CAN GO FREE, BUT MUST GET OUT OF CITY AT ONCE

Thomas Bell Was Begging, But Is Given Chance.

Promising to leave London immediately, Thomas Bell, whose name may be found in the police records of Peterboro, Hamilton, Brantford, North Bay and Belleville, was allowed to go on sustended sentence in Magistrate Graydon's court today. He was charged with vagrancy, begged for another chance, told the magistrate he would go to work, and on the strength of this promise was allowed to go.

Was Begging.

In granting Bell liberty, his worship pointed out to him that he wouldn't want the accused to think that the police were continually on his trail, because of his previous record. Bell was found on the streets, soliciting funds from citizens on the strength of being a cripple. Inspector Robert Birrell told the court that Bell was "just as healthy as I am."

Shirking Work.

Bell had cards printed saying that he was a cripple and sold shoe laces and other small articles. Magistrate Graydon told him that it was an astounding thing to think that a man should shirk work year in and year out. Starting in 1896, Bell had first been sent to the reformatory, and the greater part of the nine years which followed he spent behind prison bars.

SPECIAL COMMITTEE FOR CANADA GRANT MOST IMPROBABLE

Authoritative Statement Is Given by Rockefeller Foundation.

There is little or no probability of any special committee being appointed to administer the portion of the Rockefeller gift to medical colleges, which may be given to Canadian institutions. This is made clear in the following statement from the Foundation, received by The Advertiser today:

"Many inquiries are reaching the offices of the Rockefeller Foundation with respect to the policy to be adopted in connection with the aid to Canadian medical education which has been provided by Mr. Rockefeller's recent gift.

Merely Rumors.

"Reports have gained currency to the effect that the Foundation will formally appoint a Canadian commission to act in behalf of the board. While no meeting of the trustees of the Foundation has been held, and no definite decisions have been reached, certain lines of policy may be confidently predicted. The Foundation is not likely to appoint in any formal or official way a special committee for administering the gift to Canada.

"It is true that no program for co-operation in Canada will be adopted by the Foundation until after conference with a large number of prominent Canadians representing all the significant institutional and geographical interests in the Dominion.

"The officers have solicited from a number of Canadians suggestions as to persons with whom conferences should be held. Nothing further has been done and above all no appointments to an official commission have been made or are likely to be made."

$5,000,000 for Canada.

With reference to the most recent of Mr. Rockefeller's gifts, George E. Vincent, president of the Foundation, added this statement:

"In order to carry out Mr. Rockefeller's suggestion concerning Canadian medical schools, the trustees of the Foundation will be asked by the officers to set aside approximately $5,000,000 for the improvement and development of the leading medical schools of the Dominion. From this sum appropriations will be made by the Foundation to medical schools on condition that they raise additional funds from other sources. It is hoped that $5,000,000 thus employed by the Foundation at this time will give a distinct impetus to the development of medical education in Canada."

CLERGYMAN WAS LATE, SO YOUNG COUPLE GOT WORRIED

But He Got Out of Snowbanks and Married Miss Rawson and C. P. Tye.

A bride and groom to be married at high noon yesterday were getting a little worried when the clergyman failed to put in an appearance. However two hours afterwards he came rushing in, out of breath in the person of Rev. A. C. Bingham, who had been snowed in on the way from Parkhill and was unable to get into London at the appointed hour, and so besides being showered with wedding presents, they were also showered with excuses, and the ceremony was performed.

The bride, who was Miss Alice Rawson, daughter of Mr. and Mrs. J. Rawson, 12 Elmwood avenue, looked pretty in her wedding gown of white charmeuse, and was given in marriage by her father to Charles Percival Tye. The ceremony was performed at the bride's home, under an arch that had been used for like ceremonies three times before and was brought from Ridgetown for the purpose. The bride was attended by Miss Kathleen Wellman, wearing white satin and carrying pink roses. James Rawson, brother of the bride, was groomsman. Miss O. Perns of Petrolea sang during the signing of the register.

