of the Colonial Department are in strict accordance with such sentiments and suggestions. So far indeed, from the North American possessions being a barrier to Britain's prosperity, we believe them to be the most important link in the chain of British empire; for, divested of them, where were her power or importance in the Western world?—Can they be shaken off without detracting from her national power and glory? No! for her greatness consists in her vast colonial appendages, and her prosperity in her consequently augmented commerce.

But the present governing party in England have strangely mistaken her interests, or wilfully betrayed her. The latter we believe to be the case.—Is there an appendage to the British crown wherein they have not shaken the faith of the Colonists in the mother country, by acts of oppression or concession to popular clamor? Have they not, as an instance of the latter yielded to the voice of levelling mobocracy, in *conceding* to Canada a system of government wholly unsuited to a colony?—a system of ultra democratic tendency, without the legitimate influence of an hereditary aristocracy as a counterpoise, and completed their work by sending us a Sovereign Representative, who has *forgotten* to exercise the prerogative of his office. The fact is, we are *blest* with a constitution nominally monarchical, while in all its workings it is virtually democratic. Herein, then, is the defect—We *may possess* a literal transcript of the British constitution, but we are minus just ONE-THIRD of the qualification essential to its proper action, and hence the prerogative of Royalty is dependent on the caprice of its Representative, or his instructions from Downing-street.

Of the practical inutility of the present system of "Responsible Government," we have half abundant proof. We are no enemy to the legitimate rights of the people, but we like no innovation on the rights of the sovereign. We wish the people to have a just and equitable share in their country's legislation, but we would also restrain their democratic propensities by the strict barrier of monarchical rule. Therefore, the mild constitution of Britain, where aristocratic principles support the rights of the crown, is scarcely suited to a colony, where the elements of democracy so greatly preponderate.

On the subject of Annexation, we have little more to say than that we utterly repudiate it, as scarce worthy even a consideration, and we have no doubt the parties who so far forgot their allegiance to their Queen, and their own personal honour, as to move the absurd question, are, heartily ashamed of their conduct.

ATTEMPTED INSURRECTION IN MEXICO. *New Orleans*, Nov. 11. P. M. We have advices from the city of Mexico to the 20th of October, which state that Volcaro had raised the standard of revolt in favour of Santa Anna, in Concula. The insurrection, however, had been suppressed, and the leaders executed.

REPUBLICAN ECONOMY.—A New-York daily paper says: that the single item of *cigars* for the Common Council of that city, from 1st May 1848 to 1st May 1849, is *two thousand nine hundred and sixty two dollars*. If the cigars cost so much what must be the expenses of the wine?"

REPUBLICAN CORRUPTION.—The *constructive* mileage of the Senators of the United States, amounts to *forty thousand dollars*. The new Comptroller of the Treasury seems to be inclined to disallow this wholesale robbery, and the subject will be brought up for discussion next meeting of the Senate.

ARRIVAL OF IMMIGRANTS—DISASTER AT SEA. The barque Robert, Capt. Beauchamp, from Liverpool 13th ult., arrived at quarantine yesterday morning, with 300 steerage passengers. On 17th ult., 9 P. M., lat. 51, long. 17, the Robt. came in contact with brig Irene, of Newcastle, England, from New York for Liverpool; by all night and next morning took off Capt. John Allen and crew, ten in number, the brig being in a sinking condition. The R. lost cutwater, foreyard, fore-top-gallant mast, and received other damage.—[Boston Paper.]

We regret to learn that His Lordship the Bishop was seized with severe indisposition on his journey homewards from his visit to Lunenburg. His Lordship arrived in Town yesterday afternoon somewhat recovered, and we trust a few days rest in the bosom of his family, will complete the restoration of his health.—*Halifax Church Times.*

FRIEND SAMUEL BROWN, ENFIELD, N. H.
You ask me to give my opinion of the Fluid Extract of Valerian, which you prepare. When it a secret remedy or a patent medicine, I certainly would not reply. But from the honourable ground which you have taken in this matter, and knowing also the labor you have bestowed upon this preparation, I am willing to give publicity to my opinion of the preparation referred to. Ever since our knowledge of organic chemistry has been so much increased, we have found out that many very excellent remedies are in the natural state so combined and associated with other principles as to render them in a great degree useles to us. This was remarkably the case with the Valerian. We could not use it as often as we wished, because of the great bulk both of powder and infusion which is also necessary to throw into the stomach in order to get a full effect. Nausea and even vomiting resulted from the large doses. This compelled us to abandon its use. Chemistry showed us that the active principle is a peculiar acid (the Valerianic acid) which exists only in small quantity in the root. In your method of preparation this active principle is detached from the nauseating constituents of the root, and obtained in solution. We may then look upon your Fluid Extract of Valerian as a solution of Valerianic Acid. The action of this article upon the nervous system is most happy in all cases where the sum total of nervous energy is below the healthy standard, and it hence becomes a most important remedy. We owe you and others many thanks for putting so valuable a remedy as the Valerian into a convenient shape for use.

Yours respectfully,
EDWARD E. PHELPS M.D.
Prof. Therapeutics and Mat. Med. in Dartmout.

The above invaluable Preparation is signally efficacious in all Nervous and Hysteric Affections, beeplessness, and Sick Headache, producing quiet, and tranquil sleep, and leaving no unpleasant sensations after its use.—the inevitable result of Opiates, Camphor, and the many articles usually administered.

Having had an opportunity of giving a thorough trial to Brown's Shakers' Fluid Extract of Valerian, and having seen its good effects especially manifested in a severe case of Tic Doulouroux, I have no hesitation in saying that I consider it superior to any other form in which the Valerian is ever used, and as eminently deserving the attention of the medical profession.

Dr. James Coxetter,
WOULD inform the hundreds who apply to him for the cure of delicate diseases, that he holds out no delusive hope that he will cure them "in two or three days." He is called upon daily to witness the sad effects of so wicked a deception. He would, however, assure those who may come under his care, that they may rely upon a pleasant and speedy cure.—Advice to the Poor, gratis.
