TORONTO.

AT OSGOODE HALL.

Mr. Doll Must Go Up for Examination for Discovery—Water Filters for Windsor—Court of Appeal.

In two cases of Millar v. Doll, arising out of the celebrated case of this defendant against the American Watch Case Company, motions were made before Mr. Cartwright to strike out the defence, because the defendant failed to put in an appearance upon an appointment for his examination for discovery. Mr. Doll, by his solicitor, agreed to attend these examinations at his own expense within three weeks and pay the costs of the motions. If he makes default in so doing his defence stands struck out, and judgment will go against him for the amount of the costs claimed.

WILL HAVE GOOD WATER.

The people of the city of Windsor are now to have the best filtered water in Ontario, the action of Horton v. Water Commissioners of Windsor having been dismissed on consent, without costs, by Mr. Justice Meredith. An injunction restraining the defendants McDougall & Co. of Montreal from carrying out their contract to furnish the filtering basin was dissolved with the action.

COURT OF APPEAL.

The Court of Appeal was occupied all day with the appeal of the township in re Stonehouse and Township of Plympton from the order of Justice Street, quashing bylaw No. 3 of 1895, which provided for the repairing and deepening of the "Stonehouse drain," in the Township of Plympton and Enniskillen and the village of Wyoming.

The bylaw was quashed on the ground that the engineer based his report, which was the basis of the bylaw, upon the erroneous assumption that the drain in question was one drain, which was originally insufficient to carry off the water for which it was built; whereas it consists really of two drains, built at different times and for different purposes, and therefore some of the owners of the adjoining land might be required to pay more or less, according to the drain affecting their land. Judgment was reserved.

TO-DAY'S LISTS.

Single Judge, at 11 a.m.: Miernecki v. Sandwich E.; Clarkson v. McKendry; re Solicitor; Hurdman v. Whyte; re North Toronto and York; Dickerson v. Radcliffe (two motions); McKee v. Robinson; Shields v. McLellan.

Divisional Court will not sit to-day. List for Friday, at 10 a.m.: Re Biggar and Mabey; Bradley v. Beck; Logan v. Martindale; Whitesell v. Fraser.

Court of Appeal at 11 a.m.: Bain v. Anderson; Sample v. McLaughlin; Dominion Bank v. Waterous; Small v. Thompson; Fleming v. Murphy.

SUCKLING'S AUCTION SALES.

A Good Attendance of Buyers and Prices Were Satisfactory.

There was a large attendance at Suckling's auction rooms on Wellington-street yesterday. Seven different stocks were put up, and the bidding was spirited.

The dry goods stock of J. A. McIntosh, Barrie, valued at $8219, was sold to W. W. Eastwood, Toronto, at 60½c on the dollar.

The general stock of George G. Hacker, Hamilton, valued at $5862, went to W. B. Gould of Port Hope, at 45c. on the dollar.

The millinery stock of Isabella Sinclair, Elora, valued at $4691, was sold to James Massie at 41c on the dollar.

The dry goods stock of L. A. McCartney, Petrolea, valued at $2178, was sold to J.N. McKendry, at 27c on the dollar.

The boot and shoe stock of George H. Kember, Creemore, valued at $947, was sold to Mr. Kember at 57c on the dollar.

The stock of S. L. Hahn & Co., clothing, etc., Hanover, valued at $4047, was sold to A. D. Urlin of Dutton at 62½c on the dollar.

The general stock of Kelly & Co., Tavistock, valued at $1857, was bought by J. Grant at 66c on the dollar.

Suckling & Co. will sell the stock of McMaster & Co., valued at $200,000, on the 29th inst.

The Power of The Press.

Review of Reviews.

A statistician has learned that the annual aggregate of the circulation of the papers of the world is estimated to be 12,000,000,000 copies. To grasp the idea of this magnitude we may state that it would cover no fewer than 10,450 square miles of surface; that it is printed on 781,250 tons of paper; and, further, that if the number (12,000,000,000) represented, instead of copies, seconds, it would take over 333 years for them to elapse. In lieu of this arrangement, we might press and pile them vertically upward to gradually reach our highest mountains. Topping all these, and even the highest Alps, the pile would reach the magnificent altitude of 490, or, in round numbers, 500 miles. Calculating that the average man spends five minutes reading his paper in the day (this is a very low estimate), we find that the people of the world altogether annually occupy time equivalent to 100,000 years reading the papers.

