RIFLE BALL.—The Rifle Company, 1st Battalion City Militia, under the command of Captain McMaskin, gave a splendid Ball, at the *St. John Hotel*, on Wednesday evening last, which was attended by two hundred ladies and gentlemen. The room was very appropriately decorated; the brilliant display made by the ladies, and the variety of military dresses worn by the gentlemen of the different Militia Companies, formed a pleasing and interesting spectacle, and the party separated highly pleased with the enjoyments of the evening.—*Chronicle.*

PROVINCIAL APPOINTMENTS.—Lauchlan Donaldson, Esquire, to be Mayor of the City of Saint John, for the ensuing year.
James White, Esquire, to be Sheriff, and William Bayard, M. D., Coroner, for the City and County of Saint John, for the ensuing year.
By Order of the Lieut. Governor in Council.
Secretary's Office, April 1, 1845. A. READE.

The steamer *Herald*, Capt. Brown, with a number of passengers, started this forenoon for Eastport, to meet the American Steamer Portland, Capt. Rogers, for Boston, being the first trip for the season in connection with that line.

A fire broke out at Madison, Indiana, on the 20th ult. which destroyed a Presbyterian Church and a large number of stores and other buildings. Among those whose premises were burned we observe the name of Mr. James M'Millan, bookseller & binder, formerly of St. John.

The Cincinnati Gazette, of the latter part of March, says, for many years so many cold days have not been experienced there at this season of the year, as there has been this spring. In warm situations, peach trees were in bloom, and the blossoms are all killed; other fruit trees in bloom or expanding are also seriously injured.

There were shipped from Boston, during the week ending March 29th.—2025 bales domestic goods to China, Calcutta, West Indies, &c.

COAL TO CHINA.—The Americans are about shipping cargoes of anthracite coal from New-York and Boston to China.

Fatal Accident.—Nine persons, belonging to Germantown, Columbia county, New-York, were drowned in the Hudson, on Wednesday evening, 26th ult. They were returning in a boat from a visit to New-York, and were run down, in the dark, by the steamer South America. The Pilot heard a scream from under the bows of the steamer, and she was stopped, but nothing could be found but some pieces of the boat, and some articles of baggage.

Commercial business is represented as being unusually active in every city, from Boston to New Orleans. The rise of cotton in the British market have stimulated the planters and merchants of the Southern States to buy up the "notions" of their northern neighbours, in large quantities, and the merchants of New York and Boston are "up to their eyes in business," fulfilling the orders of their southern and inland customers.

We have just learned—and have barely time to mention the fact—that in consequence of an Address having been got up in the County of Restigouche, complimenting his Excellency on the stand he has taken, *a counter Address, disapproving* of the same, has been forwarded from that County, *signed by upwards of two thousand persons*, including nearly all the wealth and respectability. —*Fredericton Loyalist, April 3.*

NEWFOUNDLAND.—The select committee of the House of Assembly on steam communication with Great Britain, has presented a report to the House, stating that it would be not less for the convenience of the public, than for the benefit of the present contractor, that the transatlantic steamers should call at St. John's on their passage to and from Liverpool to Halifax.

SEAL FISHERY.—126 vessels with a tonnage of 11,863 tons, and 3895 men, have cleared out for the ice this spring in Newfoundland, being an increase of 5 vessels, 705 tons, and 120 men over the outfit for the spring of last year.

Newfoundland 3 sailing Packets in a very flourishing condition. The annual amount of deposits has increased since its establishment in 1836 from £50 to nearly £30,000 having more than doubled during the two past years.

