Brief Proceedings on Saturday—Judgments Given—To-Day's List of Cases at the Courts.

Justice MacMahon has given judgment in Grasley v. Grasley dismissing the action with costs. The plaintiff sought to have it declared that he was entitled to a lieu of certain lands for $4000.

In Attorney-General for Ontario v. Cameron Justice Rose has given judgment upon the amendment to the special case formerly submitted. The succession duty is to be computed and paid on amount of capital actually distributed, whether increased or diminished in the meantime by fluctuation in values, upon the final distribution. This final period is not at the end of 21 years. The duty is payable when the persons named in the will become entitled to receive their bequests.

WANT A STANDARD CAN.

Milk Producers Wish to Discard Various Sized Cans and Use One of Eight Gallons.

A representative gathering of the milk producers of Toronto district met in the Albion Hotel on Saturday afternoon, Mr. James Chester presiding. The subject of asking Parliament for a standard can of 8 gallons capacity came up for discussion. At present, whilst milk is supposedly sold by the gallon, nearly all the milk sold in Toronto is sold by the can, estimated to contain 8 gallons; but which, in the case of individual milk dealers, varies from 8 to 9 gallons. No matter what size the can may be, the capacity of each is reckoned the same, in consequence of which there is dissatisfaction, both among the milk producers and the milk dealers, the dealers doing their utmost to buy the largest cans, the producers not filling the big cans to their full limit. To overcome this, it was suggested that all milk producers meet with the milk dealers and arrange to have their cans stamped with the amount they are capable of containing, and insist on the cans being full at the time of sale. But there were difficulties pointed out in connection with this suggestion, and all favored the Government adopting a can of standard measurement, to contain 8 gallons.

Deputations were appointed to wait upon W. F. Maclean, M.P. for East York; N. Clarke Wallace, M.P. for West York, and Mr. Featherstone, M.P. for Peel, to urge upon the Government the desirability of meeting the views of the milk producers. The president and secretary were also appointed to interview the members of Parliament for Toronto. A committee consisting of Messrs. Goulding, Lawrence, Annis, Hickey, Tyre and Richardson was appointed to meet with the Milk Dealers' Association and report at the next meeting.

WHEAT IS MOVING.

Large Quantities are Being Marketed in Manitoba—Yukon Overland Route Easy—Indians Suffering.

Winnipeg, Sept. 25.—(Special.)—Two hundred and twenty-five thousand bushels of wheat were marketed in the province yesterday. It brought from 75 cents to 80 cents a bushel.

A large bulk of samples of the grain standard is being sent to Ottawa for distribution among millers.

Bishop Young of Athabasca is in the city from the North. He says the overland route to the Yukon is easy and practicable. He knows the country thoroughly, having spent a year there.

A letter from a missionary north of Oxford House says fish is already getting scarce among the Indians, and cold and starvation will make great inroads during the coming winter. Their case is most pitiable, owing to the scarcity of rabbits. The Hudson Bay Company disguise the true state of affairs for their own interests.

As a result of the visit of the Russian Minister of Agriculture with the British Association, the Russian Government will order ten tons of choice seed grain for Vladivostock, Siberia, with a view of improving the grade of wheat in that territory.

Provincial Appointments.

His Honor the Lieutenant-Governor has made the following appointments:

James Willis Mills of Beverley, Yorkshire, solicitor, to be a Commissioner for taking affidavits, in the County of York, including the City of York and the City of Kingston upon Hull, and not elsewhere, for use in the courts of Ontario.

Henry Campbell Becher of London, solicitor, to be a Notary Public for the Province of Ontario.

Charles Bradley of Haldimand, to be bailiff of the Sixth Division Court of the United Counties of Northumberland and Durham in the stead of Thomas Patterson, resigned.

Clement Reaume of Windsor, to be a bailiff of the Seventh Division Court of the County of Essex, in the stead of John S. Askew, deceased.

Companies Incorporated.

Letters patent have been issued incorporating the following companies:

The Williams Shoe Company of Galt, Limited, capital $20,000, in $50 shares.

The Kemptville Milling Company, Limited, capital $30,000, in $25 shares.

The Rex Cash Register Company of Toronto, Limited, capital $10,000, in $10 shares.

The Gravel and Construction Company of Toronto, Limited, capital $20,000, in $50 shares.

The Mortimer Company, Limited, capital $30,000, in $100 shares. This is an Ottawa concern.

The Essery Coal Company of Toronto, Limited, capital $2000 in $10 shares.

A Small Dividend.

Assignee Clarkson has declared a first and final dividend of 6 cents on the dollar in the estate of C. R. Whatmough. Receipts from sale of stock, real estate and insurance, amounted to $395.55, and disbursements $281.66, leaving $114.49 to liabilities of $1,098.33.

MANITOBA WHEAT IN DEMAND.

A New York message says: "The reason why our December wheat is only 2½c over Chicago is that there is a constant selling of Manitoba wheat here, which has been going on for several days. Even Canadian No. 2 red is selling here to foreign houses at ¾c over December price c.i.f. New York. No. 1 hard Duluth, that generally sells at a premium over No. 1 Manitoba, is going to-day at the same price. All this effect that this selling of Manitoba wheat here for December is to make the Duluth wheat weaker, and foreigners take it freely at the discount under Duluth, as for all practical purposes it is just as good."

