SCHOLARSHIPS FOR MISS CHUBB

She Had Her Choice of Seven of Them and Takes One Given by Mr. Blake.

Toronto Junction, Aug. 19.—Considering the number of pupils who wrote at the midsummer examinations at the Toronto Junction High School, more have won scholarships than at any other school in the province. Miss Ethel Chubb of Maystreet won first scholarship in mathematics and moderns, first scholarship in classics and mathematics, second scholarship in classics and moderns, second scholarship in classics, and by reversion three others. She had a choice of seven scholarships, and takes the Blake Scholarship for classics and mathematics, worth $204. Her standing was as follows: (a) Fourth in general proficiency (tho not taking chemistry or biology). (b) First in classics and mathematics. (c) First in mathematics and moderns. (d) Second in classics and moderns. (e) Second in classics. (f) Third in mathematics. (g) Third in moderns. (h) Eighth in physics.

The standing of other pupils was:

John O. Carlisle, Toronto: First-class honors in classics (fourth place); first-class honors in English; first-class honors in history. Coming next to the second Blake Scholarship man in classics, he is entitled to the first College Scholarship in classics.

E. Ball, Willowdale: First-class honors in moderns.

S. V. S. Willmott, Bracondale: First-class honors in mathematics; first-class honors in moderns; first-class honors in science; first-class honors in Latin; first-class honors in history; first scholarship in moderns and science (reversion); ranking also in general proficiency.

J. R. G. Murray, Toronto: First-class honors in mathematics; first-class honors in science; second scholarship in mathematics and science (reversion); ranking in mathematics and in science.

A Boomerang.

George Chapman, owner of the Grenadier Pond and surroundings, was assessed by York Township for $12,000. Mr. Chapman objected to the assessment, and W. A. Clarke, the assessment commissioner, started to look into the property. Mr. Clarke found by enquiry that a portion of the property had been offered to the city for $35,000, and he accordingly appealed to the Judge to have the assessment raised. After consideration, Judge Morgan thought that $25,000 was only a reasonable estimate, and the owner will be out $200 more in taxes this year than if he had allowed the original assessment to have passed without comment.

York Township Council.

A special meeting of the Council was held yesterday at the city offices, with Reeve Duncan presiding. Most of the attention of the members was occupied in striking the yearly rate. The township rate was passed at four mills, the same as last year, and the total assessment is now given at $5,896,181. An influential deputation, composed of J. F. Edgar, W. S. Andrews, E. B. Osler and H. M. Morval, were present to ask for some action regarding the Glenn-avenue steel bridge. H. M. Mowat presented a petition asking that the bridge be put into condition for street railway traffic, the cost to be charged against the property benefited, and undertaken under the initiative local improvement system. Other members of the delegation spoke, and thought the cost would not exceed $15,000. The Council, seemingly favored the movement, but desired definite information regarding the cost. This the delegation promised from a competent engineer, and the question will remain open in the meantime. The engineer was instructed to procure tenders for a four-foot sidewalk on Main-street, Deverscourt, between Cumberland and Bartlett-avenues, and report at the next meeting of the Council. Councillor Maclean endeavored to get a resolution thru to forward the Gerrard-street extension, but failed to find a seconder. The treasurer was granted two weeks' leave of absence by resolution. The difficulty of collecting a rate in Little York, recently amalgamated with East Toronto village, was discussed, and the government will be asked to amend the proclamation recently made to allow of this being done this year.

The bylaw striking the rate for the year was passed, and was as follows: County purposes, 9-10 of a mill; township purposes, 4 mills, and public school purposes, 9-10 of a mill. The school rates in the different sections are: U.S.S., 2, 7 6-10 mills; S.S. 3, 4 9-10 mills; S.S. 4, 4 9-10 mills; S.S. 5, 1 9-10 mills; S.S. 6, 5 3-10 mills; S.S. 7, 10 5-10 mills; S.S. 8, 3 1-10 mills; S.S. 9, 1 6-10 mills; S.S. 10, 2½ mills; S.S. 12, 1 7-10 mills; S.S. 13, 5 7-10 mills; S.S. 14, 8-10 mills; S.S. 15, 1 4-10 mills; S.S. 16, 9-10 mills; S.S. 17, 1 6-10 mills; S.S. 18, 1 2-10 mills; S.S. 19, 1 3-10 mills; S.S. 20, 7 9-10 mills; U.S.S. 21, 7 3-10 mills; S.S. 22, 8 mills; S.S. 23, 1 9-10 mills; U.S.S. 24, 2 9-10 mills, S.S. 25, 4 2-10 mills; S.S. 26, 11 1-10 mills; S.S. 27, 8 7-10 mills; S.S. 28, 8 8-10 mills; Seperate school 1, 2 mills; Separate school 21, 7 3-10 mills.

