SON OF DEAD CONVERT SUES FOR $300,000

Brings Action Against Theosophic Colony—Asks For Accounting of $700,000 More.

NEWCASTLE, Pa., Sept. 19.—George L. Patterson, vice-president of the National Bank of Lawrence County, has sued Mrs. Katherine Tingley, head of the theosophist colony at Point Loma, Cal., to recover $300,000 from the estate of his mother. He also asks an accounting for $700,000 more. His mothers, Mrs. Harriet P. Thurston, was a member of the colony, and charges of undue influence on the part of Mrs. Tingley are the basis of the suit.

It is charged that in furtherance of a conspiracy, Mrs. Tingley placed assistants in constant contact with Mrs. Thurston, and that they impressed upon the dying woman the doctrine that the people of the world should constitute one universal brotherhood; that the family ties were to be regarded as of minor importance, and that her three children were not entitled to any great part of her fortune.

The Patterson family is one of the oldest and wealthiest in Lawrence County. The Patterson fortune was founded by William Patterson, a banker and iron merchant of Newcastle, who died five years ago. Several members of the family still reside here and move in exclusive society circles.

Patterson amassed a fortune of $3,000,000. He twice married, having three children by the first marriage and three by the second marriage, one of the latter being the plaintiff in the suit.

When Patterson died he left a stated amount to his widow. The sum was less than Mrs. Patterson was entitled to under the law and she refused to accept it. The case was compromised, Mrs. Patterson taking one-third of the estate. With $1,000,000 in her own right, Mrs. Patterson went to San Diego. There she became acquainted with members of the theosophic society and was given a position in the society which her wealth had the right to command. Her affiliation with the new cult raised a barrier between herself and the family.

Relatives and friends were shocked when they learned the white haired woman of 68 years was to marry Clark Thurston, formerly of New York and Philadelphia, of the theosophic society. Mrs. Thurston settled $200 a month on her new husband.

The latter part of July George L. Patterson received a telegram stating his mother had died at the home of Mrs. Catherine Tingley, Newburyport, Mass. No member of the family had any tidings of Mrs. Thurston's illness. Patterson hastened east. All arrangement had been made for the funeral, and as soon as he arrived at Newburyport the body was creamated. Mystery surrounds the cause of death.

When the will was opened it was found $150,000 had been willed to Mrs. Tingley.

Patterson an dan attorney went to San Diego to investigate the estate and Mrs. Thurston's connection with the society. They discovered that there remained of the estate only $150,000, over and above the amount willed to Mrs. Tingley. No trace could be found of $700,000, the difference between the value of the estate at the time of Mrs. Thurston's death and the amount she had when she went west.

AN AMBITIOUS PROJECT

Aeroplane Tour From Boston to Los Angeles Postponed.

BOSTON, Sept. 19.—A tour by an aeroplane from Harvard aviation grounds on the Atlantic coast to the Los Angeles driving park on the Pacific coast is formally proposed in a letter just sent to the National Council of the Aero Club of America by Chas. J. Glidden.

The tentative plan for the contest, as outlined by Mr. Glidden, embraces a daily flight of approximately 200 miles, with stops at Saratoga, N.Y., Syracuse, N.Y., Buffalo, N.Y., Akron, Ohio, Fort Wayne, Ind., Chicago, Springfield, Ills., St. Louis, Kansas City, Mo., Hutchinson, Kas., Syracuse, Kas., Sante Fe, N.M., Fort Apache, Ariz., Phoenix, Ariz., Yuma, Ariz., Los Angeles, Cal.

Revolt Against Balfour?

In a London cable to The Times, T. P. O'Connor, Nationalist M.P., says:

The political truce is now definitely at an end. The impatience of the Tory high tariff section is breaking thru all bounds. Members of this faction announce thousands of meetings, especially in the open air, to reach the villagers and the masses of the people in the next few months. This movement is largely due to the growing rebellion against Mr. Balfour's leadership, because of the suspicion that he is lukewarm on the tariff question. The importance of this revolt at the present moment is that it weakens Mr. Balfour's hands in the negotiations with the Liberals on the question of the veto power of the house of lords, and makes it more difficult for him to adopt a reasonable compromise.

Mr. Balfour now knows that many, if not the majority of his own followers, are looking eagerly for an opportunity to knife him, and if he make any concessions which the high Tories regard as too extreme this section would create a revolt and disrupt his party. Thus, at the same moment, in America and England, the tariff threatens the unity, and even the existence, of a great political party.

