FIRST MEETING OF NEW COUNCIL

NEWLY-ELECTED MAYOR AND ALDERMEN GATHER FOR FIRST MEETING OF 1911

The new council met for the first time last evening. The chair of the presiding officer, lately filled by Mayor Lee was taken by his successor in office, Mayor Armtrong. The recently elected aldermen, J. E. Lundy, Dr. H. L. McInnis and J. H. McKinley, who were members also of last year's council, and Thos. Grindley and Geo. Gowan, who sit on the council for the first time, were present, together with J. D. Hyndman, J. W. Mould and J. H. Miller, representatives of last years' council.

The desk occupied by Ald. Grindley was graced with a beautiful bouquet of red roses and maidenhair fern, sent by some admirer or admirers as a compliment to him on his assumption of office.

Mayor's Inaugural Address.

His Worship Mayor Armstrong opened the meeting with the reading of his inaugural address. It was a matter for congratulation he said, that all the members of the old council who sought re-election had been returned to office, a fact which might be taken as an expression of confidence and approval on the part of the electors in the administration of the previous year.

His Worship then emphasized the responsibility which rested upon them as the elected representatives of the citizens. It would be their duty, he said to familiarize themselves with the operations of each of the several departments, in order that their actions as aldermen might be in the best interest of the city, and it would be the duty of the superintendents of departments to furnish them upon request with such information as they desired.

To Watch Construction.

While construction was in progress he would ask them to visit the sphere of operations frequently in order to satisfy themselves that the city was receiving faithful service.

Everything possible should be done, he continued, to create and maintain harmony, loyalty and good fellowship between the members of the council, the commissioners, and the heads of departments. If at any time this condition did not prevail it would be necessary for them to enquire where the blame, if any, rested, and fo suggest remedies.

Complete Unfinished Work.

With reference to the work of the year it would be wise not to undertake too much construction, especially in street railway extensions, but rather to complete and bring to a state of efficiency that which had been begun and was still unfinished. As the construction season was short the work of the departments must be prepared at once. Everything must be done at the power station to ensure the efficiency of that portion of the city's utilities. They must increase at once the pumping and electrical energy supply. It should be their constant care to see that the demand for waterpower or any other utility should not exceed the supply.

The attitude of the city of Strathcona indicated that the present time was opportune for the consideration of the amalgamation of the two cities and in this matter His Worship felt sure that there would be union and co-operation on the part of the council.

A Period of Growth.

Conscious as they were that the city was entering upon a period of unexampled prosperity and growth they would recognize that they had undertaken an arduous and important work, and he trusted that their duties would receive prompt attention, and would be discharged without fear, favor or prejudice.

The following standing committees were appointed:

Finance and Assessment Committee: Dr. H. L. McInnis, J. D. Hyndman and J. H. McKinley.

Public Works—J. W. Mould, J. H. Miller, and Thos. Grindley.

Parks—J. E. Lundy, J. D. Hyndman, Geo. Gowan.

Legislatives—J. D. Hyndman, Dr. H. L. McInnis and J. W. Mould.

Industrial—J. E. Lundy, T. Grindley and J. W. Mould.

Special—J. H. McKinley, Geo. Gowan, J. H. Miller.

Hospital—Mayor Armstrong, J. E. Lundy and Dr. H. L. McInnis.

Exhibition Committee—R. J. Manson, J. B. Lubbock, Geo. Hunter, Mayor Armstrong, J. E. Lundy, J. H. McKinley, Geo. Gowan and Thos. Grindley.

Apply for Gas Franchise.

A communication was received from C. S. Eaton, reresenting The International Heating & Lighting Co., of Cleveland, Ohio, requesting an opportunity to present to the council a proposition for the construction and operation of a gas works in the city. Enclosed in the letter was a receipt from the Merchants Bank for the sum of $5,000, deposited with them in trust to serve as a pledge of good faith while negotiations are in progress. Mr. Eaton also stated that in the event of an agreement being reached the company would provide such security as might be agreed upon, to guarantee the faithful performance of the terms of the contract.

