signed to this letter? Three of them are citizens of other provinces, and when they join citizens of this province in a demand for a change in our school-law, they are committing an impertinence. The people of Nova Scotia will take care of their own school-law. And the signers of this letter, who belong in this province, exhibit their ecclesiastical titles too much as if they supposed them to indicate the possession of some peculiar authority in civil matters. The man whose signature to this manifesto to his "fellow-citizens of other denominations," appears thus, † Thomas Louis, is known before the law and to the government as Thomas L. Connolly,—a very estimable man, without doubt, but having no more authority on account of his ecclesiastical office to speak for others in civil concerns, than the humblest elector in his church. If he displays his commission from the Roman Pontiff to look after the interests of his subjects in this part of the world, we have only to say to him that we attach no more value to such commission in connection with our political affairs, than if it purported to be received from the man-in-the-moon. The parents of his church have the right of free speech and free discussion. If they are aggrieved in the operation of any law, they have the right to approach the Legislature in their own names and ask for relief. But when any individual assumes to speak for them and to make demands on their account, the greatest caution must be used to determine whether he has been invested with authority in accordance with the national constitution; otherwise we make ourselves parties to the perpetuation of an arrogant despotism.

Other points in this document deserve consideration; but want of space compels us to postpone notice of them till some future time.

The following form of Petition has been prepared by "the Sons" and "Templars" to be presented to the Local and Dominion Legislatures:—

The Petition of the Undersigned——in the County of——

"HUMBLY SHEWETH—

"That the law already provides that no intoxicating liquors shall be sold in polling sections in which a majority of the rate-payers disapprove of the traffic.

"That the penalties for breach of this statute are found inadequate, in many polling sections, for the suppression of this illicit trade.

"Your petitioners therefore humbly request:

"(1) That your Honorable House pass an Act empowering Clerks of License and Justices of the Peace to issue warrants for destruction of liquors kept for illicit sale.

"(2) That said Act apply to all meeting districts, whether a majority of the rate-payers petition against licenses or not.

"(3.) And your petitioners request that the city of Halifax be no longer *exempt* from the operations of the general License Law of the Province, but that licenses within the city limits be granted only when a majority of the rate-payers of the district shall have petitioned for the same.

"And your petitions, as in duty bound, will ever pray."

The following is the Petition to the Dominion Parliament:

The Petition of the undersigned inhabitants of —— in the County of —— Province of ——,

"HUMBLY SHEWETH—

"That your petitioners view, with the greatest apprehension, the alarming extent of intemperance throughout the Dominion, consequent upon the facilities afforded for the sale of intoxicating liquors.

"The most careful enquiries into the causes of pauperism, immorality and crime, in this and in other countries, show that a very large proportion, probably not less than three-fourths, of these evils arise from the traffic in strong drinks.

"That the history of legislation in regard to the liquor traffic conclusively proves that the evils referred to cannot be successfully repressed so long as the traffic is licensed and protected by law.

"That committees of both Houses of Parliament have recommended the prohibition of the said traffic.

"Wherefore your petitioners humbly pray that your Honorable House may be pleased to pass an Act prohibiting the importation, manufacture and sale of intoxicating liquors as beverages, in the Dominion of Canada.

"And your petitioners, as in duty bound, will ever pray."

SAYS the Pittsbugh *Advocate*:—

Rev. W. H. Milburn accompanied by his son as guide dropped into our office a few days ago. He will be better known to some of our readers as "The Blind Preacher." All means to obtain sight have entirely failed, and he is now totally blind; but his general health is better than ever before, and his spirits good. Brother Milburn after a little wandering among the Episcopal brethren, has returned to his old home again. He is one of the most accomplished orators of the country; and any of our friends who are looking around for a lecturer to help them out in their church enterprizes, would do well to give him a call. His address is New York care of Harper Brothers.

Can the following from the Nashville *Advocate*, be true? After the rumour that the *Atlantic Monthly* was to be purchased in a somewhat similar manner, we are somewhat distrustful:

A FEW of the more prominent and wealthy Methodists of Boston have purchased Music Hall. It is intended to hold religious services there on the Sabbath, placing over the congregation one of the best ministers. This will give them control of one of the largest and best public halls in the city, with a seating capacity of three thousand including the stage.

