CONCERT.—We learn that the *Sacred Music Society* will give another Concert during the Christmas holidays, the selections of Music for which will be quite different, and far superior to any hitherto executed by that body. The tickets on this occasion will be divided among members of the society for general distribution. The time selected for the Concert is most auspicious, and we anticipate for the society a corresponding share of patronage.

*Declarations of Insolvency*—Richard Calvert, jr. of the city of St. John, Merchant; Andrew Irvin of the Parish of Chatham, Farmer; Patrick Browne of St. John, Dealer; J. J. Hogan, of the same place, Cabinet Maker; Edward M. Lowder, of Dalhousie, Merchant; Jared Tozer of Northesk, in Northumberland, Lumberer.

"To suppose that legislation is a specific remedy for moral and political grievances, is a prevalent error of the age."

Responsible Government in a Colony is now about being fairly tested; and as was long ago predicted by Sir Francis Head, is proving a miserable failure. With an ample civil list, provided for by the Act of Union, and our foreign trade regulated by the Imperial Parliament, there ought, in truth, to be very little legislation in our Assembly; but the reverse of this is painfully apparent.

The very idea of a Cabinet and Treasury Benches, raises a smile, especially when in a young and poor country like this—its members must depend, in a great measure, for their daily bread on their popularity. The Provincial Secretary, whose duties are most onerous and whose correspondence legion, is compelled to neglect these, in order to give his attention to the harrassing cares of politics. The Receiver General and Inspector General, instead of attending to the financial and general affairs of the Province, are in constant fear of being in a minority.

The President of the Board of Works, who, of all men, should be out of the reach of party feeling, is made amenable to it; and the Commissioner of Crown Lands, in lieu of giving his sole and undivided attention to this great source of wealth and revenue, must, forsooth, be compelled to aid in retaining a Ministerial majority.

From these heads of departments, holding seats in Parliament and the Executive Council, it is evident the prosperity of the Colony must suffer; and it would be well for the public were they excluded from politics, and to hold their office during good behaviour; and if we are to have a Cabinet, let it be composed of the Law Officers of the Crown, the President of the Council, and the two Speakers of the Provincial Parliament.

Unless something like this is done, we will have Ministries every Session, each more democratic than its predecessor; and bad as was our disease, we will find responsible Government, as a cure, worse: or as Seneca hath it:—"Infeliciter ægrotat cui plus periculi a medico quam a morbo."—*Quebec Gazette.*

FROM JAMAICA.—The brig Peggy, Capt. Smith, 14 days from Montego Bay, (Ja.) arrived at this port this day. By this arrival we have been favoured by a commercial friend with the Kingston papers to the 4th inst.

The Jamaica Assembly, we perceive from late dates, contemplates the disbanding the Militia of that Island. A member has introduced a bill into the Legislature, having for its object the release of the public from the onerous duty of playing soldier once a quarter. This we think a most injudicious measure, as the Island is far from being in so tranquil a state as to warrant an immunity from all military interference.

A committee of the House of Assembly has been appointed in order to ascertain what number of properties have been thrown up, &c., and the cause of their abandonment. Upon this subject the papers remark—if the object be to convince the Government that the Jamaica planters generally are suffering, and that many have been ruined from the want of labour, then it is contended, the enquiry is useless, inasmuch as the Government are already convinced of the fact from their own investigation.

The news from the Island, generally speaking is far from indicating a satisfactory state of things.

H. M. steamer Hermes, Lieut. Washington Carr, in 11 days from Halifax, N. S., arrived at Kingston on the 3d instant, having on board the new Bishop of Jamaica, the Right Rev. Dr. Aubrey Spencer, who will forthwith assume the duties of this diocese. This vessel touched off Bermuda.

H. M. Brig Ringdove arrived at Kingston on the 15th inst. in six days from Port au Prince. She reports that every thing was quiet there when she left.

