MARKET VALUES ARE FIRM

St. Paul Led a Slight Rally at New York Yesterday.

C.P.R. Fractionally Higher, With Other Canadian Stocks Steady—Market Quotations, Notes and Gossip.

World Office,
Thursday Evening, June 26.

Except for the scalping of room traders, the local market to-day would have been almost inanimate. The total sales were: Stocks 5790 shares, and bonds $20,000; and, of this, C.P.R. contributed 4510. There was another short-lived rally in this issue to-day, and the advance early showed ¾ from yesterday's close. The price eased later, with New York, and closed at 133⅜, or ⅝ above last night. Other stocks made insignificant changes, with a steady, if not a firmer, tone. Nova Scotia Steel lost another point to-day, and closed offered at 105. The pressure in this stock is thought to be from the inside, and quotations at Montreal, where there is little of the stock held, are looked upon as a feeler for the market here. Twin City sold in a small way, at a fractional advance, and Toronto Railway was not dealt in. Dominion Coal was firmer, bringing ⅜ to ¾ in advance of yesterday. B. C. Packers sold unchanged, at 100⅜ and 101. Dominion Steels still lack strength, the common only realizing 51½ and the bonds 92⅞. Western Assurance brought 99⅜ to 100¼; British American, 99⅜ to 100½; Superior, 204½; Northern Navigation, 153⅛, and Republic, 9½.

Banks sold at steady prices—Montreal at 255½ and Hamilton, 231½ to 231⅞.

Price changes at Montreal to-day were narrow, with general steadiness. C. P. R. sold 133½ to 133⅛; Twin City, 117½ to 118; Richelieu, 110 to 110½; Cable, 165; Dominion Steel, 52 to 52¼; do., pref., 94, and bonds, 92½ to 92¾.

On the Standard Exchange to-day, War Eagle sold at 13; C. P. R., 113½ to 113½; Republic, 8⅞ to 9, and Centre Star, 39½.

More cheerful news from London gave evidence of strength in the New York market, and, under the lead of St. Paul, other grangers changed hands at higher figures. There is still said to be a large accumulated short interest, that will exhibit an increased desire to even up, on continued favorable news from strike headquarters and from the King's medical attendants.

London Stock Exchange will be closed until Monday next.

At Boston, to-day, Dominion Coal closed 135¼ to 136, and Dominion Steel, 51⅝ to 52⅛.

At Philadelphia, Lake Superior closed 29⅝ to 29¾.

New York Times: One of the results of the unexpected announcement of the King's illness and the continuing uncertainty as to its termination has been the creation of a large short interest in the market. The biggest short interest is said to be in St. Paul, Atchison, Union Pacific, Erie and Reading.

New York Tribune: The interests behind Wabash speculation would doubtless not object to a reaction in the shares, in order to increase their long interest in figures. Wabash has enjoyed a marked advance, and a reaction now might increase the stock's chances of selling higher, later on in the season.

New York Times: Such information as reaches Wall-street touching the status of the coal strike indicates earlier approach of the settlement than has been counted upon. It was currently reported in banking circles yesterday that a new plan of conference, and, possibly, of conciliation, was already progressing, having sanction of certain railway managers, who, hitherto, have been aggressively devoted to the theory that the strike must be fought to such an end as will mean the ousting of unionism as an influence at the mines.

Joseph: Buy Steel preferred at the opening. J. P. Morgan and his syndicate paid on an average $94 per share for 50,000,000 of preferred stock to carry thru the convention plan. The market will do better, and will offer good trading opportunities. St. Paul will sell much higher. Take hold of Pacific issues. Col. F. & I. and American Ice directors will act on dividends to-day. Canadian Pacific, Southern Railway pref., U. S. Leather and American Locomotive pref. issues will work higher. Car and Foundry common is also a purchase.

Local Bank Clearings.

The clearings of Toronto banks for the week ending to-day, with the usual comparisons:

	Clearings.	Balances.
This week	$13,914,285	$1,615,585
Last week	15,342,301	1,691,334
Year ago	11,513,545	1,481,762
Two years ago	9,577,816	1,296,910

Railway Earnings.

Erie—May, gross decreased $320,244; net increased $6403; eleven months' gross increased $2,098,767; net increased $1,844,336.

Hocking Valley—May surplus $165,278, against $86,808 last year; increase $78,471.

Ontario & Western—May surplus, $9.35; net decrease $78,407.

Southern Railway—Third week, June, increase $74,067.