A STUDENT writes to the *Dalhousie College Gazette*. We have seldom read a more humiliating representation of a public institution than that given editorially in the *Gazette* some weeks ago, and which suggested the present letter by a student. For a College which started with the aim of eclipsing all others, or a desire to absorb them, this is surely a lamentable confession:—

The basement of Dalhousie College is fitted up for renting. In one apartment there is a dealer in Machinery, in another a Clothier, and in the apartment which is the subject of this article, a large sign over the door proclaims to everybody on Prince Street, "Turtle Grove Brewery." In other words, those having the trusteeship of the College property—the Governors—gave themselves up into the lap of the Delilah of greed for a moneyed consideration, by allowing the basement of the College to be converted into a factor of the crimes and guilt of the liquor traffic. In the second storey we have a Prof. of Ethics and Political Economy, in the basement, the office of a brewery. Truly, the learned Professor will have to work, if he can by precept in the second storey, wipe out the insult flung, in the basement, at one of the noblest reforms of the age. But some may say the College is "hard run" for money, and considerations of morality should not come between the Governors and a good rent for the basement. Let history answer. During the days of slavery, Antioch College staggered under $60,000 debt. Said a slave owner to its President, "I will pay one-sixth of the debt if you will promise me no negro shall enter its walls." "Let it perish first," was Horace Mann's reply, and had equal heroism, not to say good sense, actuated the Governors or their agent, in the matter of a tenant for the basement, the Judas sup from the liquor traffic would never have defiled the treasury of Dalhousie. Some may think this a trifling question. Well, this is but natural, especially to those residing in the city, where nearly everybody is a liquor dealer, related to one, dependent on one, or controlled by one, but the 106 young men attending this institution think differently, most of whom express their contempt of the act in no measured terms. That any of the names on the catalogue have been marked by the asterisk of death, and owe their untimely end to the use of wine, I do not know; but in a city like Halifax, when three hundred licenses are granted by that broad cloth mat, the City Council, it was just a little too much for Dalhousie to throw its influence against the faltering virtues of its pupils. Acadia College or Mount Allison would just as soon allow bar rooms opened in their basements as breweries, and let us hope that at the end of the present lease, the voice of the turtle will no longer be heard in the "basement."

"Grant me to see, and Ajax asks no more," was the prayer the great poet put into the lips of his hero in the darkness which overspread the Grecian camp. Let those who were instrumental in extending the liquor traffic through the property of the College, repeat that prayer daily until their moral vision is restored, and further communication will be spared.

FROM *Zion's Herald* we have this item:—

A revival of wonderful power in is in progress in the Congress Street Methodist Episcopal Church, Portland. One week ago last Sabbath, the pastor, Rev. C. B. Ritblado, feeling that he must see the salvation of his people, came down from the pulpit and plead with the church to consecrate themselves to God for a revival; and with the uncoverted to decide immedimediately for heaven, when about thirty came forward to the altar. Already at least one hundred have manifested a desire for salvation, and the work goes gloriously on. Last Sabbath was indeed a pentecost. Since Brother Pitblado came to this charge, $5,000 have been raised toward clearing off the debt on the church, and repairs have been done to the amount of about $1,600. Now the Lord is pouring out a blessing upon us, like that promised to those who bring all the tithes into the store-house.

Editorial Notes, &c.

MARKETS.—No changes since last week. Hence we lay them over till next issue.

CHARLOTTETOWN.—The revival had been gaining in power, and widening in extent up to our latest intelligence.

AN APPEAL, by the Educational Committee of the Presbyterian Church of the Lower Provinces, has been issued. We will publish it next week.

ENGLISH MAIL was delivered this (Monday) Morning, but too late for the insertion of our English Letter. This, with other correspondence, received by the same mail, will stand over and keep well till next week.

CANNING.—The good work still continues. Seventy persons have been forward for an interest in prayer. There have been but few services held besides the usual Sunday and week-evening meetings.

NEWS IN BRIEF.

NOVA SCOTIA.—The Presbtyerian Congregation at Dartmouth have added $300 to their minister's salary, making it $1200.——A frightful snow storm here on Tuesday night.——The Baptist Missionaries have arrived safely at Rangoon.——St. Paul's Church was robbed one night last week. $13 were stolen from the vestry.——Daniel O'Rourke, found drunk on the streets of Halifax, fell dead on being taken to the Station House.——Very glowing accounts are given in the Amherst *Gazette* of the Wallace Free Stone Company. 110 per cent. profit on the operations for last season. The works are to be greatly advanced. Success to them!——A Company is organizing to run steamers between Halifax and ports in Cape Breton.——A Nova Scotian, named John Wallace, is in Portland, Me., claming a woman calling herself Mrs. Waite, as his wife. His children also swear to her identity. The jury on the case have disagreed and been discharged. Some think it a case of mistaken identity.——A man named McPhee cut himself in the leg while chopping wood, and has died of the wound.——Rev. Mr. Mitchell's lectures in Halifax on "Walter Scott" and "Chalmers," are said to have been very fine.——The total value of fish taken in Nova Scotia during the past year is estimated at $6,200,000. The catch of salmon is said to have been fifty per cent. larger than the year preceding.——Mr. Jenkins has been elected for Dundee, and will return to England immediately. He is thus prevented from lecturing anywhere on this side.

