Manufacturers' Baseball League.

The Manufacturers' Baseball League will hold a meeting on Friday night, April 6, at 8 o'clock, at Hammill's Hotel, corner King and Bathurst-streets, for the purpose of forming the league for 1900. Any team wishing to join is requested to send delegates.

Looks Easy for Hamilton-London.

The World yesterday suggested that Director Galt would favor the admission of Hamilton in the Eastern League, and Toronto's magnate admitted last night that he preferred the Hamiltons before Hartford for obvious reasons. On returning from the meeting Club Collins said it all rested with Galt. Thus it looks like a cinch for Billy Stroud. Mr. Galt was instructed by wire yesterday from President Powers to visit Hamilton to-day and interview the representatives there from the two cities, and he will likely wire back favorably to-night. Thus Worcester, Providence, Springfield, Rochester, Syracuse, Montreal, Toronto and London-Hamilton will be the circuit for 1900, whether Washington and Baltimore come in to make it a 10-club affair or not.

FOR WEST ONTARIO CRICKET LEAGUE

London Cricketers Want a Series of Games Arranged—Their Annual Meeting.

London, April 4.—An enthusiastic meeting of London cricketers was held at the Tecumseh House last night, with the result that the London club was reorganized for the season and a most auspicious beginning effected. Police Magistrate Frank Love presided, and about a score of cricketers were present.

Mr. Carver intimated that he had sounded all the ground between this city and Windsor, and that the several clubs were willing to enter into a cricket league, and would send delegates to this city to arrange a schedule and complete details as soon as London was ready.

Mr. Love spoke cautiously of the season's outlook. He predicted that London would have a team such as might be in a position to play cricket with their Australian brethren, just as were Canada's sons ready to jump into the firing line with their fellow colonists.

Organization was then proceeded with, and officers were chosen as follows:

Honorary president, Sir John Carling; president, Mr. C. S. Hyman; vice-presidents, Messrs. T. H. Smallman, George B. Harris, George C. Gibbons, and A. B. Cox; treasurer, Mr. E. V. Brown; secretary, Mr. G. W. Carver. A committee comprising Messrs. Love, Frank Reid, Fred. C. Merle, Dr. Fred. Wood and Dr. Bucke was appointed to report upon grounds and fees. Orangeville, April 4.—The council chamber was filled to the doors last night with an enthusiastic crowd of the friends and supporters of the Dufferin Lacrosse Club at its annual meeting. A team will also enter in the intermediate series, while the Dufferin III., who claim to be the best players for their years in Ontario, are looking for a league or series in which they can be placed.

The officers elected are the following:

The candidature of P. The team will also go into the field prepared to defend the intermediate championship flags won by them last year. The C.L.A. convention delegates are T J Overend, A W Talbot, H S Cameron, who wishes to have the pleasure of working with McMillan's election.

For the Dominion Bike Meet.

Mr. A. M. Bilsky, chairman of the Racing Board of the Capital Bicycle Club, Ottawa, is in town for the purpose of impressing local men that Ottawa is the only place deserving the Dominion Day meet. He claims that the club, tho practically a new one, has one of the finest quarter-mile board tracks in the country, that the grounds have convenient means of access, and that Ottawa possesses many natural attractions that should warrant his club securing the meet.

TOBACCO, LIQUOR AND DRUGS.

Overhanging Sprocket

is an important feature on the 1900 models—it brings the chain pull inside the ball races—gives a narrow tread—great speed of ball tracks, and an even and direct driving strain. Other improvements: reduced weight—ideal seat post fastener—new features—chainless wheels—and combined coaster and brake.

1900 BICYCLES

Our models are distinct in quality, appearance, design and finish.

The great factor in bringing down prices has been the introduction of machinery which stamps the frame parts out of flat sheet steel and presses these into the required shape when cold. Such connections cost about 1-12 as much as forgings. Some makers have honestly reduced the price of such to their proper value, while others ask just as much for such as we ask for our Eldredge Cycle, in which every connection is forged and in which no casting or sheet steel stamping exists. Our prices in every case represent the true value, and our

Empire, Canadian King of Scorchers and Eldredge Cycles

Are unrivalled at their respective prices. Guaranteed against defects and to give every satisfaction. If you are looking for a really high-class cycle see our Eldredge. It is admittedly the best finished cycle shown in Toronto, and in running qualities excels others, being perfectly smooth and noiseless.