Several of the aldermen declared themselves in favor of hearing the proposition. Ald. Hyndman, while agreeing that the representative of the company should have the opportunity of presenting their proposition to the council suggested that in view of the fact that up to the present the city had retained control of all public utilities, no franchise should be given without careful enquiry. If gas was needed he thought it might be well before giving a franchise for its manufacture to ascertain whether it might not be advisable for the city to establish and operate such a plant as a public utility. A similar view was taken by Ald. Grindley.

To Hold Special Meeting.

It was finally decided to hold a special meeting of the council to receive Mr. Eaton's proposition. The meeting will be called by the Mayor at an early date.

The request of representatives of the Victorian Order of Nurses that the annual grant for the maintenance of a nurse of the Order in Edmonton to minister to the needs of sick persons otherwise unable to afford to pay for the services of a trained nurse, be increased from $25 to $50, was referred to the commissioners and the finance committee to report at the next meeting. During the ten months since the appointment of the nurse she has nursed 150 patients. The total number of visits made was 1,095. The number of medical cases was 76, the number of maternity cases 60, and of surgical cases 17. OfO these 40 had paid small fees and 116 paid nothing.

Grant of $500 to Bonspiel.

A grant of $500 was made towards defraying the expenses of the provincial bonspiel, to be held January 18th to 28th. A. C. Fraser, who addressed the council on behalf of the bonspiel committee, stated that it would be the second largest event of its kind in the West, and as it would bring some 300 curlers with their friends from all parts of the West, could not fail to benefit the city.

The request of the Carruthers Co. for permission to build a roof on their warehouse on First street, recently damaged by fire, came before the council, who were addressed on behalf of the company by C. F. Newell, of the firm of Emery, Newell & Bolton. The building is a frame structure and is within the first-class fire limits, and the permit has been refused by the building inspector. The matter was referred to the building inspector with instructions to submit a written report.

Auditor Re-appointed.

C. L. Richardson was re-appointed auditor for the year 1911. The resignation of W. E. Grierson as market clerk was received and accepted, to take effect on January 31st, 1911.

The request of the P. Burns Co. for permission to put a spur from the C.N.R. barns into their property on River Lot 3, was referred to the engineer and commissioners for report.

Some discussion arose over the work of the building inspector's department, and the matter was referred to the public works committee, composed of Aldermen Mould, Miller and Grindley, with instructions to make a report on the extent and limit of the duties of this department.

The report of the commissioners recommending the purchase from the Hudson's Bay Company of a strip of land comprising approximately 2.55 acres, adjoining the power plant, to be used by that department for the storage of coal, for the sum of $3,000 per acre, was adopted and the purchase authorized.

A committee composed of Aldermen Lundy, Grindley and Hyndman was appointed to meet the commissioners once each week to discuss street railway matters with them.

Alderman Miller stated that he had seen several street cars in operation without the necessary fenders at the front of the car. Commissioner Bouillon said that the department had instructions that any person responsible for the operation of a car which had not this appliance attached would be immediately dismissed. The commissioners, he said, would make enquiries and take action accordingly.

CROP RETURNS SHOW DECREASE IN VALUES

Adverse Effect of Drouth and Heat is Seen in Annual Crop Returns for the Dominion — Comparison With 1909 Shows Decreased Acreage and Value.

Ottawa, Dec. 30.—The bulletin of the census office issued today gives the total area of field crops grown in Canada this year as 32,711,062 acres, and the value of crops as $507,185,500, compared with 30,065,556 acres and a value of $532,992,100 last year.

Wheat, oats and barley had last year a total area of 18,917,900 acres with a value of $289,144,000, and this year with an area of 20,992,900 acres the value is only $218,738,300. The decrease in value is $40,405,700, which is $14,599,100, more than the decrease for all field crops, and a lower production of 18,591,000 bushels of wheat, 58,686,000 bushels of oats and 9,981,000 bushels of barley through drouth and heat in Manitoba, Saskatchewan and Alberta from an area sown greater by 1,957,300 acres, accounts for the whole loss.

