I know we changed every twenty minutes - until bars closed. I remembered three shops. We drank shades. I don't remember the number approximately 8 glasses in every one. At time I felt very light-headed. At third shop I guess we were drinking as fast as we could. It hit me all of a sudden - The next morning when I woke up was the first time I became conscious of anything. I am in no position to say what I did the other witness. Witness is what I am 20 years of age.

Re-examined by Defending Officer

I was still with Pte Kean when I left the third shop.

Questions by Court.

I just remember faintly leaving the third place. I don't know what time the bar closed. I started out with 180 francs and I had 10 francs when I ended up. The drinks cost 4.5 and 7 francs. We went down to sample the wines. We had no intention of getting drunk.

Further Cross-examination through the Court

I don't know I went after I left the third shop. I understand the bars close at 7.30 p.m.