FARMERS' INTERESTS HURT

Accusations Made Against Certain Government Officials and a Few Favored Friends.

TERMED CONSUMMATE CHEEK.

Richard Gibson of Delaware, Ont., Supplements a Letter by D. C. Flatt.

Below are printed two letters that are of great interest to the yeomen of this province. The accusation is made that certain live stock sales are specially aided by government officials to the detriment of other sales. If this is true, surely it should be known to all.

Editor World: I enclose you a letter which appeared in Aug. 15 issue of Farmers' Advocate. As the agricultural press is partially subsidized by the Department of Agriculture, I appeal to you (as one not afraid to express an opinion for fear of loss of patronage, and as one who will dare to cut to the line no matter upon whose shins the chips may fall) for the use of your columns to make known to the breeders of Ontario a job that, for consummate cheek, is, I think, without parallel.

One of the parties interested in this sale is the Hon. J. Dryden, who only contributes four of J. Brethour's breeding. Surely he does not want to pose as a pauper and have his sale bills franked by a sympathetic Minister of Agriculture at Ottawa. J. Brethour figures as offering 40 head, and all the swine entered for sale are from his herd, except the English Sanders Spencer pigs. One can't blame Mr. Brethour who contributes about one-half of the offering, if he can influence the Commissioner of Live Stock to pay his printing bills, auctioneers, and frank thru His Majesty's mails all correspondence and catalogs. It is a Brethour sale right thru, and well manipulated as far as he is concerned. I find no fault with G. B. Hood, Guelph, or J. Brethour; they are taking an advantage that they would be foolish to forego. But what we do complain of is that those in the pay of the people combine to beat private individuals in the exercise of one branch of industry upon which many now depend for their living. As before mentioned Hon. J. Dryden surely entered into this scheme without due thought. What of Guelph College? They enter sixteen head. Are we to pay for supporting this college and then enter into competition with them on unfair terms in the public market? Surely Prof. Mills is forgetting himself. Then what shall we say to allowing Sanders Spencer of England to invade our province and offer under official influence seven head. Probably the passage is paid by us also. Who can tell? As Mr. Flatt says: "Let us have a fair field." We have made a market for Sanders Spencer's swine, and if he now thinks he can invade it, good bye to his trade, and if the breeders of this country will stand aloof and allow those in pay of the people to prostitute their positions for the sake of a few dollars, they must be very apathetic. The last offender is the greatest, Glen-Hodson Co., or properly, Mr. F. Hodson, as he assumes all responsibilities, as you will note by the catalog from which I quote. For many years a very fine herd of Berkshires was kept, but several years ago the present proprietor discovered that the Berkshires were becoming too thick and fat to meet the requirements of the bacon trade of Great Britain, and after carefully investigating the records of the different breeds, and after a thoro enquiry from the pork packers of Great Britain, Ireland, Canada and Denmark, it was decided to sell out all the Berkshires and form a Yorkshire herd, etc. What do the Berkshire, Tamworth, Chester White Poland, China, Suffolk etc., breeders think of that statement made by the Live Stock Commissioner, who is in receipt of $3500 a year and traveling expenses? Were they aware when they paid for all this knowledge gained in Great Britain, Ireland and Denmark they were paying for knowledge to be used against themselves? I trow not. What we object to is that the Agricultural College ever enters into competition with private enterprise. Surely they can use their surplus produce experimentally. We also believe that the Live Stock Commissioner should be paid sufficient to utilize his whole time, and so keep him from such bad breaks. Let him recognise all breeds and all breeders, and not have pets of either. And, moreover, never get franks or printing for the few wherein all cannot participate. And again, we strenuously object to importing stock to compete with the legitimate Canadian breeder by men whom we employ to guard our interests. The Postmaster-General might enquire into this job.

MR. FLATT'S LETTER.

Editor Farmer's Advocate: I beg to register, in the columns of The Advocate, a protest in which I know I express the sentiments of the great mass of Canadian swine breeders, against the methods resorted to by certain government officials and a couple of favored friends in exploiting a sale of their own stock and their own particular breed.

It were bad enough and mean enough to have franked thru the mails circulars limited to extravagant puffings of the breed in which they are interested, but the leading spirit of the scheme must needs, for selfish ends, go out of the way to disparage a rival breed, which men of intelligence and skill have, in their judgment, been successful in moulding to meet the requirements of the market. These men are, of course, quite competent to care for the interests of their own particular breed, but, for my part I cannot understand how any self-respecting breeder would countenance such an attempt as these circulars disclose.

