NO FAMINE IN DAWSON CITY

And No Necessity for Any American Relief Expedition.

Mr. R. A. Cunningham, Just Back From the Klondike, Gives a Hopeful Report of the Situation There—People Will Go Crazy When Next Spring's Clean-Up Occurs.

Mr. R. A. Cunningham, who has just arrived in Victoria, B.C., direct from the Klondike, writes to a friend in Toronto as follows:

"I believe when I last wrote you I was on my way to Yukon, by the way of Dalton trail. We arrived at Selkirk on the 10th of September, then built rafts on Pelly River and started down, reaching Dawson on the 12th, making the run in 36 hours. This shows a current of five miles an hour. Of course, we got on bars, etc., and helped the other rafts off, and altogether had a picnic, but we all arrived safely, and found a craze on that starvation was going to take place, and everyone would starve to death, and their bones would extend from Dawson to the coast. Result: Prices jumped 100 per cent. The craze gradually subsided, and when I left Dawson the 2nd of December you could buy more reasonably. Many outfits were being offered at $1 and less, and plenty of beef and mutton at the same price. Cameron had 20 head, Perdu do., Healy do., Ferrin a lot, Courtney had 130 sheep and Miller far more, leaving from 75,000 to 100,000 lbs. of meat, and not a ready sale for that, as most people were supplied. Uncle Sam's expedition is not required very badly. I left Dawson on the 2nd of December, the glass standing 30 degrees below. On the 1st it was 62 degrees below, the coldest of the season. At Pelly River I found the coldest was 56, at Salmon the same, and milder towards the coast. We found Major Walsh at Salmon on his way down. There was lots of mail matter stored, and I would like to have looked it over. If I had been able to get at it. Evidently the wheels of our Postoffice Department work slowly, as the last letter I had was dated Aug. 29.

"Prices are going up on Eldorado, Bonanza and Hunker Creeks, and, my boy, just wait until the clean-up next spring! You will see this world of yours go crazy. The present will not be a patch on it. There will simply be the greatest clean-up of gold the world ever saw."

Mr. Cunningham is a director of the Slocan-Cariboo Mining Company, and secured for that company the claim which they are about to develop.

LAKE OF THE WOODS.

What a Rat Portage Man Has to Say About the Outlook as to Mining.

Mr. C. S. Morris, a prominent citizen of Rat Portage, who is registered at the Queen's, brings down a very glowing report of the condition of that western town and the surrounding mining territory.

He says that in the town itself there is quite an active building movement, and the Dominion Government has promised the town a new postoffice. A big stone warehouse is being erected opposite the Hilliard Hotel, and quite a number of private residences have been run up. The long-talked of sewer system has been constructed through the main streets of the municipality, and a waterworks system to bring in pure water from the Devil's Gap will be constructed this summer.

So successful did the owners of the new palace steamship, the Keenora, find the Lake of the Woods and Rainy River traffic last season that, according to Mr. Morris, a twin steamer is to be constructed and placed on the same route the coming spring.

Capital Coming In.

Mr. Morris also brings word that, through the introduction of a lot of British and United States capital, a number of properties hitherto not brought to the front are becoming very promising. An English syndicate has taken hold of the Golden Horn property, located on Rush Bay, some distance to the north of the Mikado, and the same people are also beginning work on the Bad Mine, situated a few miles east of Rat Portage.

Two properties—the Nora, located east of Ash Rapids, and owned by Dr. Edmison, and the Florence, in the same neighborhood—are being developed by Americans. A United States company is also working the Triumph, which is reported to look well. Mr. Morris says that the latest news from England is that the Trojan and the Rully Boy, on Camp Bay, in the southeast corner of the Lake of the Woods, have been practically sold to some Londoners.

Conrad Behrens is Dead.

New York, Feb. 14.—Conrad Behrens, the famous basso, died yesterday at Lenres private hospital, after undergoing an operation for appendicitis.

