THE T. EATON CO LIMITED

HYDROPLANE SHOWN WITH MOTOR CRAFT

Transportation Building at C. N. E. Park is Bursting With Boats.

BRIGHT COLOR SCENE

Decorations From New York Aid Effect of Opening Ceremony.

Motorboats of every kind and description, from the modest 16-footer to the 40, 50 and even 64-foot craft, which compare to the others as a Pullman car does to a day coach, were to be seen at the opening of the Motorboat Show which occurred last evening in the transportation building at Exhibition Park. The entire building was one glorious scene, the decorations having been secured from the New York Motorboat Show. Besides the ordinary type of power boats there was the marine greyhound, the hydroplane, which has shown itself to be so much superior to the speediest of ordinary boats. The sailing canoe, which is entered in a competition for the world's championship, was also on view.

Advancing by Strides.

The 1914 show was officially opened by Mr. Henry Simpson, the vice-commodore of the Toronto Motorboat Shows, who in a brief address spoke of the gigantic strides with which the motorboat industry had advanced even within the last few months. It had become, he said, the most popular water sport in Ontario, replacing as it did the epoch of the sailing craft. Controller McCarthy, on behalf of the City of Toronto, expressed encouragement of water sports, which could be enjoyed to the full in Toronto.

Viewed by 2000.

Over fifty firms of the United States and Canada have exhibits, which were viewed with interest by the 2000 people who attended the opening of the show last evening. A general meeting of the Canadian Motorboat Association will be held during the course of the week.

UNIVERSITY TRAINING BAD—SAYS SAM BLAKE

That the university atmosphere unfits school teachers for expounding the truths of the Scriptures, is the somewhat startling statement made by Hon. S. H. Blake, in a letter to Dr. John Seath. Mr. Blake agrees with Dr. Seath that the department of education could not properly trust teachers to teach Scripture lessons to their scholars on account of the influence exerted by the views of university professors and instructors. Flippant articles in The University Monthly are said by him to indicate the standard which they had been taught to admire. A song used at a dinner given by a university professor to his friend, in which Biblical names were mingled with irreverent phrases, was cited as an example of the looseness which characterized the views of the instructors.

The condition of affairs now said to be existent was said to be not hopeless if the standard of university instructors was changed by the government. Mr. Blake was strongly in favor of the establishment of a system of Bible study tea hing in the public schools of the province.

MILLER MAY TELL WHERE CASH WENT

Lawsuit at Montreal Puts Former State Prisoner in Corner.

APPREHENSION FELT

Startling Revelations of Lobbying at Ottawa Are in Prospect.

OTTAWA, Feb. 25. — (Special.) — There has been considerable speculation as to the probable action of the house this session respecting R. C. Miller of Montreal, the contumacious witness, who was sent to jail last session for refusing to answer questions put to him at the bar of the house by Speaker Sproule.

It will be remembered that Mr. Miller was the inventor of a patent buoy lighting device, which was manufactured by a company organized by himself and sold to the government. In an action brought by stockholders against him in the courts of Montreal, Mr. Miller claimed a credit of $40,000 for money expended by him in procuring orders from the Laurier government. He was brought before the public accounts committee and asked to whom he had paid this enormous sum in order to get government business. He evaded answering at the session of 1911-1912, but when summoned before the committee at the session of 1912-1913 he flatly refused to answer. He was brought before the bar of the house for contempt, but, continuing to be contumacious, was committed to the Carleton County Jail, where he was kept in custody until prorogation.

Where Did Money Go?

Mr. Miller's principal defence was that he could not answer the questions propounded by the public accounts committee without exposing his hand in the law suit pending between him and the stockholders. That law suit is now to be tried in the courts at Montreal next week, and will be followed with great interest. Unless Mr. Miller makes a full disclosure as to how he expended $40,000 in getting government business under the Laurier administration he will probably be haled again before the public accounts committee.

His testimony next week will be anxiously awaited by many persons who fear some startling revelations from the former prisoner of state. No doubt they would try to bring about a compromise between Mr. Miller and his creditors, if in that way the investigation could be stopped, but they realize that if the litigation is sawed off Mr. Miller will be liable to another inquisition by parliament.

EXPLAINED

"Madame de Massage wrote a great book called 'How to Become Beautiful.'"

"Did it have a big sale?"

"No: she made the fatal mistake of publishing her own picture on the title page."

New York and Return $14.25.

Good going March 5th, with return limit up to and including train leaving New York 2 a.m. March 15th. Full particulars at all G.T.R., C.P.R., or Lackawanna offices, 143 Yonge street. Phone Main 3547. ed 7

RETAIL MERCHANTS PASS RESOLUTIONS

Would Test Parcel Post Thoroly Before Change is Made.

COMPENSATION BILL

Amendment Asked Would Remove Retailers From Liability Under Measure.

"That it is the opinion of this meeting that no change should be made in the present parcels post system, as recently adopted by the government, until it has been fully worked out and tested, and that we should insist, as far as possible, that it be self-sustaining," was the resolution passed at the opening session of the Ontario convention of the Retail Merchants' Association, at the Temple Building, yesterday. Other resolutions passed were:

Mail Order Tax.

"That it be an instruction from this convention that the information be secured from the retail merchants thruout Ontario as to whether they are favorable to have a special tax placed on large mail order catalog houses, and that the money so secured, thru taxation, would be paid into the various municipalities from which it is taken."

Why the Delay?

"A special committee from our association having prepared a memorandum setting forth the reasons why the present business tax rate—which is fixed by statute, should be reduced to 10 per cent. thruout the province, and presented the same to the ntario Government, and so far not action has been taken thereon, we request that the subject be again taken up with the government and pressed forward to some definite conclusion."

Amend the Bill.

"That the proposed Workmen's Compensation Act be amended, so that retail merchants cannot be taken under the operation of the act by the board, but only thru an amendment to the act itself, passed by the government."

STEAM PLOWS FOR PEACE RIVER LANDS

EDMONTON, Alta., Feb. 22.—John Harris, formerly of Oklahoma, and H. L. Adair of Southern Alberta, have the distinction of taking the first steam plows into the Peace River country, north of the 55th parallel of latitude, where they will engage in grain-growing and mixed farming. Harris has a tract of 4,000 acres in the Grande Prairie district, and Adair has between 4500 and 5000 acres near Lake Saskatoon in Northwestern Alberta. These plows will break from 40 to 50 acres of land in 16 hours, working with two shifts. Harris is planning to break 2400 acres the coming spring and seed it to wheat and barley, which he will feed to stock next winter. Heads of implement houses in Edmonton report that 20 steam plows have been contracted for delivery during April and May. This means that many thousands of acres of virgin lands north of Edmonton will be broken and cultivated this year.

WHY HE TURNED PALE.

"Wretch," exclaimed his wife, "show me that letter."

"What letter?" replied the innocent-looking husband.

"The one in your hand. It's from a woman. I can see by the writing and you turned pale when you saw it."

"Yes. Here it is. It's your dressmaker's bill."