NEW BRUNSWICK.—Rev. John Waterhouse was announced to preach on Temperance last Sunday in Newcastle.——A Furniture Factory is to be built in Sussex.——Six Locomotives for the Intercolonial are being built at Portland, Maine.——An infant, a week old, was left at the door of the Convent, St. John, last week.——Legislature of New Brunswick meets next Thursday.——The Provincial Building Society, St. John, has reported. Its business has been successful. The three retiring directors, Messrs A. A. Stockton, C. W. Wetmore and A. H. Eaton, were re-elected, and at a subsequent board meeting Mr. Wetmore was re elected president, and W. K. Crawford, Esq., vice-president.——Rev. James Bennett delivered an able lecture in St. John on the "Varieties of Humour."——Rev. Mr. Carey's congregation are occupying the Mechanics Institute, St. John, until their church is repaired.——A New Castle despatch says:—William McGilvery of Antigonish, a workman on Section 10 was found dead Wednesday lying on the snow, within a mile of the contractor's store. When found his hat and mits were off. He had evidently perished by exposure. A bottle of rum in his pocket, divulged the secret of his death.——A NEW BRUNSWICK LUMBER KING.—Mr. Alexander Gibson of St. John, N. B., exported from that Province during the year 1873 nearly one hundred and twenty millions of lumber in 157 ships of 124,700 tons. He has at the present time in the woods, getting timber, over 1,200 horses and 6,000 men. Some indication of the character of "this noble-hearted Irishman," as he has been styled, is given in the fact that he has built up a town with houses, schools, and a church which cost $50,000 for the accommodation and improvement of the men in his employ and their families.—*P. Witness.*——We learn from the *Express* that as the Rev. Mr. Barnes, of Oromocto, was having his house removed from Oromocto Island to the main land last Friday, it sank to the bottom whence it cannot be recovered. The loss falls heavily on the owner, and his friends are subscribing liberally toward the purchase of another residence for them. We hope the friends of Bro. Barnes will contribute liberally enough to make good his loss.——THE AMOUNT OF SNOW which, in the late snow storm, fell on the 810 acres of ground which comprises the City if collected together would form a cube measuring 430 feet each way.—*Tel.*

Twenty-nine person have professed faith in Christ. The congregation in the village have been doubled during the last five months, and the friends of the cause are about taking steps for the enlargement of the present, or the building of a new church. The Rev. William Allen attended the revival meetings and very ably assisted the pastor.—*Tel.*

All over Maine, Hampshire, and Vermont, as well as in the northern part of this province, an excessive degree of cold prevailed.

Sarah Simley the use of his pulpit.——Attempts have been made to burn down Methodist Churches in Hamilton, Canada. What the cause is we are not informed.——Cases of actual starvation are reported in New York.——Petitions are in course of preparation to be presented by the Roman Catholics of the Maritime Provinces in favor of Separate Schools.——The News of Dr. Livingston's death is now universally received as authentic. The *Christian Era*, Adventist Paper, after its disappointment in regard to the end of the world once more says:—After all, may it not be true that we *are* the simple minded, foolish people the world at large esteem us to be, and our hopes a mere dream, an hallucination?"

It is now generally admitted by honest physicans, that when once the consumption is fairly fastened upon the lungs, no human power can save the patient from death. They also say that about fifty per cent. of those who die from this disease can trace the cause to a neglected cough or cold, which might have been cured by a small bottle of Liquid Opodelic, or what is the same thing, *Johnson's Anodyne Liniment.*

OFFICE OF GEO. C. GOODWIN & CO., 38 Hanover Street, Boston.

MR JAMES I. FELLOWS.

DEAR SIR: We have been dealing in your Hypophosphites about two years, and although the price seems high (none too high considering its virtues), we think it has succeeded better than any preparation we have ever handled, and cheerfully recommend it to all in need of a good medicine. Yours respectfully,

GEO. C. GOODWIN & CO.

Charlottetown, P. E. I., Dec. 2, 1871.

Messrs. T. Graham & Son.

From the recommendation of a friend I procured some of your Pain Eradicator which I have kept for sale for the past eighteen months The cures effected by it in this place in cases of *Rheumatism Asthma*, and many other complaints are really astonishing. It is generally admitted by those who have used it, to be better than it is represented to be, and they recommend it to others, hence its extensive sale without advertising. J. D. McLEOD.

TRUE MERIT APPRECIATED.—"BROWN'S BRONCHIAL TROCHES," have been before the public many years. Each year finds the Troches in some new, distant localities, in various parts of the world. Being an article of true merit, when once used, the value of the Troches is appreciated, and they are kept always at hand, to be used as occasion requires. For Coughs, Colds, and Throat Diseases, the Troches have proved the efficacy. For sale everywhere. (4)