He was born at Samsleben on the Elbe in the Duchy of Brunswick, and was the son of a clergyman. He had sung in grand opera in Europe and America, and since 1890 had been a member of the Metropolitan Opera House Company, in New York.

After coughs and colds the germs of consumption often gain a foothold.

Scott's Emulsion of Cod-liver Oil with Hypophosphites will not cure every case; but, if taken in time, it will cure many.

Even when the disease is farther advanced, some remarkable cures are effected. In the most advanced stages it prolongs life, and makes the days far more comfortable. Everyone suffering from consumption needs this food tonic.

JOHN EATON FIRE SUIT.

Mr. Osler Contends That the Stock Sheets Were Padded for Some Ulterior Purpose.

The defence in the Eaton case frankly admit the stock sheets were padded, and produce the man who did the padding.

Yesterday morning Mr. Osler's contention was that the sheets were padded for some ulterior purpose, and that Baker was merely a figurehead. The Thompsons wanted an advance of $50,000 from the bank, which they received on the basis of this stock-taking.

"Was Baker, a very unlikely man to be selected for taking stock, an old hand at padding?" said Mr. Osler.

In the afternoon the learned counsel continued along the same lines. The transfer of the insurance to the Bank of Toronto was made with a purpose.

Mr. Osler went through a complicated maze of figures, saying T. C. Thompson's statement was unreliable.

"Then, how am I to get at the stock the company started with?" asked the Judge.

"By accepting the stock sheets and rejecting the padding," answered Mr. Osler.

There were no documents to show the stock at amalgamation. "The papers destroyed would have given much more valuable evidence than any produced. We can understand how country men, or careless men, or those not used to business, might honestly lose them. We must conclude it is against the Thompsons' interest to produce them."

Taking Mr. Inwood's figures, as given by W. A. Thompson, of liabilities $90,000, capital stock $82,000, surplus $18,000, leaving assets at that period of $190,000, it was very important to say that these figures were not disputed, and yet Accountant Edwards gives merchandise on hand three days later at $306,160. "We take this by arithmetic, not by knowledge," said Mr. Osler, drily.

Taking the difference in these two statements, and eliminating Baker's padding, $151,000, and it would leave the stock at about what is correct.

The case will be resumed at 11 a.m. today.

Is the C.P.R. In This, Too?

Quebec, Feb. 14.—Besides the nominations which took place to-day for the municipal elections, ratepayers are excited over the charges made that the Canadian Pacific Railway is behind the Mayor and aldermen in their refusal to submit to the ratepayers a bylaw to aid the Great Northern Railroad which controls a section of the Parry Sound road. The Mayor denied the charge, but admits that he had been approached in the opposite direction by a certain party offering $10,000 for one year's professional services to the Parry Sound Railway. It is also charged that $12,000 has been deposited to buy up aldermen in favor of the scheme.

Wabash Railroad.

If you are contemplating a trip to the Klondike or any point in Alaska, please consider the merits of the great Wabash Railway, the short and true route via Detroit and Chicago to all the gold fields of the far north. The Wabash, with its superb and magnificent train service, is now acknowledged to be the most perfect railway system in America. All trains run solid from Buffalo to Chicago, passing through St. Catharines, Hamilton, Woodstock, London and Chatham. Detailed information from any railroad agent, or J. A. Richardson, Canadian passenger agent, northeast corner King and Yonge-streets, Toronto.

Serious Blaze at Vankleek Hill.

Vankleek Hill, Ont., Feb. 14.—A fire broke out here between 5 and 6 o'clock yesterday morning in what is known as the Iron Store, occupied by Mr. John Northcott, general merchant. The building and stock were completely destroyed. The insurance on the building was about $1750 and on the stock $7000. The fire spread to the block adjoining, owned by Mr. Malcolm McCuaig, but was put out after considerable damage was done. A stock of gents' furnishings, owned by Mr. William Barr, in this block, was damaged by water; loss covered by insurance.

