CAMPAIGN SUGGESTIONS.

The Best Means to Win the Election Now at Hand.

The following suggestions may be of service in the coming election: "In close constituencies particularly, the very best scrutineers possible should be secured and they should be on hand when the polls are opened, as questionable votes are often hurried in before the arrival of the scrutineers so as to avoid the 'swearing' process. If a voter is challenged by the opposite side do not allow him to be 'bluffed' if he had a proper right to vote. Elections have been lost through men who had a legal vote being bluffed out of it. Liberal voters should not pair off unless they have the very best reasons for doing so. It sometimes happens that a Liberal will be paired by a canvasser on the other side with a man who has no vote. Voters, particularly in the rural municipalities, should find out before the polling day where they have to cast their votes. It has happened that many votes have been lost because people have gone to the wrong polling sub-division and then found it was too late in the day to go to the right one Liberals should cast their votes early in the day, and if they own a conveyance of any kind offer it to the local committee or go after some voters who may be a distance from the poll. Many votes are usually hurried in between 4:30 and 5 p.m. that might just as well be in much earlier. All who are in sympathy with the Liberal platform but may have personal differences with the candidate who may be running or some member of the party should not allow those to stand in the way of their voting for the platform that is for the benefit of the country. Guard strictly against doing anything of an illegal nature, but use every legitimate means to further the interests of Liberals. Watch the ballot box closely, and when the votes are being counted be particularly careful to see that no ballot which should be counted is rejected. Do not take for granted that because those on the other side are well known they will not resort to any tricks by which votes can be improperly secured. 'Eternal vigilance is the price of liberty,' and this is particularly true in an election."

The formal nomination of candidates to represent the riding of South Middlesex was held in the Delaware Town Hall Thursday afternoon. The nomination papers as received by the returning officer, J. S. Dewar, were signed by the following:

Trebilcock, J. M. Shaw, Wm. Kelly, D. R. Spence, Alex. Gunn, E. R. Cameron, C. H. Elliott, Norman McLeod, John Milne, E. J. Parke, T. E. Parke, F. B. Leys, F. T. D. Leys, R. J. Blackwell, A. M. Sutherland, J. J. Spettigue, J. Kilgour, R. D. Kilgour, Wm. Kennedy, T. P. Ross, John Mockler, A. Riddle, N. W. Rowell, John Wildern, Tunis Griffith, Rowland Stephens, James T. Westland, A. A. Lind, E. R. Richards, W. Michael and A. C. Johnston—all of London South.

Andrew Gordon Chisholm, barrister-at-law, by Messrs. Joseph C. Judd, James Burns, J. Morehouse, Thos. Miliar, A. L. Landon, J. J. A. Hunt, R. M. McElheran, Wm. F. Green, J. H. Pope, John McClary, Thos. Pearce, Mt. Brydges; John McVicar, Jas. McVicar, and Geo. Staples, Lobo; Wm. Scott, Dougald McArthur, J. R. Staples, F. Robinson, A. G. Deadman, D. J. Donaldson, W. Scott, J. E. Cook, Delaware; M.C. Wills, Mt. Brydges, T. Taggart, S. Vennen, Dugald Leitch and Benjamin Paine, Caradoc; H. A. McLean, J. A. Thomas, John Beattie, M. J. Kent, George Rowntree, A. M. Smith, S. N. Sterling, W. M. Gartshore, W. H. Heard, H. H. Nelles, Robt. S. Abram, E. B. Smith, Chas. B. Hunt, J. P. Moore, H. A. Stringer, H. J. White, A. A. White and J. H. A. Beattie, London South; John Thornicroft, George Murch, Jas. Noyes, Walter Boler, Wm. Mair and A. Kains, of Westminster; John Arnold Caradoc.

Mr. E. Parnell, jun., demanded a poll on behalf of the Liberal candidate, and Mr. Dugald Leitch, of Caradoc, performed a like service for his opponent.

In his address to the electors Mr. Armstrong commented on the injustice of the Government's action in going to the people on a stale voters' list. The action of the Government Ministers in going on a hunting expedition for markets in the remote corners of the earth while the great American market was unapproached and ridiculed. The American market the speaker proved was the best, and in fact the only general market that the Canadian people could have. In spite of the high protective tariff it has been the most profitable market for the Canadian horse breeders; for certain classes of cattle which were not of a character that would pay for shipment to the European markets; for sheep, poultry, eggs, long wool, barley, beans and hay, as well as the produce of the mines and the forest. In spite of the excessive tariff Canada shipped more to the United States than it did to all the rest of the world. As an illustration of how the National Policy discriminated against Great Britain, the speaker stated that during the year 1889 Canada imported more than $8,000,000 more from the United States than it did from England and upon the English imports collected about $2,000,000 more duty than upon the imports from the United States. England, the speaker said, had other interests in Canada than those summed up in the amount of goods that she sold to Canadians. There was over $700,000,000 of English capital invested in Canada and it was to the English creditor's interest that his Canadian debtors should place themselves in whatever position of vantage that they could in order that they might be able to meet such indebtedness. In addition to this fact the people need not fear that the tariff against England would hurt the English manufacturers, as their goods would be imported no matter what the duty amounted to.