Ammonia for Colds.

"For a cold in the head, catarrh and the like," said a physician, "the simplest remedy, and one of the best that I know of, is to put a few drops of ammonia into the hands. Make a cup with the two hands and breathe the fumes. This will clear out the throat also. For tonsilitis or even diphtheria, I do not know of anything better. It is also very beneficial for croup, though, of course, small children do not know how to breathe it. For annoying colds in the head which prevail at this time of the year it will be found effectual. The fumes of ammonia are death to almost all forms of bacteria. If it were frequently and generally used, diphtheria as an epidemic would be unknown."

Business Embarrassments.

Alfred Eckley, tobacconist, this city, has assigned to Hallworth & Langley. Creditors will meet on the 29th inst. Liabilities, $2000.

James Harris, furrier, King-street west, has assigned to Hallworth & Langley. His liabilities are small.

A. G. Lang, general store, Hespeler, is asking an extension.

D. J. & J. S. Haragan of Caledon Township have assigned to Hy. Bracken.

C. P. Fulkner, general store, Greenbush, has assigned to J. H. McLaughlin.

E. Martin & Co., grocers, Pembroke, are offering to compromise at 25c on the dollar.

At the meeting of creditors of the estate of J. G. Thompson, tailor, of Hamilton, an offer of 50c on the dollar was submitted—35c cash and the balance secured.

The creditors of McClung & Co., dry goods, St. Catharines, met in the Walker House yesterday. A committee was appointed to value the stock and report any offer that may be made. The creditors will meet again next Saturday. The liabilities amount to $30,312, and the assets are placed at $17,485. The principal Toronto creditors are John Macdonald & Co., $3153; Caldecott, Burton & Spence, $4033; Standard Bank, $2671, and William Hyslop, $1644.

Petitions for Private Bills.

The Ontario Government has definitely fixed the date for private bills for the coming session. Petitions for private bills must be in before Feb. 23, and must be introduced before March 12. The Private Bills Committee must report on or before March 22.

A DIAMOND FACTORY.

Dr. Johnstone of Washington Has a Dazzling Dream of Using Niagara's Power to Manufacture Gems.

Washington Herald.

A Washington scientist will build a laboratory at Niagara Falls and use the current for crystallizing pure carbon into diamonds of great size. While it has been possible for some years to make diamonds by using carbon, those made have been too small to be of any commercial value. Yet it is now asserted by the scientist of Washington that he has devised a plan by which the precious stone can be made of any size wished.

The diamonds heretofore made were fused by using impure carbon, that of commerce, such as willow charcoal. But Dr. B. H. Johnstone of Washington discards such old-fashioned methods, and will use only the element provided by nature—that is, the pure carbon found in mines all over the country. Real diamonds—those dug in their natural state—are merely the crystallization of this pure carbon, made by a process which is supposed to have occupied many millions of years.

Dr. Johnstone, adopting nature's method, proposes to turn out stones which will vie in purity and beauty with those of the fields of South Africa, and which will compare with the famous gems which glow in the crowns of emperors. He will require at least 6000 volts of electricity to crystallize the carbon, and that is a power not easily obtained anywhere except at Niagara. The pure carbon he finds in the coal and other mines about the country, for it exists in large quantities and can be purchased cheaply. With this carbon and this immense power of electricity at his hand, Dr. Johnstone states that he can so crystallize the first that he can turn out within a few days a stone that nature could not fashion in millions of years.

The diamonds which will come from this laboratory will be of great size, for the doctor expects to make them from the size of a pea to that of the great Koh-i-noor, the most famous gem of the world.

HERE'S A NEW THING.

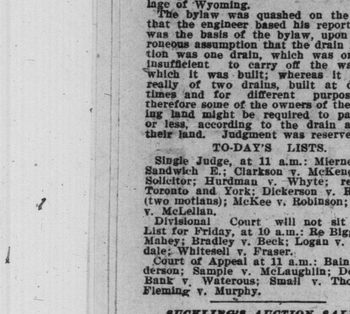
New Racing Wheel That it is Claimed Will Increase Speed.

