A House with a garden running to the edge of the cliff overlooking the Richelieu Street was bought in Decem 1865 & the hospital opened in it in June 1867

~~The present building~~

This was found to be inadequate for the number of patients, & a large property was purchased from the Hotel Dieu on Claire fontaine Street and a fine ~~[illegible]~~ structure erected & fitted with all modern appliances, & an inspections board erected soon afterwards in year. The new hospital was opened on 1901
