Shoes That Stay the Route

It isn't the flash of the first two rounds of freshness that counts. Shoes may look good on your introduction to them; in the pink of condition: fit for the route: but they may only LOOK it. What they do when you get into them, how they stand the gruelling of wear is the point. Hartt Shoes are built for any route and all sorts of feet. They have the unaffected punch of real style, quality, workmanship and a fit that stays right through to the finish.