This attitude on the tariff on the part of the Tories is made the more remarkable by contrast with the attitude of the Liberals. Not a single Liberal journal or newspaper has said a word for weeks, if not months, of impatience or distrust of the Liberal negotiators. This, again, means that the Liberals have a much freer hand in dealing with the negotiations. All the events of the present week seem to justify Mr. Balfour's grim prophecy that gibbets were outside the door of the conference room for the eight negotiators, except that the Liberals appear to stand a better chance of escaping the gibbets, having now a much more rational and united party behind them.

Melba's Piano.

King-street passers-by are showing a large share of interest in the beautiful grand piano on exhibition in the window of ye olde firme of Heintzman & Co., Ltd., 115-117 West King-st., the piano that is to be used by Melba—at her concert in Massey Hall to-morrow (Wednesday) evening.

Q. O. R. Recruiting.

Recruit classes for the Queen's Own Rifles opened last night at the armories, and will be continued on Monday, Wednesday and Friday evenings, until further orders.

WANTS APPROPRIATION TO FORTIFY THE CANAL

President Taft Believes the Time Has Come To Commence the Work

BEVERLEY, Mass, Sept. 19.—Before leaving Beverley for Boston to-night by automobile to take the midnight train for New Haven and Cincinnati, President Taft announced that in his message to congress in December he will recommend an appropriation of $2,000,000 to begin the work of fortifying the Panama Canal. Mr. Taft has always favored the protection of the canal with great guns, and he thinks the time has arrived to begin the work.

The president will also recommend two new battleships of the Dreadnaught type. Mr. Taft does not believe that the economy plans should preclude the construction of at least two battleships a year until the Panama Canal is completed. He believes that the canal will have the effect of doubling the efficiency of the navy, and that after it is in operation the building of new battleships can be cut down to one a year.

ARSENIC IN FLOUR BARREL

Twelve Poisoned by Biscuits and Former Servants Arrested.

NEW YORK, Sept. 19.—On a charge of poisoning twelve persons, one of whom may die, by throwing arsenic into a barrel of flour in daily use in the home of William L. Searles at Darien, Conn., Pierre Heritier, a butler, and Honorine Heritier, his wife, a chambermaid, were arrested in this city last night.

They were formerly servants in the Searles household and were discharged on Sept. 6 on account of the uncleanly habits of the husband. They left the place at 3 p.m. and that night during dinner Mr. and Mrs. Searles, three guests, and Ida Pinnow, the cook, were taken violently ill.

They had given a dozen biscuits, baked for dinner, to a Mrs. Harrison, the laundress, and she had taken them home. Investigation at the Harrison home brought out the fact that she was violently ill in bed, and that a neighbor's family, which had been called in to attend her, had been asked to share the biscuits. Of this family, three members had eaten of the poisoned biscuits, as had Mrs. Harrison's 5-year-old son, and all were ill.

Just what evidence the police have against the discharged butler and his wife they refuse to divulge, but Chief Brennan of Stamford, Conn., at whose instance the arrests were made, said there was plenty of evidence to convict.

THROWS DOWN GAUNTLET

Roosevelt Challenges Opponents to Fight Out in the Open.

SYRACUSE, Sept. 19.—Coming into a stronghold of the opposition, ex-President Roosevelt Saturday boldy challenged the opponents of his political doctrines to come out in the open and fight if they dared. He prophesied that if they did they would be beaten.

The former president also gave warm commendation of President Taft as a public official, and expressed his approval of a number of the accomplishments of the Taft administration. Col. Roosevelt did not endorse the administration as a whole. What he did have to say, however, placed him on record for the first time in regard to many of the most important features of it, breaking the silence which he has maintained steadfastly on the subject except for his few brief references to his successor while he was on his western trip.

He also defended his recent criticisms of two decisions of the United States supreme court, made in a speech in Denver, and quoted the words of William H. Taft, written when he was a judge, to support his contention that the people have the right to criticize decisions of the courts.

AEROPLANES MADE GOOD

France Proves Their Value for Scouting Purposes in War.

PARIS, Sept. 19.—The foreign and military attaches returning to Paris from the French army manoeuvres, are loud in their praises of the scouting and other exploits of the aeroplanes. "France has proved," said Major Mott, the American attache to-day," that the aeroplane in competent hands, is worth a thousand men for scouting purposes in war. Conditions will be profoundly modified by the advent of a 'fourth arm.'"

The British attache, in speaking of the achievements of the army, said: "France has given the world a lesson. England will be the first nation to profit by it."

Useful for Night Scouting.

GARDEN CITY, N.Y., Sept. 19.—Tod Shreiver, former chief mechanic for Glenn H. Curtiss, made an American record for flying by moonlight to-night, covering 31¼ miles in 49 minutes. The flight was made at the request of a committee from the newly organized United States aeronautical reserve.

