The Weekly Monitor.

WEDNESDAY, SEPTEMBER 16, 1885.

Provincial Normal School.

From a circular placed on our table we glean the following facts. There are five regular instructors in the above institution besides the teacher in music. The next term opens on the first Wednesday in November. Two hundred and five students were enrolled during the last year.

The object of the Provincial Normal School is to train teachers for the public schools of Nova Scotia. The present arrangements provide for three classes of students, designated first class, second class and third class. The course of study appertaining to general scholarship for the different classes, embrace the various subjects specified in the syllabus of examination for provincial license of Grades B. C. & D. respectively.

The professional work common to all the classes includes the study of Method and School management, and Model School practice; the course of the second class includes, in addition to above, the outlines of psychology and the history of education.

Special work in psychology, the history of education and educational science, will be provided for graduates of a former year who hold grade superior and others qualified for such a course. The text-books used in this course will be Sully's Authors of Psychology, Quick's Education Reforms, Payne's Lectures on Education, Bain's Education as a Science and Herbert Spencer's Education. The Normal School renders important service to the teaching professions of this Province.

Many of our best teachers are graduates of this institution. The importance of the work done by our teachers, renders an attendance at our training school of prime importance to every teacher in the Province.

—The time for the Kentville Provincial Exhibition is now but two or three weeks distant. We think that the committee of management would have been wise to have taken rather more advantage of the local press to circulate information than they have done. Handbills are all very well; but there are many districts which they never reach. We trust, however, that even if information has not been as well circulated as we think it should be, that this County will endeavor to make the finest possible exhibit, for our own honor's sake. The prizes are given of course as an incentive to competition, but it is not to obtain these prizes alone that we should strive. A higher motive should always influence us and that is to let the whole Province, and all strangers who visit the exhibition, see our capabilities and resources. Exhibitions are great educators for all who visit them intelligently, and they diffuse abroad the most comprehensive knowledge of and advertise individual counties better than any other means, providing of course, that exhibitors make the efforts they should. We, in Annapolis County, should feel a special pride in our fair heritage, and endeavor to make it occupy the leading place in the Province.

— Washington advices say that one of the Congressmen, Mills, will introduce a new tariff bill into Congress immediately after it is convened. It is stated that the measure will provide for the reduction of the revenue to such a sum as is necessary to cover government expenses. It is proposed that this revenue shall be derived in the main, from that class of taxable articles known as luxuries, and that the taxation on the necessaries of life shall be reduced to the lowest possible sum.

POST OFFICE SAVINGS BANKS.—Post Office Savings Banks have been opened at Bridgetown and Middleton in this County. This is good. By this means one may now deposit his savings from a dollar upwards in perfect safety, with an assured interest of 4 per cent per annum. If the young would only lay by a little in this direction from time to time, they would have quite a sum to handle in the future when it might prove a great boon to them. People of moderate means, having a little spare cash, would find this mode of investment very convenient and serviceable. The same system has long been in use in Great Britain with much satisfaction to the public.

— Here is what the Chicago *Current* thinks about annexing us:—

'The question for the people of the United States to consider, after all is: Would the annexation of Canada be productive of good to us? We would be taking to our bosoms five millions of people the most turbulent of all the colonies Britain ever had. Wedded to social politics very dissimilar to our own—a system of denominational schools everywhere prevailing; a state church in Quebec guaranteed by the treaty of Paris, which should not be disturbed. Do we want the French language spoken in Congress and every word of congressional proceedings proceedings printed in both the French and English languages? Canada has a complete system of laws administered by a most learned and accomplished appointive judiciary. Nearly 3,000,000 of square miles of wild lands would, like the lands of Texas, not be surrendered without a full equivalent. Customs duties which now support the Dominion government and pay 80 cents *per capita* to support the local governments would not be easily surrendered. They would demand a equivalent for the most extensive and valuable fisheries in the world, for when did the Anglo-saxon race voluntarily give up a valuable thing when it was in their possession?

But then how it would break our political states! Fifty-four presidential electors at once! Fourteen new senators and 49 new members of the house of representatives as well-trained obstructionists as the Irish! They would hold the balance of power in our national councils and, if they could not get a Canadian for president, they could control the election of an American. The truth is the thing cannot be done and is not to be thought of by us if it could.'