Eight Hour Day at Milwaukee.

Milwaukee, Feb. 14.—At a labor conference held here resolutions were adopted favoring the abolishment of the subcontracts system on city contracts, and the inserting of a clause in all such contracts forbidding the contractors to work the men more than eight hours. The meeting endorsed the bill in Congress providing for a national eight-hour law, and it was decided to make a demonstration May 1 to emphasize labor's demands for a strict observance of the law in this State.

A Big Cargo of Opium.

San Francisco, Feb. 14.—The Occidental and Oriental steamer Gaelic arrived yesterday from China and Japan, touching at Honolulu. She had on board 622 cases of opium, valued at $097,299, the largest shipment of the drug ever received here. The duty at $6 per pound will amount to $110,880.

SAILED FOR THE GOLD FIELDS

Five Hundred Passengers and Twelve Hundred Tons of Freight.

Also Dogs, Horses and Burros From Portland, Oregon—Steamer Oregon Will Go to Dyea and Wait for the Reindeer and Snow and Ice Locomotives—Soldiers to Leave on Tuesday—Klondike News.

Portland, Ore., Feb. 14.—The steamship Oregon sailed last night for Dyea and Skaguay, Alaska, with five hundred passengers and 1200 tons of freight, including fifty dogs, 41 horses and 34 burros. One hundred tons of supplies for the Government Relief Expedition are sent by the Oregon.

Captain D. L. Brainerd, who is the disbursing officer of the United States Government Relief Expedition, was among the passengers. He has orders to go to Dyea and there await the arrival of the Government reindeer and snow and ice locomotives, both of which will be used in transporting supplies to Dawson.

Captain Brainerd expects to be able to start the expedition from Dyea by March 15.

The first battalion of the 14th infantry, consisting of companies A and G, will leave Vancouver barracks Tuesday via Tacoma for Skaguay. All the United States property and paraphernalia, including rations amounting to 250 tons, have been loaded on the river steamer Undina for shipment to Kalama, where they will be stripped by rail to Tacoma on the Northern Pacific.

Rich Bench Claims Discovered.

Tacoma, Wash., Feb. 14.—On Dec. 15 last bench claims were discovered on a side hill above Eldorado in the Klondike country. The first three claims were located by Dr. Savage, Ben Olson and Enoch Emmons of Tacoma. A stampede followed and many claims were taken up. News of the discovery is contained in a letter from Olson, received yesterday by his wife. It was dated Dec. 18, three days after the first claims were located. Not far away and 200 feet higher up on Eldorado Creek, still another bench has been staked out. It is said that one claim owner there has opened a rich pocket not over ten feet square, from which he has taken $8000.

TO BAR CANADIAN VESSELS

Is the Object of Legislation Proposed by United States Government.

Washington, D.C., Feb. 14.—The House Committee on Merchant Marine and Fisheries held a meeting to-day, going over proposed changes in the navigation laws, to remove troublesome problems arising in Alaskan commerce.

As a result, the committee later favorably reported to the House the Payne bill, providing for several amendments to the navigation laws. The bill is framed to meet new conditions created by the gold discoveries on the Yukon River, and its objects and effects are explained in a comprehensive report made to the committee by Secretary Gage. It strengthens and makes explicit the laws declaring the general policy of the United States Government, that the coasting trade (including the trade between the rest of the United States and Alaska) shall be reserved exclusively to American vessels, and covers more explicitly this situation.

Caught in the Ice Fields.

St. John's, Nfld., Feb. 14.—The British brigantine Phyllis, Captain Davies, 45 days from Turk's Island, arrived here to-day with her bulwarks gone, her lifeboats smashed and her sails and rigging carried away. For 12 days she was among the ice floes, and she had her sides nearly cut through. The whalers Terranova and Mastiff, from Glasgow, are now overdue, and it is feared they have been caught in the ice fields off the coast.