"I am now convinced of the practicability of aeroplanes for night scouting," said Mr. Shreiver, "and that they are essential to any modern government equipment. No searchlight could possibly have followed me to-night and every large object under me was plainly visible."

RETIRED FROM OFFICE

Superintendent of Printing Has Been Superannuated.

OTTAWA, Sept. 19.—(Special.)—W. C. McMahon, superintendent of printing at the government bureau, has been superannuated, following the enquiry into the printing bureau scandals. Mr. McMahon went to the printing bureau in 1890, and was appointed assistant King's printer, controller of stationery and superintendent of printing on Sept. 1, 1908. He was born in 1856.

A Bad Actor.

Heavily shackled, James Courtright, a big negro, wanted in Chicago for rape, was taken out on the 2 o'clock train yesterday by Detective Sergeant Russell of the Chicago force. He had escaped at the time of the crime by shooting a policeman.

Accidentally Killed.

CORNWALL, Sept. 19.—While working in the lumber woods near Cloquet, Minn., Dan McDougall, son of the late John Ridley McDougall, and brother of the late Alex. McDougall, lot 32, concession 9 of Lancaster, Glengarry, was accidentally killed.

March	13.12	13.00	13.06	12.96	12.97
May	13.14	13.05	13.09	13.02	13.02

Spot cotton closed quiet, 15 points lower. Middling uplands, 13.75; do., gulf, 14.00. Sales, 166 bales.

Cotton Gossip.

Erickson Perkins & Co. had the following at the close:

The local cotton market developed an easier tone to-day, influenced by weak Liverpool cables, and prices worked off some 14 to 20 points, with bearish sentiment on the increase, as a result of the favorable weather conditions and larger receipts. Buying was limited to the covering of shorts. It is expected that marketing will be in full swing by the end of the week, and increased receipts are sure to mean an increased volume of hedging, which the market cannot absorb at present levels, unless the trade demand broaden rapidly. The lateness of the crop and fears of early frost will tend to steady the decline, and we continue to advise the trading position.

Died While Bathing Babe

WINNIPEG, Sept. 19.—A little child splashing merrily away amidst the soap suds of the bath tub a few feet away in the same room where the mother lay dead, was the tragic sight that met the eyes of the father, A. H. Thompson, 257 Garry-street, when he went upstairs to find out what was delaying her from starting on the pleasure jaunt arranged to Selkirk. She had died from heart failure while washing the infant.

Cobalt—Nipissing Directors Declare Dividend—Beaver and Hargraves Higher—Cobalt

Beaver and Hargrave Shares The Speculative Favorites

Occasional Flurries Develop in Mining Markets, But Trading as a Whole is Devoid of Interest.

World Office,
Monday Evening, Sept. 19.

Beaver and Hargraves were the only active issues on the local mining markets to-day, both these stocks scoring good advances on a bigger volume of transactions.

The market was devoid of news, and there was nothing in the day's developments to account for the flurry which was evolved during the morning session. Buying of Beaver was said to be inspired by the excellent reports from the north country as to the showings at the mine, while Hargraves was picked up in the belief that the stock would be put higher in the near future.

Beaver gained a full point over Saturday's quotations, the shares selling up to 31 1-4, but most of this advance was lost in the late trading.

The movement in Hargraves carried this issue up nearly two points to 28 3-4, which price was held up to the close, when the stock was bid for only fractionally below the best figure for the day.

With the exception of the two instances mentioned, there was nothing in the day's trading to call for special comment. Transactions in other sections of the list were of generally restricted volume, with prices holding about on a par with last week's close.

To-day's market gave clear evidence of the comparative uncertainty which rules in stock exchange circles in reference to the Cobalt mining issues. As soon as buying entered the market prices were advanced in the easiest possible manner, while values sagged back again of their own weight as soon as the demand was satiated.

Taken as a whole, the market was a dull affair, but underlying conditions are favorable to higher prices, and on this account a broader speculation is expected to develop.

BEAVER SHIPS ORE.

COBALT, Sept. 19.—The Beaver Cobalt Mining Co. has shipped out a car of high-grade ore to Copper Cliff. The vein struck at the 250-foot level is believed to be much better than was given out, but it is impossible to get any actual details in regard to the new strike.

NIPISSING DIVIDEND

Regular Quarterly Disbursement—Increase in Cash Surplus Shown.

Nipissing Mining Co. declared regular quarterly dividend of 5 per cent and 2 1-2 per cent. extra.

The financial statement of the Nipissing mines of Sept. 17 shows cash on hand and ore at the mines ready for shipment, en route and at the smelters, amounting to about $1,227,000. Compared with the statement three months ago, these figures show an increase in cash surplus of almost $200,000, notwithstanding that between June 20 and Sept. 20, $750,000 have been paid in dividends.