There appears to be some trouble among the Directors and Shareholders of the British Royal Mail Steamers. As near as we can learn, the whole affair has proved a failure. Mr. McQueen is publishing a series of letters, in which, according to the Kingston Journal, he has made exposures which cannot fail to open the eyes of the shareholders and induce them to look more narrowly than they have hitherto done, into the state of the Company's affairs. The Journal says that many in that island have been severe sufferers by the disgraceful and criminal negligence and bungling of the Directors and Managers in England.—*Savannah Republican Nov. 23*

THE GREAT WESTERN COMPANY.—In consequence of the late tariff on coals, the American Government has given the Great Western Company notice, that in future it will not allow them the drawback it has hitherto allowed. The consequence is, that the Company have now a clear charge, equal to the first cost, on all coals they send out, besides freight expenses, and ten per cent, loss on removals from ship to ship, ship to shore, and shore to the Great Western. This will, we fear, occasion an alteration in the Company's plans, by no means advantageous to the public.

THE TOILET.—An additional pleasing appearance is rendered to the countenance by the well arranged Curl, the Braided Plait, and the Flowing Tress. To dressing the Hair, nothing can equal the effect of "ROWLAND'S MACASSAR OIL," on either Natural or Artificial Hair—rendering it so admirably soft, that it will lie in any direction: it produces *beautiful flowing curls*, and, by the transcendant lustre it imparts, *renders the head dress truly enchanting!* It preserves the coiffure in the *brightest atmosphere of the ball room*, and neutralizes the effects of a *damp atmosphere*, or *violent exercise*. *See Advertisement.*

## Married.

On Monday evening, 4th inst., by the Rev. Mr Wishart, Mr. James Condell, to Miss Susannah Gault, second daughter of Mr. Hugh Gault all of the Parish of Portland.

On Tuesday evening, by the Rev. Mr. Wood, Mr. George W. Busteed, of this city, to Lavinia Ann, eldest daughter of Mr. Oldham Gates, of Wilmot, N. S.

At St. John's Church, by the Reverend, the Rector, on the 14th inst., LeBaron Drury, Esquire, of Newlands, to Eliza Sophia, eldest daughter of Major Poyntz, 30th Regt.

At Carleton, last evening, by the Rev. F. Coster, Mr. John McLauchlan, to Margaret E., second daughter of Samuel Strange, Esq., all of Carleton.

## Died.

On Thursday afternoon, in the 55th year of his age Mr. William Austen.

On Saturday morning, after a short illness, Nancy, wife of Mr. Uriah Hatfield, in the 70th year of her age.

On Monday evening, John, infant son of Mr. James Bowes, Germain street, aged 5 months and two days.

On Wednesday evening, Charlotte A., only daughter of Mr. Charles P. Betts, aged 11 months and 20 days.

At St. Andrews, on Sunday evening the 3d inst., in the 43d year of his age, after a long and painful illness, which he bore with Christian fortitude, Mr. James Hutchinson, Watchmaker, of that town, leaving a disconsolate widow and six small children to lament their bereavement—together with a numerous circle of friends who sympathize with them in their loss. Mr. Hutchinson was a native of Londonderry, Ireland, and came to St. Andrews 23 years ago; where he has long been known as an upright, honest and ingenious mechanic, a true friend, and a good member of society. He gave satisfactory evidence of faith in Christ, and of dying in the humble hope of a resurrection to eternal life.

At St. Andrews, of dropsy, on Saturday, the 2d inst., after a painful and lingering illness, which she bore with much christian fortitude and cheerful submission to the Divine Will, Isabella, consort of Mr. Hugh Cavin, in the 57th year of her age, a native of the County Down, Ireland.

At Waweig, Parish of St. Andrews, on the 20th ult., in the 72d year of her age, Mrs. Margaret Gilmax, of a painful and distressing illness which she bore with Christian resignation. Mrs. G. was a worthy member of the Baptist Society—and lived beloved and died lamented.

At Wakefield, County of Carleton, on the 24th Oct. after a short illness, Mr. Bennen Foster, in the 33d year of his age.

