King's County Exhibition.

King's County Exhibition at Georgetown on Wednesday last was most successful in point of exhibits and the attendance although not so large as under more favorable weather was nevertheless good.

About twelve o'clock the Lieutenant Governor and Mrs. Howlan, and the ladies accompanying them, arrived at the Exhibition grounds, and soon thereafter the Hon. D. Gordon, President of the Association, in a few well chosen words presented His Honor with the following address:

To *His* Honor, the Honorable George W. Howlan, Lieutenant-Governor of Prince Edward Island:

MAY IT PLEASE YOUR *HONOR*,—The Directors of the King's County Exhibition Association have much pleasure in extending to Your *Honor* a hearty greeting on the occasion of your visit to the county for the purpose of opening the exhibition for 1894.

From your long and varied experience in public life, your thorough acquaintance with the past history of the Province, and the active interest taken in all measures tending to the advancement and prosperity of the people, we entertain the assurance that you still cherish a lively interest in all matters relating to agriculture and the handiwork of the mechanic and artisan.

On a survey of the various productions and works of utility now being exhibited, it is pleasing to witness the marked improvement in many classes, as compared with those shown at former exhibitions.

It is also very gratifying to note the greater interest taken by the people in these annual Fairs, competition is keen, the entries have steadily increased each year, more especially since under the management of the Association, as evidenced by the prize lists.

The efforts of our farmers in establishing cheese factories in various sections of the Province, must lead to good results, inasmuch as these industries tend to effecting a complete change in the system of conducting farm operations, besides giving encouragement to the introduction of pure bred stock for dairying purposes. There is also much to give hope for future success in the new departure adopted by the husbandman in the growing of corn for feeding stock during the winter months, this we look upon as of the utmost value to the stock raiser.

In concluding, we thank your Honor for your presenee here to-day, and we would ask you to tender to Mrs. Howlan our expression of esteem and regard, and hoping to have her countenance at many future exhibitions.

We now request you to declare the exhibition open to the public.

On behalf of the Directors,

D. GORDON,
Prest. King's Co. Exhibition Ass.

GEO. F. OWEN,
Sec. *King's Co.* Exhibition Assn.

Exhibition Building, Georgetown, Oct. 3, 1864.

His Honor in reply thanked the President and Directors for the flattering address presented to him. *He* spoke of the fight in Parliament he and some other members had to get an exhibition grant extended to Prince and *King's* Counties in order to benefit those who could not come to Charlottetown. The scene here to-day is truly gratifying, and evidences great advancement. Especially is this true of dairying, in which King's County is first. The spirit of dairying is abroad. His Honor related his experience at the dairying convention in Ontario, from which he returned deeply impressed with the fact that a great furure is in store for P. E. Island in regard to this movement. *He* was especially pleased with the splendid fruit exhibit, and this department, with proper care and attention, was capable of still greater advancement. *Here* His *Honor* paid a deserved tribute to John Robertson, of Inkerman. Proceeding he referred to the fertility of our soil, the advantages we possess, and believed that this Island was destined to become the happy home of our young men, whom he advised to remain here. He spoke of the improved facilities for holding exhibitions now, as compared with those of by-gone years, when we had no railway. With respect to the roots he complimented the county on this exhibit which he considered eclipsed that of the Provincial Exhibition. He dwelt at length on the Island's dairying resources, pointing out the beneficial results that followed the adoption of dairying in other parts of the Dominion. Not only would this industry be a benefit to our land, but it would also improve our stock. *He* was glad to note that our young men were now studying butter and cheese making, and had no doubt but what they would master it as they had other industries peculiar to the Island. *His* Honor gave some practical suggestions on this head. In conclusion, he said he had spent a lifetime in public affairs, and he believed that an era of prosperity is dawning upon the Island. The marked improvement noticeable today is, in nearly every department, astounding And he was highly pleased with the exhibits of women's work. "No wonder P. E. Island homes are happy," said he. He again thanked the president and directors for their kindness to Mrs. *Howlan* and himself, and declared the Exhibition open. Three cheers were given His *Honor* on concluding.

HAWKER'S TOLU AND WILD CHERRY BALSAM.

A Favorite and Most Valuable Remedy for the CURE of

COUGHS, COLDS, CROUP, HOARSENESS, BRONCHITIS, INFLUENZA

OR ANY FORM OF THROAT AND LUNG TROUBLE.

If Afflicted, Try It. It Will Cure You.

Malcolm McLean, of Kensington, P.E.I., writes the following:

For five years I suffered from severe Chronic Bronchitis, for which the doctors and numerous patent medicines failed to give relief. My physicians and friends advised a change of climate as my only hope. HAWKER'S BALSAM OF TOLU AND WILD CHERRY was recommended to me, and I am happy to say that I was entirely cured before I had used two large bottles. I consider it to be truly a wonderful medicine, and cheerfully recommend it to all so afflicted.

For Sale by all Druggists and General Dealers.

Anyone that ever used an American stove how it worked, and how it stood the wear and tear of the kitchen, and then when you want a cook stove come and see the

HIGHLAND RANGES.

We carry a full line of these famous ranges, and when we say that they do better work with less fuel than any other stove on the market, we make a statement that everyone using one will corroborate. In Boston and vicinity alone there are

ONE HUNDRED THOUSAND IN USE.

Why buy a poor article when you can get the best goods for the same price? Town and country references.

AMERICAN KEROSENE OIL!

The Best is the Cheapest.

DON'T buy low grade, inferior Oil because it is a little cheaper in price than the highest grade. It is false economy as you will find it to be the dearest in the long run.

Poor Oil will not burn nearly so long as the better grades, and besides it will smoke your chimneys and make a very disagreeable odor in the house.

This fall we are selling the BEST AMERICAN WATER WHITE OIL cheaper than ever before, and we guarantee every gallon of OIL we sell TO BE THE BEST AMERICAN WATER WHITE.
