Mining Issues on Up Grade Again---Pete Lake Takes the Lead

FLURRY AMONG WHEAT SHORTS

Fear of Developments During Holidays Causes Scramble to Cover.

CHICAGO, March 20.—Unwillingness of shorts this afternoon to face possible developments over the holidays caused excited buying of wheat. The close was strong at a net gain of 1-8 to 5-8c. Corn was 1-4 to 1-2c up at the finish. Oats ended the day at a net advance of 1-8 to 1-4c. Provisions scored a net gain of 7 1-2c to 20c.

Many stop loss orders in the last quarter-hour of the street market came on the heels of a little speculative buying. Shorts became so flurried that they advanced prices on themselves more than 1-2c in a few minutes. Offerings proved scanty, and the simultaneous decision of many traders to curtail risks in view of the board's not being in session tomorrow and owing to further interruption of business in England on Monday, resulted in the close being at the top point of the day. Cold wave predictions tended on the whole to heighten bullish sentiment, but some authorities professed belief that the extreme low temperature in the spring crop belt should be counted as a good condition at the time. Little attention appeared to be given of promises of large world's shipments.

Influential buying of July delivery strengthened corn. There was considerable realizing, however, in may Much lighter receipts formed a help on the buying side. Oats went up with other grain in consequence of covering by belated shorts.

In the provision pits offerings dried up, and, in spite of lower prices at the yards, the market advanced. The upturn was attributed chiefly to the bulge in grain.

LIVERPOOL GRAIN EXCHANGE.

LIVERPOOL, March 20.—The firmness in America stimulated support in a moderate way at the opening and values were ¼d higher. Plate offers were firmer and cargoes 1½d to 3d higher with an improved inquiry for Manitoba and good support by a prominent firm. Following the opening the market was dull, the advance being checked by the prospects of large world's shipments this week and a goodly amount to the United Kingdom and in view of the approaching extended period of holidays.

Corn—Opened steady with Plate unchanged and American ¼d higher. During the morning the market ruled dull with some little pressure in American, which declined. The firmness of American cables and the closing strength in Buenos Ayres led to moderate covering with Plate shipments light. The advance was checked by the pressure to sell near at hand parcels.

COBALTS TO THE FRONT

Cobalts are beginning to show signs of resiliency again and Porcupines are slightly reactionary. We think this is a goodtime to pick up the more active of the Cobalt stocks.