Chicago, G. W.—Third week, June, increase $7986.

Ches. & Ohio—Third week June, decrease $76,923.

Norfolk—Third week June, increase, $1386.

Louisville & Nashville—Same time, increase $80,695.

On Wall Street.

J. G. Beaty, 21 Melinda-street, received the following from McIntyre & Marshall at the close of the market to-day:

The much-improved condition of the English King to-day, with slightly easier conditions of foreign exchange markets and indications of protracted drought in Texas likely to be broken within the next 48 hours, were the most potent factors which developed in the general stock market situation to-day that were favorable to prices. Manipulation was resumed in Gould stocks, especially in Missouri Pacific, but there was still an absence of any news in explanation of its continuance. The strength in St. Paul was credited to buying for Standard Oil and Western interests, and there were vague rumors of some extra dividend or stock rights in the near future. None of them could be confirmed. There was an absence of outside response to the effort to advance prices, and, late in the day, profit-taking by traders on this, and the continued dull and heavy conditions in industrial quarters caused fractional reactions thruout the list and a tame tone at the close. The break in Western Union attracted general attention. The stocks had been weak the past few days, under scattered liquidation, and seemed to lack support to-day. Its weakness is due mostly to the heavy loss it will sustain in revenues thru the loss of Pennsylvania Railroad contract, which goes to the Postal Telegraph Company. Besides this, there is increased competition with the telephone companies. The Colorado Fuel dividend is expected to be reduced at to-day's directors' meeting, or to be deferred until the next quarter. There was nothing new on coal strike, but Wall-street generally regards an enforcement of settlement as now not far off, and is inclined to discount the development of this as a market factor.

Ladenburg, Thalmann & Co. wired A. J. Wright & Co. at the close of the market to-day:

The stock market to-day was quiet and irregular. The tone was helped by the strength of St. Paul, which appeared to be due to the work of Western operators, and was encouraged by the crop prospects in the roads territory, aside from this stock, price changes, for the most part, were fractional. The news from London was more encouraging, and that from the anthracite strike strengthened by the belief that the miners would weaken, and that the disaffection would spread. There was no arbitrage, as the London Stock Exchange is closed until Monday, and commission houses did comparatively little. The foreign exchange market was somewhat easire, and money about the same.

Laidlaw & Co. wired J. A. MacKellar at the close of the market to-day:

On a volume of transactions rivalling that of yesterday for insignificance, the stock market opened firm this morning, influenced somewhat by the more cheerful reports from King Edward's bedside, and maintained its strength fairly well thruout the day. The crucial stage of the King's illness, however, had a restrictive influence on trading. St. Paul, R. I., Atchison and Missouri Pacific were in unusual demand from Western sources, and other grangers improved in sympathy. Canadian Pacific was bought more freely for London and Canadian accounts. The industrials furnished conspicuous points of strength in Car Foundry, which advanced early on the annual statement. Sugar was advanced sharply against the shorts. W. U. was under pressure, on the official confirmation of reports that a rival company had acquired its rights over the Pennsylvania Railroad. Close is quiet and featureless. Money, 2¾ to 3 per cent. all day; no change in time money. Total shares, 275,000.

Money Markets.

The Bank of England discount rate is 3 per cent. Money, 2¼ to 2½ per cent. The rate of discount in the open market for short bills is 2⅛ to 2⅛ per cent., and for three months' bills 2½ to 2⅝ per cent. Local money market is steady. Money on call, 5 per cent.

Money on call in New York steady; actual transactions ranging from 2½ to 3 per cent.; last loan, 2¾ per cent.

Price of Silver.

Bar silver in New York, 52¾c.
Mexican silver dollars, 42½c.

Foreign Exchange.

Messrs. Glazebrook & Becher, exchange brokers, Traders' Bank Building (Tel. 1001), to-day report closing exchange rates as follows:

Price of Oil.

Pittsburg, June 26.—Oil opened and closed at $1.22.

BRITISH MARKETS CLOSED

Grain Steady at Chicago, With an Advance in July Oats.

Price Current Crop Gossip—Floods in Manitoba—Grain, Produce and Cattle Markets and Comment.

World Office,
Thursday Evening, June 26.

English grain markets were closed today.

Chicago grain markets were steady today, with more strength in July oats. July wheat declined ⅜c from yesterday. July corn advanced ⅛c and July oats advanced 1⅜c.

Floods are reported in the Brandon and Griswold districts of Manitoba. The Assiniboine River is rising rapidly.