At Digby, on the 20th ult., Mr. William Forest, aged 43 years, a native of Dumfries.

At Digby, on Monday the 11th inst. in the 13th year of his age, after a distressing illness of two months, George Canning, youngest son of James Robertson, Esq.

Suddenly at Annapolis, on the 29th ult., Edward Ruggles, Esq., Attorney at Law, aged 25 years, leaving a large circle of relatives and friends to mourn his loss.

At Carleton Village, near Shelburne, on the 25th ult. Mrs. Isabella McDonald aged 80 years, and on the morning after, Mr Donald McDonald, aged 78 years. Both were natives of Sutherlandshire, Scotland, where they were married about 55 years ago. They emigrated to Nova Scotia in the year 1807, and settled in the county of Shelburne. Through life they gave their family an example of virtue and industry, and they were sincerely venerated by a large number of friends and neighbours.

*Loss of British Barque Queen Elizabeth.*—The barque Queen Elizabeth, bound to Pernambuco, went ashore on the eastern part of the island of St Thomas, during a violent gale on the 7th ult.—Four of the men were lost in attempting to gain the land in a yawl before the vessel struck—the rest were saved. Vessel and cargo a total loss.

The barks, *Saguenay*, Murray, *Duke of Cornwall*, Conrad, *Burnhopeside*, Simpson, all for Liverpool, sailed on Saturday with a fair wind.

The ship *Sarah*, McLean, for Liverpool, and the last vessel for sea this season, also sailed on Saturday evening at five o'clock.

Capt. Davis, of the ship *Welsford*, which sailed from this port for London on Monday last, returned to Quebec yesterday, having left his vessel, on Thursday last, below Bic, with eight feet of water in her hold, and both pumps choked. Capt. Davis reports having experienced a violent gale from the east on Tuesday. On the following day was run foul of by the *Eliza*, of Waterford, carrying away his jib-boom, spritsail-yard, starboard anchor stock and starboard guards; when they had got clear, found one of the brig's crew on board, and one of his hands had got on board the brig. He also reports five vessels ashore, two of which are ashore at Portneuf, one at Mille Vaches, and two at Cacouna.

The steamer *Alliance* left last night between 8 and 9 o'clock for the scene of the disaster, to render assistance to the wrecks, and to bring up the Welsford.

The steamer Alliance returned to port on Saturday last with the bark *Universe*, having met and taken her in tow off the Pillars on Friday night.—The Universe is laden with wheat and flour, and it is feared she will have to winter here, altho' every effort will be made to repair the damages she has sustained, and dispatch her if possible. She has finished discharging her cargo this morning, and will be hauled into dock to night, to be overhauled. It is expected her repairs will be completed by Wednesday next, when she will re-ship her cargo and be despatched with as little delay as possible.—*Quebec Gazette, 27th Nov.*

## Mechanics' Institute.

MR. FOULIS having been appointed by the Directors of the *Saint John Mechanics' Institute*, to give a continuous series of Lectures and experimental demonstrations on those subjects in Natural Philosophy and Chemistry, more immediately connected with the visible phenomena, the constitution of our Globe, and the arts of daily life; proposes commencing the first course of twelve lectures of this series early in December next.

The attention will be particularly directed to the motive forces of Air, Water, and Steam; the application of science to Agriculture; Vegetable and Animal Physiology; the chemical operations of Domestic Economy in the preparation of food, by the various appliances of heat with and without liquid solvents, will be duly considered; and practical illustrations by experiment will be often resorted to, to render the philosophy of various arts and manufactures familiar to the pupil.

Each course of the series will comprise twelve Lectures, which will be delivered every Tuesday and Thursday evenings, commencing at 8 o'clock. Terms of admission to each course—for a ticket transferable, 10s.; not transferable, 7s. 6d.; Ladies' and Youths', 5s. Persons wishing to attend will please leave their names at the Hall of the Institute previous to the first of December.