ANOTHER SHIPMENT

Of Gold Bricks From Havilah Mine in Algoma District.

Editor World: The Havilah Gold Mines management have made another shipment of four gold bricks, aggregating over twenty pounds. This makes about 35 pounds in all that have been saved from the refuse left by the old company. The 20-stamp mill will be in operation soon, and as there is ore enough in sight to keep the mill running for two years, the company expect good results.

This mine is not in Rainy River, as you stated in a former issue, but is in Algoma district, about 25 miles from Thessalon. There are numerous properties in the neighborhood of Thessalon which have good showings and the cyanide process is going to solve the problem of saving the gold values.

Subscriber.

HEIKE GETS EIGHT MONTHS

"Man Higher Up" in Sugar Underweighing Fraud Sentenced.

NEW YORK, Sept. 19.—Charles R. Heike, former secretary and treasurer of the American Sugar Refining Company, who has been called "the man higher up" in the Sugar Trust, was sentenced to-day by Judge Martin, in the United States Circuit Court, to serve eight months in the New York State Penitentiary on Blackwell's Island, and pay a fine of $5000, on conspiring to defraud the United States Government by the underweighing of sugar.

A Son's Farewell.

Magistrate Ramsden yesterday ordered Arthur Hiscox to keep away from his mother's house at the Humber.

"Goodbye, my boy, I don't want you to come to my house any more," she said, but she shook his hand as he left the court room.

MAIL SERVICE IS POOR INTO PORCUPINE CAMP

Toronto Letters a Week on the Road—General News of the District.

PORCUPINE, Sept. 13.—(Special.)—The mail service that we are getting is very bad, letters from Toronto taking on an average a week to reach us, while a person can make the trip from Toronto right into the camp in 36 hours. The mail is sorted at Matheson instead of on the train, and in this way a whole day is lost. The service is so poor that the Dome Mining Co. keeps three of its own men on the road all the time carrying mail, and in this way they get a mail delivery every day.

The camp is progressing rapidly from a mining standpoint. Each day some new find is reported, and only to-day the Dome people made a rich strike. In Shaw and Deloro, known as the Timagami Reserve, visible gold has been discovered recently. A find of gold was made a few days ago away out in Carscallen Township, north of what is known as the Cripple Creek area, on the Matagami River. Last week gold was panned out of the sand on one of the claims in Tisdale, and this is the nearest thing to placer mining that has been found in the camp.

There has been quite a rush of prospectors lately, who are coming in to do their assessment work, but the town itself does not show any increase of population. Building operations are practically at a standstill, owing to the fact that no lumber is to be had, and the day of log building here is passed. Many lots in the different townsites are being sold, and altogether business is getting better all the time.

The trail into Porcupine, only seven miles in length, not including the water ways, is rapidly changing into a road, the prisoners having completed about half of the distance. Provisions are being brought up the Porcupine River in gasoline boats and canoes, and passengers are traveling this way as well. A number of women have come in over the trail; some to live here while others are only visiting.

We have been visited by royalty, yesterday the Earl of Albemarle, cousin to the late King Edward VII., registered at the Shuniah Hotel.

QUEEN ALEXANDRA'S TOUR

Leaves This Week on a Visit to Copenhagen.

LONDON, Sept. 19.—Queen Alexandra's journey to Copenhagen will be made this week, and she will be back at Buckingham Palace in the middle of October.

There was no English precedent for the title of queen mother, whatever may have been the continental custom of designating the queen dowager. She did not like the title after it had got into the new prayer books, and accordingly it was dropped in the court circular and the newspapers. She has preferred to be known as Queen Alexandra, and King George and Queen Mary are delighted to gratify every caprice. She will not attend the court functions next year, but will have a special chair at the coronation.

Queen Alexandra will be attended on her journey abroad by the faithful Charlotte Knollys and Sir Arthur Davidson.

STRIKE IN ARMENIAN CHURCH

Congregation Will Stay Away Till Defrocked Priest is Restored.

NEW YORK, Sept. 19.—Five hundred Armenians of New York are to-day engaged in a "strike against God," a term applied by Miran Sevasly, an Armenian lawyer. The "strike" is to force the primate of the Armenian Apostolic Church in the old country to restore to Father Martougesyan his frock, which was taken from him when he was convicted of attempted extortion in the name of the Hunchakist Society three years ago and sentenced to Sing Sing.

Those who have joined the "strike" have sworn to give up communion in the faith, stay away from all services, and refrain from having any of their children baptized until the convicted priest shall have been restored.
