RALLY IN WHEAT ON FOREIGN NEWS

Prospect of Strong Overseas Demand Counteracts Favorable Outlook For Crops.

CHICAGO, April 18.—Bearish domestic conditions in wheat were more that offset today by a bullish foreign situation, the result being a net upturn of 1-2c to 5-8c. Corn finished 1-8c to 3-8c higher, oats had a net gain of 1-4c to 3-8c, and provisions a net advance of 10c to 25c. Strength was shown by wheat from the start on the higher cables and the renewed talk of prospective exports, it being believed that European needs will soon be great. Rains in France and unfavorable crop news from parts of Russia, where frosts were reported, gave strength to the foreign situation. The only variation in the uniformly enthusiastic views of the situation in this country that have prevailed of late came in the form of reports of Hessian fly, cinch bugs and dry weather in parts of Kansas, but the effect on the market seemed to be small as the disturbances were confined to a narrow area and were not of marked intensity. So completely did bull sentiment dominate the market that no depressing effect was apparent from reports that south of the Ohio river and in Oklahoma and Texas wheat is already so well along that it is jointed. Neither did the fact that grain shipments are now on thru the GreatLakes check the bullish tendency of the market.

Corn Well Bought.

Corn displayed considerable strength on buying of importance. There was a fair eastern demand for cash corn. The chief offerings came from longs on realizing sales, but these were scattered and many sellers later re-bought on dips. Oats showed strength in sympathy with the other grains.

Shorts were in the market for ribs and lard and this hardened prices. Many of those covering today were representatives of foreign houses. There was also a fair investment demand.

How to Have a Nice Lawn.

To ensure a rapid, luxuriant and continuous growth of grass on your lawn (either new or old), make an application of Davies' Lawn Dressing Fertilizer at once. It is a dry, finely pulverized, inodorous material, sold in 25, 50 and 100 pound jute sacks and contains an abundance of available plant food. It is applied in the same manner as you would sow grass seed—broadcast it by hand. Twenty-five pounds is sufficient for an ordinary-sized lawn.

This fertilizer is being used by the Toronto Park Department, Ottawa Improvement Commission and many others who desire to have their lawns look attractive at all times. For further particulars telephone Junction 4185. Do not delay, as now is the time to use it, in order to obtain the best results. William Davies Co., Ltd., Commercial Fertilizer Department, West Toronto, Ont.

LIVERPOOL GRAIN EXCHANGE.

LIVERPOOL, April 18. — The strength in Winnipeg yesterday and the opening strength in Paris this morning caused shorts to cover which resulted in a firm market with prices 1-4 to 3-8 higher. Following the opening there was a further advance in near months on the fact that over half of the Argentine shipments were destined to the continent, and then again these were smaller than last week. Shorts in May covered freely with apprehension of tenders on contract owing to the fact that Manitobas are firmly held within Manitoba spot 1 to 1 1-2d higher in this market. There continues a good demand from France for Australian cargoes.

Corn opened unchanged and later advanced 1-8 in sympathy with wheat. Argentine shipments were larger than expected and these checked the advance.