Attempt to Kidnap Prince Clarence.

Kingston, Jamaica, Feb. 14.—An attempt was made late Saturday evening to kidnap Prince Clarence, formerly chief of the Mosquito territory, who is now living here as pensioner of the British Government. The attempt is believed to have been the result of Nicaraguan instigation.

Miss Vincent of World's W.C.T.U. fame is in the city, and will give an address at Elm-street Methodist Church to-night, Tuesday, 15th. Rev. S. H. Macdonald and Miss Wiggins will also speak. Mrs. Moir-Dow and Miss Street will sing. Tea served from 6.30 to 8 o'clock.

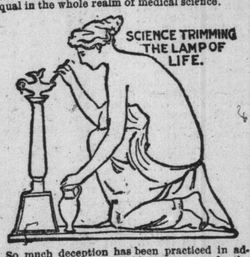
Free Trial To Any Honest Man

The Foremost Medical Company in the World in the Cure of Weak Men Makes this Offer.

HEALTH AND ENERGY ASSURED. HAPPY MARRIAGE, GOOD TEMPER, LONG LIFE.

In all the world to-day—in all the history of the world—no doctor nor institution has treated and restored so many men as has the famed ERIE MEDICAL CO. of Buffalo, N. Y.

This is due to the fact that the company controls some inventions and discoveries which have no equal in the whole realm of medical science.



So much deception has been practiced in advertising that this grand old company now for the first time makes this startling offer:—

They will send their costly and magically effective appliance and a whole month's course of restorative remedies, positively on trial without expense to any honest and reliable man!

Not a dollar need be advanced—not a penny paid—till results are known to and acknowledged by the patient.

The Erie Medical Company's appliance and remedies have been talked about and written about all over the world, till every man has heard of them.

They restore or create strength, vigor, healthy tissue and new life.

They quickly stop drains on the system that sap the energy.

They cure nervousness, despondency and all the effects of evil habits, excesses, overwork, etc.

They give full strength, development and tone to every portion and organ of the body.

Failure is impossible and age is no barrier.

This "Trial without Expense" offer is limited by the company to a short time, and application must be made at once.

No C. O. D. scheme, no bogus philanthropy nor deception, no exposure—a clean business proposition by a company of high financial and professional standing.

Write to the ERIE MEDICAL COMPANY, BUFFALO, N.Y., and refer to seeing the account of their offer in this paper.

HE DROWNED HIMSELF.

The Verdict in the Case of D. A. Fraser of Dublin, Ont.

Dublin, Ont., Feb. 14.—An inquest was held here this afternoon before Coroner J. B. Rankin of Stratford to inquire into the cause of the death of the late Duncan Alexander Fraser. The evidence produced showed that deceased had been failing in good health recently, and, moreover, was despondent on account of financial affairs. Drs. Wood and Hulburt of Mitchell, who had held a post-mortem examination, stated that death was caused by asphyxia. The jury, after deliberating for some time, brought in a verdict that deceased came to his death by his own hand by drowning.

Dr. McGiffert Had Better Quit.

New York, Feb. 14.—Rev. Dr. Walter D. Buchanan, Moderator of the New York Presbytery, when asked to-day regarding the rumored trial for heresy of Rev. Dr. Arthur C. McGiffert, Professor of Church History in the Union Theological Seminary, said:

"I can only say that if Dr. McGiffert's book contains the passage to which my attention has been directed, or similar passages, it seems clear beyond all dispute that he is not in harmony with the standards of our church, and cannot once what other course he can properly take except to separate himself from us."

Dr. McGiffert, in his "History of Christianity in the Apostolic Age," denies the sacrificial and spiritual elements of the Lord's Supper.

Mr. H. D. Ellis, who was formerly Engineer of Roadways in Toronto, is now living in Borneo, where he is Commissioner of Public Works.