Short addresses were also delivered by the Conservative candidate and Messrs. H. B. Elliot and E. Parnell, jun., of this city.

WESTERN ONTARIO.

Evelyn, Thorndale and Vicinity.

The East Middlesex Teachers' Convention is announced for 5th and 6th March next.

Harry Wild, Thamesford, of slight-of-hand repute, has been giving largely-attended exhibitions in the vicinity, and will likely be in Evelyn next week.

Great was the surprise of the neighborhood for miles around when it was learned that on Tuesday morning a hitherto hearty young man had died suddenly of inflammation. Deceased was the third son of Mr. Wm. McMartin, of Evelyn, a gentleman well and popularly known within a radius of 25 miles. The young man was a pupil of the Evelyn school, and Thursday night was in usual good health. Friday evening he was prostrated. Doctors Williams, of Ingersoll, and McWilliams, of Thamesford, did all that medical skill could, but to no purpose. Death came to his relief at 2 o'clock Tuesday morning, and hundreds of admiring friends, besides his schoolmates, thronged to the family residence to take a farewell. A very large concourse of sorrowing friends followed the remains to their last resting place within the precincts of Huntley's Cemetery, on the 7th concession.

A literary entertainment was given by the scholars of the Evelyn school Friday afternoon, Mr. James McMartin acting as chairman and Miss Clara McMartin as secretary. The first selection on the programme was a debate, "Resolved, that the execution of Charles I. was not justifiable." Alex. McMartin was to have spoken for the Parliament, and in his absence was represented by James McMartin, Clara McMartin, John Lackey and Alex. McMartin. For the king, Captain Lizzie McMartin spoke, supported by John McMartin, Henry Mahon, Eliza Mahon and Eddie McMartin. The referee, Mr. Steele, reserved his decision. Other features of the programme were a speech by the chairman, recitations by Ella Lackey, Annie Quait, Jane Barber, Dickey Jones, Maggie Quait, and a song by Mr. Steele. Mr. Henry Mahon was elected chairman and Miss Ida Henshaw secretary for the next entertainment.

Mr. Alfred Day, of Toronto, conducted missionary anniversary services at the Methodist Church on Sunday. At each service a large congregation attended. On the Monday evening following a missionary entertainment was held. Supt. Tripp occupied the chair. Readings and dialogues were furnished by the school, while the choir supplied the music. Rev. Messrs. Schofield, Day and Couzens delivered stirring speeches on mission work.

Rev. R. Seaborne, while on his way to the Sunday morning service, slipped on the icy sidewalk and fractured his leg near the ankle. Dr. Weeks attended him.

The entertainment in school section No. 8, despite the weather, was a grand success. The school was filled. At 7:45 H. Webster, of Thamesford, called order, and R. W. Roberts opened the programme with a violin selection. A varied programme was then rendered, consisting of tableaux, dialogues, readings, by Misses Langford, Mitchell and Holland; songs by G. Moir, of Stratford, and duets, quartets by Misses McCutcheon, Salmon, McCoubrey and Whitehouse, and Messrs. Nicholson and Near. Proceeds, $32 for school purposes.

Mayor Taylor, of London, addressed the electors of East Middlesex in Thorndale on Thursday evening.

While Peter Smith and his son John, of Chicago, were driving to the house of Jos. Uren, St. Ives, a dog tied near, raised a howl and succeeded in scaring the horse, which bolted, throwing the occupants on a wood pile near by. The father received a severe gash on the head, while the son had a leg broken.

Shorthorn Sales.

The sale of Shorthorn cattle from Bow Park herd at Brantford as recently advertised in the ADVERTISER proved very successful, some eighteen bulls being sold at an average of $129 per head, a number of cows and heifer calves averaging about $100. There was a large attendance and good breeding stock now appears to be enjoying an upward tendency.

He was a stirring business man, being an extensive wood contractor, and will be sadly missed by all who knew him.

The Bookkeeping Business.

It is wonderful how business colleges have sprung up like mushrooms all over Ontario during the past few years. There are ten in Toronto with an average attendance of 150 each; Chatham has the largest in the West, with an attendance of 200; Stratford, 175; Hamilton two colleges, both well patronized; St. Thomas also has its colleges, and London. The total attendance at these colleges would not be less than 2,000, enough bookkeepers to supply Ontario for the next ten years. It is a common thing for young men to spend a large sum of money attending these colleges, and be glad to accept a situation driving a coal cart or grocery wagon. This is the result of over-production. What is wanted is a college where students will be assisted in procuring a situation when competent. At the request of a number of London citizens Mr. Wm. C. Coo, principal of the Western Ontario Shorthand Academy, has added a commercial department to his academy, and rooms will be fitted up to accommodate twenty pupils. Mr. Coo has secured the services of a gentleman from the British-American College, Toronto, to take charge of this department who has a large connection in Toronto, and he has no doubt that by having a small number of pupils, and by giving them a thorough education in the different branches he will be enabled to place them in positions. He will be able to select his students, and will thus be able to supply the business men of London, Toronto and Detroit with smart, well educated young Canadians, who will be a credit alike to this college and themselves.

