OUR DAILY BREAD.

Fears of a Shortage in the Province's Requirements Owing to the Heated Term.

The unusual heat and drought of the present season will likely be followed by a shortage in Ontario's grain supply. The fall wheat, according to reports to hand from all parts of the province, will not be affected to any extent, as it was well into maturity before the hot wave set in. The crops likely to be seriously damaged are oats, peas and spring wheat. The reason of this is that the heat struck them at that point of growth known as the milky state. In some localities it is said that whole fields of such crops have been blighted by the scorching heat to which they were subjected, and thus in many cases rendered useless.

It may not be generally known that during the last ten years the nominal supply in breadstuffs in Ontario fell, on three separate occasions, far short of the requirements. According to the Dominion trade returns in 1877, our import of wheat and flour exceeded the export by 2,334,276 bushels. This was due to an extraordinary hot wave, which lasted for three days, in the beginning of July, 1876. Those who remember it say that the temperature and the sultryness of the atmosphere corresponded with those of July 13 last, which was the hottest day of the present summer. The fall wheat was in the milky state, and being subjected to three days of withering heat was very seriously damaged throughout the length and breadth of the province. In many cases there was nothing left but the straw, so completely did the heat destroy the country's grain. The failure of the crop in 1876 was of course the cause of the year 1877 being credited with excess of imports over exports.

Again in 1884 the export of wheat fell short of the imports by 583,254 bushels, and of flour by an equivalent of 1,333,672 bushels. Thus we imported that year a total of 1,916,926 more bushels of wheat than we exported.

Again in 1885, although the export of wheat was in excess of the import, yet there was a deficit in flower export equal to 1,221,413 bushels of wheat. This deficit reduced the balance in favor of Canada on wheat and flour to 374,349 bushels.

Taking the two years in which the export of wheat and flour fell short of the imports, it is found that the total number of bushels representing the shortage amounts to 4,201,189 bushels. Taking the eight years during which we had a surplusage of wheat, our exports exceeded the imports by 36,100,734 bushels. For the ten years, therefore, after deducting the deficit of the two years referred to, our Canadian wheat export exceeded the import by 31,900,535 bushels. Our largest export of wheat during the ten years embraced in the returns was in 1883. During this year we exported 6,847,565 bushels more than we imported. The flour exports and imports are, of course, included in these figures. In 1886 the export of wheat and flour was in excess of the imports by 4,282,672 bushels. From 1876 to 1886 we exported in wheat alone 74,415,000 bushels, as against 46,845,587 imported. In barley, Ontario alone has produced 19,572,730 bushels in a year.

If the present drought continues much longer, not only will all kinds of crops be seriously damaged, but agricultural products generally. It is reported that the pasture in some counties has given out. This means that the dairy industry will be more or less affected, when it is remembered that thousands of farmers in this province have given up wheat-growing for dairying operations. A season such as we are passing through is fraught with gloomy prospects for the farmer.

FROM WORLD READERS.

"Incidentals" at the Musical Classes—A Repeated Game of Grab.

Editor World: As a student of the musical classes I protest against the means used to make us shell out for incidentals. Did the Minister of Education bring us here on false pretences? I would like to know whether Mr. Preston is paid for his services and, if so, why he wants so many perquisites? OTTAWA.

Editor World: The teachers in attendance at the musical ministrations of Mr. Holt and his aids are sincerely grateful to Hon. G. W. Ross for the opportunity he has given us of being classed as such a really first-class place of instruction, but there seems to be evinced on the part of some who have not come from fishing, a disposition to make a little grab out of the business. The individual in question purposes to form a choral society from among those of us who are attending the class, but, mark you, each member joining is to pay 50 cents for the training he gets, so that there may be a big three-up at the closely-way of public entertainment, the proceeds of which will go into whose pocket? Another proposition is to form a harmony class for which a special fee will be charged. I called to see the Minister of Education on the subject to-day but find he is away from home. I am quite sure he will not countenance this disguised boodle arrangement. *Toronto, Aug. 4.* SINGER.