An Omaha despatch says: Harvest is in progress in southern counties. Reports show heavy yield winter wheat. Head is large and well filled. This is good growing weather for corn.

The Price Current says: Winter wheat prospects are about maintained. Bad weather is attending much of the harvesting, where ripening is filling very well. Spring wheat is in excellent condition. Oats maintain their high promise, but there is more lodged. Corn was seldom better.

Liverpool receipts of wheat during the past two days 408,000 centals, including 135,000 American. There were no receipts of American corn during the same time. Weather fine.

Paris—Close—Wheat, tone quiet; June, 24f 5c; Sept. and Dec., 20f 70c. Flour, tone quiet; June, 30f 40c; Sept. and Dec., 27f 30c.

Antwerp—Wheat, spot steady, No. 2 R. W., 17⅜f.

Leading Wheat Markets.

Following are the closing quotations at important wheat centres to-day:

Ribs—				
July	10 67	10 75	10 67	10 75
Sept	10 57	10 67	10 57	10 65

Chicago Gossip.

J. G. Beaty, 21 Melinda-street, received the following from McIntyre & Marshall at the close of the market to-day:

Wheat—Recovered from early depression and closed fairly strong, ⅝c higher for September and December, and ⅝c lower for July. There was general selling at opening, with Armour leading and crowd followed, but action of market later shows selling was overdone and crowd scrambled to get their wheat back. September advancing easily. There was fair commission house buying in December all day. Early news was bearish, fine weather in southwest, increased receipts in northwest and reports of bids out of line. Later reports of rains southwest and strength of corn gave rains aided in upward movement.

Corn—Has been strong, most interesting feature of grain market. July very erratic, opening a cent lower on offerings by Harris-Gates, and later advancing to 69c on bids from some of shorts. The September was in good demand and buying very influential, also good commission house buying of December. There was not much in news to-day. Cables and crop reports not of the best character.

Oats—Were very strong, not affected by early weakness of other grains. The July badly wanted by shorts. There is but little disposition to sell on part of local crowd.

Provisions—There was some liquidation in provisions early and list generally lower, but brokers came into market and there was a quick recovery. Trade not so large as of late. Weakness of hogs at yards caused some of early selling, but no attention was paid to this later.

A. J. Wright & Co. had the following from Chicago at the close of the market to-day:

Wheat—Has shown inherent weakness today, especially for July. Strength in coarse grains and buying of liberal quantity of September by Harris-Gates helped by most of the local traders, who as a rule are bullish, carried the advance of over a cent in September future. Trade, however, is almost entirely local. Advices from this state and Missouri indicate very heavy yield. Country conditions are so favorable that market gets no aid from that source, and weak cables and indifferent foreign demand offer no encouragement to buyers from a legitimate standpoint. We favor sales of new crop futures on such bulges as to-day.

Corn—Has been governed more by the manipulation tactics of the heavy July holders to-day than from any other incentive. There is little to be said of a manipulated market.

Oats—Have been firm, July especially strong. The holdings in that month are concentrated somewhat and the good cash demand and high prices encourage holders and intimidate short selling.

Provisions—Opened weak on liberal receipts and lower prices for hogs. Strength in coarse grains helped the price, but at the advance there were offerings apparently by packers. Receipts of hogs liberal; prices 5c to 10c lower.

Montreal Grain and Produce.

Montreal, June 26.—Flour—Receipts, 800 barrels; market quiet.

New York Grain and Produce.

New York, June 26.—Flour—Receipts, 4082 barrels; sales, 4000 packages. Flour was unchanged, but steadier, with a small trade. Rye flour, dull; fair to good, $3.25 to $3.45; choice to fancy, $3.55 to $3.70. Wheat—Receipts, 127,300 bushels; sales, 1,250,000 bushels. Wheat opened easy on fine weather news, but being oversold later rallied sharply on covering and was firm all the morning; July, 78 13-16c to 79¼c; Sept., 76⅞c to 77¾c; Dec., 77⅛c to 78⅛c. Rye, steady; state, 63c to 64c, c.i.f., New York car lots; No. 2 western, 65¾c, f.o.b., afloat. Corn—Receipts, 16,800 bushels; sales, 35,000 bushels. Corn opened steady and advanced west, but was easier here on the "Price Current" report of fine prospects; July, 66⅞c to 67c; Dec., 51⅞c to 52c. Oats—Receipts, 79,700 bushels; oats were fairly active and firmer on bullish crop news and a strong cash position. Track, white state, 54c to 60
