PRESENTATION.—At the last meeting of Court Tantramar, No. 803, a handsome silver ice water pitcher which bore the following inscription:

TO JAMES WOOD,
FROM
COURT TANTRAMAR,
I. O. F.
6TH OCT. 1891.

was presented to him by his brother members as a wedding gift. Mr. H. Berton Allison, C. D. H. C. R., read the address of presentation as follows:

BROTHER JAMES WOOD.

The members of this court ask your acceptance of this Silver Ice Pitcher as a Wedding Gift, together with their congratulations and best wishes for the future happiness of yourself and wife. We hope you will both live to celebrate your golden wedding, and also that your example as the first to marry of our Court, since its establishment may be speedily followed by all its unmarried members.

Yours in L. Band C.,
H. BERTON ALLISON,
C. D. H. C, R.
for the members of the Court.

Mr. Wood was taken completely by surprise and was greatly pleased with the recognition of the brotherhood, and on receiving the gift from the hands of brother J. E. Hickey V. C. R. made a suitable reply. This court was inaugurated last April, and is now in a flourishing condition, while the most cordial and harmonious feeling exists among its members.

Midgic.

—Our enterprising townsman, J. P. Noiles Esq. is building a very extensive and commodious store. His business has increased so rapidly of late that the premises formerly occupied became entirely too small. Mr. Noiles intends laying in a large supply of Tea, Molasses, Tobacco, Sugar, Rice, Fish-hooks, Rabbit-wire, Patent medicines and drugs of all kinds.

—Mr. Max O'Brien has just finished and moved into his new residence on Centerville Road. It is build in gothic style with Corinthian Pillars. Mr. O'Brien intends making extensive improvements on his grounds.

—For some time past a man has appeared in this vicinity in disguise. He cannot be named at this date. He attacked a neighbor at a very late hour one night but his courage failed. This occured on the railway track between Midgic station and the snow fences. It is supposed that he has some treasures hidden there, which he tries to protect.

Jolicure Items.

—Mr. Clarence L. Hicks is to have an auction of live stock at his residence on Friday next.

—Owing to the heavy rain on Friday, the pie social in aid of the Methodist church did not take place until Saturday evening, and notwithstanding the bad state of the roads, a large number were present and the amount of $35.50 was realized.

—Parties should be careful in events like the above and not sit down on the pies as it does not in any way improve their flavor.

—One of our enterprizing citizens is having his house repaired and painted, which improves the looks of the corner, but your correspondent would advise that he put written instructions over the door bell, so that parties will be able to ring instead of using the old fashioned knuckles.

—Partridge's have made their appearance, but are not in good condition for eating yet.

—The POST is a welcome visitor in many families here. Long may it be published and may success attend it is the wish of many.

—I have just been informed by one of the committee that another pie social is to be held in the hall here on Tuesday evening, Nov. 3rd. This time it is the ladies of the Point de Bute Baptist church They intend making it a success. Beside the choice selection of pies, Mr. A. J. Tingley will be on hand with his cornet. The Misses Dixon snd Duffy will preside at the organ, and it is expected that Miss Alice Tingley will favor us with a solo. Others will also take a part. And all lovers of pie and music should try and come.

—Considerable ploughing is being done by the farmers and the fall work will soon be completed.

Baie Verte.

—The weather continues wet and stormy with a considerable sprinkling of snow on Saturday, making the gathering of roots a slow, unpleasant operation.

—Mr. Nelson Goodwin, of Boston, has opened up a blacksmith shop at the lower corner, where he is prepared to do general blacksmithing in good American style.

—One of our popular merchants, W. J. Mahoney Esq., has for some weeks been sojourning in the States for the benefit of his health, which has of late been quite delicate.

—Joseph Read Esq., vice consul, Norway and Sweden, arrived with his bride on Wednesday's train from their wedding trip to Niagara and other points of interest. We extend to Mrs. Read a cordial welcome to our thriving little town and would congratulate Mr. Read in securing one of St. John's fair ladies for the remainder of life.