A Slight Decrease.

The crops of rye, peas, buckwheat, mixed grains and flax had this year an area of 1,793,385 acres, and a value of $28,768,000, compared with 1,487,611 acres and a value of $26,707,000 last year. Hoed and cultivated crops, comprising beans, corn for husking, potatoes, turnips and other roots and suger beets, have fallen off in both area and value, are this year being 1,137,417 acres with a value of $68,006,200, compared with 1,180,095 acres and $69,737,500 last year.

Fodder Crops.

Fodder crops, which include fodder corn with hay and clover, show for this year an area of 8,787,360 acres, an a value of $161,673,000, compared with 8,479,950 acres and $147,403,200 last year.

The production of fall wheat is 16,610,000 bushels; of spring wheat, 133,379,500; of oats, 823,449,000; of barley, 45,147,600; of rye, 1,543,500; of peas, 6,538,100; of buckwheat, 7,243,900; of mixed grain, 19,433,600; of flax, 3,832,000; of beans, 1,177,800; of corn for husking, 18,726,000; of potatoes, 74,048,000; and of turnips and other roots, 93,206,000 bushels.

The yield of hay is 15,497,000 tons; of fodder corn, 2,551,000; and of sugar beets, 157,000 tons. The yield of wheat, oats and barley this year in Manitoba, Saskatchewan and Alberta is 277,021,000 bushels, compared with 364,279,000 bushels last pear.

The Provinces.

Compared with last year, the value of field crops in Prince Edward Island is $9,988,100 to $9,273,900; in Nova Scotia, $21,202,000 to $22,319,300; in New Brunswick, $18,959,000 to $18,150,900; in Quebec, $97,107,000 to $90,071,000; in Ontario, $204,022,000 to $200,398,000; in Manitoba, $55,206,000 to $74,420,500; in Saskatchewan, $84,138,400 to $97,677,500; and in Alberta, $16,582,000 to $20,741,000.

Constipation is the cause of many ailments and disorders that make life miserable. Take Chamberlain's Stomach and Liver Tablets, keep your bowels regular and you will avoid these diseases. For sale by dealers everywhere.

FORCED PAYMENT OF THE MONEY AND SUED

The Evidence Before Judge Snider, in Woodstock, Ont., is of a Startling Nature—Refused to Return Commission When Asked.

Woodstock, Ont., Dec. 31.—The payment of $340 to M. Buchanan, as a commission upon the sale to Oxford County of two road rollers, was sworn to this morning at the investigation before Judge Snider, of the J. I. Case Co. The complainant, J. Thayer, manager for Western Ontario for the company, made the accusation against Buchanan. He told of visiting the ex-warden in his office at Ingersoll, where he received the impression that unless a 10 per cent. commission went to Buchanan the sale by the company would not go through. The sale was later made, but for some time the commission was not paid.

Then one day Mr. Thayer received word that the road achines had got out of order. He went to Ingersoll, and out to the road where the rollers were stationed. He found them in bad shape, having apparently been tampered with. Before returning to Toronto he had a talk with Buchanan, when the latter told him that if the commission was not paid the road rollers would be shipped back to the company.

Thayer then told of taking $340 to Ingersoll and paying it to Buchanan on an agreement purporting to be on the sale of an automobile. This was, according to Thayer, drawn up to cover the real transaction. Later, the lawyers of the company demanded the return of the commission. Buchanan refused, and an action was brought. Before the case was entered Buchanan settled by paying the $340 and costs.

WISTE.