A racing bicycle has just been built by a Syracuse genius that will startle the cycling world when it appears on the track this spring. It was only finished last week and the accompanying cut shows what it looks like.

The powerful muscles in a man's leg are not brought fully into play in the ordinary bicycle. A rider fails to exert his full strength on the downward stroke, because he has nothing to brace himself against; it was with an idea of using to their full extent the leg muscles brought into play while rowing in a shell that this bicycle was designed.

The rider presents a curious aspect in a position that could not be maintained for many miles. But as the machine is only for short distance races the apparent discomfiture does not make its use impossible.

The position of the rider, as if swimming, gives him a great advantage over one who sits up in the saddle and exposes his chest to the wind resistance, which is an important factor.



The distinctive feature of this bicycle is the placing of the pedals and sprocket behind the rear wheel of the bicycle. Instead of the customary seat the rider lies flat on his stomach on a leather hammock.

This, at first glauce, seems a position in which very little work could be accomplished. But the rider is in the exact position to exert all the leg power he possesses. The handle bars are brought low down, just above the front forks.

The cradle in which the rider reclines does not extend up to the lungs, and thus their action is given full play. Mr. Marion states that if the respiratory action was interfered with it would seriously affect the success of the machine.

There will be a public trial shortly of this new machine, and it is expected to attract great attention.

Encouraging News From Formosa.

An interesting letter has just been received by Rev. R. P. Mackay, Foreign Missionary Secretary of the Presbyterian Church in Canada, from his brother, Rev. G. L. Mackay, D.D., of Tamsui, Formosa, dated Dec. 7.

In reference to a recent interview with Governor Nogi, the letter states: "When Rev. M. Oligini and I arrived at Tai-peh from the south, Mr. Kawai, Japanese evangelist, and Miyoshi, interpreter, met us. The latter said he would arrange for me to visit the Governor-General. In a few days Rev. D. Ferguson, E. P. Mission, came north and was our guest in Arches Bang-kah Church. On Monday, 23rd, at 10 a.m., Kawai, Ferguson and I proceeded to the Governor's residence. Mr. Miyoshi met us at the door, and in a few moments we were heartily received by the Governor, who, without any ceremony, sat down with us. He pleasantly made inquiries about Formosan climate, diseases and people.

"I then stated that North Formosan Christians refused to take up arms against the Japanese, and in consequence were threatened, persecuted, and several killed by rebels. Nevertheless, Japanese petty officials and soldiers failed to distinguish between friends and foes, and insulted, abused and even killed Christians in more than one locality. Therefore Christians had a very hard lot between rebels and reckless soldiers.

"When Mr. Miyoshi, the interpreter, was about through, the Governor's eyes sparkled with fire, as he sprang to his feet, grasped my hand tighter and tighter, whilst he told the interpreter to say that he sympathized with us and was determined to protect the Christians.

"Turning to Ferguson he said, 'And you in the South have suffered in the same way. I will protect your Christians also.'

"He was thoroughly aroused, and I was greatly impressed (so was Ferguson) with his grand soldierly appearance. I will never forget the scene; it reminded me of my interview with Lin Ming Chuan during the French war.

"I believe Governor Nogi will do his part according to justice in governing this island."

Cruising in the West Indies.

It is not often one can take advantage of visiting so many countries and classes of people as is now offered by the cruises to the West Indies and the Spanish Main. The Quebec S.S. Co. have four, the International Navigation Co. and the Hamburg-American one each, leaving New York in February and March, calling at Bermuda, the Leeward Islands, Barbadoes, Trinidad, the northern coast of South America, Mexico, Jamaica and Cuba. Several hours or days are spent in becoming acquainted with the charms and varieties of the people, the scenery and productions only to be found in southern climes. The voyages last from 30 to 45 days, and thus enable tourists to remain in a warm climate enjoying new scenes and beautiful sails from island to island and return when our rigorous winter is more nearly spent. Barlow Cumberland, 72 Yonge-street, the sole agent for the cruises, will give full particulars and reserve berths on application. Beautifully illustrated books descriptive of the tours may be obtained or will be mailed to any address free.

