RAILWAY ITEMS.

The Railway Age has a long article on the causes for the dullness in Wall-street, including the withdrawal of capital to the various trusts, the loss of leaders by death and withdrawal, the listing of over four thousand millions new securities since 1880, the bucket shops, the commissions and "washing."

The bill which passed the United States House of Representatives late last week provides for the forfeiture of 54,323,996 acres of lands, of which the Northern Pacific loses 36,907,741 acres, the Chicago, St. Paul, Minneapolis and Omaha 1,446,400, St. Paul, Minneapolis and Manitoba 1,113,600, California and Oregon 1,740,000, Oregon and California 2,086,400, Southern Pacific 4,147,200, Wisconsin Central 464,480, Southern Minnesota extension 832,115, Lacrosse and Milwaukee 195,724.

The Grand Trunk of Canada intends to pull out of the dressed beef war, and threatens to advance rates on Monday next to 30 cents. Unfortunately the other roads cannot follow suit because there is a clause in the Interstate Act which will preclude them from putting such intentions, if they have any, into execution. The law requires ten full days' notice of any advance in rates. Certainly at 13½ cents there is no money, but an actual loss of 15 cents on every 100 lbs. of such freight carried. Perhaps the Grand Trunk people feel as Commodore Vanderbilt did when he went up to Nyack with his brother Jacob, some years ago to buy up a rival boat line. It was mid-day when he found himself on board the opposition craft where the skipper and crew were at dinner. The Commodore took less than a minute to size the thing up, and on finding his brother, said, "Jake, let's pull our boat off. Darned if I can fight salt cod and crackers." The Grand Trunk has evidently come to the same conclusion, but the diet it refuses is still acceptable to the Erie and the other roads.—Wall-street News.

"By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well-selected Cocoa, Mr. Epps has provided our breakfast tables with a delicately flavored beverage which may save us many heavy doctor's bills. It is by the judicious use of such articles of diet that a constitution may be gradually built up until strong enough to resist every tendency to disease. Hundreds of subtle maladies are floating around us ready to attack wherever there is a weak point. We may escape many a fatal shaft by keeping ourselves well fortified with pure blood and a properly nourished frame."—Civil Service Gazette.