The Bulletin News Service—Wiste is a country post office in a store situated in sec. 16, T.33, R.730, of 4 m. The surrounding country is a beautiful level plain and the soil fertile. The writer has travelled over quite a lot of Alberta and part of Saskatchewan, and has seen no district more suitable for mixed farming given ordinary atmospheric conditions. The greatest drawback so far is distance from a railroad town, Castor being 65 miles northwest and Provost 60 miles northeast. That, however, is likely soon to be remedied as the C. P. R., G. T. P., C. N. R, and Alberta Central all propose putting in lines, none of which will be far away from here. The fuel problem has also been a little difficult, Sullivan lake mine, fifty miles away being the nearest. But with the advent of railways that disadvantage will be overcome. The store is owned by Leaf Bros., and is managed by Mr. Carl Leaf.

A quiet wedding took place last Tuesday at the residence of Mr. Wes Caswell, when his sister, Miss Maggie was united in marriage to a neighbor Mr. A. Hennan. The ceremony was performed by the Rev. Mr. Smith, Methodist minister of this district, no one but the near relatives being present. The happy couple left next day for Castor, where they took the train for Nanton, Alberta, the former home of the bride.

Mr. Vince Daley left last week for Red Deer where he intends spending the winter.

The erection of the Broadview school, three miles north of here, is progressing favorably.

A very successful Christmas entertainment took place in Willow Brook school, ten miles northeast of here, last Friday night.

The Presbyterian service held at the residence of Mr. A. C. Brown on Christmas day was well attended. Service will be held there by the Rev. Mr. Murry every second Sunday.

Mr. A. E. Comstock leaves this week for Nanton, where he will spend the winter with his brother.

Mr. Henry Mackay left two weeks ago to spend the winter with his mother in Ottawa, Ontario.

Mr. Albert Halseth is spending a few weeks with his brother Matthew.

A social dance was held at the residence of Mr. Vivian Mackay on Monday evening (26th). A very enjoyable time was spent. Among those from a distance were: Mr. and Mrs. H. A. Sanderson, Miss Nolan, Mr. Waystaff, Mr. Thomson, Mrs. McGee, Mr. and Miss Gilman, Messrs. T. and D. Anderson, from Sandeville and Mr. Luke Gilfoyle from Vallejo.

Dec. 29th.

WILL PLAY WITH NELSON.

Patrick Boys Will Remain in Home Town, Where Strong Club is Formed.

Nelson, Dec. 31.—Reports from the east that Lester and Frank Patrick, the two hockey stars, would play for eastern teams this winter, were definitely contradicted last evening by the organization of the Nelson Hockey Club, with Lester as manager and Frank a member of the executive.

Both have decided to play with the Nelson team, which will be heard of in western hockey this winter. In addition to the Patrick brother, Harry and Archie Bishop, two well known stars, will play, Harry being captain of the team. J. F. Thompson and L. R. Steele, two others of this historic seven who played two years ago for Edmonton, are on the executive and will also take the ice. A strong hockey league is being formed in the boundary country and is importing players and with large rinks in the Kootenay, all the clubs are developing strongly.

Brodeur Will Not Retire.

Ottawa, Dec. 10—Hon. L. P. Brodeur denied the report that he will shortly retire from the cabinet to become chief justice of the Superior Court of Quebec.

AN INTERNATIONAL TRIBUNAL.

For Commerce Says J. P. Mabee in Washington.

Toronto, Dec. 30.—A special from Washington this morning says "A treaty between the United States and Canada, establishing an international commerce tribunal, which shall have jurisdiction over all railroads crossing the boundary line, will in all probability be drawn up in the immediate future, according to a statement made by J. P. Mabee, chairman of the Dominion Railroad Board.

"Within the next twenty-four hours," said Judge Mabee, "I believe that our labors will be completed, and Mr. Knapp and myself will be in a position to lay before our respective governments a comprehensive plan for the establishment and operation of a permanent tribunal, which will be able to cope with the situation that confronts both shippers and carriers at the boundary line."

MOVING WITH FAMILY INTO GRANDE PRAIRIE

W. C. Dillon, Formerly of Kendrick, Idaho, Leaves for the North, Travelling by the Old Route, Via Athabasca Landing.

W. C. Dillon, formerly of Kendrick, Idaho, leaves in the course of two weeks for Grande Prairie, where he has located close to the Wapiti river. Mr. Dillon went through the country last summer and on returning decided to sell out his stock and cast in his lot with the north country.