—The ladies and friends of the Annapolis Royal Lawn Tennis Club, wish to thank the secretary and other members of the Annapolis Royal Band for the efficient way in which they added to the entertainment of those present at the "At Home," on 3rd inst. The above was handed in to our local paper, but the editor for some unknown reason mutilated it beyond recognition.

Melvern Items.

As your readers are well pleased to hear of anything taking place, that indicates enterprise or progress within our county, or, in fact, within our province, I thought I would give you an idea of the rise and progress of the Worsted manufacturing enterprise, at Melvern Square. As the wearing of worsted garments by ladies and children, is not only fashionable, but also comfortable and desirable, and by the using of fine wools and pleasing shades in color, made to develop the beautiful as well, which is a feature that should not be overlooked. The parties referred to, have commenced the manufacture of worsted fabrics for ladies' and children's wear. All of the work is crocheted by experienced crocheters. The business has been in operation for about one year, and for the time, has done well. The outlook at present, seems to indicate increased prosperity. If the people of this county will patronize this industry, as it so richly deserves, they may be supplied with articles far superior to those imported, which are woven and do not wear so well. It will also afford work for our fellow citizens, and have a tendency to keep money within our country, which might otherwise go to pay for imported goods. ECHO.

Aylesford Items.

On Saturday the 12th inst., the barn of Burpee Graves, and its contents was destroyed by fire. They were thrashing grain at the time and the thrashing machine and horse power was burnt also. There was about 40 tons of good hay, and about 400 bus. of grain. The thrashing machine belonged M. & R. Crocker, of Western Cornwallis and was an American Little Giant. Their loss is severely felt. The fire was caused by a man smoking at the rear of the machine and was stowing the straw. The wind was blowing quite a stiff breeze, when the fire was discovered every effort was made to put it out but it gained headway so fast that it was difficult to get the horses out of the barn. Neither party had any insurance and the total loss is about $1,000. When will men learn not to smoke about the barn.

Clarence Items.

Mr. Samuel Banks, of Clarence, has sold his trotting mare "Firefly" to Mr. John Hall, of Lawrencetown. Price reported to be fabulous. Mr. S. N. Jackson's horses, a young and spirited pair, ran away on Clarence road, last Monday. Waggon was loaded with shingles, which were scattered about in all directions. The runaways were stopped after running about one half mile. Fortunately no damage to horses or waggon. Mr. Freeman Fitch has moved his horse stable to the north side of Clarence road, which has greatly improved the appearance of his premises. Messrs. Fitch, Elliotts and Jacksons, have recently purchased from Tippit & Burditt, a one horse, level tread Little Giant Threshing machine, for their own private convenience. More of these machines are needed in our community, and in others adjacent as well.

Local and Other Matter.

— Rev. Canon Dart was presented while at Weymouth last week, with an address, handsome ink stand and gold pen and holder, by the church people of that place.

— The Yarmouth *Herald* says: Mr. S. C. Northrop brought to town on Saturday last, from the Cowan Mine a gold brick, weighing 81¼ ounces, valued at $1,600.

—A fine line of Overcoats just received this week. Perfect fits. Please call and inspect at J. W. Beckwith's. 1i

— Call at Runciman, Randolph & Co's. and examine a Large Lot of Fancy Dress Goods, marked down at very low figures, in lengths suitable for children's autumn and winter dresses. 3i.

— The weather during last week was simply perfect in the day-time, but the nights were very chilly. On Thursday night last, a heavy frost occurred in the upper part of the county, and considerable damage was done to corn, beans, etc

THE VETERAN PREACHER OF ANNAPOLIS COUNTY.—The Rev. N. Vidito occupied the pulpit of the Baptist Church, Pine Grove, last Sunday afternoon. He preaches at the same place next Sabbath morning.

PERSONAL.—We had a call last week from an old friend, Hector McLean, Esq., Superintendent of the Baltimore and Ohio Railroad. Mr. McL. has had his headquarters at Havre de Grace, Maryland, for some time past, and having contracted a slight touch of malaria, he will take up his residence for the winter, upon his farm in Granville, in this county.

— We are informed that the walking bar-room has been introduced upon our streets. The *modus operandi* is simple. The thirsty individual is told that his spiritual wants can be satisfied by a man who looks much as other men except that his pockets are somewhat more bulky. The latter party is approached, a wink is exchanged, then both retire to a corner where they will be secure from observation, a bottle and a glass are fished out from the pockets, the thirsty individual poisons himself, ten cents are exchanged and the world moves on. Cases of liquor are reported to be received at short intervals by the individuals who carry on this trade.

