BYLAW No. ... ...

To Provide for the issue of $60,000 Debentures for Storm Sewers.

WHEREAS, it is expedient to construct storm sewers in the City of London, and it is necessary that the same be built in order to preserve the proper working of the sewerage system, and to drain the streets in the city, the cost of which has been estimated by the city engineer at $60,000;

And, whereas, by an act passed by the Legislature of the Province of Ontario, in the sixth year of his Majesty's reign, and chaptered 76, and known as "The City of London Act, 1906," it is by section 22 thereof provided that the limit of the borrowing power of the said corporation shall, notwithstanding the provisions of any act or law to the contrary, be fourteen per centum of the assessed value of the whole ratable property of the said City of London, as shown by the last revised assessment roll for the time being of the said city;

And, whereas, it is by section 23 of the said last-mentioned act, provided that in calculating the amount of the indebtedness of the said corporation for the purpose of ascertaining if the limit of its borrowing power, as fixed by the next preceding section, has been reached, the net amount of its indebtedness for waterworks purposes, being the sum of $549,909 36, and any liability in respect of local improvement debentures, issued by the said corporation, except such portion thereof as is payable by the said corporation at large, shall not be reckoned as part of such indebtedness, but shall be excluded in computing the same.

And, whereas, the amount of the whole ratable propery in the City of London, according to the last revised assessment roll thereof, is the sum of $26,479,539;

And, whereas, the amount of the general debenture debt of the city, exclusive of its indebtedness for waterworks purposes, or the said sum of $549,909 36, and exclusive of its local improvement debenture debt, except such portion thereof as is payable by the said corporation at large, amounts to $2,549,148 97, of which no portion of the principal or interest is in arrear;

And, whereas, the said sum of $60,000 is the debt intended to be created by this bylaw;

And, whereas, it will require the sum of $2,400 to be raised annually for a period of thirty years, the currency of the debentures to be issued under and by virtue of this bylaw to pay the interest of the said debt, and the sum of $1,162 23 to be raised annually during the same period for the forming of a sinking fund for the payment of the debt created by this bylaw, making in all the sum of $3,562 23 to be raised annually as aforesaid;

And, whereas, it is necessary that such annual sum of $3,562 23 shall be raised and levied in each year during the said period of thirty years by a special rate sufficient therefor on all ratable property in the City of London;

MERNER HAS NO CASE AGAINST SENATOR RATZ

Admits There Was a Misunderstanding and Judge Dismisses the Action.

Berlin, Ont., Dec. 8. — Justice Falconbridge this afternoon dismissed the Merner-Ratz case without costs.

A statement, in which counsel for both sides concurred, was read. It was as follows:

"The parties hereto agree that there has been a misunderstanding as to the matters in question in this action. The plaintiff was not present when there was any conversation between the late Senator Merner and the defendant, and after a free examination for discovery, the plaintiff is satisfied that he cannot establish any cause for action, and the defendant is content that each party pay his own costs of this action to which the plaintiff agrees."

The action was brought by Mr. Merner, who alleged that Senator Ratz was indebted to him for $1,400 for influence in securing his father's resignation as senator, and the appointment of Mr. Ratz as his successor.

EXPLOSION OF GAS SHOOK ENTIRE CITY

Seventeen Persons Killed in an Accident at Hamburg, Germany.

Hamburg, Germany, Dec. 8. — As the result of a newly-built gas reservoir bursting yesterday afternoon, seventeen persons are missing, and are thought to be killed, while forty others are severely burned and an adjacent reservoir was destroyed.

The tank had a capacity of 7,000,000 cubic feet. It had not been completed, but the work was advanced far enough for it to be tested, and 350,000 cubic feet were let into it, and was in it when the explosion occurred. The explosion was due to the wall of the tank splitting and the gas rushing out and penetrating the retort house, where it was set on fire. The whole city was shaken by the shock of the explosion, and the flames shot hundreds of feet skyward.

The men were still working on the tank and there was no possible escape for them, many of them being killed instantly. The old reservoir, which stood near by, soon became overheated and exploded.

Three women were among the killed.