TORONTO'S GREATEST TAILORING STORE.
OUR CHARGES ARE LOW.
Because we do a cash business and buy our goods right in the British manufactory for cash. By going direct to the British markets we secure values that could not possibly be obtained by buying from travellers. Then we do not incur bad debts, which always accompany a credit business, and necessitate a percentage being added. Bad debts mean you pay for those who do not pay at all. These points you should carefully consider. We can give you the highest grade garments, made from the best British woolens, cut, fitted and tailored by experts, at exceptionally low cash charges.
Cash is King.
Our values in Scotch Tweed Suitings are astonishing. The newest and richest materials, and our charges—$20, $22.50 and $25—are so low as to attract all gentlemen who require high-class garments at the least possible expense. You should remember there is only one suit length to a great number of the patterns, and you cannot see them elsewhere in Toronto.

NEW YORK GOSSIP.

Henry A. King & Co., 12 King-street east, received the following despatch from New York to-day:

The same brokers who were active in the selling movement yesterday continued similar tactics to-day. They made a careful search for stop-loss orders and were able to uncover some. The larger financial interests showed indifference and the higher London quotations and moderate arbitrage purchases were without effect. There was no particular news to influence speculation sentiment, the large net gain in earnings reported by a number of railroads and the handsome increase in September gross revenues being ignored. The weekly bank statement showed a loss in cash holdings of about the amount that had been expected, but the loss in surplus reserve was smaller than had been predicted. An average decline of 1 to 1½ per cent. was accomplished in the more active issues. Omaha was under severe pressure, and broke over 2 per cent. Consolidated Gas broke sharply on the announcement of a new acquisition by the East River Gas Company. American Tobacco also suffered a heavy loss. The rallies through the short session were feeble, and the market closed weak and lower.

McIntyre & Wardwell (John J. Dixon), received the following despatch from New York to-day:

The stock market continued irregular to-day and largely in control of professionals, showing a dragging tendency. There was a falling off in commission business and lack of aggressive bull support. Maximum losses were only fractional from yesterday's prices. As was the case yesterday, it was simply a room traders' market. The news was generally favorable. Various statements of railroad earnings showed large increases. Foreign and local money markets were unchanged and reports of yellow fever were more reassuring. Bank statement showed a decrease of $3,897,675 in surplus reserves, which was fully $1,000,000 less than expected. Aside from purely technical market reasons we see nothing to warrant any break the general situation to warrant any break in values. Some of the big operators have simply sold out and are in sympathy with the bear market to secure a lower range of prices so they can get their stocks back on a cheaper basis.

CHICAGO GOSSIP.

Henry A. King & Co., 12 King-street east, received the following despatch from Chicago to-day:

Dullness and large receipts made a weak market. The prospect of an increase here Monday of 1,000,000 bushels discouraged some holders. New York reported 50 loads sold for export on the decline. Minneapolis and Duluth had 1206 cars against 958 last year, and these two points this week had 7484 cars, against 5137 cars the same week last year. Primary receipts were about 500,000 bushels over last year. Explanation that the extraordinary movement was due to the absence of carrying charges did not avail. There were fair clearances, the total being 573,000 bushels. St. Louis reported 100,000 bushels ordered out, to go abroad by way of the river. On the other hand 100,000 bushels No. 2 spring was offered to arrive here in October at 2c under December. It is now fractionally over December. The speculative situation here is the weak feature. No outside trade and Chicago relatively above New York.

Corn—Lost a cent and closed at the bottom. It is a matter of large receipts and continued accumulations and poor shipping demand. To-day's cars were 682, with 725 estimated for Monday. There will be an increase here of about 1,000,000 bushels. Seaboard clearances were 352,000. Argentine shipments nothing, compared with 1,472,000 last year. There was a good deal of long corn liquidated.

Oats—Lower almost a cent, influenced by corn and by liberal receipts. There were 510 cars with 500 estimated for Monday.

Provisions—Were easy and lower, in sympathy with hogs and grain and the market, and on further liquidation by scattered long and free deliveries. Packers took care of these offerings and sold for December and January against the same. The present moderate cash demand, together with liberal hog movement, is likely to cause a further sagging of prices; 32,000 hogs for Monday and 130,000 next week.

McIntyre & Wardwell (John J. Dixon), received the following despatch from Chicago to-day:

Wheat—The market ruled weak to-day under selling by the prominent holders and some aggressive work by the bears. It opened about ¼c under last night's closing, and declined 1c, and closed tame at about ¼c, reacting from lowest prices. Outside advices were dull and there was hardly anything doing at the seaboard. Fifteen loads were reported taken. Bradstreets' shipments were 5,600,000 bushels. We cannot see anything in the situation at present to justify any advance.

Provisions—Opened weak and sold lower on free offerings by commission houses. October ribs selling down to $4.87½. At the decline Anglo-American Provision Company became good buyers of lard and ribs. International Packing Company seemed inclined to lard moderately. The market closes easy. Estimated receipts of hogs Monday 29,000, for next week 135,000. John Cudahy's brokers sold December pork at the close.
