WHITNEY AND RECIPROCITY

Comments of the Shareholder on the Whitney Campaign in Massachusetts.

The inwardness of the Whitney campaign in favor of reciprocity is thus discussed by an editorial correspondent of the Montreal Shareholder, who has been visiting Massachusetts:—

"The state gubernatorial contest is at its height. Mr. Whitney, long prominently connected with the Dominion Coal Company and at one time the company's president, is a candidate, and he has taken up the question of reciprocity with Canada very strenuously. Referring to the subject in a recent address, in which he let the cat out of the bag, he showed why it was that the demand for reciprocity with Canada was urgent. Replying to a speech made elsewhere by Senator Lodge, Mr. Whitney said:

"'He has failed to take advantage of the great opportunities that have been afforded us in the past for placing our industries and our commerce upon firm and enduring foundation, and now that the people of the state are becoming alarmed at the industrial outlook and are seeking for a way to regain the ground so shamefully yielded by the watchman upon the heights, this same senator is found teaching the false doctrine that questions that are to be decided in the national council should not be debated or passed upon by the people who have the greatest concerns in questions, and who at the same time are his constituents.' "From this it will be seen that the motive of the movement favoring reciprocity with Canada is not so much to secure improved trade relations between the two countries as to allay the alarm of the industrial outlook. From this it will be seen, the Shareholder has contented for years, that improved trade relations are not the object aimed at, but in reality the making of Canada into a slaughter-market for United States manufactures made from raw materials imported from Canada duty free. Although we may have much to learn from the United States, Canada can teach that country a lesson on the subject of tariff making."

PITTSBURG—Iron City Trust Company which has handled much of the business of Westinghouse Elec. and Mfg. Co. has been placed in the hands of a receiver. Assets are $4,000,000 and liabilities $1,700,000.

New York:—Under direction of Secretary of Treasury Cortelyou, acting for the United States government, and J. P. Morgan representing banking and financial interests of New York, the most dangerous phases of financial situation are rapidly being eliminated. After all night conferences extending well into Thursday morning, the official statement was made that the Trust Company of America would be supported to the extent of the resources of the United Institutions of New York. This means that if the run should continue the company is in position to pay over the counter if necessary every dollar of its deposits. Following prolonged conference at the office of J. P. Morgan & Co., last night, announcement was made that the trust companies would come to the aid of the Trust Company of America and that a committee had been appointed, headed by Edw .King, president of the Union Trust Company, to take charge of measures of relief. Secretary Cortelyou at midnight announced that the situation was much better and that he had authorized deposit of government money in national banks of the city to the extent of $25,000,000 if necessary. John D. Rockefeller, who was present at some of the conferences, stated that he was co-operating with others in helping to meet what he firmly believed to be only a temporary crisis.

Mr. Rockefeller said: "I think the existing alarm among investors is not warranted. Personally I believe in the future and of the values of our securities and the soundness of underlying conditions."

Secretary Cortelyou will be at the subtreasury today and will again handle the situation from that vantage point.

The Knickerbocker Trust Company is still in charge of state authorities.

Hopes at Pittsburg, which caused grave concern because of temporary embarrassment of the Westinghouse, are pronounced better. Treasury department at Washington stands ready to put $27,000,000 in the Pittsburg bank if such an amount is considered necessary. Comptroller of Currency Riggeley announced from Washington that condition of national banks throughout the country is good. At 9.15 there were approximately 1500 people lined up in front of Trust Company of America's building along Wall street to William street, down William street to Exchange Place.

Ex dividend Acp. 1 per cent today.