—On Monday last, the ladies of St. James' Church held a tea-meeting and fancy sale in the rink. Notwithstanding the threatening aspect of the weather there was a large attendance, and many from a distance were present. The rink presented a very attractive appearance, being tastefully decorated with flags, Chinese lanterns and evergreens. The Bridgetown Brass Band, seated upon a raised platform in the centre of the rink, gave some new and very pleasing selections and won much praise from the audience for the progress they have made during the short time they have been practising.

The refreshments and tea tables were decorated with flowers, temptingly spread, and literally loaded with good things, and a bountiful and luxurious repast was enjoyed by the hundreds who patronized them.

The fancy table was covered with the usual variety of articles, useful and ornamental, and was well patronized. A handsome ottoman was raffled for during the evening and was won by Mr. Charles Longley.

The managing committee desire to express their thanks to Messrs. Cox and Roffee, for their kindness in allowing them the free use of the rink, and to the band whose services were also gratis.

The affair was a success financially as well as socially, $248 being realized, which will be added to the building fund of the church.

The cricket match held on the grounds of the Bridgetown Cricket Club between the Digby and Bridgetown elevens, was one of the attractions of the day. The match resulted in favor of the Bridgetown eleven, who won by sixty-six runs. The scorer has not time to make up the score for this issue, but will hand it in for next week.

The following is a hint that may prove valuable at some time to some of our cranberry growers:—

There was a heavy frost throughout Norfolk county, Mass., Wednesday night, which caused considerable damage. Some of the owners of large cranberry meadows protected them by keeping fires, the smoke from them spreading over the meadows and saving the cranberries from any damage.

—Schr. Ivica, Longmire, cld. for St. John, on Monday last.

—The trial of Thomas Scott, termed the "White Rebel of Regina" was concluded on the 10th inst., and resulted in his acquittal.

— The Toronto *Globe's* correspondent says Riel is to be reprieved for a month in order that an appeal may be taken to the Privy Council.

—The Southampton Woollen Mill was burned to the ground on the 12th inst. No insurance.

LEFT THE COUNTRY.—The Rev. E. H. Sweet having terminated his engagement with the Pine Grove Baptist Church, left Middleton last week to resume his theological studies. He will either enter the Baptist Seminary at Newton Centre, Mass., or, Macmaster Hall, Toronto.

—There will be a meeting of the Eastern Liberal Association of Annapolis Co., in the school house Middleton on Wednesday 23rd inst., at 8 o'clock p. m. The Dominion and Local Members will be present and address the meeting on important questions. S. N. MILLER, Secty. Treas.

—Mr. T. E. Smith, proprietor of Nova Scotia Nursery, sends us some specimens of the Master's Plum and of Moore's Arctic. Mr. Smith speaks highly of the plums. They are of nice size and good flavor.

—The first contest to the finish between the two respective yachts of England and America, the Genesta and the Puritan took place on the 14th inst., and resulted in favor of the latter. The captain of the English yacht thinks that in a good breeze he could outsail his opponent. An outside race was to have been sailed to-day. On our outside pages next week we will publish a succient account referring to the race and a description of the yachts from the *Scientific American*.

— Several correspondents have suggested that the dollar and two dollar bills which circulate so rapidly among the poor are a likely source of contagion. These bills are allowed to remain too long in circulation, and become dirty and greasy, and altogether about as repulsive to handle as money can well be.—*Montreal Star.*

— "Maud S," started at Providence, on Thursday last to beat her own record of 1.03¾. She trotted her first quarter in 33 sec., and the second quarter in the miraculous time of 30¼, (a 2.02 gait) completing the half in 1 03¾, the fastest half ever trotted. On the third quarter she made a very bad break, on what would have been the fastest time on record.

—Black Cashmeres, Velveteens, Wool Laces, Wool Shawls, Cashmere Gloves, Ladies' Undervests, Infants Wool Hose, Hercules Braid, all widths. A very fine assortment of Ladies' Handkerchiefs, extra value in Linen Towels &c., &c., amongst the new arrivals of goods this week for J. W. Beckwith. 1i

VISITING.—The Rev. W. Allen, of Portsmouth, R. I., is spending his vacation with friends in this County. He preached an able sermon in the Baptist Church at Torbrook, on Sunday afternoon last, the Rev. J. Clark, pastor, assisting in the service. The Rev. gentleman is a sound and instructive preacher, and the County of Annapolis has no need to be ashamed of such a son.

