has been since held upon the body of the deceased, and a verdict of *wilful murder* has been brought in by the jury against Martin. We must wait the arrival of the Mail for further particulars.—[Halifax Colonist, 5th.

FURTHER PARTICULARS OF THE LOSS OF THE STAFFORDSHIRE.

(*From the Yarmouth Herald.*)

We regret to have to record the most appalling shipwrek which has occurred in this vicinity for the last fifty years.

The magnificent packet ship Staffordshire, Capt. Josiah Richardson, from Liverpool for Boston, with about 150 passengers, on Thursday night last, 29th Dec., struck on Blond Rock, about 3 miles south of Seal Island. She soon floated off, and sunk in about three hours afterwards, Seal Island Light bearing N. W., 5 miles distant. 38 of the crew and 6 passengers were saved in the boats—about 175 persons (including the Captain) went down with the ship! A correspondent writes,—

"The four boats that left the ship, before her going down, have been landed with all who embarked in them, viz.: a Quarter Boat, with fourth mate, carpenters, one woman and 5 men—a Life Boat with 5 men—the Launch with first and second mates and 15 men—all landed on Cape Sable,—and the ship's Gig, with third mate, boatswain and 12 men, picked up by schr. Expert, were landed at Shelburne. They left the ship in the order in which they are named. Of the 150 passengers, 6 only were saved, including one woman. The last boat, the Gig, left the ship a few moments before she went down, about half past 3 o'clock Friday morning."

We are informed that about two-thirds of the passengers were females. Three days previously to the disaster Capt. Richardson fell from aloft, and broke one of his legs. No persuasions of the mates would induce him to leave the ship. At the time of the catastrophe, he lay on the centre table in the cabin, and his last words, addressed to the boatswain were,—"The ship is sinking; save yourselves; I will go down in her!"

We understand that the Chief Mate is greatly blamed for a want of effort to save more of the lives, as his large Boat (the Launch) would, it is said, easily carry at least 50 persons.

The Staffordshire belonged to Train's Line of Boston and Liverpool Packets, and was one of the largest and most splendid ships belonging to the former Port.

The Boston Mercantile Journal gives the following notice of the most popular remedy of the day

Wild Cherry Balsam,

We speak in praise of Wistar's Balsam of Wild Cherry, because we believe from our own knowledge of the article that it is one of the best in the market for the complaints for which it is recommended.

This medicine, coming from such a respectable source, and carefully prepared by an experienced and skillful physician, is received by the public with confidence. Its efficacy has been proved in many obdurate cases of disease, and its fame has rapidly extended. It has been extensively used in every part of the country, particularly in the middle and Northern States; and strong testimony from intelligent and highly respectable persons, has been adduced in favour of its merits as a remedy for colds and coughs, affections of the chest, diseased liver, &c. &c.

THE GENUINE AND ORIGINAL

Wistar's Balsam of Wild Cherry,

on account of its great popularity has been extensively counterfeited in Philadelphia, and some thousand bottles of the spurious imitation thrown into the market and extensively circulated.

EXAMINE CLOSE BEFORE PURCHASING!
LOOK WELL TO THE MARKS.

The genuine Balsam is put up in bottles, with the words "Dr. Wistar's Balsam of Wild Cherry, Phil." blown in the glass; each bottle bearing a label on the front, with the signature of