The World in Mt. Clemens.

Editor World: Allow me to thank you for prompt delivery of your bright, spicy paper. It kept me fully acquainted with all the news in Toronto. There was quite a number of business men from the border cities to whom I gave The World to read, and they admired the independent tone of the paper, more especially the articles touching on Commercial Union.

I have spoken on the above subject to manufacturers and other business men from Pittsburg, Cincinnati, Chicago, New York, Syracuse, Washington and a number of other cities in the United States who advocate C. U. only as a step to annexation. They say Canada will never be worth anything until she comes in the fold. For unlimited gal, give me a born Yankee; his world is the United States, no other country can begin to compare with her. She is the largest, richest, best governed nation in the world. But it kind of took one man's wind when I told that Canada was both larger and richer in its undeveloped wealth than the United States. Touching the fisheries question, I gave one gentleman from Chicago (a canning factory man) The World with the full particulars of the last seizure of two of their boats crews and fishing tackle while stealing our fish, and no doubt had he control of affairs he would have sailed across the river in the Talapoosa and the Atlanta and cleaned out the country. He thought we had considerable cheek for a community of 5,000,000 of people.

There was a very good article in The Detroit Journal the other day, saying that the blatherskites and wind-bags at Washington should have been present at the naval review at Spithead of Britain's supremacy on the seas before talking of "twisting the lion's tail," and what they would do if Ireland was not granted Home Rule. The Journal owned up that England was mistress of the situation, pure and simple.

It is and has been very hot here. The Saturday you had the mercury at 90° we had the following day 104° in the shade. Mt. Clemens is a small town of 5000 population. In the summer invalids and tourists swell the number to between 6000 and 7000. H. E. HUGHES.

Mount Clemens, Aug. 3.

This Ought to Bring Him There.

Editor World: Is there any way I could get the health officers to come down to Piperstreet some night and inhale some of the stench thereabouts? The residents and people passing have put up a long time with it, and we may expect fever soon. THOMAS BUTLER.

Unfounded Charges Against the Glue Works.

Editor World: The newspapers have been favored the last few weeks with letters written in the most exaggerated terms about our works, and we think it is due to the public that we should make some explanation. The charges are that during the performance of the Citizens' Band in Riverdale Park, on the evening of Friday, July 8 and July 29, the odor from our works prevented the proper appreciation of the music, that the people had to hold their noses to avoid inhaling the offensive smell. We are glad to be in a position to positively assert that these statements are outrageously false, and the whole agitation has been boomed by a few speculative builders and real estate agents. We have certified reports from Mr. Carpmael, of the Meteorological Office, that the wind on the evenings the Citizens' Band performed, July 8 and July 29, between the hours of 7 and 11 p.m., was from the southeast, almost directly opposite from our works, which are situated north of the park. This is positive proof that there could not have been any smell from our works.

On the evening of July 22 the Royal Grenadier Band performed in the Riverdale Park, and the wind this evening was directly from the north, which is also certified to by Mr. Carpmael. This wind would bring any odor from our works (had there been any) directly into the park; but on this occasion not a single complaint was made, as the park was perfectly free from smell.

We wish to assure the public that our works, which have been established here for 40 years, are conducted and managed in the most cleanly way possible and every precaution taken to avoid giving offence, and improvements are made every year. And if at any time there is a smell it is owing to some accident or a careless one on the part of our employes—which does not happen more than three or four times in a year.

We also wish to state that frequently odors are perceptible in this neighborhood which are very wrongly attributed to our works, and which may arise from the Yorkville open sewer, which passes immediately in rear of our works; from the city scavenger dumps at Gerrard-street bridge, immediately south of the Riverdale Park, which has been particularly offensive this summer; also other scavenger dumps at Winchester-street and King-street bridges. There are also in the neighborhood many undrained premises and cess-pools, all of which contribute more or less offensive odors during the hot summer nights. PETER R. LAMB & CO.