—In the case of Louis Atkinson referred to in last issue of the POST the statement was made that while camping in the woods he supplied himself in the very liberal tribute levied on the farmers." Whilst it may be admitted that the potato fields suffered depletion for his support, the assertion concerning the killing of the steer needs confermation. It is generally known that the unfortunate yeung man previous to his affliction was of good moral character, and it would seem strange that upon becoming slightly demented he should so far loose all moral restraint as to be guilty of the deeds laid to his charge. One thing is clear that before going into the newspapers with reports such as the above, we should be very sure that we have sufficient evidence of their truthfulness. (Our authority for the statement that Mr. Atkinson killed a steer, says the body of the animal was found and bore marks where several choice cuts had been taken. If incorrect we regret the publication. Ed.)

—During the continued absence of the superintendent of Baie Verte circuit, his supply, Mr. Stevens of Wallace seems likely to have abundance of help in carrying on the good work. Among the recent additions to the ranks of spiritual teachers on the circuit are Mr. Marples, a Baptist evangelist, two representatives of the Salvation Army and two of what are known as "Grimmersonites," all of whom are actively engaged 'in season and out of season." The appointments at Cross Roads and Tidnish Hall were filled last Sunday by Mr. Robert Goodwin.

Westmorland Point.

—The citizens are becoming somewhat alarmed about the weather, there seems to be no signs of the rain and most being willing to give place to a few fine days to enthe securing of the remainder of the roots.

—There is some dissatisfaction in regard to so much salt water being on the marshes some having already referred the matter to legal council, as they claim to have lost hay to quite an extent, and seem to be convinced that the dykes have been cut down without the consent of the proper parties. We feel however that the cause of their complaint is truly a "blessing in disguise."

—We had no church service on Sunday last owing to the illness of the rector, Rev. D. M. Bliss, who it will be remembered suffered from a very protracted sickness last winter, during which time his pulpit was occupied by Rev. R. Simonds and others, and from which it is feared he has not recovered.

—Our prayer meeting was postponed this week in consequence of a number of its active members being absent.

—Sunbeam lodge holds its election officers this Tuesday evening, when an especially large attendance is requested.

We are pleased to hear such encouraging news from the Ship Railway to the effect that a number of important railway engineers and officials have lately visited the works, and expressed themselves highly pleased with the operatious, and have every assurance of the completion, and successful operation of the road.

—You may have expected an answer to the paragraph in the POST a few weeks ago, in regard to your correspondent from Westmorland being such a dreadful character, in language which he would not use in private, much less in the respectable columns of the press; but as he writes to some purpose, it is not necessary to reply as you are aware a few words of slanderous abuse amounts to nothing, in regard to the facts of any case, as they prove clearly the minds and sentiments of those who use them. Sot the matter remains, "What I have writen I have written."

Fort Lawrence.

—William Miner and Sons are a progressive and enterprising firm and are still to be found at the front. This firm own and control one of the best American threshers in the province which has all the latest and best improvements, and one we notice worthy of note is the new patent automatic straw clearer consisting of six saws, which no other make of machine can boast of. This machine took first prize at the late provincial exhibition, St. John. This firm has done the principal portion of threshing in this locality and they deserve the patronage of the public as grain can be threshed much faster and with less labor than with other machines and they are the men who know how to give satisfaction with it. They threshed on Saturday last at the barn of G. E. Chapman, Fort Lawrence, 50 bushels of oats in 30 minutes.

—The authorities at Halifax are determined to enforce the truant act. The other day a woman represented her son to be 14 years of age, when he was only 12, the age at which he should be in school, and the police magistrate fined her $5.00.

—The net weight of a barrel of turnips at G. W. Slipp's store on Saturday store on Saturday was found to be 131 lbs. We do not know whether that is a heavy or light weight, but the remarkable thing about this particular barrel is that it only contained seven turnips; average weight 18 5-7 lbs. The largest one weighed 21½ lbs. The turnips were raised by C. L. S. Raymond.—Woodstock Sentinel.
