or so cowardly in their nature, as the generality of people have believed. Not only do they fight as well as we do, but, from the very outset of the play, they have taken the initiative in attacking. Serallo is a little cluster of old houses, about a league from Ceuta, which the Moors of the Riff occupied, and which we took. Gen. Echagua wished to fortify Serallo, and built a redoubt. On the 25th, (November) the garrison were, a little after mid-day, taking their dinner, when they were surprised by 800 Moors, who fell, poinard in hand, on them. Our men snatched up their arms, but in an instant they saw that the 800 Moors were supported by 3,000 others, who came behind. The *melee* was sanguinary. The battalions of Bourbon and Barbastro were completely cut to pieces, and the ground was covered with dead bodies. Echague, who observed from Ceuta what was going on, marched out in a hurry two brigades to the assistance of the troops of the Serallo. The combat lasted till nightfall. The Moors lost many men, but we had more than 300 killed, among whom were 40 officers, and nearly 1,000 wounded."

A telegraphic despatch from Madrid, dated Saturday afternoon, gives the following version of the engagement between the Moors and Spaniards, near Ceuta, on Wednesday last, the 7th inst.:—The Spaniards have just obtained a new victory. The Moors, this time 10,000 strong, attacked the redoubts. They were gloriously repulsed by the second corps d'armee, which entered into line for the first time, under the command of the brave General Zabala.—The number of dead on the side of the Moors is more than three hundred, and 1,000 wounded. The Spaniards have 40 killed and 280 wounded. The sea continues tempestuous, and it is for the moment impossible to effect fresh embarkations.

GERMANY.—A letter from Pesth, of the 26th ult., in the *Siecle*, says:—"A body of 2,700 Protestant (Hungarian) clergymen bound themselves, with the unanimous approbation of their congregations, not to accept the Imperial decree of the 1st of September, which gives to the Government the right of appointing the Presidents of Consistories. The present political agitation will have the effect of drawing closer together the different confessions, and the desertion *en masse* of the Catholics of the Roman Church so impolitically compromised by the Concordat of the 18th August, 1855. The police of this city had prohibited the meeting of the elders of Pesth. Baron Pronay took no notice of the prohibition, and on the 14th he assembled them; the police threatened, but Baron Pronay replied that nothing should make him fail in his duty towards his country and towards Protestantism. Meetings for petitioning against the law of Sept. have been held at Pecel, Kepkemet, New Szalenta, Barana, and elsewhere. Baron Zsedenyi, an Aulic Councillor and a Conservative, received a visit from the police, who seized his papers, in consequence of his having presided at a meeting at Koesmarck. The belief here is that these assemblages are legal, and that the Government is violent. Every one, therefore, acts freely and openly, with calmness and union. If Austria yields, it is the dissolution of the empire; if she persists, it is a national war—such is the real state of things."

RUSSIA.—A St. Petersburg letter states that dissension had arisen between the central committee appointed to consider the question of the emancipation of the serfs, presided over by General Rostowzoff, and the delegates of the committees of the provincial nobles sent to the central committee to represent the opinions of their governments. The fundamental idea of the nobles is that the emancipation in the form projected would be their ruin, and they are anxious that the Emperor shold hear their opinions personally, and not through a bureaucratic committee.

RUSSIA AND CHINA.—The following is an extract of a letter dated St. Petersburg, the 19th of November, (1st December:)—"A courier arrived to-day in forty-two days from the Amoor, with great news. The Emperor of China had given the Russians notice to quit, as he had never authorized the cession of territory, and had only just heard of the settlement! Meanwhile the Russian Embassy at Pekin is 'sealed up' in its palace.

CENTRAL INDIA.—A campaign is about to be opened from Neemuch against a body of rebels, said to be 5,000 strong, encamped in a mud fortress upon the banks of the Chumbul. The numbers are, doubtless, exaggerated, but it will be long ere the ground swell of the mutiny ceases to be felt. In Bundelcund, in the fastnesses of the hills and jungle of which Feroze Shah and a body of rebels are still hiding, the campaign has been already opened.