Mr. George Thompson, of this city, a graduate of the academy and for some years stenographer for the firm of John Elliott & Son, where he was placed by Mr. Coo, has secured one of the best shorthand positions in Detroit as head stenographer for the Detroit Correspondence Bureau at a large salary. b

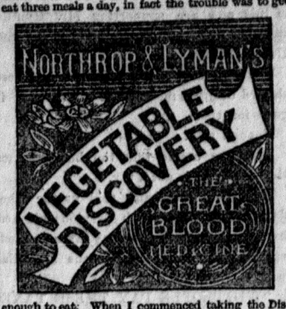
A MAN'S LIFE SAVED

I WOULD not be doing justice to the afflicted if I withheld a statement of my experience with Jaundice, and how I was completely cured by using **Northrop & Lyman's Vegetable Discovery.** No one can tell what I suffered for nine weeks, one-third of which I was confined to my bed, with the best medical skill I could obtain in the city trying to remove my affliction, but without even giving me temporary relief. My body was so sore that it was painful for me to walk. I could not bear my clothes tight around me, my bowels only operated when taking purgative medicines, my appetite was gone, nothing would remain on my stomach, and my eyes and body were as yellow as a guinea. When I ventured on the street I was stared at or turned from with a repulsive feeling by the passer-by. The doctors said there was no cure for me. I made up my mind to die, AS LIFE HAD LOST ALL ITS CHARMS. One day a friend called to see me and advised me to try Northrop & Lyman's Vegetable Discovery. I thought if the doctors could not cure me, what is the use of trying the Discovery, but after deliberating for a time I concluded to give it a trial, so I procured a bottle and commenced taking it three times a day. JUDGE OF MY SURPRISE at the expiration of the third day to find my appetite returning. Despair gave place to Hope, and I persevered in following the directions and taking Hot Baths two or three times a week until I had used the fifth bottle. I then had no further need for the medicine that had SAVED MY LIFE—that had restored me to health—as I was radically cured. The natural color had replaced the dingy yellow, I could eat three meals a day, in fact the trouble was to get



enough to eat. When I commenced taking the Discovery my weight was only 132½ lbs, when I finished the fifth bottle it was 172½ lbs., or an increase of about half a pound per day, and I never felt better in my life. No one can tell how thankful I am for what this wonderful medicine has done for me. It has rooted out of my system every vestige of the worst type of Jaundice, and **I don't believe there is a case of Jaundice, Liver Complaint or Dyspepsia that it will not cure.**

(Signed) W. LEE, Toronto.

WHAT IS IT?

This celebrated medicine is a compound extracted from the richest medicinal barks, roots and herbs. It is the production of many years' study, research and investigation. It possesses properties purely vegetable, chemically and scientifically combined. It is **Nature's Remedy.** It is perfectly harmless and free from any bad effect upon the system. It is nourishing and strengthening; it acts directly upon the blood, and every part throughout the entire body. It quiets the nervous system; it gives you good, sweet sleep at night. It is a great panacea for our aged fathers and mothers, for it gives them strength, quiets their nerves, and gives them Nature's sweet sleep, as has been proved by many an aged person. It is the **Great Blood Purifier.** It is a soothing remedy for our children. It relieves and cures all diseases of the blood. Give it a fair trial for your complaint, and then you will say to your friends, neighbors and acquaintances: "Try it; it has cured me."

THE PURSE-PROUD MONOPOLIST.

[From the Irish Canadian.]

Although the Gurneys began life, like thousands of honest molders, in the sand-heap, they seem to have forgotten their early struggles to keep soul and body together on a stipend which they often regarded as barely sufficient to buy them the commonest necessaries of life. Doubtless it often came home to them in their own individuality that the laborer was worthy of his hire, and that there should be a fair day's pay for a fair day's work. Being then of the toiling masses, they naturally rebelled against the avarice of the classes, whom they looked upon as the foe of human rights and human freedom. But the Gurneys have long since thrown aside their working clothes, and now pose as nabobs with aristocratic longings. They have grown rich on the sweat of the workingman, and have squeezed him almost dry; they have not much further use for him, unless he consents to work for such wages as they are willing to give.

The Molders' Union, in a circular to the public, amongst other things, says: "Mr. Gurney boasts that he has no actual necessity for business life; that his wealth is more than he needs for his requirements; yet he stoops so low as to refuse his skilled workmen a decent day's wages." Mr. A. F. Jury, in a speech which he delivered the other day in London, thus comments on the foregoing extract: "These are the men whom Mr. Gurney and the National Policy delight to protect. His men struck because he wished to pay his experienced molders a common laborer's wages. What did Mr. Gurney do? He went to Albany and got all the non-union men he could scrape together and brought them to Canada. Did he pay duty on them? No! Now, if Mr. Gurney can bring his non-union labor into this country duty free to undersell your workingmen here, have you not the same right to have stoves come here to undersell the stove combines?"

But what is the workingman going to do about it? He can reverse that iniquitous order of things on March 5 by voting against the Government of the monopolists. Will he do it?