[We have been shown Mr. Carpmael's reports, and Upwin, Browne & Sankey's plan of neighborhood, showing direction of the wind, which bears out Messrs. Lamb & Co.'s statements that there could not have been any smell from their works in Riverdale Park on the evenings in question. EDITOR.]

Torontonians at Ocean Grove.

OCEAN GROVE, N.J., Aug. 4.—*Editor World:* At the suggestion of some Toronto citizens who are enjoying themselves here, and wishing more of their friends were along, I have been induced to send you a few lines. It is now eighteen years since the idea was adopted of reclaiming what was then a barren waste and converting it into a Christian home for the sect. Under the auspices of the Episcopal Methodist the work has been carried on, if not to perfection, much nearer thereto than any seaside resort the writer is acquainted with. Ocean Grove is situated on the Atlantic Coast, seven miles south of Long Branch. It can be reached from New York by boats to the Branch, thence by rail, or via Sandy Hook and rail, or Jersey Central Railroad, distance about 50 miles. The population varies from 6 to 25,000. No carriage riding is permitted on the Lord's day. Statutes prevent the sale of intoxicating liquors, tobacco, billiards and dancing in the limits; devotees of any of these can obtain them in the adjoining Ashbury Park, excepting liquors, where nothing stronger than lager is allowed. Even the dog nuisance is abated here, so that there is nothing to mar or disturb the conscience of the weaker or cause others to offend.

The city is laid out in good streets with sidewalks mostly of asphalt, shade trees, good sewage, plentiful supply of water from several artesian wells. There are hundreds of handsome cottages and many hotels in both places. The association controls by statute the grounds and does its work well. It rents a great number of canvas tents and furnishings at reasonable rates. To meet the religious wants of the people there is a tabernacle, an auditorium capable of seating 6000, and a new hall, dedicated on Aug. 1, for the use of the Young Peoples' Christian Meetings, which will seat 1500, and in an emergency 2000 persons. Hundreds of decorated boats flit over the two lakes making a scene everchanging, ever fleeting.

Bathers are well provided for and here excellent regulations prevail; the dresses are good and uniform in fit, and nothing offensive is permitted, it being held that neatness and modesty is as becoming in bathing costume as in silk and satin. Hundreds, nay thousands, bathe daily. Two immense piers are erected at each end of shore front where dressing rooms, cake, coffee and ice cream are to be had, excellent in quality and moderate in price. A beach walk planked some sixteen or twenty feet wide extends along the front, and is continued across Ashbury Park. Several pavilions are erected as shades, and in the evenings thousands promenade along the shore. Lodgings and board are reasonable and good. Most of the visitors come to remain a few days or weeks. On Saturday last there were 1377 trunks and valises received per check at the railroad station at Ashbury Park. The seaside is a long way from Toronto, but for those who can afford it and like ocean bathing without chill after, and lively society without dissipation, we heartily recommend this place. TORONTO BY THE SEASIDE.

Give Them a Chance!

That is to say, your lungs. Also all your breathing machinery. Very wonderful machinery it is. Not only the larger air-passages, but the thousands of little tubes and cavities leading from them.

When these are clogged and choked with matter which ought not to be there, your lungs cannot half do their work. And what they do, they cannot do well.

Call it cold, cough, croup, pneumonia, catarrh, consumption or any of the family of throat and nose and head ails, lung obstructions all are bad. All ought to be got rid of. There is but one sure way to get rid of them. That is to take Boschee's German Syrup, which any druggist will sell you at 75 cents a bottle. Even if everything else has failed you, you may depend upon this for certain.

Photography.