A reception was held afterwards, Mr. and Mrs. Tye leaving later for a trip to American cities. On their return they will reside in London.

FOUND HIS BED IN HOTEL'S BATHROOM, BUT WAS DISTURBED

Juvenile Simply Does Not Like Home Life.

MUST HAVE SOME MORE

This Time He Goes To One Near Toronto For a While.

In the juvenile court this morning an 11-year-old boy appeared for having continually remained away from home. The youngster can well be described as a typical Arab, for despite his tender years he has had no desire to remain at home, but for weeks at a time depended upon the kindness of citizens for a living.

He fell into the clutches of the police when he entered a downtown hotel, made his bed on the bathroom floor and could not be awakened. The employees of the hotel, finding it impossible to gain admittance to the bathroom, called a policeman, and when the officer poked his head over the transom he was surprised to see the youngster curled up on the mat, sound asleep.

Wants to Wander.

The little chap offered no reason for not liking his home. He simply possesses a wanderlust, and has never enjoyed playing with the other children of his neighborhood. He appears to be a deep thinker, and found nothing interesting in his home life. He is the oldest of seven children, according to Inspector Birrell.

During the summer months the boy spent much of his time about Carling Heights where the soldiers were quartered. The men in uniform were favorites with him, and they also liked to have him around.

Welcomed by Soldiers.

The young lad practically lived at the Heights during the summer, the soldiers seeing that he received sufficient to eat and a tent to sleep in, despite the fact that this is contrary to orders.

A couple of weeks ago the lad was being taken to the Shelter, but the street railway service was not what he thought it should be and he left the matron on the corner while waiting for a car. That was the last time he was heard of until he was found in the hotel.

Magistrate Graydon gave him a good talking to and ordered him sent to the St. John's School for Boys, near Toronto.

HAD OVERCOAT STOLEN WHILE IN THE LIBRARY

Mr. Hannah Recovered It Later in Pawnshop.

Bert Hannah, Princess avenue, had his overcoat stolen from the London Public Library last evening and rescued it a few hours later in the pawnshop of Joseph Fox.

Bert Hannah had seated himself in the reference room of the library, hanging his coat on the rack a few feet away. Going to put it on a half an hour later the coat was missing. The police authorities were notified, and detectives found the coat later in the above-mentioned pawn shop.

A man giving his name as Tom Daly, and his address Dundas street, stole the coat, but the name and address he gave were both fictitious. Local detectives are investigating.

C. P. R. PRESIDENT NOT HERE, THOUGH EXPECTED

Now Officials Deny All Knowledge of His Arrival.

President E. W. Beatty of the C. P. R. was to have passed through the city today in his private car, but for some unknown reason did not come in on the Montreal train at 1 o'clock. According to the local officials today, they know nothing about when he is likely to go through, although a few days ago they announced he was coming.

Possibly Mr. Beatty was reluctant to venture into these parts in the cold weather, or possibly he has given instructions so that the people of London will not know when he hits this city, are the explanations given.

BOUNTY ASKED ON SHIPS BUILT BY CANADIANS

Ottawa, Jan. 16.—By Canadian Press.—Representatives of Canadian shipbuilding companies and of returned men were again in conference with members of the government at noon today in regard to the suggested bounty on shipbuilding in Canada. The delegation asks that for a period of ten years the government should grant a bounty on steel ships built in Canada of $10 per displacement ton and $10 per indicated horsepower.

WILL ALLOW S. A. C. TO HANDLE MONEY

Veteran Advised by Court, Agrees To This.

A veteran, who was badly injured while in the army, appeared in police court this morning on a charge of being intoxicated. Magistrate Graydon did not impose a fine, but asked the former soldier to make his money over to the Soldiers' Aid Commission in order that that body might keep it to provide for him.

The ex-soldier was agreeable to this and his worship pointed out that he had recklessly spent his money, which he badly needed. During the month of December, his bank book shows, he spent $400, and in the opinion of the magistrate men have been preying upon him for his money. It was in order that this might be prevented that the unfortunate soldier was asked to permit Secretary Ed. Lance to take care of his money.