From the south and south-west three columns marching upon the rebels, commanded separately by Colonel Primrose of the 43rd Light Infantry; Colonel Oakes, the 12th Royal Lancers; and Colonel Nott, 19th Madras Native Infantry. Colonel Ross, with his camel corps, attacks them from the Saugor side; and Colonel Turner of the 97th, advances from Banda. Capt. Wright, with 200 of the Sikhs and 40 men of the 43rd is posted at Geree, and the Brigadier has removed to Poorania, a position between his head quarters column and Alexander's Horse, which guards the road from Ghysabad to Huttah.

We may reasonably, perhaps, hope that the restoration of order, by the destruction of these last remnants of the mutinies, is not now far distant.

NEPAUL.—From Nepaul it is very confidently rumoured that the Nana is dead, but considerable suspicion, of course, hangs over a story which it is so much the interest of the mecreant to get believed.

Dwarka has been evacuated by the Wagbers who availed themselves of the darkness of the night to cut their way through the outlying picquets of her Majesty's 28th Regiment on the 30th ult. It is perhaps, as well that the matter has been settled after this fashion, as a repetition at Dwarka of the scenes said to have been enacted at Beyt would have exercised a mischievous influence upon the minds of the people, and given a handle to the disaffected.

ABDICATION OF A KING.—Kamehameha, King of the Sandwich Islands, has abdicated in favor of his son. This step is attributed to the dissatisfaction of his people with his conduct in shooting his Secretary, while under the influence of intoxication and jealousy.

The Skin is formed with thousands of pores in every inch of surface, whose office is to carry off the impurities of the blood—the acknowledged cause of all diseases of mankind—when the skin is dry and parched—when it is covered with eruptions—when it is cold and clammy—when there is inward fever or inflammation, it is impossible for the skin, under these circumstances, to perform its proper functions and to carry off the impurities from the body as designed by our Creator. Morse's Indian Root Pills remove those obstructions and produce free and healthy blood, remove the eruptions from the skin and cause to be brighten with the flush of youth and beauty.

DUNN'S CATARRH SNUFF, a new discovery, has already accomplished most important results. The worst and most distressing case of Catarrh, cold in the head, and inflammation of the eyes, deafness, dimness of vision, noises in the head, &c., vanishes as if by magic under its influence. A British officer writing from Teheran, Persia, to the 'London Times,' remarks:—"A Cathartic Pill manufactured by 'an American Chemist' (Dr. J. C. Ayer, of Lowell, Mass.) has cured the Shah of a Liver Complaint that threatened his life. This simple fact, as might be expected, renders the Americans immensely popular here, while we English are overlooked—Doubtless our own scholars made the discoveries which he employs, and thus it is in everything; we do the labor, then the mousing Americans put their mark on it and take the reward. Doct. Ayer is idolized by the Court and its retainers here, which will doubtless be reflected to him on a gold snuff box, or diamond hilted sword, while not the name even of Davy, Christison, or Brodie—the great lights by which he shines, is known."—New York Sunday Paper, Dec 7. 4w.

☞ The Watch-Night and Covenant services in this city were attended by large numbers of devout worshippers. The former was held in the Argyle Street Church, and was conducted by the Rev. J. BREWSTER. Dr. Richey was present—having arrived from Windsor the same evening—and offered up the concluding prayer. The Covenant Service was held in the Grafton Street Church on Sunday afternoon, and was a solemn and profitable season. The sacrament of the Lord's Supper was partaken by the members of society; the Rev. Messrs. Churchill, Sprague, Brewster, Pope and McNutt uniting in the administration of this ordinance.