Mr. Dillon arrived in town some days ago with his family and has been outfitting for his long trip. He has decided to travel the old route, by Athabasca Landing and Slave Lake, in preference to the Medicine Lodge road, for several reasons. The freight rates between here and Medicine Lodge are 28½ cents per hundred, which is rather high when teams and sleighs are included. In addition, there is no means of outfitting at Medicine Lodge, and beyond that point there are no stopping places and very little feed, which is absolutely necessary. Consequently he has followed the adage of "the longest way round." Each team will draw 5,000 lbs, with some hundred pounds of oats in condition.

IS AWARDED DAMAGES

Foreman Secures $1,271 In Action For Wrongful Dismissal.

Winnipeg, Dec. 30.—Chief Justice Mathers today awarded Foreman Armstrong $1,271 in his action against the Tyndall Quarries for wrongful dismissal. Defendants set up the claim that they were justified owing to inattention and incompetency but His Lordship ruled that there was nothing to prove these charges and that the fact that they did not replace the plaintiff pointed rather to a desire to save his salary.

"THE KLONDYKE'S MOTHER LODE"

The storehouse from which the famous placer creeks, Bonanza and Eldorado, received their fabulous wealth, have been uncovered on the claims of The Victoria Gulch Mines, situated on the ridge at the head of Victoria and Gay gulches. The company's holdings consists of four quartz claims of about 200 acres 14 miles from Dawson on a good wagon road and two miles from the Klondyke Mines R.R. There are two true quartz veins, between perfect walls 6 and 10 feet wide on the property, the free milling ore from which is literally encrusted with the yellow metal. Read what some of the world's greatest authorities say:

R. G. McConnell, B.A., of the Geological Survey, says in his report on the Klondyke Goldfields:

"A sample in which no free gold could be detected with the naked eye, or an ordinary magnifying glass, was assayed in the laboratory of the survey and gave 2,625 oz. of gold and 3,267 oz. of silver to the ton."

Pro. Henry A. Meirs, D. Sc. F.R.S., Waynflete, Professor of Mineralogy in the University of Oxford, in collaboration with Professor A. P. Coleman in a report to the Minister of the Interior says: "At the head of Victoria Gulch which runs into Bonanza, a creek opposite Gay Gulch, a tributary of Eldorado, and at a height of about 2,300 feet above Dawson, has been opened, what appears to be a true quartz vein, showing nuggety gold in abundance. The gold is distinctly crystalline in character, and the crystals are of a peculiar form having a triangular outline due to the fact that they are octahedra, and in particular a remarkable variety known as "spinel twins." Now it is significant that the gold found in Victoria gulch is also crystalline and has the same characteristic outline, here then we have fairly convincing evidence that the gold found in a stream gravel is identical with that found in situ in a quartz at the head of the valley and in this instance there can be little doubt as to the origin of the gold."

Dr. Eugene Haanel, Director of Mines, a noted authority on mineralogy in a report to the department in 1902 says: "Masses of quartz were seen protruding from the surface all about the locality, and it needed only to wet the surface of the quartz with water to reveal the bright specks of gold adhering to their surface.

"Gay gulch and Victoria gulch, the former a tributary of Eldorado creek, the latter of Bonanza creeks, limit Victoria Hill toward the sources of Bonanza and Eldorado creeks. Above Victoria and Gay gulches, Bonanza and Eldorado creeks respectively are unproductive, below these gulches the creeks are rich. It seems a rasonable conclusion that the gold in these creeks, at least as far as they flank the side of Victoria Hill, was derived from Victoria Hill.