The S. A. C. will pay the man's board and provide whatever necessities he might need. He told the court that he had loaned considerable money, whereupon Magistrate Graydon commented that this was the trouble and that he would never get it back.

J. Hamilton was fined $2 and costs for violation of a traffic bylaw.

COLD WEATHER HAS HAMPERED RAILWAYS

Causes Delay and Engines Can Pull Less.

The cold weather is seriously affecting the operation of the railroads throughout this district, most passenger trains being delayed, and the freights being hampered greatly. The train from Montreal on the G. T. R. was two hours late today, and the C. P. R. train from the same city was 1:45 minutes behind schedule time.

Packing Freezes.

Freezing of packing in the journal boxes and the snow getting on the brakes is blamed for the delay. The freezing of the packing frequently causes hot boxes, according to local officials. This necessitates great delay and very few trains on either road were on time today.

Tonnage Reduced.

The tonnage of freight trains has been reduced 30 per cent during the past few days, and the heavy engines, which usually pull 70 cars, are now only drawing between 40 and 50. This means that more trains have to be sent out than usual.

Palmerston was about the coldest place in Ontario last night, according to reports received by the local dispatcher of the G. T. R. The mercury dropped to 16 degrees below zero at this town.

OFFICERS DISCUSS REORGANIZATION OF THE 29TH REGIMENT

Would Re-Start the Unit Disbanded During War.

Lieut.-Cols. J. A. Oliver and A. J. Windell of Galt, both officers of the 29th Regiment, are in the city consulting with Brig.-Gen. H. A. Panet, officer commanding this district, regarding the reorganization of that regiment. The unit was disbanded during the war, when most of its members joined the Canadian expeditionary forces, and the officers are anxious that reorganization work be commenced at once.

St. Catharines, Jan. 16.—In reply to complaints that the fumigation of fruit trees imported form the United States was unsatisfactory, Dominion Commissioner Baxter told the Niagara Peninsula fruit growers today that the difficulty lay with the express companies not giving quick dispatch. WINTER PICNICS WILL BE WEEKLY EVENTS AT "Y"

Winter picnics will be held in the Y. M. C. A. by the factories of the city regularly each week, beginning at the end of this month. Several of the large factories have been lined up, and programs of activities are being worked out.

On January 31st, the employees of Beatty Bros. will take full possession of the building on Wellington street. Committees have been appointed, and are already busily at work. A survey of the building has been made by twelve of the employees, and a program is being prepared introducing novelties that will make the evening a still greater success than the last picnic, in the opinion of the industrial secretary of the "Y."

The top floor of the building will be given over to the amusement of the children. It is expected by the committees that over 600 people will be present that night.

PRINCETON NEWS.

Last Sunday Rev. S. B. Morris gave a fine address on the Forward Movement.

THE PIANO WORTH WHILE.
It is poor economy to buy a piano because there may be a slight difference in price between one piano and another. A good piano will last a lifetime. The pianos of Ye Olde Firme of Heintzman & Co., Limited, have in many cases passed from generation to generation. They are built to last a lifetime, besides possessing a distinctive tone, touch and power, that has made them a favorite with great artists the world over. It should always be a pleasure to visit the warerooms at 242 Dundas street, London. b

The fate of the bylaws submitted to the electors on January 1 was certainly a big surprise to pretty nearly everybody. Even the soldiers' memorial hall, which nobody apparently objected to, going down to defeat with the rest. On the face of it, it looks as if the electors were tired of spending money even on worthy causes, and the new council should certainly respect the wishes of the electorate during the year 1920.

Personally, I think that it was a shame that the industrial bylaw was defeated, as it would have cost the citizens nothing, and it would certainly have helped to bring industries here, which, of course, would help to keep the tax rate down. I trust that we shall have another opportunity in the near future to vote on this important bylaw, and I feel sure in that case that it will carry.