FOR SALE.—Mrs. Alex. Eason has for sale 1 large range, with water tank, suitable for either wood or coal. Also, two Keystone Wringers, one of which she will exchange for butter. 2i

—Lunenburg *Times*: Some of the richest and most beautiful specimens of gold bearing quartz we ever had the pleasure of examining were shown us the other day by W. J. Nelson. They were taken from the property owned by Messrs. Nelson *et al* on Pleasant River road, fifteen miles from Bridgewater, and to judge from the size and richness of his lead and the quality of the quartz in which it is found, it looks very much as if we would soon have millionares amongst us.

—J. W. BECKWITH HAS MADE A FURTHER ADVANCE ON EGGS THIS WEEK. 1i

— Mr. Norman Logan, of Paradise, who lately emigrated to Honolulu, is now associate editor of the *Daily Bulletin* from which we quote:

Our recognized staff is named in the card on first page. The associate editor, Mr. Norman Logan, has had a considerable experience as a writer for the press in Nova Scotia. Having reported the work of the Government schools of Honolulu, and also the proceedings of the Hawaiian Evangelical Association, besides contributing frequently to our editorial columns since his arrival three months ago, he does not require further introduction to the readers of the *Bulletin*.

— An interesting meeting of the Presbyterian congregation was held in their Church here, on the evening of Thursday last. A report given in by Mr. Macgregor, showed that $370 had been subscribed, with a view to calling an ordained minister, the remaining $180 of the amount necessary to entitle them to this privilege, has since been promised.

Mr. Macgregor in the name of the congregation then presented Mrs. McLean with a purse containing $8.50, as a token of their obligation for her services in connection with the Psalmody of the congregation. Thereafter Mr. Randolph, in the name of the congregation presented Mr. Macgregor with an address, as an expression of their appreciation of his services during the past season, and of their regard for his welfare. The following is a copy of the address referred to which was numerously signed, and to which Mr. Macgregor replied in an earnest and touching manner:—

To the Rev. G. H. C. Macgregor, M. A.

DEAR SIR,—

We, the undersigned members and adherents of the Presbyterian Church, of Bridgetown, on the eve of your departure from the scene of your ministerial labours for the past season, beg leave to express our feelings of kindness and good-will toward you. That your ministrations among us have been appreciated in the highest manner is best evidenced by the rapid increase in the attendance at the services in the church over which you have presided since coming in our midst. During your short stay with us, allow us to assure you, you have endeared yourself to us by ties that cannot be easily severed. Your earnest and affectionate appeals, your faithful and forcible warning combined with your intense zeal in the great cause in which you are engaged, will be remembered by us long after your departure, and will enable us to recall many happy hours spent with you in your labors in connection with this church. If, in the order of Providence, after the completion of your studies your lot should be cast on this side of the Atlantic we would extend to you a warm and most earnest invitation to come with us again and assume the pastorate of the congregation over which you have presided with so much satisfaction, and we hope spiritual profit to all your hearers.

In conclusion we wish you happy journeying on your way and may "He who holds the wind in the hollow of his hand," and controls the angry waves, glide you in peace and safety free from harm or trouble to the land of your nativity.

We remain, dear sir,
very faithfully yours,
ROBERT FITZRANDOLPH,
WM. ANDERSON,
W. CHESLEY,
JOHN ROSS, & others.

Great Exhibition of Nova Scotian or Canadian Apples at the Crystal Palace London, Nov. 6th and the week following.

MR. EDITOR,—

I herewith send you schedule of prizes including the following supplementary notice issued by the managers of the Crystal Palace Co., London, and to which we desire to call the earnest attention of fruit growers.

At the last meeting of the N. S. Fruit Growers' Association the secretary was instructed, by numerous vote, to forward all collections for this competition, free of expense from members of the association. Enteries should be made with the secretary on or before the 30th day of Sept.

