GREY.

The W. C. T. U. of Owen Sound have erected in the town two drinking fountains, costing $60 each, and a watering trough for horses costing $25.

A rather strange, and yet sensational, death occurred in Owen Sound on Monday, the victim being Mrs. Annie Jackson, wife of Joseph Jackson. It appears that her husband, Joseph, left her and married another woman, some four years ago, they at present residing in New York city. Mrs. Jackson became ill about the first of last week. The doctor in attendance questioned her closely as to the medicine she had been taking. She refused to tell him, but at last told him where he would find the bottles. He found them, and after smelling them thought they had contained the oil of tansy and the oil of cedar. He then found out that she had been taking medicine for an improper purpose. On Sunday evening a warrant was issued for the arrest of Malcolm Blue on the charge of administering poison. Blue was arrested. An inquest was held on Monday evening, but was adjourned until after the post-mortem examination.

The flames spread rapidly, and soon destroyed the building and contents, including the crop of wheat, oats, beans, etc. The crop was owned by George Hitchcox, and was insured, as was also the barn. The buildings were near to the house, and great difficulty was experienced in saving the latter from complete destruction.

LINCOLN.

An appeal from a decision of Mr. Justice Falconbridge refusing to grant a certiorari to bring up a conviction against Miss Mary Balfour, a teacher at Lundy's Lane, whereby she was fined $100 and costs, has been heard. The complaint is that the teacher called one of her scholars a "dirty thing" for a part he took in "bumping" a fellow-scholar for refusing to carry out an agreement he had entered into. The information was laid by the boy's father. The evidence taken at the trial before the magistrate is not very elevating. The court allowed the appeal and ordered the conviction and evidence to be brought up. A motion will be made shortly to quash the conviction.

NEARLY PERFECT.

A Great Work! is What May Be Claimed for N. W. Ayer & Son's American Newspaper Annual.

The ADVERTISER has received a copy of Messrs. N. W. Ayer & Son's Newspaper Annual for 1891. It is compiled in a most concise form, containing nearly 1,400 pages it is true, but there is no waste room between its covers—every page has its purpose and is full of solid, useful matter. Even in its advertising department, without which a book of this description can hardly be undertaken, there is no effort made for show or bombast, only a limited number of advertisements being admitted. A key to ascertain the circulation of the different publications is not employed, but the circulation is given in exact figures, there being no guesswork or doubt about this most important point. It contains a carefully prepared list of 19,011 newspapers and periodicals, published in the United States, Territories and Dominion of Canada, is given an increase of 830 over last year, together with valuable information regarding their circulation, issue, date of establishment, political or other distinctive features, names of editors and publishers, and the population of the different counties and places in which the papers are published. There is also a short description of every place in the United States and Canada in which a newspaper is published, including railroad, telegraph, manufacturing and Banking features, with a description of each State, Territory, Province and County, giving the location, character of surface, soil and chief products, forming a valuable guide to the judicious placing of any line of advertising.

The American Newspaper Annual is commended to the newspaper publishers and advertisers of Canada as deserving their support as a recognized book of reference on all matters pertaining to newspaper statistics. To make and maintain it as such has been from the first the controlling purpose of its publication, and the book itself is proof of the fidelity with which that purpose has been adhered to.

Probably nowhere else can be found so full, so fresh and so reliable particulars of this great profession as in the twelfth (1891) edition of the Annual. The price is only $5, carriage paid. Address, N. W. AYER & SON, Newspaper Advertising Agents, Philadelphia, U. S.

"August Flower"

Mrs. Sarah M. Black of Seneca, Mo., during the past two years has been affected with Neuralgia of the Head, Stomach and Womb, and writes: "My food did not seem to strengthen me at all and my appetite was very variable. My face was yellow, my head dull, and I had such pains in my left side. In the morning when I got up I would have a flow of mucus in the mouth, and a bad, bitter taste. Sometimes my breath became short, and I had such queer, tumbling, palpitating sensations around the heart. I ached all day under the shoulder blades, in the left side, and down the back of my limbs. It seemed to be worse in the wet, cold weather of Winter and Spring; and whenever the spells came on, my feet and hands would turn cold, and I could get no sleep at all. I tried everywhere, and got no relief before using August Flower Then the change came. It has done me a wonderful deal of good during the time I have taken it and is working a complete cure." ④

A Great Blood Purifier.

EXETER, May 14, 1889. Diamond Tea Co., London. Dear Sir,—For six months I was almost completely laid up with boils. Took bottle after bottle of medicine from our village doctor to no effect. Can thank you most heartily for asking me to try "Diamond Tea," for in three weeks after taking it boils were not only all gone, but even the marks were undiscernible, and I had also gained 12 pounds in weight. I consider it the best blood medicine of the age.
