WALL STREET GOSSIP.

NEW YORK, April 19.—Commission people appear to have mustered up a great amount of courage yesterday, and their despatches and advices by circular and letter to their customers last night were more encouraging, and took a brighter view of the situation than in many months past. Speaking of the bears' predictions that we shall export gold this spring, some of the best informed bankers ask, "What if we do?" We are in a better position to do so now than for some years past. It must be remembered that we have now passed the danger period.

Prime's Crop Bureau report has the following: "We have now had enough warm, mild, growing weather, accompanied by rain, to develop the true condition of the winter wheat crop, and already estimates of shortage vary from 18,000,000 to 36,000,000 bushels as compared with last season. It will be found that as the season advances the larger statement is much nearer the true state of the case than the smaller. The oat crop is still in process of seeding. The heavy storm of rain which swept over the Missouri valley has greatly interfered with seeding, and it will be at least ten days without any more storms before sowing this important crop can be finished. As to corn there are no indications of any increased movement for some time. No matter what the price may be, farmers are so far behind with their work that deliveries from them will not increase. All railroads can have to move now or for the next 60 days is simply accumulations in elevators at railroad stations."

The east bound shipments from Chicago for last week were 56,039 tons, against 54,375 for the previous week and 29,990 for the same week in 1887. Grand Trunk carried over 29 per cent on the total, the Vanderbilt lines, 25.7 per cent, and Pennsylvania, 24.9 per cent.

A Boston despatch says: "President Bliss of the Boston and Albany road says that he knows nothing of any pending or contemplated union of his road, directly or indirectly, with the New York and New England road."