—Everyone nowadays possesses a photo, if not of themselves, of their friends. The art has reached almost perfection, and specially may this be said of the first-class productions of Mr. Lemaitre, 324 Yonge-street. A visit to his studio will well repay the exertion, even during the dog days. All who desire a photograph in really high class style and finish should patronize Mr. Lemaitre, whose reputation is so well known. 36

—The tonic and alterative properties of Ayer's Sarsaparilla are too well known to require the specious aid of any exaggerated or fictitious evidence. Witnesses of the marvelous cures effected by this preparation are to-day living in every city and hamlet of the land. 4

Summer Beverages.

—Claret at $2.50, $4.00, $5.00 per case; also a large stock of Hogarth's celebrated fine juice cordial, Montserrat's lime fruit juice, Morton's raspberry vinegar, Sheriff's lemon fruit for lemonade, Schwepp's English soda, Appollinaris water, seltzer, ginger ales, lemon, cream and plain sodas, etc., etc. Hars & Co., family grocers and wine merchants, 220 Queen-street west. x246

—The remedy which most successfully combats malarial disorders is Ayer's Ague Cure, it is a purely vegetable compound, and contains neither quinine nor any other dangerous ingredient. Warranted to cure chills and fever. 4

The Leading Wholesale Cigar House.

—One of the finest brands of imported cigars to be had in Canada may be found at Mr. Chas. Lowe's, 469 Front-street east. A specially fine assortment of the leading lines of domestic goods at manufacturers prices. Mr. Lowe doing only a wholesale trade, retail cigar dealers will find it to their advantage to call and select from his large stock. 246

Up Aloft.

—The new and latest picture and in novel style is to be had at Shannessy & Hall's, 238 Yonge-street, the popular photo gallery. Sailors' suits on hand, free for children. 246

Diamonds.

Cash paid for second-hand diamonds, rubies, sapphires and other precious stones. Diamonds bought and sold on commission. Wolfe Bros. & Co., 5 Leader-lane, Toronto. 6

—Lawn and camping tents, chairs, beds, tables, etc. We are selling off our stock of camping goods at greatly reduced prices. Call and see us. SUA & CO., 49 King-street east. 246

A Tip to the Public.

—When you go to buy dry goods go to a dry goods store. When you go to buy a pair of boots go to a boot and shoe store. When you go to have your clothes cut for a good fitting suit certainly go to tailors who understand that branch of business. Reason tells that no man can be perfect in many trades. Gibson & Coulter are practical tailors. They keep a full stock of woolens to select from; their prices are moderate, and their fit, style and workmanship are right. You will find them at 249 Yonge-street, and only there. Call and see them. 246

The General Decision

—Of all American tourists and resident Canadians, in particular they have all tried the various brands of cigars manufactured in America and Cuba (Havana), and now come to the conclusion that there is none made to equal the Brave Boys and General Middleton brand manufactured by W. E. Dobson, Toronto. The manufacturer challenges anything on the continent for quality, fine flavor and aroma. 246

Excelsior! Walker.

The shades of night were falling fast,
When through Toronto's streets there passed
A youth, who gripped just like a vise,
A banner with the strange device,
"WALKER."
His brow was wind, his eye beneath,
Flashed like a falchion from its sheath;
And like a large tin trumpet rung
The accents of his well known tongue,
"Arrah! WALKER."

"Oh, stay," the policeman shouted out,
"And tell us what it's all about."
The youth just winked his off side eye,
And whispered with a gentle sigh,
"It's WALKER."

The man who runs the peanut stand
Cried, "Youth! wherefore that smile so bland?
"Excelsior used to be my line,
"But now I've got a new design,
"It's WALKER."

I'm tired of climbing mountains steep,
My latest scheme is much more deep,
Excelsior was but a dream
Till made an advertising scheme
For WALKER.

Furniture, clocks, carpets, stoves, bedding, dry goods, cutlery, baby carriages, mirrors and pictures, furnished on Easy Weekly or Monthly Payments, to suit your convenience. No security required. Immediate possession of goods. Thousands in the city have tried our system of doing business and express thorough satisfaction. We should like YOU to favor us with a call.

Walker's Weekly Payment Store,
107 1-2 Queen-st. West.
