LIVERPOOL FUTURES ARE OFF

Tone of Chicago Market Heavy Yesterday.

Corn and Provision Markets—British Cables — Local Produce and Grain Markets—Gossip From Chicago and General Notes on the Situation—Quotations.

Wednesday Evening, Sept. 7.

The world's wheat markets were depressed to-day. The cereal opened weak in the Liverpool board and at the close the September delivery had declined ½d and the December option ,1½d per cental below the previous final figures.

Advices to the above effect did not serve to better the tone of the Chicago market. The December option dropped ⅜c and the May option ⅜c per bushel. The close was near the low point for the day, although New York reported good export demand and Northwest points an advance of nearly a cent in prices on this month's delivery.

The Chicago corn market was heavy on the failure of the expected frosts to materialize to any damaging extent. The net loss for the day was about ⅜c per bushel. On the Liverpool board to-day corn futures fell off ½d to ⅝d per cental.

Lard declined 9d in Liverpool.

December wheat puts at Chicago 50⅝c, calls 60½c. December corn puts 29⅜c, calls 30⅛c.

Total clearances to-day: Wheat and flour 488,000 bushels, corn 317,074 bushels.

New York exports to-day: Flour 4013 bbls. and 11,590 sacks, wheat 287,103 bushels, corn 248,936 bushels.

Car receipts of grain at Chicago to-day: Wheat 369, corn 842, oats 448.

Toledo car receipts of wheat to-day 192, of which 142 were contract.

Receipts of wheat at Minneapolis and Duluth to-day 750 cars, as against 512 cars the corresponding day of last year.

St. Louis wheat receipts to-day 59,465 bushels, against 86,388 bushels the same day last year.

The stocks of wheat at Fort William and Port Arthur are 109,702 bushels, as against 75,402 bushels a week ago and 600,641 bushels a year ago.

World's Visible Supply.

Bradstreet's estimates that the world's visible supply of wheat last week increased 1,694,000 bushels. There was a decrease of 200,000 bushels in the European visible and afloat, but the increase in the American visible was 1,894,000 bushels. Last year the increase in the world's visible for the same week was 2,111,000 bushels. Last week's increase in the world's visible of corn was 39,000 bushels, oats 1,795,000 bushels.

Chicago Gossip.

Henry A. King & Co., 12 King-street east, received the following despatch to-day from Chicago:

Wheat—The lower cables and the absence of the expected support from corn proved a disappointment to the wheat market this morning, opening prices showing concessions of about ¼c from last night's close. While Chicago receipts were somewhat less than reported, Northwest receipts were considerably over last year's. Showers were reported in the Northwest, but not enough to interfere with the movement. Later advices from Minneapolis and Duluth reported an advance in these markets of from ¼c to 1c a bushel, and New York reported acceptances from Liverpool of anywhere from 10 to 50 loads, which started some covering among local shorts in September, advancing that option 1⅜c, which also had a temporary strengthening effect on December. Closing cables, however, indicated further weakness at Liverpool. Continental cables also a shade lower, and our market followed suit, closing barely steady at about low point of the day. Clearances were fair at 488,000 bushels. Primary receipts nearly last year's, 1,364,000 bushels, against 1,563,000 bushels. The Northwest expect heavy movement of wheat for the next 60 or 90 days, which deters investors from taking hold, and has a tendency to check any advance.

The failure of frost to materialize was the depressing factor in corn. The low temperatures yesterday were expected to bring frost in the corn belt; but, while there was a touch in Northwestern Nebraska and the Dakotas, the weather in the corn belt was generally milder, and the predictions for the next 36 hours indicate rising temperature. This took the prop from under the bulls, and the market has ruled heavy all day, closing weak, with no recovery in prices.

There has been a vast improvement in the general business of provision market. Packers were free buyers. The change in temperatures probably encouraged them, because of its effect on yellow fever. The shipments are also large, and on these low prices it makes conditions favorable for an advance.

THE JAM STILL WITH US

What The World Saw During a Casual Walk Around Town—Seething Mass of Visitors.

And still they come. The crowds of yesterday were not so evident as those of Labor Day, but that was solely owing to the fact that Monday was a holiday. The Monday crowd was largely local, yesterday's was foreign. The actual number of visitors is increasing day by day. To-day will periodically beat yesterday, until Saturday night is reached.

Why the Great Crowd,

"And what came ye out for to see?" was a question put by a World man to several last night. "The Fair," of course, is the usual rejoinder. But a good many confess that the Fair is only an excuse. The weather is good, the railway rates are low and they felt like having a few days' good time in Toronto.

At the Depot.