I do not think that Yorkshire breeders who feel equal to the task of conducting their own business, and that without the dubious aid of paupered government sales, or the farmers of this country who have shown their ability to select breeding stock and put the Canadian hog-raising industry in the very front rank, will endorse such contemptible tactics.

It may have seemed clever to merge in the sale the stock of a British breeder, who breeds two or three classes of white hogs on one farm, and who contrives to work more gratuitous advertising than any other man I know of, but it will require more than the endorsement of a government official to inspire confidence in the character of his output for the improvement of the stock of this country. It does seem strange that an agricultural college professor and others should allow their names to be associated with such a scheme, and I can only take the charitable view that they did so without taking thought as to its true nature and unfairness, or that, as I have good reason to believe, their names were used without their knowledge or consent, to give it respectability.

Now, sir, is it not a most glaring abuse and scandal that these circulars should be sent thru the mail "O. H. M. S." free, for the personal benefit of a paid official and a little clique of his friends, and if the preparation and printing of these precious circulars and other expenses of this "officially" conducted sale are also loaded on the public, is it not an outrage? If breeders desire to hold a combination sale of their stock, at their own expense, well and good, they have a perfect right to do so. Yours respectfully,

D. C. Flatt.

Mr. Smith has a son just returned from South Africa who saw active service at Hart's River.

Household Maps.

The map of the United States, which the New York Central Railroad passenger department has been publishing in the various newspapers of the country, showing important places of interest on its lines, is indeed a happy thought as well as a gilt-edged advertisement. The map, which is 11 x 16 inches, is now being generally used by families in the rural districts as household maps, and, as a rule, is the only map about the premises.—Jersey Shore, Pa., Herald.

THE NEW FRENCH REMEDY

TRADE MARK **THERAPION**

This successful and highly popular remedy, as employed in the Continental Hospitals by Bieord, Rostan, Jobert, Velpeau, and others, contains all the desiderata to be sought in a medicine of the kind and surpasses everything hitherto employed.

THERAPION No. 1 in a remarkably short time, often a few days only removes all discharges from the urinary organs, by superseding injections, the use of which does irreparable harm by laying the foundation of stricture and other serious diseases.

THERAPION No. 2 for impurity of the blood, scurvy, pimples, spots, blotches, pains and swelling of the joints, secondary symptoms, gout, rheumatism, and all diseases for which it has been too much a fashion to employ mercury, sarsaparilla, &c., to the destruction of sufferers' flesh and ruin of health. This preparation purifies the whole system through the blood, and thoroughly eliminates every poisonous matter from the body.

THERAPION No. 3 for nervous exhaustion, impaired vitality, sleeplessness, and all the distressing consequences of early error, excess, residence in hot, unhealthy climates, &c. It possesses surprising power in restoring strength and vigour to the debilitated.

THERAPION the principal Chemists and Merchants throughout the World. Price in England 2/9 & 4/6. In ordering, state which of the three numbers is required, and observe above Trade Mark, which is a fac-simile of word "THERAPION" as it appears on the Government Stamp (in white letters on a red ground) affixed to every package by order of Her Majesty's Hon. Commissioners, and without which it is a forgery.

Sold by Lyman Bros. & Co., Limited, Toronto.

CHIEF CROKER SUSPENDED.

Head of New York Fire Department Finds New Lock on His Desk.

New York, Aug. 19.—Edward Croker, chief of the New York City fire department, was suspended from duty to-day by Fire Commissioner Sturgis. Mr. Croker, who is a nephew of Richard Croker, had been absent on a vacation, but returned to the city yesterday, saying he did so to resume his duties, on advice of his attorney. When the chief reached his office yesterday he found that a new lock had been placed on his desk, so that his key would not fit it, and that his letter books for three years past had been carried away.

Canadian Medical Association.

The 35th annual meeting of the Canadian Medical Association will be held in Montreal on Sept. 16-18. It is expected to be the largest meeting in the history of the association, with an attendance approaching 400. The provisional program includes a very fine list of papers. The convention will meet in the Medical Buildings of McGill University. The address in surgery will be delivered by Dr. John Stewart of Halifax, and the address in medicine by Dr. William Osler of Baltimore. A number of prominent physicians will reads papers, including Drs. McPhedran, Peters, Primrose, G. Sterling Ryerson, F. N. G. Starr, J. J. McKenzie, D. Campbell Meyers, C. Herbert Burnham, John Hunter, J. F. W. Ross, C. R. Dickson and J. Orlando Orr of Toronto. Interesting pleasure events have been arranged for and special railway arrangements have been made for intending delegates. The dentists are holding a convention at the same time, for organization purposes.