☞ The inmates of the Lunatic Asylum were treated last evening to a musical entertainment of a high order. The Harmonic Society of this City mustered in full force, and brought the musical talent in which it is so rich to bear upon the unfortunate victims of insanity, many of whom evinced the keenest pleasure in the pealing tones of the instruments, and the exquisite variations of the human voice. A large number of the friends of the institution were present by request of the Superintendent, whose fitness for the post he fills is eminently displayed, alike in the attention which he pays to his visitors and the tact which marks his conduct towards the patients. At the close of the concert the Hon. W. Young referred in a few lively and well conceived remarks to the pleasure derived from listening to the music and noticing its effects upon that portion of the audience for whom the performance had been especially designed. He touched with delicacy upon the affliction of those, and paid a well merited compliment to Dr. and Mrs. DeWolf. We cordially endorse the sentiment uttered—that we have the right man, but *not only* the right man, in the right place.—Mr. Young spoke with regret of the absence of his friend the Hon. Hugh Bell, who might be termed the Founder of the Institution, and eulogized his benevolence; while he expressed his gratification at seeing his son coming forward to fill his place in public life, and in the estimation of his fellow citizens. Mr. Young also referred appropriately to the munificent gift by Edward Binney, Esq., of an elegant Piano Forte to the Lunatic Asylum. The company returned about nine o'clock to the city, as they went—in a steamer chartered expressly for their accommodation—feeling that they had been most pleasantly and hospitably entertained.

☞ The President of the Conference preached on Sunday in both churches in this city. He has now proceeded to New Brunswick with the intention of visiting several of the societies in that province.

☞ We call the attention of our readers to the advertisement in another column to the following Testimonials: Further particulars given and orders received at the Wesleyan Book Room:—

From Geo. Washbourne Morgan, Organist of Grace Church and Middle Dutch Reformed Church.

UNIVERSITY BUILDING, N. Y. July 10, 1858.

Gentlemen,—The near approach to the *Pipe* or *Organ* tone attained by Messrs. S. D. & H. W. Smith, in the voicing of their Melodeons, united with their prompt and reliable action, entitles them to the *first rank* among this class of instruments. I cheerfully recommend them to purchasers either for *Parlor, Hall*, or *Chapel* use.

GEO. WASHBOURNE MORGAN

From B. F. Baker, Professor in the Boston Musica Institute, Author, &c., &c., and Director of Music at the South Congregational Church

BOSTON, Nov. 19th, 1857.

Gentlemen,—I confess to have entertained prejudice against Melodeons before having heard your instruments. But, by your new method of voicing, the monotonous, droning, buzzing sound, has been entirely cured, and in place of it a pure organ like tone substituted. The action is prompt, and the tuning is really perfect. If your Melodeons receive the patronage they merit, they must come into very general use.

With regard, truly yours,
B. F. BAKER.

Messrs. S. D. & H. W. SMITH, 511 Washington Street, Boston.

From Rev. L. Smith.

HONOLULU, SANDWICH ISLANDS, Aug. 25 1856

Gentlemen,—I am happy to inform you that the Melodeon which you forwarded to my address remains "in good order and condition. We use it in our house of public worship, and every much pleased with it. The tones are very pleasant, much like those of an organ; and we do not regret the cost and charges of this conajutor to aid us in singing praise to the Lord in his sanctuary. I shall take much pleasure in advising clergymen, as well as my friends and neighbors, to forward their orders for Melodeons whether to be used in churches or private parlors o you. Believe me, gentlemen,

Most truly yours, L. SMITH

PAIN KILLER.—We clip the following from the Providence General Advertiser, Sept. 12, 1857—

At this season of the year, when cholera, cholera morbus, dysentery and other kindred complaints are sure to prevail, everybody should be liberally supplied with Perry Davis's Vegetable Pain Killer. Persons leaving home, whether it be for a day's excursion or a trip to Europe, should be in a condition to place their hands on it at a moment's warning. Many diseases incident to the Summer months, which will prove fatal if not immediately checked, can be promptly cured by one or two doses of the Pain Killer. On more than one occasion have we been relieved of intense suffering by the timely use of the above named preparation.

A Reliable Family Medicine.

While the various proprietary medicines which have been offered to the public by greedy speculators have gained for themselves at best but an ephemeral notoriety, the preparations of J. C. Ayer, & Co., have, by their superlative merits, won for themselves a place in the hearts of the people, which does credit to their judgment, and honor to the science and skill of the proprietors. Each of Dr. Ayer's medicines is compounded with especial reference to that *one* class of diseases for which it is designed, and each is acknowledged by the profession and the public to be the best remedy which the age affords for the disorders which it is designed to cure. See Dr. Ayer's advertisement in another column.
