CHICAGO MARKET.

MARKET CLOSSES FIRM — PROVI  
SIONS STRONG—CABLES STEADY.

Chicago, June 13.

The market failed to recover from the reaction of yesterday. The feeling on the curb, before the opening of the market, was reactionary, the opening quotations showing a decline of a quarter.

Cables were lower, the big increase in the visible as well as a large increase of wheat on passage to the United Kingdom—caused mostly by the large Argentine shipments—were bearish factors.

The stock market fails to reflect any serious damage to the grain centres, all grain carrying roads are strong with advancing tendencies, which would scarcely be the case, were the wheat prospects through which these Grangers run almost ruined.

We have also had the usual talk lately of a possible wheat corner. A great deal of the cereal has been unloaded during the past week or two, and a great deal of it has been absorbed, such fears, however are scarcely warranted. The experience of Joe Leiter is too fresh in the minds of his countrymen for anybody to follow in his footsteps just at present.

A far more important factor in the market situation to-day is the remarkable movement of wheat from farmer's hand to market this is all the more remarkable since the great decline in the winter wheat condition is generally admitted.

For the past ten days the primary receipts were the largest on record for corresponding dates and with the present week the total for fifty weeks from July 1st is likely to surpass all previous records.

The spring wheat outlook continues satisfactory and Snow's report refers to prospects as about equal with a year ago.

Wheat, including flour, shipments for the week aggregate 3,153,047 bushels, against 3,596,065 bushels last week, 4,730,982 bushels in the corresponding week of 1898, 1,890,322 bushels in 1897, 2,923,695 bushels in 1896, and 1,781,737 bushels in 1895. Since July 1 this season the exports of wheat aggregate 215,223,485 bushels, against 220,876,046 bushels last year. Corn exports for the week aggregate 3,339,889 bushels, against 3,922,497 bushels last week, 4,874,303 bushels in this week a year ago, 2,398,294 bushels in 1897, 1,536,829 bushels in 1896, and 655,753 bushels in 1895. Since July 1 this season corn exports aggregate 160,140,425 bushels, against 186,779,320 bushels during the same period a year ago.