Mr. R. W. Brock, Director Geological Survey, says: "The district is not glaciated. Gold in the recent gravel freshly derived from its original source is similar to gold in the corresponding White Channel gravel. Many of the gold grains and most of the nuggets, enclose quartz. Quartz pebbles are found containing gold, some at least very rich in gold. The quartz of the boulders is similar to the quartz of the veins, and gold of the veins to gold of the gravels. From the foregoing and other facts, it is obvious that the gold is absolutely local in origin, derived from the basins of the pay gulches and creeks.

Fred T. Congdon, Member for the Yukon, stated on the floor of the House of Commons last January that some of the richest gold quartz in the world was being mined close to Dawson.

Just stop and think of the immense possibilities of rich returns from the development of the claims of The Victoria Gulch mines, when two miles of the Mother Lode runs through the property from which the $55,000,000 in placer gold has been already won from Eldorado and Bonanza creeks, the one-third the Klondyke's entire output. 100,000 shares of treasury stock of the par value of $1 is now offered for public subscription at 25 cents per share fully paid and non-assessable.

It is not expected that any further issue of treasury stock will have to be made.

SERIOUS EXPLOSION IN THE SYDNEY MINES

Eight Men in N. S. Steel Co.'s Colliery When Explosion Occurred. Three of These Are Accounted for.—Rescue Party Goes Down Into Mine.

Sydney, N.S., Jan. 3—A serious explosion occurred in the N.S. Steel Company's No. 3 colliery, Sydney mines, this morning. At the time of the explosion there were eight men in the mine, whose names are said to be: John R. McIntyre, Archie C. Ferguson, Hugh Dickson, Henry Purchase, Arthur Amy, James Bond and Luke Drivel. The two latter have been rescued and McIntyre has been brought from No. 14 level to No. 6, where attempts are being made to revive him. The rest of the men are in doubt. The lower level is full of after damp and the heat is very great. A heavy fall of the roof of 12 and 13 levels followed the explosion. There is thought to be a fire in No. 14 level. A gang of a hundred men have gone down as a rescue party.

Six Bodies Recovered.

Sydney, N.S., Jan. 3.—The bodies of six of the eight men entombed in the mine disaster of this morning have been recovered. The bodies were huddled together and so badly burned that it was impossible to recognize one from the other. Owing to the deadly gases, the rescuers were unable to reach the bodies of Ferguson and Purchase. Hundreds of people flocked around the mine and there were many heart-rending scenes. Had the fire started a few hours earlier there probably would have been hundreds of men caught instead of eight. The explosion took place when Ferguson and Purchase went into the mine with six men, making preparations for starting the mine. News of the disaster set the residents in a frenzy. Every effort is being made to recover the two bodies.

MABEE AND McLEAN ON BOARD.

Canadian Representatives on International Commerce Commission.

Ottawa, Jan. 3—The agreement which had been reached with regard to the information of the international commerce commission will be given effect to at once by way of a treaty between Canada and the United States. It will need to be ratified by parliament, which will also define the body concurrently with the United States Congress. Beside Chairman Mabee, it is believed that the other Canadian representatives on the joint board will be Commissioner McLean, who is recognized as an expert on the rate question.

LAMONT VILLAGE COUNCIL.

All the Members of Last Year's Board Re-Elected.

Lamont, Jan. 3—Nominations for village councillors passed off very quietly this evening. Mr. J. A. Joslin, secretary-treasurer, acting as returning officer. The retiring council consisting of John H. Reir, L. G. MacPherson and R. A. Bennett were re-elected by acclamation for the year 1911.

AFRAID OF NO STORM

FACE THE STORM AS THROUGH A WINDOW.

Here's a face protector built to protect humanity against the fiercest storm. Read what one prominent physician says:—

St. Albert, Alta., 25-6-1910.

M. Dysthe, Esq.,

Dear Sir,—I found the Face Protector very useful under the conditions (bad, stormy, cold weather) you inquire about.

Yours truly,

W. A. B. TERNAN,

Physician.

Write today for circular and hear what many other doctors have said. The price of the Protector is only $1. Agents wanted everywhere.