Dyspepsia and Indigestion.—C.W. Snow & Co., Syracuse, N.Y., write: "Please send us ten gross of Pills. We are selling more of Parmalee's Pills than any other pill we keep. They have a great reputation for the cure of Dyspepsia and Liver Complaint." Mr. Charles A. Smith, Lindsay, writes: "Parmalee's Pills are an excellent medicine. My sister has been troubled with severe headache, but these pills have cured her." ed

C. M. B. A. Notes.

The Advisory Board, composed of delegates from all the Toronto branches of the Catholic Mutual Benefit Association, have decided on an active campaign to increase their membership in Toronto.

At the regular meeting of Branch 145, on Tuesday, the 19th, arrangements were made for a public meeting to be held early in February, to which all the members and friends in the city will be invited. One member was elected, being the third in three meetings. This branch devotes the second meeting of each month to entertainments, and the principal feature of the evening was a paper on Judge Hallburton and his works, commemorating the recent centennial. The paper, which was delivered by Mr. James E. Day, was varied by readings from the author's works, and an interesting evening was spent.

Only those who have had experience can tell the torture corns cause. Pain with your boots on, pain with them off—pain night and day; but relief is sure to those who use Holloway's Corn Cure. ed

THE BULLS TAKE HEART.

The Chicago Wheat Market Quiet, But Closing is Firm.

St. Louis Operators the Chief Buyers—Local Stocks Quiet and Very Firm—Wall-Street Securities Less Active and Lower—Cheaper Money in London—Sterling Exchange Easier—Latest Commercial Miscellany.

Wednesday Evening, Jan. 20.

Liverpool wheat futures are weaker.

Cash wheat in Chicago ⅝c higher, at 77⅝c.

May wheat on curb 80⅛c.

Puts on May wheat 79⅝c, calls 80⅝c.

Puts on May corn 24⅛c to 24⅜c, calls 24¼c bid.

At Toledo clover seed closed at $5.32½ for March.

Car receipts of grain at Chicago to-day: Wheat 29, corn 211, oats 182. Estimated for Thursday: Wheat 20, corn 215, oats 175.

Cattle receipts at Chicago to-day 13,500. Market steady.

Estimated receipts of hogs at Chicago to-day 37,000; official Tuesday 37,174; left over 1000. Estimated for Thursday 42,000. Market slow and a shade lower. Heavy shippers $3.20 to $3.50.

Receipts of wheat at Minneapolis and Duluth to-day 212 cars, as against 265 cars the corresponding day of last year.

Exports at New York to-day: Flour 2095 barrels and 7033 sacks; wheat 104,101 bushels.

Windsor Salt

The purest and best, costs no more than the common kinds do. Why not use it? Your grocer sells it.

Hofbräu.

"A malt tonic of surpassing value in its action on the nerves."

"Admirably adapted to the wants of ladies before and after confinement."

"Eligibly nutritious, and its use will be found very satisfactory in the rearing of strong, healthy children."

"Ahead of porter or strong ale, whether imported or domestic."

"Endorsed by the medical profession as the standard of perfection."

REINHARDT & CO.'Y.
Lager Brewers, Toronto.

FINANCIAL.

The local stock market was strong to-day.

The net gold balance of the U.S. treasury it $142,163,000.

Demand sterling is ½ lower.

Consols are 1-16 easier to-day, closing at 112½ for money and at 112⅝ for account.

Canadian Pacific is ⅞ lower, closing in London at 56⅝. St. Paul closed at 78⅝, Erie at 15⅝, Reading at 14⅛, N.Y.C. at 97¼, and Ill. Central at 96¼.

The earnings of the Grand Trunk Railway for the week ended Jan. 14 were $360,013, an increase of $11,471.

During the month of December the total shipments of all sizes of anthracite coal by all the coal-carrying companies, amounted, in round numbers, to 3,350,000 tons. All the companies except the New York, Susquehanna and Western, shipped less than their allotted percentage of 3,500,000 tons. On Dec. 31 stocks at tidewater showed a decline of 113,000 tons since Nov. 31, and were 100,000 tons more than on Dec. 31, 1895.
