LARGE BUSINESS BEING DONE ON THE I. C. R.

Never before has so much freight been handled on the I. C. R., as at the present time, for despite the fact that the Allan liners do not land as much freight here as they did last year, other lines more than making up the deficiency, while the exports from Cape Breton are away ahead of any previous year. That the Nova Scotia division originates more freight than any other on the road is not disputed.

Seven hundred cars of freight are hauled out of Halifax by the I. C. R. every week on the average, while the H. and S. W. and the D. A. R. handle about three hundred between them. The export freight is even greater than the import, for the freight for export by the Furness liners handled over the I. C. R. amounts to three times the import freight the road receives from these boats.

The same is true of the P. and R. liners, for the larger part of their cargo goes to the Sugar Refineries while they take full cargoes here.

While there is a considerable difference in the amount of freight landed by the Allan liners this year owing to these ships going around to St. John, which they did not do last year, this is more than made up by the increase in the freight landed by the Mexican liners which is much greater than ever before. On every trip now, these Elder Dempster boats have full cargoes going both ways, and this means a considerable increase in the business of the port.

Every week from one to two hundred empty cars have to be sent into Cape Breton to handle the big freight originating there. From four to six hundred carloads cross the Strait of Canso each week, bound west, while the imports of Cape Breton are only about one half of this amount. The most of this freight is steel, and its products, coal, cement, and various manufactures. The coal and cement is largely consigned to Nova Scotia points, but the steel and chemicals go all over Canada.

While the I. C. R. business at Halifax is much greater than at St. John the total business of that port is much larger than here, owing to the enormous quantity of freight handled by the C. P. R. at West St. John.

The Nova Scotia "Lumber King" says:

"I consider MINARD'S LINIMENT the BEST liniment in use.

I got my foot badly jammed lately. I bathed it well with MINARD'S LINIMENT and it was as well as ever next day.

Yours very truly,
T. G. McMULLEN.

WHO PAYS FOR YOUR ADVERTISING.

Our attention has been drawn to the following from the Bookseller and Stationer. We trust that our merchants will study it carefully and profit by the suggestions.—

"Who pays the cost of advertising? At first sight this question looks easy. One is apt to say off-hand that the advertiser pays it. But upon closer investigation, it becomes apparent that an advertiser, who advertises properly, gets back all the money he spends in advertising, and a good deal more—else what would be the use of his advertising?

"The purchaser doesn't pay it, because he gets the goods as cheaply from an advertising firm as he could from a non-advertising firm. In many cases he buys cheaper. Then who pays the cost of advertising?

"The non-advertiser does! By the lack of enterprise in bringing his goods before the attention of the public he loses customers, who buy from an' advertising people. The profits which are lost by non-advertisers find their way into the coffers of those who do advertise.

"As an example: If $20 spent in advertising brings you in $30 additional profit, your advertising is paid for and you are $10 in pocket."

Salvation Army Praise

"I feel it my duty to testify to the benefit I have received from the use of **Psychine.** While travelling in New Ontario conducting special meetings I contracted a very bad cold, which gradually developed into Bronchitis of the worst form. I was advised to try **Psychine,** which I did, and after using but a few bottles I was completely restored to health. I recommend this wonderful remedy to sufferers from Bronchitis and other troubles."

Later: "I wish to add that my voice, since using **Psychine,** is stronger and has much more carrying power than it had before I had bronchitis, and the vocal chords do not tire with speaking."

P. TILLER, Capt. Salv'n. Army.
Ann St., Toronto, Aug. 13, 1907.

Throat, lung and stomach troubles cured by **Psychine;** also incipient consumption. All druggists, 50c and $1.00, or Dr. T. A. Slocum, Limited, Toronto.

SPRINGFIELD.

(Feby. 7th., 1908.)

Zero weather! Winter seems really to have come this time.

Mr. Perry McNayr was obliged to leave his work at Kennetcook on account of illness. Dr. Cole is in attendance.

Measles have again broken out in this village, Mr. William Durling being confined to the house with a severe attack.

Rev. and Mrs. John O'Brien of New Germany spent Sunday with Mr. and Mrs. J. C. Grimm. Owing to the severe storm Mr. O'Brien could not fill his appointment in the Methodist church.

An error was made by the correspondent in last week's items. The nights of closing the stores should have read Tuesday, Thursday and Friday.

Cloverdale Division will not meet with Woodbine until the evening of Feb. 17th, owing to bad weather, measles, etc.

Mr. Percy Mailman of Worcester is home for the winter.

PORT LORNE.

(Feby. 7th., 1908.)

Mr. George Beardsley arrived home from Lynn, Mass., on Saturday last.

Mrs. Frank Starratt, who has been spending a few weeks in the United States, arrived home last week.

Our pastor, Rev. S. Langille is holding special services every evening this week.

Stop That Cold

To check early colds or Grippe with "Preventics" means sure defeat for Pneumonia. To stop a cold with Preventics is safer than to let it run and be obliged to cure it afterwards. To be sure, Preventics will cure even a deeply seated cold, but taken early—at the sneeze stage—they break, or head off these early colds. That's surely better. That's why they are called Preventics.

Preventics are little Candy Cold Cures. No Quinine, no physic, nothing sickening. Nice for the children—and thoroughly safe too. If you feel chilly, if you sneeze, if you ache all over, think of Preventics. Promptness may also save half your usual sickness. And don't forget your child, if there is feverishness, night or day. Herein probably lies Preventics' greatest efficiency. Sold in 5c boxes for the pocket, also in 25c boxes of 48 Preventics. Insist on your druggists giving you
