The War

THE PRUSSIANS AT CHATEAU THIERRY.

LONDON, Sept. 10.—Olozaga is attempting vainly to mediate, as he insists on the integrity of French soil.

New York, Sept. 10.—A special to the *Herald* from Paris says: An excited crowd was called together in front of the Hotel de Ville to-day by a publication of the statement that King William determined not to treat with the Republic, and in response to repeated calls was addressed by Jules Favre. He said no such definite announcement had been officially received. If, however, such action was taken all France will fly to arms, and what is now a fight for national existence will grow into a war for extermination. Not a Prussian shall return home to tell of this last outrage. Favre was tremendously applauded.

A letter dated Paris, 9th, evening, says: The night session of the government lasted until six in the morning. A proposition was offered to call a Constitutional Convention so as to impart the formal authority to the government. The Minister divided on the question, 5 voting for the convention and 5 against it. According to the French parliamentary law, the vote decides the question in the affirmative.

Paris, Sept. 11, via London.—The Eastern Railway is still open to Nogent, but the Prussians at Chateau Thierry are advancing on La Ferte sous Jouarre. The rolling stock of the road is withdrawn as the enemy advances and the bridges and culverts are destroyed before the track is abandoned. Prussian scouts are reported at Villiers, Acron, Verneil, Chatillon, Montmesnil, Vailly sur Aisne, Lausanne and Lehanny. They maintain strict discipline and commit no depredations.

Gen. Trochu has given orders to level all woods in the sight of Paris on the enemy's approach.

The citadel of Lion was surrendered to save the city from destruction. The Prussians subsequently blew up the fortifications.

Senor Olozaga, Spanish Ambassador at Paris, has communicated to Jules Favre a formal recognition of the new government by Spain. Belgium is expected to recognize the republic at once.

It is officially announced that Baron Mercier, French Minister to Madrid, has been recalled.

The existence of an understanding between the United States, Russia and Italy, looking to the termination of the war, is mentioned.

The members of the suite of the Empress and Prince Imperial sailed from Antwerp this morning for Harwick, England. They took with them an immense quantity of baggage.

RUSSIA AND THE REPUBLIC.

The *Journal de St. Petersburg*, the official organ, says that the French Democracy cannot have France, while the effects of its rule must be disastrous. Its ideas of solidarity are utopian. France glories in a republic, as she once gloried in an empire. Let her try the experiment, but she must beware of dragging in other nations. The *Journal* condemns the language of Victor Hugo. While the bombardment of Paris would be a crime, words like these will never promote peace.

NAPOLEON'S TRADE.

New York, Sept. 11.—A London special says: It is stated here for a certainty that Napoleon will cede to Prussia enough French territory to indemnify them for the expenses of the war, and that Napoleon has stated to Bismarck that had he not declared war as he did, the Republican mob at Paris would have hung him. The same correspondent states that the Parisians will not resist the Prussian troops, but will make the best terms possible.

AN ARMISTICE PROPOSED.

A special to the *Tribune* from London, 10th, says: The *Tribune's* special correspondent at Paris sends by mail the following dispatch, dated Friday, which he was refused permission to telegraph thence. Overtures have been made to Austria to obtain an armistice from Prussia on the basis of territorial integrity. Russia is understood to have offered her good offices to the French government, and is now taking active steps. Her assistance depends on France's acquiescence in the Russian Eastern policy. It is believed here that Bismarck does not want Alsace and Lorraine, and that the English press goes beyond the wishes of the Prussian government.

THE FORCE IN PARIS.

The war office expects to have by to-morrow, including troops of the line, National Guards, and Guard Mobiles, 300,000 men, counting the forces at Lyons and elsewhere but hastily organized and imperfectly armed. Troops and artillery arrived yesterday from Mesieres and are encamped on the Avenue Imperatrice. Other troops have left for the front. It has been decided to burn the Bois de Boulogne and the forests of St. Cloud and St. Germaine as soon as the Prussians are in sight. It is fully expected that the American Minister will be asked to help in peace negotiations.

THE CAPTURES AT SEDAN.

A special correspondent of the *Tribune* writes from Sedan, the 9th: Over 400 French cannons, including nearly 100 mitrailleuses, have been parked at Sedan. Thousands of French prisoners are sent daily to Pont a Mousson and thence by rail to Germany. The town of Sedan is not greatly damaged. The First Bavarian and Fourth Prussian Corps are still here.