That yesterday's arrivals were even more numerous than Monday's was proved by a walk in the direction of Union Station. At a late hour last night the great arch of the station still continued to vomit forth its stream of visiting humanity. The hotels are jammed—mainly with business men. Every manufacturer in the province is here in person, or by representative. Exhibits at the Fair mean business.

Brilliant Picture.

The streets continue to present the variegated aspect of Fair time. You can see that the crowd is out for fun in the first place. If anything attractive crops up, they stop to look at it, and it takes very little to assemble a considerable throng. Fakirs are plying their oily trade by the score, and the street pianos these days are gathering in the pennies by the handful.

Be Sure to Eat.

To get a meal partakes very largely of the nature of an experiment just now. You may get one by going into a restaurant, or you may not—for an hour or two. The man who plans his engagements without allowing a good part of the day to the question of luncheon and dinner is going to break some of them.

Bob Eyes Him.

The railways are, after all, the best gauges of the incoming crowds, and a visit to Union Station yesterday was like a visit to the opera. If the officials had announced that Adelina Patti was to sing there yesterday, they wouldn't have got a bigger crowd. Fifteen specials arrived during the day, as heavily loaded as it was possible to draw them. The traffic, especially from the west, was enormous. The station superintendent could not remember a day like it, and when The World remarked to the gate constable that it was a busy day, the only answer he got was a reproachful look, more eloquent than words.

East Buffalo Cattle Market.

East Buffalo, Sept. 7.—There were only a couple of small bunches of sale cattle, but the enquiry was moderate and the market was nominally unchanged. Calves were in fair supply, mostly heavy; moderate demand, and sold about the same as yesterday. Choice to extra were quotable at $7 to $7.25; good to choice, $6.50 to $7; heavy, fed, $3.25 to $4.25.

Sheep and Lambs—The market was in improved condition for the top grades, and stronger and a shade higher, considering that the quality of the top grades was better. The basis of pretty good lamb prices was $5.75, but there were bunch sales at $6. The demand for the extra sheep and lambs was quite active. Lambs, choice to extra, were quotable at $5.75 to $6; good to choice, $5.50 to $5.75; common to fair, $4.75 to $5.50; sheep, choice to extra, $4.50 to $4.75; good to choice, $4.25 to $4.50; common to fair, $3 to $3.50; Canada lambs were in fair supply, three loads, good demand, and sold a quarter higher. They were quotable at $5 to $5.75.

Hogs—The market opened with a good demand. Yorkers quotable at $4.05 to $4.15; medium, $4 to $4.07½; pigs, $3.70 to $3.80; roughs, $3.30 to $3.60; stags, $2.50 to $3; grassers were quotable at $3.90 to $4.05. After the demand was satisfied the market eased up and prices were lower, except in very choice corn hogs.

CANADIAN PACIFICS ROSE.

Good Advance Was Recorded Yesterday

On the Reported Settlement of the Rate War—The Stock Higher in London on Montreal Buying — Movement of Wall Street Stocks—Notes and Gossip.

Wednesday Evening, Sept. 7.

The publication of the C.P.R.'s official note regarding the judgment of the Interstate Commerce decision seemed to assure a settlement of the rate war, and for this reason Canadian Pacifics have been very strong to-day. London reported an advance of 1½ points on Montreal buying orders, and the stock sold up to 90⅝ on both the Toronto and the Montreal Exchanges, closing pretty strong.

Other Canadian securities exhibited some strength. War Eagle selling up to 290, London Electric Light to 113½ and Toronto Railway at 103 on the Toronto Exchange. On the Montreal Board Richelieu brought 104, Montreal Railway 280, Halifax Tram 135 and Toronto Railway 103⅝.

Wall-street stocks, after showing some strength early to-day on London buying, weakened later on an advance of call money rates to 4 per cent. At the close Sugar showed a net loss of 5 points for the day, Tobacco 2½, Leather 1, B.R.T. 1⅝, G.E. 1½, Manhattan 1, N.P. preferred 1, Southern Railway 1, U.P. preferred 1, U.P. common 1, C.C.C. 1, Northwestern 1 and Rock Island 1.

American rails in London closed ⅝ lower to 1¼ higher. Canadian Pacifics advanced 1½.

Consols closed ⅛ lower in London.

In Paris 8 per cent. rentes were at 103f 32½c.

French exchange on London 25f 26c.

Railroad returns are encouraging. Out of 29 railroads reporting yesterday for the fourth week in August 23 showed increases over the same week in 1897.

Rock Island's net earnings for July decreased $52,049, as against same month last year. Increase from April 1 $235,824.

The net gold balance in the United States Treasury at Washington this morning was $235,862,887; increase $2,916,604.

It is reported Union Pacific will pay 2 per cent. semi-annual dividend.

St. Paul to-day acted as if a higher dividend were assured.

Money Market.