QUARTER SESSIONS.—An extra sitting of the Court of Quarter Sessions was held on Wednesday. The business for which their worships met was, the revision of the Grand Jury List. Several of the newly appointed Grand Jury prayed to be excused, as they do not possess a sufficient property qualification. Some individuals objected to their names remaining on the list, as they were over 60 years of age, and a large batch belonging to the fire engine company, was struck off, as the law exempts the members of the company from jury service. Towards the conclusion of the proceedings, one of the audience arose, and addressing the Magistrates, administered an indignant rebuke to the committee, who compiled the new Grand Jury List, for having insulted and derided the community, by amalgamating all sorts of characters in that document.—*Halifax Recorder.*

CANADA.—We stated a few days since, that in consequence of the Canadian Cabinet having made the University Bill a cabinet question, Solicitor General Sherwood and Inspector General Robinson had tendered their resignations. Our latest Montreal papers inform us that the Governor General has deemed it necessary to accept of the Hon. Mr. Robinson's resignation.—*Albany Advertiser.*

NOVEL IMPORTATION.—The American line of packet ship Northumberland, from New York, has brought four patent guns, the manufacture of the United States, of a peculiar construction, purchased for the British Government, by the British Consul, and forwarded to this country in pursuance of instructions from the lords of the navy to that effect.—[*Eng. paper.*

A *conducta* arrived at Tampico on the 23d ult., with $2,600,000 in specie. The British frigate Inconstant was off the bar waiting for it.

NARROW ESCAPE.—*Philadelphia, March 28.*—I hasten to inform you of the narrow escape we made while passing over the New Jersey Rail Road today, on our way to this city. The cars were going at an uncommonly fast rate, between sun-down and dark, when we arrived at the New Brunswick bridge over the River Raritan, when the draw was entirely taken off. The engineer did not discover that fact until within two or three cars lengths off. The three men together with the engineer put their whole force upon the breakers, and by leaping from the engine and tender, and throwing sticks of wood before the wheels of the same, happily stopped the train in time, or some one hundred and fifty lives must have been sacrificed by the carelessness and negligence of that Company. There is a bridge built some 40 feet from high tide water, with no signal whatever, when the draw is off, save a man standing with a little flag in hand, which in this instance he had forgotten to raise in time.—[*Corres. N. Y. Tribune.*

The Revenue Cutter Hamilton, Capt. Josiah Sturgis, arrived yesterday in our harbour, having completed the winter's cruise for the relief of vessels on the coast. The number of vessels spoken and boarded by the Hamilton the past winter, was 350, of which 14 was in need of assistance, which they received.—*Boston Daily Adv.*

There are now twenty-eight bishops (including one bishop elect) in connexion with the Protestant Episcopal Church of the United States.

A Profitable Speculation.—We see it stated, that the United States Government has within the last forty years extinguished the Indian title to 430,000,000 of acres of land for 5,000,000 of dollars. At this rate they paid the Indians an average rate of less than 20 cents per acre. Now, if the United States disposed of those lands to their citizens at the present low government price of one dollar and twenty-five cents, they received into their treasury the sum of 155,500,000 dollars above the original cost.

THE PRINTERS.—Mr. Severance, now a Member of Congress, says of General Simon Cameron, just elected United States Senator from Pennsylvania, that something more than twenty years ago, he worked by his side, as a journeyman, in Gales & Seaton's printing office, at Washington, and boarded at the same house with him.—*New-Brunswicker.*
Mr. Cameron was Printer to the State of Pennsylvania, at Harrisburgh, as far back as the year 1825.

NOVA SCOTIA.—On the 31st ult. the Nova-Scotia House of Assembly voted £250 to each of the four Colleges in that Province; and £150 to the Wesleyan Academy at Sackville.

The Free Church College.—The competition for the Free Church College, about to be erected in Edinburgh, has just been decided; and it gives us the greatest pleasure to announce that the elegant design by our talented townsman, Mr. Mackenzie, (Elgin,) has been adjudged the best.—*Elgin Courant.*

☞ In compliance with a requisition signed by several inhabitants of this City of different denominations, the Rev. J. C. Gallaway, A. M. will deliver a Lecture in the Basement Story of Union Street Church, on This (Tuesday) Evening, the 8th April, at 8 o'clock, on the system of Education adopted by the British and Foreign School Society. The Room will be open to the Public, and all persons interested in the subject of general Education are invited to attend.