NOTICE.—Messrs. Northard and Lowe, 20, Tooley Street and Cotton's Wharf, London, S. E., offer for competition, on November 8th, 1885, and following days, for collections of Nova Scotian or Canadian apples, two Cups, of the value of Five Guineas and three Guineas respectively the Crystal Palace Company adding Three Guineas, to be awarded as follows: *Class* A.—Best Collection of Nova Scotia or Canadian Apples, not less than 60 or more than 90 sorts, 6 fruits of each sort. First prize Five Guinea Cup and 2 Guineas, Second prize, 3 Guineas; Third prize 2 Guineas. *Class B.*—Best collection of 24 dishes of Nova Scotian or Canadian Apples 6 fruits of each sort. First prize Three Guinea Cup and one Guinea; Second prize 2 Guineas; Third prize, 1 Guinea. N. B.—Entries to be sent in not later than Oct. 21st, to Messrs. Nothard and Lowe, or direct to Mr. Head at the Crystal Palace. The Exhibits to remain during the following week.

W. G. HEAD.

Crystal Palace.

We hope very shortly to be able to announce an increase in the value and number of the above prizes, and we trust that many of our fruit-growers will take advantage of this opportunity to bring N. S. apples thus prominently before the London public. I am etc.,
C. R. H. STASH.

—Two young men, with what Mrs. Partington calls odorous reputations, broke into the hotel of Mr. Thos. J. Eagleson, on Monday last, and stole therefrom a cask of ale or lager beer. The proprietor heard and followed, and finally caught them, but he was set upon and maltreated so badly that it was found necessary to call in the services of a physician. Warrants for the arrest of the guilty parties have been issued we understand.

—On Monday night last, two harpers or rather a violinist and harper, being in town, some of our young men took advantage of the opportunity to organize an impromptu dance in Victoria Hall. A large number of dancers assembled, and the "light fantastic toe" was tripped until 12 o'clock, when the assembly broke up. As is so often the case in informal gatherings, a splendid time was enjoyed by all present.

— In Marseilles, the cholera is assuming a form which the doctors are unable to cope with. The victims died suddenly without the occurrence of diarrhoea or vomiting. The patient feels a coldness which cannot be counteracted by the use of reactives or even by the most violent friction. Two hours after death the body becomes black.

Sporting Notes.

MATCH RACE.—A match race for $400 ($200 a side) between Bridgetown Charlie, and Napoleon, has been arranged to be trotted on Kentville Driving Track, on Thursday 24th inst. Considerable interest is taken in this race, which promises to be one of more than usual attraction, and will no doubt bring a goodly number to witness it. The W. & A. R. advertise a special train for public accommodation to leave Annapolis at 8 00 a. m. Bridgetown at 8.40 a. m. Returning, will leave Kentville for Annapolis, at 5.00 p. m. Excursion Return Tickets will be issued from Bridgetown at one-first class fare. For fares and times from intermediate stations see hand bills. 2i

EXCITING TROTTING RACE AT KENTVILLE.—The trotting match between the horses General Sherman, Jr., and Harry Morgan—the former owned by Prof. C. G. Fraser, of this city, and the latter by Mr. Thos Doran, of Windsor—took place on the driving park at Kentville last Thursday afternoon. The race, which was for $250 a side, has been awaited by provincial horsemen with much interest for some time, the trotters being considered pretty well matched. About one hundred spectators gathered to witness the race, and it proved one of the hardest fought trotting matches that has ever taken place in the province. It was contested in five one-mile heats, and every heat was won. The two first were won by Prof. Fraser's horse, one by a neck and the other by half a length. The third and fourth were equally close and were taken by Harry Morgan. In the final heat, the most exciting of the five, the horses passed each other several times, but Prof. Fraser, who drove his own horse, came in winner by less than half a length. The time of the different heats was: 1st, 2.51; 2nd, 2.50; 3rd, 2.49; 4th, 2.47; 5th, 2.48. It is said that quite a sum of money was bet on the result of the match.—*Chronicle.*

RACING IN ST. JOHN.—*St. John, Sept.* 11.—The biggest crowd for years patronized Moose Path to-day. For the three minute class three started on a fair track. Black Pilot, of Truro, won in three straight heats. The best time was 2.51. Knox Lass, of Sussex, was second and Tom Morris, of St. John, third. As Black Pilot made a record of 2.33 at Bangor a protest was entered against his start.

The colt race had five starters, Maud S, of St. John, won in two straight heats 3.13 and 3.08, with Conductor of Fredericton, second, and Moncton's colt, Carlmont, third.