THE FRENCH MINISTERS MOVING.

Brussels, Sept 11.—It is reported that the French Minister of Foreign Affairs will leave Paris to-morrow to establish his department at some southern point, probably Marseilles, Tours being much exposed.

The Prussians around Strasburg have captured a quantity of munitions intended for the garrison.

Fearful Epidemic in Chili.

Yesterday intelligence was received in Liverpool of the breaking out of a fearful epidemic in Colchagua, on the coast of Chili, the effects of which are stated to be as sweeping as those of cholera or yellow fever. The *Libertad*, which publishes the information, says:—'We do not desire to cause a groundless alarm, but, on the contrary, to point out the evil, in order that a remedy may be sought with the necessary promptitude. The disease presents itself first in the form of a violent fever, and then on the second or third day appear on the face spots of a gangrenous character, which develop themselves in two days, and produce death in the midst of the most cruel sufferings. The ulcers especially attack the mouth and nose, which fall off in pieces. The journal concludes by strongly recommending that experienced medical men should be at once sent to study the disease.' It would be also desirable that all vessels arriving from Chili should be strictly inspected by the customs officials. —*Liverpool Post.*

Eight Excursionists Drowned.

Toms River, N. J., Sept. 8.—Today an excursion party from Long Branch visited this place, and while crossing the foot bridge from the village the bridge gave way, precipitating over one hundred people into twenty feet of water. Eight were drowned—Mrs. Sidney Throckmorton, Peter Hoesland, Mary E. Stelles, Maria Martin, Helen Lane, Ella Maples, Jas. Martin and Alfaretta Martin. The party returned at one o'clock to Long Branch.

The Mints of the United States have coined since they commenced operations (some seventy years) the large amount of Eight hundred Million dollars, about one-fifth of the whole metallic currency of the world. of which amount $600,000,000 has been derived from their own mines; we are not without mines, but while we feel that they will not produce so much gold we have the pleasure of knowing there is a nostrum; remedy in the "Canadian Pain Destroyer" for sudden colds, rheumatism, neuralgia, tooth-ache, &c. Sold by all Medicine Dealers, at 25 cts per bottle.

ANOTHER CASE OF BRONCHITIS CURED.—I was persuaded to try FELLOWS' COMPOUND SYRUP OF HYPOPHOSPHITES for Bronchitis, from which I had suffered much. I have used only three bottles, and my health is now better than it has been for years; there is a general demand for it from all parts.

Yours respectfully, W. J. NELSON,

Bridgewater, N. S., 24 March, 1869.

Ayer's Hair Vigor,

For restoring Gray Hair to its natural Vitality and Color.

A dressing which is at once agreeable, healthy, and effectual for preserving the hair. Faded or gray hair is soon restored to its original color with the gloss and freshness of youth. This hair is thickened, falling hair checked, and bald spots often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed or the glands atrophied and decayed. But such as remain can be saved for usefulness by this application. Instead of fouling the hair with a nasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can only benefit but not harm it. It wanted merely for a

HAIR DRESSING,

nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts long on the hair, giving it a rich glossy lustre and a grateful perfume.

THE TRUE THEORY OF PURGATIVES Applied to the LIVER, KIDNEYS, SKIN, STOMACH & BOWELS.

DR. RADWAY'S PERFECT PURGATIVE PILLS

MATERIA MEDICA contains in its vast range many purgative and cathartic agents that for various purposes, open the bowels, find through what is called a "peristaltic" movement, purge from the system the secretions and excretions, and the dregs of digestion, are utterly useless.

DR. RADWAY has completed one of the most remarkable discoveries in medical chemistry—the combination of vegetable substances, for the purpose of a PURGATIVE, APERIENT, COUNTER-IRRITANT, ALTERATIVE PILL, that can be administered with the absolute certainty of a

THOROUGH EXPULSION OR PALLIATION AND DECOMPOSING elements in the human system, and also safe to take in the most malignant or fatal forms; in cases where the mucous membrane of the internal viscera are suffering from Ulceration or from

MEDICAL DISCOVERIES.

Hundreds of medicines are put up under the name, all made alike, in imitation of some old established or fashionable. There are, however, but very few of those medicines that are entitled to any distinction or exclusive patronage. All these common compounds are similar in their effects, with some active drastic or harsh base.