The free-for-all had Young Dexter, Lady Bashaw, and Flying Dutchman, of St. John, Helena, of Amherst, Ed. Bonness, of St. Stephens, and Long John, of Truro, as starters. Helena won in three straight heats. The best time was 2 37, Long John second, Bonness third.

The stallion Rampart, gave an exhibition between the final heats of this race at a 2.40 clip.

— Mr. John Hall, of Lawrencetown, has become the possessor of a new horse, upon which "Chowder," who contributes occasional articles on "Horse Gossip" to Kentville Chronicle, thus discourseth:—

Our friend, Mr. John Hall, of Lawrencetown, has at last, "gone and done it," and by so doing, has introduced into Annapolis Co., by far, the best bred stallion ever owned or kept for service there. We refer to the young brown stallion, "Volunteer Prince, who is by the mighty Volunteer, the sire of St. Julian 2.12¾, and many other 2.20 and 2.30 trotters—Volunteer is by Rysdyk's Hambletonian the greatest trotting sire that ever lived. The dam of Volunteer Prince is by "Old Drew"—2nd dam by Witheral Messenger.—This pedigree would make Mr. Hall's late importation, Standard bred, if not already registered, and numbered we trust Mr. Hall will with his well known wisdom, see to it that the thing is straight immediately—this horse is said to be very handsome and nicely gaited. We believe he is about 15 hands high and weighing over 1000lbs. When Mr. H., sent us his poster for 1885, having already made quite a season in Lynn, Mass., we remarked that if the horse was as good as his pedigree, he was one of the best stallions in America, subsequently to this a party who knew the horse in Lynn, gave us quite a flattering account of him discribing him as a well balanced horse all over, showing in his external form but little of the Hambletonian peculiarities. He inherits his beauty and finish from Drew and Volunteer. He has had but little handling, but is fast for his limited opportunities. We congratulate Mr. Hall, and wish him all success in the high chosen.

—The Fredericton Capital pays a glowing tribute to Prof. Bristowe's musical ability. The Capital says:—

Some of Prof. Bristowe's performances last Sunday in the Cathedral—especially his voluntaries, and in Sullivan's anthem "The Strain Upraise"—displayed marvelously brilliant execution, an exquisite touch, musical feeling of the highest order, and a complete knowledge of the instrument.

Warning to Pork Eaters.

During the past week the Health Inspector in Chicago condemned 170 cholera-stricken hogs. On Sunday, in a slaughter house at the yards, he condemned twenty-nine that had been killed and dressed and were ready for market. The hogs were the property of various scalpers. Cholera has never been so prevalent among hogs at the stock yards as it is at present.

GRAND
Colonial Exhibition, in London, England, 1886.
Fifty-Four Thousand Feet Reserved for Canada.
FIRST ROYAL EXHIBITION COMMISSION SINCE 1862.
THE COLONIAL AND INDIAN EXHIBITION to be held in LONDON, England, commencing May 1st, 1886, is intended to be on a scale of great magnitude, having for object to mark an epoch in the relations of all the parts of the British Empire with each other.
In order to give becoming significance to the event, a Royal Commission is issued for the holding of this Exhibition, for the first time since 1862; His Royal Highness the Prince of Wales has been appointed President by Her Majesty.
The very large space of 54,000 square feet has been allotted to the Dominion of Canada by commmand of the President, His Royal Highness.
This Exhibition is to be purely Colonial and Indian, and no competition from the United Kingdom or from foreign nations will be permitted, the object being to exhibit to the world at large what the colonies can do.
The grandest opportunity ever offered to Canada is thus afforded to show the distinguished place she occupies by the progress she has made in Agriculture, in Horticulture, in the Industrial and Fine Arts, in the Manufacturing Industries, in the Newest Improvements in Manufacturing Machinery and Implements, in Public Works by Models and Designs: also in an adequate display of her vast resources in the Fisheries, and in Forest and Mineral wealth, and also in Shipping.
All Canadians of all parties and classes are invited to come forward and vie with each other to endeavor on this great occasion to put Canada in her true place as the premier colony of the British Empire, and to establish her proper position before the world.
Every farmer, every producer, and every manufacturer, has interest in assisting, it having been already demonstrated that extension of trade always follows such efforts.
By order,
JOHN LOWE,
Sec. of the Dept. of Agriculture.
Ottawa, Sept. 1st, 1885. 2i
